Crump Named Bank Vice President

Effective December 31, 1993, Ken Crump was named Vice President of Sunray State Bank in Sunray, Texas.

Sunray State Bank also owns and operates The First State Bank in Dumas, Texas with the same officers.

In addition to his duties as Vice President, Crump is the loan administrator and bank manager of the Sunray bank.

Ken Crump is the son of Jacquelyn Ham of Quitaque and grandson of the Jack Barnhills of Turkey.

THEN and NOW!

by Eunice McFall

Are you an idealist or a realist? Webster says that an idealist is one who looks at the world as they would like for it to be and a realist looks at it in the way that it really is. Can we be both an idealist and a realist?

An idealist has hope for the future and belief that the happenings of today will be wonderful and just what they would like to happen while a realist will read the morning paper and see all the pain and sorrow in the world and wonder how anyone can be an idealist! An idealist sees good in all situations and in all people. They never look for the evil, only the good in people. They believe that tomorrow will truly be a better day for everyone. Do you? A realist looks at tomorrow through dark glasses and only sees problems and clouds in the sky. Is this your outlook? Can we change our way of thinking?

You have always heard about the grass being greener on the other side of the fence. As you know a cow is always trying to reach just one more blade of grass through the fence even though the grass may be knee high on her side of the fence. Are we like this cow in that we always want what is just out of reach? Now if we are working toward a goal with high hopes that is one thing but if we are just wishing for the greener grass that is a totally different thing. Think about this! Don't be envious if the grass is greener on the other side of the fence. It's also harder to cut!

I for one, think you can be an idealist and a realist at the same time. If you demand the very best of yourself and keep a sharp eye out for the truth of whatever is happening you will be seeing life as it really is (realism) but with a dream of the future being what you would like for it to be (idealism).

To gain the ideal realism we need to think positively, think the dream is possible, exercise solutions that are positive, think cooperatively and not competitively and just maybe we will have success in the venture that we have only dreamed about before now. Winston Churchill once said "Never, never, never, never give up." Can you think of a better solution to a problem?

Briscoe Rebates On Upswing

"For the fourth consecutive month, year-over-year employment increased statewide," State Comptroller John Sharp stated, "for an average of 2.1 percent above last year's figures."

Quitaque sales tax was increased 22.62% over the January rebates of 1993. Quitaque received \$1,097.94. This was on the sale of goods in November of 1993.

Silverton had a rebate of \$1,227.72 which was an increase of 15.87% over January rebates in 1993.

Turkey Lions To Honor Valentines

The Turkey Lions Club will sponsor a buffet luncheon Sunday, February 13, at Hotel Turkey. Everyone is invited, but widows and widowers of Turkey will be honored guests. There will be a fee at the door for all others attending. Serving time is 11:30 a.m. through 1:30 p.m. Proceeds will go towards the Valley School Honor student program at the end of the school year. This program is a joint project of Turkey and Quitaque Lions Clubs.

Treat your sweetheart to Valentine's Day luncheon and join in the fun and fellowship.

Immunization Clinic Slated

An immunization clinic will be held at Valley School on Thursday, February 17, 1994, beginning at 10:00 a.m. Parents must be present for a child to receive an immunization unless the student is 18 years old.

The Department of Health charges reasonable fees for the immunizations given in these clinics to assist with the cost of maintaining this service. The amount of money charged for these immunizations is based on family income and size.

City Officials Filing Begins February 21

Candidate filing for the May 7, 1994, city officers' election in Turkey and Quitaque, officially begins February 21, 1994. Filing deadline is 5:00 p.m. March 23, 1994. A write-in candidate must be a declared candidate thirty days prior to the election. There is no filing fee.

The officers up for election this year in Turkey are places 1, 4, and the position of Mayor. Currently, George Colvin is Mayor, Rita Guest is in place 4, and Brian Wheeler is in place 1.

At Quitaque, residents will be electing two councilmen and a Mayor. The council positions are currently held by Janice Henson and Arnold Castillo.

Drapery Workshop Slated In Turkey on February 21

by Ann Coker

A "No Sew" Draperies Workshop will be held Monday, February 21, in the Bob Wills Center from 7 p.m. until 8:30 p.m.

International Students Need Hosts For 1994

American Host Families are being sought for high school students from Western and Eastern Europe, Asia, South America and Australia for the 1994-95 school year in a program sponsored by the American Intercultural Student Exchange (AISE).

These exceptional students, ages 15 through 18 will arrive in the United States in August, attend a local high school, and return to their home countries in June of 1995. The students, all fluent in English, have been carefully screened by the local representatives in their home countries, and have their own medical insurance and spending money.

AISE's main focus is teaching young people about the importance of the acceptance of other cultures. Cultural exchange is necessary to the continued betterment of civilization as we know it. Without acceptance of the validity of differing cultures, we as Americans are in great danger of becoming culturally ignorant.

Don't let this exciting opportunity pass you by! Call 1-800-SIBLING for a free brochure.

American Intercultural Student Exchange is a non-profit tax exempt organization dedicated to fostering international understanding.

Driver's Course Offered At Clarendon

A Driver Safety Course will be held at Clarendon College on Saturday, February 12, 1994.

It will meet from 9 a.m. to 4 p.m. in room 101 of the Administration Building. A fee is being charged. Please contact Clarendon College at 1-806-874-3571 for further information.

Upon completion of this course, participants will be eligible for a 10% discount on their liability insurance or dismissal of a traffic violation. All dismissals of traffic violations must be approved by the appropriate Justice of Peace. This course is offered by Clarendon College and USA Training Company, Inc.

Turkey Tax Rebates Up

by Ann Coker

"Consumer confidence proved itself when Texans set out on some early Christmas shopping in November," Comptroller John Sharp said as he delivered more than \$123 million in January sales tax rebates on November sales to 985 Texas cities.

The city of Turkey's payment was \$818.29, an increase of 6.58% over January 1993.

Memphis' payment showed a 70.12% increase over January 1993 with \$14,156.80.

Estelline was the only Hall county town whose sales were down. Their rebate payment was \$760.46, down 11.22 percent from January 1993.

Colorado Blue Spruces Free

The workshop is being sponsored by the Turkey Family Community Educators.

Interested persons MUST pre-register by Thursday, February 21 by calling Mary Beth Adamson at 423-1030 or Marjorie Bell at 423-1263 or 423-1086. The cost of the workshop will include yardage and materials.

The workshop is a step-by-step instruction on how to create the latest and most current fashions in window treatments. You will create fabric rosettes, puffs, bows, bishop sleeves, swags and arched window treatments. You will also learn to save money by creating your own window treatments.

The workshop is an education program of the Texas Agricultural Extension Service and is open to all.

Memorial Fund Established For CF Research

The Jammie Cammack Memorial Fund has been established to assist with financial support to families with Cystic Fibrosis children and to help support the research centers that are working so hard to find a cure for this life-threatening pulmonary disease.

Cystic Fibrosis is a pancreatic enzyme deficiency affecting the exocrine glands throughout the body, both mucus producing and other. Although CF is a widespread multisystem disease, the progressive pulmonary infections are the most important clinical problem and are responsible for most of the morbidity and mortality.

The disease was first noted in 1936, and its pathophysiology was discussed in 1938, and since these early discoveries, much has been done to lengthen the survival of children with this life-threatening disease. At present, approximately 50% of people effected with CF survive well into their twenties.

CF is an extremely expensive disease to treat. Anyone wishing to donate to this cause or obtain further information may do so by sending to:

Youths To Exhibit Stock at 1994 Houston Show

Twenty-nine FFA members and four 4-H members from the Valley School will be joining other 4-H and FFA members from throughout Texas for showing competition at the upcoming Houston Livestock Show, February 19 through March 6 at the Astrohall.

These FFA and 4-H exhibitors compete in one of two divisions of the Houston Livestock Show--the junior show division. The other division, the open show, attracts its exhibitors from the world's agricultural industry, who are primarily professional breeders and ranchers.

Entries in both the open and junior shows combine with horse show entries to make the Houston Livestock Show the world's largest.

Representing 878 Texas 4-H clubs and FFA chapters, the junior show is expected to draw more than 11,000 entries this year. A variety of animals are shown in the junior show division: market steers, market swine, market sheep, market poultry, beef and dairy heifers, breeding sheep, goats, commercial steers and breeding rabbits.

The four market animal categories (steers, lambs, barrows and poultry) represent animals raised by the exhibitor as food sources. Top animals in each of these categories are eligible for their individual market auctions. Total money paid in 1993 at the four junior show auctions exceeded \$3.5 million.

"The most significant part of our livestock show is the junior show," said Steve Woodley, Houston Livestock Show and rodeo manager. "It represents Texas youth and their commitment to education, discipline and agricultural development."

FFA members entering the show from Valley School are Tate Bennett, Teal Bennett, Brody Davis, Tracy Guest, Michael Lane, Jamie Pigg and Jarret Pigg, all of Turkey; Joni Hancock of Lakeview; Rickey Hughes of Flomot; and Alex Hinojosa, Ruben Hinojosa, Vance Lemons, Jana Merrell, P Jay Merrell, Ben Pigg, George Pigg, Krisse Pigg, Mandy Pigg, Mary Pigg, B. J. Price, Brandi Price, Chris Price, Crystal Price, Janet Ross, Julie Ross, Briana Sperry, Will Sperry, Shawn Stephens and Jess Yeary, all of Quitaque.

Valley 4-H members entering in the junior livestock show are Tessa Kelley, Scarlett Sperry and Will Sperry all of Quitaque and Jarret Pigg of Turkey.

Colorado Blue Spruces Free

Ten free Colorado blue spruce trees will be given to each person who joins the nonprofit National Arbor Day Foundation during February 1994.

Colorado blue spruces have silver blue-green color and compact conical shape. They can be used as individual ornamentals, an energy-saving windbreak, a privacy screen, or as living Christmas trees.

The trees will be shipped post-paid at the right time for planting between March 1 and May 31 with enclosed planting instructions. The six to twelve inch trees are guaranteed to grow, or they will be replaced free of charge.

To become a member of the Foundation and to receive the free trees, send a \$10 membership contribution to Ten Free Blue Spruces, National Arbor Day Foundation, 100 Arbor Avenue, Nebraska City, NE 68410, by February 28, 1994.

Perry Applauds Restriction Removal

Farmers and ranchers who have small operations of 10 acres or less can now qualify for a farm and ranch owners policy after a 10-acre minimum requirement was removed Thursday by the Texas Department of Insurance, Agriculture Commissioner Rick Perry said.

The previous acreage restriction required, in some cases, the owners of small agricultural operations to buy multiple policies for their homes, livestock and barns if they owned less than 10 acres.

"Removing this acreage restriction will help those involved in organic vegetable production and other niche ag markets such as emu and ostrich operations," Perry said. "I applaud Insurance Commissioner J. Robert Hunter for eliminating this restriction."

Silverton Supper

The Junior Class of Silverton High School will sponsor a Hamburger Supper on Friday, February 11, 1994 at the Silverton-Valley Basketball game. They will begin serving at 6 p.m.

Want to tell you how much I enjoyed your Thanksgiving and Christmas Decorations. Have kin at Wayside, the Dudley McNeills, and go through your fair town on the way there.

You must have a wonderful group of people who live there, to keep the town so neat and clean. The decorations were just great.

Thanks for a pleasing surprise as I went through in November and December. Was a heart warming experience.

Sincere Thanks,
 Oleta Pierce

Host Families Needed For Youths

Are you interested in dynamically expanding your horizons by discovering a new culture while sharing your own culture with someone from another country? Would you like to nurture a young person's understanding of the United States and develop your own family's knowledge of a foreign country?

You can do all of this by becoming a host family for an international exchange student. The Youth Exchange Service (YES) needs families interested in hosting 15 to 18 year old students from all over the world.

These "cultural ambassadors" arrive in the U.S. with excellent Medical-Accidental Insurance, their own spending money, and a good grasp of the English language. Host families are asked to incorporate the student into the family as a genuine member of the family including room and board normally reciprocated by the student's own chores or responsibilities.

Students are scheduled to arrive in August for the one year program and December or January for the second semester program. Host families are also eligible for a \$50.00 tax deduction for each month that they host the student.

For more information regarding a wonderful opportunity to open your heart and home to a foreign student, please phone: 1-800-848-2121.

Share your heart and home with a cultural ambassador from another country.

Turkey News

Things Seen or Heard

by Ann Coker

Last Sunday, February 6, was a very special day for Kathleen Green. She celebrated her 85th birthday and enjoyed having some of her family here to help her celebrate.

Mrs. Green's sister and husband, Inell and Hub Bramblett of Plainview, were here for the day. Her daughter, Anita Kay Ochener of El Paso arrived Saturday and returned to her home on Monday. Also her son and wife, Keith and Betty Green of Turkey joined in the birthday celebration.

Homer Hawkins has returned to his home after spending a few days in Lubbock Methodist Hospital. After spending some time in ICU and a private room, he was able to come home last Sunday. Claudia Hawkins and Margaret Lane brought Homer home. While he was hospitalized, his wife, Claudia, and son, Kevin Hawkins of Amarillo were with him.

Sherrod Arnold and grand daughter, Brooke, spent last weekend in the home of Sherrod's mother, Dot Arnold, and also helped to celebrate his sister's birthday on Saturday night. Arriving at Janice Wheeler's home on Saturday night to help Janice celebrate her birthday were the Brian Wheelers, the Barry Wheelers, Davie Wheeler, Dot Arnold and Sherrod Arnold.

A week ago Monday, January 31, the ground was covered in about 8 inches of snow. On that day Mark Butler drove three of the Valley Cafeteria employees to work: Carol Butler, Linda Silvia and Ruth Adams. He delivered them safely and the Valley students enjoyed a good hot lunch.

Rad and Millie Setliff and girls, Robin and Taylor, of Dallas, drove to Turkey, Thursday, February 3, to visit with Arville and Lorene Setliff. Friday they all drove to Lubbock where Arville was to have a check-up following his surgery the previous week. Arville's surgeon sent him to Emergency at Methodist Hospital where he was hospitalized with pneumonia.

Mr. Setliff will remain in the hospital several more days. The Rad Setliffs returned to their home on Sunday.

Mrs. George Colvin was able to return to her home last week following her surgery. Veta was doing fine at last report from her husband, Buddy.

All of the children of Ariwoeen Williams were visitors in her home last week-end, plus others. Her guests were Doc Williams, of Abilene, Bridgette Johnson of Idalou, Harve Williams of Canyon and son Kyle and Kyle's friend, Ann all of Canyon. The men hunted and the ladies visited.

Local 4-H Member In Calf Scramble

Briana Speery, a 15-year old Briscoe County 4-H member from Quitaque, will compete in the 1994 Houston Rodeo calf scramble on February 26 in the Astrodome.

The calf scramble is an exciting part of Houston rodeo action, featuring Billy Ray Cyrus as part of that matinee performance.

Briana, the daughter of Terry and Jackie Speery, will compete for one of 252 calves to be awarded at the 1994 Show.

Additionally, as many as two youngsters from each of the 18 rodeo performances will be awarded "hard luck" certificates for their hardy efforts in attempting to catch a calf, resulting in 36 more certificates actually given. An entertaining event whose net proceeds provide educational contributions to Texas students, the Houston Livestock Show and Rodeo ranks as the nation's largest donor of agricultural scholarships. Currently, more than 1,000 students are attending Texas colleges on Show-sponsored scholarships. The Show's educational commitment for the 1993-94 school year exceeds \$3 million.

Equally important is the Show's commitment to youngsters competing at the event itself. The calf scramble is one of the Show's major

programs benefiting youth, requiring a yearlong commitment on the part of the winner to the animal project.

Beginning with athletic competition in the Astrodome, the program ends 12 months later with top-notch competition in the Astrobhall show ring.

The actual calf scramble event involves 28 energetic youngsters pitted against 14 vigorous calves. Each youngster is committed to capturing and bringing a calf to the finish line, but only the successful ones receive \$1,000 calf purchase certificates.

The certificates, donated by generous companies or individuals, are used to purchase purebred beef or dairy heifers.

The calves are raised by the winners for special showing competition in the Astrobhall at the

following year's Show. The yearling project is closely supervised by the appropriate county extension agent or agricultural science teachers.

Additionally, the winners are required to submit financial records, photographs and a scrapbook to the calf scramble office to detail the progress of the venture. The youngsters are encouraged to provide updated reports to their donors as well.

Toll-Free Helpline Provides Insurance Answers

(NU) - If you have been looking for unbiased, non-commercial answers to questions you have about insurance, look no further. Just pick up your telephone and call 1-800-942-4242 toll-free, and you will get someone who is trained to give you answers to your questions on life, health, auto and homeowner's insurance.

Questions like how to understand the different kinds of health insurance. Or, what are the differences between permanent and term life insurance? Or on what an annuity is and how they work. And how about questions regarding your homeowners policy and the coverage you need? Or on basic auto insurance coverage?

The National Insurance Consumer Helpline is there to help you answer these and similar questions Monday through Friday, 8 a.m. to 8 p.m., Eastern time. Consumer brochures will also be sent upon request.

The Helpline is sponsored by the American Council of Life Insurance, Health Insurance Association of America and the Insurance Information Institute.

Turkey News

H. E. and Lillian Mullin and Louis Oleta Randell were in Lockney and Plainview last Monday while in Plainview. They visited with Bill Mullin in a nursing home in Plainview.

Louis and Oleta Randell and H.E. and Lillian Mullin attended the Caprock Jamboree in Silvertown Saturday night.

Another casualty of the ice and snow last week was Fay Dudley. She fell on the ice at her home and broke her arm in two places. She laid in her yard for some time before she was able to get back to her home.

Her neighbor, Renee Fuston, drove her to the doctor.

Louis and Oleta Randell were in Childress Wednesday, visiting with Turkey people, Audrey Whitaker, Lurline Walker and Oleta Crump, in the Childress Nursing Center.

Social Security Guidelines

Many people don't know that members of religious orders who have taken a vow of poverty may still be eligible for Social Security benefits. These members who have vows of poverty have no earnings to report and pay no Social Security taxes. (Social Security benefits are generally based on your average earnings over your working life.)

But even in these instances, the services an individual performs for a religious order may be covered under Social Security if the order waives its exemption from Social Security taxation. This means the order would pay Social Security taxes for its members.

While no wages are paid to the members of the order, the "fair market value" of their meals, lodging, clothing and other benefits are deemed to be their wages.

If a religious order elects to take advantage of this part of the Social Security law, it may even elect back coverage for its members for a retroactive period of up to 20 calendar quarters—6 years of coverage. (40 quarters of coverage are generally needed to be eligible for Social Security retirement benefits.)

Whether a religious order opts for Social Security coverage or not, individual members of that order might still be eligible for benefits under the Supplemental Security Income (SSI) program. SSI payments, which are administered by the Social Security Administration, are not based upon an individual's work record. They are paid to individuals with little or no income who are 65 or older, blind, or disabled.

Individuals with questions about members of a religious order's eligibility for Social Security or SSI benefits can call Social Security's toll-free number, 1-800-772-1213, or visit our office at Plainview, TX.

Fourth Grade Wants To Wish You a Happy Valentines Day!!!

Hey, guys and gals. What's up? It's us again the fourth grade reporters. We have been rather busy this week.

We are making a video travel brochure for our pen pals in Rhode Island. The way we are doing it is everyone gets a local business and interview the owner.

In Turkey, Missy and Emily are doing the Bob Wills sign. Missy is doing the Hotel Turkey. Emily is doing Lucy's Dry Goods. Wes and Christopher are doing the First National Bank in Turkey.

Christopher is also doing the Blinking Light in both Quitaque and Turkey. Candy is doing Lisa Prices cattle. In Quitaque, Jana and Lydia are doing Merrelle Grocery Store. Amber and Allison are doing the Caprock Library.

Tessa and Rosa Linda are doing the Sportman Cafe. Amber and Danny are doing the First National Bank in Quitaque. Magan and Tate are doing the Caprock Canyons State Park.

Wess and Tessa are doing the Quitaque sign. Magan and Lydia are doing Karol's Kountry Korner. During reading we have been practicing a play called *The Great Kapok Tree A Tale of the Amazon Rain Forest*. Thanks for reading fourth grade news.

Fifth Grade News

Hi! It's us again from 5th grade. We've been working on alot of things. Last week we made Valentines. We also worked on a card for the bulletin board. It was called pieces of the heart. I put my family and Jeffery put his family because they give him money. 5th grade has also been thinking of something to get that someone special. For Some of the boys in our class that means girlfriend. But for others that means mom. So, mothers if you get a pet frog for Valentines Day just think of it as a gift from the heart or wort. Well, got to go!

Happy Valentines, Mary E & Gaby

Family Matters

by Ronda Alexander
"Family Matters" is a bi-monthly newsletter which will be offered to interested persons by the Briscoe County Extension Service. The newsletter will offer suggestions on learning how to understand children of any age.

Each issue of "Family Matters" will address a different topic relating to the development of parenting skills. These topics will include developing family communication skills, effective parenting techniques, conflict management, guidance vs. discipline and building family strengths. The newsletter will be mailed free of charge to anyone who notifies Briscoe County Extension Office of their interest in receiving the newsletter. You may call us at 823-2131, ext. 12 or

write to us at P. O. Box 730, Silverton.

The prevalence of dysfunctional families is far too common in today's families. It is up to each of us to do our part in helping the children of today to be brought up in families which are warm, safe and loving. The development of effective parenting skills can help to alleviate the problems of low-self esteem, teen pregnancy and substance abuse in children.

I hope each of you will take advantage of this opportunity to show how much your "family matters." Educational programs of the Texas Agricultural Extension Service are open to all citizens without regard to race, color, sex, disability, religion, age or national origin.

Dazzling Desserts For Busy Schedules

(NAPS)—What's the perfect ending to an evening of entertaining?—dessert, of course. A spectacular dessert can make any gathering more festive, but making one may seem like an impossible task with today's busy schedules. The PAM Test Kitchens have come to the rescue with some recipes and ideas for dazzling desserts that are quick and easy to make.

The Chocolate Almond Fudge Cake is a double-rich delicacy that bakes into a rich chocolate cake and an almond fudge sauce in just 35 minutes. Before the guests arrive, premix dry and liquid ingredients; keep separate until ready to bake. Combine ingredients and pop into the oven just before sitting down to eat. (Remember to set the timer.) Serve warm with a scoop of ice cream for a dessert that will WOW your guests.

For an even easier dessert that looks like you baked all day, try the PAM Cookie Baskets. Ice cream and fruit are dressed up when they're served in these mouth-watering cookie cups. Made from your favorite refrigerator cookie dough, the baskets are quick and easy to make—they can even be made in advance. Best of all, there's virtually no mess to clean up.

To make, first freeze a package of refrigerator cookie dough for at least one hour. Then turn a muffin tin upside down and spray the outside of each cup thoroughly with PAM®. Cut dough into 1/2-inch thick slices and place one on top of each cup. Bake at 350°F for 11 to 13 minutes or until golden brown. Watch and see the dough bake around each individual cup to form cookie baskets! Cool ten minutes, then gently remove. You can even make them early in the day, fill with ice cream, cover and freeze. Remember to remove the baskets from the freezer 20 minutes before serving. Then top with fruit.

These are guaranteed to be a hit with your guests so be sure to have plenty of extras on hand.

For more fast and festive

Facts About Migraine Headaches

By Dr. Brian E. Mondell
(NAPS)—Migraine is a pervasive condition. It imposes both social and economic strains on patient, family, friends, coworkers and society in general. Recent studies have indicated that the majority of sufferers do not seek help and that the prevalence of migraine is on the rise in the United States.

Each year, more than 17 percent of women and five percent of men in the United States report one or more migraine headaches. This means that 8.7 million women and 2.6 million men are moderately to severely disabled by migraine headache annually.

Yet, migraine still is underdiagnosed and undertreated by health-care professionals. Its cause and cure are still scientific mysteries and there are many questions without answers. In my practice, I am asked a variety of questions by patients about migraine.

A question I have been asked a lot recently is, "I've heard about a nasal spray pain reliever that relieves pain fast, what is it and how does it work?" The question often comes from patients who have not responded to sumatriptan, a new migraine medication.

In fact, sumatriptan is considered by many to be a breakthrough drug for migraine pain. It is the most recent drug to be developed specifically to treat the entire migraine process. For many patients, sumatriptan starts working within ten minutes and provides relief for more than 70 percent of patients within one hour. Side effects generally include temporary injection-site reactions, feelings of flushing, dizziness, warmth and heaviness, and tingling or tightness in various parts of the body, including the chest with the remote possibility of cardiovascular events.

For patients who do not respond to sumatriptan, and for those for whom the drug is medically unsafe, and for patients for whom other abortive drugs do not work, there is a nasal spray that is often an excellent treatment for the rapid and convenient relief of migraine pain.

Butorphanol tartrate is available in a nasal spray, a new drug delivery system, for relieving vari-

Note: This information about Stadol® NS™ (butorphanol tartrate) is provided by Bristol-Myers Squibb Company. Physicians are advised to read the full prescribing information.

MICROWAVE APPLE CRISP

Total Time: 15 min.

- 1/4 cup (1/2 stick) margarine or butter
- 1/2 cup quick or old-fashioned oats
- 1/4 cup firmly packed brown sugar
- 1/4 cup all-purpose flour
- 1/4 cup chopped walnuts
- 1 can (21 oz.) COMSTOCK More Fruit Apple Pie Filling
- Ice Cream or whipped cream, if desired

Microwave margarine in medium-size bowl or 4-cup measure until melted. Stir in oats, brown sugar, flour and nuts. Microwave on HIGH (100%) 3 to 4 minutes, stirring frequently during last 2 minutes, until crisp and toasted. Pour filling into 9-inch microwave safe pie pan. Microwave on HIGH 3 to 4 minutes, until hot. Sprinkle oat mixture over filling. Serve immediately. Top with ice cream. Makes 6 servings.

ous types of pain. It offers rapid, long-acting relief from moderate-to-severe pain in a convenient dosage form ideally suited for outpatient use. It is particularly effective in the outpatient management of migraine pain. The nasal spray can be self-administered in any setting, thereby often avoiding the need for expensive emergency room or office visits.

Technically, butorphanol tartrate is an opioid analgesic and is part of a large group of compounds in widespread clinical use. The most common side effect associated with the nasal spray pain reliever is drowsiness. Other significant side effects reported during clinical studies were dizziness and nausea and/or vomiting.

When patients are suffering debilitating migraine pain, they want relief fast. In many cases, the nasal spray will provide rapid and convenient relief from this pain. Because it is comparable in potency to an injection of an opioid analgesic, I advise patients not to drive or operate dangerous equipment immediately following medication with the nasal spray.

Although migraine continues to be somewhat of a mystery, the answer to the number one question "Do I have to suffer with my headache pain?" is no. The first step to finding relief is to ask a family physician or a headache specialist, "What can I do to get relief from the headache pain?" There is no need to suffer. There are medications and other therapies to help relieve the pain. See your MD (Migraine Doctor).

Brian E. Mondell, M.D., is medical director of the Baltimore Headache Institute. A neurologist, Dr. Mondell is assistant professor of Neurology at The Johns Hopkins University School of Medicine.

Use Caution with Outdoor Fires

If recent fire trends continue, Texas fire fighters can expect to battle nearly 14,000 fires during January and February this year. Four out of every ten of these fires will be outdoors.

"Texas faces a unique outdoor fire threat during winter," said Michael E. Hines, executive director of the Texas Commission in Fire Protection. "Dry, dormant plants provide the fuel, and high winds fan the flames. A tossed match or a smoldering cigarette in these conditions can spell disaster."

In January and February of 1992 (the most recent year for which complete fire statistics are available), almost 5,500 outdoor fires occurred across the state. Most of the fires were in empty fields and vacant lots, and along the roads and highways. Seven civilians and six fire fighters suffered injuries in these fires.

In their reports to the Texas Fire Incident Reporting System, fire departments indicated that in fires for which the cause was known, more than half were either deliberately set or had suspicious origins.

The departments attributed an additional one-third of outdoor fires to carelessness or misuse of fire, including 375 fires caused by improper handling of cigarettes and other smoking materials.

Children playing with fire started almost 200 outdoor fires in the same time period. High winds caused 31 fires, and 24 fires thought to be extinguished rekindled themselves.

The Texas Commission on Fire Protection would like to ask everyone to help minimize the threat of outdoor fires this winter.

The commission recommends these precautions:

*Store matches and lighters out of children's reach.

*If you smoke in the car, use your ashtray. Don't toss cigarette butts out the window.

*Inspect electric and gas-powered outdoor tools frequently, and follow safety precautions.

*Take extra care with barbecue grills and campfires. Never leave outdoor fires unattended. Pour water on the embers, and check to make sure that ashes have completely cooled before leaving.

*Report suspicious activities to local law enforcement authorities or fire officials, or call the Arson Reward Hotline at 1-800-835-6422.

TIPS FROM THE HARDTIMES GAZETTE

☑ Defrost food under cold water instead of hot water to keep the bacteria under control. Secure the frozen food in a water-tight plastic bag and change the cold water frequently.

☑ Never let a pet birds loose in the house while you are cooking or operating fans. They may land on the hot burners or food, or fly into the whirling fans. In addition, the fumes produced by heating non-stick finishes on pans (like Teflon) can kill a bird almost immediately.

THANK YOU

The family of Amos D. Persons would like to extend their deepest appreciation to his relatives, friends and associates in and around Quitaque for their attendance at his memorial service and their many cards and phone calls as well as memorials to the American Heart Association.

Although he moved away from Quitaque many, many years ago, a very deep and personal part of him remained. He loved "coming home" for reunions and throughout the different seasons to check the crops he so appreciated. He left the farm but the farm never left him. He left us with winter vegetables growing in his garden!

Your prayers, friendship and sympathy is greatly needed and appreciated during this time of deep sorrow.

Sincerely,
The Family of Amos Persons

THANK YOU

Thank you to all who helped with and donated to the Buyers Club and Stockshow. A special thanks to Wilda Fuston for all her time spent on the Buyers Club and to Rick McKay and Darin Martinez for their long hours, many miles and week-ends.

Thanks! 34 1tp
I want to thank those of you who donated money in my "Love Fund" recently. You have been generous and so very kind. I really can't express my gratitude enough!

You touched my heart deeply! I thank you for thinking of me. May God Bless each and every one of you.

My Sincerest Love,
Janet House
