Donley County Jersey Herd Sweeps
 Top Honors On Major Show Circuit

The Gillham Jersey Cattle Show herd made an unprecedented clean sweep of the four major shows on the spring show circuit winning grand champion bull, at Ft. Worth, Houston, San Antonio, and Austin, and winning all of the five bull classes in which they were entered except at Ft. Worth where four of five blue ribbons were won. The Gillham won premier breeder awards at Ft. Worth, Houston, San Antonio, and Austin, and premier exhibitor awards at all except the Ft. Worth Show.

Tulip's Design Bob, excellent three year old bull, was grand champion of each of the four shows, and his junior yearling son Greenbelt's Royal Tulip was 1st Jr. Yearling at the four shows and Junior champion at Houston and San Antonio. Gillham's Senior yearling, Jester Design Dandy, bred by the famous Meadowridge Farm of Ridgeway, Michigan, was undefeated as a sr. yearling and was junior champion at Austin. Beth Gillham's senior heifer calf was 1st and junior champion at the Ft. Worth Show. First place produce of dam was won at each of the shows in addition to many other ribbons.

The Gillham group really made a clean sweep of the Austin Show where nineteen blue ribbons were won in the 19 classes entered, and all six champion banners were awarded the Donley County entries. This is the first time in twenty years that one bull has made a clean sweep of the four shows, and that one herd has won as many awards.

Only Ten Identify
 Mystery Farm No. 29

There were only ten who correctly identified the Leader Mystery Farm of the Air last week. We'll have to admit that the picture wasn't quite as sharp as previous pictures published. J. B. Lane was the first on the rural list to make identification and J. R. Brandon was the first on the city list. Both will receive free subscriptions to the Leader. There was a total number of five on both lists, so we had the exact number needed to issue show tickets to the Mulkey Theatre. The winners of the tickets were F. O. Naylor on the city list and W. D. Higgins on the rural list.

Those making correct identification were: City—J. R. Brandon, Junior Davis, Jack Eddings, Mrs. Otis Naylor and F. O. Naylor. Rural—J. B. Lane, Allen Graham, Ben Lovell, John White and W. D. Higgins.

AT THE END OF 25 YEARS

*** **

The Donley County Leader staff sets aside time for inventory of aims and ideals. We do our best to bring you a home town paper that is worthwhile. In our news columns we may criticize or applaud—without suspicion or oppression! You the people, are the only judge, the only jury! Our aim is to give you facts and news about our community and other items that may be of local interest - - - to report it impartially and unbiased - - - to help the local merchant find his market, and the shopper to find his merchandise! This newspaper is pledged to be the voice and the conscience of this community - - - so, to all these purposes, we rededicate ourselves to these tasks.

During the past 25 years there have been many ups and downs - - - Times when it was quite difficult to continue publication - - - and had it not been for our loyal friends and supporters, we would not be here observing our 25th anniversary at this time. We have wonderful people living in the territory we serve and we want everyone to know we have appreciated their assistance in helping us to publish our home town paper. We shall strive to always merit your continued cooperation and confidence. We also, wish to recognize the congratulatory messages of local business firms and individuals in this issue. They have given us more incentive to do a better job in the future - - - along with your help which will always be needed to publish a home town paper.

Darby, pastor, officiated, assisted by Rev. E. D. Landreth of Abilene and Rev. Marvin L. Boyd of Plainview.

Rev. Hanks was pastor of the Muleshoe Methodist Church until his resignation in January. He entered the ministry at Sweetwater in 1916.

He is survived by his wife, Lucy; one son, Wyatt, Jr., of Albuquerque; a daughter, Miss Mary Nell Hanks of Berkeley, Calif.; three sisters, three brothers and two grandsons.

Burial was in the Sweetwater Cemetery.

Stray Dogs To Be
 Picked Up

Mayor Major B. Hudson announced yesterday that city officials had instructed the City Marshall to pick up all stray dogs in Clarendon from today on that are not wearing a collar with correct vaccination and dog tags. He was instructed to concentrate his efforts around the school buildings as that is where stray dogs congregate most. All parents and children are warned not to let their dogs follow them to school, especially if they are not tagged. If a case of rabies should show up, the worst place would be around one of our schools.

The important thing is to be sure every dog in town is vaccinated and licensed. Only 65 have been tagged to date.

Residents of the Giles area were alerted Saturday when it was learned that a Giles farmer, Red Ward, killed a Spitz-type dog after the animal had bitten seven cows. The dog's head was sent to Austin but no report has come back yet. This could be a case of rabies, so everyone in this area should be on the alert.

COLORED DRUM & BUGLE
 CORPS COMPLIMENTED

The colored Drum & Bugle Corps, composed of students of North Ward and directed by J. H. Gain, local band instructor, received many compliments from local residents upon their performance here on main street last Thursday morning. We don't know whether they helped bring on the snow, but with both combined, it made a very pleasing sight. The swirling snow didn't hamper their performance one bit and those youngsters are to be congratulated, along with Mr. Gain, on their accomplishments in such a short period of time.

We had a picture of the group as they marched down main street that we were going to publish this week but it is lost somewhere in this vast Panhandle area. The plate was mailed from Amarillo Saturday morning and we haven't seen any sign of it yet. Maybe it will show up by next week.

J-Lee Dept. Store
 Grand Opening
 Friday

A double page advertisement appears in this issue of the Leader announcing the grand opening of the J-Lee Department Store here in Clarendon Friday, March 12th.

This new business will be operated here under a partnership of H. L. Whitworth of Wheeler and George Smales. The store has all new fixtures and has been stocked throughout with new merchandise in every department. It is located in the old Rathjen building two doors south of the Donley County State Bank.

Mr. Smales who will manage the business, moved to Clarendon last month. Mr. and Mrs. Smales have one son, Douglas Wayne, 3 1/2 years old. Prior to moving to Clarendon, they made their home at Wheeler where he was associated with the J-Lee Dept. Store there for two years.

In addition to his interest in the store here, Mr. Whitworth has stores at Tulia and Wheeler. He has been in the Dry Goods business for a long number of years. At the present time he plans to divide his time between the three places of business.

The Leader joins other residents of this area in welcoming this new business and these folks to Clarendon. We know they will enjoy making their home here among the best people found anywhere.

MEMBERS OF

Texas & Panhandle Press Associations

The following poems and sayings are from a book called An Ozark Scrapbook, written by C. H. Luther of Fayetteville, Arkansas. This writer who was known as the Sage of the Ozarks is the uncle of our friend John

Luther who loaned us the book. One little poem that sort of struck our fancy because it fits so many of us was one called;

YOU'D NEVER QUIT FISHING

"Had I lived on the Sea of Galilee"
 I said to my wife one day;
 "In the time of Christ,
 When He walked the shores,
 Would he have come my way,
 And found me fishing,
 Perhaps with Peter,
 Would He have called me too,
 And made a disciple of me,
 The Master's work to do?"
 But here's the part I hate to tell,
 For dear wife knows me mighty well

"No", she said, with a smile on her head,
 "For You'd Never Quit Fishing".

From this little book of wisdom and verse were many bits of thought such as the following:
 "It is Love that make Heaven Heaven, and earth a Paradise."
 "Work is play, when love finds the way."

"Love is like a great magnet, drawing human hearts together."
 "Love is the passport to the human heart."

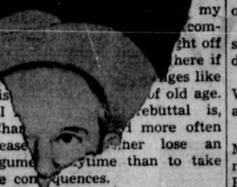

"Blessed sleep and a new sunrise, are taken of a Divine Love."

"Credit is a treasure, far beyond measure,
 If used in a prudent way.
 But if you abuse it, you're sure to lose it.

And suffer for many a day."
 Anyway, thanks to neighbor John for sharing this unusual book with us.

Thanks to Bob Izzard of KGNC for giving such a spread to our little poem The Real Stuff. My goodness, even on television. We do appreciate a lot the wonderful spirit in which he used it. You know when we put things down on paper and send them off to the printer and they come back to us glaring from the freshly printed pages we usually wonder if we said too much or too little. Some of our readers felt one way and many of them felt another. Anyway, we do know this that that little coating of Silver Spread that we received later sure made us feel better; even if it was just barely enough to cover the wheat. It was encouraging to say the least. One thing is certain, even though the weather may discourage us at times, we have many wonderful things to be thankful for here in the Panhandle. As the song goes there will always be a brighter tomorrow, and when it comes to the people; our neighbors and our friends when we need them there is no place in the world that will even come close to our own West Texas. When a neighbor has trouble or sorrow there is just no place in the world that comes to each others need like our own West Texas. Yeah, Take the bitter with the sweet And the bad with the good There's just no place that can beat Our own neck of the wood.

Will someone write and tell me one thing. Why do women want to change things around every so often. Last week Mama moved my desk, she moved the table and she moved the bed. Now the light shines over a different shoulder; I can't find my pants in the morn-

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

We have added a few books to our reading list the past two weeks. Mrs. Allensworth gave us "The Everlasting Arms" by Garth Hale. This is a recent edition and one you will appreciate. "The Sherrods" by George Barr McCutcheon is a used book, but one that will be quite readable. This and some of Harold Bell Wrights are gifts from some friends at the J. A. Ranch.

"Beverly Gray's Scoop" is a Clair Blank edition for girls and was given in memory of Mrs. George Garner.

Elizabeth Seifert's new book for 1954 is "Doctor at The Crossroads." There are several Library patrons who thoroughly enjoy her Doctor stories. Nelia Gardner White's this year's edition is "The Spare Room." It is probable that this has been a serial in some one of our popular magazines. It is her first book since "The Pink House."

We have some choice magazines for your enjoyment, so select one of the March copies and one of the last month's.

I have been ill for quite a few days but shall be working soon perhaps.

In most cars, each front wheel has a kingpin pivot for turning right and left and two hinge-like joints for moving up and down over rough spots in the road.

In the 1954 Ford you won't find either the kingpin or the hinge-like joints which most cars have. In their place are two sealed ball joints about which each front wheel moves both up and down and right and left. This completely new suspension not only makes the car easier to steer but permits greater total up-and-down front wheel travel for a smoother ride.

These new ball joints pivot in specially shaped seats so that wheels will turn more easily and are far less likely to get "out-of-line." This new ball joint system eliminates 12 points of wear.

Here's how Ford's new Ball-Joint Suspension works

**Congratulations To The
Donley County Leader
On Their Silver Anniversary**

We realize the important part our home town paper plays in the life of our community. It gives the facts and news about our community, and is pledged to be the voice of the people in whatever might come up.

Through its advertising columns - - - it creates closer relations between the businessman and the general public. It helps the local merchant find his market, and the shopper to find his merchandise.

We have been closely related to the Donley County Leader the past 25 years as our advertisement has appeared in the majority of issues throughout this period of years.

MYSTERY FARM NO. 29—This farm home was identified by ten persons last week as the H. S. Mahaffey place located approximately 1/4 mile south of Ashtola. Mr. Mahaffey came in Thursday and made proper identification of his home and received the free glossy picture.

This place, formerly known as the Holly farm, was purchased by Mr. Mahaffey in 1944. There are 140 acres of land in this place but Mr. Mahaffey owns a total of 400 acres in this area of which 265 acres are in cultivation. A new home and other improvements were made about a year ago. Mr. Mahaffey is a former County Commissioner and has been a resident of Donley County since 1912. Mr. Mahaffey has seeded a number of acres back to grass using Weeping Love, Sand Love and Indian grass. He grows cotton and feed and raises Hereford cattle.

Mr. Mahaffey married Laura Clayton in 1920. They have two children, Frank Mahaffey at home and Mrs. Edna Perdue, who lives at Ashtola also. They are members of the Methodist Church. Mr. Mahaffey is a Farm Bureau Board member. He has been a subscriber of his hometown paper for 33 years and especially enjoys "Plowin' Out the Corners" by Uncle Zeb, along with hometown news in general.

Donley Co. Leader Complimented For School Publicity

We would like to compliment the LEADER for the splendid and extensive publicity given the local educational program.

There can be no aspect of public relations more important than publicity. Many of us forget to realize the importance of our local newspaper. We take the services of our local editors for granted, and sometimes forget to even say, "Thank You" for the wonderful services rendered the community.

The school system is particularly indebted to the publishers for the outstanding free services given each week. It would be difficult indeed, to estimate the value

in dollars rendered the educational program through the newspaper.

The local editors are perhaps, the greatest friends to the educational process and to the youth of the community. Willingly they set aside important issues to comply with the wishes of the school or the young people. They give their time and talent to arrange, write, and set forth the interest of those who call upon them. Perhaps one of the greatest contributions, is the editors never criticize, but always encourage and recognize those who accomplish.

It seems to us, the aim of the newspaper is to be an instrument to make people personally content, socially responsible, and politically effective.

The newspaper and the school work together to form a partnership with a heavy investment in American Futures. Unlimited—the young people of today who will be the American leaders and citizens of tomorrow.

H. W. TRUITT,
Supt. Clarendon
Public Schools.

THANKS FOLKS, THANKS A LOT

We shall ever feel grateful to friends for the sympathy, beautiful flowers, cards and letters and the many who visited the sick room while in the hospital at Wichita Falls, and during the many days of confinement at our home. It is wonderful to live, and much more to live among real people—the best on earth. All of these kind acts helped much to restore the Postmaster to his privilege of going back on the job.

And too, we wish to express to Dr. Ben K. Humphrey our sincere appreciation for his skill, kindly interest and his sick room diplomacy. He brought sunshine and confidence into the room along with his interest in rendering every help for his patient. May God bless him in his noble profession, and each of you who thought of us in our dark hours. Mr. and Mrs. J. C. Estlack.

Texas Heart Fund Campaign Continued Through March 15

The 1954 Texas Heart Fund campaign to raise funds to help combat the nation's foremost killer—heart disease—will be continued through March 15, it has been announced by Dr. W. R. White, Baylor University president and Heart Fund chairman. "Extension of this year's campaign into March is necessary," Dr. White said, "because so many new local Heart Association chapters were formed in Texas in late January and early February and were unable to complete their organization work in time to participate fully in the Heart Fund during February.

Continuing the 1954 Heart Fund until March 15 will give every Texan an opportunity to participate in the triple program of the Heart Association—research, education and community heart work," the state Heart Fund chairman pointed out.

Dr. White urged that newly-formed local Heart groups" redouble their efforts to raise funds to support medical research teams that are seeking the causes and eventual cures of heart and blood vessel diseases."

He emphasized that medical science still does not know what causes the three most prevalent forms of heart disease: coronary heart disease, high blood pressure and rheumatic heart disease.

"The Heart Association, thru its annual Heart Fund, provides financial support to research scientists who are seeking the causes of these killing diseases," Dr. White declared. "This year, the Texas Heart Fund needs the continued support of every Heart Association district and chapter worker and of all Texans in the effort to provide funds to fight heart disease."

Contributions to the 1954 Heart Fund may be made to local Heart Associations, or mailed to HEART care of the local postmaster, Dr. White reminded.

FARM NEWS

from the County ASC Committee

CONGRATULATIONS TO THE DONLEY COUNTY LEADER:

Our sincere congratulations to the LEADER for TWENTY-FIVE years of service to our county. This office appreciates the fact that, for a number of those TWENTY-FIVE years, the LEADER has given space to news from this branch of the U. S. Department of Agriculture. We first started writing weekly articles when we were known as the Donley County AAA. We have had our name changed several times; first to the ACA, then to the PMA and now we are known as the Donley County ASC, which stands for Agricultural Stabilization and Conservation.

Through our weekly articles we have been able to bring to the attention of producers all over the county the important developments in all the different programs handled by this office, and we have been grateful for the space always available to us. This is our means of saying both "THANKS" and "CONGRATULATIONS" to our paper, THE DONLEY COUNTY LEADER.

REVISED COTTON ALLOTMENTS:

All revised cotton allotments have been mailed out from this office. The allotments were mailed on March 10th. A revised allotment was mailed to every cot-

ton farmer regardless of whether an increase was received. The previous allotments mailed to you on December 8, 1953 are now void.

If any producer feels an error has been made on his allotment, he may make an appeal to the Secretary of the County Committee within fifteen (15) days from the date the revised allotment was mailed. Also if there is any producer who does not intend to use his allotment, he may write or come by this office and release the allotment.

Clarendon F. H. A. Chapter Attends Area Meet In Canyon

Some 2200 members of F.H.A. and their supervisors representing 117 Chapters of Area 1 gathered on the Campus of WTSC in Canyon Saturday for a day long conference and program. Registration began at 8:30 at Buffalo Field House. Dr. James P. Corneille, president of West Texas State College, delivered the outstanding address.

The house of delegates composed of one representative of each chapter attending the conference met at 11:00 a. m. to elect new officers and choose a convention city for next year. Melba Harper of Anton, Texas was elected President; Kathy White of Lubbock, Vice-president; and Anne Selecman of Amarillo, recording secretary. Among other officers elected was Jackie Estlack, Parliamentarian. Marianne Longan was voting delegate from the Clarendon Chapter. Amarillo was chosen the convention city for 1955.

Highlighting the program was a Talent Show, followed by recognition and conferring of degrees, and the Installation of new officers.

The Clarendon group enjoyed having eleven girls from the Hedley Chapter and their supervisor, Mrs. H. W. Truitt, accompany them. Twenty-six representatives of the Clarendon Chapter, their supervisor, Miss Loyd Richerson, and two club mothers, Mrs. T. H. Gattis and Mrs. J. G. McAnear attended.

CARD OF THANKS

I wish to express my appreciation for the beautiful flowers, many cards and gifts given me while I was in the hospital; also for the food sent in and all the kindnesses shown me since I returned home.

Howard Stewart and Daughter Karilyn and Ray Briggs attended the all-day Texas-Oklahoma singing convention at Childress last Sunday. They reported a round 2,500 in attendance and a wonderful day of good singing. The next meeting of the group will be at Pampa on October 9-10.

FT. WORTH MAN DIES FROM BURNS RECEIVED HERE

Herbert Lewis Kemp, age 27, of Ft. Worth, died in a Memphis hospital Saturday evening as the result of burns suffered in a flash explosion at the Victory Courts here Friday morning. He was a welder and was on his way to a job in Algodones, N. M.

Sheriff Truett Behrens reported that the flash fire was apparently ignited when Kemp attempted to light a stove in the cabin. Gas had accumulated in the room from the stove which Kemp had apparently thought was lit before retiring. The air conditioner opening apparently kept Kemp from being asphyxiated prior to the explosion according to the places in the room where the gas had accumulated, the sheriff added.

Murphy-Spicer Funeral Home was in charge of funeral arrangements which were held in Ft. Worth Tuesday.

WRIGHT TO ENTER CADET TRAINING

Guy Alden Wright, son of Mr. and Mrs. Guy Wright, has received his call for service, and will leave Monday, March 15, for Denver, Colorado. He will report at the Naval Air Station, Buckley Field.

Graveside services were held here Tuesday afternoon for W. H. Miller, age 69 of Denton, Texas who passed away at his home there Sunday morning.

Mr. Miller was a retired farmer and formerly lived here in Clarendon prior to moving away in 1927.

Among survivors are his mother, Mrs. Stella A. Miller of McLean; two daughters, Mrs. Valma Owens, Austin; Mrs. Eula Martin, Houston; one brother, 10 sisters,

and five grandchildren. Burial was in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

LEGION AUXILIARY TO MEET

CLARENDON, DONLEY COUNTY, TEXAS, MARCH 11, 1954

A Common Paper for Common People

TWENTY-FIVE YEARS AGO IN THE DONLEY COUNTY LEADER

The following headlines and items were taken from the first issue of the Leader, published March 12, 1929.

Hedley Farm Industrial Report by R. E. Mann. For the 1928-29 crop season there was ginned at Hedley, 13,312 bales of cotton, five cars of hogs were shipped, 90 cars of cattle, nine cars of poultry, \$748.00 worth of cream was shipped during February. About 200 cars of feed and corn was shipped this last season. At present Mr. Alexander of Memphis is starting on the compress.

Lelia Lake's Industries Growing: Growing from an obscure farming village to an important shipping center is the record made by Lelia Lake, the best farming section of Donley County. This area produces alfalfa of an exceptional fine quality which finds a ready market each season at a good price. During the past season local gins alone produced 5,600 bales of cotton and during the past year, 125 cars of hay, cotton seed and grain and 16 cars of cattle were shipped out. The butter, eggs and cream marketed during the year amounted to more than ten thousand dollars. This was all in addition to the produce that was trucked out.

The Clarendon College girls basketball team bowed before a select group of Claude all-stars to the tune of 30-34 here in the South Ward gym Thursday night.

Farmers Start Terracing In Donley County: With the advent of the 1929 farm season, many of our best farmers started the program with the idea of saving their land by terracing where needed with an additional touch of manure, cotton burrs, and gin moats.

F. E. Chamberlain and son, George took in the sights at the Ft. Worth stock show the last of the week.

Mr. and Mrs. Elmer Palmer are the proud parents of a son, their first born, on the 9th. James Wesley weighed eight and a half pounds and already has his application in at the Palmer-Riddle garage as chief announcer of the arrival of customers.

Mr. and Mrs. Durwood Skelton are on their bridal tour taking them over much of Texas, New Mexico and Colorado.

Homer Mulkey, owner of Pastime and Queen Theatres of Clarendon, is scouting around looking over the "Movie Talkies" with a view of installing the latest in picture show equipment here. Homer thinks there is nothing too good for the home folks and he is dead right about that.

Mrs. M. Harvey sold two sections of her land recently to Mr. C. P. Hamilton who will do a ranch business. This land is rough land some twenty miles northeast of town and is said to have sold for fourteen dollars per acre. Mrs. Harvey will hold her other land pending oil development which has received a new impetus since the building of the test rig near the river on the Jericho highway.

The road to success is full of wives pushing their husbands along.

Brice Items—Misses Claudine Smallwood and Glynn Shepherd spent the week end with Misses Mattie and Jewell Rhodes of Goldston community. Mr. and Mrs. Cal Holland and family, and the Misses Mamie and Frankie Smallwood, visited friends in the Goldston community Sunday. Everyone is taking advantage of the pretty weather this week and hope for a good rain before planting time.

Martin Items—Mr. and Mrs. Sid Endsley gave the young people of the community an entertainment last week. On Wednesday a number of the young people of Martin enjoyed an evening of "42" playing at the home of Misses Mayme Wood and Lucile Polk. Another good program was given by the "Pep" literary society Friday afternoon. Among the visitors were: Messrs. J. E. Baker, Will Peabody, Dave Patterson, J. B. Turnbow, Della Lafon, W. E. Hodges, Buck Roberts, Sibley, J. L. Hood and Misses Bertie Mae

Poole, Polly Sowell and Pittman.

Lelia Lake Items — Mrs. Guy Taylor is spending the week in Clarendon with her daughter, Mrs. Henry Tatum looking after her new granddaughter, Miss Dorothy Jean. Supt. E. R. Reeves visited his mother in Jericho Wednesday. Lee Muse had business in Amarillo Thursday. Miss Veru Leathers, who is a student in the WTSTC at Canyon, visited her parents over the week end. Quinn Aten was a Memphis visitor Sunday nite.

This Ad would have been appropriate today too: A new Paper but we are an Old Firm. This ad is good for 15c on any three pound pail of coffee if presented before Thursday evening closing time. Shelton & Sanford, Groceries and Feed.

CHAMBER SPECIALS

By Johnnie Allen

Last Thursday you saw the result of efforts of the various Civic Organizations, our schools, and our Colored people, march in review. We have been waiting several months to see these Young People perform and feel proud to live in a town where active interest has made this possible. We should not forget, however, that if Mr. Gain had not wanted to work with these children it would not have been possible and without hard work and enthusiasm on his and the Colored children's part we would not have had the opportunity to see them perform at this early date. We must remember that these children started with instruments which they could not play and had to learn to read notes before they could attempt to play anything that resembled a tune.

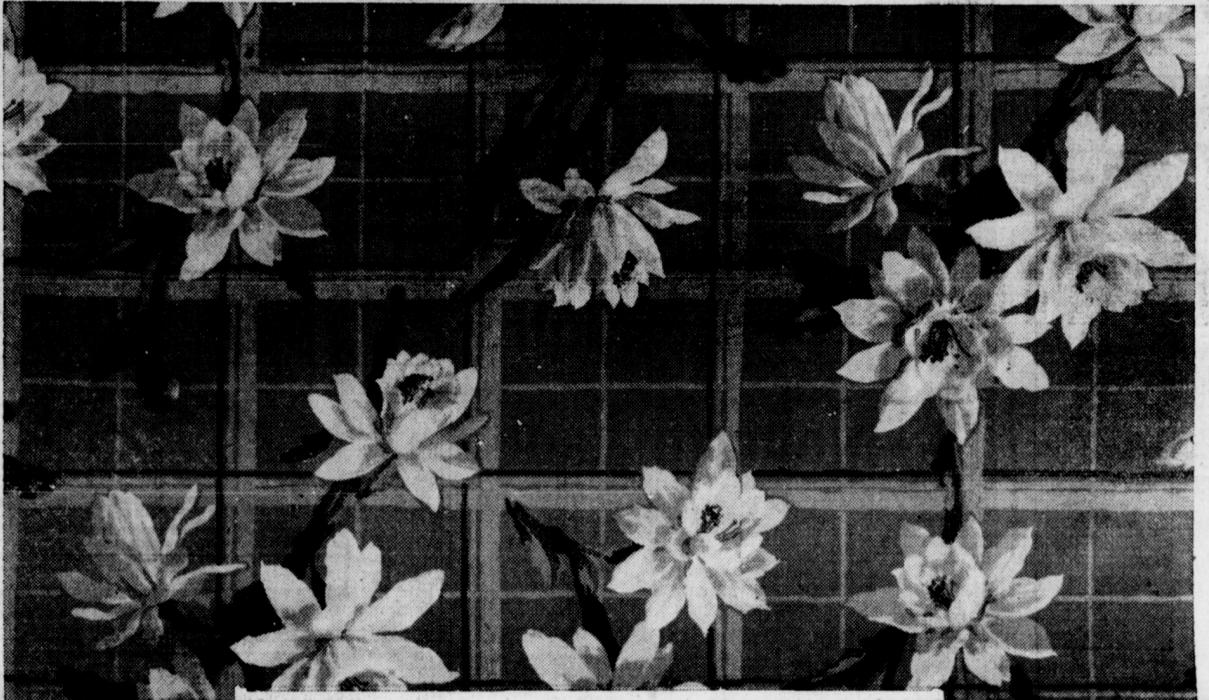

Our Colored Drum and Bugle Corps is something unique and we should be proud of it. Other areas and cities should be given the opportunity to see them perform. They have already attracted more attention than many of us realize in this one performance.

This performance was a part of the activities during National School Week—how many of you took an hour or two of your time to visit your schools—this brings to mind this thought that was expressed by Mr. Truitt; most of the teachers in our school system are over forty years of age, with only five in their twenties, and he wondered where our children, who are now four to six years of age, will be ten years from now if something is not done very soon to encourage our young people into the teaching profession. It is a much more serious problem than you and I realize and it is a problem that if not solved very soon will lead to disastrous results. Do you think I'm kidding? If so, ask your teachers. Believe me a person, who goes into the teaching profession with conditions as they are at present, is not going into it with ambitions to get rich. Our local schools have good teachers, but some of those class rooms are so dull, drab and uncomfortable that I wonder that we manage to get as many through High School as we do.

Write your Congressman and tell him that our teachers in Texas are hanging on from sheer pride in their profession only, that they only stay because they have a strong sense of service to their fellowman. In fact "MAKE IT A HABIT TO WRITE YOUR CONGRESSMEN AND REPRESENTATIVES ONCE EACH WEEK."

Two cups were given newspapers for the first time in Texas Press Association history during TPA's 43rd annual convention held in 1921 at McAllen. Presented by Joe Taylor, the Belo cup for best all around weekly went to The Troup Banner. The Waxahachie Tribune received the Olmsted cup for the best exhibition of job printing.

AUSTIN — Plenty of political friction is coming up between now and election time despite the "harmony" convention of young

democrats at Mineral Wells. Any harmony at that meeting resulted from the fact that one faction, the liberals, stayed away.

National and state party leaders called the gathering for the purpose of trying to reorganize the Young Democrats and bring both factions together.

Representatives of both camps were placed on the reorganizing committee. Despite these efforts, however, discussion flared up as a prelude to the Mineral Wells conclave.

Liberal Young Democrats announced that they would boycott the meeting, charging that it will be dominated by conservative friends of Governor Allan Shivers.

Shunning the "harmony" convention, the liberal Young Democrats insisted that their get-together in San Antonio last year was legal.

A feature of the confab was a panel discussion Friday afternoon, billed as an "open and frank discussion of party politics."

Attorney General John Ben Shepperd was moderator and State Senator Searcy Bracewell of Houston discussion leader.

Others on the program included Governors Shivers, Johnston Murray of Oklahoma and Frank Clement of Tennessee; Supreme Court Justice Will Wilson, National Committeewoman Hilda Weinert of Seguin and State Democratic Chairman Wallace Savage of Dallas.

On the horizon was a special session of the Legislature, called by Governor Shivers for the purpose of providing a raise in pay for the public school teachers.

Other objectives of the session were to raise money for needed state buildings, give pay boosts

to state employees, and set heavy penalties, including death, for Communists.

Shivers had what has been described as a compromise plan to up the income of teachers by \$402 per year, and he said he would specify, when the time comes, the tax measure necessary to raise the necessary funds.

House Speaker Reuben Senterfitt was at odds with the governor on his plan.

In the Speaker's opinion, the so-called "compromise plan" would play havoc with the Gilmer-Aikin school program.

Senterfitt offered his own program for increased teacher pay. He said the amount of salary raise for teachers should be based on what the Legislature can raise by taxation — not by what the teachers would like it to be.

There were some suggestions as to how the money might be raised.

Representative Joe Pool of Dallas thought about higher taxes on beer, and said that he would introduce a bill embodying that

proposal.

While he did not say what rate of taxation he had in mind, Pool did tell reporters that a \$10 per barrel levy would be enough to boost teachers' pay and build some state buildings.

The present state tax on beer is \$1.37 per barrel, or about a half a cent per bottle.

Rep. Gilbert M. Spring of Apple Springs, Trinity County, had another idea. He wants to quit giving tax exemptions on cigarettes sold at army posts in Texas.

The federal government collects its cigarette tax at army camps, Spring reasoned, so why shouldn't the state do likewise?

Comptroller Robert Calvert estimated that if the state should collect taxes on cigarettes sold at army posts in Texas, the revenue would amount to about \$1 million per year.

Other suggestions as to raising money for teachers included a tax on natural gas to replace the

levy recently declared invalid by the U. S. Supreme Court.

But you could depend upon it: any time a tax was suggested, the prospective victim rose up and asserted himself.

For example, M. D. Bryant, president of the Texas Independent Producers and Royalty Owners Association promised that his group would fight any increase in the taxes on gas and oil.

Thus you can see that the job of the Legislature is going to be nothing like sitting under the peach tree waiting for the fruit to drop.

Edward Everett of Maine made the principal address at the dedication of the cemetery at Gettysburg, Pa., speaking for two hours. President Lincoln, who was also present for the ceremonies, spoke for two minutes.

THE DONLEY COUNTY LEADER

PAGE THREE

'King of Pantomime' Is Official Title Of Lions Sponsored Artist Due Tuesday

One of the country's foremost
pantomime artists, Larry Kelley
of Amarillo, will give area resi-
dents a two-hour sample of his
long practiced art, Tuesday night,
March 16th, at the College audi-

torium at 7:30, in a program spon-
sored by the Clarendon Lions
Club.

Kelley, whom many probably
saw in a program at Levelland

last year as he helped dedicate
the Cal Boykin Hotel, is a veter-
an at the art of pantomime, al-
though only 14 years old, having
practiced since he was 10 years
old. In his two-hour show he
won't say a word while going
through a complicated skit of
music and comedy.

Admission will be \$1 for adults

and 35 cents for students.

Kelley, along with Jonne Bow-
ser, Negro youth who is likewise
a talented pantomimist, appear-
ed twice daily in a floor show
in Red River, N. M., this past
summer. They have also appear-
ed on many TV programs at
KGNC, Amarillo, and are known
for keeping their audience in a
continual laugh.

This Amarillo youngster is
considered one of the top enter-
tainers of the Panhandle and we
are fortunate he can come here.

Kelley's entertainment sched-
ule doesn't interfere with his
school work. Since the begin-
ning of the school term this year,
he has appeared in 67 shows,
traveling 7,000 miles and schol-
astically he remains in the up-
per quadrant of the class. One
or both parents accompany him
on these trips.

A recent newspaper article had
this to say about Larry Kelley:
"Larry delights in entertaining
the school children and can make
them go 'clown-happy' when he
goes rubber-faced like the whip-
cracking, half-groggy cowboy of
old Mule-train. . . . He makes
lumps like the ostrich eggs in
one's throat when he emotes over
'Sonny Boy.'"

DR. H. R. BECK

Goldston Bldg.
Clarendon, Texas Phone 46

"Larry's present ambition is to
pantomime a recorded life of
Betty Hutton and to this end, he
saw her star in the 'Greatest
Show On Earth' eight times and
can now imitate la Hutton bomb-
shell in squints, nose-wrinkles
and ohhh . . . baby!

"His favorite music is Paul
Robeson doing Old Man River,
and on this one he closes his
eyes, rocks back and so feels the
drama and treachery of the 'old
Mississippi' he inevitably hurts
the leader from waist to throat
. . . 'For,' says Mrs. Kelley, 'Lar-
ry's putting as much into that
song he doesn't sing' as Robeson
does."

Larry started pantomiming
publicly two years ago when an
English teacher in Paris, Texas,
boggled down. "Honestly," she
told the class . . . "the only pan-
tomiming I know is how to sig-
nal when driving a car." In de-
spiration she took down Web-
ster's dictionary and began read-

ing "Pantomiming is a mute,
theatrical show . . ." "Hey . . .
Teacher . . . wait!" Larry got up
and went into Larry Parks' rou-
tine in the Al Jolson story and
he has been a mammy-singin'
role ever since.

SOCIAL SECURITY NEWS

On March 15, 1954, nearly
5,000,000 self-employed individu-
als and partners in business cov-
ered by social security will pay
their third annual social security
tax contribution, as required by
law. For the year of 1953 the rate
is still 2 1/4% on the net self-em-
ployment income of not less than
\$400 and up to a maximum tax-
able of \$3,600, after all deductible
expenses are taken. This is not a
voluntary tax! The law requires
that all such covered self-em-
ployed individuals and partners
shall file yearly with their income

tax, not later than March 15,
Schedule C and Ca (Form 1040),
U. S. Report of Self-Employment
Income.

The covered self-employment
groups cover all persons in a
trade, business, or a partnership,
except: medical doctors, dentists,
lawyers, CPA's or registered pub-
lic accountants, professional en-
gineers, veterinarians, chiroprac-
tors, osteopaths, ministers of the
gospel, naturopaths, Christian
Science practitioners, optome-
trists, architects, funeral direct-
ors, and farm operators.

In describing the nature of
your business on Schedule Ca
(Form 1040) it is most important
that you be explicit, so your work
will not be confused with that
of a group not covered as self-
employment. And, in order that
your net income will be correctly
credited to your wage record, be
sure to show your correct social
security account number. If you
never had a social security card
or have lost it, do not delay in
applying for an original or dupli-
cate card at your nearest social
security office.

Age Finder
 In the last few years scientists have found out a lot of things about the past by means of an instrument called the mass spectrometer, which measures the isotope content of various elements. As elements change their isotope content due to radioactivity in known quantities over a long period, the spectrometer can determine precisely at what

period in time a certain material was formed.
 G-E engineers have just developed a new type spectrometer which gets around one of the chief difficulties in element analysis. Formerly it was possible only to analyze elements in a gaseous state or elements easily vaporized. The new device can analyze elements in their solid state, making it possible to work with metals which are very diffi-

cult to handle by ordinary techniques.
 Because of this the new spectrometer will be of particular interest to geologists who will be able to spot geologic strata more easily in their search for oil, gas and minerals.
 Due to a paper shortage, only six or eight newspapers were published in Texas during the War Between the States.

25 Years Ago

WHEN THE FIRST DONLEY COUNTY LEADER WAS PUBLISHED . . . WE WERE NEXT DOOR NEIGHBORS

--- so it is a pleasure at this time to congratulate the Leader on 25 YEARS of service to this community --- and in so doing --- we would like to reminisce a bit and reprint an article (in part) in our behalf when we moved to our present location.

(Published April 12, 1934 in the Donley County Leader)
 "Now they (Homer & Carl Parsons) have moved to a building of their own. I would be ungrateful not to say that I wish them unbounded success, because they have earned it. They will keep growing because they have built on a sound foundation. You just can't keep those kind of fellows down, because nobody would wish them otherwise than a successful career in their line of work. Luck to you, boys, and may your business keep right on growing."

I too, wish the publishers of the Leader every success in the future.

Steve Tips the Balance

Was just leaving home this morning when the Missus reminded me to stop at Steve and Al's Meat Market for a pound of hamburger. "Be sure to get it from Steve," she said.

"Why?" I wondered. So when I got to the market I asked Steve if he knew. "I'll tell you, Joe," he said. "Al and I sell the same meat, and a pound is a pound. Maybe it's just that we go at it differently.

"Al loads the scales and takes away 'til he has a pound. But I put too little on and start adding.

To your wife — that probably looks like a better buy."

From where I sit, there's always more than one way to approach a thing and still come out fair and square to all. My wife likes a cup of tea with dinner; I prefer a temperate glass of beer. We get along fine. Gets me pretty mad though, when somebody starts "throwing his weight around" and demands that I see things exactly his way.

CONGRESSIONAL ACCOMPLISHMENTS

Congress as a whole does not have much to brag about in the way of accomplishments during the first two months of this session. By "accomplishments" I mean legislative action carried through to finality. This does not mean that the workload has decreased. The committees and individual Members of Congress have seen no idle hours since this session began. Much of the pro-

posed legislation should be ready for action by the full House membership. Many of the Members are getting restless because of the lack of activity on the House Floor. Much of the debate so far has been on relatively non-controversial matters or on items of minor importance when compared with the legislation that we know will have to be considered at this session. Much of

President Eisenhower's program could have been debated and passed by the House, as a substantial part of it will be non-controversial. That is, it will be non-controversial unless some jokers are slipped into the laws that are not in keeping with the aims expressed by Mr. Eisenhower in his State of the Union message. A sizable part of his proposed program will be controversial. For that reason, the non-controversial matters should be disposed of at the earliest possible date so that plenty of time would be left for full debate on the controversial matters. Sometimes when a large backlog of legislation is created and the time grows short before adjournment, legislation is adopted by a

parliamentary body without proper consideration and debate. This is a very dangerous procedure and should never be employed. A large backlog of legislative matters also creates an opportunity for controversy to be raised over matters that otherwise would be non-controversial. This practice can force long delay of controversial matters that should be thoroughly explored and scrutinized.

Most of the House Members are very anxious to get the show on the road, so to speak, and not be faced with a shortage of time when we have to consider the big appropriations bills. Proper trimming of these bills requires time for study and debate after the bills are prepared by the committee and submitted to the full House membership.

COMPULSORY FEPC
In the opinion of many, the remarks of the Secretary of Labor, Mr. Mitchell, before a Senate committee, to the effect that he favored a compulsory FEPC law, were not accidental, extemporaneous, or a spur of the moment remark. Although these views were

in conflict with the views expressed by the President, who has said that he favored a voluntary FEPC procedure, it is felt that the Mitchell remarks are a part of a softening-up process that has as its ultimate goal "compulsory FEPC." Wirth for more comments on the subject in the near future. If compulsory FEPC comes into being, it will affect every business in the nation. Many small merchants think they should not worry about this because they are not engaged in interstate commerce and will not be subject to the law. Many small businesses that were actually not engaged in interstate commerce as we had always known it, were, during recent years, DEFINED into interstate commerce. Those not already taken in by this method may well recognize that they are next in line. The adoption of a compulsory FEPC law would mean the early inclusion of all you business folks in the realm of interstate commerce. I might point out that almost every farmer is included in interstate commerce by definition. The only reason that the maximum hour and minimum wage provisions of the Fair Labor Standards Act do not apply to the farmer, is because he is specifically exempt

in the language of this act. A repeal of the exempting provisions of the act would immediately place the farmer under the minimum wage and maximum hour laws, whether he liked it or not. If the Administration proposal to include an additional ten million under the social security program is realized, there will be a race on as to which covers the most Americans, social security or interstate commerce. And I thought we were going to DE-CENTRALIZE the government. When federal laws are passed imposing obligations on "small business", the term goes clear down to the smallest hamburger stand. It is only when money is to be loaned by the government that the term "small business" includes only those businesses worth over half a million dollars, and excludes the small business establishments with whom we daily do business.

The Look of Tomorrow is in every '54 BUICK Today. With completely new "years-away" styling—keynoted by the dream-car design of the panoramic sweep-back windshield.

Take it Easy

you don't have to prove a thing!

LET'S be sensible about this subject of horsepower.

An all-American tackle doesn't go around tackling people in everyday life.

A world-record sprinter doesn't have to demonstrate his prowess on city sidewalks.

The better you are, the less you have to prove it.

And that's how it is with a Buick CENTURY.

Of course it's a spectacular performer—a car with instantly responsive action.

It has to be, for this one combines a

high-compression 200-horsepower V8 engine with a nimble weight of only 3866 pounds as it comes off the assembly line.

That's a power-to-weight ratio that chalks up a new record—a ratio that no other Buick has ever reached before.

It can spin your wheels on a dry pavement if you give it the gun, but why waste rubber?

If some show-off wants to get the jump on you at a traffic light, why not let him have fun? He isn't kidding anyone but himself, when the name on your car is CENTURY.

The real pride of owning such a car is

simply this: You know so well what it can do that you never have to prove it.

That lets you enjoy the tireless ease of its gait in ordinary driving, when only a fraction of its eager power is working. It gives you a quick reserve for breasting a hill—and the happy knowledge that there's still more to come in a sudden emergency.

Sure, this is more power than most people really have to have. But you can hardly call it extravagant, when you are buying more horsepower per dollar in a CENTURY than you get in any other car in America.

Walter R. Hervey Jr. Muscular Dystrophy Representative For State of Texas

Walter R. Hervey, Jr., has joined Muscular Dystrophy Associations of America, Inc., as national representative for the State of Texas. William Mazer, MDAA president, announced here today. Mr. Hervey's purpose in the Lone Star State will be to increase local activity in order to implement the patient-service program whereby local victims may receive aid, and to support the national research program seeking the cause and cure of

muscular dystrophy, a disease affecting more than 200,000 Americans, most of them children. Formerly field representative for Mealpack Corporation, Evanston, Ill., Mr. Hervey is familiar with the Texas territory and has many business contacts in the State. During World War II, he served overseas with the 77th Division as Company Commander, Battalion Adjutant and Brigade Adjutant in the Pacific Area. He has been a captain in the New York National Guard. Mr. Hervey married the former Zerelda Rains in 1940. She was stationed at Sweetwater for training in the Women's Air Force Service Pilots during the war and was later employed by

North American Aviation in Dallas. Mr. and Mrs. Hervey, with their three children, will reside in the Dallas-Fort Worth area. Muscular dystrophy, an enigma in the medical world, is a disease which wastes the muscles of its victims until they are completely helpless. It is always fatal in children. Muscular Dystrophy Associations of America, Inc., founded four years ago by a group of parents determined to find help for their stricken children, now supports 38 research projects both in the U. S. and abroad. Walt Whitman, famous American poet, was a nurse during the Civil War.
