National Chapter Sends Money For Callahan County Polio Cases

A check for \$3,250.00 to help pay for medical care of local polio patients has been received by the Callahan County Chapter of the National Foundation for Infantile Paralysis. It was announced yesterday by County Judge J. L. Farmer, Chapter Chairman. The funds were provided by national headquarters of the March of Dimes organization.

A heavy case load from the 1949 epidemic, worst in the nation's history, in addition to the costs of this year's polio incidence has exhausted the chapter's 1950 March of Dimes funds, the chairman declared.

Up to August 19, the National Foundation has advanced \$5,089,600. This year to chapters whose funds have been depleted by both new and carry over cases, Judge Farmer stated.

At present the Callahan Chapter is providing funds for the care, in whole or in part, of seven patients afflicted this year and is continuing to pay costs for the care of two stricken in former years.

It is pointed out that the Callahan County Chapter has paid out \$4,034.65 for nursing, hospitalization and treatment of one Cross Plains boy.

All classes at Cross Plains high school held organizational meetings this week and elected officers for the ensuing year.

Chosen to head the seniors were: Russell Wright, president; Howard Lee Neeb, vice-president; Mary Beth Tunnell, secretary and reporter, and Barbara Jean Ramsey, treasurer.

Junior class officers are: Charley Havens, president; Winona Tension, vice-president; Martha Austin, secretary; Billie Jean Wright, treasurer, and Billie June Taylor, reporter.

Sophomore officers: Mona Eager, president; Billy Freeman, vice-president; Shelia Nichols, secretary and treasurer, and Barbara Hutchins, reporter.

Freshman officers: Joe Coppinger, president; Weldon Newton, vice-president; Delma Jean Newton, secretary and treasurer, and Venita Jo Golsion, reporter.

Classes which will be held at the fair are Hereford, cattle, swine of all breeds, including chickens and turkeys, and field crops and pasture collections. The premium list will be printed at the present time and distributed over the week.

Local Girl Bride of Abilene Man on Last Friday Night

Miss Juanita Sheppard and Weldon Rogers were married Friday night, September first, in Abilene. Rev. J. D. Alexander read the double ring ceremony at the home of Mr. and Mrs. N. E. Rogers, parents of the bridegroom.

The bride is the former Miss Juanita Sheppard, daughter of Mr. and Mrs. Carl Sheppard of Cross Plains. Given in marriage by her father, she wore a street length dress of white chantilly lace and marquis taffeta, with rounded neckline, fitted bodice and full skirt. The finger tip veil of illusion and her heirloom chantilly lace were caught into a coronet beaded with seed pearls and trimmed with orange blossoms. She wore a corsage of red frenched carnations, a gift of the groom.

Miss Patti Sue Huntington, the bridesmaid, wore a navy blue dress of marquis taffeta, like that of the bride's, made by her mother, Mrs. Eva Huntington. She wore white accessories with a corsage of white frenched carnations.

The bride carried out the tradition of something old, new, borrowed and blue. She is a graduate of Cross Plains high school and the groom finished at Abilene.

After the wedding fruit punch and cookies were served to 30 guests. The couple left shortly thereafter for a brief bridal trip, after which they will be at home in Abilene, where both are employed.

Local school officials have been informed that some motorists are failing to observe traffic laws as affect school buses, and have asked the Review to call this matter to the attention of the driving public.

It is pointed out that the law specifically requires that cars come to a complete stop behind buses, when students are being loaded and unloaded. Drivers are instructed to take the numbers of vehicles violating this statute and institute prosecution.

Cross Plains school officials plan to see that regulations are rigidly enforced in an effort to maintain the fine safety record which has been built up over a period of nearly 20 years.

Two Wildcats Start In Callahan County

Callahan County got two new prospectors this past week. C. M. Buie staked the No. 1 J. D. Cauthen as a 2,000 foot wildcat three and a half miles east of Admiral, 160 feet from the north and 1,692 feet from the east line of Section 1, Block 5, SP Survey. It is a cable tool prospect.

The other wildcat is the Charles Kadane, et al, No. 1 Cottle, four and a half miles south of Moran, 1,000 feet from the north and 1,826 feet from the east line of Section 3196 TE&L Survey.

Permit depth is 3,500 feet with rotary. In the J. K. Wadley pool 16 miles southeast of Abilene, operator has staked the Wadley No. 5 Jack Hutchins as an offset to production. It is located 150 feet from the east and 930 feet from the most northern south line of the W. C. Self Survey. Drilling depth is 1,995 feet with rotary.

Army Blunders As Local Man Called For Duty Too Late

Jack Strickland received orders last week to report to Fort Hood, however, the local man a former member of the Enlisted Reserve Corps had received discharge on June 11 and upon checking with military authorities was told to disregard the orders to report. As a consequence Jack reverts to full civilian status, subject to call only by the draft board with which he registered over two years ago.

Strickland previously served 19 months in the armed forces and signed for three years with the reserves, however, the three year enlistment expired in June, and the orders received last week were therefore erroneous.

SON-IN-LAW OF MRS. B. F. PEEVY IS LAID TO REST LAST FRIDAY

Mrs. B. F. Peavy learned last week that funeral for her son-in-law, D. A. Shaw, who died of heart attack, was held Friday at Bridgeport, in Wise County. Mr. Shaw died only a few minutes after being stricken. His widow will be remembered in Cross Plains as the former Mrs. Winnie Robbins.

MISS RUTH JEANS BUYS A. J. KUNKLE HOUSE HERE

Miss Ruth Jeans has bought the A. J. Kunkle place in the northeast part of town here and plans to move in the latter part of this week. Mr. and Mrs. Kunkle do not plan to leave Cross Plains.

GROVER HENDERSON IS TAKEN TO HOSPITAL IN BAIRD OVER WEEK END

His many friends here will regret to learn that Grover Henderson is ill in a Baired hospital. He is reported suffering with low blood pressure and a heart disorder. He entered the hospital over the week end.

Sew And So Club Meets Last Week

The Sew and So Club met September seventh in the home of Mrs. Craig McNeel with 17 members present.

The president, Mrs. McNeel, was in charge. After a short business session new rules were made and approved. At roll call each one answered with a suggestion on how to make a better club. After an evening of enjoyment, delicious cake and coffee was served by the hostesses, Mrs. McNeel and Mrs. C. D. Lane.

Next meeting will be in the home of Mrs. W. J. Carpenter on September 21.

Panther Reported Roaming The Cross Cut-Burkett Locality

Tracks believed to be those of a large panther have been seen between Burkett and Cross Cut, and local hunters are organizing dog packs in an effort to run the animal down.

Lloyd Rich, in whose pasture the tracks were found, says that thus far only a dog owned by Hugh Burns, of Burkett, has attempted to chase the big cat. Others, he informs, have refused to take up the race.

20 carloads of hunters were in the vicinity of the Star pasture, between Burkett and Cross Cut, one night this week but the big cat could not be brought to bay.

TB Group To Meet In Baired Sept. 20

Mrs. S. L. McElroy announces that a meeting of the Callahan County Tuberculosis Association will meet September 20 in the library room in the courthouse. All members, especially those on the board, are urged to be present.

DRILLING UNDERWAY ON LANE OIL TEST 2 MILES SOUTH PIONEER

Contractor was drilling below 150 feet yesterday on the Joe Lane number one C. D. Lane, a 3,100 foot cable tool test, two miles south of Pioneer, in Eastland County. Plans are to explore the Marble Falls lime, expected just below 3,000 feet.

Location is 400 feet from the west and 360 feet from the north lines of the northeast one-fourth of the S. H. Harris 160 acre pre-emption in Eastland County.

MISS RUTH JEANS BUYS A. J. KUNKLE HOUSE HERE

Miss Ruth Jeans has bought the A. J. Kunkle place in the northeast part of town here and plans to move in the latter part of this week. Mr. and Mrs. Kunkle do not plan to leave Cross Plains.

Bufs Open Season At Aspermont Friday Night

Several hundred fans are expected to accompany the Cross Plains high school Buffaloes Friday night for the thundering herd's first game of the 1950 season.

Comparative data on the two squads is unavailable as Friday night's clash will be the first of the season for both teams.

Coach Frank Rundell, making his initial appearance as athletic director here, told the Review yesterday that his starting team would average in the neighborhood of 160 pounds, depending upon which of several players he started at disputed positions.

Probable starters at Aspermont and their weights are as follows: left end, Donald Beeler, 160; left tackle, Freddie Tatom, 170; or

Vernon Phillips, 200; left guard, Gerald Foster, 135; or Dwayne Adams, 140; center, Lester Wyatt, 150; or Herman Wylie, 160; right guard, Ervis Cogglin, 170; right tackle, Howard Lee Neeb, 200; right end, Bobby Oliver, 155; quarterback, Bobby Cearley, 155; left halfback, Freddy Stacy, 130; right halfback, Bobby Dillard, 130; and fullback, Vondell Hutchins, 160.

With a young team last season, Aspermont lost to Cross Plains 33 to nothing, however, it has been learned here that the Stonewall county school lost no strength at graduation last spring, and the team with added weight and another year of experience is determined to avenge last year's

trouncing. The trip to Aspermont, a distance of 101 miles, will be made by the team in a school bus driven by Richard Thompson. Rundell told the Review yesterday that he planned to leave here around 3:30 Friday afternoon. All members of the squad will be taken.

Most fans accompanying the team plan to go via Abilene, Anson and Hamlin. The game is a non-conference affair but will be watched with significance as to what may be expected of the Buffaloes this season. Kick-off time at Aspermont is eight o'clock.

First home game for the Buffaloes will be a week later, when the De Leon Bearcats come here.

No Pep Squad At School This Year

There will be no girls pep squad at Cross Plains high school this year but instead the entire student body will be organized into a cheering section, the Review was told Monday morning by superintendent Newell O'Dell.

Henceforth, students will assemble near the band in the football stadium and yell leaders will take their places in front for organized cheering. Any halftime formations will be put on by the band, instead of by the girls pep squad as heretofore.

Cheer leaders will be: Marie Smith, Emma Dee Worthy and Ann Baum.

Farmers Co-Op To Be Discussed Here

Ferrell Newton and Ray Plumlee told the Review Tuesday afternoon that a meeting had been called for Thursday night at 7:30 in the high school auditorium here for the purpose of discussing the organization of a farmers cooperative to do business in Cross Plains.

Tom Stoker, executive secretary of the Callahan County Cooperative at Clyde, and A. R. Black, manager of the cooperative stores at Clyde and Baired, have signified their intention to be present at the meeting here.

It is pointed out that Stoker and Black will explain the functioning of a co-op and answer questions regarding the set-up. Newton and Plumlee told the Review that they plan to attempt an organization in Cross Plains.

4th Grade Largest In Grammar School With 64 Students

Largest grade in Cross Plains grammar school is the fourth with 64 pupils in the two sections. One room of this grade is taught by Mrs. Clifton Barron and the other by Mrs. Roy Acker.

Hubert Kelley, grammar school principal, told the Review Monday afternoon that 421 pupils are enrolled in the local grammar school, a number he believed to be the largest in history of Cross Plains.

Number of students in each grade of grammar school are as follows: first 52, second 44, third 56, fourth 64, fifth 54, sixth 50, seventh 45, and eighth 55.

Fire drills were started this week and room captains are being appointed to work with faculty members in carrying out the exercises in a systematic manner.

CELEBRATING OUR 2nd ANNIVERSARY

This week we observe our second year in the practice of Chiropractic in Cross Plains. Looking back through our records we find that we have been privileged to give about 8,000 treatments since coming here in 1948.

We would seem ungrateful should we fail to acknowledge appreciation to those who have come to us for advice and treatment during the past two years. To genuinely express our gratitude in a material way we have recently enlarged our facilities, adding a flouroscope and x-ray and numbers of smaller incidental items, rendering us capable of wider diagnosis and more complete treatment.

Hoping to be favored with a continuance of support and confidence and that we may continue to aid the suffering of the Cross Plains trade territory for many, many years to come I am

Gratefully yours,

Calvin Gambill, D. C.

**Olin English Tells
Of Trip to Canada**

Mr. and Mrs. Olin J. English and family, of Rowden, recently returned from a trip through the northern part of the United States and into Canada. Particularly interested in agriculture of other localities as compared with that in this section of Texas, English provided the Review with the following account of his trip, highlighting farming practices observed elsewhere. His account follows.

From Cross Plains to Forney, Texas, crops were normal and about what one would expect. Getting into the fine black land belt we noticed that this valuable soil is being eroded because of the numerous hills and few terraces. Crops from Forney on for a couple of miles are mostly corn and cotton. The corn is fine and will be ready for pulling in a couple of weeks. Cotton appears promising but this region has also been troubled with insects. We saw one field of combine maize and it was so good that we could not help but wonder why more acreage is not planted to this crop.

Around Terrell we saw the first plantation style farming. Owners have large homes and barns and a short distance away will be seen a little cluster of Negro homes. This type of farming prevails until one passes through the Mississippi delta country, a distance of several hundred miles. In the plantation belt one begins to notice a lot of corn pullers around the houses and implement stores.

At Grand Saline, Texas, we saw our first saw mill and pine forest. The further we drove into Louisiana, Mississippi, Alabama, Tennessee and Kentucky, the more we observed that lumbering was a big business there.

Driving down the highway at an average speed of 55 miles per hour, one can not make an accurate estimate of the country. But from what we observed it seemed that Louisiana is by far too swampy, especially the Western part. The Mississippi delta section of this state is excellent farming country. They have wonderful crops of corn, cotton, and acres and acres of waist-high soybeans. All the highway signs in this state read: "Keep Louisiana Green".

Having always wondered where the bulk of the Negro population in the United States resides, let me say, this is no longer a puzzle. They're in the Mississippi delta country in almost uncountable numbers. In many small towns one sees four or five Negroes to one white. Small winding trails though are noticed on both sides of the highway, and the closer one gets to a town the more trails there

are. The Negroes follow these paths going and coming from the stores. Something about the trails reminded us of those to be seen leading to watering tanks in West Texas.

Our first night out was spent in Vicksburg, Mississippi, just across the toll bridge. It cost our party of five \$1.70 to cross the toll bridge. Leaving Vicksburg we began to notice the wonder plant of the Southern states, kudzu. It is beautiful along the highways, covering tall trees and fences, and carpeting the ground like mammoth grape vines. It is fine for cattle grazing, makes good hay when cut and is a soil conserver and builder. While eating breakfast in Vicksburg we talked with a local farmer. He said they will average 60 bushels of corn to the acre this year but it was too early to forecast cotton. This section has a fight with the bugs, the same as we do in West Texas. Ordinarily they dust three times a year but have already dusted five times this year. Cotton is shoulder high and has a pale green color, not dark green like that grown in West Texas. We made a picture of some corn, between Newton and Meridian, Mississippi, that was over 12 feet tall, and had from two to five silks on each stalk. No wonder some of the farmers make as much as 80 and 90 bushels of corn to the acre there.

The central part of Mississippi is a coming cattle country. Baby calves there sell for around \$30.

Through Alabama and into Northern Georgia one runs into the Great Smokey Mountains, and let me say, their beauty exceeds my ability to describe. To a Texan that has never seen anything higher than Caddo Peak, west of Cross Plains, these mountains are beautiful. It had just rained and the clouds were below the mountain tops, like smoke. They always have a hazy, autumn look, hence the name Smokey Mountains.

For a while in Tennessee, we thought we were back in Texas, we spent the night in Athens and ate breakfast in Sweetwater. An old timer in Athens told me they'd had more rain this year than at any time in 30 years. Around Athens is dairying and tobacco, with beautiful homes and big barns. The tobacco grows in patches, the reason I say patches is because the plots are too small to be called anything else. I talked with a 14 year old boy, and he said an average farm for this section is allotted a couple of acres of tobacco. His patch of one and two tenths acres would bring around \$1,500 when sold. The tobacco was about six and one half feet tall.

There is more we could say but time and space forbid. I will say this, it will always make me sick to see how sorry our corn crop is compared with that in Ohio. I want to say this too, Texas is not the only state that carries a lot in temperature. August 17 was the hottest day of the year in Ohio, a cool 94. I say cool because, Sandusky where we were, is right on Lake Erie, and it was cool to me. The sun does not burn like it does in West Texas. Then on August 21, the same town had a temperature of 50 degrees. On this day we rode a steamship across the lake to Kingsville, Ontario, Canada. And believe me, an overcoat would have felt fine, but there I

was in only a T-shirt. They knew I was from Texas by my drawl, or at least they said they did. The local people wrapped up in coats and jackets looked mighty comfortable. They told me that they'd always heard that Texans were hardy and now they believed it. I couldn't afford to complain or even shiver. So for the good name of Texas, the ordeal was endured without muttering. I wouldn't tell a soul, but now to you Texans I can say, since I am home, I almost froze. But that bunch of yankees never knew it. We only spent four hours in Canada. Food in cafes is cheap there. The cafe where we ate, sold french fried potatoes for 10 cents. But the

Canadians make up for it, when they sell American made cigarettes. They're 47 cents per pack there. As a substitute, two Canadian brands are sold for 37 cents. They are called "State Express" and "Players".

What Causes Family Arguments?

Is it the weather? Pop-in guests for dinner, the kids' report cards, or mom's failure to have dinner on time? Oddly enough, these things seldom cause family rows. When the subject is MONEY, or lack of it, is when tempers are shorter and arguments last longer. What is the answer? The habit of depositing regularly in your bank, which assures you of a saving when unexpected expenses come about. That way there'll be peace and harmony at home, and a grand feeling of security.

Items of interest taken from the files of the Review of 30, 25, 15, and 10 years ago.

30 YEARS AGO
 September 24, 1920
 The 1920 census shows Baird has a population of 1,902, an increase of 192. Cross Plains population is given at 700, a figure we are not pleased with, but very likely we are to blame for it rather than the census department. The town was incorporated in 1910, and its population was given as 300 plus. According to the percentage increase, our growth has been great.

D. Y. Bagby, of Dallas, general field man for the Anti-Saloon League of Texas, will lecture in the interest of the league at the Baptist tent on Sunday night.

Miss Nina Griggs of Baird and Ray Hickman of New Mexico were married in Baird on Wednesday evening. The bride is well known here and the groom is the youngest son of the Hickman boys reared southeast of Pioneer.

J. A. Young, of Hamlin, and late of De Leon, came here on Monday to take the place of Charley Boden as tailor for the City Tailor Shop, of which Arthur M. Donough is proprietor.

The Cross Plains public school opened Monday morning with an attendance of 170 pupils. About 40 patrons and friends attended the opening exercises.

25 YEARS AGO
 September 25, 1925
 Monday's Star-Telegram featured a group picture of some of the sturdy pioneers of Cross Cut and

Cross Plains who have lived here 30 years or more.

Those in the picture are as follows: J. K. Gafford, H. A. Newton, John Newton, J. W. Newton, O. B. Newton, A. F. Willis, R. W. Pentecost, J. W. Gholson, J. B. Eubank, John Westerman, Jim Coffman, Alfred Mills, Cliff Westerman, W. E. Gaines, G. B. Gaines, S. D. Stone, and W. P. Elsberry.

The Baptist Church in conference here Wednesday night called Rev. H. O. Hearn, of Liberty, Texas, as pastor. It is understood he accepted the call.

The Womens Missionary Society of the Methodist Church will do quilting for the public at \$1.50 per quilt. If you wish any of this work done, please see or telephone Mrs. Sherman Gehrett.

Dr. Joe C. Young, of Dallas, is locating in Cross Plains, and will office with Dr. Howard. He will do general practice and surgery. His family will probably arrive next week.

15 YEARS AGO
 September 13, 1935

Miss Frances McDermott and Edgar McAnally, both of this immediate locality, were married here Sunday with the Rev. S. P. Collins, Presbyterian pastor, solemnizing the rites.

The bride is the youngest daughter of Mr. and Mrs. Oscar McDermott and a member of one of the oldest families in this section.

Four long time members of the local fire department are soon to receive a suit of clothes as their first reward for service rendered. The gifts which will go to Chief

Ralph Chandler, C. F. Hemphill, O. T. Laws and V. C. Walker, will be paid for from funds raised by the firemen.

Gus Fowler, Vernon resident, is to be granted a permit to operate a bus line between Abilene and Waco. An order to this effect has been signed and will be mailed to Fowler as soon as necessary procedure is completed.

Cross Plains schools are again the largest in Callahan County. Four hundred sixty-eight students had matriculated Thursday at noon, and indications are that this figure will be materially swelled when muddy roads become passable.

10 YEARS AGO
 September 13, 1940

Lightning which accompanied a shower west of town Tuesday killed nine head of cattle at the Spencer and Baum places. The cattle on the Spencer place were found dead along the fence line, while Leo Baum's three head were in an open pasture.

For the second consecutive year the opening parade for Rising Star's Free Fall Fair, Friday morning, September 14, will be led by Cross Plains high school band.

The watch repair shop, located in the Hoover Produce building since its operator, J. L. Francis, opened here a few weeks ago, has been moved to the City Drug Store.

W. T. (Tom) Cox, local produce and feed merchant, this week closed a deal with the John Newton estate for the building first door south of the Motor Inn, on Main Street.

W. A. (Red) Huckaby this week received an invitation to exhibit his collection of bells at the State Fair of Texas opening in Dallas October fifth. Rebuilding of the Tom Lee home,

four miles west of town, is now being completed and when finished will be one of the more modern farm residences in that locality.

Evans Family Has Reunion Recently

Mrs. Fannie Evans and children held a family reunion Sunday, September third, at the Webb park, northwest of Burkett.

Those present were: Mrs. Evans, Mr. and Mrs. B. C. Evans, Joanne and Jeannie, of Burkett; Mr. and Mrs. Howard Chatham and children, of Oplin; Mr. and Mrs. John D. Montgomery and sons, Cross Plains; Mr. and Mrs. L. S. McCormick and children, of Fort Worth; Mr. and Mrs. L. D. Evans and Sonja, Mr. and Mrs. Ivan Clark and Dwayne, Mr. and Mrs. Bud Key and baby, all of Burkett; Mr. and Mrs. Paul Lucko and baby, Fort Worth; Mr. and Mrs. Curtis Ledford, San Antonio; Mr. and Mrs. L. Don't Speculate

It doesn't pay to have your car repairs at places with inferior tools or equipment. Bring your motor to a shop that specializes in expert workmanship, parts and equipment.

The most important thing to the life of your car is its minor repairs before they become big problems. Superiority in the repair of motor troubles is not speculation when you get the job done right the first time.

Mr. and Mrs. Tillman Terry, of
Odessa, visited her parents, Mr.
and Mrs. S. A. Moore, over the
week end. Mr. Moore is some im-
proved, is able to be up in his
room most of the time.

Those who visited in the R. A.
Maddox home Sunday were Mr.
and Mrs. Harry Smith and daugh-
ter, Billie Sue, and Mrs. Burnard
Caffey, of Abilene.

Rev. and Mrs. C. R. Myrick and
Danny have moved into our com-
munity temporarily until he can
secure a house near Rowden where
he has accepted a church. We are
happy to have them living here.

Mr. and Mrs. A. L. Thomas and
Wilma Lee, of Cisco, visited in the
S. H. Thomas home Sunday.

The sad news reached our com-
munity of the death of Mrs. Roscoe
Griffin, of Centerville, Illinois, Fri-
day, September eighth. Death was
caused from a stroke. Mrs. Grif-
fin was a sister-in-law of Mrs. H.
S. Varner.

Mr. and Mrs. Houston Upton, of
Rising Star, visited Sunday with
her parents, Mr. and Mrs. R. T.
Oneal.

Mr. and Mrs. Roy J. Clark and
family visited in Bangs last Sun-
day.

Rev. O. B. Yancey, of Brown-
wood, filled the pulpit at the Bap-
tist church Sunday.

**NOTICE
Radio
Owners**

There is now a shortage of
radio tubes and it may get as
bad as it was during World War
II, in which event many an ex-
cellent radio will again be out
of service indefinitely.

I do not want to again close
my radio department and I am
sure you do not want to be with-
out your radio, so I suggest to
you that you take a postal card
and write the name of your radio
thereon and also be sure to give
the model number, sign your
name and address clearly and
mail the card to me. From these
cards I will be able to estimate
possible tube failure or break-
down of other parts and I have
made financial and other ar-
rangements so that I can carry
in stock or secure various tubes
and supplies as fast as they are
available.

Remember, I am possibly the
only bonded radio technician
closer than the large cities, that
my radio and electronic test
equipment is the very finest and
that I started with radio way
back yonder when we used to
make them on oatmeal boxes.
The postal card will cost you
one penny and you may find it
a very profitable investment. In
the meantime, don't tinker with
your radio and don't let anyone
else unless you are sure they
know what they are doing and
have proper tools and repair
equipment.

**New Officers Take
Legion Posts; Set
2 Meetings Monthly**

New officers of the Tommie
Aiken American Legion post here
have assumed duties for the en-
suing year, and Elvis Scott, post
commander, announces that hence-
forth two meetings will be held
monthly instead of only once as
heretofore.

Regular meeting nights of the
post are now the first and third
Wednesday nights in each month.
The first meeting of the month
will be principally a business ses-
sion, with the second meeting in
each month being devoted primarily
to social purposes.

The new officers are: Scott,
commander; Ralph Pancake, first
vice-commander; Claude Poster,
second vice-commander; Merlin
Franke, adjutant; Chester Glover,
finance officer; M. E. Howell, ser-
vice officer; Dan Falkner, sergeant
at arms, and Bill Jones, bugler.

Next regular meeting will be on
the night of September 20, Scott
told the Review yesterday. This
meeting will be for the purpose
of taking up any new business
that may need handling at that
time, and to serve as the organi-
zation's first social gathering in
the new set-up.

Mrs. Brooks Hill and baby, of
San Angelo, have been visiting in
the home of relatives and friends
here this week.

Mr. and Mrs. Ira Hall had as
their guest over the week end
their daughter, Mrs. Albert Grimes,
of Odessa.

Mr. and Mrs. Socrates Walker
and children, of Westbrook, and
Teddy Walker, of Itasca, visited
with Mr. and Mrs. V. C. Walker
here over the week end.

Mrs. Julia Conger and Bill
Bounds left Monday night for Al-
bany where they were to be joined
by their brother, Jack Bounds, in
a trip to their old home in Missis-
sippi.

Guests in the home of Mr. and
Mrs. Eval McMillan and daughter,
Billie Helen, Saturday night and
Sunday were: Mr. and Mrs. C. F.
McMillan, of Coleman; Mrs. Hazel
Coker, twin daughters and son,
of Brownwood.

PLANT GOOD WHEAT

Now is the time to think about what type wheat you are going to plant. It is a good idea to buy your wheat now before a shortage of the better varieties develops. New improved varieties developed by the Texas Experiment Stations and private plant breeders are not only good yielders, but also have good baking qualities.

Comanche and Westar wheat are used for baker's flours and Wichita and Triumph are for family trade flour. Tenmarq and Turkey produce excellent quality baking flour, but do not give as high yields as Comanche and Westar. The market demand is for the varieties of high quality baker's flour and that is what producers must keep in mind when selecting their wheat varieties.

After a good variety of seed is selected there are other things that must be done. Seed should be examined to see if any weed seeds or smut balls are present in the seed. If so, these must be cleaned

out. The disease which most growers need to guard against is stinking smut. This smut is hard to recognize in the field except by its foul odor and greener color of infected grain heads. The kernels of the infected plants change to smut balls and when the grain is combined, these smut balls are broken and millions of black spores are scattered over the healthy wheat seed. If the seed with the spores on them are planted, a good crop of stinking smut will develop next spring where grain should be. Smut reduces the yield in the field and smutty grain is docked on the market.

Smut on wheat and oats and barley can be controlled by mixing one half ounce of either the new improved cerasan or the new chemical called cerasan M per bushel of seed.

There is a type of smut called loose smut of wheat that leaves empty black heads in the field. Chemicals do not control this smut, but it can be controlled by the difficult hot water treatment. It would be wise though to try to get seed free of this smut or any

type of disease. Treating seed with chemicals is expensive insurance against losses from grain diseases, and against further losses from dockage on the market.

GRAIN STORAGE ON THE FARM

Now is the time for farmers to begin to think about storing that crop of grain sorghum that is going to be harvested. On the farm storage gives farmers insurance that the crop can be taken care of and enables farmers to qualify for government loans.

Storage facilities can be constructed at a cost of from 15 to 50 cents per bushel, depending on the size of the structure. The larger the structure, the less the cost will be per bushel of storage space.

Due to the lack of sufficient labor in many localities, some farmers may prefer to buy prefabricated bins or grainaries. This year, most of these prefabricated structures are costing about 30 cents per bushel of storage capacity.

Regardless of whether the farmer builds his storage or buys it, there are several things to be considered when planning for grain storage.

Low moisture content is necessary for long, safe storage of grain. This is particularly true of grain sorghum which should not test over 12 per cent. Construct a strong, durable building and eliminate cracks and holes through which moisture and insects may enter. Provide facilities for fumigation where necessary. Rat proof the grain structure and locate it conveniently on a firm, dry site. Plan an easy way for moving the grain in and out. Build the structures so they will last for many years.

If you already have a storage bin, it will be necessary to prevent the new crop of grain sorghum from being infested with insects from the old stored grain. If the bins are constructed of wood, apply a residual spray to the walls and floor at the rate of two gallons of spray per 1000 square feet of surface area. Spray steel bins around the door frames and other places where the insects may be concealed.

Sprays consisting of two and one-half parts DDT or chlordane as emulsions or water suspensions have been found satisfactory for treating grain bins. A water suspension of DDT can be prepared by mixing 10 and one-half pounds of 50 per cent wettable DDT powder in 25 gallons of water.

Before new grain sorghum is moved in, all sources of insect in-

festations should be removed, including feed, waste grain and other materials stored or accumulated near the bins.

Qualifications for a government loan require that the grain be stored in bins or grainaries where it will not be subject to damage from moisture, insects, rodents, or other causes. Blueprints and other information concerning grain storage can be secured in the County Agent's office.

AN ORDINANCE ESTABLISHING SPEED LIMITS IN SCHOOL ZONES, HOSPITAL ZONES, CHURCH ZONES AND ANY OTHER ZONE WHICH MAY HEREAFTER BE DECLARED HAZARDOUS TO PEDESTRIANS; PROVIDING FOR SUFFICIENT WARNING SIGNS; AND PROVIDING PENALTIES NOT TO EXCEED \$200.00 FOR VIOLATING THEREOF.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF

CROSS PLAINS, TEXAS:

SECTION 1. Hereafter it shall be unlawful for a driver of any vehicle to exceed the speed limit as designed by warning signs posted at the beginning of any zone approaching a school, hospital, church or any other zone which has been plainly marked by warning signs and declared by the City Council as hazardous to pedestrians. Provided that such zones shall be established by resolution or resolutions adopted by the City Council as authorized by Section 8 of Article 827a, Penal Code of the State of Texas.

SECTION 2. Any person violating any of the provisions of this Ordinance shall, upon conviction thereof, be fined in any sum not to exceed two hundred dollars (\$200.00) and each violation thereof shall be and is hereby declared to be a distinct and separate offense and punishable as such.

SECTION 3. The fact that traffic on the streets of the City of Cross Plains has greatly increased with the growth of the City's population, and the fact that existing ordinance of said City do not afford an adequate and comprehen-

sive regulation and control of traffic in zones where schools may be located, create the necessity for this ordinance to be passed and become effective upon its reading and publication as provided by the general laws of Texas and it is so ordained.

Passed and Approved this 11th of September, 1950.
