# Cross Plains To Be Wide Open July 4th CELEBRATION WILL

#### ONLY POST OFFICE AND BANK TO SHUT INDEPENDENCE DAY

July fourth will be just another Saturday in Cross Plains. Virtually all local business institutions with the exception of bank and post of-fice, will remain open the en-

tire day.

A petition was circulated early this week regarding closing for the holiday, however, less than a doz-en chose to "close up shop." It was then decided that no closing agreement be entered into and that business go on as usual, with most everything remaining open.

It will be the first time in years

Cross Plains has been "wide open" on Independence Day, however, everything remained open two years ago on November 11, when the day

came on Saturday.

The chief reason for not closing was said to be that in view of the fact that a number of threshers are running and farmers are ex-ceptionally busy, closing on Saturday might tend to work hardships

In accordance with long estab-lished customs the bank and post office will close Friday night, not to open again until Monday morn ing. Patrons of both institutions are reminded to lay in a supply of change, stamps and such other

The well is a direct offset to a producer making 217 barrels, according to a check-up made last

week by the rail road commission.

Marion Harvey one of the owners of the Gunn Production Company told the Review yesterday tha he felt certain the well would pro duce easily 100 barrels as it now stands and that there is a probab ility that deepening and cleaning out might hike the yield to 200 "We plan to sit tight for a few days, however, and watch the Gulley and Ehlinger well which is due to be drilled in this week."

Discovery of the Cross Cut sand on the Dickens and Armstrong tr acts will open a new field, is the opinion general among local oil men. The field was recently tested the Trammel sand, which was located and was paying off. How ence of the Cross Cut sand and oil more plentiful quantities.

Several other wells are drilling in the immediate area.

for Greater Safety

THERE is a reason why Louis Meyer won the 500-mile Indianapolis race this year—and why he is the only man ever to win this gruelling race three times. He always used Firestone Gum-Dipped Tires, and never experienced tire trouble of any kind.

When you make your holiday trip this week-end, you of course

will not drive 109 miles per hour, but at today's higher speeds you do need tires that will give you greatest blowout protection and will stop your car up to 25% quicker. Take no chances! Let us equip

your car today with Firestone Gum-Dipped Tires, the safest tires built. It costs so little to protect lives worth so much I

and never experienced tire trouble of any kind.

Louis Meyer knows tire construction. He also knows that to drive for 500 consecutive miles over this hot brick track, negotiating the dangerous curves 800 times at the record-breaking average speed of 109 miles an hour, requires tires of super strength and greatest-blowout protection, as a blowout on any one of the dangerous curves would likely mean instant death. By the Firestone patented Gum-Dipping process every cord in the tires on Louis Meyer's car was soaked and coated with liquid rubber, thereby preventing internal friction and heat. This is the secret of the extra strength and reserve safety built into Firestone Tires. FOR ELECTRICAL WORK, house painting or paper hanging see CHAS. Taylor, residence in front of Bennett Hotel. ## ALKA-SELTZER

The New Pain Relieving, Alkalizing, Effervescent Tablet. It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, harmless, non-laxative. Why don't you try : Get a drink at your drug store soda fountain for a nicke Buy a package for home use.
