DPS Offers Recruit School

The Texas Department of Public Safety is accepting applications for out-of-state applicants until July 15, 1994 and applications for in-state applicants until August 19, 1994 for its December 1994 recruit school.

Following twenty three weeks of intensive training, successful applicants will be commissioned as state troopers for the Texas Department of Public Safety, charged with enforcing traffic laws on rural Texas highways. Troopers investigate accidents, recover stolen vehicles and other property, seize illegal drugs, apprehend wanted persons and perform a variety of other law enforcement duties.

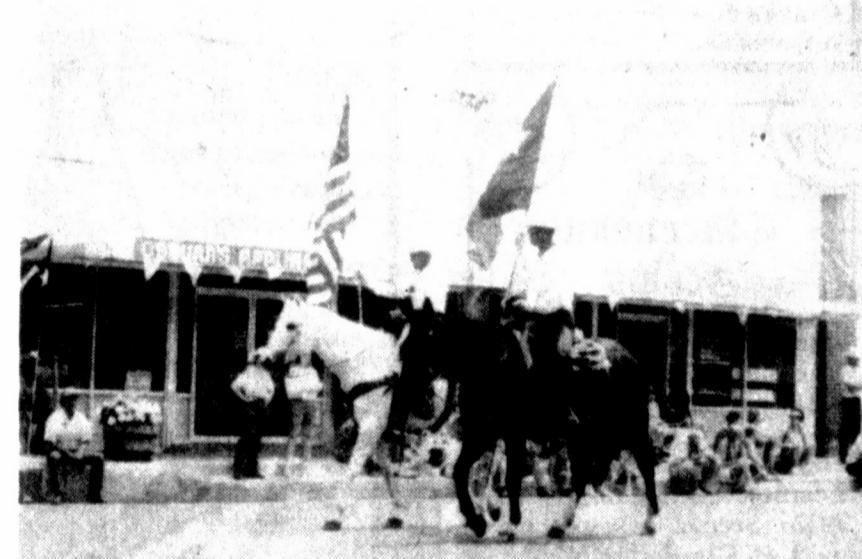

After four years with the DPS, troopers will be able to compete for promotions within the Traffic Law Enforcement Division, which includes services such as Driver License, Safety Education, License and Weight and Motor Vehicle Inspection. Promotional opportunities eventually will be available in other DPS areas, such as Criminal Law Enforcement Division -- Narcotics, Polygraph, Criminal Intelligence, and Motor Vehicle Theft Services -- and the Texas Ranger Division.

The DPS will consider applicants who are at least twenty years of age and have either sixty hours of college credits or prior military or law enforcement experience, U.S. Citizenship, a Texas driver's license and a willingness to

accept assignment anywhere in the State are also required. An applicant must successfully complete a written examination, a physical exam, an agility test, oral interviews and a thorough background investigation before being accepted.

The DPS offers state benefits, and a starting salary for Trooper Trainees (while in training) of \$1,721.00 per month. Following graduation, troopers will be paid \$1,983.00 per month, with a raise every six months for the first year. Commissioned officers also receive hazardous duty pay and monthly allowances for meals, uniform cleaning and footwear. Uniforms and equipment are furnished by the Department.

For details on this challenging career opportunity, contact your nearest DPS office.

Health Tips

Hot summer weather may drive some people to drink. Drink water, that is.

"The body loses large amounts of fluids during hard physical activity, particularly if the weather is hot and humid," said Dr. Jim Pivarnik, an exercise physiologist at Baylor College of Medicine in Houston. "It is important to replenish them. The best way, as obvious as it sounds, is to drink plenty of water."

Pivarnik suggests drinking water continuously to keep the body hydrated.

Navajo Youth Travels Through Clarendon

by Shelley Tongate and Jason Lee

Last Wednesday, The Chinle Navajo Youth Trek made tracks through Clarendon while stopping at the Church of Christ Family Life Center to rest. The riders, consisting of seven students ages 14-17 and four adults, have traveled over 1500 miles. Their trip started June 6, from Chinle Arizona, and they have made their way South as far as Del Rio, Texas. The ride is a 35 day trip, and they will be heading towards their destination, passing through Amarillo, Santa Fe, N.M., Shiprock, N.M., and finally arrive home in Chinle with each student bicycling over 2300 miles.

The four adults consist of Dub Manis, a teacher, Ken VanPelt, an athletic trainer, Carol Bartholomew, an English teacher, and Lawona Nez, a teachers aid. They felt that this would not only be an adventure, but a great educational experience. The riders leave promptly by the crack of dawn, riding up to eight hours a day. They have been through serious extremes of weather, from almost getting frost bite, to temperatures up to 117 degrees. They have been harassed by Border Patrol, ridden in winds up to 60 mph, and have faced many wild animals, but still they carry on.

Vincent Salabey, age 14, will be a freshman at Chinle High School. "I find it very hard to keep going. Doing it over and over again makes it hard, but when I think of home I keep on. That's what helps me through it."

Chad Holland, a 15 year old Junior said, "I decided to do this to see a lot of things, plus, it would be interesting. The hardest thing is the wind and the heat, but to be able to say that I did it keeps me going."

"This is educational and a lot of fun," said Debbie Yazzie, a 16 year old Junior. She also said, "Although it is very hard to keep riding, I don't want to be a quitter, so I keep on going."

Lorissa Toxe, age 16, will be a Junior at Chinle High School. "I wanted to go on this ride because it would be fun and interesting. I take it one day at a time, and now that we're getting closer to home, I am getting really anxious so it makes it easier to travel."

Daven Holiday, a 17 year old Senior said, "This is very fun, plus I'm getting school credit for it. Although the wind is the toughest thing to face, I just follow everyone else and seem to keep going."

"The wind makes the ride very difficult," said 17 year old Senior Nathaniel Salabiye. "I stick with my friends and just keep on riding."

Reggie Guy, age 17, will be a Senior at Chinle. He said, "I thought it would be an adventurous trip. I can meet new people and see how the hospitality of Texas is."

They are all very dedicated and hard working. It takes a lot of pride and will power to do what these teen-agers are doing. As Dub Manis says, "You never know what you are capable of doing until you do it."

Former Resident Receives Degree

Andrea Michele Edwards, former Clarendon resident, was among 557 students to receive degrees during the spring commencement exercises at Angelo State University in San Angelo, Texas. She received a Bachelor of Arts, Magna Cum Laude, Alpha Chi Honor Society, with a major in mathematics. She was also named to the Dean's List for the spring semester.

Andrea has accepted a teaching assistantship at North Texas University in Denton to teach two classes in mathematics while pursuing a Master's Degree.

She is the daughter of Rev. and Mrs. James Ivey Edwards of Albany.

"Take a drink every time you pass a water fountain, and keep a water bottle at your work area and sip on it through the day."

During exercise or strenuous outdoor activity, Pivarnik says to drink approximately 8 ounces of water every 15 minutes. Although the body can sweat two quarts of fluid in one hour during the hot summer weather, it can only absorb about one quart, making it crucial to be "stocked up" before, during, and after those summertime activities.

Dear Editor,

It seems sad that Christianity is looked upon with contempt, as opposed to being revered as a moral conscience. Have we gone too far in rejecting God in our lives, or have we as Americans grown callous toward religious freedoms and principles?

The Equal Employment Opportunity Commission, a government agency, has taken on the Christians and the right to religious practice by proposing stringent regulations on religion and the workplace. This goes beyond par-

tition lines and invades our way of life.

First we cannot wear any jewelry or display any articles that are religious in nature. By who's standards? and does this include traditional holidays like Easter and Christmas?

What the EEOC doesn't understand is to profess ones faith doesn't require a person to display articles or symbols to show what kind of person you are. It is by example that elicits genuine interest in the way we live and the way we treat others. We stand out and can be detected without uttering a word.

Secondly, we can be liable for

having a bible on our desk. Have we no privacy or personal space? It would be hard to work under these conditions where scrutiny is on Christians.

Third to ban prayer on business property seems to violate the freedom of religious practice. Religious harassment carries the same weight as sexual harassment yet there fails to be a comparison. To bow ones head over a meal at work is in violation of these propositoous proposals.

It is hard to imagine a country steeped in religious traditions is proposing to abandon the people who made this country what it is today. The moral fabric has come unraveled and the time has come to stand firm. It is unconceivable the government is allowing the few who are offended to negotiate the rules, yet what may be repulsive toward Christians is just expression or free speech.

The EEOC attempted to forge these ideas into law, but because of overwhelming public outrage reconsidered and opened a forum to open discussion.

If we are to have freedom of religion to include practice it is imperative your thoughts and feelings be known to your Congressman and Senator now before it is too late and our freedoms are quietly whittled away like a thief in the night.

Respectfully Submitted,

STUART H. CONDRON

Obituaries

Stuart H. Condon, beloved husband of Bobbye LaFon Condon and a broadcaster whose radio and television career spanned half a century, passed away at his home in Ventura, Calif., June 22 following a brave yearlong fight against cancer. He was 69.

Condon was also survived by five children, 13 grandchildren and three great grandchildren.

He was born Sept. 26, 1924 in Clarendon, Texas, to Dr. S.H. and Mary Condon. Dr. Condon was a professor and Dean of Clarendon College in the early 20's. Stuart married Bobbye LaFon on December 24, 1944. Mrs. Condon was also born in Clarendon and the LaFon family lived in the former town of Lelis Lake, before moving to nearby Clarendon in the 1920's.

A graduate of Canyon (Tx.) High School, Stuart earned his BS degree from West Texas State University in Canyon in 1944. More than three decades later he received his MA at the University of California, Santa Barbara, with a major in speech. He also received another MA degree from California State University, Northridge, in mass communications.

He retired in 1990 from Ventura College where he was a speech and communication and radio and television professor for 25 years.

Condon was one of the early pioneers in radio, beginning in the early 40's at KGNC Radio in Amarillo. He also worked with KFDA Radio in Amarillo, KCBD Radio and Television in Lubbock, Texas, and WACO Radio and KWTX-Radio and TV in Waco, Texas.

His broadcasting career took him to such newsmaking events as the USA's V2 rocket launch at White Sands, N.M. at the end of World War II. He also did network television reports on various stories in Waco.

In the mid 50's he also served as the guest emcee of the Grand Old Opry in Nashville. He hosted radio and TV shows featuring country and western performers in Lubbock and in Waco he produced and hosted a show featuring a historical look at Texas.

When his children were growing up he was active in Scouting (as an Eagle Scout), Little League and Junior Teenage League baseball and various church activities. He was also a great supporter of his grandchildren's many activities, which gave him immense pleasure.

Stu and Bobbye celebrated their 50th Golden Wedding Anniversary this Christmas with their family.

Survivors include his wife, Bobbye LaFon Condon; children Robert Condon and his wife B.J. of Colorado Springs, Cob.; Janice Lynn Condon Mahoney and her husband Clark of Chesapeake, Va.; John Condon and his wife Kay of Santa Barbara; Mike Condon and his wife Laina of Santa Barbara; Cindi Condon Knight and her husband Rob of Ventura.

total nutrition®**Fat and cholesterol made simple**

It's easy to lose track of some important nutrition fundamentals with so many reports in the media about the latest nutrition studies, says Brenda L. Thomas, registered dietitian and staff nutritionist for Total cereals.

One of those fundamentals is the relationship between fat, cholesterol and heart disease. Here are a few basics worth remembering:

- Studies indicate that a diet high in saturated fats may contribute to increased blood cholesterol levels.
- Excess blood cholesterol accumulates on the inside of artery walls and clogs them, which can lead to a stroke or heart attack.
- Therefore, if you want to reduce your risk of coronary heart disease, begin by reducing your

intake of saturated fats, say many health experts.

Foods from animal sources contain saturated fat. These include cheese, milk and ice cream, as well as the more obvious beef, chicken, pork and eggs. Exceptions are dairy products made from nonfat milk, which has little or no saturated fat.

Some vegetable sources also are highly saturated. Two examples are palm and coconut oils.

Reducing the amount of saturated fat in your diet can be done by making some simple substitutions. Thomas offers these examples to help get you started:

- Eat roast turkey or chicken instead of beef. Remove the skin and you'll avoid even more fat.
- Try cereal with skim milk for

a lowfat snack instead of chips or sweets.

• Top pastas with tomato-based sauces versus those made with cream, butter or cheese.

And, whenever possible, substitute lower fat alternatives for their full-fat equivalents, such as lowfat salad dressing instead of regular salad dressing, concludes Thomas.

Class Reunion Held

The Clarendon High School Class of 1942 held its 52nd Anniversary Reunion in Amarillo June 17 and 18, 1994. A total of 47 attended. This included 20 classmates, 3 teachers, and 24 guests.

The reunion began Friday, June 17 with registration at 1:00 p.m. at the Fifth Season Inn - West. Activities for Friday evening included a guided tour of Palo Duro Canyon, a barbecue dinner and the musical "Texas".

On Saturday, June 18 registration for late arrivals began at 9:00 a.m. The day was spent visiting and enjoying memorabilia shared by class members. At noon, Coach O. C. Warden, football players from the Class of 1942 and players from other years under Coach Warden held a special luncheon. They were joined by Stina Cain, who refereed most of the games played by Clarendon in 1942.

On Saturday evening classmates, teachers and guests met in the atrium of Fifth Season Inn - West for dinner and a program. A western theme was used in keeping with the western culture of Clarendon and in honor of the Broncos. To set the mood for the gathering, Barbara Collins sang a trio of country-western songs. Former Pep Squad members and some recruited helpers sang one of the old football fight songs. Other entertainment was provided by Jo Shaller, "cowgirl" poet, who read cowboy poetry, including three of her own compositions. Prizes were given to those wearing their class rings, and gifts were given to the teachers and coach in attendance. Ted Shaller served as auctioneer for a benefit auction of decorative longhorn steers. Proceed will go to the Clarendon PTA Playground Project as a gift from the Class of 1942. The evening closed with Barbara Collins singing "Somewhere Over The Rainbow" and "Auld Land Syne" in which the audience joined her.

Classmates attending were: Dwight L. Blair, Jack Gray, Kay Rhoades Green, Naomi Morris Green, Frankie Hommel Henson,

Redell Henson, Rowena Crutchfield Looney, Wilma Jean Warren Mandril, Sue Burton Norris, Juanita Bingham Phelps, LaRue Shadie Pittman, Max Rhea, Sara Beth Lowry Rhea, Joan Hillman Shaw, Basil Smith, Leona McCraw Stone, Ann Porter Stuckman, Bill Thornberry, Pat Grady Thornberry and J. F. White. Classmate spouses attending were: Linda More Blair, Soozie Gray, Harold Green, Harice Green, Herb Looney, Ray Pittman, H. C. Shaw, Letha Smith, Joe Stone and LaNelle White. The classmates felt particularly honored to have teachers Alta Lane and Edgar Mac Mongole along with Coach O. C. Warden and his wife, Juanita. Special guests were football players from other class years who played under Coach Warden and their wives. They were Johnie and Beth Beard, Bud and Pearl Hermessmeyer and Robert and Martha Summers. Entertainers and their spouses were: Barbara and Terry Collins and Jo and Ted Shaller.

Storm Clouds

by Mary Beth Nelson

Driving through a torrential downpour is not one of my favorite pastimes. Nevertheless, this is the predicament in which I found myself one summer afternoon not too long ago.

I was one of many slowed by heavy rain while leaving Amarillo. I suppose, at one time or another, that you, too, have experienced the

blinding splash on your windshield from a passing motorist. The steadiness of it can become nerve-racking.

After exiting the expressway to Highway 287, the traffic thinned quicker than the rain. Concentrating on my driving, but also noticing cloud movements, I became aware of a distant cloud ahead which appeared to be, literally, creeping across the highway. The clearness which gradually became visible "behind" it encouraged me that these circumstances were only temporary, and Clarendon was just on the other side of the cloud.

Reaching my home safely would depend on good common sense and being satisfied with very slow progress. With the Lord's help, I could achieve an inner calmness and patience which would allow slower, consistent driving through the elements.

"How true to other situations in life," I have since thought.

During those moments of hazardous driving, my goal was to reach my home in a distant community. The ultimate goal in Christians' lives is also home, the heavenly home in which God has promised eternal life with Him. By His mercy, this can be achieved if I am constantly consistent in taking things one step at a time, and allowing Him to be in charge of my life. Once I think that I am in control, anxiety results, preventing me from realizing the serenity that God offers.

On this earth, one encounters many "clouds". Only God can grant the inner calmness which is necessary to peace of mind. But I must allow Him to work in my life. Only in this way will I be able to reach the "other side of the cloud".

Higher Motivation/Association
I am thinking about asking Mike Rhinehart (The Jehovah's Witness) to run for public office. Talk about achievement... Someone went out and built, brick-ed, and landscaped a building west of town. Thursday night there was an unassuming slab. By Sunday at 3 p.m., 150 people, (including cooks) had built a modern facility complete with plush carpet,

mahogany stained hardwood trim, and country accent borders, in the current colors.

Coffee shop Humer has it that the difference between a dodge truck & a Jehovah's Witness is that you can't close the door on a dodge...I don't think the truck can get as much work done either. Congratulations to the Jehovah's Witness.
