**DECLARATION, CONSTITUTION PRESERVED**

WASHINGTON, D. C.—The originals of the Declaration of Independence and the Constitution are shown being sealed by E. C. Creitz in 99.99% pure helium-filled bronze enclosures to preserve them safely "for as long as man can foresee."

**Meeting Called For McClellan Lake Spillway Project**

The Chamber of Commerce has been advised that a meeting will be held in Pampa Friday night, July 27th at 8 p. m. for the purpose of setting up a permanent working committee on the McClellan Lake spillway project. Gene Fathere, president of the Pampa Chamber of Commerce has asked that a delegation of at least three persons from Clarendon attend this meeting. A report will be made by Mr. E. O. Wedgeworth, Pampa C of C manager, on his recent trip to Washington where he appeared before the Senate Sub-Committee on Appropriations in connection with the Lake McClellan problem.

All persons who are interested in the retention of Lake McClellan should contact the local Chamber of Commerce office if they are interested in or can attend this meeting. At the organization meeting held in Pampa on July 2, the following were present from Clarendon: G. W. Bradshaw, representing the Chamber of Commerce; Rayburn L. Smith, representing the American Legion and Lloyd McCord representing the Lions Club.

**DIST. ATTORNEY ELECTED HEAD OF OLD SETTLERS AT CHILDRESS**

Allen Harp, District Attorney for the 100th Judicial District, was elected president of the Old Settlers' Association at Childress last week and also served as master of ceremonies for the 63rd annual reunion which commemorated the founding of Childress. Approximately 175 pioneers of Childress County and their families gathered in the Childress park for the occasion.

**Legion To Sponsor Dance Aug. 3rd**

Bowing to popular demand, the Clark-Brock Post No. 126 of the local American Legion is sponsoring another dance Friday, August 3rd on its air conditioned dance floor. Emmett Allen and his Sunset Ramblers, featuring Roy Lee Brown of Goodnight on the piano, have again been engaged to furnish the music for this occasion. This orchestra is undoubtedly "Tops" in western music in the whole Panhandle and have built up a tremendous following everywhere they have played. Comments on their music while playing for the 4th of July Dance here ranged from excellent to "The best I've ever heard."

The way Emmett handles that bull fiddle and Roy Lee tickles those ivories is worth the price of admission alone. The boys come by their music naturally as no sheet music is used at any time. The Legion officials were highly pleased at the response to their first two dances during the celebration and have stated that they intend to stage at least one dance a month and to obtain the best music possible for each one. The newly installed snack bar will again be in operation and manned by the Legion Auxiliary members. Soft drinks, sandwiches, candy and cigarettes will be available any time during the dance. There are plenty of seats for those not caring to dance on both the main floor and in the balcony. Acoustics are excellent and the music can be heard the same in any part of the building.

A good time is assured for all that turn out and don't forget the date, Friday, August 3rd. The place—the new American Legion Hall. The time—9 p. m. til 1 a. m. and the admission will be \$1 per person.

**"SNAKE-EYES"**

MINNEAPOLIS, MINN.—"Snake-eyes" meant hard luck for these automobiles when this large display sign on a used car lot fell during Friday night's storm—the worst in local history. (July 21)

**Mrs. D. W. Clampitt Celebrates 95th Birthday**

Mrs. D. W. Clampitt observed her 95th birthday Tuesday, July 24th with a family dinner. Those present were Mr. and Mrs. Roy Clampitt and son, Harold; Mr. and Mrs. W. N. Martin of Amarillo, and the honoree. Her other grandchildren and great grandchildren live in California and were unable to come. Friends called during the day to congratulate her, bringing lovely flowers and gifts. She received many cards and letters from relatives and friends from different states as well as from friends in Clarendon. Mrs. Clampitt moved to Clarendon with her family in 1908. Their former home was in Loveland, Colorado. She is still active and enjoys her family and neighbors and more distant friends. She still cooks, reads, knits, sews, and crochets.

**Saturday Is Special Election Day**

The Donley County Commissioners Court has called an election for next Saturday (July 28th) in order that the people of Clarendon and Donley County may accept or reject a program of more and better improved roads within this county. By an action of the State Legislature, counties are now permitted to hold local elections to allow its residents to channel the 30c ad valorem tax formerly remitted to the State into county road improvement and maintenance programs. The ad valorem tax levy excludes the first \$3,000.00 homestead valuation and is not to exceed thirty cents per hundred valuation on assessed property values. This same tax has been collected and diverted to state use. The tax amount will remain the same. This election is to allow this amount to be spent within the county on our roads.

At this time, our county road question is a very hot issue. It is possible that the money derived from this levy could be used to a great advantage in holding the families who are now living in Clarendon and working for the drilling company located on the JA Ranch. Donley County has fewer improved roads than any county in this area, compared with our total number of road miles. A number of local residents have stated that it is time that something be done to improve the roads in this area. A little road work now can possibly help retain the \$100,000.00 a year drilling company payroll.

Think this issue over. Go to the polls Saturday and vote however you want. The most important thing is that you go and cast your vote. To vote is your privilege and responsibility. It is something that you must do for yourself. No one can do it for you.

**Showers Break Heat Wave**

The heat wave of the past two weeks was broken by a cool front and showers over the Panhandle area the first of this week. The upper Panhandle received good rains but the showers in Donley County were spotted with only .19 inch being recorded at the official weather station at the airport. The unofficial recording here in town was around three-quarters of an inch. Other parts of the county received little or no moisture and some parts received over an inch. The moisture received will help crop conditions considerably and the cooling off will help in general all over the county.

The highest temperature of the year was recorded last week with the mercury reaching the century mark on several occasions. The hottest day was Friday with 108. Thursday was almost as hot with a sizzling 105 degrees.

**Second Location Staked On JA**

Actual drilling operations are underway on the new wildcat well located approximately 40 miles southwest of Clarendon on the JA Ranch. The H. L. Hunt, M. H. W. Ritchie et al. No. 1 was reported down around 2,000 feet after setting surface casing over the week end. The second location under the same drilling set-up has been made and drilling equipment was being set up at the last report. This second wildcat well is located approximately 12 miles north of the No. 1 site on the JA Ranch. The biggest development in the wildcat well area at this immediate time is the showers that have fallen. They have made the dusty roads more bearable.

**Services Held Tues. For Sam Hill**

Funeral services were held Tuesday afternoon at the First Baptist Church for John Samuel Hill with Rev. J. Perry King, Rev. L. A. Sartain and Rev. Ernest Phillips officiating. Mr. Hill, age 80 years, died Sunday afternoon at a Memphis hospital. He was a retired farmer and had lived in Donley County since 1921 when he moved here from Woods County. Mrs. Hill preceded him in death last February.

Survivors include five daughters, Mrs. R. R. Riley and Mrs. L. L. Waldrop, of Clarendon; Mrs. Mary Cox, Brownfield; Mrs. R. L. Anderson, Kerrick, and Mrs. Clyde Anderson of Amarillo; five sons, A. W. and R. C. Hill, both of Clarendon; W. R. Hill of Dodge City, Kansas and H. C. and J. M. Hill of Amarillo; also 36 grandchildren and 54 great-grandchildren.

Pallbearers were Bryan Armstrong, G. W. Bradshaw, Nelson Seago, Bob Head, Pete Kunz and Clyde Wilson. Burial was in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

**Locals Win Over St. Francis 27-4**

The Clarendon baseball club had a regular field day last Sunday afternoon on the local diamond by defeating the visiting St. Francis team 27 to 4 in a 7 inning game. Eddie Reynolds was the winning pitcher for Clarendon. John Richey hit two home runs, Eddie Reynolds hit one homer and Billy Roy Blackman hit a home run.

The locals will meet the leading league team, the Amarillo Sports, here next Sunday afternoon and are asking everyone to come out and give them all the moral support you can. It will probably be one of the best games of the entire season.

**J. M. Newland Buried Here Sunday**

Funeral services were held Sunday afternoon at the First Methodist Church for John Marion Newland with Rev. John English officiating. Mr. Newland, 79 years old, had been in ill health for several months. He passed away Thursday morning at the Blackburn Rest Home here. He had been a resident of Donley County for the past 38 years and was a retired stock farmer. His wife preceded him in death two years ago.

Survivors include a daughter, Mrs. Walter Hutchins of Clarendon; one son, Earl E. Newland, Los Angeles, Calif.; three brothers, J. A. of Duncan, Okla., Will of Chickasha, Okla. and Meville Newland of Denton. Pallbearers were J. R. Bulls, Melvin Cook, Lester Schull, M. R. Allensworth, Edwin Baley and Wade Roach.

Burial was in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

**Cradle Roll And Nursery Day At First Baptist Church**

Sunday has been designated as Cradle Roll and Nursery Day at the First Baptist Church. All parents with children three years of age are urged to be present with them Sunday morning as special guests for the Morning Service. A goal of at least 50 babies has been set and we hope to go beyond that, explained Rev. L. A. Sartain, the pastor. "Our children learn more the first three years of their lives than other like period and for that reason we are giving emphasis to their part in the teaching and training of our church," Rev. Sartain stated, in making the announcement.

**FIRST GRADE STUDENTS MUST BE VACCINATED**

School officials are reminding all parents of children that will be starting to school for their first time that it is compulsory for them to be vaccinated for Small Pox before they will be allowed to enter the local school system. They are suggesting that parents see to this important matter now so the youngsters' vaccination will be healed by the time school starts.

**Open Air Revival At Rodeo Grounds**

An Open Air Revival meeting will be conducted in the rodeo grounds beginning Monday evening, July 30. The meeting is sponsored by the First Baptist Church with the pastor, L. A. Sartain, doing the preaching. Services will be held only at night, beginning at 8 o'clock. Good singing and preaching of the Word of God will be leading features of the evening services. Every one is cordially invited to attend.

**OPS Price Specialist To Be Here Today**

Robert W. Friedberg, OPS Price Specialist from the Lubbock District Office has advised the Chamber of Commerce that he will be in Clarendon Thursday afternoon, July 26, to assist local businessmen with any problems they may have concerning ceiling price regulations. Mr. Friedberg will make a personal visit to the stores of any Clarendon merchants who are not able to go to the Chamber of Commerce office to see him. If you desire to have him visit you in your place of business, call 211 and it will be arranged.

Mr. and Mrs. Fred Lynn and Gentry returned to their home in Victoria, Texas Saturday, having visited her parents, Mr. and Mrs. LaGrone and family.

**WALCOTT CAPTURES TITLE**

PITTSBURGH, PA.—A left to the body by Jersey Joe Walcott makes heavyweight champion Ezzard Charles wince in the fourth round of their title fight at Forbes Field (July 18). Walcott, of Camden, N. J., whose real name is Arnold Cream, became the oldest heavyweight king in history—he's 37—by knocking out Charles with a tremendous left hook in the seventh round. His six children have cheered him on through four previous championship contests, all of which were unsuccessful.

**Services Today For S. C. Bell**

Funeral services have been set for 4 p. m. this afternoon at the First Baptist Church for Shelby Coffee Bell with Rev. L. A. Sartain officiating. Mr. Bell, age 69, died Tuesday afternoon following a heart attack. Mr. Bell was a retired farmer and automobile dealer and had been a resident of Donley County for a long number of years. He moved to Clarendon from Hedley 12 years ago. He was a member of the First Baptist Church.

He is survived by his wife, Mrs. Willie Elizabeth Bell; six daughters, Mrs. Sam Owens of Hedley; Mrs. Beatrice Long of Amarillo; Mrs. Leo Holland of Sunray; Mrs. Ben Howard of Sunray; Mrs. Golden Holland of Springfield, Colo.; Mrs. J. E. Bain of Huntington Park, Calif.; and six sons, Shelby C. and Eugene Bell of Clarendon; C. H. of Panhandle; Kenneth of Borger; Billy Ray of Sunray and H. K. Bell of Bellflower, Calif.; three brothers, J. M. of Estelline, Louie and Oscar Bell of Temple, and a sister, Mrs. Walter Patillo of Caldwell; 38 grandchildren and 8 great-grandchildren.

Pallbearers will be George Beville, Ernest Patillo, Earl Patillo, Homer Bell, Virgil Bolles and Eskell Bolles.

Burial will be in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

**Two Die In Three Car Collision Tuesday Afternoon**

A three car collision at the west city limits of Clarendon Tuesday afternoon claimed the lives of two Canyon residents, Mrs. J. E. Kuykendall and her son Carol, and Mr. Kuykendall received painful injuries, consisting of broken ribs, a broken nose and other lacerations. Occupants of the other two vehicles escaped serious injury.

The crash occurred about 4:30 Tuesday afternoon when a pickup truck in which two Hedley men, Walter Johnson and Blaine Doherty, were riding was involved in a sideswipe collision with a Buick driven by William Gordon (colored) of Clarendon and careened on down the highway to crash head-on with the late model Pontiac in which the Kuykendalls were riding. The Pontiac was completely demolished and the pickup was badly damaged. The Buick received additional damage when it hit a tree.

Carol Kuykendall was killed instantly and approximately 40 minutes was required to spring the frame of the automobile to extricate his body. Mrs. Kuykendall was taken to the Stewart Clinic and died 40 minutes later. Mr. Kuykendall received treatment at the Clinic and was removed to Canyon Tuesday night.

Sheriff Guy Wright reported Wednesday morning that Walter Johnson had been charged with negligent homicide. His bond was set at \$2,000 awaiting action of the grand jury.

**Gabie Betts Burton Library Notes**

By May L. Prewitt

We have a clever book for the younger boys and girls—"Dogie Boy" by Edith Heal. This was a gift several weeks ago, but I never had time to catalogue it. Then we have "10 Fathoms Under"—a Rick Brant Electronic adventure. Several series for boys and girls are completed for this junior group.

James Street has written for us "The High Calling" a novel in which London Wingo, the hero of the "Gauntlet", fulfills his ministry. It is a clean, well written novel, as those who read "The Gauntlet" know of James Street's writings. Then our July and August book club books arrived this week—"Fire in the Water" by Peggy S. Curry is a novel with the setting in a Scottish fishing village. Mrs. Curry is quite familiar with her material as she has lived the life of the people she writes about and their environment. The other novel is "The Mission of Jeffery Tolang" by Darwin Teiket. It is a historical story of the period 1816. A violent struggle with Russia for the control of the North Pacific.

This is a story that the men will enjoy. Women read those with more romance than history.

The Pedden children from California spent the winter and spring with their grandparents at Goodnight, and it is likely their grandmother read them sixty books or more from the Library. She gave us the price of a nice book for children, and I'll select something soon. Bill Peden the elder child, probably 5, surely understood book selections. Our reading group is chiefly children. We could use fifty or sixty more books for our children and teenagers, and we have about seven hundred usable copies, and magazines and funnies for usage. You can realize their desire to read when almost 2000 books were issued in June.

**NAVY HELICOPTER CRASHES**

ABOARD USS LOS ANGELES—The heavy cruiser Los Angeles' helicopter lies on its side after crashing on the deck with passengers Lt. Gen. James A. Van Fleet and Rear Admiral Arliegh A. Burke aboard. Both men, however, emerged unhurt.

**From The Office of Price Stabilization**

In another week the Office of Price Stabilization will begin a nation-wide survey of food prices to lay the base for a program of posted dollar-and-cents "community prices" in grocery stores, it is announced by the Lubbock district OPS office. The first step will be to survey prices of standard grocery items in 1,000 wholesale establishments. This will be followed by similar visits to over 2,000 retail grocery stores in the 84 district OPS offices. Information from individual sellers will be held in strictest confidence,

said H. R. Gholson, Director of the District office.

A chief purpose of the survey will be to find out if there is enough stability in prices of a number of grocery items to make a community pricing program practicable. Community pricing is a system familiar in World War II under which the country is divided into relatively small market areas and grocery price ceilings set for each area on the basis of local transportation and other costs. These ceilings would be the same for all stores of each size class and would be printed on charts for posting in retail stores where all customers can see them, the District Director

said.

"OPS is fully aware of the important part that a community pricing program can play in the Stabilization program, of the necessity of having published ceilings for consumers, and of the great help such a program can be to individual grocers in simplifying their pricing problems," he said.

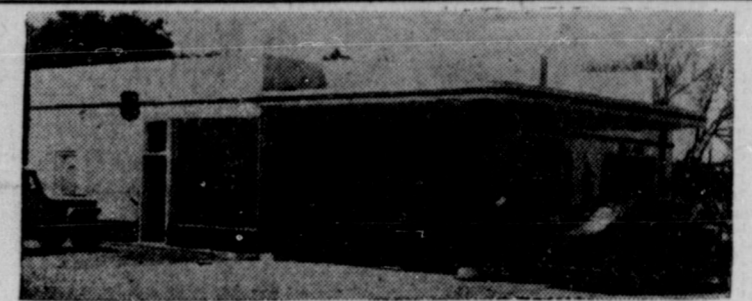

He explained that the community pricing program during the last war had a lot to do with holding the line on wholesale and retail food prices from the time it was started in May 1943 to the end of that control program.

"Up to now," Gholson pointed

out, "OPS is prohibited by law from controlling below-parity farm prices and has not had sufficient assurance that prices have been stable enough to make the printing and posting of ceiling charts practicable."

Mr. and Mrs. L. H. Skelton returned home Thursday from Amarillo where Mr. Skelton operated the Capitol Drug while Mr. and Mrs. Bob Skelton were on vacation.

Mr. and Mrs. Tom Haefler of Dallas visited Friday night and Saturday with her parents, Mr. and Mrs. Bob Head.

### HOWARD—BOSTON

Miss Marjorie Howard of Amarillo became the bride of Dan Boston, also of Amarillo, in a single ceremony read in the chapel of Polk Street Methodist Church Friday morning. Dr. Eugene Slater officiated against a background of white gladioli. Members of the immediate families attended.

Attendants were Miss Margaret Lill and R. W. Boston. The bride was given in marriage by her step-father, E. S. Shelley of Lubbock. The traditional wedding marches, "Because," and "I Love You Truly" provided the musical background.

Following the ceremony, a reception was held in the parlor of the church. After August 10 the couple will be at home in Amarillo.

Mrs. Boston is the daughter of Mrs. E. S. Shelley of Lubbock. She is employed in the mechanical superintendent's office of the Santa Fe Railway.

Mr. Boston is the son of Mr. and Mrs. U. J. Boston of Amarillo and formerly of Clarendon. He is associated with his father and brother in the grocery store business.

### IT TWIRLS

It's a small world, thinks Marlene Reilly of Chicago as she examines this novel greeting card. It could be a happy reminder for someone far away. This is a three-dimensional design for greeting cards, the latest for P. F. Volland, who has built up a successful greeting card business by the creation of new designs protected by patents. The "Twirl-Around" card is mailed flat, but opens into a variety of shapes and forms, which become permanent decorations as objects of art.

The first released drawing of the architects conception of the \$115,000 dining-room building, which will serve 1800 meals a day at Mo-Ranch-in-the-Hills, site of the Presbyterian Assembly Grounds, near Hunt, Texas. Fehr and Granger of Austin are the Architects.

### Usefulness And Adaptability Guide Mo-Ranch Dining-Hall Designers

Spurred on by the modern trend to functional-style buildings to accommodate large groups, the Board of Trustees of Mo-Ranch, Hunt, Texas, has approved the plans of Fehr and Granger, Austin architects, for a new dining hall. Ground was broken recently by the leaders of the Presbyterian Synod Council of Texas during a three-day record-breaking conference of laymen.

kitchens are adequate for serving the guests of all denominations that come up to the ranch for vacations during the entire year, when the Presbyterians come in for their conferences during the three summer months, more than the present 300 seating capacity is needed."

L. Roy Kline, President of the Board of Trustees of Mo-Ranch, declared that, "We have sought to utilize every foot of construction made possible by the paid pledges of our Presbyterian people, and feel that this building,

which combines the usefulness of modern construction with its adaptability to the native terrain, gives the most for each dollar spent. In its site on the slope between the Manor House and cat-walk leading to the Youth Building, it is complimentary to the native-stone construction of the other 35 buildings."

The addition of the Dining Hall will mark the first major step in the expansion of the ranch which covers 377 acres. This little community in itself has everything but its own post office, getting mail at Hunt, Texas. It was purchased by the Presbyterian Synod of Texas from the estate of the late Dan Moran, and includes its own commissary, book store, 75 ft. tiled swimming pool, water and ice plants, laundry, infirmary, gymnasium which substitutes for an auditorium, where dances as well as meetings are held, chapel, gas pumps, fire-fighting equipment, tennis courts, bowling alley and water-front facilities with a 30 ft. high coaster slide. This is in addition to the Manor House, Guest Lodge and the many dormitories which are available the year round for groups or individual families by making reservations for days or week ends. Mr. and Mrs. O. O. West combine the role of Manager and wife with that of gracious host and hostess.

**RETURN FROM VACATION**  
Mr. and Mrs. Earl Alderson and Gene returned Wednesday last from a most enjoyable vacation. Their trip included sightseeing in Chicago, the Great Lakes region, the New England States, down the east coast by way of New York City, Washington, D. C., and on to Florida. They returned by way of New Orleans, Galveston, San Antonio and Austin, having been away a month.

Mrs. Bob Teague and Teddy and Mrs. S. P. Wells of Memphis visited Tuesday with Mr. and Mrs. Clyde Putman.

Mr. and Mrs. L. L. Wood visited Monday morning with Miss Della Wood.

**NEW RAW MATERIAL FOR SYNTHETIC RUBBER**  
AUSTIN—A synthetic rubber improvement developed by a University of Texas professor has been named one of the 50 most important scientific advances in 1950.

Laboratory News gave the rating to Dr. Kenneth A. Kobe's discovery of a new raw material for synthetic rubber.

The chemical engineering professor obtained the material—an organic chemical called para alpha dimethyl styrene or PADMS—from a chemical by-product of spruce paper production, paracymene.

rapid growth and fattening of yearling steers during spring and early summer. The April-June daily rate of gain on grass alone has been slightly in excess of 2 pounds per head. However, food values and gains decrease as the grass dries up in late summer, indicating the need for protein supplements at that time. Feeding a daily ration of 1 pound of 41 per cent protein cottonseed cake to yearling steers on grass after July 1 resulted in a six-year average gain advantage of 22 pounds per head. This included two years when the

The heavier rate of caking was profitable the first year but not the second, although it maintained average daily gains at the 2-pound rate throughout the summer six months. These and many other results on the grazing and feeding of range cattle and the production of grasses will be presented to the general public at the station's Fourteenth Annual Range Improvement Field Day on Saturday, October 13. ## FARM NEWS

### WHEAT NEWS

Herbert Hunt from Groom came by the office and reported his wheat yield. He averaged around 17 bushels per acre. Ernest Lamb and Roy Clark also had some good wheat in that part of the county.

Frank Goldston said he made good wheat and made enough for seeding purposes, but his yield was low.

Harold Graham also reported his wheat made a good yield.

Two wheat loans have been made this year. They were for E. L. Littlefield and Ernest L. Lamb. Don't forget that the Donley County loan rate is \$2.17 per bushel.

If you happen to be in town, come by the office and let us know how much wheat you seeded so that we may keep our records up to date.

### CONSERVE WATER TO INCREASE PRODUCTION

When it comes to stepping up production to meet defense needs, on many farms it is as important to hold the moisture on the land as it is to keep the run-off from taking the soil with it.

The additional moisture held on the land through conservation practices often makes the difference between a poor crop and a good one—sometimes the difference between no crop at all and a good one.

When increased production is so urgently needed to strengthen the national defense, this factor alone becomes all the more important.

In most instances the concern is over losing the soil and little attention is given to the water that leaves the land. And yet, often without the moisture the soil is of little value in producing the food and fiber needed to help build a strong nation.

The soil and water conserving practices for which assistance is provided under the Agricultural Conservation Program are primarily aimed at saving and improving the land and that moisture conservation is an important by-product. Such practices as establishing a good protective cover with grass and legumes, the construction of terraces, contour farming, and many others fall in this class.

Maintaining and improving the productivity of the land is the purpose of the ACP and this means conserving both soil and water. Often one is as important as the other.

Retail sales of tractors and farm equipment for the first five months of 1951 amounted to \$1,091,000,000, or 27 per cent above the similar period last year, according to trade reports reaching OMF. During the first five months this year farm tractor production was 228,884 units, off 2.7 per cent compared with

like period of 1950.

Non-Farm Employment - Increasing defense production and a seasonal upturn in construction caused employment to remain high in May, off-setting lay-offs caused by cutbacks in materials, according to the Bureau of Labor Statistics. Non-farm employment at 46.1 million was reported as an all-time high for the season. Farm employment reported by Bureau of Agriculture Economics for the last week of May was 11 millions, as given in the latest farm labor summary.

### Pampa's 7th Annual Top o' Texas Rodeo Will Open Aug. 7th

The 7th Annual Top o' Texas Rodeo, held each year at Pampa, Texas, will open this year as in the past, with the Kid Pony Show, on Tuesday, August 7th. Regular Rodeo performances will begin on Wednesday, August 8th, with night performances only. 8:00 P. M. is the starting time for all shows. Cowboys and cowgirls from the entire Southwest will participate in this Show, which is one of the world's largest amateur Rodeos.

Stock for the show will be furnished by Goat Mayo, of Petrolia, Texas, and will be of the same high quality as in the past. Mayo will also be Arena Director. There will be no Quarter Horse

Show this year. The Tuesday night Show will be a special attraction for the junior cowboy and cowgirl. Plans for the Kid Pony Show include a colorful opening downtown street parade complete with band; and a full schedule of events that will allow every boy and girl from 5 to 16 years to display their ability as riders and their pony's training. Events listed for this Show include the Barrel Race, Bull Fight, Bull Riding, Flag Race, Doughnut Race, Cutting Horse Contest, Calf Roping, and Girl's Clover Leaf Reining Contest.

On Wednesday, August 8th there will be a big downtown street parade, which will officially open the Rodeo. Paul Crouch, president of the Top o' Texas Rodeo Association, will be Parade Marshal. Prizes will be given for the Most Typical Ranch Entry, Best Civic Club Entry,

Most Typical Cowboy over 16, Most Typical Cowgirl over 16, Most Typical Cowboy under 16, Most Typical Cowgirl under 16, Best Decorated Bicycle, Oldest Cowboy or Cowgirl, Youngest Cowboy or Cowgirl, Most Comical Entry and the Most Attractive Commercial Entry. The Parade will form at Foster and Hobart Streets, and will begin moving at 4:00 P. M.

The Cutting Horse Contest this year will be one of the high points of the Rodeo, with a purse of \$250.00 plus all entry fees added back.

A total of approximately \$5,000 will be at stake when cowboys and cowgirls from Texas, New Mexico, Oklahoma, and other southwestern states, vie for high honors.

Tex Gouddy and his "Texo Hired Hands" of Fort Worth, Texas, will furnish music for all performances, will be featured in the Parade, and will play for the dances, which will be held each night after the Rodeo.

Louis Blair of Dundee, Texas, will crown the Show, and is expected to add the usual spark to

each performance. In addition to the crown this year, the Bud Lucas Troup of Wichita Falls, has been secured as a special attraction. This Troup is highly rated for its unusual comedy acts.

According to advance reservations, this year's Show is expected to be the biggest yet held by the Top o' Texas Rodeo Association. For information on the Rodeo or Reserved Seats contact the Pampa Chamber of Commerce, Box 1942, or phone 383.

### Soil Conservation District News

The Board of Supervisors held a special meeting last Thursday afternoon. Supervisors present were J. R. Porter, C. E. Bairfield, Joe Tollett, and T. C. D'Spain. W. P. "Red" Doherty, the other board member, sent word he could not attend as he was too busy in his peach harvest. Others present were H. M. Breedlove, county agent, and Carman Rhode of the Soil Conservation Service.

The Board voted to buy a drill designed especially to seed cover crops such as rye, hairy vetch, Austrian winter peas in row crops of cotton and combine maize. This seeder has a height clearance of 38 inches and is equipped with fender guards to prevent damage to the growing crops. It plants three middles at a time with two rows in each

middle. As with other District owned equipment this drill will be available on a rental basis. The rate has not been set but will be just enough to cover maintenance and depreciation.

With this machine it should be possible to plant cover crops in row crop middles early enough to get a good growth before cold weather. No doubt the most frequent cause of cover crop failure is the tardiness of planting. A good winter cover is especially important on our sandy soils planted to cotton to help in preventing blowing next spring.

The Board also decided to purchase one combination fertilizer-grain drill. The District has two such implements at present but the increasing interest in applying fertilizers to legumes and other crops was the reason for buying this additional drill.

The Supervisors agreed to buy about 1500 bushels of rye seed and place it in local seed stores for sale to the farmers at planting time. This action was taken to insure having a good supply of rye seed locally, as indications are that rye seed will be scarce again this fall. There appears to be a good supply of hairy vetch and Austrian winter pea seed, however.

Your District Supervisors have the responsibility of promoting and encouraging soil conservation within the boundaries of the

District (Donley County). This charge was given them by the State Legislature in the Soil Conservation Law which authorized the creation of Soil Conservation Districts. The Supervisors can do very little without the support and help of all farmers, businessmen, schools, agricultural agencies, and others. Let us all work for our common cause!

Mr. and Mrs. W. W. Sandifer and Suzanne and Mr. and Mrs. Arvel Lowrie and family of Wellington returned Sunday night after vacationing in Colorado Springs, Maritou, and other points in Colorado.

Mrs. Alden E. West and little son Buzz, of Okla. City, Okla. were visiting her parents, Mr. and Mrs. J. M. McAllister last week. Mrs. West's husband is a Lt. Col. in the Air Force in Korea. He will return to the states in September. Mrs. West and son returned from over there last August.

Mr. and Mrs. Roy Beverly and Mrs. J. A. Wheat of Seymour visited last week with relatives in Dumas, Clayton and Tucumcari.

President Hoover originated the practice of having a private phone on his desk.

# BLOWIN' Out the CORNERS by Uncle Zeb

For the last few days Mama and I have been toasting in the warm sunshine of her old home state; the grand state of Oklahoma. Actually I enjoyed it a lot. If there is anything in that fine state that is any warmer than the weather it is the heart of the people. It is not what you would call a tourist state and the folks do not have the feeling of resentment or "Stick 'em for everything" that you find so often on the regular beaten paths of tourists. Mama and I started out "Roughin' it", but before two days I caught her cheating. She was taking a "Spit bath". If you don't know what a "Spit bath" is it is taking a bath in less than one cup of water. So, I decided

she couldn't take it and we headed for the cold spring water of Sulphur.

Speaking of the people and their refusal to stick the traveler, one lady apologized to us for charging us 55c a pound for bacon. "It's too high" she says, "but I just can't help it."

In the cold springs of Platt National Park near Sulphur it is nice for camping and bathing and wading. Much of the water stays 64 degrees summer and winter and will sure make an old Panhandle boy let out a yell. I don't care for their sulphur or medicine water.

In and around Sulphur and Ada you see some of the finest Hereford cattle that you see any place in the world, except in the Panhandle maybe. Anyway, a large part of this country is called Hereford Heaven and from the standpoint of the cattle it looks just that. Most or at least a lot of this country was once in cultivation and sold upwards to more than \$100.00 per acre, but the soil and the rolling hills couldn't take many years of cotton farming and soon became almost worthless. Wealthy oilmen and ranch-

ers such as former Gov. Turner began buying it up and turning it back; not to the Indians but to the same state that they left it. But they had a new angle; they began stocking it with registered cattle. At first, many of the folks thought that these "old boys" were just hunting some place to spend their easy oil money and that they just as well accommodate them by taking it and for almost nothing five to twenty dollars per acre this one time high priced land was dumped in bunches on these rich suckers. In many a case the ranches are as square in shape as if the land had never been in small 80 and 160 acre farms. But the grass began to grow; the Limestone grass, one of the best milk producers and fatteners in the world began to wave on these hills, and the so-called projects became real ranches in every sense of the word with all the modern know-how used to take full advantage of nature. This was the way nature had intended for these hills to remain and they responded in a great way.

We took a watermelon out to the home of one of Mama's teachers; the one I have mentioned many times before. Such a grand old couple. He represents what most of us think about as the beloved old professor of our childhood; of the times just past. To them teaching was a calling; the three R's must, with a good dose of morals and religion thrown in for good measure. Anyway, they were the foundation of our advancement and our learnin'. Sometimes I think we should never have strayed so far from many of these old ways.

The present Governor of Oklahoma is Johnston Murray, son of the colorful Alfalfa Bill Murray of a few years ago. The people seem to be proud of him and his administration. They say that he did not get in on the strings of his old father but on his own hook. He writes a little column (What a man) in some of the papers and I thought this letter from a fellow named Murray was very interesting. Dear Governor: I am one of

the nearly extinct clan who was never, and am not now a personal friend, schoolmate or a neighbor either to you or your father. I neither advised or ruined my health in behalf of your campaign. I dis-own any credit for your election, and I have never said "Me and ole' Johnston are kin. Therefore, I don't believe my influence or prestige to be

such as to warrant any favors from you. Should my wish be granted it will be solely due to your graciousness. Signed, Harold L. Murray.

I wonder whether he got his wish or not. I bet he did.

A four-leaf clover is considered lucky because its four leaves form a cross.

It's father who is put on the pan if he doesn't bring in the bacon.

A good way to relieve the monotony of your work is to think of ways to improve it.

Face powder may catch a man but it takes baking powder to hold him.

## The Donley County National Farm Loan Association

**Let's closely examine the FACTS\***

Frequent statements have been made that would lead the public to believe that prices received by farmers have been a primary cause of inflation. It is well to examine the facts to determine to what extent this may be true.

According to the Bureau of Agricultural Economics (U. S. D. A.) and based on December 1950 prices:

**IF A FARMER GAVE AWAY**

- The wool in a \$50 suit of clothing, the suit would still cost \$40.50.
- The wheat in a 16¢ loaf of bread, the bread would still cost the consumer 13.4¢.
- The milk in a 23¢ quart of milk, it would still cost the housewife 11 1/4¢.
- The beans in a 16¢ can of pork and beans, the can of pork and beans would still cost 14¢.
- The tobacco in a 20¢ package of cigarettes, the pack would still cost the smoker 17¢.

Here's how the farm operators' income looks in comparison with the total national income from 1947 to 1950.

And here's how his average hourly earnings during 1950 compares with the unweighted average of workers employed in other endeavors.

FARMERS	OTHERS	FARMERS	CORPORATIONS
69¢	\$1.55	5%	15.5%

And here's how the farmer's interest at the rate of 5% on his total investment in farm real estate, livestock, equipment and working capital compares with profits on net corporate investment of all manufacturing corporations (after corporation taxes) according to the Federal Trade Commission (Year 1950).

Farm production involves great risk, great skill of many kinds, and large investment of money and labor. If farm costs increase they must be balanced by increased returns just as in any other business, if the plant is to keep operating—and particularly, if it is expected to turn out increasing supplies year after year.

\*The facts and figures are contained in a statement by Secretary of Agriculture Chas. F. Brannan to House Committee on Agriculture April 24, 1951 and in reports issued by the Bureau of Agricultural Economics USDA.

From where I sit ... by Joe Marsh

**What's So Funny?**

Just finished reading a magazine article that "proves" you and I don't know what's funny.

A bunch of psychologists came to this sad conclusion after telling jokes to college students. Very often they would give out with what they considered a side-splitter—and not get even a chuckle in response. Other times the students would laugh their heads off at stories that weren't considered really funny.

Maybe I'm wrong, but what makes a psychologist such a better judge of humor than the rest of us? If a man gets a kick out of a joke that proves it was funny to him—doesn't it?

From where I sit, when psychologists try to set up a standard for a sense of humor they're getting too serious for me. Stands to reason that different people laugh at different things, just as they have different tastes for most everything. I'm partial to a glass of beer with meals myself—but I promise not to make any "wise-cracks" if you prefer tea.

### Two Happy Youths From Boys' Ranch Return From Trip

Two slightly dazed but happy boys returned recently to the famous Boys' Ranch near Amarillo from a two-day trip in Denver, Colorado. The boys, Erwin Ray, 9, of Borger, Texas and Troy Black, 17, of Mason, Texas won the trip in a special citizenship election conducted by all the "cowhands".

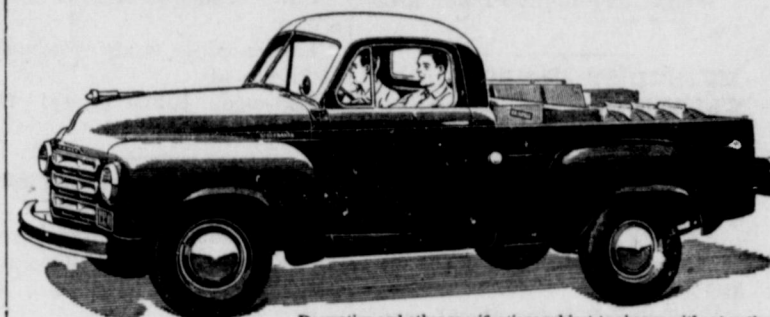

Erwin and Troy were chosen the best all-around citizens and most popular boys at the Ranch. With this honor went the chance to fly to Denver and spend two days just seeing and doing every-

"I got the story on  
**50,000 Miles-No Wear**  
and changed to New Conoco Super Motor Oil"

says Carl W. Smith  
Chrysler-Plymouth Dealer  
Miles City, Montana

"Cars coming to my shop after using Conoco Super are cleaner and show less wear than anything I have seen in my 27 years of garage work," Mr. Smith says.

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

TRAVELING SALESMAN  
"My car is my meal ticket," admits R. C. Eberhart, Travelingman, Flagler, Colo. "I average 2,800 miles a month. Since changing to new Conoco Super, my operating cost has been reduced and the performance is much smoother."

DELIVERY FLEET  
"Repair work has been cut 50% since I started using Conoco Super in all our delivery vehicles," writes George Lange, Laundry Partner, Muskogee, Okla. "One has run over 30,000 miles on Conoco Super, without any mechanical work."
