Valley Varsity Teams Win Trophies At Canadian Tourney

This past weekend, both boys and girls varsity teams played in the Canadian Tournament. The boys took first place and the girls won consolation.

The varsity boys played Panhandle Thursday, January 3, winning that one 66-53. Quarterly, Valley trailed Panhandle 11-14 at the end of the first period, 24-30 at halftime, then went ahead 49-47 before the third period stop. They continued to gain, finishing the game ahead 66-53.

Statistically, Clardy had 0-5-23; Silva, 0-0-0; Williams 11-3-25; Saul 4-0-8; Phelps 1-0-2; Morrison 1-0-2; Cox 1-0-2; Beavers 1-0-2; Taylor 0-0-0; Martin 0-0-0.

The second game was played Friday, January 4, against Spearman, with the Patriots winning that one 59-37. Quarterly, Valley led 17-10 at the first bell, 28-22 at halftime, 40-29 at the end of three periods and 59-37 at the final bell.

Clardy ended this one 2-2-6; Silva 1-0-2; Williams 11-3-25; Saul 2-0-4; Phelps 4-1-9; Morrison 4-0-5; Cox 0-0-0; Beavers 2-1-5; Taylor 0-0-0; Martin 0-0-0.

The championship game for the Patriots was played Saturday night, January 5, against Canadian, and the final score was 48-39.

The first period ended in a 14-14 deadlock; second period 28-22 in Valley's favor; third period 32-33 with the Patriots trailing, then coming back in the final period to take honors with a

48-39 final.

Statistically, Clardy had 5-4-14; Silva 0-0-0; Williams 7-2-16; Saul 5-0-10; Phelps 1-0-2; Morrison 1-0-2; Cox 1-0-2; Beavers 1-0-2; Taylor 0-0-0; Martin 0-0-0.

The Lady Patriots played Panhandle in their first game January 3, with Panhandle winning 68-30, leading all the way.

First period ended 21-7, halftime score was 41-16, three periods 58-20 and final 68-30.

Calvert, Hewett, Green, L. Price, Maupin, D'anna Smith and Morrison were scoreless in this game. Fulbright had 2-3-7; S. Price 2-0-4; Brittian 4-1-9; Johnson 2-3-7; Devonna Smith 1-1-3.

The second game played January 4 by the Lady Patriots was with Follett. These two teams were well matched with Valley coming out ahead by one point, 52-51.

Quarterly, Valley 12-12; 20-28; 32-38, then going ahead 52-51.

Calvert had 1-0-2; Green 0-0-0; Fulbright 6-4-16; Hewett 0-0-0; S. Price 2-0-4; L. Price 0-0-0; Morrison 0-0-0; Brittian 1-3-5; Johnson 5-0-10; Devonna Smith 2-1-5; Maupin 2-4-8; D'anna Smith 1-0-2.

The consolation game was played Saturday, January 5, against Follett again. The teams see-sawed back and forth. First period ended 5-3 in Valley's favor. It was 12-13 at halftime with Follett leading. Valley was back on top 23-17 at the third quarter stop, and the Lady Patriots went on to take a 32-25

victory.

Statistically, Calvert, Green, Hewett, S. Price, L. Price, Morrison all were scoreless. Brittian was 2-2-6; Johnson 0-3-3; Devonna Smith 1-2-4; Maupin 3-0-6; D'anna Smith 3-0-6.

All of this was in the Canadian Tournament which was played January 3-5, and which saw the Patriots receive the championship trophy and the Lady Patriots bring home the consolation trophy.

The Valley girls played Petersburg December 20, with Petersburg winning 28-26. The two teams were well matched. Valley was ahead 3-2 at the end of the first period; 12-9 at halftime; 18-17 at the end of three quarters, and the game ended with Petersburg one basket ahead, 28-26.

Statistically, Calvert 0-0-0; Green 0-0-0; Fulbright 1-4-6; Hewett 0-0-0; Sandy Price 0-0-0; Lacy Price 0-0-0; Morrison 0-0-0; Brittian 1-0-2; Johnson 1-0-2; Devonna Smith 1-1-3; Maupin 1-3-5; D'anna Smith 4-0-8.

On December 29, the varsity girls played Groom with the opponents winning 57-39, leading all the way.

Quarterly, Groom was on top 8-3, 24-12, 46-23 and 57-39.

Calvert, Green, L. Price and Morrison were scoreless. Fulbright 2-0-4; Hewett 1-0-2; Brittian 10-1-21; Johnson 1-2-4; Devonna Smith 0-1-1; Maupin 2-1-5; See PATRIOTS—

Chamber of Commerce Makes Plans For Fall Volksmarch

The Quitaque Chamber of Commerce met Tuesday, January 8, with nine members present.

The main thing discussed was getting a walking club organized in Quitaque in order for the Volksmarch to be held in the area this fall.

The Chamber is planning to sponsor a fishing contest this spring and summer. More information on this will be published as the fishing season and starting time for the contest gets closer.

It was also decided to change the meeting date from the first Tuesday to the second Tuesday of each month. The Chamber meets at 7:00 a.m. in the Community Room at the First National Bank.

It is time again to pay Chamber of Commerce dues. The Chamber needs every business, organization and individual to be a member. Membership for a year is \$20.00 for businesses and organizations and \$10.00 a year for individuals. Send memberships to B. J. Griffin, Box 273, Quitaque, Texas 79255, or deposit your money at the First National Bank.

Bob Wills Foundation To Meet January 17

A general meeting of the Bob Wills Foundation has been called for Thursday, January 17, at 7:00 p.m. in the Bob Wills Center Cafeteria. All directors, committee heads and members are urged to attend.

Cheese To Be Given Away In Turkey Friday, January 18

Turkey Senior Citizens have announced that cheese will be given away this month on Friday, January 18, in the Senior Citizens Room at City Hall. Those who are eligible should keep this date in mind.

TURKEY FIRE DEPARTMENT THANKS THE PUBLIC

The Turkey Volunteer Fire Department wants to thank all the people and the businesses who made donations to the Christmas project. Santa visited approximately fifty homes in Turkey and gave approximately 150 toys and snacks of fruit.

The love and generosity of the people of the community was responsible for the success of this activity.

Visitors in the home of Mrs. Delila McFall Sunday were Mr. and Mrs. Sid McFall, Quitaque; Mr. and Mrs. Billy Joe McFall of Pampa; Mr. and Mrs. Jack McFall, Jena and Justin, Silverton.

"We the Women" To Meet Monday

Monday noon will be a regular meeting day for "We the Women" with a luncheon at the Quitaque Community Center. If you haven't been attending these meetings, this would be a good time to start. The only dues are the cost of your meal.

A nursery is provided at the First Baptist Church.

New EMT Class To Begin February 4

There will be an EMT Class started February 4 at the Quitaque Community Center.

Class will begin at 7:00 p.m. Anyone interested can contact David Brunson or Elgin Conner before this date.

SERVICES TO BE HELD AT QUITAQUE COMMUNITY CENTER

Everyone is invited to attend "Praise" services to be held at the Quitaque Community Center January 11, at 7:00 p.m.

This will cover praise, prayer and share together.

Minister will be Jerry Phillips of Trinity Church of Tulla, Texas.

Mrs. Estelle Davidson spent the past weekend visiting her sister and husband, Mr. and Mrs. E. R. Oreutt, in Memphis.

New Arrivals

John and Rayna Boling of Youngsville, Louisiana are the proud parents of a baby boy, Gregory Allen, born January 3, 1985. He weighed 9 lbs. 2 ozs. and measured 22 1/2 inches.

Gregory has an older brother, Nathan, who is 3 1/2 years old.

Grandparents are Mr. and Mrs. Weldon Purcell of Saudi Arabia and Mr. and Mrs. Don Gentry of Lafayette, Louisiana.

Great-grandmothers are Ladora Purcell of Quitaque and Marie Boling of Silverton.

Mr. and Mrs. Bobby Ivan Brunson of Plainview are the proud parents of a new baby daughter, Krystal Nicole, born Thursday, December 27, 1984. She weighed 7 lbs. 7 ozs.

The young lady has a sister, Angela, who is four years old and a brother, Chad, who is three years old.

Grandparents are Mr. and Mrs. Dan Hayes of Plainview and Mr. and Mrs. Bobby Brunson of Edmonson.

Great-grandparents are Mr. and Mrs. Arlin Owens of Plainview, Mr. and Mrs. James Kimbell of Quitaque and Mr. and Mrs. R. L. Brunson of Turkey.

Guests in the home of Mr. and Mrs. P. John Monk during the Christmas holidays were their children, Mr. and Mrs. Eddie

Monk of Leander, and her mother, Mrs. Jean Ollila of Portland, Oregon.

All of Mr. and Mrs. Monk's children were visiting P. John in the hospital in Plainview last week. They were Dellis Monk of Mesquite, Eddie Monk of Leander and Mrs. Bettie Johnson of McKinney.

Mrs. Cora Gragson left Quitaque Monday, December 17, and drove to Amarillo. She spent the night in the home of Mrs. Lola Middleton and the next morning Mrs. Middleton took her to the airport where she explained for Fort Smith, Arkansas to visit relatives. She spent ten days in Arkansas, visiting her sister, Mrs. Loma Dickson, and her twin brother, Aaron Elmore, and his family, a niece, Mrs. Dean Beauchamp, and a school-girl friend, Mrs. Bertha Glover. She returned to her home December 28, reporting a very nice trip.

Mr. and Mrs. Bill King of Colorado Springs and Mr. and Mrs. Ray Don King of Weatherford, Texas, arrived Thursday night to visit their mother and grandmother, Mrs. Leona Morris. Ray Don and wife left Friday to return to their home. The Bill Kings remained for a longer visit. They were joined here by Mr. and Mrs. Corky Morris Sunday.

In the guests for Christmas visiting in the Mary Pittman home, a daughter and family, Mr.

and Mrs. Matt Garth and family of Hereford, were omitted.

Mrs. Estelle Davidson had all her children home on Christmas Day. Those present were Mr. and Mrs. Fred Davidson, Bonnie and Steven, Amarillo, Mr. and Mrs. Stewart McCracken, Tulia, Mr. and Mrs. Ronnie McCracken and Travis, Lubbock, Mr. and Mrs. Richard Edwards, Chris and Kevin, Olton, Mr. and Mrs. Jon Davidson, Dimmitt, Mr. and Mrs. Jimmy Don Davidson, Sterling City, Mr. and Mrs. Jimmy Davidson and Floye McCracken, Quitaque.

Afternoon visitors were Mrs. Lockwood McCracken, Quitaque, Mary Jo Polk, Cedar Park, Texas, Lex Herrington, Austin, Darrell Dowd, Panhandle State.

Visiting in the home of Mrs. Dollie Woods on Christmas Day were Mr. and Mrs. D. W. Baca of Iowa Park, Mr. and Mrs. Gail Gregg, Jeff, John and Randy of Sudan; Mr. and Mrs. James Starkey, Steve and Tracey of Merrell; Mr. and Mrs. Truman Merrell of Quitaque and Mr. and Mrs. Dewayne Adams and Joanna Fe of Post.

Trivia Questions And Answers

1. Where the fire department is in Turkey there have been several businesses. Can you name them?

2. Who was the last baby born in Quitaque in 1984?

3. How much did the Turkey High School cost?

4. What is the annual rainfall (inches) in Briscoe County?

5. What is the altitude of Briscoe County?

6. What was the oil value in Briscoe County in 1982?

7. What is the annual rainfall of Hall County?

8. What is the altitude of Hall County?

9. What was the oil value in Hall County in 1982?

10. What is the annual rainfall of Motley County?

11. What is the altitude of Motley County?

12. What was the oil value in Motley County in 1982?

1. Karen Elliott had exclusive rights for an interview with Jordan's King Hussein.

2. The road runner is a member of the cuckoo family.

3. The last baby in Gasoline, Texas was Dellis Monk.

4. The blizzard of 1940 was thought to have been in February.

5. Briscoe County was named in honor of Andrew Briscoe. He was one of the signers of the Declaration of Texas Independence and fought in the battles of San Antonio and in the memorable battle of San Jacinto in 1836.

VETERANS SERVICE OFFICER TO BE IN SILVERTON

Billye Kesler, Veterans Service Officer employed by the Commissioners' Court, will be in the County Courtroom of the Briscoe County Courthouse in Silverton the fourth Thursday of each month at 9:00 a.m. to help all veterans with their problems.

Mr. and Mrs. Jimmy Don Davidson of Sterling City, Texas, and Mr. and Mrs. Jon Davidson of Dimmitt visited in Quitaque at the home of their parents, Mr. and Mrs. Jimmy Davidson, over the Christmas holidays.

by Wilburn Leeper
 The State Board of Education recently passed a rule which states in part, "School districts shall adopt a policy limiting the number of hours a student may practice or perform outside the school day in a single extracurricular activity to eight hours per school week." The rule continued by adding, "Performance including travel time held after the beginning of the school week but prior to the end of the school week (excluding holidays), though held outside of the school day shall be counted against practice time, provided the total time counted against practice time for the first of such performance shall be limited to two hours."

If school officials are fortunate enough to wade through the language of this rule and obtain a degree of understanding of its meaning, it still appears to be somewhat misleading. The rule applies only to time spent in practice of games which are held after the regular school day is complete. Activities which take place during the school day will not count against the eight-hour limitation but rather is affected by the rule which states that students may not miss class more than ten days per year.

The use of Valley's participation in the Canadian basketball tournament is a pretty good example of the rule application. Our basketball players left Valley at 1:30 Thursday, spent Thursday and Friday nights at family homes in Canadian, and finally returned home at the conclusion of the tournament on Saturday. The Thursday game and travel was counted as the first performance of the week and counted only two hours against the eight-hour limitation. The students missed part of Thursday classes and all day Friday but the time missed was charged against the ten-day rule limit. If the team had played a game earlier in the week (a first performance) more time would have been charged for tournament participation, therefore making it impossible to attend the tournament.

The purpose of the ten-day rule is to limit the amount of time taken away from class while the eight-hour limit seeks to cut down on times spent for after-school functions such as practice and games. Neither rule is difficult for Valley students to meet during normal years. This year only a few students have missed as many as four classes and most have missed only two. By the end of the school year all students should be well under the limit of ten.

D'anna Smith 1-0-2.
On December 20, the Valley JV boys played Petersburg at Valley beginning at 4:00 p.m., winning that one handily, 64-37, with Valley on top all the way.

Ruiz had 2-4-8; Little 4-2-10; Silva 4-1-9; Brannon 0-2-2; McNary 1-0-2; Mullin 7-2-16; Morrison 1-0-2; Patrick 2-0-4; Saul 0-3-3; Myers 3-0-6; Taylor 1-0-2.

The varsity Patriots played Petersburg following the JV game and it was more of the same, winning 65-29. The first period ended 19-4, it was 33-13 at halftime, 53-20 at the end of three periods, and the final score was 65-29.

Statistically, Williams had 6-2-14; Clardy 8-3-19; Phelps 2-4-8; Morrison 3-0-6; Silva 1-2-4; Beavers 2-0-4; Cox 1-0-2; Saul 4-0-8; Taylor 0-0-0; Martin 0-0-0.

On December 29, the varsity Patriots played Groom at Valley, taking that one 65-51.

The first period ended 12-17 with Groom on top, 30-26 at halftime in Valley's favor, 43-35 at the end of three periods and 65-51 total.

Clardy had 6-4-16; Silva 1-2-3; Williams 8-3-19; Saul 4-0-8; Phelps 3-0-6; Morrison 2-0-4; Cox 1-0-2; Beavers 1-0-2; Taylor 0-0-0; Martin 2-1-5.

December 29, the JV played Groom here also and won 58-26.

First period of play ended 29-2, halftime 40-14, three periods 48-20 and final 58-26, with Valley on top all the way.

Statistically, Silva 4-1-9; Scogins 1-0-2; Smith 4-0-8; Barrett 3-0-6; Myers 2-0-4; Martin 3-0-6; Ruiz 2-1-5; Brannon 0-1-1; Patrick 2-0-4; Taylor 2-0-4; Mullin 1-0-2; Morrison 1-0-2; Little 2-1-5.

were very successful in the Canadian Tournament. The girls were defeated in the first game by a very good Panhandle team and then came back victorious over Pollett and Childress to win the consolation trophy. The boys defeated Panhandle in the first game, Spearman in the second, and beat Canadian in the finals for first place.

Again, there are stories about how well our students conducted themselves, both on and off the floor. We were told by fans, officials, and other players about how unbelievably courteous the Valley players are. To prove the point, our boys received the very coveted sportsmanship trophy and the girls were highly considered for the same honor. It is very unusual for a team to win both the championship and sportsmanship trophies. Such honors are a tribute to coaches, students, parents, and school faculty members.

Fish Wilson tells the story about the time Gasoline School

OUR NIGHT DEPOSITORY IS OPEN 24 HOURS A DAY FOR DEPOSITS AND LOAN PAYMENTS. SOLID STEEL AND CONCRETE PROTECT YOUR FUNDS FROM LOSS OF ANY KIND. IT'S SAFE AND CONVENIENT. WE INVITE YOU TO USE IT!

FDIC

was challenged by Haylake School to a game of baseball. When Gasoline arrived at Haylake they were assured that dressing facilities were secure enough to protect the visiting team's valuables and clothing. Fish says he dressed-up for the occasion by wearing a very special polka dot tie and suspender combination. He, like the other players, left his clothing in the dressing room. Sometime during the game, the dressing room was broken into by someone looking to steal valuables who took a liking to Fish's special tie and suspenders. Fish didn't say whether Gasoline won or lost the game, but he certainly remembers losing some favorite articles of clothing during this 1933 event.

School will be dismissed Friday, January 11, for mid-term teacher workday.

**VALLEY FHA ENJOYS
PROGRESSIVE DINNER**

The Valley Future Homemakers of America held their Annual Progressive Christmas Dinner. Everyone met at the home of Betty Price for appetizers. The next stop, the junior class and senior class went to the home of Laurie Harp. The freshman class and sophomore class stopped at the home of Lacy Price for the main course. The dinner ended at the school with dessert and the opening of the gifts. Everyone reported a good time, including C. L. —Reporter

Visitors in the Aubrey Turner home for Christmas were their children, Mr. and Mrs. John Paul Couchman, Rachel and John Paul of Amarillo, Don Turner of Tarzan and Amy Gibson and a friend from Amarillo.

**Mrs. Madden Earns
Scholastic Honors
At Amarillo College**

Mrs. LaDonna (Matthews) Madden was listed on the dean's honor roll at Amarillo College for the fall semester with a 3.4 grade point average on a 4.0 scale. She was congratulated on the achievement by R. Eugene Byrd, Vice President and Dean of Instruction.

Mrs. Madden is the daughter of Allen Matthews of Turkey.

Dr. and Mrs. Jay Stone and Devlin and Shonda of El Paso visited his parents, Mr. and Mrs. Leroy Stone, for several days during the holidays. Also Mr. and Mrs. Buddy Copaus, Misti Stone and Belinda and Randy Yeisley, all of Lubbock.

Volksmarch To Be Held Here In The Fall

The Quitaque Chamber of Commerce is planning to sponsor a "Volksmarch" or "Walkfest" this fall. In order to prepare for this event, we will first organize a "Walking Club" here in the Quitaque area.

A meeting to organize will be held January 31 at 7:00 p.m. in the community room at the First National Bank in Quitaque. At this time we will hopefully have the date set for the Volksmarch and will have information about just what a "Volksmarch" is, about the national organization, etc.

Anyone interested is urged to attend this meeting.

Visiting Mrs. Bert Degan over the weekend was her granddaughter, Lisa Prather, from College Station.

Mrs. Chlorene Melton had as guests on Christmas her daughter and family, Mr. and Mrs. Neil Trout and Danny and Scott Court, all of Childress. That night Mr. and Mrs. Jack McFall, Jena and Justin of Silverton visited her.

Jim Baisden of Grapevine visited his mother, Nadine Baisden, before Christmas. She accompanied him home and spent the holidays with him and his family.

Quitaque Camera Club Meeting Tonight

Have you ever lost a great picture opportunity because you didn't focus properly or you jiggled the camera while pressing the shutter release? If so, the Quitaque Camera Club has a program for you tonight (Thursday) at 7:30 o'clock at the Community Room of the First National Bank.

The program will help you make better pictures by showing you how to handle a camera properly and how to take advantage of the versatility of your 35mm camera. Interchangeable lenses, built-in exposure meters, adjustable shutter speeds, and lens openings are a few of the many topics discussed. Exposure difference, depth-of-field, and stop-action techniques will also be explained.

As a special bonus, an award will be presented for the best photograph or slide that was made at last month's meeting.

Mr. and Mrs. Johnny Peery had their children and grandchildren for Christmas. They were Mr. and Mrs. Pete Perry and Rhenda of Bowie, Mr. and Mrs. Brad Ziegler and Trey of Silverton, and Mary Peery. Rhenda spent a week with her grandparents and her parents came for her on New Year's Eve. Other visitors were Mary Beth Doss and baby of Amarillo and Kimberly Prater and son of Lawrence, Kansas.

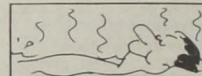

FARM BUREAU 4-H SCHOLARSHIP

The Texas Farm Bureau has funded a 4-H Food and Fiber Development Scholarship through the Texas 4-H Youth Development Foundation.

The scholarship has been awarded to Darlene Henderson of Porter in Montgomery County, a senior at Texas A&M University majoring in agricultural education.

Purpose of the scholarship is to develop educational materials in food and fiber production that can be used in public schools to give students a better understanding of various agricultural

commodities produced in Texas and how these affect their daily lives, notes a 4-H specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

The warmest sea on earth is the Red Sea in Asia Minor. Its average temperature is 95 degrees F.

With The Sick

P. John Monk returned to his home in Quitaque Saturday after spending several days at Central Plains Hospital in Plainview.

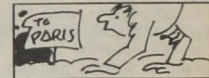

Charlie Grundy was taken to Swisher Memorial Hospital in Tulia Thursday of last week. The Rev. Jess Little visited him Friday and reported he was feeling better.

Vaughn Hall returned home Thursday from Methodist Hospital in Lubbock where he had been several days.

Jack Cheatham is in the Veterans Hospital in Amarillo where he is scheduled to undergo surgery, possibly this week.

Mr. and Mrs. Tom Eudy spent Christmas in Canyon with their daughter and family, Mr. and Mrs. Doug Phillips and two boys, and their other daughter, Mr. and Mrs. Jack Fields and two daughters of Claude.

Walter Borden visited his parents, T. M. and Margaret Borden, in Grady, New Mexico during the holidays.

In 1900, Jhann Huslinger walked from Vienna to Paris, 871 miles, on his hands. At 10 hours a day, the journey took Huslinger 55 days.

Windbreak Popul Is Still Growing

Despite rumors you may have heard regarding the demise of windbreaks, the fact is that the miles of trees and shrubs along the fields and around farmsteads increase each year. And with good reason.

True, many older windbreaks have succumbed to disease, insects and general neglect. Others have fallen before chain saws and bulldozers to provide more tillable land on farms hard-pressed to meet high mortgage payments.

But even during the tough economic times of late, new windbreak plantings have more than offset removals.

Farmstead windbreaks are attracting more interest than field windbreaks, largely for their potential for saving energy. Studies have shown that a strategically-placed windbreak can reduce annual heating and cooling costs by as much as 30% or more. A well-designed wind

DIAGRAM OF AN EFFECTIVE WINDBREAK

Windbreak Popularity Is Still Growing

Despite rumors you may have heard regarding the demise of windbreaks, the fact is that the miles of trees and shrubs along the fields and around farmsteads increase each year. And with good reason.

True, many older windbreaks have succumbed to disease, insects and general neglect. Others have fallen before chain saws and bulldozers to provide more tillable land on farms hard-pressed to meet high mortgage payments.

But even during the tough economic times of late, new windbreak plantings have more than offset removals.

Farmstead windbreaks are attracting more interest than field windbreaks, largely for their potential for saving energy. Studies have shown that a strategically-placed windbreak can reduce annual heating and cooling costs by as much as 30% or more. A well-designed wind-

break creates privacy and adds beauty to a farmstead. It can also reduce noise, livestock odors and wind damage to farm buildings.

Drip-irrigation systems now make it possible to establish windbreaks even in extremely hot, dry areas.

Windbreaks can save a great deal of moisture in both irrigated and dryland fields. By slowing wind movement, trees reduce water losses from evaporation and plant transpiration. Sprinkler efficiency is increased because less water evaporates before it reaches the ground.

Along with their many benefits to farmers, windbreaks provide protection, nesting habitat and food for wildlife.

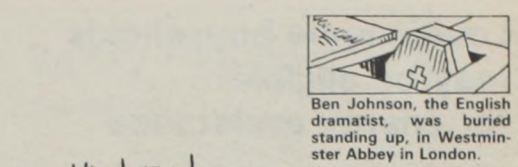

Once trees are in, however, some effort is required to get them established. Good weed control to prevent competition and enough water to assure survival are essential during the first few years. Livestock should

be fenced out to prevent injury to the young trees. Some replanting may be necessary to prevent gaps that would reduce the effectiveness of the windbreak, and occasionally insect or disease control is needed.

Windbreaks should contain at least one row of hardwoods. Most hardwoods grow faster than conifers and provide a windbreak effect at an early age.

Examples of each include **Hardwood**-Ash, Chinese Elm, Cottonwood, Golden Willow, Hackberry, Honeylocust, Poplar; **Conifer**-Aspen, Austrian Pine, Colorado Blue Spruce, Eastern Red Cedar, Pinion Pine, Rocky Mountain Juniper, Scotch Pine; **Shrub**-Caragana, Cotoneaster, Honeysuckle, Lilac, Plum, Sand Cherry, Nanking Cherry, Sage.

In order to provide maximum benefit, any windbreak must be carefully designed for a specific location and purpose. The Caprock Soil and Water Conservation District is taking orders for windbreak trees. Contact the Soil Conservation Service to

Low-income households may be eligible for energy assistance

AUSTIN—Some low-income Texas households may be eligible for help in paying their heating bills this winter through the Home Energy Assistance Program, according to Texas Department of Human Resources Commissioner Marlin Johnston.

Commissioner Johnston said the one-time payment is available to many low-income households which this month received food stamps, Aid to Families with Dependent Children, Supplemental Security Income, or needs-tested Veterans Administration benefits.

Potentially eligible veterans are those who receive payments under Section 415, 521, 541, or 542 of Title 38 of the U.S. Code or under Section 306 of the Veterans and Survivors Pension Improvement Act of 1978.

Eligibility is limited by gross income. For instance, aid is available for a one-person household having less than a \$371.49 gross income

per month. The gross income limit is \$608.49 for a two-person household, \$835.49 for a three-person household, \$1030.49 for four persons, \$1,216.49 for five, and \$1,422.49 for six.

Eligible households must be subject to energy cost increases—because of higher bills or rent due to rising utility costs.

Households in privately owned or rented housing are eligible if the cost of utilities is included in the rent payment or if the household pays a portion of its home energy costs.

Johnston said application forms are mailed automatically to households receiving food stamps, AFDC, and SSI. Households receiving needs-tested veterans benefits must request an application from DHR in January.

Those who have not received an application and think their household may be eligible should contact a local DHR office.

VA Pensioners Must Report Income Every Year

According to Billye Kesler, Service Officer for Briscoe County, persons receiving Veterans Administration pension benefits must report their income each year. If they fail to furnish the VA with the annual income accounting, the VA payments will terminate.

About November 1, 1984, income reporting cards were sent to all veterans, widows and children in receipt of VA pension benefits. The cards were also sent to the dependent parents in receipt of dependency and indemnity compensation indicating the veteran's death was caused by disabilities which were incurred during military service. These income cards must be returned to the Veterans Administration prior to January 1, 1985, for VA benefits to continue. Failure to return the income

report will result not only in termination of VA benefits, but can also create an overpayment equal to the full amount of benefits that were paid during calendar year 1984.

The income reports are not difficult to complete, but many veterans and other beneficiaries require some assistance with the form. Persons who received the income card, and who have not as yet completed it, are advised to seek help as soon as possible. If the income report is not received by the VA in January 1985, action will be taken to terminate the payments, and no check will be received February 1, 1985.

If assistance is needed in connection with this income report card, Kesler will be in the Briscoe County Courtroom in Silvertown at 9:00 a.m. on the fourth Thursday of each month, starting in January to help veterans and their dependents except when the highways are icy or deep in snow.

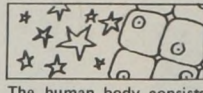

We would like to take this opportunity to say thank-you to our many customers, friends and family for their loyal support over these past two years.

You will never know how much all you have given means to us.

Closing the flower shop saddens our hearts, but knowing that everyone of you have always been there when we needed you makes our choice easier.

Though words cannot always express what we are feeling, thank you again.

Your friends at the Turkey Florist,
Brenda, Hazel, Ruth, Joe,
Cindi and Hal

This Land Is Your Land

Garry Ma

Texas Land Commission

When I visited Israel last summer, between the Israeli southern desert and Texas.

My first impression was confirmed as I traveled to Far West Texas with me. These areas have similar ecologies, and these farmers may be able to use Israeli farming techniques in the Trans-Pecos. This and that is the first phase of a project to make education more valuable.

My first goal as Texas Land Commission money for the schoolchildren of Texas farmlands. Second, we hope to demonstrate water resources, and third, we want to provide state.

Tahal Consulting Engineers Ltd. collected by the General Land Office topography and other areas of engineering which designates two state-owned experimental farming areas.

The two tracts were chosen for their crop production through the use of brush located near the city of El Paso, and the Pecos in Reeves County.

The General Land Office manages Texas that produce less than \$3 per acre. 200,000 acres have proven to be unleased acreage suitable only for grazing.

It is the policy of the General Land Office to use all state lands to be sure that we as we can. The land in the Trans-Pecos expertise that has been used in Israel last summer.

During my visit to Israel last summer where once there had only been desert. This created here at our Texas universities—Texas University, Texas Tech University and perfected by necessity by the Israelis. Then on to help us perfect it here.

The project is the first to take place Israeli Exchange, a program created to promote technology between the state of Texas and Israel.

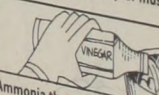

We hope to begin the second phase of with a team of Tahal consultants, commissions, our universities and the Government there are sound economical and technical using salty water.

The report says we can develop vegetables) or perennials (such as pecan question now is whether it can be done in Texas. The second phase of the project will very much in keeping with my intention Permanent School Fund lands in the Trans-Pecos.

This plan is not an academic exercise. If successful, it will produce a fruitful project for the schoolchildren of Texas. It is another state lands like a business—an income-producing aggressive management to serve as a partial fiscal crisis.

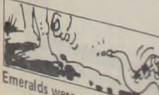

The word band comes from an ancient since a band is a group of musicians.

Ammonia that causes diaper rash is neutralized by rinsing them in vinegar.

Some people used to believe that eyebrows must be a werewolf's eyes.

Emeralds were supposed to be the eyes of a werewolf.

This Land Is Your Land

Garry Mauro

Texas Land Commissioner

When I visited Israel last summer, I was struck with the similarity between the Israeli southern desert and the Trans-Pecos region of West Texas.

My first impression was confirmed recently by two Israeli engineers who traveled to Far West Texas with me. They agreed that the widely separated areas have similar ecologies, and these engineers pointed out that Texas farmers may be able to use Israeli farming techniques to improve our own farmland in the Trans-Pecos. This and their other conclusions are in a report that is the first phase of a project to make our public lands dedicated to education more valuable.

My first goal as Texas Land Commissioner is to find ways to make more money for the schoolchildren of Texas from our Permanent School Fund lands. Second, we hope to demonstrate better use of our state's precious water resources, and third, we want to produce more food and fiber for the state.

Tahal Consulting Engineers Ltd. of Tel Aviv have gone over data collected by the General Land Office staff, studying hydrology, soils, topography and other areas of engineering interest to put together this report which designates two state-owned tracts in West Texas as possible experimental farming areas.

The two tracts were chosen for their suitability to show irrigation and crop production through the use of brackish (salty) water. One tract is located near the city of El Paso, and the other is located 23 miles southwest of Pecos in Reeves County.

The General Land Office manages more than 800,000 acres in West Texas that produce less than 53 per acre per year. That's because nearly 200,000 acres have proven to be unfeasible, with much of the remaining acreage suitable only for grazing.

It is the policy of the General Land Office to determine the highest and best use of all state lands to be sure that we earn as much money for the state as we can. The land in the Trans-Pecos can be productive if we apply the expertise that has been used in Israel to move their desert back 75 miles.

During my visit to Israel last summer, I saw highly productive land where once there had only been desert. The technology used to do this was created here at our Texas universities—Texas A&M University, Sul Ross University, Texas Tech University and the University of Texas—and perfected by necessity by the Israelis. These Texas universities will be called on to help us perfect it here.

The project is the first to take place under the auspices of the Texas-Israeli Exchange, a program created to promote the exchange of ideas and technology between the state of Texas and the state of Israel.

We hope to begin the second phase of the West Texas project in 45 days, with a team of Tahal consultants coming to Texas to work with state agencies, our universities and the Governor's Office to help us decide whether there are sound economical and technical reasons to develop the two tracts using salty water.

The report says we can develop crops (like certain salt-tolerant vegetables) or perennials (such as pecans, almonds or pistachios). The question now is whether it can be done at a profit for the schoolchildren of Texas. The second phase of the project will cost an estimated \$90,000, but it is very much in keeping with my intention to increase the productivity of the Permanent School Fund lands in the Trans-Pecos.

This plan is not an academic exercise but an exercise in making money. If successful, it will produce a fruitful project not only for Texas farmers but for the schoolchildren of Texas. It is another step in our efforts to manage our state lands like a business—an income-producing business that does its best by aggressive management to serve as a partial solution to the state's current fiscal crisis.

The word *band* comes from an ancient word for *bind*, since a band is a group of musicians bound together.

Ammonia that causes diaper rash on wet diapers can be neutralized by rinsing them in vinegar after washing.

Some people used to believe that anyone whose eye-brows met must be a werewolf, vampire or witch.

Emeralds were supposed to be effective against snakebite.

Pesticide Safety Highlights

December, 1984

(AUSTIN)—Texas currently has no enforceable pesticide-application standards to prevent unnecessary risk to farmers, farm workers and other rural residents. The Texas Department of Agriculture has published in the *Texas Register* standards to protect human health. The standards address three areas: **reentry intervals, methods of warning workers and prior notification of neighbors, and become effective on January 21, 1985.**

The regulations on reentry intervals and warning methods will apply only to labor-intensive activities which require workers to make substantial contact with pesticide residues. They do not apply to activities which do not require workers to have substantial contact with pesticide residues. Examples of crops which ordinarily do not require substantial contact are: cotton, wheat, rice, hay or grazing crops, peanuts, rye, safflower, sesame, sugarcane, sorghum, corn, barley, soybeans, sugar beets, oats, sunflowers, alfalfa and guar. Nor will applications made to livestock be affected.

These standards include:
REENTRY INTERVALS

- Establishes 24-hour reentry periods for Toxicity Category I chemicals (those labeled "Danger") and procedures to set 24-hour reentry periods for chemicals that cannot demonstrate an absence of undue chronic effects.
- Establishes a committee to help the Department develop appropriate reentry intervals for pesticides used on Texas crops.
- Sets interim reentry intervals of 48 hours for 15 chemicals and seven days for one chemical.

WARNING METHODS

- Establishes an oral warning as the standard method of alerting workers to stay out of a "hot" field. The posting of flags or signs at designated points of access where workers enter a treated field is required when the reentry period is seven days or less **only if** workers are sent into the fields **before** expiration of the reentry interval. Furthermore, workers who enter treated fields **before** expiration of the reentry period, must receive an oral or written warning of the dangers involved, and must wear appropriate protective clothing. However, neither posting nor protective clothing is required if workers are kept out of fields during the reentry period.
- Requires posting of flags **only** for those pesticides with reentry intervals longer than seven days. TDA is not placing any chemicals in this category at this time.

PRIOR NOTIFICATION--AERIAL APPLICATIONS ONLY

- Allows neighbors to request in writing that they be notified the day before pesticides are used on land immediately adjacent to theirs.
- Allows persons with certified health problems to ask for prior notification of spraying within one-fourth mile of their property.
- Allows farmers to give general notice to adjoining landowners by posting a flag.
- Provides exemptions from prior notification rules for emergency pesticide applications.

Smoking Causes Heart Disease

Many smokers don't realize that most cigarette-related deaths are from heart attacks, not lung disease. "Fifty-three percent of smokers do not know or believe that smoking is a cause of heart attacks," Antonio Gotto, M.D., president of the American Heart Association, said at a recent press conference in Washington, D.C.

For almost 30 years the AHA has opposed cigarette smoking with increasing vigor. Dr. Gotto said, because of growing evidence of the devastating effects of smoking on the heart and other organs. An AHA committee of experts has reviewed the evidence and concluded that "smoking is the single most preventable cause" of coronary heart disease.

Cigarette smokers have a two to four times greater risk of sudden death from heart disease than non-smokers. Their risk markedly increases when such factors as high blood pressure, high blood cholesterol or diabetes are also present.

Female smokers who use oral contraceptive pills increase their risk of heart attack approximately tenfold and their risk of subarachnoid hemorrhage, a type of stroke, approximately twentyfold.

The risk of disease from cigarette smoking is directly related to number of years smoked, number of cigarettes smoked per day and the habit of inhaling. The risk of death from coronary heart disease declines upon cessation of smoking.

Help your heart! Don't smoke. Millions of Americans have given up the habit. And as many as two-thirds of the more than 50 million Americans who continue to smoke would like to quit and most have tried to do so. Following an unsuccessful attempt to quit, some smokers switch to cigarettes lower in tar and nicotine. While switching may lower the risk for some diseases, there is no evidence that it reduces the risk for heart and blood vessel diseases.

Mrs. Boatman To Celebrate Her Ninetieth Birthday

The children of Mrs. J. R. (Zoda) Boatman invite friends to share with them in the momentous occasion of her ninetieth birthday anniversary at a brunch and reception Sunday, January 13, 1985, from 11:00 a.m. until 4:00 p.m. at Clapp Party House, 46th and Avenue U in Lubbock. Your friendship is a cherished gift and no other is requested.

Mrs. Boatman and her husband, J. R. (Bob), lived at Turkey many years and also lived between Turkey and Quitaque until ill health forced them to move to Lubbock, where Mr. Boatman died in 1969.

All of the family reports having good friends in the Turkey and Quitaque area. Ora (Auburg) Bone, the oldest, Mary (Warden) Clough, Lee Boatman, and Lola Follis all attended school in Quitaque. Arthur Boatman, Amy Underwood and Grace Wooten all attended school in Turkey, along with Bennie and Joyce Boatman, grandchildren of Bob and Zoda.

The family lived 2 1/2 miles northeast of Turkey for many years. Mama (Zoda) Boatman wants to invite all her oldtime friends in the area to her birthday party. She is in good health and likes to go places. She fell about three years ago and now uses a cane, but is still

ATTEND ANNIVERSARY RECEPTION IN LUBBOCK

Mr. and Mrs. Gordon Bain and Mrs. Bert Degan attended the fiftieth anniversary wedding reception for Rev. and Mrs. Johnnie Williams held at St. Luke's United Methodist Church in Lubbock, on Sunday, December 30. Rev. Williams is a former pastor of First United Methodist Church in Turkey.

Annual Experiment Station Conference

"Research Balance—The Cutting Edges" will be the theme of the annual conference of the Texas Agricultural Experiment Station at Texas A&M University January 7-10.

Some 500 scientists from throughout the state will be taking part in the annual meeting of the state's agricultural research agency.

Dr. Neville Clarke, Experiment Station director, will address the conference along with a number of other top agricultural officials, including the deans of agriculture at the University of California and the University of Minnesota and the past board chairman of Pioneer Hi-Bred International, Inc.

The name of the flower that we call the daisy was so dubbed because the daisy looks like the day's rays. Its petals grow around a yellow center like the rays of the sun.

Mrs. Boatman To Celebrate Her Ninetieth Birthday

The children of Mrs. J. R. (Zoda) Boatman invite friends to share with them in the momentous occasion of her ninetieth birthday anniversary at a brunch and reception Sunday, January 13, 1985, from 11:00 a.m. until 4:00 p.m. at Clapp Party House, 46th and Avenue U in Lubbock. Your friendship is a cherished gift and no other is requested.

Mrs. Boatman and her husband, J. R. (Bob), lived at Turkey many years and also lived between Turkey and Quitaque until ill health forced them to move to Lubbock, where Mr. Boatman died in 1969.

All of the family reports having good friends in the Turkey and Quitaque area. Ora (Auburg) Bone, the oldest, Mary (Worden) Clough, Lee Boatman, and Lola Follis all attended school in Quitaque. Arthur Boatman, Amy Underwood and Grace Wooten all attended school in Turkey, along with Bennie and Joyce Boatman, grandchildren of Bob and Zoda.

The family lived 2 1/2 miles northeast of Turkey for many years. Mama (Zoda) Boatman wants to invite all her oldtime friends in the area to her birthday party. She is in good health and likes to go places. She fell about three years ago and now uses a cane, but is still

MRS. J. R. (Zoda) BOATMAN

in spirit.

Mrs. Boatman now lives in Littlefield with her daughter, Mrs. Grace Wooten and husband, who pastor the Assembly of God Church.

Mrs. Boatman voted for the first time in her life (for Ronald Reagan), and she received a letter from President Reagan, honoring her birthday anniversary. He stated that Mrs. Boatman's grandson, Bill Gibson, had enlightened him to the occasion of her ninetieth birthday, and he and Nancy sent their regards for a happy birthday and happy New Year.

Mr. and Mrs. Ralph Carter were in Tulia Saturday afternoon and visited Leon Barham who recently suffered a heart attack. They report he is improving well.

The Carters drove on to Canyon where they attended a basketball game between Canyon and Tulia in which their grandson, Layne Hedrick, was a participant.

Bullock Again Trims Estimate Of State Revenues

State Comptroller Bob Bullock Friday again trimmed his estimate of available state revenues to keep pace with plunging world oil prices.

"The official Biennial Revenue Estimate I'm sending the Legislature next week reflects not only the \$256 million cut we expected to make in December, but another \$129 million on top of that," Bullock said.

"This shouldn't come as a surprise to anybody who has watched OPEC lose its fight to hold up oil prices or to any Texan who witnessed a disappointing 1984 Christmas retail season," Bullock said.

"In September we felt oil prices would drop to \$27 a barrel and hold there. That price is not holding and this estimate is based on a drop to \$25 a barrel next year and to \$24 a barrel in 1987," Bullock said. "This is a grim situation but it might get worse before it gets better."

Before 1859 baseball umpires sat in a padded rocking chair behind the catcher.

NEW HALL COUNTY SHERIFF, DEPUTY ARE GUESTS OF LIONS

New Hall County Sheriff Thomas Tippitt of Memphis and Deputy Terry Woolley of Turkey were guests of Turkey Lions Club at their regular meeting held at noon on Tuesday, January 8, in the Bob Wills Center Cafeteria. They spoke briefly on plans for law enforcement in this area of Hall County and asked for the cooperation of all citizens.

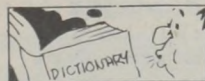

Boss Lion Keith Green called the meeting to order and directed the business session. There were 14 Lion members present and three guests, including those named and Doug Setliff.

A delicious steak lunch with peach cobbler was served by Faye Armstrong.

Thawing Frozen Pipes

If this winter is anything like last winter, some Texans will find themselves confronted with frozen plumbing. Even in a normal moderate Texas winter, it's possible to have pipes freeze because of a sudden drop in temperature, says Texas A&M University Agricultural Extension Service housing specialist Dr. Peggy Owens.

"Should the pipes freeze, there are two important rules for thawing them in a way that won't do more damage in the process," Dr. Owens says. First, always open faucets connected to the pipe being thawed. When faucets are left closed during the thawing process, she says, the pipe may burst if steam develops in the blocked pipe. Second, don't use open-flame heat sources to thaw pipes, she cautions. The pipes could be damaged and dry or flammable materials near the pipe may ignite.

The most overworked word in English is possibly the word "set" which has 58 noun uses, 126 verbal uses and 10 uses as an adjective.

Imitation Cheese Not Always Like The Real Thing!

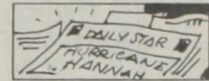

It may look and even taste like cheese, but these days, only the label will tell you what you're eating.

Under Food and Drug Administration (FDA) regulations, a dairy product which does not meet the relevant standard of identity must be called "imitation," says Texas A&M University Extension Service nutritionist Mary K. Sweeten.

But if the product substitutes for and resembles another food and is not "Nutritionally inferior" it does not have to be called imitation, she adds.

Some imitation products, like imitation cream cheese, are not nutritionally equivalent to the

products they resemble says Ms. Sweeten. But others are a popular and economical category of substitute cheeses which have been fortified to contain the same amounts of protein and 19 other ingredients for which U. S. Recommended Daily Allowances have been established.

One half of the world's newspapers are written in English.

To find either one or nine peas in a pod is considered good luck.

OPEN LETTER TO THE CITIZENS OF TURKEY

In consideration of the warmth and friendship which has been expressed by so many of you since we arrived in Turkey, we take this opportunity to say "thanks." We feel that we've made many friends in the short time we've been here, and we look forward to making this our permanent home. Those of you who we have yet to meet, we look forward to becoming your friends too. We've met so many people here and throughout Hall County, so please be patient with us while we try to remember all of your names. For those who don't know, my wife is Tammy, and our daughter, Cherokee, is four . . . and our son, Kiowa, is eighteen months old.

I know that there has been a lot of "speculation" about law enforcement in the area since I came here as the resident deputy sheriff. I think that the Apostle Paul, in his letter to the early church in Rome, says it well in Romans, chapter 13.

"Let every man be subject unto the law . . . for there is no law but the power of God. Whoever resists the law, resists the ordinance of God and shall receive damnation. For officers of the law are not a terror to good people, but are a terror to evil ones. For the officer is a minister of God for good deeds. But those who are evil be afraid, for God has not given the officer the sword in vain, for no reason. For the officer is a minister of God and is an avenger to execute wrath upon those that do evil."

It's my desire to prevent crime and other problems BEFORE they happen. YOU are the law, you citizens create laws for the welfare and protection of us all. I would appreciate your voluntary compliance. If you have a problem, let's get past the problems and work on the answer. I'm available.

TERRY WOOLLEY
Deputy Sheriff 423-1455

ATTEND ANNIVERSARY RECEPTION IN LUBBOCK

Mr. and Mrs. Gordon Bain and Mrs. Bert Degan attended the fiftieth anniversary wedding reception for Rev. and Mrs. Johnnie Williams held at St. Luke's United Methodist Church in Lubbock, on Sunday, December 30. Rev. Williams is a former pastor of First United Methodist Church in Turkey.

Annual Experiment Station Conference

"Research Balance—The Cutting Edges" will be the theme of the annual conference of the Texas Agricultural Experiment Station at Texas A&M University January 7-10.

Some 500 scientists from throughout the state will be taking part in the annual meeting of the state's agricultural research agency.

Dr. Neville Clarke, Experiment Station director, will address the conference along with a number of other top agricultural officials, including the deans of agriculture at the University of California and the University of Minnesota and the past board chairman of Pioneer Hi-Bred International, Inc.

The name of the flower that we call the daisy was so dubbed because the daisy looks like the day's eye. Its petals grow around a yellow center like the rays of the sun.

Officers Installed At Turkey UMW Meeting

Mrs. R. C. Green was hostess to members of the Turkey United Methodist Women in her home on Monday, January 7, at 4:00 o'clock in the afternoon. She was installing officer and used an impressive service, giving each one a flower or other plant as she outlined the duties of each office. The new officers include Marcela Patterson, president; Faye Armstrong, vice president; Nadine Baisden, secretary; Fredia Fuston, secretary of program resources; Virginia Degan, secretary of christian personhood; Wilma Wedge, secretary global concerns; Ila Turner, secretary supportive community, and Marjorie Bain, secretary christian social involvement.

The group sang "Onward Christian Women" to the tune of "Onward Christian Soldiers," accompanied at the piano by Mrs. Green. The leader said flowers and plants were a symbol of life given to us in Christ. She said some need sun and some shade; some need wet soil and some dry soil; some are good to eat and others just give their beauty. She concluded with a poem, "The Lord Had a Job for Me."

There were ten members present. The meeting closed with circle prayer with each one giving a short prayer.

The hostess served cookies, juice and coffee.

Mrs. Ruth McKay spent the holidays in Dallas visiting in the homes of her daughters, Mrs. Wilma McFarland and family and Mrs. Mildred Buckley and family. A dinner was held at the home of Mr. and Mrs. Clint McFarland. There were over 40 guests and relatives for Christmas dinner. They dined on turkey and all the trimmings. Mrs. McKay remained until after New Year's and was accompanied home by her daughter and husband, Mr. and Mrs. Leroy Buckley, and her son, Nathaniel, jr.

Mr. and Mrs. Joe Hill were hosts at a family Christmas dinner on December 23. Those attending were Mr. and Mrs. Howard Landry, Jacky and Karen and her fiancé, Brian; James Landry, Wesley and Stephanie and Mr. and Mrs. George Early, all of Amarillo; Mr. and Mrs. Billy Landry and Landon of Claude, and Mr. and Mrs. Jerry Landry and David of Turkey. They reported a great time of eating and visiting.

According to EPA's latest estimates, U. S. industry generates more than 300 gallons of toxic waste for every person in the country each year, says the National Wildlife Federation. All told, that adds up to 71 billion gallons of toxic waste. This is 60 percent higher than EPA's figures released last year.

Male humpback whales are underwater singing stars, says National Wildlife's **Ranger Rick** magazine. When they decide to sing they dive to about 80 feet, rest their heads down, stretch their flippers out, and begin a tune of moans, moos, grunts and groans that lasts up to 30 minutes.

Caution Urged For Safe Medication

Elderly people who take many medications may be tempted to crush or mix pills so they will be easier to swallow. But not all medications can be safely treated this way, cautions gerontologist Dr. Judith Warren.

Some tablets are coated to conceal the unpleasant taste of

the medication, prevent irritation of the mouth and esophagus, or to delay release of the drug, says Dr. Warren, a specialist with the Texas A&M University Agricultural Extension Service home economics program.

Crushing a coated tablet immediately releases the drug and

may cause a bitter taste in the mouth, stomach irritation and nausea. This may cause some elderly to avoid taking the medicine as prescribed, Dr. Warren notes.

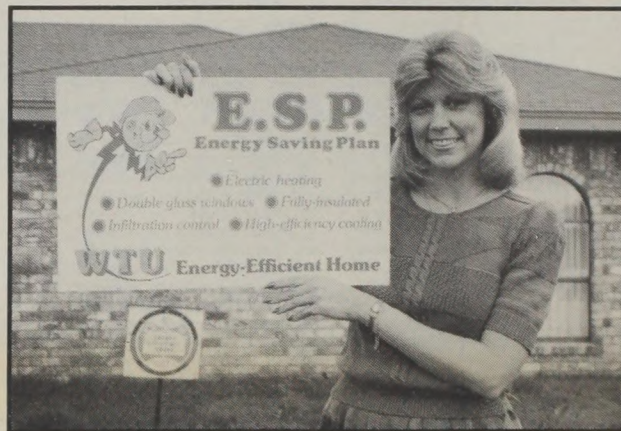

Drug overdose or side effects can also occur, she adds. Since crushing or dissolving any medication can alter its effects, elderly patients or those who care for them should ask the pharmacist, doctor or nurse whether an alteration will be

safe, Dr. Warren suggests.

If you go hunting this fall try to come home without getting shot or shooting your companion.

The longest worm in the world is called a ribbon worm, says National Wildlife's **Ranger Rick** magazine. Some ribbon worms grow to be 90 feet long—which is longer than three school buses parked end to end.

When You're Looking For A New Home, Look For An E.S.P. Home...

It'll Save You Money!

SAVE THOUSANDS OF DOLLARS on your electric bill over the life of your home by owning a WTU-Approved E. S. P. Home. Some homes on the market may seem energy efficient, but you can be confident an E. S. P. Home really is. WTU has carefully inspected and qualified each E. S. P. Home to meet energy efficiency requirements.

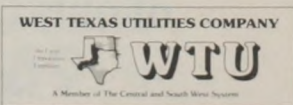

E. S. P. REQUIREMENTS include some of the most important energy saving features, such as:

- Ceiling insulation of R-30 and wall insulation of R-16.
- Storm windows or insulated glass.
- Weatherstripping and caulking around all doors and windows.

- Electric heat pump with a Seasonal Energy Efficiency Ratio (SEER) of 8.0 or above.
- Air conditioning with a SEER of 8.5 or above.
- Air infiltration control.

COMPARE HOW MUCH YOU CAN SAVE with an E. S. P. Home over a one-year period:

An average 1800 square foot home will cost you approximately \$775 a year to heat and cool. An E. S. P. Home of 1800 square feet will cost approximately \$570 a year to heat and cool, which results in an annual savings on electricity of 26 percent or more. (Energy savings may vary according to the type of home, family size and individual energy usage habits.)

Electricity.
It's the Power of Choice.

For more information on the E. S. P. Program, call your local WTU office today. **AN E. S. P. HOME CAN SAVE YOU MONEY ON FUTURE ENERGY BILLS.**

Vehicle Use Requirements

Remember the good old days (last year) when you could buy a car and write off a good portion of it for business expense? This was oftentimes done without really good record keeping, and unless you were audited, no one really knew the type of records you kept.

Thanks to the Tax Reform Act of 1984, all of this has changed. Effective January 1, 1985, you must keep a contemporaneous (at or near the time of use) mileage and expense log of when and how you use your business car. The use of your automobile for business purposes must be proven based on the records you keep.

Don't confuse this with the method you use for deducting vehicle expenses. You still have the option to use: (1) Actual cost method where you can deduct the Investment Tax Credit (ITC) and Depreciation (ACRS), interest expense if the car is financed, operating expenses such as gas, service, parts and insurance; or (2) Standard mileage method where you can deduct total business mileage of 20.5 cents for the first 15,000 and 11 cents over 15,000. ITC, interest, and subsidiary fees such as parking fees.

The purpose of the Vehicle Use Log is to prove what percentage of time the auto has been used for business and the number of business miles put on your car.

There are two reasons for maintaining a log. First, a tax-return preparer can sign a taxpayer's tax return only if the taxpayer certifies in writing that adequate records exist. Secondly, failure to maintain a log is now grounds for the IRS to assess a negligence penalty against the taxpayer.

Failure to keep the log will result in the loss of all deductions and credits associated with the vehicle. Any mileage not accounted for as business use is assumed to be personal use.

Driving to and from work is not deductible.

Leased vehicles will be treated in the same manner as owned vehicles.

FACE OF FORTUNE

A timely idea in gift giving can be a clever clock whose face is an enlarged reproduction of your business card. The clock can also be made from a letterhead, certificate or similar item.

Many people might like to get their hands on this Time Frame, with its clear lucite frame, brass hands and quartz movement. It can be set on a desk or hung on the wall and runs for a year or more on one double A battery.

The eight by ten inch clock is available for \$80 in check or money order, plus \$3.95 for shipping and handling (tax is not included), from Wryte On, P.O. Box 393, Commack, N.Y. 11725.

Texas Teacher's Write-To-Publish Workshop Planned

The Texas Teacher's Write-to-Publish Workshop will be held in Amarillo at the Sheraton Hotel February 2 from 9:00 a.m. until 3:30 p.m.

The workshop will help teachers learn how and what to write to publish children's materials.

The presenters are Sandra and Rita Whiteside, authors of the recently-published "Primary Writing Fun," by Good Apple Co. Inc. Because their first efforts were a hit-or-miss success, they'll share information on how they "mistaken" their way into successful writing.

During the last 18 years, they have taught grades one through

six in various New Mexico communities. They have master's degrees in reading and counseling, and give many workshops throughout the Southwest on such topics as Writing, Classroom Management, Time-on-Task and Curriculum.

For information, brochures are available from A&D Bookstore, 621 West Sixth, Amarillo, Texas, ABC Blueprint, 906 South Tyler, or write Write-to-Publish Workshops, 13412 Reo Road NE, Albuquerque, New Mexico 87112.

There is a difference between the ones who think they're big shots and those who are big shots.

The largest rooftop garden in the world—with over 5,000 plant species—is atop a seven-story department store in downtown London, England, reports **International Wildlife** magazine. The garden attracts a variety of wild visitors, including flamingos and pheasants, which simply fly in.

Birds sleep in many different places, says National Wildlife's **Ranger Rick** magazine. Most sleep in old nests close to where they feed. But sea birds snooze while floating on the water and a ruffled grouse will dive into a snowbank to catch 40 winks.

It is difficult to know which politicians are lying on which particular subject these days.

PUBLIC NOTICES

NOTICE TO BANKS

On Monday, February 11, 1985, at 10:00 o'clock A.M., the Commissioners' Court of Briscoe County, Texas will open applications by any banking corporation, association or individual banker of such County, for designation as depository of County and County School Funds.

Associations shall state the amount of paid-up capital stock, permanent surplus and financial condition of said bank and shall be accompanied by a certified check of one half (1/2) of One (1) percent of \$490,000.00 (which is the proposed amount of receipts of the County and County School Funds for the year of 1985) as a guarantee of good faith.

All negotiations to comply with Article 2544 V.A.T.S. and any other statutes governing county depositories.
/s/Fred W. Mercer
County Judge
Briscoe County, Texas 31-3tc

DID YOU KNOW ?

Sticking to the subject has paid off for one inventor in an unusual way.

About a decade ago a scientist named Arthur L. Fry had a bright idea. A member of his church choir, he was in the habit of marking hymn selections for Sunday service with a scrap of paper. Often, the paper would disappear.

Some years earlier, a colleague of Fry's at 3M, Dr. Spencer Silver had developed an oddball adhesive. It was just strong enough to stick to things but it came off easily. Fry tried it on his paperscrap bookmarks, and a new product was born.

Now, these Post-it brand Notes have become a top selling item across the country. They come in several sizes, colors and formats.

It all goes to prove that if you come up with a good idea, it pays to stick to it.

CONSUMER CORNER

New solid-state and digital TV sets, stereos, and videocorders are tougher to repair than old-fashioned tube type sets and require special training for the service technician who works on them.

Only a few states have laws requiring competency tests for licensing technicians who repair consumer electronics, but fifteen years ago the International Society of Cer-

tified Electronic Technicians (CET) began its own certification program to qualify these technicians and those in industry. To carry the CET designation, technicians must have four years experience and pass a rigid examination on general electronics and a specific area of expertise such as audio or radio-TV.

Many consumers look for a Certified Electronic Technician in the shop when they need any electronic item repaired.

Free Consumer Checklist
A consumer checklist for selecting a service shop is available free by sending a stamped, self-addressed envelope to: Checklist, IS CET, 2708 West Berry, Fort Worth, TX 76109. The list reminds

Modern electronic equipment such as digital TVs or stereos should be repaired by specially trained people.

consumers to check such items as "Does the business have the parts for your particular brand?", "Did you get an estimated price?", and "Did you check this company with the Better Business Bureau?"
