THE COLOR OF THE TIE

The State of Oregon has long used yellow dividing lines on its highways. The evidence indicates that most motorists feel that they provide much better visibility than white lines, particularly in bad weather, and so are an important safety factor.

But now Oregon's Highway Department announces that white lines will replace the yellow. Reason: The Federal government dictates that states must adopt white lines — or lose their share of the funds allocated to the multi-billion dollar interstate highway system.

The significance of this goes far beyond any merits and demerits of white-lines-vs.-yellow-lines. The Portland Oregonian makes the big point with admirable clarity: "When one accepts a 'gift' from Washington, one gives up the free choice that states, as well as individuals, hold dear. When Uncle Sam puts up the money for a new suit, he not only decides what kind of suit it shall be but also picks the color of the tie."

This truism should surprise no one — the principle is as old as government. Centuries ago, someone remarked that "he who pays the piper calls the tune." Now a swollen central government pays more and more pipers, and calls more and more of our tunes.

Seventeen members and one guest, Mrs. John Brown, assembled at 3:00 p.m. Friday, Nov. 6th, at the Patching Club House. Mrs. McMurtry, President, conducted a short business meeting in which it was announced the club had purchased one of Mr. Rex Brasher's bird prints, and it would be framed and placed in the club house.

The members then journeyed to the JA Ranch where the afternoon was spent admiring and studying the many beautiful paintings of Mr. Ritchie, which he had purchased in Europe. Included in this wonderful collection were some of the French artists, Dufy and Pissaro which we had studied at a previous meeting.

We are indeed grateful to Mr. Ritchie for the opportunity of seeing his lovely "gallery." — Rep.

WMU ENJOYS STUDY OF FOREIGN MISSIONS

Members of Woman's Missionary Union, First Baptist Church have been enjoying an intensive study this week of the Foreign Mission work carried on by the Southern Baptist Convention in over 40 countries by 1356 missionaries.

The theme of the study was "World Evangelism Overseas — by All Means" and was presented in the form of a series of television programs produced by S.B.B.C. and viewed over stations LOOK, HEAR, KNOW, CARE and WORK. The series summed up the entire program of evangelization carried on through teaching, preaching and healing.

Visual aids in the form of film strips, slides, posters, interest centers and information and pictures on a "Tell-a-vision screen" made the study most interesting and informative.

Luncheon tables were decorated with crosses and dolls representing the three areas where work is carried on: the Orient, Latin America, Africa, Europe and the Near East. Global napkins and "People of the Nations" placemats added atmosphere to the occasion.

Members of Young Woman's

Auxiliary and their fostering circle of Business Women met Tuesday evening for supper and the study with 25 present.

The other six day-time circles met for an all day session and lunch on Wednesday. Members of the Junior and Intermediate Girls Auxiliary gathered at the church for the study and supper Wednesday afternoon and evening.

The study has been most valuable at this particular time as these organizations will be meeting the first week of December for prayer and special offerings for foreign missions. — Rep.

Grass Roots Opinion
Roseburg, Ore., News-Review: "For years we've been led into the belief that everything must emanate from Washington. States rights have been invaded. More and more controls have been placed over the public. Gradually we're transferring power into the hands of government at all levels. We're giving up independence and putting on the harness of regimentation."
"The United States achieved greatness on the basis of individual freedom, free enterprise, free competition. The United States built up the highest economy the world ever has known when free enterprise was given a reasonable incentive."

Seven Broncos To Play Last Game Friday

The last game of a football season is always a sad occasion for a few people regardless of whether the team is winning or losing. Perhaps the saddest students in high school Friday night will be the seven boys who will be wearing the Maroon and White uniforms for Good Old Clarendon High for the last time. These boys are Dewey Wilson, Wayne Mann, Lynn Spier, Dennis Bradshaw, Charles Percival, Don Hudgins and Jerry Allen. Wilson and Mann have been the two leading ground gainers for the Broncos this season. Wilson is playing his second year as the regular fullback and despite his weight, 138 pounds, is one of the hardest hitting backs in this area. He is also very valuable on defense and as a block-

er. Mann is a converted end who is playing regular halfback position this year and is just this year hitting his stride. This is his first year as a starter at halfback, and has turned in some sparkling runs and is the main target for Quarterback Neel Carter's passes. He has been a regular end the previous two years.

Spier, Bradshaw and Percival are all regular linemen this year. This is Bradshaw's second year as a regular guard and Spier and Percival are in their first year as starters although they saw plenty of service as reserves last year. These three boys have bolstered the Broncho line and their shoes will be hard to fill for next year. Hudgins has been alternating at end with Bill Hermesmeier and has played some at halfback. He was a reserve halfback last year and was switched to end this year. Allen is a reserve tackle and guard and plays some in every game although he is not listed as a starter. He is very valuable to the team because he can play several different positions and is always ready to go when called upon.

These boys would like nothing better than end their high school football careers with a victory. If the other members of the team will rise to the occasion and help them celebrate their farewell football party, the mighty roar of the McLean Tiger may be reduced to the purr of a kitten.

Those visiting with Mrs. A. O. Hefner in Adair hospital over the week end were Mr. and Mrs. Lloyd Hefner and family, Mr. and Mrs. Ray Hefner and B. R. Wood of Amarillo, Mr. and Mrs. Jess Hefner of Hedley, J. B. Hilbun and Mr. and Mrs. B. M. Wood and Charles of Pampa. Mrs. Hefner is convalescing from a fall last week at which time she broke her right wrist.

Mrs. Eula Lee Carson of Austin has returned to her home after spending two weeks in the home of Mr. and Mrs. Dick Cooke.

PROPERTY TAXES INFLUENCE LAND VALUES

College Station — Property taxes are a fixed cost for the farm or ranch owner. In modern commercialized agriculture this tax bite may be a significant item affecting the final figure drawn down as net income, or loss. In 1958 property taxes amounted to an average of 38 cents per acre for the State, a total of 53.8 million dollars. In 1945 the average was 21.6 cents

per acre. About one-half this tax bill was accounted for by school district levies, reports Robert G. Cherry, extension agricultural economist. The remainder went for support of county and state governments and to special districts such as water, drainage and navigation districts. Levies by the State government are now a minor part of the total.

When viewed as a percentage of gross receipts, these real property taxes accounted for about

2.2 percent of the total gross income. As a percentage of net farm-ranch income, however, the figure is much higher — amounting to 6.7 percent.

Traditionally, economists have always considered that land taxes are "capitalized" in land values, meaning they reduced the value of land in proportion to their effect on earning capacity. In modern times, however, citizens place high values on schools, roads and other services which the taxes support. Consequently,

adds Cherry, taxes may indirectly work in the opposite direction by influencing land prices upward instead of downward. In 1958, the increase in real estate values slightly exceeded the increase in taxes on a national basis.

Visitors in the home of Mr. and Mrs. Edd Hodges last week were Mr. and Mrs. Dean Gains, Mr. and Mrs. Johnny Dacy of Odessa, Mr. Buchanan of Paris, Texas.
