Eads Demonstrates New Digital Satellite System

Eads Furniture and Appliance now has RCA's new Digital Satellite System (DSS™) for sale. As authorized dealers for RCA, they are among a select network of retailers offering this equipment.

The new, state-of-the-art system utilizes a dish 18 inches in diameter, not much bigger than a Thanksgiving turkey platter. The receivers pick up signals from two satellites, and will soon offer more than 150 channels. Selections on the new system include most of the services traditionally offered by local cable companies, but provide additional benefits, too.

According to RCA, the new equipment and its programming, "offers more personalized TV choices than any other entertainment programming service." It also provides a clearer picture and better sound.

The new system will provide up to 40 channels of Hollywood movies, as well as Discovery Channel, Arts & Entertainment, CNN, All News Channel, Weather Channel and a number of others.

Eads points out that, "The RCA's hardware provides a higher resolution than normal TV signals, and it is compatible with the High Definition TVs of tomorrow. Sound quality is as good as that from CDs."

Eads has a system running in the store to demonstrate to customers. It is very impressive.

Every area of career interest that is available in civilization life is available for exploration in the combining of the two programs.

Youth have the opportunity to qualify for special training experiences, including private pilots license paid for by the Air Force; scholarships for education beyond high school; and Fun! Fun! Fun! with other youth while learning important skills for building a mature personality.

High Plains Better Health Notes

by Robert E. Powell, PA-C, Donley County Rural Health Clinic, A service and facility of High Plains Baptist Hospital

COPD or Chronic Obstructive Pulmonary Disease is a general term to describe lung con-

ditions that result in increased resistance to airflow during forced expiration. Two types are chronic bronchitis that results in increased airway resistance which may include reversible or irreversible airway narrowing and emphysema which causes decreased functional lung capacity due to loss of elasticity of the alveoli. These conditions may be due to smoking, some occupational lung diseases or may be hereditary.

COPD is a major cause of disability death, and mortality that continues to increase due to our aging population. In the United States, it is second only to heart disease as a cause of disability. While emphysema is more common in men than women, the incidence in women is increasing, possible due to more women smoking.

COPD is thought to begin early in adult life, although significant symptoms and disability usually do not occur until middle age. Mild breathing difficulties may be noticed long before the onset of clinical symptoms. A mild "smokers cough" is often present many years before onset of exertional dyspnea or difficulty breathing.

Gradually, progressive exertional dyspnea occurs, sometimes with cough, wheezing, recurrent respiratory infections and occasionally weakness, weight loss, or lack of libido.

Late in the disease, there may be frank cyanosis, a bluish discoloration of the skin from lack of oxygen, or a red florid complexion associated with increased blood cell production. Mild chronic dependent edema or swelling is common but does not necessarily indicate heart failure. It may result from prolonged sitting, elevated intrathoracic pressure and renal retention of salt secondary to blood gas abnormalities.

Treatment does not cure, but relieves symptoms and controls potentially fatal exacerbations. It also may slow progression of the disease. Therapy is aimed at alleviating conditions that cause symptoms and excessive disability. Avoidance of bronchial irritants, especially smoking, is of prime importance.

Our Trip To The Moving Wall

by Josiah Scott

On Wednesday, October 19th, Clarendon Junior High, which is made up of the sixth, seventh and eighth grades, went to Amarillo to join in the Moving Wall ceremonies. At the Wall we were divided into groups. Some veterans from Vietnam led the groups. After stopping at a tent to look up names of family or friends on the wall, we were off to the Wall itself. As we walked by looking at the Wall a few of us stopped to take pictures or make tracings of the Wall. A loud speaker was set up and a narrator called out the names on the Wall in alphabetical order. The narrator also told the ranks and the town the person was from. After everyone had seen the whole Wall, it was off to the buses and the trip back to Clarendon. Our trip to the Wall was both educational and memorable.

Amarillo Farm And Ranch Show Held

When the 10th anniversary of the Amarillo Farm and Ranch Show opens the doors of the Civic center on November 29, producers and agribusinessman alike can expect an exposition that's nearly 30% larger than any previous year.

Featuring over 825 total booths, the Amarillo Farm and Ranch Show's growth is the result of the addition of a 20,000 sq. ft. climate-controlled, temporary outdoor pavilion accommodating nearly 100 new exhibits, the utilization of Civic Center meeting rooms as new exhibit space, and the marked increase in exhibit demand by manufacturers and suppliers servicing the agribusiness community.

Benefits to attending agribusinessman, in addition to size, include a host of new product introductions and greater variety. Slated for introduction in Amarillo are the John Deere 7450 cotton stripper and 8000 Series tractors, Sunflower model 9430 Folding Grain Drill, and the Caterpillar Challenger 45. There's also a new

showcase on Ratite Breeding. The Amarillo Farm and Ranch Show is Tuesday, November 29 - Thursday, December 1 in the Amarillo Civic Center. Admission is free. Show hours are 10:00 - 6:00 daily. For show information call (612)894-8007.

For additional information contact Ethan Cartwright at 1-800-827-8007.

Letters To The Editor

Dear Editor,

We hold Congress as a body in very low esteem, but we almost always think it's not our Congressman's fault. It's the other rascals up there in congress. The voters in other districts think the same thing. I guess that's why over 95% are re-elected over and over again. The voting pattern of our Texas Congressmen is becoming quite clear, especially when their votes are needed by the congressional leadership on major legislation. The simple fact is, when the House leadership requires the Texas Democrat congressmen's vote they fall in line. They fear their leaders more than we voters. They think we are too stupid, or maybe we know and don't care, as long as they bring home the pork.

I have a copy of a letter I would like to share with you, written by Richard E. Halverson, former Chaplain of the U.S. Senate.

Letter

Several years ago there came to my attention a quote from a book written by Alexander Fraser Tytler, who lived at the end of the 18th century and the early part of the 19th (1748-1813). He wrote a book entitled, "The Decline and Fall of the Athenian Republic".

Amazing, is not that the following quotation from that book written about ancient democracy, long before American democracy had been really tested, is so timely.

Tytler wrote:
"A Democracy cannot exist as a permanent form of government. It can only exist until the voters discover that they can vote themselves money from the Public Treasury. From that moment on, the majority always votes for the candidates promising the most benefits from the Public Treasury with a result that a democracy always collapses over loose fiscal policy, always followed by dictatorship. The average age of the world's greatest civilizations has been 200 years. These nations have progressed through the following sequences:

From bondage to spiritual faith; from spiritual faith to great courage; from courage to liberty; from liberty to abundance; from abundance to selfishness; from selfishness to complacency; from complacency to apathy; from apathy to dependency; from dependency back to bondage."

In my ten years as Chaplain of the Senate, I cannot remember a time of greater frustration among members of Congress and their staffs, or more expressions of anger from the people."

200 years, "Loose fiscal policy; from apathy to dependency" sounds familiar, doesn't it? Maybe our form of government is doomed to failure, but I would like to slow the process down as much as possible. Many of you probably feel the same way.

Have you noticed that congress exempts themselves from those "great new laws" they have passed for the rest of us. I know you have heard the quote "power corrupts and total power corrupts totally". Our current Congress proves that to be true. This is the result of over 40 years of one party rule and the power the party leaders have given themselves over other congressmen.

There are many Democratic Congressmen becoming very pessimistic about their re-election. They have been advised to do whatever it takes to get re-elected. They are told to run hard-hitting negative campaigns against their opponents. Congressman Sarpaluis must be taking their advise, judging from the T.V. commercials I've seen.

When England wanted to cut government waste, a Texan showed them how to trim the fat

Cutting waste in government isn't easy.

That's why, when members of Parliament wanted to make the British government more efficient, they consulted the recognized expert in America: Texas Comptroller John Sharp.

Hardly a surprise, old chap.

Since taking office in 1991, John Sharp and his Texas Performance Review team have set the standard for streamlining government agencies, saving taxpayers a documented \$6.2 billion and helping Texas avoid a state income tax. And his reviews of Texas school districts have saved taxpayers more than \$24 million.

Now he's fighting to cut millions of dollars in welfare fraud and bureaucratic waste by abolishing paper food stamps, which are often stolen and then traded for drugs. Sharp's plan is to replace food stamps with computerized security cards.

No wonder U.S. News and World Report (1/4/94) says:

"John Sharp has become the mastermind behind a sweeping overhaul of the bureaucracy that has put Texas at the forefront of the nationwide effort to...root out waste."

Yet, despite all the additional duties and initiatives taken on by the Comptroller's Office, Sharp still managed to reduce the number of his employees and return \$9 million of his budget to the taxpayers.

Of course, there's a lot more waste in Texas state government just waiting to be cut, so the job is far from over. That's why we need to keep John Sharp on the job.

DEMOCRAT • TEXAS SENATE

Letters from pg. 6

Security. So do about 1370 other citizens of Donley County. This is a product of an honorable and thoughtful Democrat almost 60 years. You have a Republican to thank for the stock market crash of '29 and the depressions of the 30's.

During the last 12 years of Republican Administration you had mass unemployment as jobs went overseas, millions became homeless, banks failed at an alarming rate, corruption was rampant, the federal budget deficit went from \$40 billion to over \$300 billion, the tax rate was cut for the wealthy, the rich got richer and the poor poorer. This was the 80's Republican Trickle-Down Economics.

Clinton inherited their mess. Now under his administration the federal deficit is down \$120 billion, the economy is growing more than 3% annually with inflation at a 20 year low, 4 1/2 million new jobs have been created pushing the unemployment rate down to 5.9%. A crime bill was passed that will put more policemen on the streets even though the Republicans fought it.

Now due to GOP propaganda no good deed goes unpunished. They are seeking dominance through fabricated fears and lies as they cater to big money and big interest chanting recycled and cynical proposals. They are obstructionist and hypocritical opportunist who would bash Jesus Christ to serve themselves. Theirs is an authoritarian society of threats and punishments, subjugation and oppression of the weak and vulnerable, rewards for the aggressive and territorial, antagonism and animosity to all opponents and are essential tyrannies.

For those so opposed to Social Democracy, life of man is and has always been socialism. Although innately territorial "no man is an island unto himself." His needs for identity, stimulation and security are satisfied by mutual territory and social solidarity with respect for each one's periphery. As population explodes and man becomes more fluid we are more at the mercy of social amity and mutual cooperation today than ever before. We must not let our minds become enslaved by our prejudices or we will fall victim of

"budding emperors" or tyrants as we have in the past.

To eradicate "Social Democracy" means everyone would have to give up the Army, Navy, Air Force, Marines, farm loans, price supports, food inspection, expansion of markets, conservation of forest and lands, Social Security, disease prevention, Pantex, National Parks, fish and wildlife management (What about the 50 million buffalo that were slaughtered almost bringing the buffalo to extinction because there was no control?), mineral management, reclamation (Do you think mining companies would restore areas decimated by digging if it wasn't mandated?), crime prevention (Who would be tough on crime?), law enforcement (Will the NRA take care of this with their 2090 million guns 2 million of which are AK-47 semi-automatic assault rifles?), building and regulation of highways, railroads, airways, seaways (Try traveling without them!), job training, prevention of discrimination (Maybe you want slavery again), programs for vets, printing of money (Imagine a Republican without money!), EPA (No control of toxic substances, air and water pollution), etc. I believe what the GOP is seeking is "selective socialism" for the elite just as some seek "selective Christianity". Christ preached love, compassion, charity and reconciliation of all, not just a few.

What we need is the creation of fairly shared economic growth; the creation of universal opportunity without discrimination; the protection of the ailing and powerless; and a constant striving for fairness and justice in American life.

Dear Editor,

My knowledge about politics is limited and my personal exposure is limited to what I can learn, usually from bias publications and candidate propaganda. I do have a great deal of knowledge about human nature, as I have had more year than I care to acknowledge in the observation of people.

I know that people are a product of their environment and training.

Mac Thornberry comes from a fine family that has generations of exposure to the right family life, religious values, and conservative thinking and training, that is in line with my thoughts and values. I know that Mac Thornberry will always do the right thing. That's important to me, to you, to his country and to him. I put much more faith in Mac, as a hometown boy, than I do in other people who are controversial and seem to spend a great part of their time defending past action, of which they are not very proud.

I can't vote for anyone but myself, but, I can encourage you to vote for values which you know are right and against those that eventually lead only to trouble and destruction. My vote will be for

Mac Thornberry and I hope yours is too.

Roberta Pittman
Clarendon, Texas

Dear Editor,

This letter to the editor and the prospective voters of the Texas Panhandle was prompted by comments I heard on the KGNC talk radio while I was visiting my mother a days ago in Clarendon. One man caller's opinion was that we have too many lawyers in Washington. Being a para legal for twenty years, I took this as a personal affront to my profession and the people for whom I work.

On November 8th, I will Vote For Mac Thornberry! Yes, Mac Thornberry is a lawyer and a fifth generation Texan, born and reared in Donley County by a pioneer farm and ranch family. He has a wife and

two children and is an active member of the community and the First Presbyterian Church in Amarillo. His political background includes working for Congressman Combest, Tom Loeffler, and in the Reagan administration.

Mac Thornberry's opponent for the congressional seat for the 13th District of Texas is Bill Sarpalis. Before you go vote on November 8th, maybe you should call Washington, D.C. to see if Bill has paid his tabs around town; call Hereford, Texas, to check on his personal background and integrity; call Canyon to check his educational background. If you call Boys Ranch, you will find that he only spent a few years there, instead of being raised there.

Yes, I will vote for Mac Thornberry, a fine Christian man and a fine attorney.

Judy Pittman Burlin

Letter To The Editor,

I hope when voters go to the polls on November 8, 1994, they will cast their vote for Mac Thornberry for Congressman from the 13th District.

Mac is an intelligent man with high moral standards. I have known Mac and his family for many years and know that he was raised to work hard and continues to work hard. Above all, he was taught that honesty is one of the most important traits one can have.

Mac has been very clear about his stand on issues and has not tried to cloud the issues with personal attacks. I think voters appreciate this.

I am impressed with the Contract with America signed by Mac and other conservative candidates and I do not understand why he

Public Notice

Southwestern Bell Telephone Company (SWBT) has filed an application with the Public Utility Commission of Texas (PUC) to restructure the current PLEXAR I and II service offerings. This restructure will significantly change PLEXAR I and II services.

The restructuring of PLEXAR I will, among other things: (1) reduce the maximum line size from 30 to 9; (2) obsolete and grandfather certain optional features; (3) eliminate the requirement to subscribe to Feature Package Two in order to subscribe to certain optional features; (4) reduce the nonrecurring and monthly rates of certain features; and (5) increase the nonrecurring charges for the PLEXAR I System Charge (\$2.10 to \$8.00), Call Transfer Disconnect feature (\$3.00 to \$8.00), and Convenience Dialing I feature (\$6.35 to \$8.00). All current PLEXAR I customers will have the option of keeping their current PLEXAR I service, switching to the new restructured PLEXAR I service, or switching to PLEXAR II service with ten or more lines.

The proposed PLEXAR II restructure will, among other things: (1) change the tariffed offering to serve the market segment of 10-74 stations; (2) create two station pricing structures, one for customers with 10-29 stations, and one for customers with 30-74 stations; (3) reduce the sensitivity for the loop portion of the rate to two price bands: 0-2 miles, and beyond 2 miles; (4) offer a PLEXAR II basic station that can be flexibly configured, from a number of standard features, to meet the individual customer requirements; (5) change the way the termination liability is calculated so the customer is responsible for 65% rather than 56% of the present worth of the remaining monthly payments in the contract; (6) create an option that allows month-to-month customers to convert to long term contracts of at least three years and receive a credit or "contract signing bonus"; and (7) establish a System Subsequent Change Charge which applies per serving central office when changes are made that affect the entire system.

Current PLEXAR II customers will also have the option of keeping their current PLEXAR II service, or switching to the new restructured PLEXAR II service. PLEXAR II customers with at least 75 stations also have the option of switching to PLEXAR Custom service in certain situations.

This application has been assigned Docket Number 13210. Persons who wish to comment on this application should notify the Commission by November 28, 1994. Requests for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757, or you may call the PUC Public Information Office at (512) 458-0256, or (512) 458-0221 tele-typewriter for the deaf. should be criticized for it. Is there anything in the contract we do not want? I know that Mac will do his best to see that nothing is in the contract which will be detrimental

Irene Williams
Clarendon, Texas

Dear Editor,

We have an important job ahead of us on November 8, and I hope everyone gets out and

casts their votes for the best candidate. I really believe that Mac Thornberry is that candidate. You can ask just about anyone in Donley County and the surrounding area about Mac and his family, and you will hear nothing negative about him. Among his friends and family are farmers, business people, and senior citizens on social security, and I cannot believe the ads that say he has signed a contract to harm any of these folks. I also find it insulting and maddening when his opponent focuses on an ad as Fake, instead of answering the accusation in the ad. The headline in the Amarillo paper is Real. I talked to a GLOBE News editor personally this week and was told the only thing wrong with the headline, was that it was not on the front page. I have noticed that Mac's opponent has managed, several times, to avoid answering some pertinent questions. Why did he vote against our wishes on the budget? How many more times will he vote against what the majority of us want?

I thoroughly believe that Mac Thornberry will listen to us, and do the best job possible representing this district.

Sincerely,
Shirley Osburn

TREE AVAILABLE AT SCS OFFICE IN CLARENDON

Trees Available

The Donley County Soil and Water Conservation District is once again offering trees and shrubs for sale. This program is offering as a service to residents of Donley County and anyone may purchase these trees. The purpose of this program is to offer high quality, low cost trees for use in establishing windbreaks, wildlife planting, and for home landscaping. There is wide variety of trees available including deciduous trees and shrubs, evergreens, and fruit trees. Most of the trees are available in three sizes: Seedlings, one-gallon potted, and five-gallon potted. Large potted trees are available in one-gallon and five-gallon container sizes. These are sold individually and will cost \$5.00 per tree for the one-gallon size and \$14.00-\$15.00 per tree for the five-gallon size. Seedling trees come as bareroot deciduous trees and shrubs or evergreen trees in small tarpaper pots. The bareroot trees and shrubs cost 70 cents per tree and are sold only in bundles of 25 or 50. The potted evergreen seedlings cost \$1.60 per tree and are sold in quantities of 20 or 30. For a complete list of the types of trees available come by the SCS office at 321 S. Sully or call (806)874-3576. Orders are being taken now through March, however, orders should be placed as soon as possible because some types of trees sell out quickly.

Thank You,

The CHS Bronco Band would like to give a very special thank you to the Ban Boosters for all their hard work, before and during band contest. We enjoyed the treats and appreciated all the support you gave us. You encouraged us to do our very best and get our first II rating in five years. The pep-rally that you all gave us, with the help of Debbie Hines and the CJH cheerleaders, was very special and something we will always remember. The Band feels very lucky to have such wonderful supporters.

Thanks again,
The CHS Bronco Band
