Is History Repeating Itself So Soon?

By Walter Rogers
Congressman 18th District

Many have forgotten during the past fifteen years the events that preceded World War II. On September 15, 1938, the Prime Minister of England, Neville Chamberlain, met with Hitler at Berchtesgaden concerning the Sudetenland. Hitler demanded self-determination for Sudetens and their return to Germany; he promised to refrain from hostilities until after Chamberlain's consultation with the British Cabinet. This was because the Prime Minister did not have authority to make commitments for the British Empire. Subsequently, on September 22nd, Chamberlain and Hitler again met at Godesberg. The Prime Minister refused Hitler's demands for the immediate occupation of Sudetenland. Hitler refused to guarantee frontiers until his other minority claims were satisfied. On September 29, 1938, the conference at Munich was held. The four powers, Germany, Italy, Great Britain and France, agreed to cession of Sudetenland. Britain and France offered to guarantee new boundaries of Czechoslovakia against external aggression. This was perhaps due in part to the indications on the part of Hitler that he was interested primarily in Sudetenland and did not anticipate or have in mind any hostilities. On October 1, 1938, in keeping with the Munich conference, Hitler occupied Sudetenland. On March 15, 1939, exactly six months after the Berchtesgaden meeting, he occupied Czechoslovakia. On August 23, 1939, the Hitler-Stalin non-aggression pact was entered. On September 1, 1939, Hitler invaded Poland. On September 3, 1939, Britain declared war on Germany. On June 22, 1941, Hitler attacked Russia.

You will recall that in the be-

ginning Hitler began his program on the theory that the German people needed living room. Shortly after World War II, and so far as we know before the end of World War II, Russia began moving on her program which for all intents and purposes has as its ultimate objective the same as was Hitler's, to wit, world domination. Russia's program differs from Hitler's only in the fact that Russia has not offered any excuse for her aggressive actions. She has moved in almost identical pattern, subjugating one country after another, and has procured the willing services of the communistic forces in China and North Korea to carry the battle in Korea up to the present time. There had been some wonder as to what the next step would be after Korea. However, there seems to be little doubt now as to the correctness of the predictions that her next move would be in southeast Asia. It has been concluded by many here that Russia is delaying the present truce talks on the theory that she has full control of determining the day of cease-fire in Korea. The reports are that many of the Red Chinese troops are being moved out of Korea. Where they are being moved to is not presently known, but it is safe to assume that they will be used as seasoned troops to bolster and carry the attacks in Indo-China. When such movements of troops and building up of supplies have reached a point satisfactory to Russia and China, these two will then work out the necessary mechanics for the cease-fire in Korea. They feel that the progress of the truce talks so far leave them in a good position, as they have Korea a divided country, with the dividing line just north of the 38th parallel. This does not meet with the approval of the South Koreans, and Russia knows that the situation there will continue to smoulder to the extent that the United Nations must maintain some sizable force

in South Korea. The communists will undertake to make cease-fire day conform to their timetable. This they can do by making certain commitments and then violating them, as they have so many times in the past, and as they have in recent days concerning the return of sick and wounded POW's. The communists are not interested in the controversial POW's held by the United Nations, except to use them as a pawn for argument and delay purposes. The communists have an abundance of manpower and are not interested in the POW's who do not want to return to communism, except for the purpose stated. The communists have forced the United Nations to give both men and material to the Korean front. They have substantially accomplished their purpose in that field and will move into Indo-China and the other portions of southeast Asia to gain control of the vast supplies of raw materials in that sector that are so necessary in waging war. They will then no doubt move either into India or the Middle East, the latter for the oil that they so badly need for their war machine. Continental Europe will of course be next on the list as it has always been the prime target outside the Americas. All of this adds up to one thing. The United States must awaken now. We must build the strongest possible defense. The primary problem of this nation is not domestic at this time. It is international, and if we fail to recognize what is so obvious and lessen our defenses and our defense program, we will be like an ostrich with his head in the sand. We can expect another Pearl Harbor, which of course will mean World War III. We in this country have it within our power to prevent history from repeating itself in this respect. We must not fail.

CARD OF THANKS

Words cannot express our appreciation and love for those who so tenderly ministered to us during the saddest hour of our lives. They brought food like manna from Heaven, a wilderness of flowers from the garden of their hearts; took charge of our home like guardian angels. They prayed, wept and consoled our broken hearts like the touch of an angel's wings.

The same Prince of Peace who stilled the troubled waters of Galilee has soothed the troubled waters of our souls in this sad

hour. Who would dare say Christ is not in Lelia Lake.

HEALTH NOTES

Texas State Dept. of Health

The Texas State Department of Health, after consideration by the Crippled Children's Advisory Committee, has been approved as sponsoring agency for a 5-state regional congenital heart disease center to be operated with funds provided by the Children's Bureau, Department of Health, Education and Welfare, State Health Officer George W. Cox has announced.

Details of the program were outlined in a report from the Children's Bureau and the Dallas County Medical Society, many of whose members make up the staff of the Children's Medical Center in Dallas, where treatment will be given children admitted under terms of the program.

Five states—Louisiana, Arkansas, Oklahoma, New Mexico, and Texas—have been combined into a single region for convenience. Applications for admission of children to the Medical Center in Dallas will be accepted from all five states.

Children's Bureau officials said the Children's Medical Center in

Dallas was selected as the treatment and diagnostic site for the five-state region because it has facilities for medical and surgical care for children with all types of heart disease, because of its geographical location in respect to the other states involved, and because the Dallas County Medical Society gave its approval and support to the program.

Upon approval of an admission application, the child will be admitted to care. The bills, including board and room for the parent while the child is in Dallas, will be paid with funds provided by the Children's Bureau.

Parents financially able to pay part of the cost are expected to do so, the plan states.

The plan pointed to the need for the program by declaring that congenital heart defects in children in southern states account for approximately 50 percent of all cardiac lesions.

Dr. Cox's announcement said objectives of the program were to "provide a mechanism whereby children in this area may have access to existing diagnostic and treatment facilities for congenital cardiac diseases, and to augment training facilities whereby young physicians may become intimately acquainted with the various aspects of this type of disease."

Draft Law & Its Rules And Regulations

Editor's note: This is one of a series of 10 short articles on the draft law and its rules and regulations.

It is a local draft board's responsibility, under law and regulations, to decide, subject to appeal, the class in which each man registered with it shall be placed.

Each registrant is considered as available for military service until his eligibility for deferment or exemption from military service is clearly established to the satisfaction of the local board.

The board is obligated to receive all pertinent information on classification presented to it, says Brig. Gen. Paul L. Wakefield, state draft director.

Mailing by the local board of a classification questionnaire to the latest address furnished by a registrant is notice to the registrant that he will be classified in I-A, unless information is presented to the local board, within the time specified for return of the questionnaire, which will justify his deferment or exemption.

Unless the local board gives him added time, the registrant must return the questionnaire filled out within 10 days from date it was mailed.

The state draft director points to this paragraph in the Selective Service Regulations which the board must always keep in mind:

"In classifying a registrant there shall be no discrimination for or against him because of his race, creed, or color, or because of his membership or activity in any labor, political, religious, or other organization. Each such registrant shall receive equal justice."

FARM NEWS
From the County PMA Committee

WHEAT FARMERS MAKE ALLOTMENT REPORT

Only a FEW of Donley County farmers have turned in urgently needed information on their wheat acreage required by PMA to make equitable allotments in event that national wheat acreage allotments are proclaimed. Chairman Ross Springer reported today. He urged wheat growers who have not yet done so to bring a legal description of their farm and the number of acres they had in wheat for 1951, 1952, and 1953, to the County PMA Office at their earliest opportunity. "This information is needed right away in order that each farm growing wheat in Donley County might receive an allotment representing its fair share of a county allotment," Chairman Springer explained. Please ATTEND to this matter AT ONCE.

The information must be collected and assembled at once in order that the Secretary of Agriculture can carry out the law on allotment programs. This legislation directs him to ascertain and proclaim the total supply and the normal supply of wheat for the 1953-54 marketing year by July 15, and to proclaim by that date a national acreage allotment for the 1954 crop of wheat unless

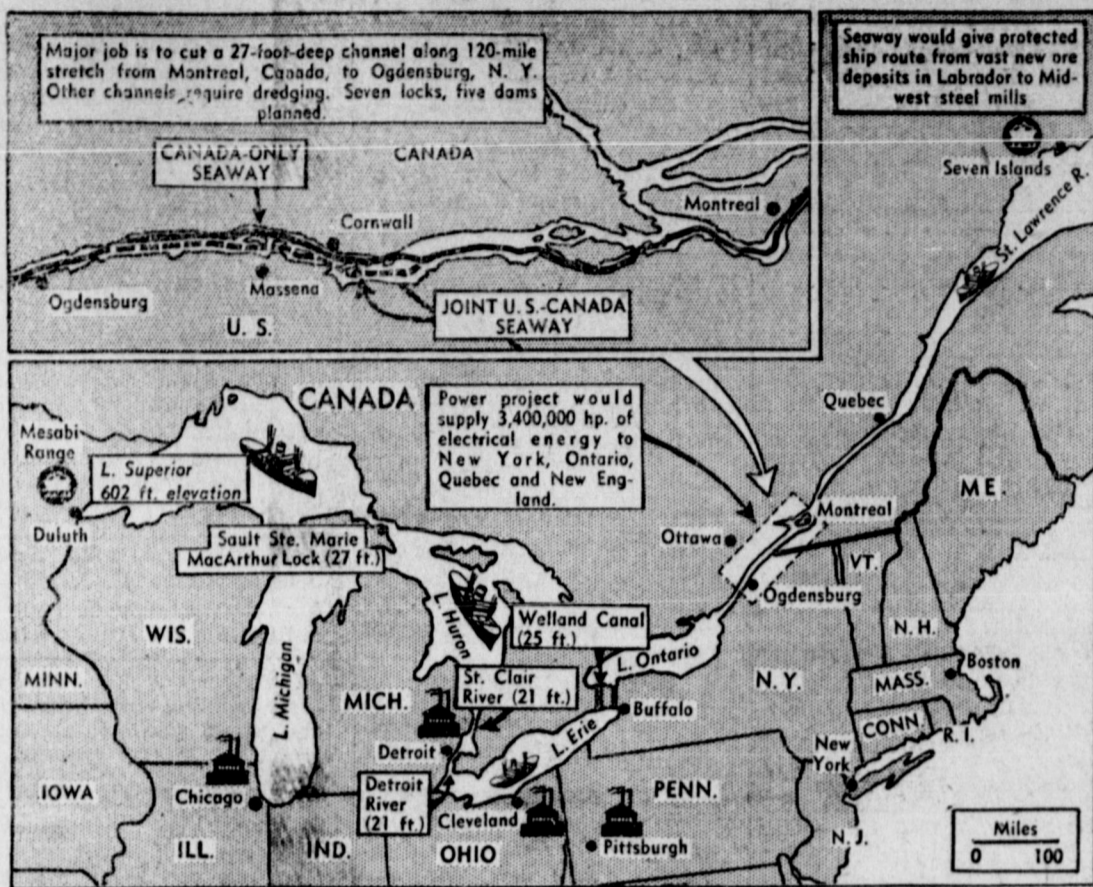

he finds that a national emergency exists or a material increase in exports is expected. Secretary Benson has stated that he will make no final decision on 1954 wheat controls until the latest information is available.

The national acreage allotment for the 1954 crop must be that acreage, which, at the national average yield, will produce enough wheat—plus the carry-over and imports—for a normal year's domestic consumption and exports plus 30 per cent. This is apportioned among the States, then among the counties in the State according to average acreage seeded to wheat during the 10 preceding years.

Donley County's wheat allotment is apportioned among farms on the basis of (1) tillable acres, (2) crop rotation practices, including acreage planted to wheat, (3) type of soil, and (4) topography.

Under the allotment program only producers who comply with their wheat acreage allotment would be eligible for price supports at full 90 per cent of parity.

Mr. and Mrs. Lon Howard of Anton, Texas, Mr. and Mrs. McHenry Lane of Pampa, Mr. and Mrs. W. W. Lovelady, Ronnie and Rickey, and Mr. and Mrs. Floyd Lewis, Don and Donna Lou, all of Amarillo visited thru the week end with Mr. and Mrs. Carroll Lewis and family, and Mrs. E. L. Lewis.

Canadian plans to construct the St. Lawrence Seaway include deepening of the waterway to 27-foot depth required for ocean-going ships. The above map shows present depths of places which must be dredged. MacArthur Lock at Sault Ste. Marie Canal is constructed to seaway specifications. Of the 2350 miles which will be opened to ocean traffic, only an approximate 100 miles need revision. It is estimated three years will be required to complete the seaway. Dotted line shown in the insert is the route which will be used in the event the United States participates in the project.

STATE FAIR OF TEXAS

A large international audience for the Pan-American Livestock Exposition during the 1953 State Fair of Texas has been assured by the recent fair-sponsored goodwill tour of Mexico, Ray L. Miller, chairman of the fair's Pan-American Committee, has announced.

The ten-man team of fair officials, breed association representatives and newspapermen covered nearly 5,000 miles by air, and contacted more than 1,000 Mexican ranchers, bankers, businessmen and government officials.

The group visited Mexico City, Monterrey, Torreon, Hermosillo, Chihuahua, Durango and Tampico. They met with Mexican cattlemen 30 times for lunch, dinner or visits to ranches or packing plants. They were greeted by governors of five states and governor's representatives of two others.

The unprecedented tour accomplished three things, Mr. Miller pointed out: It improved relations between the people of the two countries, interested Mexican cattlemen in better cattle breeds, and created much enthusiasm in Mexico for the fair's big Pan-American Exposition which will be held October 10-21.

Governors of the states of Coahuila, Durango and Sonora promised to lead delegations to the Pan-American Exposition. Each lauded the effort of the fair to build up international under-

standing by bringing together livestock men of all the Americas to discuss mutual interests.

Rafael Hernandez Ochoa, president of the Mexican National Cattle Federation, told the goodwill party that Mexican cattle breeders were looking forward to attending the exposition.

The state fair group pledged its willingness to organize tours to Texas ranches, packing houses and dairies for Mexican cattlemen who expressed a desire to make such field trips when they visit Texas for the fair.

Mexican dairymen were surprised to hear they could buy good dairy cattle nearer than Canada and beef cattlemen indicated interest in buying good bulls in Texas to improve their herds.

L. P. McCann of the American Hereford Association, Jack Vaughan of the American Milking Shorthorn Society, Tobin Armstrong of the Santa Gertrudis Breeders International and Milton Miller of the American Aberdeen-Angus Breeders Association returned from the trip highly enthusiastic over the potential Mexican market for their breeds.

Mr. and Mrs. Billy Mix Phillips of Hereford, and Tommy Phillips of Pampa were week end guests in the home of their parents, Rev. and Mrs. Ernest Phillips.

Mr. and Mrs. Bill Johnson and Carolyn of Fort Worth visited thru the weekend with Mr. and Mrs. Will Johnson and Mr. and Mrs. Johnny Johnson.
