## Jane's Sweet Potato Pancake Mix To Be Merchandised by QVC

A Texas sweet potato pancake mix named "Best of Show" in a QVC broadcast from San Antonio last fall will be sold on the air for a year by the national cablevision retailer starting at 7 a.m. Thursday, January 1.

QVC plans to market at least 50,000 three-bag packs of "Jane's Sweet Potato Pancake Mix," made by Heritage Tymes Inc. of Lubbock.

The mix, which contains Texas sweet potatoes and wheat, will be merchandised as a nutritious, low-fat breakfast item. Each two-pancake serving provides 16 percent of the Recommended Daily Allowance for vitamin A. Heritage Tymes President Scott Johnson said potential exists for sales of 1 million packs.

The pancake mix received the "Best of Show" title by outselling 19 other products during the Texas broadcast of "The '97 Quest for America's Best-QVC's 50-in-50 Tour" in November. More than 8,000 bags were sold in four minutes leaving about 500 callers waiting to order when the "sold" sign flashed on-screen.

Lammes Candies Since 1885 Inc., Austin, was second runner-up with sales of more than 4,000 pounds of Chewy Pecan Pralines. The pralines will also be featured on QVC during 1998.

Both companies belong to the Taste of Texas, a Texas Department of Agriculture marketing program that has more than 800 members.

"The success of these two companies with a national audience proves that Taste of Texas sells throughout the country," Agriculture Commissioner Rick Perry said.

TDA helped QVC recruit companies for the Texas portion of the "50-in-50 Tour." The program visited 50 states in 50

weeks, introducing products from small businesses and entrepreneurs to a potential audience of 60 million viewers. Twenty companies - five of them

members of TDA marketing programs - were selected from 600 applicants.

Johnson's wife, Jane, created the sweet potato pancake mix in her kitchen at the Johnsons' Lubbock.

Hotel Turkey in Turkey, Texas. Jason Johnson, the couple's son, introduced the pancakes at the family's Pancake House Restaurant in Lubbock.

Heritage Tymes has participated with TDA in trade shows that resulted in sales to Sweden and Canada. The mix is available in supermarket chains throughout Texas.

Lammes Candies is a family-run business that dates back to 1885. The company has seven stores in Austin, one in Round Rock and one in San Marcos.

Stewart suffered bruises and cuts, and was taken to Methodist Hospital in Plainview.

## THEN AND NOW!

by Eunice McFall  
(This was written in 1945 by Rev. E. B. Thompson)  
(Do You Think It Fits Today?)

### Don't Fence Me In!

This current song hit carried a bit of profound philosophy when applied to the more serious side of life. Don't fence me in is a fine sentiment, but building fences is one of our favorite indulgencies. We are continually fencing ourselves in--shutting ourselves off--from life's broader outlooks and opportunities!

We fence in our mind! A fence around the mind is indeed a tragic thing. In our fenced-in corners, we tend our little smug prejudices, and water-tight opinions. A new idea is treated as an unwelcome intruder! We have our minds made up, and as far as we are concerned, there is nothing new under the sun.

Someone has said of such minds "They are like concrete, thoroughly mixed, and permanently set." Intolerance and dogmatism have hindered human progress throughout the ages. Most of us move piously about within the narrow limits of our preconceived notions, when the vast expanse of truth lies out before us like an open range! We need to break down our mental fences, and set our minds free to explore the limitless reaches of truth. Don't fence in your mind!

There are fences around our spirits too. A spiritual recluse is pathetic. The chief characteristic of such a person is usually egotistical self-righteousness. In a secluded existence, he claims perfection in both character and wisdom when in truth he is bound by false modesty and ignorance! Our creator has made us to achieve greatness, not simply to live in a vacuum of negation.

There is an old story that when Cortez landed on the shores of Mexico, part of his crew refused to explore the vast inland before them. To them, Cortez is said to have replied, "Very well, those who are afraid, may take your ships, and go back to where you can tell the will of God by the fences." God's will cannot be fenced in, and those who fear to venture will never know the joy of the abundant life!

Charles Hamilton Sorley, expressed the challenge of this unfenced life when he said, "The gates are open on the road, That Leads to beauty and to God."

DON'T FENCE ME IN!

**BULLOCK JOINS SHARP**

**AS HONORARY CAMPAIGN CHAIRMAN**

(Austin)-State Comptroller John Sharp today announced that Lt. Governor Bob Bullock will serve as Honorary Chairman of the John Sharp for Lieutenant Governor campaign. "He's got the programs and vision to lead Texas," Bullock said. "And, he's got the talent to do the job." "John Sharp is a consensus leader, and that's very important in the job of lieutenant governor," Bullock said. Sharp expressed great pride to have Bullock's strong support in his candidacy to succeed the Lieutenant Governor, who announced last June that he would not seek re-election. "Bob Bullock is one of the best public servants I have ever met," Sharp said. "He's incredibly innovative, and he has set the standards for innovative leadership for generations to come." Sharp said that Bullock's decision to serve as his honorary chairman highlights Sharp's positive message of making Texas "safer, stronger, and smarter" with Zero Tolerance Criminal Justice Reform package, tax cut proposals, and recommendations for improving public education. "Mr. Bullock's only ambition has always been to do the right thing for Texas," Sharp said. "Like him, I will work with anybody who loves this state." "God bless Texas and God bless Bob Bullock," Sharp said.

**Letter to the Editor**

(Eunice thought you might like to use this in your paper. Sincerely, Mozelle Eudy) Dear Mozelle: Lorraine, my sister-in-law, gave me the Valley Tribune subscription for a Christmas gift. I wonder why I never subscribed as I have thoroughly enjoyed the three issues I received. Especially, was it fun to open the past one and see my angel story you sent in. Thank you for getting it published in the Tribune. The incident happened just as I wrote and is still a mystery as to who left the angel, but maybe it is more fun to not know. I lived in Bridle Bit and Buffalo Flat until I was 18, and have made many visits home. I still think of Turkey as my home, my roots, and it was a great place to grow up. I remember you and Lewis. Perhaps someday we will get to another Bob Willis celebration and we can meet again. God's blessings and I wish the best for you and all your family. Lee Nelson P.S. I remember passing the Eudy home on our way to Bridle Bit. The house seemed so big!

Scientists believe that people began taming hogs about 8,000 years ago, during the Stone Age.

**Employers Race To Meet W-2 Deadline**

With 1998 tax season just beginning, the Internal Revenue Service (IRS) reminds Texas employers that Forms W-2, "Wage and Tax Statement," needs to be made available to their employees by the end of January. Additionally, Form 1099, "Statement for Miscellaneous Income," also needs to be available to employees by the January 31 deadline.

Most employees need this income information so they can file their tax forms early to receive their tax refund. According to the IRS North Texas District, seven out of ten North Texans receive tax refunds. Last year, the average tax refund was \$1,309.37.

Texasans who receive a special TeleFile tax package and plan to file by telephone also need their W-2 statements. That's because TeleFile users will need to enter interest income, unemployment compensation, wages, tax withheld and employer identification number directly from each W-2 Form.

Employees are encouraged to ask their employer for their W-2 if they do not receive it by February 2. If employees do not receive their W-2 or 1099 forms by February 15, the IRS can help by requesting the form from their employer.

Employers are reminded to keep any undeliverable copies of Form W-2 for at least four years.

Provided By: Calley Payne, CEAFCS  
**COLLEGE STATION-** According to the Internal Revenue Service (IRS), some \$62 billion worth of refund checks have not been delivered to taxpayers. The IRS indicates that some checks are for more than \$10,000. Why? Because taxpayers have not informed the IRS of a new address, said Dr. Lynn White, a consumer/family science specialist with the Texas Agricultural Extension Service. "Simply filing out an address change with the post office will not assure forwarding of documents that could involve money, such as documents from the IRS or a bank or other financial institution", White said. If you think you are due a refund you have not received,

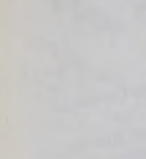

call (800) TAX-FORM for IRS Form 3911, Taxpayer Statement Regarding Refund. To notify the IRS of a new address, file form 8822, Change Of Address. To locate IRS forms on the web, search <http://ftp.fedworld.gov/pub/ire-pdf>.

...*'He that is greedy of gain troubleth his own house'...*  
 -Proverbs 15:27

Though money can't buy happiness,  
 With the purchases we like to flaunt  
 We are enabled to possess  
 The kind of misery we want;  
 Yet lessons of our faith imply  
 That hoarding of excessive wealth  
 Results in taxes much too high  
 And often, damage to our health.  
 According to a Bible phrase,  
 The love of money is the root  
 Of evil, till we mend our ways  
 And make our faith a substitute.  
 So give your loved ones what they need,  
 But spend more time with them alone;  
 Because they are, a you'll concede,  
 The greatest treasure you could own.

HINTS FOR HOMEMAKERS

(NAPS)—So, you've decided it's time to clean up around the house. The next step is to go to the store to buy the variety of specialty products you'll need to accomplish each task. Right? Well, maybe not! Cornstarch can also be used as a carpet cleaner. All you do is sprinkle it on, let it stand up to 30 minutes and then vacuum. A mixture of cornstarch and cleaning fluid can also be used to help remove greasy spots from wallpaper. Ice cubes can come in handy for a variety of cleaning needs as well. If you get candle wax, chewing gum or other gooey substances on your carpet or tablecloth, simply hold an ice cube against the stain until it freezes and then lift or scrape the frozen object off. If this doesn't work, WD-40 can be used to lubricate and clean the spot. For cleaning around the house, you may want to first look in your cabinets, cupboards and refrigerator. You may find the products that meet your needs.

Lon McKay Honored On 95th Birthday

Family and friends of Lon McKay joined him in celebrating his 95th birthday at a party held at the First National Bank Community Room at Quitaque on Sunday, January 18. Lon had a wonderful time and there to help him celebrate this special occasion were 11 of his 13 children and their spouses and families.

His children and their spouses present were: Juanita Lane of Turkey; Margie and Dean Purcell and Sharlotte Kemp of Albuquerque; Doris and Corky Davis, Dwight and Janet McKay of Amarillo; Theresa Gregory of Lorenzo; Gay and Ray Sperry of Idalou; Deborah and Melvin Justus, Renee and Clyde Dudley, Gwen and Eldon Martin and Trent and Wanda McKay all of Quitaque.

Also present was Lon's brother and sister-in-law Cecil and Edna McKay of Plainview, as well as several of his grandchildren and their spouses and family members. They were: Myra, Clarence, and Thomas Thurman of Snyder; Renita and Josh Marshall, and John and Kayla Purcell of Albuquerque; Susan, Sarah and Lindsay Kirk of Idalou; Jody McKay, Brian, Drenda, Tara and Lauren Owens, and Monte Owens of Amarillo; Kaylynn Rogers of Lubbock; Lisa and Jimmy Kanetzky of College Station, Lori Martin of Taylor and Chuck and Seth Martin of Lubbock; Coy and Hollie McKay of Quitaque, and Kim, Blake and Jake Petree of Lubbock.

He also received many phone calls including son and daughter-in-law Bud and Jo McKay and daughter and son-in-law Bonnie and W. F. Geisler, who were unable to attend; as well as his sister and brother-in-law Ruby and Harry Folley of Wellington, Colorado. A full count of his guest register revealed 105 signatures.

It was a wonderful day and included warm visits, lots of laughter, fond memories, Lon playing his harmonica, and a room full of flashing cameras. It will be a day long remembered.

The family hopes you will all join them again on Lon's 100th birthday as they feel sure he will still be standing straight as an arrow and sharp as a tack at that occasion as well!

COTTON NEWS

LUBBOCK, January 23, 1998 by Shawn Wade

With cotton prices stagnating below sixty cents per pound, High Plains cotton producers are looking for light at the end of the tunnel. Speculation about why the current price occurred has not provided any satisfactory answers at the farm level.

Producers are now beginning to wonder whether or not the situation will trigger some of the safety net features built into the 1996 Farm Bill. Specifically the Loan Deficiency Payment (LDP) or POP payments as they are commonly referred to.

LDP's are triggered when the Adjusted World Price for cotton released by the United States Department of Agriculture (USDA) falls below the upland cotton marketing loan level. Currently that threshold is 51.92 cents per pound. The latest AWP calculation comes in at just over 56.7 cents per pound.

Regulations governing the LDP Program state that LDP's will be available when the AWP drops below the loan rate. LDP's can be requested under these circumstances by eligible producers who agree NOT to enter the commodity into the loan.

Producers who agree to keep their cotton out of the loan in exchange for the LDP will be subject to a \$75,000 per person marketing loan gain payment limitation.

Producers who enrolled their cotton into the CCC loan program prior to the AWP dropping below the loan rate have the option to redeem their cotton at the lower of the AWP or

the loan principal plus storage and interest.

Most speculation at this time indicates that the likelihood of the AWP dropping another 6 to 8 cents are unlikely. As U.S. producers develop plans for the 1998 crop year, estimates of planted acreage already indicate reductions of up to one million acres.

High Plains producers are no different. Insect concerns, current prices and weather factors have already prompted growers to make plans for fewer cotton acres in 1998.

The 1997 Census of Agriculture currently being conducted by National Agricultural Statistics Service is the only source of uniform farm related data compiled down to the county level on agriculture production and inventories.

Producers across the State of Texas and across the U.S. are being encouraged to cooperate with the survey process in order to keep this data up to date.

All individual responses to survey questions are confidential and are not subject to the Freedom of Information Act so growers can be assured that the information they provide is not going to be seen by anyone except sworn NASS employees. The census is conducted every five years and the 1997 data will replace information collected in 1992.

FAITH STARTS YOUR NEW YEAR IN THE RIGHT DIRECTION

By now you've probably dismissed Those resolutions on your list; But since the year has made its start, There are suggestions to impart: Be punctual for every date; Don't make the other person wait. Be generous and help the poor; Avoid conclusions till you're sure. Accomplish something every day, And also take the time to pray; To thank the Lord for what you own, And all the blessings you have known. These actions are among the best, Your House of Worship will attest; And there you'll find, if you're sincere, No better place to start the year.

**THINGS SEEN OR HEARD**  
 by Ann Coker  
 Visiting with Buster and Gladys Hanna recently were Buster's brother and nephew, Lowell and Eddie Hanna. They live in Burk Burnett.

Traveling to Plainview last Monday were Arlie Williams and Genele Proctor. The ladies did some shopping.

Also Arlie had her two sons visiting her over the weekend. Harvey Williams from Clarendon and Doc Williams, Abilene. The men enjoyed some hunting.

Danny and Laura Stewart traveled to Mancos, CO last weekend to attend the funeral of Laura's aunt, Jo Beth Chandler.

While visiting with Lavern Hamner in the grocery store, she related that Lois Melton had been a patient in Northwest Texas Hospital but was able to return to her home in Memphis last week.

Visiting with Bonnie Hill last weekend were Larry Russell's children, Jay, Toni, and grandson David. They had been to Colorado to attend the funeral of Jo Chandler.

At last report, Lynn Davis was in ICU in Plainview hospital. Davis has been quite ill.

I talked to Lisa McKnight in Amarillo Tuesday morning to get an update on her grandmother, Virginia Degan. Virginia was to receive a blood transfusion Tuesday. She is a patient in Baptist-St. Anthony's Hospital in Rm. 438.

While reading the Memories Section in the Memphis paper, I read where Nita Puckett was the new president of the Women's Chamber of Commerce. This was in 1988. Nita is the daughter of Foy Lane.

In the same article I noticed that Ronny George of Turkey took third place in the Senior Heifer Calf show in Amarillo, in 1958.

Our daughter and family, Linda, Mark, and sons Zach and Josh have recently bought a home in Ruidoso. They are quite excited about it as Zach described it in detail over the phone. They hope to move in this Thursday.

The realtor who sold the house to them was Mike Rice, a former Quitaque resident. Appraiser was Rod Adamson, a former Turkey resident. Small world...

Barbara Eudy of Levelland called Mozelle Eudy recently. She reported they are fine, except Jay has had some more heart problems, it was doing much better now.

Barbara also had met some Arnolds in Levelland and they asked her if she knew Mozelle Eudy in Turkey. Barbara told her Mozelle was her sister-in-law. Mrs. Arnold said Mozelle was related to her, too.

### Turkey Senior Citizens News

This year hasn't started out very well for the Senior Citizens meetings in Turkey. So many have been sick, but they are hoping everyone will be well by the next meeting which will be on February 3rd.

Everyone who is able needs to be at the meeting to help give the group a "jump start." The group is hoping to see everyone well and at the meeting.

### PURPLE MEANS NO TRESPASSING

Provided By: Pammy Millican, CEA-Ag.

Purple paint can now serve as a warning to stay off someone's property. It's a new state law. Judon Fambrough (JEW-don FAM-broh), a lawyer with the Texas Real Estate Center at Texas A&M University says Texans will soon be seeing a lot more of the color purple because Texas has joined several other states in recognizing a purple paint mark as a trespassing warning. The new law requires landowners to make a vertical purple mark eight inches long and one inch wide and place it either on a post or a tree. The marks must be three to five feet off the ground and at a frequency of every one thousand feet except in timber cutting areas -- it must be every 100 feet. Fambrough says the new law resolves problems in two geographical areas of Texas. In South Texas, there was a problem in how many languages you had to post "no trespassing" in and also how often you had to place signs. In East Texas, there was a problem of marking property lines where a timber company should start and stop cutting timber. To make sure everyone understands what the purple paint means, until September you must also have a no trespassing sign posted at the entrance of the property.

### BRUCELLOSIS VACCINE SHOWING PROMISE FOR BISON

Provided By: Pammy Millican, CEA-Ag.

A new vaccine to prevent brucellosis in cattle is showing promise in protecting bison as well. A positive result could save more of America's vanishing herds. Texas A&M researchers are vaccinating a herd of more than 50 pregnant females and will know later this year how effective the drug is. Texas A&M wildlife biologist and disease specialist Dr. Don Davis says bison are much more susceptible to brucellosis than cattle are. He compares them to American Indians who were killed off in droves as European settlers introduced new illnesses to North America. The native population had no natural immunity to the new diseases. Davis says at first researchers deduced that bison and cattle were close enough relatives that Strain 19, the original cattle vaccine, would work. But it caused a high rate of abortions in the bison. So now testing is done with a vaccine called R-B 51. What researchers at Texas A&M and at other test sites are determine could have a profound effect in Yellowstone National Park. Davis says nearly half of the bison there are infected with brucellosis. That makes

people in the brucellosis-free states of Wyoming, Idaho and Montana worry that the infection will reach their cattle and put a cap on trade. So cattle owners shoot the bison when they wander out of the park. As you can imagine, that causes an uproar from animal welfare groups, American Indians and others. Davis says the Texas A&M bison herd will be monitored to determine the number of abortions that may be caused by the vaccine. The calves that are born will also be tested for brucellosis. In a companion study, researchers are also testing elk since they, too, keep the disease alive around Yellowstone.

King Arthur's dog, legend says, was named Cavall.
