Taking Action to Save Medicare and Clamp Down on the Waste, Fraud and Abuse

Whenever Churchill wanted immediate action on an issue, he pasted a sticker which declared, "Action this day," across a note or memorandum.

These days, instead of using the Churchill approach, the federal government all too often seems to be doing just the opposite -ducking action where's its most sorely needed, and putting off tough decisions until another day

Take the issue of Medicare. For over two years now, we've known that the system is losing money and will be bankrupt by the year 2001. Unfortunately, the issues's been caught up in partisan politics and nothing's been done to prevent it. Fortunately, real action might be just around the corner.

scheduled to vote on a plan that would extend the life of Medicare for another 10 years. The plan's immediate attention.

Winston expected to achieve three goals. First, there will be no cuts in Medicare -- spending will continue to increase, but not as fast in the past. Second, it will give seniors the right to choose the kind of Medicare coverage that's best for them. And third, it will clamp down on fraud and abuse

This last point is important. Health care fraud is estimated to add an additional 3 to 10 percent to your total bill every time you visit the doctor. If you apply these figures to Medicare, it means that losses to fraud and abuse in 1996 could have ranged between \$6 and \$20 billion dollars. It's critical that we eliminate this kind of waste, and this bill will

Most importantly, it will do This week, the House is what Churchill would have recommended had he been around today -take action on an issue that needs

TDA To Hold Educational Meetings On Boll Weevil Eradication Referendum

The Texas Department of Agriculture will hold a series of educational meetings to answer questions regarding the upcoming boll weevil eradication program referendum in the 19-county Southern High Plains--Caprock Boll Weevil Eradication Zone. The first of these meetings will be held Monday, June 30, in Jayton, Spur and Flomot. Additional meetings throughout the 19--county area will follow.

Cotton farmers and landowners with cotton production are urged to attend to learn more about the referendum process, what to expect if a program is approved and what to expect regarding the assessment collection process. Ample time for quetions will be

An election date has been set for August 1 to determine whether a boll weevil eradication program should be initiated in the southern High Plains--Caprock Zone. In addition to initiating an eradication program for the zone, other issues in the August 1 election include approving a maximum assessment level and electing a board member from the zone to serve on the statewide board of directors for the Texas Boll Weevil Eradication Foundation Inc

The August 1 election for the zone was established by new legislation that corrects a constitutional problem found by the Texas Supreme Court with the statewide boll weevil eradication program. Under the new statute, the Texas Boll Weevil Eradication Foundation continues to carry out the program. However, TDA takes on additional responsibilities that include setting new elections on assessments and eradication programs in regional zones and appointing advisory committees for each zone

Counties in the Southern High Plains-Caprock Eradication Zone are: Andrews, Borden, Cochran, Crosby, Dawson, Dickens, Ector, Gaines, Garza, Hockley, Howard, Kent, Lubbock, Lynn, Martin,

Midland, Motley, Terry and Yoakum. On June 30, 1997 the TDA Educational Meeting will be at Jayton Community Center in Jayton at 9 a.m. and at the Spur Community Center at 11 a.m. in Spur. The meeting will be held at Flomot at the Flomot Community Center at 3 p.m. on June 30, 1997

EMS Rollout Class

A class is scheduled to begin Thursday, June 26th at the Quitaque Community Center. The class will cover all new curriculum required by PEMSS (Panhandle Emergency Medical Seravaice System) and will count for 40 hours of continuing education

All area medical personnel needing a new curriculum class or continuing education hours are welcome to attend

the class.
Class time will be 7:00 p.m. to 10:00 p.m. every Thursday for ten weeks. Sharon Hinton from Floydada will be the instructor.

Small towns, aren't they wonderful. Sure the small towns of our area have lots of problems that are rather hard to face and probably some that will never be solved but on the whole there is nothing as wonderful in our world today as the small communities. Granted there is always a down side to everything and the small community is no different to anything else but the good far outweighs the bad.

One of the good things about small towns is the ability to meet someone on the street or at the post office and know to whom you are speaking. To thank someone for opening the door for you and you can call them by name as you say thank you. You are personally acquainted with your post master, groceryman, gas dealer, electricity supplier, banker, hair dresser, city fathers, all clergymen, restraurant owners, waitresses, insurance agent, hardward store owners, repair men, firemen, EMS personnel and others who make the small town tick. Not only are you personally acquainted with them but the majority of them a pet nickname

As you travel down the street on your daily walk, you get stopped many times just to pass the time of day with friends. watch out for neighbors. Your children are able to walk to their friends house' safely. You feel free to go to the park alone or with only one friend and do so unafraid!

When problems arise, friends and neighbors arrive on the scene to help in any way possible to make your problem easier to handle. They tend to gardens, yards, pets, etc when you are in the hospital or have taken a trip. They tell the newspaper about the happening down the street so that the reporter can find out the story and get it in the weekly paper. Not only are they there when problems arise but they are there to help in the joyous celebrations of life, birth, birthdays, anniversaries and homecoming for those who live a long ways away.

One example of a great neighbor last week was Laura Stewart. I had car trouble in Turkey on my way to Paducah on Wednesday to get the paper ready to print. Laura very graciously took time out of her busy schedule to bring me back to Quitaque for another vehicle to make the trip in. In the big city you would just have been stranded or had to find a taxi to take you to your destination. As I said small towns are wonderful but what makes them so wonderful is the people who live in them and make a living for their families and make life easier and happier for those around them. Long Live The Small

Thanks, Laura, Dale, and Claudia for going that extra mile for me last Wednesday.

They rented a beautiful house in Ruidosa for the four days they were there. Not only was the house beautiful and roomy but the main attraction was the hot tub on the front porch. All enjoyed the hot tub, especailly the grand-children, Zach and Josh Hamilton and Makenzie Coker. U. F., Ann, Brenda, Linda, Zach

and Josh thoroughly enjoyed a visit with Alton and Gloreanna (Neatherlain) Lane at their home which I can't begin to describe. Their home is composed of five different buildings, all unique. The Lane's main home is quite comfortable and beautiful. Another building is the bath house which contains a huge hot tub besides a swimming pool. Another building is the guest house. Their son, Greg also has a house, even though he now lives in Las Cruces. One of the buildings house a shop which any mechanic would be most envious. The Lanes were quite good hosts. The visit was thoroughly enjoyable. All the Cokers attended the races at Buidess Downs on Saturday.

at Ruidosa Downs on Saturday. There they accidently ran into Jean and Jarrell Rice. It was so great to see them and visit with them. Jean was managing the gift shop at the races and Jarrell was managing the Ruidosa Downs Bank. They called their son Mike and his family, and they came out to the races to visit with us. Mike looked great and he has a beautiful wife and two adorable children. Mike is a realtor in

Saturday night was the Cokers final night in Ruidosa. Ann was in her bedroom with the light on when she heard a noise outside her window. Thinking that it was the Hamilton's big Lab dog wanting in-Hamilton's big Lab dog wanting in-she went to the kitchen door and called for him to come in. Mark came into the kitchen and told her the dog was in the house. They listened to the noise in the dark and Mark told Ann to go back in-the noise was probably made by a rac-coon. Kim and Mark got their flash-

lights and investigated. The noise was made by a <u>BIG</u> bear!
The group left Sunday for their homes. The Hamiltons ran into some high water and had to wait at times for the water to recede.

Progress For Women

(NAPS)—Over five million women in this country have a painful secret. It affects their families, their jobs and even their most intimate relationships. What may be worse, many of these women feel they are not being taken seriously by people who dismiss their problems as "all in your head."

The problem is chronic bladder syndrome (CBS), mistaken for a recurrent bladder infection. Because this condition will not Because this condition will not respond to repeated courses of antibiotics, many women are told to live with this very uncomfortable situation. Symptoms can range from a tender abdomen to the inability to sit comfortably for any length of time. Without treatment, the symptoms can become worse.

Now doctors can offer hope for women who may have suffered for years with a condition that has not been cured by antibiotics or other procedures. A new method of treating chronic bladder syndrome has just been introduced to the medical community. You or someone you know can learn more by receiving a discrete package of information from the Foundation for Women with Urological Disorders. The number is 800-458-2913.

The "Death" Tax is hilling family business.

A family-owned business stands to lose 55% of all its assets when it passes from one generation to the next That's over half of everything, including land, buildings, equipment, money, and more — all because of the current Estate Tax law which is really a tax on death

Because of this outrageous tax, 70% of families choose to cash out or abandon their business after just one generation. And only 13% survive into a third generation.

The reality is, people can't afford to pass on their business. They sell out, letting long-time employees go. Not because they want to. But because they have to. And the echo reverberates through an entire community

If you're concerned that eliminating the Death Tax will add to the budget deficit, don't be. Independent studies reveal that it would actually help reduce the deficit.

You can help us change this unfair tax. Let Congress know that you believe a family's roots in a long-time business are a vital anchor in your community. All it takes is a grass roots effort. Pass it on. By working together, we can put the Death Tax to rest.

YOU CAN MAKE A DIFFERINCL OF THE OF THE

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENT OF PROPOSED

CONSTITUTIONAL AMENDMENT SPECIAL ELECTION **AUGUST 9, 1997**

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment which would increase the school property tax residence homestead exemption from \$5,000 to \$15,000. The amendment would also authorize the Legislature to limit all or part of the exemption to politi-cal subdivisions that are the principal providers of elementary secondary education within their boundaries

In addition, the amendment would authorize the Legislature to allow the transfer of all or part of the age 65-and-over tax freeze to another homestead. Specifically, the Legislature would be authorized to provide that the current limitation against increasing school property taxes on the residence homesteads of persons age 65 or older, or their surviving spouse who is eligible to receive the exemption, may be transferred if the person establishes a different residence homestead.

The amendment would also allow the \$10,000 additional amount for the standard exemption to be used to lower the tax rate of persons cur

rently receiving the 65-and-over tax freeze. Specifically, for a homestead affected by this limitation in 1996 or ture must provide for a reduction in the school property tax limitation in the 1997 tax year and subsequent tax years in an amount equal to \$10,000 multiplied by the 1997 school property tax rate.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing school property tax re-lief by increasing the residence homestead exemption by \$10,000 and providing for the transfer of the tax limitation to another qualified homestead for persons over 65 and a reduction in taxes subject to the limitation.

Este es el informe explanatorio sobre la enmienda propuesta a la constitución que aparecerá en la boleta el dia 9 de agosto de 1997. In a simpler age than the one in which we are now living, people used to help each other and their comunities whenever they were needed. If the neighbors' house burned down, everyone pitched in with labor and materials to help them rebuild it, and provided food, clothing and blankets. If the town needed a place cleaned up to establish a park, the entire population went to work on it. Fortunately, this spirit of cooperation still prevails in some areas. Many a House of Worship must be maintained on a very limited budget; so if the one you attend calls for volunteers to paint the walls, pull the weeds in the parking lot or type the bulletin, raise your hand and lend it for whatever task you are able to perform. It is so little to ask in return for all the blessings you have received there from God's guidance and love.

Yesteryear DPS Plans Recruit

Taken from The Quitaque Tribune Thursday, June 6, 1968

THIS IS LAST ISSUE OF THE QUITAQUE TRIBUNE;

The second week of June, 1960, The Quitaque Tribune came into being. This week's issue of The Quitaque Tribune being No. 52 means that eight years of publica-

tion is completed.
With this issue, Quitaque Tribune will cease to exist

Next week The Quitaque Tribune ecomes the Valley Tribune, then the next week, this newspaper will begin serving Turkey as well as Quitaque.

A good-sized list of subscribers to the Valley Tribune have already been sold by the Turkey Lions Club and Turkey Merchants and with the June 20 issue this newspaper will start carrying advertising by the Turkey Merchants as well as those of Quitaque. This will be a good thing for the advertisers in both towns for their advertising will reach more readers and potential customers, which is after all, the reason anyone lists items for sale in a newspaper. Turkey and Quitaque have close

ties, and people in both communities are known to the other and news of each community is always of interest to the other.

In these times, small towns and many small businesses are having to fight for their lives and must use every means possible to survive and a town without a newspaper is defi-nitely handicapped. One Turkey business man stated that a town without a newspaper cannot promote

anything. This is true.

The publishers of this newspaper pledge one thing: It will play no favorites between the two communities, but will report news imparticaly, and will do its best to promote anything that will be of advantage or betterment of one or both communities. We beleive that our readers will benefit by receiving a better newspaper.

The Texas Department of Public Safety is seeking applicants for a recruit school scheduled to begin September 22, 1997. Persons who successfully complete the rigorous six-month recruit training academy in Austin will join one of the country's premier law enforcement agencies.

"We're encouraging all persons interested in a career with the DPS to go by their nearest DPS office and get a complete application package and a list of all the qualifications," said Lt. Curley Colquitt, who heads the DPS recruitment

Graduates of the school initially are assigned to one of the uniformed services of the Department--the Highway Patrol, License and Weight or Driver License Service. After gaining experience, troopers can apply for promotions within those or other areas of the DPS.

Applicants must be at least 20 years old on the date of probationary appointment to the position of $trooper-trainee\, and\, be\, of\, good\, moral$ character and habits. Applicants must have at least 60 hours of college (prior law enforcement or military experience may be substituted for some or all college re-

quirements). A final convicti (including probation) for DWI, DUID, domestic violence or a felony offense automatically will disqualify applicants. Both oral and written statements given during the application process will be verified for

accuracy.

Those selected for the recruit school will be required to success fully complete psychological test-ing, physical examinations, drug screening and additional physical demands. Their character, habits, previous employment and other factors also will come under scru-

Applications will be accepted through 5 p.m. July 11 from Texas residents. Persons interested in applying should contact their nearest DPS office or Lt. Curley Colquitt, 512-424-5903.
