### Local Residents Warned Regarding Killing Dogs

An incident came up here in town last Wednesday which prompted Dr. Ben K. Humphrey, local health officer, to issue a statement regarding the killing of dogs which have bitten someone or possibly suspected of having rabies.

"A dog which has bitten someone should not be killed but penned up and put under observation, for there is no way of learning whether the dog might be rabid or not if it is killed immediately," Dr. Humphrey stated. If the dog should have rabies, it will show up in due time which will be plenty of time to give the person proper treatment. When the dog is killed, there is always doubt and the person bit by the dog is in possible danger for as long as a year. If the anti-rabies treatment is used, it is painful and dangerous and sometimes fatal. If the treatment is not used and the person contracts rabies, it is usually too late, for in most cases it is fatal as there is no treatment for rabies after it strikes.

In the case here last Wednesday, a little girl was bitten. The owner had the dog destroyed. When this was learned, it was too late to send the head in to be analyzed. Even handled in the proper manner, it is hard to tell whether a dog is rabid when the head is sent to Austin, especially if it is in the early stages. The best thing to do is pen the suspected dog and observe it. The dog involved in the question above had been vaccinated but vaccinations are not 100%. The parents of this little girl will live in fear for a year, or if the State Health department advises the use of the rabies treatment, the child will suffer this ordeal. Do not mistake this warning as a rabies scare; it is merely information that each of us should know.

### Time To Plan A Trench Silo Says County Agent

Now is the time to plan on that trench silo for this fall says county agent H. M. Breedlove. Good crops for silage are atlas sargo, cane, corn and other types of sweet sorghum that will produce heavy forage. With the present moisture the county agent is urging that farmers and ranchers plan on a trench silo for this winter. Information on silage as feed and how to dig your trench silo can be obtained by contacting the county agent. Silage in the ground in the silo is the best insurance against drought for feed for cattle.

### New Continental Trailway Buses Shown Here Wed.

A revolutionary new type of coach body suspension which employs air bellows instead of conventional metal springs is one of the highlight features of Continental Trailways' fleet of new buses being placed in service on the company's Pikes Peak Route between Denver and Dallas, Texas not later than June 1st.

The first five of the new luxury coaches stopped here for a brief time Wednesday en route to Dallas where they are to be placed in immediate service.

Several additional radical innovations are featured on the new coaches. Elongated "picture" windows extend along sides of the big 41-passenger coaches for better exterior viewing and each set of seats throughout the coach is provided with individual air-conditioning vents providing thermostat controlled temperature.

The unique body suspension arrangement is described as one of the major engineering developments in the last decade by the automotive industry. Large "doughnut-type" air bellows are located in pairs alongside of each wheel where the metal springs would ordinarily be found.

### Local Welfare Office To Be Closed

Mr. John B. Hessey, Area Supervisor, of State Department of Public Welfare, Pampa, Texas, was at the County Court House last week, discussing with County Officials and the local Welfare Worker the proposed discontinuance of the local Welfare Office. Under this plan, there would be no worker in Clarendon except on approximately four days of the month. Judge Gray has secured a conference with Mr. John H. Winters, Executive Director of the State Department of Public Welfare, on Monday, May 24, 1954, to discuss this matter. Judge Gray, County Commissioners and the Local Welfare Worker plan to attend this meeting. ### GIRL SCOUT TROOP NO. 1 WORKING TOWARD SUMMER CAMP

Girl Scouts of Troop No. 1, under the leadership of Mrs. S. M. Black, are making an effort to raise money to finance a trip to a summer camp. The quilt is entirely hand-made and was donated to the group by a grandmother of Nelda Tims, a member of the Girl Scouts.

### Flag Raising Ceremony Held At High School

A flag raising ceremony was held in front of the high school-college building last Friday morning at which time a new United States Flag and a New Texas Flag were raised. These durable nylon flags and two new 35 foot flag poles were purchased by the Senior Class. The flag poles were erected by Tom Seay and the FFA boys.

Broadus Spivey, president of the senior class, was master of ceremonies. The high school band played the "Star Spangled Banner", "America" and "The Eyes of Texas." Supt. H. W. Truitt, representing the school, thanked the class for the flags and poles and Rev. J. E. Byers gave a talk on the flag and what they stood for. The program ended with a prayer.

The following is quoted from the Clarion:

"We, the Seniors of 1954, hope that each class of the future will try to add some little something to our school or school grounds that will make it a more beautiful institution. We thought that the school would use the new flags for two reasons: First, we had accumulated a little money, and we wanted to put it to a worthwhile cause. Second, every public institution should display the American flag, and because we are Texans we should display the Texas flag. May these waving symbols of freedom always remind the citizens of this neighborhood that we must not only have freedom, we must display it also."

Drive by and see these new flags waving in front of the school. They certainly add that something that has been lacking on the college hill for some time.

#### Kill Bagworms Now Before They Hatch

A cone-shaped bag hanging from your plants is the cue to destroy the bagworm now before they ruin your plants.

Bagworms are usually found on arbovitae and cedar-like plants, but some species munch on althea, elms, roses, and oaks.

At this time, a spray or dusting will kill the bagworms. Later when they are grown, the pests must be removed by hand and burned.

Two sprayings of 10 percent chlordane, applied a week apart, will kill the bagworms, says H. M. Breedlove, county agent. Another effective killer is a spray of 3 tablespoons of lead arsenate to one gallon of water. Toxaphene may also be applied as a spray. Dusting of 10 percent chlordane or 10 percent toxaphene are good.

### C of C Has No Connection With Road Work Wage Scale

Statements have been made at various times since road construction started here that the local Chamber of Commerce had recommended the wage rate being paid to some unskilled laborers. Lonnie Walker, president of the local Chamber stated that the Chamber of Commerce had had nothing to do with the wage rate and could do nothing in that regard even if they wanted to. The wage scale for construction work is set up by the government. The minimum wage rate is 75c per hour for unskilled labor. A Highway engineer was contacted regarding the wage rate being paid here and he reported that the contractors wage records were checked by the engineers on the job each week.

Measures Developed To Speed Up F. H. A. Services To Farmers

Measures to speed up and further improve Farmers Home Administration services to farmers have recently been developed in Washington under the direction of Secretary Benson, T. T. Perkins, State Director at Dallas, said today.

Mr. Perkins had just returned from a meeting at Oklahoma City where the new steps to decentralize and streamline agency operations were explained by Washington officials.

L. A. Machesohl, Jr., W. M. Burkes, and the State Field Representatives also attended the meeting.

In accordance with Secretary Benson's policy of placing more control of agricultural programs in local hands, many of the decisions formerly made in state offices will now be made in the counties.

County Supervisors, the employees who deal directly with the farmers, will have final approval on a larger number of loans and will have more authority in working with other creditors and in taking steps to help borrowers solve their financial and farming problems.

Greater use will be made of state and county committees. New state committees, to be appointed in the near future, will be called upon frequently to review agency operations and make sure they are efficiently serving local

needs. County committees will be relied upon to an even greater extent than in the past to help adapt national policies to local needs.

Services of other public and private organizations will be used to the maximum extent possible. County home demonstration agents will help Farmers Home Administration borrowers with their family living problems. Every possible step will be taken to make sure that no government funds are advanced when private or cooperative credit is available to meet the needs. Lenders will be urged to supply funds for insured farm ownership loans.

State Directors and their staffs are being urged to increase their efficiency by eliminating every unnecessary step and doing a perfect job the first time.

Measures already taken by the agency to render better service at less cost include the reorganization of the national, area finance, and state offices which resulted in a savings of more than \$1,500,000. A duplicate set of files on 60,000 real estate loans has been eliminated as well as all of the work formerly performed by state offices in reporting borrowers' progress.

A number of additional improvements were discussed at the meetings that will place more authority in the hands of county supervisors, make the programs easier to operate, and enable the agency to serve more farmers than in the past. Most of these revisions are already in the hands of field employees and will soon be in full effect.

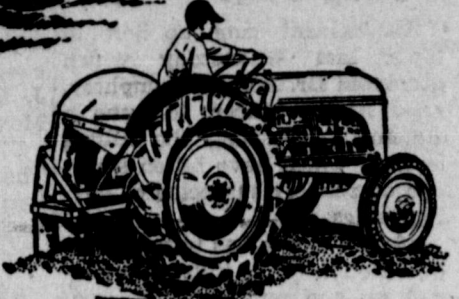

To expedite real estate loan making the engineering and appraisal services of the agency will be placed in county offices, closer to the farmers to be served. Engineer-appraisers were formerly stationed in state offices. Practically all property insur-

The agency's emergency loan program was stressed at the meetings. State Directors and their staffs were told to move into an area whenever a drought or a flood strikes and when the crisis has passed to move out

again as quickly as possible.

None of the basic policies under which the agency operates are being changed. The same amount of emphasis is placed on helping farmers obtain adequate land and equipment resources, develop good systems of farming, and adopt proper farm and home management practices.

### Mosleys Observe Golden Wedding Anniversary

Mr. and Mrs. M. W. Mosley celebrated their golden wedding anniversary on Sunday, May 2, with an open house for their friends from 2 to 6 P. M. Their children, Mrs. Ruby Bromley of Clarendon and Winfield Mosley of Hedley, assisted in entertaining. Their other son, Raymond of Amarillo, was unable to attend because of illness.

The guests were greeted at the door by Mr. and Mrs. Winfield Mosley and son Rusty. Mr. and Mrs. Bill Bromley mingled with the guests and visited with the many old friends of the family.

In the receiving line were Mr. and Mrs. M. W. Mosley and the latter's sisters, Mrs. Cora Luttrell and Mrs. T. B. Morgan and her husband from Amarillo.

Mrs. Vestal Mosley and Mrs. Kathryn Rose of Pampa presided at the registrar. The guests were directed to the registrar by Mrs. C. R. Hunsucker from 2 to 4, and by Mrs. J. B. Masterson from 4 to 6.

Mrs. Bill Scales led the guests to the gifts from 2 to 4, and Mrs. Herlie Moreman from 4 to 6. The gifts were in charge of Miss Ellen Faye Land, assisted by Don Wilson of Pampa.

The guests were then shown to the table by Barbara Mosley of Amarillo from 2 to 4, and by Mrs. Alva Simmons from 4 to 6. Mrs. F. L. Hill was in charge of the

plates. The punch and cake were served by nieces and granddaughters. They included Mrs. Louise Timms of Amarillo and Jane Mosley from 2 to 3:30; Mrs. Margie Nollay of Amarillo and Mrs. Betty Garrett of Pampa from 3:30 to 4:30; Mrs. Mary Ann Riley and Barbara Mosley of Amarillo from 4:30 to 6.

Miss Marjorie Harlan of Harlan's Flowers at Clarendon decorated the serving table. The table was laid with a medallion work cloth imported from Hong Kong, China, over a gold underlay, and bore a centerpiece of yellow roses with a standing heart decorated with bells, and flanked by double gold candle holders. The cake was a single tier of white decorated with gold, and carried a double horseshoe bearing a card reading "50 years."

The buffet bore a bouquet of yellow gladiolas, and the entire home was beautifully decorated with yellow roses, red roses, pink peonies, and many other flowers sent by friends.

About 350 guests called during the evening.

M. W. (Milt) Mosley was born in Arkansas, the son of Mr. and Mrs. Richard Mosley. He moved to North Carolina with his parents when very young. His mother was left a widow when he was 9 years old and he had to help support the family of four. He walked 2 to 3 miles to work for 50c per day. At the age of 16 he came to Enloe, Texas and six months later sent for his mother, sister and brother. In 1904 he met Allie Craddock and said it was love at first sight. He laughs and says "I kept dates 2 or 3 Sundays ahead, so no other buckle had a chance, but she broke with me 2 or 3 times. The last time we made up we married soon and

spent the 50 years together with lots of happiness as well as some sadness and sorrows."

Allie Craddock was born in Missouri, the daughter of Mr. and Mrs. John T. Craddock. She came to Roxton, Texas with her parents at the age of 6 and lived there several years, then her father sold his farm and bought land at Enloe, Delta County, Texas.

They are the parents of five children, two deceased. Their oldest child, Vestal of Pampa, passed away in June, 1941. Their youngest child, Allie Opal, passed away in 1914. Their living children are Mrs. Ruby Bromley of Clarendon, Winfield Mosley of Hedley and Raymond Mosley of Amarillo. They have ten grandchildren and six great-grandchildren, all of whom were present for the golden wedding except three grandsons.

Mr. and Mrs. Mosley moved to Midland in 1906, and in November 1907 came to Hedley. He had made 2 or 3 trips back to Enloe in 1907, and when the emigrant car was unloaded and he found a house in Hedley, his wife laid the law down, "no more running around."

Milt is a farmer. He always farmed on a big scale, raising cotton, cattle, hogs, and among the finest mules and horses. He always had fine stock to farm with and a fine team they drove to the surrey. But when the auto came along his wife says he doesn't care what kind of car they ride in as long as it stays in good running condition.

In 1927 it was very dry and Milt and sons decided to put in a grocery and market, and made good. Then he decided to run for Sheriff & Tax Collector and won over four others without a run-off. After six years in office in

Clarendon he decided to return to the stock farm, where they remained until Mrs. Mosley's health failed and their doctor recommended a lower climate. They sold their stock and leased the farm and spent six months at Fort Worth, then came back to good old Hedley and bought a home and 15 acres adjoining town. They kept the farm leased and Milt began truck farming.

The latch string of hospitality is always out on the Mosley door. They have always been ready to lend a helping hand to anyone in sickness or need, and have raised several nieces and nephews as well as a number of others who were not relations. They have always been active in city and county affairs. They are both members of the First Baptist Church, and Mrs. Mosley taught the young people's class while her health permitted. She has held many offices in the church, and has been president of the Hedley P.T.A. Her hobby is raising flowers.

Milt is a member of the Hedley Lions Club and of the Clarendon I.O.O.F. Lodge. His principal hobbies now are fishing, playing dominoes and talking politics.

## Why fine car buyers are swinging to Ford

Worth more when you buy it...  
Worth more when you sell it!

A small price tag buys them one of America's truly fine cars. And here's how:

In the new '54 Ford, you get the same modern type of overhead-valve engine... the same road-hugging ride... the careful interior decorating... the same quality construction... and the same optional\* power assists you'd expect to find in cars costing hundreds of dollars more. So why pay more? This is the question smart car buyers are asking themselves. And that is why you'll often find two Fords proudly parked in driveways where there used to be but one costly car.

#### Take power:

Only Ford, among all low-priced cars, offers you a Y-block V-8 engine. Only Ford, in its field, offers an I-block Six. And both of these new deep-block engines are the most modern in the industry... with overhead valves, low-friction design, high-turbulence combustion chambers, and deep-block construction.

#### Take ride:

Ford's new Ball-Joint Front Suspension is the greatest advance in chassis design in 20 years. Your Ford not only steers easier, but will keep that "new car feel" far longer. And so many points of wear have been eliminated you have only 4 lubrication points in the entire front suspension system.

#### Take power assists\*:

Fordomatic Drive is the only "automatic" in its field to combine the smoothness of a fluid torque converter and the "Go" of an automatic intermediate gear. And you can have Ford Master-Guide Power Steering, Swift Sure Power Brakes, power lifts on all four side windows and a 4-Way Power Seat.

Take a Test Drive...

and you'll want to drive it home!

The annual spring reception and tea for members of Pathfinder and their guests was held at Patching Club House Friday afternoon, May 14, from 3 p. m. to 5 p. m.

The entertaining rooms were artistically decorated with flowers made by Mrs. Clyde Hudson. These flowers were artificial Forsythia trees in full bloom and were placed in individual urns. The small, yellow blossoms had the appearance of actual blooms and were lovely.

Murphy was at the door through the second hour. Mrs. J. T. Patman and Mrs. Ella C. McDowell alternated at the registrar.

Mrs. Simmons Powell and Miss Mantie Graves played appropriate piano selections providing a soft musical background for the afternoon. A short program was presented by Mrs. T. M. Caldwell, Jr. and Mrs. Frank Phelan, Jr. Mrs. Caldwell accompanied at the piano by Mrs. Powell sang the beloved "Bless This House" and "I Believe." Mrs. Frank Phelan, Jr. accompanied by Miss Graves sang the equally popular "Sylvia" and "Trees."

Refreshments were served from a table which was beautifully laid. The white cloth was made of squares of embroidered linen alternating with squares of lace. The centerpiece of pink and fuchsia tinted peonies in a crystal urn was flanked on either side by fuchsia candles in crystal candelabra. The individual white cakes were decorated in the same shade as that of the floral arrangement with the foaming punch in a like shade. Napkins in corresponding shades of pink

and fushia, nuts and the crystal service, completed the table setting. Mrs. Wm. S. Greene and Mrs. Charlie Seeds presided at the table for the first hour with Mrs. L. N. Cox and Mrs. C. T. McMurtry serving the second hour.

## THESPIANS ORGANIZE

Wednesday evening, May 12, the Speech Department of Clarendon High School held a formal initiation of members and installation of officers for the Thespians, a newly organized unit of the National Thespian organization. Officers installed were: Bill Dale Hill, president; Glenn Wallace, vice-president; Allen Homer Estlack, secretary; Frank White, treasurer; and Pat Knox, scribe.

The installation table was beautifully decorated with a floral arrangement of yellow carnations and tulips, flanked by candelabra. As each officer was installed, he lighted a candle and took his place at the table.

The lighting of the candles signifies seven phases of the arts—Speech; Dance and Pantomime; Music; Knowledge of the Written Alphabet; Birth of Dramatic Literature; Birth of Acting; and the Theatre. A short history of all these phases was given with the explanation that the society derives its name from Thespia, a Greek poet of tragedy.

After the installation, each member of the club told of his work in Speech during the past year and gave a skit from some play in which he had taken part.

Mr. Fred Short, head of the Speech Department, presented each one with a certificate of membership in the Thespians. In addition to these certificates, he awarded blue and gold letters to Claude Porter, Bill Dale Hill, Frank White, and Bobby Johnson for outstanding work in "The Minor Miracle," which won third place at White Deer in the District Interscholastic League contest.

Fourteen members were initiated. In addition to those mentioned above they are: Billy Percival, George Thompson, Jeanie Pittman, Perry Jordan, Mary Lynn Briggs, Nancy Ivey, and Lloyd Risley. Bobby Johnson who was unable to be present because of illness, received his awards in absentia.

After the beautiful installation and initiation ceremony, guests and participants assembled in the College Lounge for a social period. Hostesses, Mrs. Frank White, Jr., and Mrs. Dale Hill served hot cider and cookies.

All who attended this affair went away feeling very enthusiastic about the future of our Speech Department. Mr. Short is to be commended for his work with the Speech students and for his organization of a local unit of the Thespians. He has a very special interest in the Thespians as he is a personal friend of its Founder, Mr. Earl Blank, a teacher in Northeast State College at Tahlequah, Oklahoma.

## Do You Need Proof of Age or Citizenship?

More than 5500 residents of Texas turned to the U. S. Bureau of the Census for assistance in establishing proof of age or citizenship during 1953, according to Supervisor Francis H. Wilmer of the Bureau's district office at Dallas, Texas.

Transcripts of personal census records are acceptable, in most instances, as substitutes for birth certificates or other legal evidence in establishing proof of age or citizenship. Such proof is of vital importance in qualifying for Social Security benefits, in settling estates and insurance cases, in determining eligibility for employment in defense industries, and for other purposes where it is necessary to furnish evidence of identity, age or citizenship.

Transcripts of personal census records can be obtained from the Census Bureau upon payment of the cost of searching the records. Federal funds are not appropriated for this service and the fees charged are used to pay the salaries of the searchers and to cover the cost of the necessary office supplies.

A fee of \$3.00 is charged for searches of two censuses for one individual, given routine handling. Expedited handling can be obtained for a fee of \$4.00. Routine handling generally requires from four to six weeks to complete while expedited handling is usually completed in one or two weeks. Supervisor Wilmer pointed out that personal information recorded by the Census Bureau is entirely confidential and may be furnished only upon written request of the individual to whom it relates or his legal representatives.

Persons desiring transcripts of

their personal Census records may obtain application blanks and information from the Census Bureau's district office at 1114 Commerce St., Room 125, Dallas, Texas, Telephone ST 5611, Ext 2109 or by writing to the Bureau of the Census, Washington 25, D. C.

### TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

#### THE AGRICULTURE COMMODITY SURPLUS PROBLEM

May 7, 1954

The House Committee on Agriculture is presently hearing testimony on ways and means to dispose of our surpluses. Much has been printed and spoken in the last few years bemoaning government-owned agricultural surpluses and creating in some quarters the feeling that food surpluses were somewhat akin to a grasshopper plague or a death-dealing epidemic. Nothing could be further from the truth. The primary physical requirements of man are food and fiber. That Mother Earth has seen fit to bless us with what appears to be more than our immediate needs should be the subject of thanksgiving, rather than weeping and wailing. None of these commodity backlogs are of sufficient proportions to fill the gap that could be caused by a general crop failure in a particular commodity. A crop

failure (and I hope we never have another one) is not necessary to prove this statement. We have but to turn back the pages of history a few years and we find ourselves using ration coupons in order to insure a fair distribution of most of these commodities. The problem today is not over-production; it is actually under-distribution. I venture to say that there are enough hungry stomachs in America today to easily consume this so-called surplus in the matter of a few short months. Unless we do something about the distribution situation, we can expect the situation to get worse, simply because our population increases daily. Let us say we are certainly making progress in one field, and that is in the population increase.

In March of 1953 I wrote a newsletter in which I pointed out that on March 18, 1953, at 1:55 P. M., our population was 158,940,556 individuals, and that this was being increased by one individual every thirteen seconds. Just the other day I was in the Department of Commerce Building and made another tabulation of the population. The reading at 9:55 A. M., May 7, 1954, was 162,013,867 individuals, an increase of approximately three

million in just about one year. The present figures show that there is a birth every 8 seconds, a death every 21 seconds, an immigrant every 2 minutes, an emigrant every 24 minutes, all totaling up to a net gain of one additional person in this country every 12 seconds. It is interesting to note that the increase is increasing. In March of last year the net gain was one individual every 13 seconds. All of this adds up to the fact that each year creates the need for 30 more Amarillos, 120 more Pampas, or almost 4 more Houstons. At this rate, we won't have a surplus problem long. It will soon be a shortage problem.

Speaking of surpluses, did you know that, under present regulations, some of the surplus commodities can be used for cattle and livestock relief, but not for human relief. I have reference to corn and wheat. In other words, you can use the corn and wheat to relieve the starvation of the livestock, but not to relieve the starvation of the human being. What queer mortals men are.

#### THE INVESTIGATIONS

No one seems to want to take the blame for starting the televised investigation now in its third week in the Upper Chamber, although everyone seems to think that they should either get along with the business or stop the hearings. Those in charge remind you somewhat of the little boy who had just witnessed an earthquake. He looked up at a bystander and said, "It wasn't me, Mister, it scared me." By the

time you get this letter, this hearing will either be away above the boiling point or will have cooled off considerably. It is high time that the business at hand was attended to with proper dispatch so that much needed attention can be paid to the many serious questions that are facing this nation today.

**ONE BASIC ISSUE:**

More and more it becomes glaringly apparent that the age in which we live poses one basic question, and one only.

That question is whether free, representative government—the kind of government we have in the United States—can survive.

Every other issue, whatever its nature, is secondary.

The manner in which this issue is settled will determine whether our young men must go again to war—whether our children will have a future of freedom or a future of slavery—whether we, as a Nation, are in the twilight of our destiny or at the threshold of a better tomorrow.

**NO MEETING PLACE:**

There is no common ground for a meeting of minds between the adherents of communism and those who believe in the American system of freedom in government, freedom of enterprise, and

individual freedom.

Communism stands for slavery. Americanism stands for liberty. Communists believe in an all-powerful state. Americans believe in the importance of the individual.

On all counts, the conflict between communism and Americanism is fundamental in nature. Recognition of that fact is, it seems to me, the beginning of wisdom in dealing with the menace of communism.

**A STRONG AMERICA:**

The American policy toward communism should be—must be—based firmly upon our strengths, not waveringly upon our weaknesses.

Our strengths are many. They include an industrial capacity that is the envy of the world. They include a people who are bold, vigorous, and skilled in modern technology. They include a civilization which has the potential ability to lead the world to peace and freedom.

**AN IDEA, AN IDEAL:**

These are indeed great points of strength. There is one other still greater.

That is the idea of liberty. The idea of liberty—the ideal of freedom—has a powerful appeal to the hearts of mankind. Surely, as a people we can make that appeal more compelling to

all the world than the false promises of communism. I have faith that we can.

**EVER VIGILANT:**

We must never cease to be alert to the threat of the communist ideology to all that we have come to consider typically American.

We must steadfastly refuse to coddle communists at home. We must strongly oppose the courting of communists abroad.

We must guard and protect the secrets of our atomic weapons in order that they may serve as a deterrent to aggression.

**POWER OF PEACE:**

Theme of the observance of Armed Forces Day on Saturday, May 15, will be "The Power of Peace."

The world's hope for peace lies in the power of our armed forces and the strength of our trust in Divine Guidance. We must neglect neither.

**PRAYER:**

Every day's session of the Senate is opened with a prayer. Only rarely is this prayer offered by a layman. But when Fred M. Lange of Dallas, distinguished welfare worker, vice president and executive director of the Dallas Community Chest, was in Washington recently, he was invited to offer the opening prayer.

This is the text of Mr. Lange's moving prayer:

"O God, our Father, in these times of stress, when many minds are perplexed and many hearts are faint, we turn, in simple trust, to Thee, our strength and our Redeemer.

"We ask Thee for wisdom, that we may seek Thy will; for courage, that we may do it; and for faith, that we may walk with calm assurance.

"Guide the thoughts and purposes of these chosen leaders of

our people, O Lord, that they may, above all else, say and do what is pleasing in Thy sight. And help us all to be true to our American heritage and faithful servants of the living God.

"In the name of Christ, our Saviour. Amen."

**WIND EROSION:**

The Senate passed an amendment to H. R. 8541, supplemental appropriation bill, providing \$15,000,000 to make payments to farmers who carry out emergency wind control measures under the 1954 agricultural conservation program.

I spoke in the Senate in favor of the amendment and voted for it.

**Employers making social security tax returns occasionally report wages for an employee without giving his social security number, or show an incorrect number. In every such case, the employer receives a letter of inquiry as to the correct number, from the central accounting center in Baltimore, Maryland.**

J. R. Sanderson, Manager of the Amarillo Social Security Office, urges that a prompt reply be made to such inquiries. A reply is desired even if the substance of the reply is simply a statement as to why it is impossible to furnish the desired information, Sanderson says. Failure to reply to the inquiry at all, or an incomplete reply, makes it necessary for the local office to contact the employer in person. This is time consuming and expensive for the employer as well as the Government.

Actually, the number of such requests would be reduced to an absolute minimum if the employer would insist, in every case, on copying the new employee's name and number directly from his social security card. This practice would almost guarantee that the employee would receive credit for wages earned and, also, would reduce to a minimum the number of inquiries and personal contacts with the employer for correcting information.

**March Retail Sales in Texas 8 Per Cent Below 1953**

AUSTIN—March retail sales in Texas were 11 per cent more than in February but 8 per cent below March, 1953, the University of Texas Bureau of Business Research reports.

All 12 U. S. Department of Agriculture crop-reporting districts in Texas bettered February sales by 3 to 19 per cent.

Downward trends are in prospect for taxes, prices, earnings and installment obligations and far incomes are stabilizing everywhere except drought areas, Bureau researchers declare. Possibilities for a slow and easy resumption of more favorable business appear promising, they say.

Cities reporting March retail sales increases from February

totals include Goldthwaite and Lampasas, each 16 per cent. Goldthwaite retail sales topped March, 1953, by 9 per cent. Lampasas registered a 4-per-cent gain in the same comparison. Leading cities in detail sales for the first quarter of 1954 included Jasper, up 10 per cent over last year.

What's a **HILL** to POWER like this?

You've climbed hills before, we know.

You've come to many a long rise in the road ahead and tramped down on the gas pedal to make the grade.

But did you ever head a ROADMASTER up a hill—a 1954 ROADMASTER?

You seem to sail when you touch off the great V8 power that gives life to this finest of Buicks.

You move ahead and up that long steep

pull in a silken, smooth sweep of almost effortless ease—and the thrill your spirits get from such magnificent ability is a precious thing.

And you realize, of course, that a wealth of advanced high-compression V8 power—(the highest horsepower in all Buick history, in fact)—is the heart of this stirring performance.

But you also realize soon enough that your tremendous satisfaction at the wheel of a ROADMASTER comes from more than great power alone.

It comes from the instant response and absolute smoothness of Twin-Turbine Dynaflow.

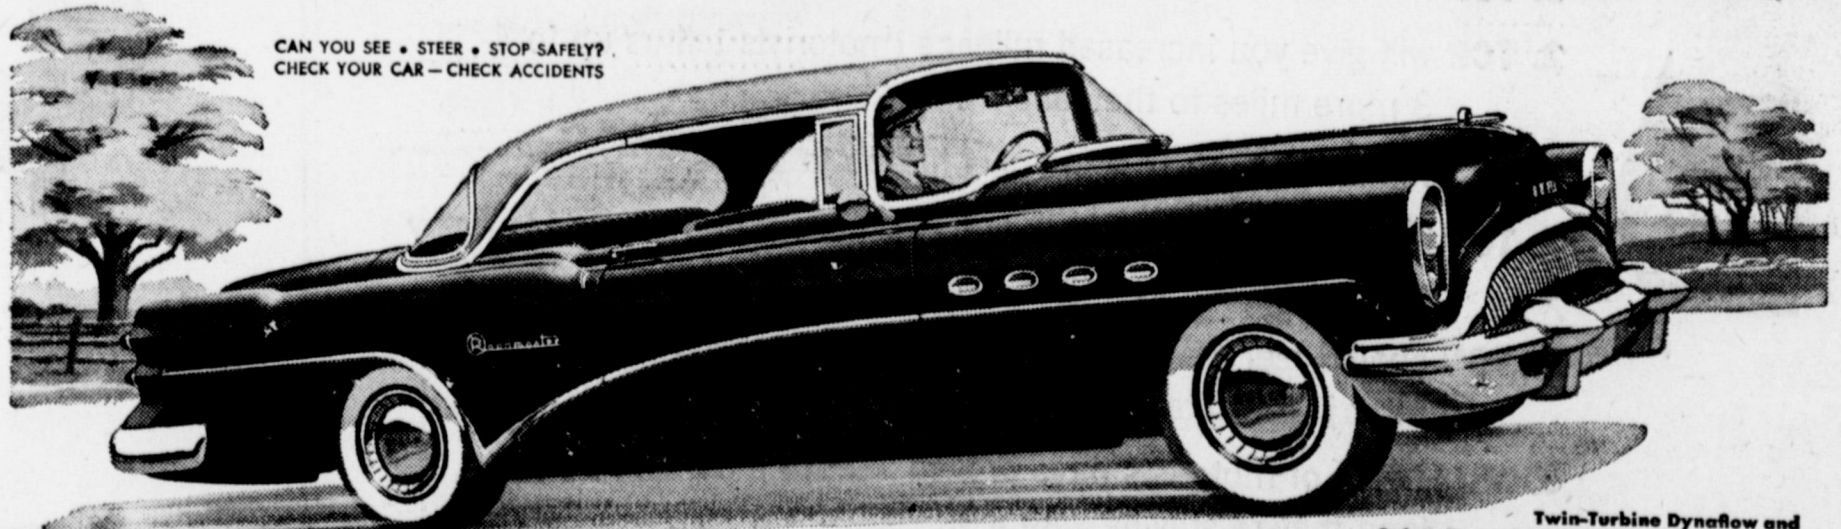

It comes from the velvety luxury of your all-coil-spring ride. It comes from the

superb ease of Safety Power Steering. It comes from the comforting feel of ample roadweight—brought to feather-light handling precision by a new geometry in front-end engineering.

And very definitely, it comes from the eye-catching beauty in which you travel—the look-of-tomorrow styling that graces ROADMASTER today—and with the spectacular new panoramic windshield that is fast becoming the mark of true automobile modernity.

We'll be delighted to seat you at the wheel of a new ROADMASTER—so that you can drive it, try it, feel it.

AUSTIN — Governor Allan Shivers thinks that his opponent, Ralph W. Yarborough, "may be" receiving some financial help from George Parr, the South Texas politico.

It was quite a coincidence, Shivers said, that Yarborough and Parr announced their can-

didacies on the same day. Parr is running for district judge.

Shivers said he supposes Yarborough will make "the same sort of campaign of personal vilification and name-calling he made two years ago."

After making these remarks to reporters, the governor left with Mrs. Shivers for a vacation in Alabama. Later he will go to

Korea with several other governors, returning to Texas June 1. Thereafter, he said, "there will be a long time for campaigning."

**Yarborough's Reply**

To Shivers' remarks about him, Yarborough retorted that "my opponent realizes that the political ground is slipping out from under him and is wildly slinging mud in all directions. Anybody who can manufacture that much mud in one sitting ought to go to work and do something about the drought."

Shivers and Yarborough shaped up as the leading contenders in the race for governor. Other candidates who paid their \$600 filing fee were J. J. Holmes, Austin general contractor, and Arlon Barton "Cyclone" Davis of Dallas, frequently a candidate for state office.

**Young Demos**

Young Democrats of Texas squared away into two factions, ready for the coming summer's political battles.

One side, friendly to Shivers, promised a precinct-by-precinct fight for control of the party machinery. The other faction held a meeting at San Antonio, where Yarborough was a principal speaker.

**Other Races**

A number of state office holders were unopposed for reelection.

These included Land Com-

missioner Bascom Giles, Railroad Commissioner Ernest O. Thompson, Congressman-at-large Martin Dies, Comptroller Robert S. Calvert, Treasurer Jesse James and Supreme Court Justices J. E. Hickman and Clyde E. Smith, and Agriculture Commissioner John C. White.

Attorney General John Ben Shepperd drew a late-filing opponent in the person of Doug Crouch, a state representative from Denton who recently moved to Fort Worth.

Opposing Judge Few Brewster for a place on the state supreme court are Alfred M. Scott of Austin and Robert B. Keenan of Gladewater.

A three-man field set out in the race for lieutenant governor, with Ben Ramsey seeking re-election and having as his opponents Geo. T. Hinson of Mineola and C. T. Johnson of Austin.

Harry N. Graves of Georgetown retired from his place on the court of criminal appeals, and the position is being sought by Alan B. Haley of Wichita Falls, Lloyd W. Davidson of Austin, W. C. Graves of Dallas and Sam W. Davis of Houston.

Running against U. S. Senator Lyndon B. Johnson is State Representative Dudley T. Dougherty, wealthy Beeville rancher and oil man.

**Republicans File**

All those candidates listed above will seek nomination at the Democratic primaries. The Republicans will have a primary election, too, for the third time in Texas history. Here are the G. O. P. candidates:

For U. S. Senator: Carlos G. Watson of Brownsville and Willard T. Holland of Houston.

For governor: Todd R. Adams of Crockett.

For commissioner of agriculture: Harold W. Linderman of Houston.

For congressman-at-large: Thomas H. Nolan of San Antonio.

More candidates may be permitted to file up to June 7, said Alvin Lane, state Republican

chairman.

**Two Million Voters**

It is possible that more than two million votes may be cast in this year's elections.

Anyway, there are that many persons eligible to vote in Texas.

Comptroller Robert S. Calvert announced that poll taxes paid add up to 1,640,101. More than half a million others may vote by getting exemptions.

In the presidential race between Eisenhower and Stevenson, Texans cast 2,075,946 votes.

By May L. Prewitt

Our Library patrons have been quite considerate this week, so we have acquired a slight bank balance. Some gave change, and several paid 25c memberships. Some memorial books have been ordered and paid for. These will be discussed when the books arrive. Books are used for Library gifts in memory of loved ones' birthdays that have passed on, in quite a few Libraries now, and as a remembrance for absent Mothers and Fathers on their special days.

Our popular writers are not giving us any new books at this season, therefore we have few books of very recent dating.

The book sent by Jimmy Lumpkin and his little girl, Patti, in memory of Mother's Day for

Mrs. T. B. Lumpkin, is "Picture Story Life of Christ" adapted from Egermuier's Bible Story Book. It is an elegant edition that will be an asset to our Bible shelf. Our religious books are all well

chosen, and therefore, spiritually wholesome.

**Dr. Robt. Goodrich Is Protestant Hour Speaker On Sundays**

Dr. Robert E. Goodrich, Jr., Pastor, First Methodist Church, Dallas, Texas will return to the Methodist Series of the Protestant Hour on May 16. He will be the speaker for the first six Sundays of this public service worship program broadcast on more

than 200 radio stations, and now in its ninth annual presentation.

Featured with Dr. Goodrich will be choirs from six Methodist Colleges and Universities of the great Southwest. The choirs will be Centenary College Choir, Shreveport, Louisiana, May 16; Hendrix College Choir, Conway, Arkansas, May 23; Baker University Choir, Baldwin, Kansas, May 30; Southwestern University Choir, Georgetown, Texas, June 6; Central College Choir, Fayette, Missouri, June 13; and Oklahoma City University Choir, Oklahoma City, Oklahoma, June 20.

Dr. Goodrich has chosen for his subjects for these six Sunday radio programs "Why He Doesn't Go to Church," "Free Your Faith," "Five Steps to Prayer," "On the Other Side of Sorrow," "A God Who Cares," and "What's the Use?"

As a result of experience in professional radio work and experiences as a successful city pastor, Dr. Goodrich brings to his radio ministry a unique approach that is problem solving and soul searching.

Since 1950 he has been featured on a weekly dramatic television program in Dallas. During the past year, this program known as "The Pastor Calls," has been presented on TV stations from coast

to coast as a featured presentation of the National Council of Churches of Christ in the U.S.A. and The Methodist Radio and Film Commission.

Dr. Goodrich and the college choirs may be heard on the Methodist Series of the Protestant Hour on radio station KGNC—11:00 A. M. and WBAP—9:30 A. M.

Someone has said; I'm all for higher taxes, I think they would be fine; Provided that they begin In the bracket above mine.

We hear a lot about folks wanting "That School Girl Complexion," there is also a lot of us men who would like "That School Boy Digestion" again.

Please send us your favorite old time saying. This was the first one we received: "As sober as a county judge." Send in your favorite real soon and we will use some of them from time to time. Let us know whether we can use your name as the contributor or not.

This week we had a very fine letter from our real good friend and very faithful reader, and we don't hardly think she would mind if we would almost claim her by calling her Mom. Anyway, it is always good to hear from Mrs. R. E. Boone, 2579 Berwyn Road, way up in Columbus 12, Ohio. This time we were sorry to learn that she had not been feeling too well. She had been sort of shut-in with a bad back. Please all of you shut-ins write to this dear lady. She is anxious to both write and receive some mail. She said her recent pain brought a new appreciation for the following poem called PAIN. This will be our scrap book suggestion for now.

**PAIN**

By Grace Noll Crowell  
"Pain stayed so long, I said to him today,  
I will not have you with me any more;  
I stamped my foot and said, "Be on your way,"  
And then I paused startled at the look he wore.

"I am your friend", he said to me,  
"I who am your teacher—all you know  
Of understanding love and sympathy  
And patience—I have taught you—  
—shall I go?"

He spoke the truth, this strange unwelcome guest.  
I watched him leave and knew his stay was wise.  
He left a heart grown tender in my breast,  
He left a far clearer vision in my eyes.  
I dried my tears and lifted up a song,  
Even for one who tortured me so long.

We liked the following little quote call;

**POSSIBILITIES**

Longfellow could take a worthless sheet of paper, write a poem on it and make it worth \$5,000.00—that is genius.  
Rocafelle: can sign his name to a piece of paper and make it worth millions—that is capital.  
Uncle Sam can take gold, stamp an eagle on it and make it worth \$20.00—that is money.  
A mechanic can take material

**CERTIFICATE:** We hereby certify that we have examined the accounts of the City of Clarendon, Texas, for the fiscal year ended March 31, 1954, in so far as such accounts related to cash receipts and disbursements. We did not make a detailed audit of all transactions recorded during the year. We did, however, make comprehensive test checks of transactions and secured verification of cash on deposit and securities on hand at March 31, 1954.

In our opinion, subject to the above limitations and to the comments contained in our report under date of April 24, 1954, the accompanying combined balance sheet and statement of receipts and disbursements for all funds fairly present the financial position of the City of Clarendon at March 31, 1954, and summary record of receipts and disbursements during the year then ended.

Phillips 66 presents the first All-Weather Motor Oil which has proved it meets the most exacting standard ever established for automobile lubrication...  
Mil-0-2104, Supplement 1 level.

The toughest standard ever set up for automobile lubrication is the Mil-0-2104 Supplement 1 test. New TROP-ARTIC is the first all-weather motor oil to meet the requirements of this test. It is an oil which will serve you winter and summer... an oil so good it can double the life of an automobile engine!

Compared to ordinary motor oils, new TROP-ARTIC reduces ring wear 40% or more. It cuts oil consumption 15% to 45%. It keeps pistons and bearings cleaner... longer-lasting. It saves you money by increasing gasoline mileage. This has been demonstrated in tests representing over 150,000 miles of driving.

TROP-ARTIC is truly an all-weather oil... S.A.E. 10W through S.A.E. 30. Therefore it flows instantly for easy starting at sub-zero temperatures, and yet it retains the film strength necessary to prevent engine wear under high temperature driving conditions. It isn't just heavy duty. It's double duty.

Any car, in any climate, at any time of the year will perform better with Phillips 66 TROP-ARTIC. It is a worthy companion product to Phillips 66 FLITE-FUEL, the new high performance gasoline recently introduced by Phillips. It pays to stop at the station where you see the Phillips 66-Shield.
