Join the Red Cross, buy war saving stamps, and don't talk pessimistic about the outcome of the war.

April the first the time expired in which one could pay his income tax. Additional time was given to give everybody a chance to understand the law. A good deal more time would have been necessary in order to let the country news papers earn enough to come under the jurisdiction of the law.

Over at Breckenridge, in Stephens county, a meeting has been called for this week to bring permanent and go-ahead organization to the immediate construction of the "Oil Belt Highway" through the seven counties between Wichita and Brownwood. Of course, there is liberal toward proposed in the two fields to be connected.

way, will be in hand to co-operate with the progressive citizens now working for this inter-oil field road. Mark the prediction: "The Oil Belt Highway" will be built; it will be a great thing for the oil industry; it will be a great thing for the people served by the road, and a credit to the Texas spirit of keep-things-going as usual.—Telegram.

CLEAN UP THE TOWN

There is nothing more badly needed than the cleaning up of Cross Plains. The unsanitary conditions that prevail in the business section and resident, too, we suppose, is a shame and a disgrace to any community. It is not our province to say who is to blame, but it is a condition that should be remedied at once. It can be done and it must be done. It is more important immediately than that we have good roads or water. Arrangements can be made that will keep the sidewalks clean and clear

of flies, allowing one to pass near by without nausea. Joe Shackelford has a bulletin entitled, "A Sanitary Privy System for Unsewered Towns and Villages" which gives a practical solution to this vexatious question. He says he is going to do his best to make the city install the system. The expense would be trifling, and the benefits manifold. Cisco began a year or two ago to use the same system, whether wholly or not we do not know.

SALARIES INCREASED

Is your school out? You ought to double your salary before school opens in the fall. You can earn that increased salary not only while school is open, but during the entire spring, summer, fall and winter, therefore, you will draw twenty five to fifty per cent more salary during a year than you would at the same rate teaching only during the school terms and spending your savings after school is out.

The door to the world of business is open. Everywhere helps needed and excellent pay offered. Do not allow the war to cripple or paralyze our trade. Take the places of the young soldiers who

have gone, by getting our commercial training.

In three months you will be ready to accept a good position and make money to invest in Liberty Bonds, War Saving Certificates or Thrift Stamps, saving yourself and your friends from higher taxation to secure War revenue.

At the same time you draw an income on your investment and furnish capital which Uncle Sam needs at once.

What you can do in business, you can do as well in Civil Service.

Your ambition to travel to see our great capital of Washington, D. C. is easily achieved.

Uncle Sam offers good salaries to beginners who are properly trained.

Our graduates are successful in this work. Many enter school with Civil Service in view; many decide up on it after they are in school and large numbers of our former students have changed their business positions for Government positions.

Our women are serving their country in the Red Cross and in organized campaign work, our men in the great movement to finance the war by the aid of every citizen.

Your call is open; you can do the work which they cannot do. Show your patriotism; as soon as you are free from school duties, take up this work and make your choice for service.

THE GREAT WAR HAS MADE CIGARETTES A NECESSITY.

"Our boys must have their smokes. Send them cigarettes!" This is a familiar appeal now to all of us.

Among those most in demand is the new famous "toasted" cigarette—LUCKY STRIKE. Thousands of this favorite brand have been shipped to France. There is something home-like and friendly to the boys in the sight of the familiar green packages with the red circle.

This home-like, appetizing quality of the LUCKY STRIKE cigarette is largely due to the fact that the Burley tobacco used in making it has been "toasted." "It's toasted" was the slogan that made a great success of LUCKY STRIKE in less than a year. Now the American Tobacco Co. is making 15 million LUCKY STRIKE Cigarettes a day.

A good part of this immense production is making its way across the water to cheer our boys.

It Cost the Average Family Less Than 10c Per Week for Packer's Profit in 1917.

The Meat Bill is one of the large items in the family budget but

less than 10 cents per week of it goes to the packer in profits.

In converting live stock into meat and getting it into the hands of the retail dealer, the packer performs a complex and essential service with the maximum of efficiency.

The above statement is based on Swift & Company's 1917 figures and Federal Census data:

Swift & Company's total output (Meat and by-products)	5,570,000,000 Pounds
Swift & Company's total Profit	\$34,650,000.00
Profit per pound	\$.0062

U. S. Meat Consumption	170 pounds per person per year
170 pounds at \$.0062	= \$1.05 per person per year
The average family 4 1/2 persons	= \$4.72 per family per year

Texas News

Community canneries are being established in many counties throughout the State.

Thirty-four dogs, supposed to be infected with rabies, were killed in one day at Diboll last week.

The annual meeting of women of the Texas Episcopal diocese will be held in Galveston on April 10 and 11.

Work has begun on the new \$50,000 educational building for the North Texas Normal College at Denton.

One thousand one hundred and sixty-eight school children of Victoria have pledged themselves to plant war gardens.

Approximately 3,000 acres will be planted to cotton this season in the vicinity of Collegeport, but the farmers are not forgetting the nation's necessities and are liberal planters of food and feed.

State aid has been granted the following schools: Markham \$500, Midfield \$500, Bicestar \$400, Prairie Center \$500, Turtle Bay \$175, Collegeport \$400, Citrus Grove \$500, Ashby \$500, Buckeye \$400, Van Vleet \$500, Pledger \$500.

Licenses to practice law in Texas were issued by the board of legal examiners for the Third supreme judicial to Mrs. Mary Wallace Savage and Mrs. Bertha Wallace Lewis, both of Houston, and Mrs. Emma Boone Hledsoe of Lubbock.

There is still time, especially in the northern and northwestern counties of Texas, to sow oats for hay. This, if planted now, will be ready for hay by late May and early June, after which time corn, potatoes or leguminous crops might be planted.

The executive committee of the Texas Cotton Seed Crushers' Association has decided that the annual convention of the association would be held on May 23, 24 and 25 in Galveston. The rules committee of the association will meet two days before the convention.

Examination for all grades for teachers' certificates will be held in each county of the State April 5 and 6. State Superintendent W. F. Doughty announces. The examination is made necessary, Mr. Doughty explained, because of scarcity of teachers, due to many taking up various branches of war work.

The federal "daylight saving law" which became effective on March 31 does not affect the time of opening or closing of the 2,000 saloons in Texas, according to announcement this week by the comptroller's department. It was explained that the saloons are operating under a State law which carries a penalty, hence the State law will prevail.

Sudan grass this year should be planted for hay and pasture. The Texas Agricultural Experiment Station has conducted field investigations of Sudan grass throughout the semi-arid lands. It is a wonderful drought resistant and it must be very average season when it will not yield its average of one and a half to two tons and more of hay to an acre. Crops of four tons an acre have been harvested.

Governor Hobby has named two assistant secretaries to the governor, as provided in the new appropriation bill. One is Ralph Soape of Henderson, who was secretary of the last senate, and the other Miss Mamie Edmondson of Dallas, formerly assistant to the secretary of the federal land bank at Houston. This is the first time in the history of the state that a woman has held the title bestowed on Miss Edmondson.

An opinion of much importance to the public schools of the State has been rendered by the attorney general in a letter to the State superintendent of public instruction wherein it was held that the board of trustees of an independent school district may legally enter into contracts with teachers for a longer period than one year. Where the board of trustees of a city or town or independent school district have elected a superintendent they may also select a principal of the high school.

Eminent legal authorities hold that there is nothing in the Texas laws or constitution to prevent women from holding public office in this State excepting as members of the legislature. This is of intense interest at this time because of the right of primary suffrage given the women of Texas. It is expected that many will become candidates for public office, though none is expected to run for state office. However, there is no inhibition against such candidates. Women are candidates for county office in several places.

TEXAS LEGISLATURE ADJOURNS SINE DIE

FOURTH CALLED SESSION COMES TO AN END WITHOUT USUAL SCENES OF CONFUSION.

CLOCK NOT TURNED BACK

Many Important Bills Passed, and So Far Not One Measure Has Been Voted by the Governor.

Austin—Flinn was written Wednesday on the fourth called session of the Thirty-sixth legislature. It was a quiet termination, after a strenuous session. Different from nearly all of its predecessors, there was no wild rush at the last to pass and enroll bills and, most unusual, it was not necessary to turn back the hands of the clock. The senate adjourned the latter part of the morning and adjourned promptly at noon. The house adjourned a few minutes earlier. All work was completed and there was no reason to prolong the session. It was a war session which made history and passed many bills, more than 100 in all, some regarded as most important. Speaker Puller gave the session high praise just before adjournment, and there was good fellowship prevailing on both sides of the capitol.

Governor Hobby has several bills on his desk to be disposed of. As yet no veto has been filed. One or two measures have been duplicated by both houses, this being true as to house bill 41 and senate bill 29, both requiring the use of the flag in public schools and teaching patriotism.

Judge Clark Dies at Waco Home.

Waco—Judge George Clark died here Thursday following an illness which had confined him to his bed for some six weeks. He had been in ill health for more than a year. Judge George Clark was born at Edgewood, Greene county, Ala. July 13, 1841, a son of Chancellor J. B. and Mary Erwin Clark, and the youngest of seven boys. He entered the university of Alabama, at Tuscaloosa, Oct. 1, 1857, where he remained until the beginning of the war.

Shipping Board Launches 168 Ships.

Washington—Exact figures on the progress of shipbuilding in the United States were made public by the shipping board as a result of debate in the senate during which officials said statements had been made based on inaccurate information. Since the shipping board began its work 168 vessels have been completed and put to service. The launchings were divided between 165 requisitioned vessels and 23 which were built on contract in yards constructed for the purpose.

Recruiting Marines to Be Resumed.

Washington—Officers in charge of Marine corps recruiting stations have been ordered to resume recruiting April 1. A limit of 2,000 new recruits per month will be maintained until additional training facilities become available through the transfer of organizations for foreign service.

Postpone Date Camp Bowie Review.

Fort Worth—It was announced that the date of the review of the Thirty-sixth division has been postponed from April 4 to April 11. The postponement was decided upon after a conference held at division headquarters at Camp Bowie. A number of prominent visitors are expected to attend the review from Washington and elsewhere and they will be given more time to make the trip. Extensive preparations for the parade also are necessary and it will require more than a week to complete these.

Defeat Germans Occupying Kherson.

Moscow—More than 500 Germans occupying Kherson were defeated, many were killed and captured and the rest fled leaving two armored cars, when the city was captured by the Bolshevik forces. All Russian troops have been removed from Persia according to a report from the military revolutionary committee on the Persian front to the department of foreign affairs. All supplies there are being removed to Baku.

Japan Will Deliver 12 Ships to U. S.

Washington—Formal announcement by the war trade board of the new shipping agreement between the United States and Japan shows that Japan is to turn over to the American fleet immediately 12 big steamers of 100,000 tons dead-weight capacity in return for steel supplies. Negotiations are proceeding for the transfer of 200,000 tons of new construction on the same basis.

Offensive Against Italy Seems Likely.

Washington—Forty new Australian divisions have been distributed along the Italian front, the Italian embassy was advised by cable from Rome, and this activity has convinced Italian military men that the battle in France will not prevent an offensive against Italy. This view also is shared by the allied leaders, the cable said, and consequently not a single man of the Franco-Italian forces in Italy had been withdrawn.

DIMES LENT TO TREASURY SOON MAKE DOLLARS

MONEY INVESTED IN WAR SAVINGS STAMPS FATTENS—COMES BACK WITH GOOD INTEREST.

This little bag of money represents the cost of a War Savings Stamp. It is the smallest interest-bearing bond issued by the United States Government. The money in this bag, if lent to the Government, will aid materially in winning the war. Every time a War Savings Stamp is purchased the Government is lent enough money to buy one hundred rifle or machine gun cartridges, a pair of soldier's shoes—hundreds of things American fighters must have if we win the war and for which they look to the Government and the folks at home to supply them. They must have those things or lose.

This big bag of silver and gold represents the money that the postmaster will give for every War Savings Stamp brought to the postoffice on January 1, 1923. War Savings Stamps pay their owner four per cent interest compounded quarterly; they commence bearing interest the very day they are sold. During March a War Savings Stamp can be bought for \$4.14. On January 1, 1923, the Government will take it back and give the owner a crisp five-dollar bill or five shiny silver dollars for it. In March 200 War Savings Stamps, the greatest number that the Government will permit one person to own, cost \$828.00. On January 1, 1923, the Government will redeem them for \$1,000.00.

Every month adds a cent more to the purchase price of a War Savings Stamp. In April they will cost \$4.15; in May \$4.16 and so on until in December the buyer of a War Savings Stamp will have to pay \$4.23 to get one. After December 31, 1918, no more of the War Savings Stamps of this issue can be bought. The little Government bonds are on the bargain counter for one year only.

By purchasing War Savings Stamps, Texans are saving money; they are making money; they are helping materially to win the war; they are doing a necessary patriotic duty; they are laying foundations for their own prosperity—putting away a protecting umbrella which will rob the rainy day of its discomforts. By investing regularly in War Savings Stamps and Thrift Stamps, the little twenty-five-cent brothers of the War Savings Stamps, and refraining from the use of non-essentials, so that goods and service needed to win

Life Was a Misery

Mrs. F. M. Jones, of
Palmer, Okla., writes:
"From the time I en-
tered into womanhood
... I looked with dread,
from one month to the
next. I suffered with my
back and bearing-down
pain, until life to me was
a misery. I would think
I could not endure the
pain any longer, and I
gradually got worse. . .
Nothing seemed to help
me until, one day, . . .
I decided to

CARDUI

The Woman's Tonic

"I took four bottles,"
Mrs. Jones goes on to
say, "and was not only
greatly relieved, but can
truthfully say that I have
not a pain. . . ."

"It has now been two
years since I took Cardui,
and I am still in good
health. . . . I would ad-
vise any woman or girl
to use Cardui who is a
sufferer from any female
trouble."

If you suffer pain caused
from womanly trouble, or
if you feel the need of a
good strengthening tonic
to build up your run-down
system, take the advice
of Mrs. Jones. Try Car-
dium. It helped her. We
believe it will help you.
