CLARENDON, DONLEY COUNTY, TEXAS, JUNE 26, 1952

A Common Paper for Common People

CONSTRUCTION STARTED THIS WEEK ON OFFICE BUILDING AT SURFACE BURIAL VAULT CO.

Construction was started this week on a new brick and steel office and display building at the Surface Burial Vault Co., located two blocks east of the stop light and owned by L. L. Wallace.

Mr. Wallace stated that the new structure would add 1,596 feet to his present 5,760 feet of floor space, giving a total of 7,356 square feet of floor space when the new addition is finished. The new structure will be modern in every respect with Roman Brick and plate glass being used in the front of the building and a Terrace floor will be used inside. The building will face the south and will be a separate unit from his present structure. It will be used entirely for display and office space. The building contractor is John Jones.

The Surface Burial Vault Co. is one of Clarendon's major growing business firms employing around thirteen full time employees and another fifteen part time employees in addition to a large number of representatives in practically every town in the upper Panhandle and adjoining states bordering this area. The company manufactures Burial vaults, curbing and other associated items along with featuring a complete monument works.

GENE HOWE

GENE HOWE (Old Tack) FOUND DEAD IN HIS CAR WEDNESDAY MORNING

Gene Howe, better known to residents of the Panhandle area as "Old Tack" was found dead in his auto southeast of Amarillo Wednesday morning. A revolver was found lying on the seat beside him. He had been despondent over his health for quite some time. Old Tack had been a prominent figure in Panhandle newspaper circles since he came to Amarillo in 1924 from Kansas. He was 66 years old, and was one of the most gracious charity benefactors in the Panhandle area.

At the time of his death, Mr. Howe was chairman of the board of the Amarillo News-Globe Publishing Co. which included papers at Amarillo and Lubbock and station KGNC, Amarillo.

Booster Trips Set For Saturday & Monday

Booster trips for this year's Fourth of July celebration will be next Saturday and Monday, according to Jimmy Faulkner, who is in charge of arrangements. The trip Saturday will leave at 8:30 A. M. from the Courthouse square. It will go south to Hedley, Memphis, Childress, Paducah, Matador, Silvertown and Quitaque and Turkey. "The Matador-Silvertown-Quitaque area is one that we have neglected during our past trip, so we are going over on Saturday when everyone is in town and invite them to Clarendon," Faulkner said.

The trip Monday, leaving from the courthouse at 9 A. M. will make Wellington, Shamrock, McLean, Lefors, Pampa, Groom and Claude.

Emmet Allen and his Sunset Ramblers will make the trip and plans are being made to try to have the Clarendon High School Band along also.

Persons desiring to make either one, or both of the trips, should contact the Chamber of Commerce office, telephone 211.

FIREWORKS WARNING

The 4th of July is only a few days off. This is a reminder that there is a state law prohibiting exploding fireworks of any kind in any incorporated City or Town in the State of Texas. This applies to our city. We have had a city ordinance for some time to this effect before this became a state law. Parents of youngsters are asked to see that this law is complied with. This applies to the residential district as well as down town, in fact, any where in the city limits.

Let's all cooperate in complying with this law and cause no embarrassments of being arrested by law enforcement officers.

Major B. Hudson, Mayor.

Mrs. W. E. Emmons has been confined to her home by illness but is improved at this time.

Interest Mounting In Rodeo Queen Contest Here

Interest in the Rodeo Queen Contest is mounting as the crowning date comes closer and closer. In fact, the voting will be all over one week from tomorrow. Campaigning for the various ladies for this honor is expected to hit a high peak by the middle of next week. At the present time there are 24 local firms sponsoring contestants and their voting boxes have been placed out in various locations around town. Each penny counts one vote so be sure to sweeten the pot with a nice vote for your favorite before the deadline which will be noon July 4th. All boxes must be brought in by that time.

All queen contestants are requested to take their boxes to Clyde Slavin's office in the First National Bank Friday, June 27 at 10 a. m. so they may be counted and returned to their places. They are also asked to bring them in again Monday morning and Wednesday morning at 10 a. m. for counting as the complete standing in the contest will be released after each count so everyone will know how much effort they will need to put out to push their candidate forward.

Firms and the young lady they are sponsoring are listed below:

- Greene Dry Goods—Janice Benson
- Thompson Bros. Co.—Mary Ann Landers
- Thornberry Drug—Tookie McClellan
- Skelton's Clothing—Sandra Bownds
- Terry's Cafe—Annette Thomas
- Pauline's Beauty Shop—Jo Ann Montgomery
- Essie's Beauty Shop—Kay Schollenbarger
- Donley County State Bank—Doris Knorpp
- Bob Moss Pharmacy—Inelle Cox
- Lynn's Barber Shop—Mabel Dean Brock
- Whitlock & Hart Barber Shop—Nell Bentley
- Palmer Motor Co.—Noma Lee Lewis
- West Texas Utilities—Charlene Pycatt
- Mulkey Theatre—Genevieve Smith
- Clarendon Food Store—Willetta Riney
- Southwestern Associated Telephone Co.—Arqath Monk
- Junior's Food Store—Janell Fox
- Saye's—Frankie Wilson
- Charlie Seeds Buick Co.—Shirley Barker
- Baxter Motor Co.—Shirley Wilson
- The Leader Department Store—Mary Lou Fitzgerald
- Parsons Bros.—Marilyn Butler
- Estlack Machinery Co.—Barbara Estlack
- Clarendon Motor Co.—Glenda Sue Davis

CHAMBER OF COMMERCE OFFICE TO HAVE SET OFFICE HOURS

Miss Mary Ann Landers is now employed at the Chamber of Commerce office. "We are making an attempt to have regular office hours in hopes that we will be able to render a greater service to the members of the Chamber of Commerce," Jimmy Faulkner, manager, stated. The office will be open daily from 9 A. M. to 5 P. M. except Saturday when it will close at noon. The telephone number is 211.

HEDLEY MARINE REPORTED WOUNDED

U. S. casualties in the Korean area include Pfc. Jack Prater, son of Mrs. Mable C. Prater, according to a news release received this week.

Pfc. Prater is in the Marine Corps. His home address is Hedley, Texas.

W. W. SANDIFER

W. W. Sandifer To Head American Legion

At a regular meeting of Clark-Brook Post No. 126, American Legion, the following Officers were elected: Post Commander, W. W. Sandifer; 1st Vice Commander, Ernest Kent; 2nd Vice Commander, L. E. Thompson; 3rd Vice Commander, Richard Maxey; Sgt-at-arms, Bill Mears; Chaplain, Basil Smith; Finance Officer, Emmett Simmons; Service Officer, Jack Gray.

Wind, Hail and Sand Damage Crops

From 25 to 30 sections of crops in Donley County were destroyed or badly damaged last Saturday afternoon when a blustery storm cloud moved in from the West at a very rapid pace. Numerous crops were hauled out north and west of Ashtola where a deluge of water accompanied the storm. Other hail damage was spotted until the storm passed Lelia Lake. Breaking lose again east of Lelia Lake, the hail storm moved northeast through Hedley and the McKnight areas, destroying approximately 21 sections in that locality. In many places where the hail was lighter, the rain was still heavy enough to level the ground and allow the sand to start blowing and large acreages of cotton were destroyed in this manner.

In places where it was practical, farmers were in their fields Sunday with every piece of equipment trying to save their crop from the driving sand. Others were rigging up to start planting over just as soon as the land would dry out. A majority of those losing their cotton crop are putting feed back in its place and others are planting more cotton. In past years, cotton planted as late as July 4th, has been known to make.

Each day the high south wind blows it is taking its toll and the hot temperatures are making it uncomfortable for crops, animals and human beings alike. The mercury has been passing by the century mark each day with 103 degrees being a popular figure.

Old Timers To Be Greeted In Grand Style

The Old Settlers preparation committee under the leadership of Chas. Speed, met Tuesday night and rounded out their plans to put their part of the July 4th celebration over in grand style. Mr. Speed announced that prizes would be given to the Earliest Panhandle Settler, Oldest (in age) Panhandle settler, man and woman; Oldest Panhandle couple, in years; and the Panhandle old settler coming the greatest distance.

The daughters of Old Settlers reception committee will be composed of the following: Mesdames Hubert Heatherly, Edith Speed Barnes, L. L. Wallace, Harold Bugbee, Homer Estlack, Frank White, Jr., John W. Wood, U. Z. Patterson, Bill Weatherly, Frank Tyler, Dale Hill and Misses Marjorie Harlan and Isabell Wright.

Flem Caraway, head of the finance committee, has been out raising the prize money and receiving other prize donations. If you want a part in this, just contact Flem and he will take care of you, Mr. Speed stated. "We will hold another Committee meeting next Tuesday night at 8 o'clock at the Clarendon Hotel and all are urged to be present," Mr. Speed added.

Bond Issues Carry By Good Majority

Voters of Clarendon really manifested their interest in civic improvement last Saturday when 485 ballots were cast in the special \$100,000.00 bond election. Opposition was light against all of the three proposals. The balloting was as follows:

- PROPOSITION NUMBER ONE: Waterworks Improvement
 - For 390
 - Against 77
- PROPOSITION NUMBER TWO: Sewer Improvement
 - For 392
 - Against 77
- PROPOSITION NUMBER THREE: Street Improvement
 - For 327
 - Against 145

The City Commission met in session last Monday night and canvassed the returns which have been certified to the Attorney General.

CHURCH SERVICES ANNOUNCED

Rev. James Overholser of Dallas will be in Clarendon Sunday morning to conduct church services at the Presbyterian Church at the 11 o'clock hour. Sunday School will be held at the regular time.

Rev. James Overholser is a very interesting speaker. The public is invited to attend this service.

Celebration Dates Only Week Away

B. C. ANTROBUS

B. C. Antrobus To Head 40 & 8

At a special Promenade of La Societe Des Quarante Hommes Et Huit Chevaux, Voiture Locale No. 1408, the following Officers were elected: Chef de Gare, B. C. Antrobus; Chef de Train, Loyd Johnson; Conducteur, F. E. Caraway; Aumonier, Alfred Taylor; Cheminots, L. E. Thompson, Jack Gray, Curtis Mears.

Wheat Crop Expected To Reach 30 Cars

Twenty-six cars of wheat have been shipped out of Donley County on the current crop and approximately four more cars will be loaded before the week end to complete the wheat crop this year. This will be about ten cars more wheat shipped than last year which is a considerable amount. In fact the crop this year is over a third better than last year as a number of farmers are storing their own wheat.

The grain is very good this year with the average moisture content running from ten to eleven percent and the test has been running above 62 on all wheat brought in. The average yield all the way around has been about 15 bushels per acre with some of the better wheat running around 25 bushels to the acre.

Most wheat growers are putting their grain in government storage with a \$2.02 1/4 loan. The market price on wheat Tuesday afternoon was \$1.98 per bu. Wheat farmers have had ideal weather for harvesting this year and harvesting operations have been much quicker than usual.

Mrs. Carroll Brumley and son John Russell of Miller, Missouri, and Mrs. Bud Schmidkes of Mt. Vernon, Missouri left Thursday after visiting in the home of Mr. and Mrs. H. C. Brumley.

With only a week left before the big celebration starts, every committee is busy making complete their preparations for one of the biggest affairs yet. These committees are reporting in regularly and there seems to be lots of enthusiasm connected with each portion of the program.

Voting in the Queen contest has begun to pick up this week and should reach a high peak by this time next week. Preparations are being made for the booster trips Saturday and Monday and it is hoped that a sizeable number will be able to make both trips. Flip Breedlove reports that the barbecue deal is coming along fine and that most everyone should be able to smell that fragrant barbecue cooking odor this far in advance. Flip does a wonderful job and it's something to look forward to.

GENERAL MEETING FRIDAY NIGHT

J. W. Murphy has announced that a general meeting will be held Friday night at the District court room at 8 o'clock. Every committee chairman and all others connected with the celebration are urged to be present. If you have not been contacted to help with any of the committees and would be willing to help, please be up there Friday night as more volunteers are needed on several of the committees.

Your Name May Be On This List

The American Legion will handle the free parking area during each rodeo performance July 3, 4 and 5th.

The night of July 3rd, Pete Kunz will act as chairman of parking after securing five or six assistants.

The afternoon of July 4th, the following men will please report to chairman Glenn Hoggatt, Basil Smith, Orville Housden, Jack McElroy, Billy Phillips and B. B. Osborne.

The night of July 5th, the following men will report to Chairman W. W. Sandifer, Raymond Martin, Robert Corman, J. B. Melton, Ernest Eudy and H. T. Burton.

Pie Supper And Candidate Rally At Ashtola July 11

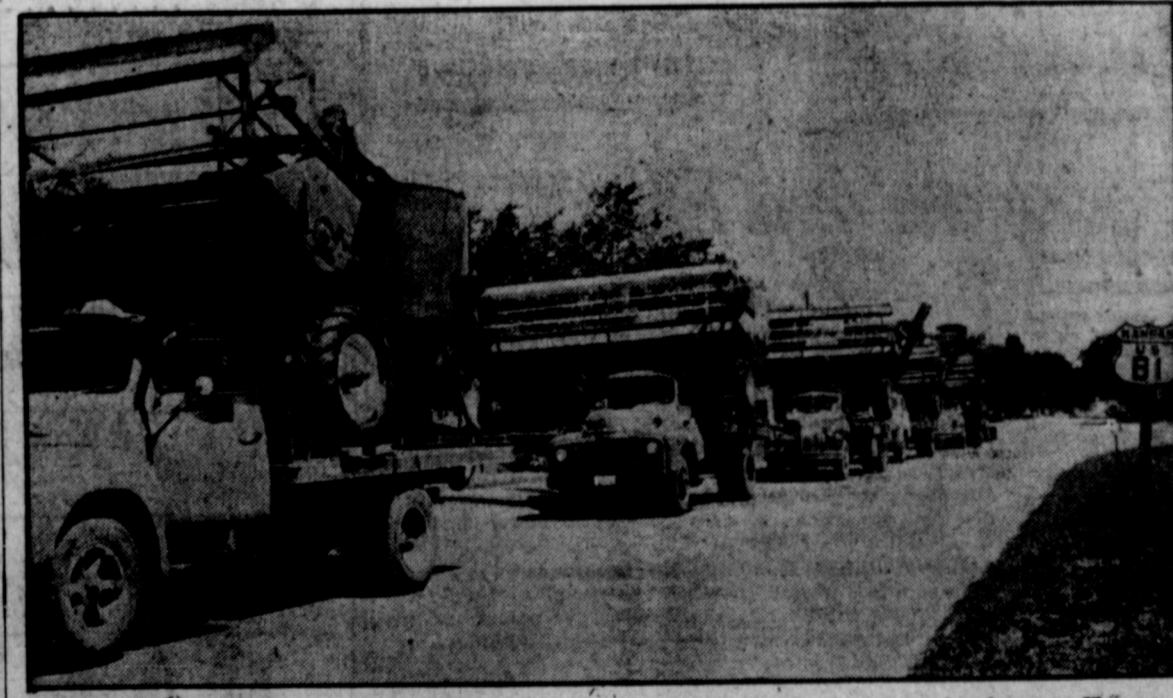

There will be a candidate rally at the Ashtola School house Friday night, July 11 at 8 p. m. All candidates are invited to come and will be given a chance to speak in making their bid for votes.

Ashtola Needle Club members will offer pies at auction. When a pie is bought, it will have no name on it and will be taken home by the buyer. Come one and all for an evening of fun, July 11 at Ashtola.

GRAVESIDE SERVICES FOR MARCIA ANNE PUTMAN

Bro. R. C. Copeland assisted by Bro. Howard Scott conducted graveside services at 2 p. m. Saturday afternoon, June 21, for Marcia Anne Putman, infant daughter of Mr. and Mrs. L. M. Putman, Jr. Burial was in Citizens Cemetery under the direction of Boxwell Brothers Funeral Home.

Marcia Anne was 3 days old at the time of her death Friday, June 20, having been born Tuesday, June 17, at the Amarillo Air Base Hospital. Survivors include the parents, Mr. and Mrs. L. M. Putman, Jr. and the grandparents, Mr. and Mrs. H. G. Bobbitt and Mr. and Mrs. L. M. Putman.

THEY'LL HELP COP A BUMPER CROP—En route to Summer County and a bumper Kansas wheat crop, a line of combines owned by a Brinsmade, N. D., firm arrives at Lindsborg, Kan. The harvest is expected to be the second largest in history, with a predicted yield of 283,764,000 bushels, an average of 19.5 bushels per acre.

CLEAN SWEEP FOR THIRSTY ACRES—Final touches of a gigantic cleaning job are applied by workers on the Delta-Mendota Canal, a man-made river of California's Central Valley project. The sweeper, foreground, works with the men cleaning the expansion joints on the steep concrete banks. The 162-foot-wide and 117-miles-long trough is cleaned every summer before irrigation season.

**News From The
 Office of Price
 Stabilization**

The Office of Price Stabilization has announced the revocation of regulations governing the sale of white potatoes at all levels of distribution, according to district OPS officials.
 Price Director Arnall announced that the action was taken as a result of the vote in the Senate to discontinue controls of fresh fruits and vegetables.

The announcement of the Senate has rendered effective enforcement of the present regulations virtually impossible, price officials pointed out. Honest operators would be penalized by violations which might follow the Senate action. OPS further considers that distribution of the potato crop would be complicated through inducement to shippers to withhold supplies in the expectation that controls on potatoes would be terminated by Congressional action on July 1.
 The OPS has maintained potato controls in the interests of the consuming public and in accordance with the law during the past several months. During this time the potato supply has been extremely short. It is hoped that the present shortage of supplies may be relieved to some extent in the reasonably near future.

"Even people who take a 20 dollar bill on Saturday, and get in their car, and go out to stock up on food for the next week, and see their \$20 vanish, are confused. They read the news stories and the expensive and expansive broadsides put out as advertisements by groups which would have the Congress do away with all emergency controls. And they hear the arguments banded about in talk on the radio, and they wonder. But at the same time, in the stores, they know that prices for corn flakes, corn meal, bread, vanilla cookies, milk, ice cream, bananas, onions, potatoes, sweet potatoes, are at their highest peaks. They know also that flour, rolled oats, veal cutlets, cheese, apples, canned peaches, canned corn, canned baby foods, and coffee are prac-

tically at their peaks. In March, items representing 50 percent of consumer expenditures as measured by the Bureau of Labor Statistics Consumer price Index, were at their highest 1951-1952 levels. Practically 71 percent were within two percent of their peaks. Eighty-five percent were within 5 percent," Arnall observed.

**TO OUR MANY FRIENDS
 AND NEIGHBORS:**

We wish to express our sincere thanks and appreciation for the many flowers, cards, and sympathy shown us at the loss of our loved one. May God's richest blessings abide with you always.

Allen - Chambless

Nuptial vows were solemnized Saturday morning, June 14 at 10 o'clock for Bonnie Faye Allen, daughter of Mr. and Mrs. John N. Allen of Panhandle, formerly of Clarendon, and William J. Chambless, Jr., son of Mr. and Mrs. William J. Chambless, Sr., of Oak Grove, Louisiana.

Rev. W. E. Thorn, pastor, read the double-ring service in the parlor of the First Baptist Church in Panhandle before relatives and close friends. Miss Nelda Higginbotham sang "Through the Years" and "Always" accompanied at the piano by Mrs. Leta Hartzell. The traditional wedding processional and recessional were played by Mrs. Hartzell.

Miss Ida Beth Broadway was maid of honor. She wore a dress of pink organza with black and white accessories and a white carnation corsage. Wayne Cox of Amarillo served Mr. Chambless as best man.

The bride was attired in a dress of iridescent peacock blue nylon silk with blue and white accessories. She carried a white Bible topped with a white orchid showered with white satin streamers knotted with fleur d'amour.

For her daughter's wedding, Mrs. Allen chose a navy nylon linen dress complemented with white and navy accessories and a corsage of white carnations.

A reception was held in the church parlor immediately following the ceremony. The bride's table was laid with a linen cloth with cutwork design, centered with an orchid satin bow with orchid streamers which led to white carnations. The white cake topped with orchid miniature wedding bells was served by Mrs. John Simms Sparks and punch

was ladled by Mrs. Jeck Ramey. Miss Higginbotham registered the guests.

Following a wedding trip thru New Mexico and Colorado, the couple will be at home at 3415 Hayden in Amarillo.

The bride is a graduate of Clarendon Senior High School and has been employed in Panhandle for the past two years. The groom was graduated from Louisiana State University and served three years in the Air Force. He is employed with the United States Treasury Department in Amarillo.

HARTMAN—UNDERDOWN

Miss Wanda Lou Hartman, daughter of Mr. and Mrs. E. H. Hartman, of Wellington, became the bride of Leo Wayne Underdown, in a quiet ceremony at the home of the bride's parents on June 9, at 6 p. m. Rev. E. L. Stonecipher read the double ring ceremony.

For her wedding the bride chose a lilac nylon dress styled with a fitted bodice, high neckline, and fastened down the front with rhinestone buttons. The full skirt was street length. Her flowers were pink and white carnations.

Mrs. Underdown graduated from Wellington High School, and studied at St. Joseph's School of Nursing in Fort Worth. At the time of her marriage she was employed in Jones-Watkins Clinic.

The groom, a graduate of Clarendon High School, served in the Navy for five years.

The couple will make their home in Amarillo where Mr. Underdown is employed at the Post office.

Mrs. J. R. Cowan, Jr. and children of Borger are visiting relatives here this week.

BRIDAL SHOWER

A bridal shower honoring Miss Patsy Estlack, bride elect of Kenneth Sams, was given in the Patching Club house Tuesday afternoon, June 24. The guests were greeted at the door by Mary Ann Landers, the honoree, her mother Mrs. Alfred Estlack and the mother of the groom elect, Mrs. W. H. Sams, completed the receiving line. Mrs. Billie Chilton, the bride elect's sister, presided at the guest book the first hour, Mrs. A. C. Sams, the second hour.

Soft piano selections were given by Barbara Estlack and Evelyn Wood throughout the entertaining hours from four to six P. M.

The serving table was covered with imported cutwork linen cloth, centered with an arrangement of blue and white daisies; blue satin streamers extending from the base of centerpiece, inscribed Patsy and Kenneth, carried out the bride's chosen colors of blue and white. Sandra Shelton, Inelle Cox, Glenda Sue Davis, Mary Edna Hudson, Addie Moss, Doris Jean Wallace alternated at the punch bowl and individual cake plate.

Co-hostesses were Mesdames Alvin Landers, L. T. Shelton, Frank Thomas, Fontayne Elmore, George Thompson, Bill Lane, L. L. Wallace and Homer, Estlack.

STITCH AND CHATTER CLUB

Our last quilting was at Mary Jane Smiths. The evening was spent quilting. Refreshments of Cokes and cookies were served. Present were Joan Leathers, Inez Tomlinson, Yevie Miller, Hazel Noble, Seretha Morgan, Dorothy Helms, Louise Tomlinson, Mary Jane Smith and our guest was Mary Jane's mother, Mrs. Cook. Our next meeting will be at Yevie Miller, Tuesday, July 1st. Reporter, Dorothy Helms.

MIDWAY QUILTING CLUB

The Midway Club met with Nell Land for an all day meeting Thursday, June 19th. Two quilts were finished. The delicious luncheon was enjoyed by all. We are very glad to have Mrs. Marjorie Hensley as a new member. We will not meet again until Sept. 4th.

—Reporter

GIRL SCOUTS

A hike and wiener roast was enjoyed by the Girl Scouts of Troop No. 1, Monday afternoon, June 23 from 5:30 to 7:30.

Present were Rose Leek, Linda Lamberth, Beth Lamberth, Shirley Wiedman, Glenda Borden, Jinna Sue Bain, Shirley Chilton, Carolyn Thomas, Priscilla Wright, Beth Gillham, Robbie Lue Johnson, the scout leaders, Mrs. John Hon, Miss Juanelle Stevenson, Mrs. Truett Behrens, and Mrs. Pete Borden.

The next meeting will be Monday afternoon, June 30 at 4:30 in the home of Mrs. Pete Borden. Let's all try to be there.

GOLDSTON QUILTING CLUB

The Goldston Quilting Club met Thursday, June 19 with Nina Dale. One quilt was nearly finished.

There were new officers elected: President, Geraldine Jackson; Sec.-Treas., Irene Stewart; Reporter, Willie Putman.

Members present Sarah Peggram, Edna Hudson, Addie Moss, Willie Putman and girls, Irene Stewart and boys, Mazie Eichelberger, Nora Smith, Mary Pearl McDonald, Geraldine Jackson, and the hostess, Nina and Lucille Dale.

We are going to wait till cooler weather before we have any more meetings.

—Reporter

ASHTOLA NEEDLE CLUB

The Ashtola Needle Club met Thursday, June 19 at 3 o'clock in the Club room. There will be a Candidate Rally at the school house on July 11. Every one is invited to come.

The Club voted to not meet until Aug. 7th when they will have their annual chicken barbecue at night.

Mrs. Billie Jean Moore of Clarendon reviewed, "Raising a Riot" by Albert Looms which was enjoyed very much by all.

We revealed Pollyannas and drew names for the next 6 months.

Viola Graham served delicious refreshments to 18 visitors and members.

SECRETARIES' BEST FRIEND—Secretaries visiting the annual Inventors' Fair in Paris have shown so much interest in this gadget that it is to be put into production. A tin can, an auto hub cap, a note pad and an alarm clock were used to fashion the original model. A nimble secretary can light her desk, take notes, and time appointments with the minimum of effort, by using the device.

ANNOUNCEMENT

Mr. and Mrs. Alfred Estlack announce the engagement and approaching marriage of their daughter, Patricia Ann, to Mr. Kenneth Sams, son of Mr. and Mrs. W. H. Sams of Lakeview. The vows will be spoken Sunday afternoon, June 29th at the local First Baptist Church.

Mrs. B. C. Tidwell and children, Margaret and Mike came Friday from Texarkana to spend two weeks with her parents, Mr. and Mrs. D. C. Williams. Then Sunday, Mr. and Mrs. H. R. Fricks and children, Bruce, David and Wanda and Mr. and Mrs. H. L. Williams and two children, Billy James and Helen of Dumas and Bill Williams and son Paul of Pampa were all at home. All the children were home except Mrs. F. W. Bullington of Richmond, Calif.

Mrs. Lena Antrobus left Wednesday morning for Oklahoma City where she will visit relatives.

REBEKAH LODGE NO. 149 ENTERTAINS STATE PRESIDENT

Rebekah Lodge No. 149 of Clarendon entertained the State President and other guests with a meeting and reception in the Lodge Hall Monday evening.

Present and the guest of honor was the State President of the Rebekah Assembly State of Texas, Sister Evelyn Lovelace of Bedford, Texas. Other notables present were Sister Jessie Ross, of Amarillo, past president of the Rebekah Assembly State of Texas, and Sister Sadie Patterson of Jacksboro, Vice President of Theta Roe Girls. Other guests included representatives from the Lodges at Memphis and Amarillo.

Following the regular meeting, the President, Sister Lovelace, brought a lovely message and also spoke of the Old People's home and Children's home.

Approximately 150 members and guests were present for the reception climaxing the program. Sister Sadie Head is Noble-Grand

and Sister Nova Mears Vice-Grand of the local Lodge.

LOCAL STUDENT ACCEPTED FOR BAND SCHOOL

ABILENE—Jean McAnear, band student from Clarendon, is among the 130 West Texas school bandsters who have been accepted for the fourth annual McMurry College Vacation Band School, July 20 - Aug. 2.

Miss McAnear will study the soprano saxophone during the two weeks' school.

Registration will continue throughout June for the school Raymond T. Bynum, director, has announced. A capacity group of around 225 is expected to enroll.

Students from high school and college bands may enroll and with special recommendation from their instructor, junior high school students are accepted.

Shamrock To Hold Annual Sports Show Saturday, June 28

Residents of the Clarendon area are invited to attend either as participants or spectators, the first Annual Sports Show to be held in Shamrock on Saturday, June 28.

A full day's program of special interest to those who like to fish and hunt, has been arranged by Co-Chairman Bob Douglas and Bob Holmes and several committeemen who have been working on details of the show for the past several weeks.

Whether you would like to participate in one or more of the various sporting events, or merely watch others exhibit their talents as they vie for prizes, you will enjoy the exciting program.

Events will include: trap and skeet shooting, adult outdoor skish casting contest, indoor adult and junior boys skish casting contests.

Special thrills for spectators will be furnished in junior and senior boys rifle marksmanship contests, junior and senior boys archery contest, professional target and trick archery shooting by the Magic City Archery Club, professional demonstrations with casting and spinning rods, along with a show for gun and working dogs.

With the exception of the trap and skeet shooting and the outdoor skish contest, all events will be held in the Community Building. All events will be free.

The Sports Show is being staged under the sponsorship of the Shamrock Chamber of Commerce.

J. Edgar Hoover's first name is John.

Tulia Rodeo Set For July 14-15-16-17

The Sixth Annual Tulia Amateur Rodeo will begin this year on July 14 and run through July 17th at the 7-chute Tulia Rodeo Grounds.

All four performances will begin at 8:30 in the evening with a wide assortment of events and participating cowboys from all over the Tri-State area, Ohio and California.

Events include: calf roping, bull dogging, double mugging, saddle bronc riding, bare back bronc riding and a cowgirl sponsor contest.

Final performance, on the evening of July 17, will climax the Swisher County Old Settlers' Picnic—the 62nd celebration of the birthday of the county. Following the rodeo, a fireworks display will be run off.

Livestock for the rodeo are being furnished by Claud Hays of Weatherford, Okla., who furnished the same livestock for the Polio Benefit Rodeo in Oklahoma City last January.

The Tulia Rodeo is sponsored by the Tulia Rodeo Club. The Club recently added 1,000 seats to the spectators' area.

Guests in the home of Mrs. N. S. Percival thru the weekend were her daughter, Mrs. L. Goodman of Amarillo, also her son and wife, Mr. and Mrs. N. S. Percival, Jr. of Lubbock and her nephew and family, Mr. and Mrs. Bon Percival and family of Amarillo.

Monthly checks, in the form of Federal Old Age and Survivors Insurance payments, amounting to almost \$130,000 are mailed to 4,250 residents in the Amarillo Social Security field office area. This area includes the 26 Panhandle Counties.

More than one-half of the persons receiving payments are retired wage earners and their wives. The remaining checks are to survivors of deceased wage earners.

The marked increase in the number of persons receiving these checks, and in the amount of the payments is largely due to the passage of the 1950 amendments to the Social Security Act. J. R. Sanderson, Manager of the Amarillo Office, points out that legislation increased the amount of the individual checks and lowered the eligibility requirements for entitlement to payments.

Retired workers who are 65 years of age and have worked as much as a year and one-half in employment covered by the Social Security Act should contact the Amarillo Office if they are not already receiving Social Security checks, Sanderson said.

Health Notes

AUSTIN—In the past, medicine and public health have concerned themselves largely with the health and disease problems of youth and middle age said Dr. Geo. W. Cox, State Health Officer. We have neglected our aged population and have waited upon the devastations of time before extending aid to the old.

Our population each year includes an increasing number and percentage of older people. In 1950 in the United States, it is estimated that there are 11,000,000 persons over sixty-five years of age, as compared to 3,000,000 in 1900. In absolute numbers, aged persons among us have almost quadrupled in the last fifty years, whereas the proportion of elderly persons to the remainder of the population has merely doubled.

Dr. Cox stated that preventive medicine, private medical care, and social service have assisted in extending the life span. As encouraging as this fact may be, there is an accompanying tribulation: the aged are subject to the chronic diseases which, because of destroyed tissue structure, are especially weakened. Heart disease, cancer, diabetes, and other long-term illnesses resist the physician's most skillful attack and are notably disabling and lethal.

To insure health and peace of mind to our old people, preventive and curative medicine and social service can contribute techniques of prevention and care. These technics should properly include the early discovery of beginning disease processes thru periodic examinations that begin in early life and continue for one's remaining years. By such means many cases of chronic disease, with all their agony and sure fatality, might either be prevented or, through the substitution of different living regimens, be rendered tolerable.

Mrs. D. S. Cope and Judy of Colorado City and Mrs. S. P. Wells of Memphis, are guests this week in the home of Mr. and Mrs. Clyde Putman.

Mr. and Mrs. L. E. Underdown and Mike visited in the home of Mr. and Mrs. C. E. Underdown and girls Wednesday and Thursday, Lorna Underdown accompanied them home for a visit.

Heart disease, cancer, diabetes, and other long-term illnesses resist the physician's most skillful attack and are notably disabling and lethal.

To insure health and peace of mind to our old people, preventive and curative medicine and social service can contribute techniques of prevention and care. These technics should properly include the early discovery of beginning disease processes thru periodic examinations that begin in early life and continue for one's remaining years. By such means many cases of chronic disease, with all their agony and sure fatality, might either be prevented or, through the substitution of different living regimens, be rendered tolerable.

Mrs. D. S. Cope and Judy of Colorado City and Mrs. S. P. Wells of Memphis, are guests this week in the home of Mr. and Mrs. Clyde Putman.

Mr. and Mrs. L. E. Underdown and Mike visited in the home of Mr. and Mrs. C. E. Underdown and girls Wednesday and Thursday, Lorna Underdown accompanied them home for a visit.

Dr. Cox stated that preventive medicine, private medical care, and social service have assisted in extending the life span. As encouraging as this fact may be, there is an accompanying tribulation: the aged are subject to the chronic diseases which, because of destroyed tissue structure, are especially weakened. Heart disease, cancer, diabetes, and other long-term illnesses resist the physician's most skillful attack and are notably disabling and lethal.

To insure health and peace of mind to our old people, preventive and curative medicine and social service can contribute techniques of prevention and care. These technics should properly include the early discovery of beginning disease processes thru periodic examinations that begin in early life and continue for one's remaining years. By such means many cases of chronic disease, with all their agony and sure fatality, might either be prevented or, through the substitution of different living regimens, be rendered tolerable.

Lucky Lady...

Electric Cooking Keeps Her Kitchen Cool and Clean!

"Someday you'll Cook Electrically. Why not now?"

Electric Cooking is Fast, Safe, Thrifty... It's Matchless!

When summer temperatures soar—electric cooking can help keep your kitchen a cool, clean, pleasant place to work. Controlled electric heat goes directly into the food, not into the room—the oven, insulated on all six sides, cooks the food and not the cook. And there's no soot, smoke or fumes to smudge walls, pots and pans because only an electric range cooks with clean "sealed" heat that leaves no residue of any kind in your kitchen.

"Electric Cooking is the fashion in modern kitchens"

SERVICES HELD FOR FORMER RESIDENT AT DEVINE
 James Levi Mabery, age 78, passed away at his home near Devine, Texas, June 12. Funeral services were held Friday afternoon at the First Baptist Church with Rev. Don Rose, officiating. Burial was in the Evergreen Cemetery.
 Mr. Mabery, better known to his many friends and relatives as Lee, was born near Grandbury in Hood County, Texas, on Nov. 7, 1874. He married Mollie Peoples in 1896.
 He is survived by one son, Jim, who lives at Devine; two brothers, Will of Alvarado and Fred of Wellington; one sister, Mrs. Lillian Munda of Douglas, Ariz.; also two grandchildren and four great grandchildren.
 Mr. Mabery had lived at Devine for the past 14 years, moving there from near Clarendon. He was very active in his farm work until a year ago when he was confined closely to his home.

THE CHRYSLER NEW YORKER 6-PASSENGER SEDAN
 White side-wall tires at extra cost

**WHEN YOU TRY POWER STEERING...
 HERE'S WHERE TO COME FIRST!**

You've heard about it and read about it. Now, if you haven't felt what Power Steering does for you, we invite you to try it first in a Chrysler New Yorker... where you will find full-time (not partial) Power Steering! What happens is this... You handle the steering wheel in normal fashion. But 4/5 of all the work is done for you by hydraulic power, constantly at your command. Also, you turn the wheel 1/3 less distance now for every maneuver... the feeling you get of utter control is as wonderful as it is new.
 Even at a standstill you can turn the wheel easily. Now, parking is shorn of its troubles (and fatigue!)... and you can negotiate traffic, awkward drives, and garage doors precisely and with ease.
 You can double the longest day's drive you've

ever known... end up free from arm and shoulder strain. Rough roads, soft shoulders, snow, mud?... the power that helps you steer now prevents the car's wheels from "steering back" at you. The course you set is held, at any speed, till you want it changed. Yet, with this 5-times greater control, "wheel feel" is always the same.
 Why not come try it? Learn for yourself why growing thousands of motorists say they'll never be without Full-time Power Steering from now on. Drive a Chrysler... and Learn the Difference!

Gabie Betts Burton Library Notes

By May L. Prewitt
 Most of our books are primers and first readers to attract the little people who have completed their first year of school work. Some of these twenty-five little people are above the average in reading level. Others seem lost when they receive an unfamiliar book, but they are eager to read. Our new list is ten readers from the Wilcox Follette Co.
 For the girls we have "The Mystery at Hartwood House", a Vicki Barr series. Also two gift books, "The Bartlets of Box B Ranch" and "No Vacancies."

We offer to the adults, "Forty Odd" by Mary Bard, who wrote "The Dr. Wears Three Faces." Mary Bard is a sister of Betty McDonald and her books are very amusing. Another is "Windom's Way" by James Ramsey Ullman. His most popular novel was "The White Tower," and he also wrote "River of the Sun." This latter novel was an Amazon story, and the new one is the story of an American doctor serving in a remote and tropical part of Asia. "Windom's Way" is listed as a "mature novel" so is likely more modern than his previous editions.
 Our magazines are not too plentiful, but are attractive.
 The Bay Psalm Book, printed in 1639, was the first American book printed.

GRANDFATHER, WHAT A BIG CAR YOU HAD—Appropriately shy, Deborah Collier, left, 3½, and Grace Lyons, 4, pose beside the overturned car which gave them a wild downhill ride in Boston when they accidentally loosened the hand brake. The car, owned by Deborah's grandfather, went over a curb, sideswiped a tree, knocked down a fence and came to a final halt with its rear end high and its front wheels hanging over a 15-foot drop.

MIDSHIPMAN 1/c DONALD BEARD ON ATLANTIC CRUISE

Midshipman 1/c Donald Beard, son of Mrs. J. W. Beard, left recently for a cruise in the Atlantic aboard the U. S. Missouri. Beard a student of the Naval Academy, will visit ports in Norway, Scotland, Ireland, England, and France. In a recent letter home, Donald stated that he certainly would enjoy this cruise since he would not have to scrub deck and do other work of this nature throughout the trip as he had done on previous excursions. Donald is due to graduate from the Naval Academy in June, 1953.

FORMER RESIDENT DIES AT MEMPHIS

Mrs. W. C. Gilliam, a resident of Donley and Hall Counties for 45 years, died Saturday in a Memphis hospital. She came to Donley County in 1907 and had lived in Hall County since 1911. Funeral services were held Monday at Memphis under direction of Murphy-Spicer Funeral Home. Among survivors is a sister, Mrs. W. C. Stewart of Dallas who is also a former Clarendon resident.

George Watson and Kenneth Sloan are spending their vacation in Colorado this week.

FARM NEWS
From the County PMA Committee

BANKS URGED TO QUALIFY FOR MAKING CROP LOANS

County Production and Marketing administration Committees are urging Texas banks and lending institutions to enter into lending agency agreements with the Commodity Credit Corporation for making loans to farmer on crops stored on farms and in approved warehouses.

The policy of using existing institutions in the loan program, according to the State PMA Chairman, is in accord with the CCC charter that "to the maximum extent possible" the corporation shall "utilize the usual and customary channels of trade and commerce." Where local banks and lending institutions do not enter into such agreements, the chairman explains, county PMA committees are authorized to make loans by drafts drawn on CCC and to retain notes and supporting loan documents in county PMA offices.

The main crops grown in Texas for which Commodity Credit Corporation loans are available are wheat, oats, barley, grain sorghums, and cotton.

To be eligible for a loan, the chairman explains, the commodity must be stored in an approved structure on the farm or in an approved warehouse. Loans also are available to enable farmers to construct needed storage space and to buy drying equipment.

WHEAT
The U. S. Department of Agriculture says the 1952 wheat crop is going to be pretty close to a record—and that a lot of it is going to have to go into storage. With a bumper wheat crop in prospect, farmers probably will

have to store some of their grain, says the United States Department of Agriculture. Otherwise, much wheat will go on the market all at once—and that's always bad, pricewise, for any commodity. Any farmer who would like to build storage facilities on his farm can borrow to do so, the USDA says. Go to your county PMA office for complete details.

AGRICULTURAL SHORTS

The Mississippi River washes about 400 million tons of silt down to the Gulf of Mexico every year. But this is low compared with the silt load of the Missouri, the Colorado and the Rio Grande, according to our engineers.

FARM SAFETY WEEK

July 20 - 26 has been proclaimed as "Farm Safety Week" but why wait until that time to have electric wiring checked. Remove fire hazards such as dry grass around the outside of the barn.

USREY FAMILY ENJOYS REUNION

The family of Mr. and Mrs. O. L. Usrey of Lelia Lake gathered for a family reunion Saturday evening in the home of Mr. and Mrs. Roy Crutchfield and girls. All eight of the Usrey children were able to be present for the first time in eight years.

Members of the family had their first group picture made in addition to the enjoyment of visiting and a picnic supper.

Those present included Mr. and Mrs. C. J. Usrey and Norma of Pasadena, Calif.; Mr. and Mrs. Wallis Riffle and children of Abilene, Texas; Mrs. Alfred Shields of Dalhart; Mrs. Ed Yates of Amarillo; D. E. Usrey and sons, Charles and Jesse, of Amarillo; Harold Usrey of Albuquerque, Mr. and Mrs. Robert Bannister and Mickey of Clarendon, Mr. and Mrs. O. L. Usrey of Lelia Lake; and the hosts, Mr. and Mrs. Roy Crutchfield and girls.

FOR A MULTI-VOLT JOLT—Capable of re-enacting Benjamin Franklin's famous kite, key and lightning experiment of two centuries ago, is this generator at General Electric's Pittsfield, Mass., laboratory. A worm's eye view shows the 50-foot-high lightning maker from this unique angle.

CARROLL LEWIS FAMILY BARBECUE

The Carroll Lewis family gathered at the Country Club Saturday evening for a barbecue. All reported a most enjoyable time.

Those present were Mr. and Mrs. Weldon Lovelady and Ronnie, Henry, Cowling, Mr. and Mrs. L. E. McKinny, Mr. and Mrs. Thomas, Mr. and Mrs. Floyd Lewis and Don, all of Amarillo; Mr. and Mrs. Homer Smith of Fort Worth; Mrs. Keeter and George, Earnest Carroll Lewis,

all of Groom; Mr. and Mrs. Rex Reeves and Reggie of Canyon; Miss Annie Reeves of Jericho; Mr. and Mrs. Lon Howard and Richard of Anton; Mrs. E. L. Lewis, Mr. and Mrs. Billy Phillips and girls, Lorna Dee Underdown, Mr. and Mrs. Carl Bennett, Mr. and Mrs. Jack Lewis, and the hosts, Mr. and Mrs. Carroll Lewis, Wayne, Wanda and Noma Lee.

Miss Marie Hill of Hedley is visiting her mother, Mrs. Lee Leek this week.

Clarendon Wallops Hedley 8 to 4

The Clarendon Baseball club, with a determination to win, did just that last Sunday when they poured it on the Hedley team 8 to 4. It was an exciting ball game from start to finish with the locals staying in the lead after the third inning. Each team scored one run each in the first and then Clarendon moved ahead in the third. B. F. Dorman went all the way on the mound and pitched a very good game.

This win, put the Clarendon team in a tie with Hedley for first place. The Hedley team came to Clarendon last Sunday favored to win as they had an undefeated record prior to that time. It looks now like these two teams will have a very good chance of meeting again in the play-offs for the title at the end of the season. Something to look forward to.

The local team has an open date this coming Sunday but will try to match a game if at all possible, so all you baseball fans check with some of the players toward the end of the week as to what their intentions are at that time.

SERVICES HELD MONDAY FOR HEDLEY LADY

Mrs. Florence Shannon, wife of R. O. Shannon of Hedley, passed away in a Memphis hospital last Saturday night. Funeral services were held at the Hedley Methodist Church Monday afternoon with Rev. Story, Rev. Caldwell and Rev. I. E. Biggs officiating.

Mrs. Shannon was a sister-in-law of J. P. Pool of Clarendon and formerly lived in the Goldston community. The Murphy-Spicer Funeral Home of Memphis was in charge of funeral arrangements.

Gillham Jersey Herd Completes Year Of Herd Improvement Registry Testing

The herd of registered Jersey cattle owned by John R. Gillham

of Greenbelt Dairy, Clarendon, Texas, has just completed a year of official Herd Improvement Registry testing.

The herd averaged 8,370 lbs. milk containing 493 lbs. butterfat per cow during the year. The herd had an average number of 25 cows during the test period.

All tests on the herd were made by Texas A&M College and verified by The American Jersey Cattle Club, which has its national headquarters in Columbus, Ohio.

The animals in the Gillham herd had an average butterfat production that is greater than twice the amount produced by the "average" dairy cow in the United States. The Herd Improvement Registry test for production is part of the program designed by The American Jersey Cattle Club to make possible the constant improvement of the Jersey breed.

Lincoln was assassinated during his second term as President.

Sometimes I wonder where our farm organizations have been the last few years; especially while the last state legislature was in session. I have always been a booster for the way our state has run its business and for the state government that made and paid our obligations. But this last session was a "Tooter". It seems that just about everything that was passed was against the farmer and headlong on the trend toward more government and more and more restrictions and less and less common sense. Take for instance your farm truck, even if it was fairly new it might take almost a hundred dollars to make it pass the new so-called safety law, even if you used it only during harvest; crossed practically no highways, and never worked at night. There are entirely too many restrictions on farm trucks and the farm organizations should have been on the beam about it.

Then, after many years of trying to throw out the gasoline exemption for farm used gasoline, they finally in spite made the thing so complicated until many dollars will be lost to the farmers. The little nuisance requirements

are designed more to discourage one from getting his rightful tax refunded than for keeping down cheating on the tax. Each farmer will lose dollars every year, and hours of time complying with the new restrictions and there is nothing about the whole change that will make anyone more honest or more dishonest about tax. Who was it that said: "The least governed are the best governed"? Anyway, this saying needs to be put over every door in every legislature and every hall of congress in the country.

We hear rumors, and they sound pretty reasonable that the automobile companies and the parts companies spent thousands and thousands of dollars lobbying for these laws in the name of safety. For all time past farmers have used the old trucks during the harvest emergency; many of them just to dump wheat in, maybe only hauling one or two loads to town per day or per season. What is to become of the old trucks? Do they want us to throw them away? When we hear that cops are going to line up at the elevators and check all the farm trucks for every little detail, it sort of boils us over. Surely, we haven't already drifted this near to the iron hand of dictatorship.

Anyway, looks like every time I get into politics I spoil a whole sheet of paper on the subject. Maybe, I am somewhat "Teched" on the subject, but when someone told me that they were making the elevators and as the trucks were lined up each one was checked for minor detail. I could picture the combine in the field waiting for the truck. Maybe, its right, maybe its just, but I just couldn't see it that way.

We American Dads are a bunch of chumps to put up with the following. The brewers, under the name of helping the war effort

give trainloads of beer to the military to be passed out to the boys overseas. Its a shame that the government would be a party to this habit forming racket. In some places the water is so awful until even the rotten slop-juice tastes good by comparison. Why will we allow it? And we try to tell people that we are a Christian Nation.

A friend sent in the following: The Parable of The Blower

Behold the blower went forth to blow; and as he "Blowed" some seeds of gossip fell by the wayside and the foul ear picked it up and devoured the good brother whom it concerned.

Some fell to the phony Christian and having not much worth, straight way he sprang up out of his chair of do-nothing and telephoned his neighbor, and when he hung up his neighbor was scorched and his love withered

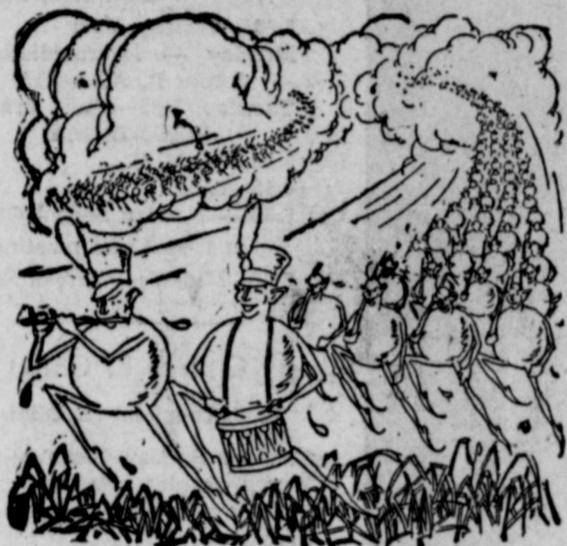

away. And his brother who fell among thorns, not knowing how the tale grew up, was choked and lo he perished. But luckily some fell to the good man and brought forth pity so he "Squashed" it, and he continued to gather blessings an hundred fold, sixty fold, and thirty fold.

He that hath ears to hear, let him hear, but he that hath a tongue let him keep his mouth shut.

Have you tried BUICK'S POWER STEERING?

HIGH-TAILING down a broad straight road, you have that same sure sense of command that has always put such a thrill into piloting a great performer.

You're the boss. Your hands tell you so. It's the feel that so many folks who love to drive have come to know and enjoy.

This year, you also have at your command the highest horsepower in Buick history—and an Airpower carburetor, with two barrels in reserve to deliver an extra spurt when needed.

You have the size, the silence, the

smoothness that make this ROADMASTER so distinguished among fine cars.

Where then, you ask, does Power Steering† come in?

When you want to get into—or out of—a tight spot at the curb, Power Steering takes over the extra effort of turning the wheels, and you can forget the two-ton-plus of automobile you're handling.

When you want to turn around in a narrow space—Power Steering lets you get the last inch of benefit from Buick's short turning radius, because it makes the maneuver so easy.

When one front wheel hits a bump, a

chuckhole, loose sand or dirt at the edge of a road—Power Steering takes up the jerk—makes control of the wheel easier and therefore safer.

Many folks who have tried it tell us that Power Steering has added almost as much to the pleasure of owning a Buick as Dynaflo Drive.

When would you like to try it?

Equipment, accessories, trim and models are subject to change without notice. †Optional at extra cost on Roadmaster only.

*An Aquarium
WORLD*

**YOU IN THE CHURCH
THE CHURCH IN YOU**

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

Williams Newspaper Features
P. O. Box 211, Ft. Worth, Tex.

It's a little world for these fish caged in an aquarium. The oceans and the seven seas may seem prisons enough. But when their home is reduced to a small pittance of the space God made, then that is very different. Of course, they give passing visitors a bit of pleasure. They sport their gleaming fins and put on "big fish shows," but they are imprisoned. They are homeless and ill at ease.

Are you and I like the caged fish? Are we confined to small n-made prisons? Do we serve the Almighty in the great world He made? Or do we live only for what we eat? How many people are affected by what we say or do? Are we examples for better citizenship in this world and the world to which we are going? Have we ever suggested the eternal, the abiding... do we love humanity enough?

We are rich in the relationships of human living but many are blind to the goodness of God. We live day after day without offering one thankful prayer for the bounties He gave. Many of us have chosen an aquarium world to live in. Like the fish, we live for what we eat. God is long-suffering, but He expects us to attend His church and help bring His Kingdom in. Will you be a worker?

To The People of The 18th District

By Cong. Walter Rogers

FACTS ARE MORE REVEALING THAN WILD ACCUSATIONS:

On January 17, 1952, the Comptroller General of the United States furnished a Senate committee a preliminary report concerning certain grain shortages in the warehousing operations of the Grain Branch, Production and Marketing Administration, Department of Agriculture, in Dallas, Texas. This report contained the names of grain firms and elevators that were alleged to be short in their accounts. The news releases that went out over the country contained all of the names in the reports and no effort was made to separate the guilty from the innocent. The result was that a grievous injustice was done to a number of grain dealers. Two of these grain dealers reside in the Panhandle of Texas. The stories concerning these shortages appeared in large print and were announced over the radio. Such publicity placed

a definite black mark of guilt on all of the parties named. At the time this information was released I immediately commenced a personal investigation of the matter. Almost immediately I received advice from two grain dealers in the Panhandle that they had been wrongfully condemned and unfairly publicized. Subsequent developments from my investigation concerning these two firms have revealed the following facts: I have on my desk a copy of a letter written by the Comptroller General of the United States, Mr. Lindsay Warren, concerning these two firms which reads as follows:

"1. Nelson Grain Company, Claude, Texas: The information obtained from the Dallas Commodity Office, Department of Agriculture, as demonstrated in our report, reflected a shortage against the Nelson Grain Company of Claude, Texas of 6,637 bushels of wheat. This information was furnished to us by a communication from the Director of the Dallas CCC Office on December 18, 1951. We have subsequently learned that loading out orders on September 12 and October 25, 1951, resulted in the shipment of 50,004.31 and 76,

170.82 bushels of wheat, respectively, by November 27, 1951, and that the final under-shipment amounted to only 637.46 bushels of wheat, which CCC considers within customary tolerance.

"3. Etter Grain Company, Etter, Texas: The statement received from the Dallas CCC Office on December 18, 1951, reflected also that the Etter Grain Company of Etter, Texas, was 5,857 bushels of wheat short as of September 21, 1951. Subsequently, information was received that as of February 19, 1952, the manager of the Etter Grain Company was authorized to ship one carload of wheat to the credit of CCC to cover the under-shipment of 1,584.67 bushels of wheat short on a previous loading out order. The CCC records now show that the Etter Grain Company shipped 1,591 bushels of wheat on February 22, 1952, which accounted for all the grain due the CCC."

The letter referred to includes other grain companies not in the Panhandle district.

I had sincerely hoped that the papers and radios of this nation would give the same publicity to this information as they gave to the original accusations, but such has not been the case. It is not fair to associate firms that have been operating legitimately with those who have violated the law and then fail to make correction and reveal the true facts concerning the matter. The damage suffered by a business that is unjust-

ly condemned, by association or otherwise, cannot be erased by the mere admission on the part of the accuser that his facts were not exactly correct. America has been built upon truth and factual information. The Amarillo Daily News carried an excellent editorial pointing out the dangers of these blanket accusations that are so many times made for headline hunting purposes. I hope that all of you read that editorial because the present facts in the cases in the Panhandle prove the good common sense that was contained in that editorial. As the editorial so well pointed out, there is plenty of wrongdoing to be corrected in the grain cases and other activities without making wild accusations against innocent business men.

Facts On Texas Dairy Industry

COLLEGE STATION—Dairying is big business in Texas. The value of all milk produced in the state last year amounted to \$200,000,000. Total milk production during the year, says R. E. Burleson, dairy husbandman for the Texas Agricultural Extension Service, reached the 3 billion 800 million pound mark. That, adds the specialist, is a lot of milk but was only enough to supply 65 per cent of that needed by the state's ever-increasing population.

The greatest demand is for fluid milk but great quantities are also used by manufacturers of ice cream, butter, cheese, evaporated and condensed and powdered milk. Burleson says the state ranks fourth in the nation from the standpoint of the total number of dairy cows but 45th in the production per cow. In total pounds of milk produced the state ranks eleventh. Generally speaking the greatest production is east of a line drawn from Wichita Falls to San Antonio to Corpus Christi. The two largest milk sheds from the standpoint of counties involved and production are the Houston and Dallas-Ft. Worth sheds.

The number of cows on Dairy Herd Improvement Association test last year totaled 13,000 head while 3,000 cows were on Official Test. Membership in the artificial breeding associations continues to increase and last year 21,000 cows were artificially bred.

According to Burleson, the major problems faced by Texas dairymen include an adequate feeding program; developing a breeding program; improving dairy herd management and marketing.

Under the feeding program Burleson lists such items as good dairy pastures, high quality hay, good silage and feeding balanced concentrates according to production after adequate forage and pasture program has been provided.

The breeding program should include, according to Burleson, the use of a good sire and when

possible artificial breeding and growing at home the herd replacements. These replacements should be carefully selected from the standpoint of production and breed characteristics.

The improved herd management should include plans for herd testing and the keeping of accurate records on every animal in the herd. He encourages all dairymen to join a DHIA organization.

Under the marketing problems, he lists as number one, the maintenance of a year-round level of production. Then follow such problems as the production of quality milk; using the surplus milk and manufacturing milk to advance the over-all dairy industry and promoting greater use of milk and milk products in the human diet.

Burleson says that June has been designated as Dairy Month and he encourages all dairymen to take time out for an examination of their operations in order that they may do even a better

job of producing a high quality food product. He also encourages Texas dairymen to support their state ADA program.

From where I sit... by Joe Marsh

Whitey Sure "Rang the Bell"

Telephone woke me out of a sound sleep last Friday about eleven-thirty. "This is Whitey Fisher out on River Road," says a voice. "I just wanted to tell you how much I like this week's Clarion."

"Thanks, Whitey," I told him. "But why in blazes call to tell me at this time of night?" "Simple," he says, "your paper boy just delivered it a short while ago. Been waiting for it all evening."

Next day, Buzzy Wilson tells me he delivered Whitey's paper late because he stayed for the school dance and thought it would be OK

to drop it off on his way home. From where I sit, I can't blame Whitey for his joke. He was just reminding me we owe other people the same respect we expect from them. Since I'm always talking about respecting the other fellow's rights—including his right to enjoy a glass of beer if he chooses, it was only fair that Whitey should "wake me up" to his right to get his copy of the Clarion on time. Thanks again, Whitey!

TRIM YOUR COSTS 3 WAYS WITH DODGE TRUCKS

"Dodge is by far the lowest cost to operate!"

"We keep complete individual records of each of our trucks and have found that Dodge is by far the lowest cost to operate. In fact, our Dodge costs us .6 of a cent less per ton-mile to operate than our next closest truck! This difference must be the result of Dodge's many economy features.

"Furthermore, we've found that our Dodge 'Job-Rated' truck will haul a full load of sand or gravel up hills that several of our other trucks won't take. Our next truck will be a Dodge."

JOHN S. SCOFIELD
Scofield & Co., Freeport, Illinois

- ▶ There's a Dodge truck that's "Job-Rated" to fit your job—½ ton through 4 tons.
- ▶ Every model "Job-Rated"—engineered to haul a specific load at low cost, to last longer, to save you money.
- ▶ Load-carrying and load-moving units engineered for proper strength and capacity under severe conditions.
- ▶ Ask us for a Show Down of Truck Value—be your own judge. We have all the facts!
- ▶ Come in today for a demonstration and a good deal.

- 1 Trim operating costs! You'll get the right "Job-Rated" engine with high compression ratio. Such proved Dodge features as four rings per piston, chrome-plated top ring, and wear- and heat-resistant valves save gas and oil!
- 2 Trim upkeep costs! You'll get a "Job-Rated" chassis that's built to stand the gaff on your most rugged jobs! Depend on features such as deep-channel frame and high-capacity springs to minimize repair bills and downtime!
- 3 Trim delivery costs! You'll make more deliveries per day—in less time. That's because it's so easy to wheel a Dodge truck in and out of tight spots—thanks to advantages like short turning diameters and easy steering.

See us today for the best buy in low-cost transportation...

Soil Conservation District News

All farmers in the Donley County District who have some poorly drained areas or low land too wet for normal crops should pay a visit to the D. F. Miller farm about one mile south from Lelia Lake.

Let Miller show you what he has done to an 8 acre area of land with the water table too high even for alfalfa. He took advantage of the long dry spell last summer which dried the surface enough for him to plow the land. Using a District drill, he seeded this area to a mixture of grasses on August 17. This mixture in-

cluded Kentucky 31 Fescue, Crested Wheat grass, western wheat grass, common switchgrass and yellow blossom sweet clover. The Kentucky 31 made an excellent stand after the rain which came the first part of September. Quite a lot of clover came up and there was a scattering stand of the other grasses.

The Kentucky 31, western wheat grass and crested wheat grass, being cool season grasses made good growth during the fall, winter and spring.

With the grass about 12 inches high on April 22, Miller turned in 12 head of 320 pound calves on the 8 acres. After seeing that this number of cattle made very little impression on the grass, he added 5 more head of small calves on May 6th, and again on May 29th, he increased the number of cattle by 6 head of 250 pound calves.

Miller soon found that the 23 head could not keep the grass down. He mowed and baled about 3 acres which yielded 57 bales of hay. An average bale weighed 104 lbs. This figures approximately 1 ton of hay per acre.

The grass that had not been mowed began to make seed and on June 20 Miller combined about 2 acres. He got a hopper full of seed, but will not know the exact yield until after it is dried and re-cleaned. The Kentucky 31 and yellow blossom sweet clover have made by far the best showing and these should form the major part of the mixture for seeding on a similar site.

There are many areas in the District where this grass would probably do well. Forrest Sawyer plans to try Kentucky 31 in a lake which has been drained. Carroll Lewis intends to seed the wet land on the Thompson place west of Lelia Lake to this grass.

Average depth of the ocean is about two and one-half miles.

IT'S THE LAW
in Texas
A public service feature of the State Bar of Texas

TRADE MARK RIGHTS EXPLAINED

From the alarm clock that jolts us awake in the morning to the electric light that we turn off at night, Mr. and Mrs. Average American are constantly surrounded by products which have been purchased by their brand names. The constant use of trade-marked products with satisfactory results, combined with persistent advertising, makes us trade-mark conscious.

What does a trade-mark actually do? It identifies merchandise as being the product of a particular manufacturer or distributor. The use of trade-marks is very ancient. They were used by the brick-makers of ancient Egypt; the lamp-makers of old Athens; and the helmet makers and armorers of medieval England. While a trade-mark is most often a word, it may also be an emblem, symbol, slogan, or other device. The intended function of a trade-mark is to distinguish the goods of the proprietor from the goods of others in the market place. The expression "trade-mark", "brand name", or more simply "brand" or "mark", are synonymous.

A person or company becomes the owner of common law rights in a trade mark through adoption and use of the mark on goods. The law affords protection to the owner by prohibiting others in the field from appropriating the mark or one so similar as to be likely to cause confusion.

There is a twofold purpose behind such legal protection: first, it protects the purchaser from deception and assures him that he is getting what he wants; and second, it protects the trade-mark owner from piracy of the good will, reputation and property rights which he has built up in a mark through manufacture or sale of merchandise carrying the mark.

Trade-marks are frequently among the greatest and most valuable assets of a company, for they symbolize the good will and

reputation of the company. To achieve such a status, however, a trade-mark must be carefully selected. Among other considerations it is, of course, important that a mark be chosen which is not confusingly similar to any other trade-mark used by another on similar goods. It may be necessary to conduct a search of marks already in use in order to determine this question.

When a word or symbol has been selected, it must then be properly used in connection with the goods to become a valid trade mark. Once in use, it should be carefully guarded. It is possible

for a good trade-mark to lose its legal protection due to improper use by its owners or the public.

The Federal and most State governments including Texas, have, by legislation, provided for the registration of trade-marks by their owners. While a trade-mark need not be registered to receive protection in the courts, such registration does afford substantial benefits to trade-mark owners.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who

knows the facts, because the facts may change the application of the law.)

The moon is about four and one-half times the size of the U.S.

I got Conoco's NEW 1-2-3 "50,000 Miles No Wear" Service!

Drive to your nearest Conoco Mileage Merchant and ask for Conoco's great new "50,000 Miles—No Wear" Service—a service that helps your engine stay like new year after year, perform better, use less gasoline and oil!

It's exactly the same service that kept test cars new in Conoco's spectacular "50,000 Miles—No Wear" road test!

In that famous 50,000-mile test, with 1,000-mile drains and proper filter service, test car engines showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000.

Now you can get this same 1-2-3 "50,000 Miles—No Wear" Service, at your Conoco Mileage Merchant's, today!

Here's the Famous "50,000 Miles—No Wear" Service!

1 Your Conoco Mileage Merchant Will Drain Out Grit and Sludge, preferably while engine is hot! "Hot-oil" drains every 1,000 miles flush out grit, dirt, acid and contamination—leave your engine sparkling clean!

2 He'll Recondition Air and Oil Filters! He'll clean filter elements, replace dirty cartridges, record mileage. Every time hood is lifted, he'll check mileage to be sure filters have been serviced at proper intervals.

3 He'll refill with great Conoco Super Motor Oil! Conoco Super is fortified with additives that curb dangerous accumulation of dirt and contamination—protect metal surfaces from corrosive combustion acids—fight rust—OIL-PLATE against wear.

You get **MORE TRUCK FOR THE MONEY** when you buy on the plain hard facts!

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

RUGGED and thrifty, too!

Fact No. 1

Model for model—costs less.

Stack up a Chevrolet truck against any other truck with comparable specifications, capable of handling the same payloads. You'll find the Chevrolet truck lists for less and brings you great features.

Fact No. 2

Mile after mile at rock bottom cost

Truck users everywhere have proved that Chevrolet costs the least of all to own and maintain. Valve-in-Head economy, in the Loadmaster or Thriftmaster engines, saves on gas.

Fact No. 3

Right truck for the job saves money

Chevrolet trucks are factory-matched to your payload requirements. You don't waste money by buying "too much truck"—you don't risk work interruption by buying "too little truck."

Fact No. 4

Lower, slower depreciation

Records show that Chevrolet trucks traditionally bring more at resale than any other make which costs about the same new. The market value of Chevrolet trucks stays up because the value stays in.

(Continuation of standard equipment and trim illustrated is dependent on availability of material.)
