## Chamber of Commerce Directors Place Emphasis On City Paving

Thursday, May 21st, marked the first of the regularly held C of C Directors meetings to be held on the 1st and 3rd Thursdays of each month in the C of C Office. At an earlier called meeting these meeting dates were agreed upon by the Directors as regular C of C Director meeting dates.

City Paving was the most important project discussed by officers and directors present. Those present were "Butch" Lane, President; John Head, Vice-Pres.; Bonnie Walker, Noel Cudd, Jr., Glenn Hoggatt, Directors, and Johnny Allen, Manager. All present were in agreement that City Paving is a major project for the year or until accomplished and that it warranted a major part of our effort and time until completed. A City Paving Committee was set up to assist the Manager in formulating and carrying out a plan for completing the project. These Committee members are Odos Caraway, John Head, and J. G. McAnear. It is believed that the citizens of Clarendon are aware of the need, and hopeful for getting Paving for the streets of Clarendon, but without proper assistance or follow-up on the part of our Chamber of Commerce because of the lack of a Manager for a time, little has been accomplished to date. The Directors pledged renewed effort and cooperation in fulfilling this much needed project.

The new Manager, Johnny Allen, has familiarized himself with the project outlined in the booklet prepared from the Community Clinic last year and feels a very worth while program of work is outlined for his immediate and continued effort and attention. Committees are being set up to work with him in planning and working toward accomplishment of these projects and cooperation as well as support is urged on the part of all citizens of Clarendon and Donley County, thereby, making each resident of Donley County a contributing factor in the progress and betterment of Clarendon and Donley County.

### FORMER RESIDENT DIES IN AMARILLO

Funeral services were held Monday afternoon in Amarillo for Mrs. Salome A. Coin, former Clarendon resident, who died Saturday morning in an Amarillo hospital. Burial was in Llano Cemetery, Amarillo.

Survivors include a daughter, Mrs. R. N. Hilton, Amarillo; a son, Jimmy Coin, Amarillo and former Clarendon Cafe owner; also one brother and two sisters.

A/2c L. M. PUTMAN JR.

### LOCAL AIRMAN MAKES HIGHEST GRADE AT AFB

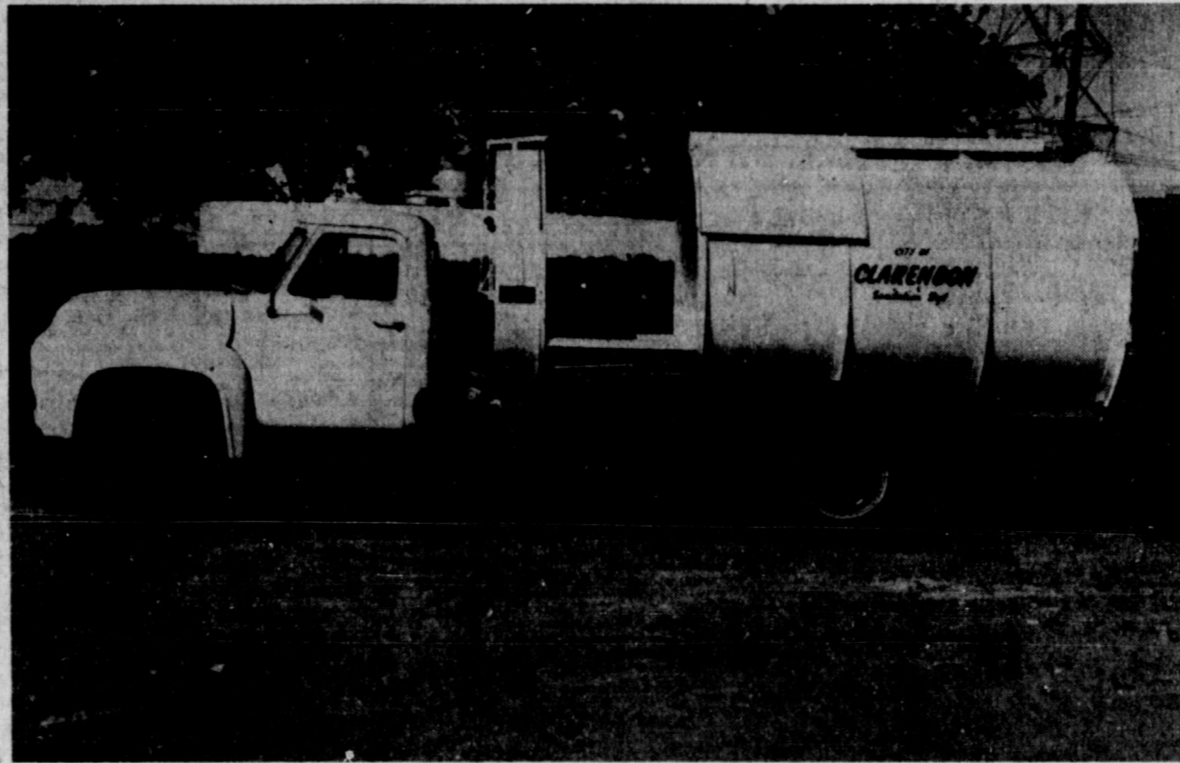

A/2c L. M. Putman Jr. of the Laredo Air Force Base, Laredo, Texas, made the highest grade on the A.F.S.C. efficiency test that has been made on this particular base up to the present date. He scored 137 correct out of a possible 150. L. M. is the son of Mr. and Mrs. Leonard M. Putman of Clarendon.

### Dusters To Play Claude Ball Club There Sunday

The Clarendon Dusters Baseball club will invade the Claude diamond next Sunday afternoon with the thought in mind to defeat the Claude boys after going down last week to Hedley and dropping their game there 13 - 7. This baseball business is sure unpredictable as Claude defeated Hedley the previous week with the Dusters defeating White Deer at the same time. Last Sunday White Deer defeated Claude 9 to 7 and the Dusters lost to Hedley. Scores don't indicate a thing, for just let one of the Caprock League teams get hot and they could give some of the major clubs plenty of competition.

All in all, the game at Claude next Sunday should be a very good game as it will be time for the Dusters and Claude both to stage an attempted comeback and one of them will have to lose. The Dusters are only looking forward to decent weather for the game, and believe they can bring home another win.

Mr. and Mrs. J. D. Swift and Miss Anna Moores visited Sunday with Capt. James D. Swift, Jr. at Sheppard Air Force Base at Wichita Falls.

Pictured above is the new City Trash and Garbage truck which arrived here last week. This new set-up will handle much larger load before emptying as the section to the left of the opening in the tank bed moves to the rear, packing any bulky contents. City officials believe a pick-up can be made twice weekly in the residential area with the new truck.

## PROCLAMATION

THE CITY OF CLARENDON  
STATE OF TEXAS

WHEREAS, the City of Clarendon wishes to observe Memorial Day in remembrance of those who gave so much.

WHEREAS, the Business men have proclaimed by ballot Memorial Day an Official Holiday to be observed by closing.

WHEREAS, Memorial Day falls on Saturday and closing on that date being an inconvenience to Business men as well as farmers and ranchers.

WHEREAS, we as Citizens should not regret giving one day in remembrance when they gave all they had, their life.

Now, therefore, I, Major B. Hudson, Mayor of the City of Clarendon, Texas, do hereby issue this my proclamation declaring the day of Monday, June 1st of 1953 "Official Business Men's Memorial Day Holiday" out of respect for those who gave so much, and hereby urge all Businesses to cooperate in our effort to give one day remembrance by closing if at all possible.

Witness the hand of the Mayor of City of Clarendon this the 25th day of May, 1953.

Major B. Hudson  
Mayor

### Time To Poison Hoppers Says County Agent

Now is the time to poison grasshoppers says county agent H. M. Breedlove of Donley County. The small hoppers are in the hatch area now and are feeding on green grass. They are easier to poison now says the county agent because they are concentrated in the smaller areas where they hatch.

Two ounces of concentrated aldrin in enough water to cover one acre is a good poison and also toxaphene at the rate of one pound and a half per acre in enough water to cover the area is a good poison. Breedlove says that either one of these poisons will give good results if used at this time and will prevent the spread of the hoppers after they become older and begin to migrate over the fields.

The county agent urges that you poison now and not wait until the foliage dries up and you have to use wet bait mixtures because the sprays mentioned above on green foliage is much more effective. Breedlove is warning every one to start poison on the hoppers at once where they are hatching and eliminate the trouble that will follow after the hoppers are full grown.

Any one wishing additional information should call by the county agent's office and he will be glad to help you work out a spray schedule and types of sprays for the areas.

Mrs. Clyde Butler attended the funeral of Mrs. Salome Coin in Amarillo Monday afternoon.

### New Garbage Truck Arrives May 22nd

Orville Housden, City Water Superintendent, arrived here Friday morning, May 22, with the City's latest addition in Civic improvement, a modern Packer type garbage truck. Earlier in the week, Mr. Housden took the truck, an F 600 Ford, to Austin and had the garbage unit mounted on the truck and painted white, a sign of health and cleanliness that such a garbage truck represents.

Mr. Housden reports that the truck can haul 4 to 5 times as much garbage in the residential section as the open bed truck and 7 to 8 times as much trash of the type picked up down town. The capacity of the truck is 12 cubic yards and trash can be loaded from each side at the front and is packed into the body of the garbage unit with a packer. The truck is now in operation and will greatly improve our garbage disposal service. Mr. Housden reported that the truck would try to make the rounds twice a week against once a week in the past. The truck will also replace the wagon and team that picks up trash down town, about June 1st, a replacement that the State Board of Health has urged and requested in the past.

Mr. Housden said that the truck can not pick up rocks, cement slabs, large tree branches, large pieces of lumber or very large pieces of steel or scrap iron and requests that these items not be put into garbage containers. He also said that barrels that still have fire in them can not be emptied into the truck.

### City To Start Spraying Next Week

Orville Housden, City Water Superintendent, reports that the City will begin spraying next week. All alleys, downtown streets, and the dump grounds will be sprayed regularly. He also reported that water will be used this year instead of diesel and would make it a much cleaner operation and would not have the harmful effects that was had with diesel. The water mixture will contain 40% chlorodane and 25% D.D.T.

### Summer School To Start Monday

Summer school classes in the Clarendon public schools will start Monday, June 1st. All students interested are requested to report at the High School building at 9 a. m. on that date.

English and History will be offered in Jr. College and History and Math will be offered in High School. Miss Mary Howren will be in charge of the math classes with Mrs. Marguerite Goodner in charge of the English and Miss Lucile Polk in charge of the History classes.

### Jr. C of C Meeting Called For June 2nd

The Junior Chamber of Commerce will have a meeting of all young men, between the ages of 21 and 35, next Tuesday evening at 8 o'clock in the College Gym. If you are included in the above age bracket, you are invited to attend.

### CONVALESCING AT HOME

Gayle Pyeatt, son of Mr. and Mrs. Owen Pyeatt, arrived in Clarendon early Monday morning. He was injured in a fall a number of weeks ago and has since been in a Denver, Colo. hospital. At present, he is able to be around on crutches. Claude Hearn of Amarillo went to Denver to return Gayle to Clarendon.

### LOCALS TO ATTEND SPEEDWAY RACES

Mr. and Mrs. Clyde Wilson and daughter Pat, left Wednesday morning for Indianapolis, Indiana where they will attend the Indianapolis Speedway races on Memorial Day. They plan to visit in Chicago a few days before returning home.

### ROPING THURSDAY NIGHT AND SUNDAY AFTERNOON

The Leader has been asked to announce that there will be roping at the Rodeo Grounds by the Clarendon Roping Club tonight (Thursday), and Sunday afternoon.

Donley County Leader, \$2.50 year

## RODEO & CELEBRATION PLANS PROGRESSING RAPIDLY

JANIECE CHRISTAL

### Janiece Christal To Appear In Music Recital

Janiece Christal, daughter of Mr. and Mrs. W. R. Christal, will appear in a musical presented by Lilly Larsen, Monday evening, June 1st at 7:30 in the College Auditorium. Dr. Erno Daniel chose Janiece to perform with the Amarillo Symphony Orchestra on May 3rd.

Other participants are: Linda Kay Hardin, Martha Beth Gillham, Connie McMurtry, Bonnie Ellen Rodgers, Dianne Moore, Marcia McMurtry, Marie Blackburn, Jonna Lee Blocker, Sue Yankie, Jacquie Bell, Shirley Wiedman, Patti Lane, Connie Williams, Marilee Smith, Kay Lane, Sue Seago, Jeannie McAnear, Betty Jean Reed. Sue Yankie, violin pupil of Miss Jewel Ellis will perform.

### Help Us Observe Memorial Day

Last year the Business Men of Clarendon voted Memorial Day one of the Four Official Holidays to be observed by closing.

This year, since Memorial Day falls on Saturday, the Chamber of Commerce is not asking businesses to close on that day, for it would be inconvenient for them as well as being inconvenient for farmers who, especially at this time of year, are too busy to come into town any time except Saturday or Saturday afternoon for shopping. Memorial Day is important enough to us as citizens, to warrant observance, therefore, Clarendon business firms will observe Memorial Day by closing on Monday, June 1st. Remember this date and secure the items you will need before hand.

Rodeo plans and arrangements were the chief items of business discussed by the Directors and Officers of the Clarendon Outdoor Entertainment Association at their meeting Tuesday night, May 26th, in the Chamber of Commerce Office. The Rodeo itself is beyond the planning stage now, since arrangements for the stock and rodeo events to be offered are being worked up and are progressing toward completion.

Individuals have been contacted to help with the working part of the Celebration itself and the cooperation and hard work on the part of all these people and the Rodeo Association are the contributing factors that make a smooth operating and outstanding event. Plans for the barbecue are progressing nicely with many donations of beef or money to buy beef already in and more donations are expected. With all this work on the part of everyone, and with the cooperation of everyone asked to help out, we should have a celebration this year that will surpass any event in the past. Then too, we have the recommendation of performers in the past who have been heard to say that the Clarendon Rodeo has always been outstanding in the past from their standpoint, and this should be further assurance that this year's Rodeo will be a good'n.

### Fine Art Exhibit June 1 & 2nd

The St. Agnes Altar Guild of St. John the Baptist Episcopal Church is sponsoring a showing of paintings by Milton F. Hill of Mineral Wells, Texas, the first and second of June from three to five in the afternoon in the Church Guild Hall.

Mr. Hill, a retired Methodist minister, has devoted many years to his artistic endeavors and has painted from all of the cities where his ministerial work carried him, including Memphis, Tennessee and Independence, Mo. He has studied under many famous artists in the East but is a Texan by birth and choice. At the present he is teaching art to his youth, adult, and armed forces classes in Mineral Wells where his wife is a Piano and Voice Instructor.

The exhibit in Clarendon will consist of forty-two paintings, both oils and water colors. The major portions of Mr. Hill's work are landscapes, of which his paintings of rock structures and formations are quite famous.

The public is cordially invited to attend this exhibit on either of the two days.

GETTING GOAT'S GOAT—Baffled by words and letters, the family goat puzzles over school books held by his young mistress who is teaching her mother all she learned at school in Bologna, Italy, that day. The practice of children teaching their parents is common in Italy, and is being used to combat illiteracy.

PUTTING THE FINGER ON HIM—A group of sightless New York children make a nose and toe inspection of circus clown Gene Lewis at Madison Square Garden. From the Laville School for the Blind, the children attended a special circus performance. Seen above, Lewis submits happily to the children as they give him his outsize proboscis and feet the once-over.

Mr. and Mrs. Raymond Waldrop and family visited her sister and family Mr. and Mrs. Clyde Pittman at Stratford over the week end.

Park.
Commission authorities, particularly the Assistant Director of Wildlife Restoration (Ernest G. Marsh) emphasized that while there are mysterious cycle angles involved, quail propagation is controlled to a great extent by man-made conditions.
"The answer rests squarely upon proper conditions, which means food, cover and water," said the Assistant Director of Wildlife Restoration. "These may be provided by nature or they made a civilization which has created so many hardships for quail as well as all species of wildlife."
It was concluded that the wardens, many of whom have distinguished themselves for conservation and restoration efforts, can do a good job working directly with the populace. They may help encourage joint movements by hunters and landowners to provide a favorable habitat for the fleet little birds which have long been a favorite in the annual fall shooting sport.
With this food, cover and water effort extended to the once prolific quail areas, the Assistant Director said the quail very likely will comeback in good time "It is surprising," he said, "how the necessary brood stock will be found available and adequate when conditions become favorable again for reproduction."

ing places, you stop whole colonies of flies before they can start. The most effective way of preventing swarms of flies is to destroy or make inaccessible to flies the organic material which attract flies by their odors, and which are essential to them as food and breeding places.
Individual householders should make it their responsibility to clean up their own back yards. Garbage cans should have a tight fitting lid and they should be leak-proof. Inadequate facilities for storage of garbage and refuse usually result in widespread fly breeding. Uncovered or partially covered garbage containers produce odors that attract a large number of flies. Good window screens will do a lot to keep flies

out of buildings, thereby protecting food from contamination by fly-borne disease organisms.
There is no substitute for good sanitation in fly control. Every spot in town must be cleaned of garbage and trash. If a few dirty places are left, swarms of flies will breed. A neglected stable on the edge of town will furnish a plague of flies for the entire neighborhood. After garbage and trash have been removed, insecticides will help to reduce the fly population in local spots. It is a temporary protection, however, and should be regarded only as a supplemental or emergency means of control. Insecticide spraying will be effective only if sanitary conditions are maintained throughout the summer.

Quail Comeback Seen Probable

AUSTIN—Officials of the Texas Game and Fish Commission, noting exceptional interest in Texas' depressed quail population at the annual game warden schools, assured the field men that public cooperation definitely can expedite rallying the bobwhites.
Warden concern over the quail problem, which became acute during the prolonged drought which apparently reached its peak last year, highlighted the annual classroom routine held in two periods at Bastrop State

HEALTH NOTES

Texas State Dept. of Health
AUSTIN—Early spring is the best time for a community to start a fly control program, declared Dr. George W. Cox, State Health Officer. That is before the fly population has a chance to multiply. It is estimated that one pair of flies, under favorable conditions, could have countless ancestors before winter.
Every time you kill a fly early in the season, and destroy breed-

## PARTY HONORS GRADUATES

Miss Evelyn Jean Wood and her mother, Mrs. J. D. Wood, entertained with a dinner party in the Wood home Thursday evening. Honorees were Lovelle Hodge, Shirley Martin and Barbara Bannister, all members of the 1953 graduating class of Clarendon High School.

A maroon and white color scheme was carried out in table decoration. The centerpiece was attractively arranged with white and maroon phlox surrounded with miniature diplomas. Miniature caps and school books were used as place cards and favors. Dinner guests were the honorees, Lovelle Hodge, Shirley Martin, and Barbara Bannister, and Kay Schollenbarger, Willetta Riney, Evelyn Jean Wood and Mrs. J. D. Wood.

## DORCAS CIRCLE

The Dorcas Circle of the Christian Ladies Aid met in the Church Wednesday afternoon, last, with seven members present.

The meeting was opened by singing "What A Friend We Have In Jesus," followed with prayer by Mrs. Anderson. The lesson was taken from I Corinthians 8th Chapter, and was led by Mrs. Wilson. —Reporter.

## LILLIE HUNDLEY CIRCLE

The Lillie Hundley Circle of the Baptist Church met Wednesday last in the home of Mrs. James Moore. The meeting was opened with prayer. The group sang "Our Best." The business session was presided over by the president, Opal Messer. Mrs. L. P. Moore taught the lesson from the book of study "Tangled Threads." Refreshments were served during the social hour to 13 members.

## MIDWAY QUILTING CLUB

The Midway Quilting Club met in the home of Marjorie Hensley, May 7th. Two quilts were worked on.

Those to enjoy the delicious noon luncheon were two visitors Mrs. Charlie Morgan and Evelyn Chamberlain. Members were Nora Goldston, Sarah Shaller, Allie Quattlebaum, Lucille Luttrell, Eddie Williams, Norma Chamberlain, Ellen Moreland, Loyd Hillis, Katie Bell Wells, Beth Bennett, Delia King, Josie Simmons, Pearl Terry, Eula Butler.

Next meeting will be with Eddie Williams June 4th. It is also Pollyanna Day. —Reporter.

## CHICKEN BARBECUE

A chicken barbecue was given Saturday evening May 23rd in the home of Mr. and Mrs. D. E. Leathers honoring Ensign A. Lynn Leathers, who is on furlough from Japan.

After the delicious meal, Lynn presented a color movie of interesting Japanese scenes.

Guests were the honoree, Ensign Lynn Leathers, Jane Johnson of Amarillo, Mr. and Mrs. Johnny Leathers of Tulsa, Mr. and Mrs. Kinch Leathers, Mr. and Mrs. J. R. Williams and Sharon of Groom and the hosts, Mr. and Mrs. D. E. Leathers. —Reporter.

## JIMMY GRAHAM HONORED WITH BIRTHDAY PARTY

Jimmy Graham was honored with a party on his 12th birthday, May 20th when his mother, Mrs. Doyce Graham, entertained at the Ashtola School house from 8 to 10 p. m.

Several indoor games were played, fortunes were told and outdoor games also enjoyed.

Gifts were opened and admired and the hostess served cake and punch.

Those present were Carl Evans, Dewey and Glenda Wilson, Carol Evans, Norma, Delores and Linda Tolbert, Linda Hardin, Betty Graham, Mary Sue Rhoades, Mrs. H. A. Graham, Mrs. James Tolbert, Mrs. Kermit Evans and the honoree and hostess.

## GOLDSTON QUILTING CLUB

The Goldston Quilting Club met Thursday, May 21, with Gertrude Reid as hostess. They pieced quiltblocks.

Those present were Edith Jackson, Nina Dale, Blanche Gray, Billie Ashcraft, Vivian Godbey, Bert Reid, Uva Devers, Adgar Williams, Sallie Hatley, Patsy Reid, Willie Putman, Brenda, Ola Mae and Trula, Geraldine Jackson, Larry and Dennis Stewart and hostess Gertrude Reid.

Those to receive polyanthas the past week were Ola McBrayer, Toostie Jackson, Blanche Gray and Oddie Moss.

The next quilting will be June 4th with Nina Dale as hostess.

## CHIT & CHATTER CLUB

The Chit & Chatter Club of Lelia Lake met at the home of Joane Leathers Tuesday, May 19. Some embroidering of pillow cases was done and refreshment of ice cream and sandwiches were served. Members present were Mesdames Dean Woods, Vidie Shields, Ruth Hudson, Dorothy Helms, Sadie Wood, Mary Jane Smith. Two guests, Mrs. G. F. Leathers and Mrs. Bill Preacher and the hostess Joane Leathers. The next meeting will be in the home of Dean Woods, June 2nd. —Reporter.

## GOOD NEIGHBORS CLUB

The Good Neighbors Club met with Mrs. Eula Butler on May 22 with an all day quilting. A delicious covered dish lunch was served at the noon hour to guest, Mrs. Eddings, and members, Pearl Terry, Dausie Sullivan, Bessie Helton, Leona Jones, Rosa Bingham, W. W. Rudd, Maya Anderson, Ruby Jordan.

One quilt was completed. The next meeting will be with Dorothea Sullivan on June 12th. —Reporter.

Lacrosse is the national game of Canada.

## OUR DEMOCRACY — by Mat

### IT'S GOOD TO BE A KID IN AMERICA

— PARTICULARLY NOW THAT SCHOOLS OUT.

IT'S A HAPPY WORLD OF BIKES AND ROLLER SKATES AND COWBOYS, OF BALL-PLAYING AND FISHING AND DOLLS AND SWIMMING AND LAUGHTER.

AND PARTICULARLY TODAY, WHEN MEDICAL RESEARCH, BY PRACTICALLY ELIMINATING SOME OF THE CHILDHOOD DISEASES AND MAKING OTHERS LESS SERIOUS, HAS GIVEN INCREASING HEALTH, STRENGTH AND LAUGHTER TO THIS WONDERFUL WORLD OF CHILDREN — CAREFREE KIDS TODAY, RESPONSIBLE CITIZENS TOMORROW.

## NEW ORGANIZATION OF METHODIST MEN RECEIVE CHARTER

A new organization of Methodist Men in the First Methodist Church, 420 Jefferson, Clarendon, has been chartered by the Board of Lay Activities of the General Board of Lay Activities in Chicago.

The local group will become one of 10,000 Methodist Men organizations which the Board plans to charter by 1956.

It is estimated that 2,000,000 men in The Methodist Church are

prospective members of Methodist Men clubs. According to Robert G. Mayfield, executive secretary of the Board, "We seek to mobilize through Methodist Men the tremendous power and enthusiasm of the men of the church. Our purpose is to give strength to the program of Christ and His Church through consecrated service of men in every local church of Methodism." S. M. Fredric is secretary of the newly formed group.

## FARM NEWS

From the County PMA Committee

### BENSON PLEDGES EFFORTS TOWARD SOUND FARM ECONOMY

"Dwight Eisenhower did not become President and I did not become Secretary of Agriculture to permit an agricultural depression," Secretary of Agriculture Ezra Taft Benson recently told the National Conference of Christians and Jews in New York City. He pledged to the farm people of this country that he would do all in his power to develop and maintain a sound economy for agriculture.

Reviewing some fundamentals of our agricultural policy on the maintenance of a sound farm economy, Secretary Benson said: "We believe that the development of modern agriculture has placed the family farm in a vulnerable economic position because farm prices and income rise and fall faster than farm costs and other prices in the national economy. Therefore, programs of price support and storage are needed to help assure stability of farm income and prices in the interest of all our people. "We believe, however, that price supports not only must provide basic stability for agriculture; they should also contain incentives for progress by encouraging production shifts toward

balanced supply in terms of demand, by encouraging economic production, and by avoiding excessive surpluses and subsidies." He emphasized that government programs should be used to help achieve broad aims but that we must recognize that objectives cannot be won by government programs alone.

The Secretary also warned against the danger of excessive governmental adventures in business, to great centralization of government power, and the undue dependence on public assistance. "The supreme test of any government policy, in agriculture or outside of it," should be: "How will it affect the character, morale, and well being of our people?"

The Secretary declared - - - "Certainly we must start from where we are today and build for a better tomorrow. We must not discard present farm programs until we have developed better ones. But better ones we MUST develop, if agriculture is to progress and prosper."

## THANKS

I would like to take this means to express my sincere thanks to those of you who sent cards and letters of encouragement during my stay in Thorton & Minor Hospital in Kansas City, Mo. May God bless each of you.

Sincerely,  
Mrs. Van Knox.

Donley County Leader, \$2.50 a Year.

### Calvary Baptist To Have Vacation Bible School

The Calvary Baptist Church will hold a Vacation Bible School beginning June 1st. The school will be held in the afternoons from 2:30 to 5:30. Rev. O. L. Jones of Hedley will be our superintendent. The workers will be Mrs. W. L. Jordan, Mrs. Charlie Hearn, Mrs. Othel Elliott, Mrs. Lamar Aten, Mrs. Pat Myers, Mrs. Wes Sullivan and Mrs. Ernest Phillips.

All children who are not in a Vacation Bible School from 3 to 16 years of age, are invited to attend this school.

Parents, we urge you to either send or bring your children to this school and stay with us if you so desire. Our workers are qualified and will help your child.

Ernest Phillips, Pastor.

### PIANIST PRESENTED IN MUSICAL

Miss Ruth Ann King, daughter of Mr. and Mrs. R. Y. King, was presented in her elementary certificate piano recital in the recital salon of the Conservatory in Amarillo Sunday afternoon.

Miss King, who has been studying under Jo Anne Jett, played compositions by Bach, Beethoven, Clementi, Brahms, Schubert, Rastbach, Gautier and contemporary composers. She was assisted by her sister, Rebecca King, violin student of Josephine Citron, who played "Romance" from a violin concerto by Beethoven.

Friends were invited to attend.

### Attention Called To Location Of C of C Office

It has come to the attention of Johnny Allen, Manager of the Chamber of Commerce, that there are many business men and citizens of Clarendon, as well as Donley County, who do not know where the Clarendon Chamber of Commerce Office is presently located. The Manager in behalf of the Clarendon Chamber of Commerce wishes to announce that a Chamber of Commerce sign will be erected soon but until such time you may find the Chamber of Commerce Office on the second floor of the City Hall directly across from the City Office. The man behind the desk on the desk is the Manager. Every one who wishes to be urged to come by for a visit whether on business or just to look the Character, called the Manager, over.

### CLARENDON TO HAVE MINIATURE GOLF COURSE

Two local men, Don Loyd and Bill R. Phillips, announced this week that construction had started on an 18 hole miniature golf course here. It will be located on the north side of highway 287 at the intersection of the road leading north to the Rodeo Grounds. The recreation area and golf course will be operated under the name of Playmoor. Plans call for the addition of other recreational units at a later date. It will also have a concession stand and the course will be well lighted for night time recreation. The new business will be operated by the owners, Mr. Loyd and Mr. Phillips. Watch the Leader for their opening announcement within the near future.

### Whew! It's Sure Hot; Records Broken

The heat wave that has enveloped this entire area has certainly poured it on, full strength, and also broken several temperature records, both day and night for this time of year. The nice shower that fell here Saturday evening was drawn out of the ground before it had time to soak in very much. The total amount of precipitation from the showers measured .47 inch.

Joe Goldston, local weather observer, reported a high temperature of 107 degrees last Saturday and 100 or above on other days since then. This is quite a record for the month of May.

The weatherman predicts little let-up from the heat wave before the end of the week, but you never can tell, we may have a northerly whip in on its heels. Let's all hope for more rain and less 100 degree temperatures and strong hot winds.

### Tips On Tornadoes

From:  
The Texas Press Association

This is the tornado season in the Central and South-Central states. Already there have been two tornadoes of major proportions in Texas, and several smaller ones. Here is some information about the violent storms that you might like to pass on to your readers.

1. Tornadoes are not peculiar to Texas. They have occurred in every state in the Union. They are more common in the central United States.

2. A tornado is usually seen as a spinning funnel-shaped cloud, extending toward the earth from the base of a thundercloud. When close by, it sounds like the roar of hundreds of airplanes. Oftentimes the funnel cloud is obscured by rain, dust or low clouds, or cannot be seen because of darkness. Sometimes two or more funnels may be seen in the same thundercloud. The funnel cloud may be in the shape of a rope spinning down from the cloud; or it may be barrel shaped or like a huge elephant's trunk.

3. Familiar thunderstorm clouds are present. An hour or two before a tornado the under part of the clouds may be seen bulging down instead of up. Often there is a greenish-black color to the clouds. Rain and hail often accompany the tornado. The funnel-shaped cloud of a tornado should not be confused with low or ragged cloud remnants which frequently are seen hanging down from the main cloud, often where the visible cloud leaves off and the curtain of rain begins.

4. Tornadoes are localized. They usually cover a very limited area. Most tornadoes are less than a block wide. A few have had paths over 2 miles in width, but this is unusual. Tornado paths are usually short, less than five miles long. Because they are extremely localized, the chances for tornadoes striking a given area are very slight. Most Texans will never see nor ever experience a tornado in their entire lifetime.

5. Tornado damage varies greatly with the storm and where it strikes, and many tornadoes cause little or no damage and no loss of life nor injuries.

6. Tornadoes have occurred every month of the year, but about two-thirds of all tornadoes occur between April 8 and June 9th.

7. Tornadoes are most likely to occur in the late afternoon or early evening. Thirty-five percent of all tornadoes occur between 3 p. m. and 6 p. m. Twenty-nine per cent between 6 p. m. and 9 p. m. Less than one-fourth of all tornadoes occur during school hours, 8 a. m. to 4 p. m.

8. Tornadoes usually move from southwest to northeast; less frequently from west to east. Tornado spotters should particularly keep watch in these directions. There are exceptions—they have moved from practically every direction. In some few cases they have traveled almost in a circle.

9. Tornadoes move forward at a rate usually from 15 to 40 miles per hour average, but the rate of progress has been somewhat less as well as much greater.

10. Warnings about an approaching tornado are seldom possible longer than a hour in advance, usually less and sometimes only a few minutes, but despite any disadvantage occasioned by a brief warning period, the warnings can be extremely effective in saving human lives.

11. School officials should become familiar with factual information regarding the characteristics of tornadoes, safety precautions to be taken in case a tornado is sighted in their immediate locality, and recommended procedure to be followed when forecasts and warnings are in effect and until an "All Clear" advisory is issued. The same suggestion holds for the public in general.

12. In the great majority of cases, the tornado affects less than one-tenth of 1 per cent of the "warned area" and is seen by less than 1 per cent of the population. Safety precautions generally need not be taken until the tornado cloud is seen or local community warning given or until unusually threatening thunderstorm type clouds are observed.

13. School officials and instructors have a special responsibility to remain calm and thus prevent school children from becoming excited. Do not wait until a storm is approaching but have a pre-arranged plan well thought out beforehand and be ready to carry it out should the necessity arise. It would be a good plan to have two or more good pictures of tornadoes in action in Texas or nearby states in order that school children and others might early and easily recognize such a storm, either while in attendance or in going home from school.

Mr. and Mrs. Herman Cross and Annette of Amarillo visited Sunday in the home of Mr. and Mrs. C. R. Cross.

Mrs. Homer Mulikey returned home last week after a visit with her nieces and nephews in Wichita Falls.

Mr. and Mrs. Bert Smith, Jr. and family returned to their home in Gainesville Sunday after spending several days with relatives here.

Mr. and Mrs. Basil Smith remain in Temple where further checks are being made to determine the cause of his illness.

T. D. Nored of Wellington visited Monday with his sister and husband, Mr. and Mrs. Victor Smith.

Mr. and Mrs. O. D. Lowry of Hereford attended graduation exercises here Friday evening and visited friends.

Mr. and Mrs. Frank Tyler of Lubbock visited relatives here the week end. Mrs. G. C. Heath is at home after a visit with her daughter and husband at their home in Lubbock.

Mr. and Mrs. Dwight Blair and family of Lubbock, and Mr. and Mrs. Harry Edward Blair and Sindee of Corpus Christi visited the week end with Mrs. Ermine Blair and other relatives.

Mr. and Mrs. Elmer Wade and children of Odessa and Mrs. Wade of Clarendon visited in the W. L. Jordan home Monday night.

Mrs. Berditt Hitt, Schela Jean and Bobby of Colorado are visiting the lady's parents, Mr. and Mrs. Charles Hearn.

Mrs. W. L. Jordan visited in the Ray Robertson home Thursday and Thursday night in Pampa.

Mrs. Earl Easterling, Janett and David are visiting the lady's parents, Mr. and Mrs. Tidwell in New Boston, Texas.

Mrs. Earl Givens and son Garry of Missouri are visiting the lady's parents, Mr. and Mrs. Wes Sullivan.

Those who repeat everything they hear do so because they haven't any place to keep it.

**President's Pastor To Speak at Cotton Bowl Religious Festival Sunday, Oct. 25**

The Rev. Dr. Edward L. R. Elson, pastor to President and Mrs. Eisenhower and many officials high in the national government, will be the speaker at the third annual Cotton Bowl Religious Festival Sunday night, October 25, final evening of the 1953 State Fair of Texas.

Dr. Elson has been pastor of the National Presbyterian Church in Washington, D. C., since 1946. This is the church attended by the President and Mrs. Eisenhower.

The festival has grown into one of the largest and most unusual events of its kind. State Fair President R. L. Thornton said. About 35,000 people attended the event last year, when Dr. Daniel A. Poling was the speaker. Dr. Norman Vincent Peale spoke at the first Cotton Bowl religious festival in 1951.

"We are indeed fortunate to have Dr. Elson as our speaker this year," Mr. Thornton said. "He is one of the nation's most prominent Protestant clergymen and is in much demand as a speaker."

"His address will be non-sectarian and non-political," Mr. Thornton pointed out.

Dr. Elson has traveled extensively in Europe and the Middle East and has preached in the leading churches of the British Isles. He visited Russia in 1936. He served as a chaplain in the armed forces from 1941 to 1946.

Dates of the 1953 State Fair of Texas are Oct. 10 through 25.

**Texans Owe Sharks As Much As All 47 Other States**

**AUSTIN**—Of all the money owed to loan sharks in the United States, nearly one-half is owed by the citizens of Texas, according to a study made by the Bureau of Business Research of Western Reserve University.

Edward B. Winn of Dallas, first vice president of the Junior Bar of Texas, citing this finding, asks, "Why do Texans pay almost as much to loan sharks as the people of the other 47 states combined? Because 33 states have solved the small loan problem through legislation that is fair alike to borrower and lender—with the result that the usurers, driven out of these other states, concentrate in the remaining states, of which Texas is the chief."

"And that is why our State is known as the 'loan sharks' paradise.'"

The Junior Bar of Texas is urging adoption of a constitutional amendment and a statute, prepared by a special committee of the State Bar of Texas, placing a ceiling on all charges, whether called interest or anything else, that a borrower has to pay. This small loan legislation also would place the loan companies under the supervision of the State Banking Department.

**Services Held Friday For Wesley Knorpp**

Funeral services were held Friday afternoon at the First Presbyterian Church for Wesley Knorpp with Rev. Wm. A. Cockerell officiating.

Mr. Knorpp, age 76, died last Wednesday morning in a Dallas hospital. He had been a resident of Donley County since 1900, at which time he became a partner in the T-6 ranching interests. He helped organize the Donley County State Bank here in 1906 and started with the Banking firm as cashier. He was elected president of the bank in 1925 and served in that capacity until 1951 at which time he became chairman

of the Board of Directors. He played a big part in the development of Donley County and produced a record in the banking and money lending business that will be hard to equal.

He married Miss Bliss Bugbee, daughter of the late Mr. and Mrs. Thomas S. Bugbee, on August 6, 1902. Mr. and Mrs. Knorpp observed their golden wedding anniversary at their home here last year.

Survivors include his wife, Mrs. Wesley Knorpp; three sons, W. Carroll Knorpp, John C. Knorpp and Walter B. Knorpp, and six grandchildren, all of Clarendon; also one brother, William Knorpp of Kansas City.

Pallbearers were B. N. Head, T. L. Roach, J. R. Porter, Heckle Stark, Kelly Chamberlain, E. S. F. Brinard, Joe H. McMurtry and Wm. J. Lewis Jr.

Burial was in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

**MULKEY**  
FRIDAY & SATURDAY  
May 29-30th

Mr. and Mrs. G. H. Simpson of Wilmington, Ill. have visited the past week with his parents, Mr. and Mrs. A. W. Simpson. They are enroute to College Station where their son, Gordon, will be a member of the graduating class. They left Clarendon Wednesday morning.

Mr. and Mrs. Tackett of Kaufman, Texas came Sunday to return their nephew, Victor Lynn deVlaming, to Kaufman where he will visit his grandmother. While here they visited in the Victor Smith home.

**MULKEY**

Frank Gotch was one of the greatest wrestlers of all time.

**First Baptist To Begin Vacation Bible School Saturday Morning**

The First Baptist Church will begin its Vacation Bible School this Saturday morning at 8:30 with a meeting of all children and workers at the church for Preparation Day. All children and their parents are invited to be there for the registration and orientation to be followed by a parade down town and thru the residential part of town.

The school will be for all boys and girls through age 16. There will be two Nurseries, one for those up to 3 years and one for those that are 3. Then there will be the Beginner Department for those ages 4 thru 5 and the Primary Department for ages 6 thru 8. The Junior Department is for boys and girls, ages 9 thru 12, and the Intermediate Department for those 13 thru 16.

The school has been planned to give the children the best teachings possible along with plenty of hand work to make the school very interesting for all.

Plan on coming Saturday morning to get enrolled and then be there every morning, Monday through Friday at 8:30 A. M., for the next two weeks!

**Locals Enjoy Visit In New Orleans**

Mr. and Mrs. Jerome Stocking returned Friday from a 2-week's visit in New Orleans. While in the city they attended a reception honoring Rev. Joseph F. Rummel S.T.D. who was celebrating his 25th year as Arch Bishop of New Orleans. The Stockings were special guests of Abbot Columbian Thuis O.S.B., Dean of Covington and head of Saint Benedict's Monastery.

Present at the reception were Hon. Robert F. Kennon, Governor of the State of Louisiana; Hon. deLesseps Morrison, mayor of the City of New Orleans; Spanish Consul Alfonso Sabadie, Cardinal Stritch of Chicago and many other dignitaries including 40 or 50 Bishops.

Choral selections were rendered by Notre Dame Seminary and the 100-voice Choir of Xavier University.

**Hedley Defeats Dusters 13 to 7**

The Clarendon Dusters were really dusted off down at Hedley last Sunday afternoon when the host team came from behind and defeated them 13 to 7 on a wind swept, dust laden field. The gusty, hot wind made it difficult for both teams to handle the ball for part of the time the players couldn't see at all.

The Dusters were leading the ball game six to two in the fifth inning when a Hedley run was scored due to a hit player, then Herman Mooring slammed out a homer with the bases loaded. They came back in the sixth inning to add six more runs to clinch the ball game.

The game started out with excitement when Don Dorman hit a home run in the first with one man on and his brother, B. F.

Dorman whamed out a homer in the 4th to make it a Dorman affair.

Both Clarendon and Hedley now have a 3-2 record in Caprock League play with two more games each to play in the first round of play.

# PLOWIN' Out the CORNERS

*by Uncle Zeb*

"The driver is safer when the roads are dry, the roads are safer when the driver is dry."

When we see certain folks coming up the walk we can't always know what they have on their mind, but from past meetings we usually know ahead of time whether it bodes good or bad.

Had a nice letter this week from The Scotchman, and he is still thinking in terms of saving a little here and there. Anyhow, he tells me about a plan of his to save money on his smoking. He takes the long king size cigarettes and cuts the package in the middle, then smokes the halves in his holder. "That way," says Uncle Bob, "I get just about as much smoking from the half as I would from a whole one." If you try

this and it works for you write and thank the Scotchman for the idea. Anyway, along with this advice he sends us a little booklet of good thoughts called Happy Days. From it we will be quoting in the next few weeks such as the following.

"If you think you have no faults that is probably one of your worst ones."

Also the following for our scrap book suggestion:

- Give us Lord a bit o' sun,
- A bit o' work and a bit o' fun;
- Give us all in th' struggle and splutter
- Our daily bread and a bit o' butter;
- Give us Lord a chance to be
- Our goodly best, brave, wise, and free,
- Our goodly best for ourselves and others
- Till all men learn to live as brothers.

—An ancient English prayer.

"If you are itching to go places you'll have to do some scratching."

"The best time to hold your tongue is when you feel you must say something or bust."

—Josh Billings.

Heard one fellow say that hard

times and dry weather had just about riddled him of anyone to talk to. All he had left was his old coon dog. His banker had quit listening. The groceryman seemed absorbed in other things. But Old Red, he still listened; still seemed to believe all the stories and air castles that he was a mind to tell him about. Could be.

## New Economic Index Law For Texas School Program

AUSTIN—The state now has a new economic index law, which designates the amount each county will have to raise toward \$45,000,000 of local support of the state's public school program.

The new law provides a method of distributing the local educational fund more equitably, according to Representative Elbert Reeves, sponsor of the new law in the House. This is due to the fact that the new set-up is more sensitive to economic changes, and makes it possible to keep a more up-to-date check on those changes.

"The Commissioner of Education will re-figure the index annually using three-year average data on the income of the counties as measured by manufacturing, minerals, agriculture and payrolls," Reeves said. He added that it was refigured only one every four years, under the old law, using data for the latest single year available.

Experience with the old index and system of figuring shows that it was inadequate for keeping up with economic changes, crop failures, droughts and freezes. The new one is believed to be adequate. "As a matter of fact, tabulations already made by the Texas Education Agency, show that under the new law relief will be given to many counties that have been suffering from severe droughts and other financial setbacks in recent years," Reeves said.

As figured by the Commissioner of Education in 1951, the present economic index would have had two more years to run. Already the local fund assignment by the old method has gotten out of adjustment in a number of counties.

According to the Economic Index formula, it is not possible to be accurate in using the statistical data available at the time, in setting up the local fund assignments. Therefore, the new law provides that during the next two years no county's local fund assignment will be increased more than 10% over its previous assignment. At the end of the two-year period, however, each county's assignment will be whatever it comes out according to the formula.

Factors by which the index was determined, and importance placed on each, are assessed valuation of property, 20 per cent; scholastic population of county, 8 per cent; and income of county

as measured by manufacture, minerals, agriculture, and retail wholesale and service establishment payrolls, 72 per cent.

The local funds assigned to each county under the 3-year average index adjusted so that no county is given an assignment that exceeds the assignment under the present index by more than 10% and the per cent of increase of the adjusted assignment under the new law would affect Childress county by decreasing their local fund assignment by 16.80%, Donley County 19.31%, Motley County 18.52% and Hall county an increase of 6.98%.

The new law was sponsored by Senator A. J. Rogers of Childress in the Senate, as S. B. 163.

## COOKING SCHOOL HERE JUNE 3rd

All the housewives in Clarendon and the surrounding area are invited to be guests of the West Texas Utilities Company at an all electric cooking school to be conducted here next Wednesday, June 3rd.

The demonstration, which will present the most recent and modern developments of cooking, will be held at the Lions Club Hall at 2:30 p. m. Mr. Lonnie Walker, West Texas Utilities Company's local manager, in announcing the school, said, "As a result of numerous requests to repeat the cooking school, which we presented last fall, this school was planned."

Mrs. Jennie V. Wynne, a senior home economist for Frigidaire Sales Corporation, will present the newest developments and new recipes and ideas. She will

**Dr. J. W. Evans**  
Dentist and Orthodontist  
Phone 285 - Clarendon, Texas

be assisted by Mrs. Doris Moore, of West Texas Utilities Company's district staff. Mrs. Wynne is a graduate Home Economist with years of practical experience. She had had special training in food preparation, preservation, and quick-freezing techniques at the nationally famous Frigidaire Home Economics Department at Dayton, Ohio.

Recipes and gifts will be given to homemakers who attend the demonstration. All the food used in demonstrating the modern electric way of food preparation will be presented to women attending the school.

## Draft Law & Its Laws And Regulations

Editor's Note: This is one of a series of 10 short articles on the draft law and its rules and regulations.)

Young men of draft age who ask for and get deferments under certain conditions automatically extend the time during which they can be drafted by nine years.

Brig. Gen. Paul L. Wakefield, state draft director, names the following types of deferred men, among others, who have their liability for service extended until age 35:

1. Members of the ROTC and other officer training programs.
2. Students deferred to go to

high school or college under requirements of law; college students deferred under authority of the local board.

3. Men left at home for civilian employment.

4. Men deferred to farm.

5. Married men deferred because of their children or because of extreme hardship and privation to dependents.

6. Men classified as mentally, physically, or morally deficient or defective.

"The regulations spell this out," General Wakefield says. "So when a man gets the privilege of a deferment he is taking on a corresponding responsibility. The man who never receives a deferment like these cannot be drafted after he reaches his 26th birthday."

The state draft director says that, under this provision of law, it is possible for a deferred man to lose his qualification for deferment at age 34, for example. Under such circumstance, he would again be eligible for draft.

More than sixty colonies of various foreign peoples are settled in different parts of the Republic of Paraguay.

YOU'LL TASTE THE **BEST** IN REAL COFFEE GOODNESS...  
  
the difference is QUALITY!

**You're a young smoothie**

World's newest **V8**

The 1953 Buick Super Convertible. Wire wheel covers optional at extra cost.

**Drop your cares and come have fun.** You're in the month of May. The balmy weather and the bright blue sky are calling. That young-all-over feeling fills the air.

And here's this gay and gorgeous Buick Convertible—ready, willing and definitely able to lift spirits and make the most of such happy things.

But this is an automobile that is far more than just mood medicine for Spring and the young in heart. This is an automobile of supremely smooth going, of spectacular power, of dazzling getaway. *This is a thriller.*

With it you get the exhilarating power of the world's newest and most advanced V8 engine—and the highest compression on the American passenger-car scene today.

With it you can have the soaring get-away of Twin-Turbine Dynaflow\*—and the new quiet and utter smoothness of this wonder transmission.

With it you enjoy the level smoothness of an even finer Million Dollar Ride—sit in relaxed and luxurious comfort—control your going with the consummate ease of Power Steering\* and Power Brakes.†

**THE GREATEST BUICK IN 50 GREAT YEARS**

Surely, you ought to look into this zestful Buick and sample the stirring lift it brings to heart.

We're ready to do the honors as host. Why not visit us this week for a guest ride in the most spectacular Buick yet built?

\*Standard on Roadmaster, optional at extra cost on other Series. †Available at additional cost on Super and Roadmaster models only.

## State CAPITOL

**By VERN SANFORD**  
Texas Press Association

AUSTIN — Is Governor Allan Shivers going to run for a third term? That question came up at the tail end of a legislative session which has failed to accomplish major parts of the governor's program.

Governor Shivers has said that he wants to see his program completed.

Questioned by reporters, the governor replied that he "might some day" make another political race.

Asked directly whether he planned to run for another term as governor, Shivers responded: "I don't know. But there have been lots of people nice enough to suggest it. I have always said that I want to do whatever the majority of the people want."

It may seem a long time until the next statewide election, but the prospective candidates are already preparing their campaigns.

If Shivers should decide to try for a third time, the plans of other hopefuls would have to be revised.

Lieutenant Governor Ben Ramsey, who has been considered a gubernatorial candidate, said that he will ask for re-election to the office he now holds if Shivers again seeks the chief executive's job.

It is problematical if others thinking about the governor's race would get into it if Shivers did.

These include Attorney General John Ben Shepperd, Speaker Reuben Senterfitt, and Land

Commissioner Bascom Giles.

An exception might be Ralph Yarborough the Austin attorney who campaigned hard for the office last year and has indicated he plans to run again.

—tpa—

One part of Governor Shivers' program that failed in the Legislature was a pay raise for teachers.

The solons were ready to give the pedagogues an additional \$300 per year, but the teacher lobby held out for \$600 or nothing.

Thus the teachers got nothing. Their hope now is that a tax on natural gas, passed by the Legislature two years ago and now being tested in the courts, will be finally approved.

Should that happen, it is expected that the governor will call a special session of the Legislature to appropriate the money that the state has been collecting under the terms of the tax.

The money has been piling up, unspent, pending the final outcome of the court action.

The state now has \$15 million of this money, and collections are continuing at the rate of about \$1 million per month.

—tpa—

Last week, attorneys for some of the gas companies involved asked the state supreme court to reconsider its opinion upholding the tax.

If the court stands by its original decision, the gas companies may either drop their suit or take it to the U. S. Supreme Court.

Governor Shivers has predicted that the state can begin spending the money later this year.

He wants to use it for teacher

### FULL DRESS IN BORNEO IS COOL

Meeting their president, Indonesian tribesmen from Borneo, arrive in tribal formal dress of leg bracelets, tattoos and loin-cloths. President Sokarno, at left, greets them in the Indonesian capital of Jakarta.

pay increases, salary boosts for state employees, and construction of needed state buildings.

—tpa—

Voters of Texas will decide at the general election in November of next year on a number of changes in the state constitution. Here are some of the questions the people will be called upon to answer:

Whether teacher and state employe retirement credits shall be interchangeable.

Whether county hospital districts with taxing powers may be

created.

Whether the terms of local elected officials shall be lengthened from two to four years.

Whether a \$5 million surplus in the Confederate Pension fund may be used to build a state courts building and a state office building.

Whether women shall be required to serve on juries.

All these proposed constitutional amendments were voted by the Legislature.

### To Promote Water Conservation

AUSTIN — The University of Texas and State Board of Water Engineers are making a joint investigation expected to save considerable money for farmers, stockmen and small municipalities and to promote water conservation.

Many stock tanks and small lakes have been destroyed during rains because of inadequate spillways. The investigators will determine sound practices for pass-

ing flood waters from a filled reservoir to the stream bed below.

Practicing engineers in the State are financing the project.

Working with a model dam built in the University's hydraulics laboratory, the researchers will construct various spillway designs, and test performances with artificial floods and other water-flow patterns.

They will record results with motion pictures, still photographs, sketches and special instruments, and will make their information

available to engineers and other interested persons.

Dr. Walter L. Moore, associate professor of civil engineering at the University, is project director. Staff members of the Board of Water Engineers and engineering students will work with him. H. A. Beckworth, Board of Water Engineers chairman, made arrangements for the tests and Ivan M. Stout of the Board staff is helping coordinate the project.

In India, the King of England is given the title of Emperor.

You'd Be Amazed at Your Savings...  
with **Aero Willys**

With an Aero Willys, if you average only 27 miles a gallon, for 10,000 miles you would use about 370 gallons. At 26c your gas would cost only \$96.20 a year. (Reports have been received of special tests showing up to 35 miles per gallon, with overdrive.)

If you average 15 miles a gallon with your present car, and drive it 10,000 miles a year, you would use about 666 gallons of gas. Regular gas at 26c would cost you \$173.16 a year.

The difference you can save on gas alone with the Aero Willys may be as much as \$76.96 a year... but you also save on oil, repairs and other maintenance. In addition to economy, this low, young-looking, stylish car is extremely comfortable, has the ruggedness of the 'Jeep'... the luxury of an airliner... has been judged the safest car of the year by Motor Trend Magazine.

Prices start at **\$1499.50**  
LIST PRICE  
for the Aero-Lark 2-Door Sedan, F.O.B. Toledo, Ohio. Plus Federal Taxes, State and Local Taxes (if any), Freight, Delivery and Handling Charges. Optional Equipment, Extra.

### TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

#### FOOD, FIBER, FUEL AND FIREPOWER:

You will hear and read much in the next few months about economies, proposed economies, budget balancing, tax reduction, the elimination of waste and graft, and other incidental items. It presently appears from the recent

announcements of congressional leaders that the proposals to balance the budget and reduce taxes will be confined to talk for about two years. These announcements are confirmed by the action that is being taken by Congress on the appropriation bills. These bills are coming to the House Floor and sailing through after relatively short debate and with too little time for the entire House membership to study them. Most of them still provide for a substantial portion of the services that the federal government has been called upon to perform in the last two decades, the big cuts

being in the construction and not the administrative field. A good example is the appropriations bill for the Department of Interior, which includes the Bureau of Reclamation. The Department of Interior is the caretaker of the real property of the Government and has the responsibility of developing the natural resources. The Appropriations Committee slashed 202 million dollars off the budget estimate of 607 million dollars. 98 million dollars out of the 200 million dollar cut came out of the Bureau of Reclamation funds. 90 million dollars of the 98 million dollar

cut represented a reduction in construction, rehabilitation, and matters incident thereto. General administrative expenses were reduced one million dollars. The nature of this cut simply means that there will be a sharp curtailment in maintenance, operation and rehabilitation of existing facilities in this country and a sharp curtailment in the development of our natural resources. At the same time, the taxpayers of this country are being asked to contribute approximately six billion dollars in foreign aid. Much of this money will be used for the development of natural resources in the countries to which it is sent. Some may take issue with me on this point and say that the dollars are not used directly for that purpose. Such a statement would be true, but it is only theoretical. What happens is this: The recipients of foreign aid in many instances use their own funds, called counterpart funds, to develop their natural resources. They use the funds furnished by this country for the purposes for which they would have had to use their own funds had this country not sent the foreign aid. It is sort of a merry-go-round. No one objects to helping other countries who are our allies. However, I cannot reconcile the development of the natural resources in other countries at the expense of permitting ours to go

unattended. Many of these foreign countries are under a continuing communist threat. Should any of them capitulate, we know that the assets we have provided for those countries would not only be lost to us, but would be used against us. The cold hard facts that we must face are simply these. The survival of this country from a material standpoint is going to depend upon food, fiber, fuel and firepower. This means that agriculture, the development of our natural resources, and the strengthening of our defenses should be among our top level considerations. The fat should be cut from all of these, but the muscles should not be damaged. SUBSIDIES: I expect to introduce a resolution within the next few days requesting a full investigation and a definite earmarking of the subsidies enjoyed at the expense of the American taxpayer. One of the most difficult problems at present is to find out the exact amount of subsidies being paid, who gets them, and why. It is high time that the American taxpayer had this information boiled down to a dollar and cent standpoint. It can then be determined which are justified and which should be reduced or abolished. I feel that if definite and concrete information can be gathered together on this subject, tremendous savings can be effected.

#### and SOCIAL SECURITY

If you do not already have a social security account-number card, and if you expect to work during the summer in a job that comes under social security, you should apply for your card at once. Your application should be mailed to the Amarillo Social Security office. You can get an application blank and instructions at the post office, or the local employment office. By doing this, you will have your card ready to show to any prospective employer. You won't lose time starting on your new job, nor be embarrassed.

If you have had a card, but lost it, apply for a duplicate immediately. When a girl marries, she will need to change her name on her social security wage record, retaining her original number.

All your wages will be reported by employers coming under social security, and will be duly credited by the Social Security Administration to your own individual social security wage record. That is why you want one, and only one social security account number, all your life.

There is no charge for issuing you any type of social security card, original, duplicate, or one showing change of name. You will always have the same number.

#### DONALD W. BEARD IN LINE FOR GRADUATION FROM U. S. NAVAL ACADEMY

ANNAPOLIS, Md.—The U. S. Naval Academy here will graduate the second largest class June 5th since its founding 108 years ago. The largest class was in 1946 with 1,046 members.

Among the 926 scheduled to graduate and receive a Bachelor of Science degree is Midshipman First Class Donald W. Beard, 25, son of Mrs. J. W. Beard of Clarendon, Texas.

He will be commissioned as an Ensign, USN.

He entered the Naval Academy on a Fleet appointment in June 1949, after serving as an airman in the U. S. Navy.

Before enlisting in the Navy in 1945, he graduated from Clarendon High School.

During his first class year at the Naval Academy he attained the rank of Midshipman Ensign, serving as Second Regimental Communications Officer during the fall term.

Mrs. J. W. Beard of Clarendon, mother of Donald, will attend the graduation exercises.

Donley County Leader, \$2.50 year
