

"AS I SEE IT"

By Jack McCarty

Miles of smiles were seen in these parts early this week... all brought on by the fine rains received over this section on Sunday and Monday. The precious moisture came in time to save grain and cover crops and also put out some badly needed stock water in this area. After talking to a large number of farmers and ranchers here, this department doesn't hesitate a moment to term the precipitation a "Million Dollar" rain. Falling slowly, it was hungrily soaked up by the parched earth and was "just what the doctor ordered" for this sick country. A great deal of discussion has developed on the question of whether or not the professional rain-makers hired by the City of Dallas, had anything to do with the rain. Generators had been set up by the rain firm at Anson, Ranger and Brownwood and while we do not desire to get into an argument on the issue, this writer is going to give full credit for the moisture to our Creator.

After getting off to a poor start, the Cross Plains Buffaloes found themselves late in the conference season and wound up the football season in a blaze of glory... winning their last three games to tie with Santa Anna for fourth place, with three wins and four losses. They batted 500% in the season standing with five wins and five losses. We extend our congratulations to Coaches Frank Rundell, James Alexander and Hub Kuempel and to the Buffalo football squad for a fair season and walloping good finish. To the team's seniors, Quarterback Dwayne Wilson, Fullback Jim Cade, Halfback Billy Jack Harris and Center Danny Myrick, we extend our best wishes for the future and may you play the game of life with the same rugged determination that you have shown on the gridiron here.

Our congratulations are also extended to Billy Jack Harris upon winning first place in the "Bill of Rights" essay contest, held recently.

Buffaloes Wallop Santa Anna Mountaineers By Score Of 20-0 To Wind Up Grid Season

The Cross Plains Buffaloes closed out the football season here last Friday night by walloping the Santa Anna Mountaineers by a score of 20-0, to win a tie with the Mountaineers for fourth place in district standing, with three wins and four losses each.

The game was evenly matched during the first period with each team showing strong offensive ability. However, the Buffaloes took command of the situation in the second quarter when Quarterback Dwayne Wilson hit End J. Garrett with a 34-yard TD aerial. Wilson added the extra point from placement and the half-time score read 7-0 in favor of the locals.

In the second half, the Buffaloes came back strong and after advancing the ball to the visitors 12-yard stripe, Halfback Jim Cade took a pitchout from Wilson and skirted right end to score. Final tally of the game came in the last period when Wilson passed to End Paul Lane from the 14-yard stripe. Wilson again added the point from placement to make the final score stand at 20-0 in favor of the Buffaloes.

Eleven Year Old Burkett Boy Kills Six Point Buck

Cecil Gale White, 11-year-old son of Mr. and Mrs. H. P. White of Burkett, has just returned home from a hunting trip near Menard with his father and brother, Richard, and was the only one of the three to get a deer. The deer, a six point buck, was killed by the first shot fired by young White and struck him in the neck. He was using a .22 Hornet rifle at a distance of 66 yards.

Young White was hunting in a 160-acre pasture, alone, when he shot the deer. He was unable to field dress it and made his way back to the pick-up where he sounded the horn until his older brother, Richard, came to his rescue.

White says that they are going hunting again real soon and he hopes to get another buck, a bigger one.

Officers Hunt For Stolen Automobile

BAIRD—Officers in this area Friday sought a new \$3,000 Pontiac automobile which a bold burglar stole from the show floor of the Baird Motor Company Wednesday night.

C. S. McClellan, manager, discovered the theft Thursday morning.

Possibly an old model Buick automobile, found abandoned on Baird's eastern outskirts after the theft, was switched for the new car as being probed late Friday.

The burglar smashed a rear window glass to enter the building. Inside, he changed a license plate from another car to the new car, then drove the car off the show floor and out of the building. The lock on the double doors had been smashed.

The stolen license plates are Texas No. CB 23.

WHAT THE BILL OF RIGHTS MEANS TO ME

By Billy Jack Harris

The history and government books state that the Constitution of the United States is the greatest work ever created by man at one time. Although the Constitution has only seven original articles, soon after its adoption the first ten amendments, or "Bill of Rights," were added.

The first article, "Freedom of Speech, Press and Religion," means more to the lives of the people of the United States than does any other article. It means that you cannot be punished for what you say, what you believe, or what the newspapers say unless the statement is made for the purpose of overthrowing the government.

At the present time it is not necessary to bear arms because of our efficient police forces and armed services. Since the armed forces serve to protect our country, I would not object to soldiers being quartered in our homes, if there was a national emergency or some other cause.

Search warrants, in my notion, play a great part in protecting the lives of the people of the United States of America. They prevent officers of the law from coming into my house unless they have a good reason. The complaint, along with the judge's signature, has to be on the search warrant.

Criminal proceedings mean that I cannot be tried twice for one crime; that I cannot be used as a witness against myself; and, I shall have a speedy and public trial by an impartial jury in the state and district where the crime was committed. If I am unable to provide for a lawyer, the court will appoint one for my defense. When the value in dispute is over twenty dollars, I shall have the right to say whether I want a jury trial or not.

Excessive punishment means that I cannot be required to pay an excessive bail or fined in excess. Cruel or unusual punishment cannot be imposed. For example, Article VIII states that no one may beat me for robbing a store or sentence me to twenty years in prison for stealing a few chickens.

Article IX states that laws shall not be passed that will undervalue certain rights of the people. For instance, no law shall be passed that will undervalue the freedom of speech, press or religion.

Article X, or the "Powers Reserved to States," states that any law not given to the Federal Government by the Constitution shall be fully in the hands of the state, unless the Supreme Court shall rule differently.

Therefore, I believe that the "Bill of Rights" means more to the people of the United States than appears on the surface. Every citizen should think seriously about what could happen if we did not have a "Bill of Rights."

THE BAYOU PHILOSOPHER SAYS CITY PROBLEMS BIGGEST SOURCE OF ENTERTAINMENT HE KNOWS OF

Editor's note: The Bayou Philosopher on his Johnson grass farm on the Bayou is probably talking about something he doesn't know anything about this week, but it's not the first time.

Dear editor:

I read the other day where some expert had been studying the problems cities are havin, their parkin problems, their utility rate problems, their street pavin problems, their garbage disposal problems, their police problems, their school problems, their city hall problems, their water supply problems, etc. He said it looks like about the time they get one problem solved, one increase in rates adopted, another one crops up. If one city is out of water, another is out of money to patch streets, another is huntin for the money to extend water lines, another needs a new school buildin, etc. There ain't been a time longer than three months in some cities when one company or another wasn't raisin rates or fillin an intention to or complainin the last raise wasn't high enough.

This expert said he had been thinkin and was wonderin if cities have out-lived their usefulness? "That is," he said, "do you suppose cities are like the prehistoric animals that got so big and required so much to eat they couldn't get around to food fast enough to keep them alive?"

Personally, I do not look at it this way. We need cities. If it wasn't for cities, a man in the country would get bored to death. They relieve him of the monotony of farmin. A man livin in the country can worry about a drouth all day, fight the dust, watch his cows get thinner, see prices flat, fight the high cost of livin, hear his rear tractor tires both go flat at the same time, blow a gasket on his car, come in to supper and find out his water pump won't work, and still turn on the radio or pick up his newspaper and sit back and relax, just enjoyin himself hearin about the problems the cities have.

It doesn't seem to make much difference what city it is, they all render this type of service to country people, they all got problems, little ones, big ones, middle size, and they don't ever seem to solve none of em permanently, maybe stall em off a few months, but actually solvin em seems beyond the grasp of the metropolitan mind, although they never stop tryin.

Me, I don't solve many of mine out here, but I learned long ago to stop tryin.

If cities are in danger of becomin obsolete, Congress ought to step in. The problem of cities, constitute the biggest entertainment features a man in the country has.

Yours faithfully,
J. A.

What Do You Buy...?

What do you buy when you buy Christmas Seals?

Ammunition for the war against tuberculosis in this community? Yes, Decorations for holiday greeting cards and gift packages? That too. But you want to know more. You want to know exactly what services you buy when you contribute to the support of the Callahan County Tuberculosis Association.

We went to headquarters to find out for you. We asked a lot of questions, and got a lot of answers. They aren't hiding their light under a bushel at the TB Association. They want the public to know exactly what they are doing to combat tuberculosis, because the public pays for it.

That was the first thing to learn—that the Christmas Seal Sale is the only financial support of the association's activities.

The war against tuberculosis is fought by the volunteer associations on four major fronts, health education, case finding, rehabilitation which includes services to patients and their families, and research. On these fronts the association wages a year-round battle in cooperation with the health department, the medical profession, and other agencies.

Tuberculosis is not a disease that can be conquered only by treating sick people, we learned. Doctors are curing cases in TB hospitals every day, but there are 150,000 unknown cases in the United States which they can't treat. A person may have TB and not know it. He may spread the germs long before symptoms warn him to see a doctor. This fact make the control of TB difficult. It makes TB a public health problem, which concerns all of us.

This is where Christmas Seals come into the picture. They are defensive ammunition you buy to check the spread of this disease which attacks more than a hundred thousand people every year, which attacks regardless of age, sex, or financial position.

Last year you bought health education through the medium of lectures, films and printed material.

You bought case finding through the use of patch test given to all school children, and chest X-rays to all adults.

You bought rehabilitation of patients by paying doctor's and medical fees and in some instances buying the necessary clothing for patients to enter hospitals.

You bought research. A portion of your Christmas Seal dollar is used by the National Tuberculosis Association to make grants to scientists doing research in tuberculosis.

With your 1952 Christmas Seal dollars you will buy continuation in 1953 of the activities now being carried on.

There you have the answers to the questions.

West Texas Utilities Co. Named 1st Place Winner In Fleet Safety Contest

Abilene, Nov. 14—The West Texas Utilities Company, according to an announcement by the National Safety Council in Chicago, has been named as first place winner in the Public Utilities Division of the council's 1951-52 National Fleet Safety Contest.

In acknowledgement of its national standing in the Driving Safety Contest, the utility company was presented with a bronze plaque, mounted on walnut, and bearing the inscription "Winner, Public Utilities Division, National Safety Council's 1951-52 Fleet Safety Contest."

From July 1, 1951 to June 30, 1952, West Texas Utilities employees drove company vehicles a total distance of 3,399,000 miles and achieved the excellent accident rate of .09 accidents per 100,000 miles. This rate was far below that of the nearest competitor. Under the contest the slightest fender dent is considered a reportable accident. Before winners are declared in the contest the accident record of the companies are carefully audited by a representative of the National Safety Council.

"The West Texas Utilities Company," said Price Campbell, President, "is striving in every way to be a good citizen in the community it serves. Certainly safe driving is a vital part of good citizenship." The company which maintains a continuing safety program for all departments and all drivers has established a national reputation for traffic safety. In 1951 the company was the second place winner in this same contest. A first place winner in the 1946 Bureau of Safety Contest, the company is this year a contender for the 1952 first place title which will be announced shortly after January 1, 1953.

Grass and Time

Reclaiming gullied land sometimes would seem impossible. The best control for gullied land is to keep it from getting that way. When land is blotched with gullies to look like bleached ribs of skeletons lying in a desert sun, there is some help that man can give nature in restoring its usefulness. Grass and time will eventually accomplish the task. Your county agent can recommend good grasses that will grow in gullied land.

Are you shutting your child behind an "IRON CURTAIN"?

It is every child's right to share in the religious heritage of our nation . . . to have the doors of our churches and synagogues freely open to him . . . that God's house may become as dear and familiar as his own.

This blessed privilege . . . denied to the children of the Iron Curtain countries as a matter of state policy . . . is unhappily denied to many of our little ones because we are indifferent, or busy, or careless of our responsibilities.

Worship together this week . . . you and your children . . . and give thanks for the right to worship in the church or synagogue of your choice.

Show them the Way . . .  this week!

Gerald Moon, Fort Worth Girl Married In Church Ceremony

Rosemary, the daughter of Mr. and Mrs. George M. Dunnam of Fort Worth, became the bride of R. Gerald Moon of Cross Plains in the chapel of First Methodist Church in that city at three o'clock Saturday afternoon, November 22. Her sister, Mrs. George V. Schmidt, Jr., and husband were hosts at a reception afterward at their home, 2200 Grandview Drive. Mr. and Mrs. Homer Moon, parents of the bridegroom, and Mrs. Don F. McCall were in Fort Worth for the wedding and reception.

Dr. James Ansley read the double ring vows before an altar lighted by cathedral tapers and flanked on either end by baskets of white carnations and stock interspersed with greenery. Robert Clark played organ music. Given in marriage by her father, the bride chose aqua blue and white for her wedding ensemble. Her two piece cordon wool faille street length dress was fashioned with flowing skirt and slim spencer jacket with peter pan collar. Her pill box hat was winter white with eyebrow length veil. She carried a single white orchid encircled in lace on a white Bible.

Miss Paula Dunnam, cousin of the bride, was bridesmaid and Mrs. W. H. Taylor was matron of honor. Both wore dark aqua street length dresses and carried bouquets of pink carnations and stock. Mr. Harold Moon acted as best man for his twin brother, Bob Goode of Bronte and George Schmidt were ushers.

At the reception attended by 164 persons, members of the house party were Mmes. W. H. Taylor, George V. Schmidt, T. A. Royse and Misses Toppie and Mary Etta Schmidt.

The bridal table was laid with white linen centered with a mirrored arrangement of carnations and mums cascading to the floor. The white three tier cake was topped with a miniature bride and groom and bronze and white mums decorated entertaining rooms.

Out-of-town guests were Misses Polly Moon and Nell Smalwood and Boone Carey, Jr. and Bill R. Short of Waco; Cameron Gwin of Mineral Wells; Mr. and Mrs. Dale Schmidt of Dallas and Mrs. R. L. Dunnam of Granbury.

For going away Mrs. Moon wore a two piece navy knit wool with pink cloche hat and navy accessories. After a short wedding trip the couple will be at home in Fort Worth where both are employed.

Pioneer H. D. Club Members Attend "Achievement Day"

The Pioneer Home Demonstration Club met in regular session at the club house Wednesday, November 19, at 2 o'clock, with nine members answering roll call.

Council delegate, Mrs. E. L. Gardner, brought back a nice report from the council meeting in Eastland on November 12. Six club members and one visitor attended from Pioneer. It was also county achievement day. Our club took six entries and won four prizes. Mrs. H. C. Fridge won first place on lamps and second on matching stripes and plaids. Mrs. Henry McCoy won first on textile painting and Mrs. B. T. Stovall took second place on oatmeal cookies. It you didn't attend achievement day you really missed a treat.

Our club is packing a box for Thanksgiving to be sent to the boy and girl we sponsor in the hospital. We also want to send a box for Christmas. All members are urged to bring clothing for these two at our next meeting, December 3. If you have forgotten sizes please contact Mrs. Gober.

We want every member present for our December 3 meeting as that will be the last meeting for this year and we have important business to discuss. Don't let your club and community interest lag. Please be there.
