HOLLY AND JOHN MARK Hutson of Houston were here over the Christmas holiday with their parents Jack and Katrina to visit their grandparents Mr. and Mrs. P.C. Messer. It was snowing when they were here last year and they enjoyed

making a snowman. Since there was no snow this year, they made a snowman out of tumbleweeds. This sign behind John Mark's head reads "Where's The Snow?". Also visiting in the Messer home was their son Tommy and his family from Amarillo.

Bronco roundball

Come out and support our tough Bronco basketball teams.

The Clarendon boys basketball team traveled to Valley Tuesday, December 18 and lost 44-75. The Broncos played a good first quarter but the Patriots took advantage of the Broncos defense and took control of the game. Rod Krown and Randy Crump were the outstanding players of the game. Rodney Smith led all rebounders with seven. Randy Crump was the leading scorer with sixteen points.

The boys junior varsity basketball team lost a close game to Valley 36-37. Each team led by several points throughout the game but the Valley junior varsity made a basket with less than a minute to go to provide the Patriots with the winning edge. A Bronco field goal attempt with less than five seconds on the clock fell short.

JAMES (PUD) BAIN stopped by the courthouse Friday to help celebrate his retirement. John retired as Donley County Attorney as of December 31, 1984.

Retirement party held for County Attorney John Knorpp

A retirement party for John Knorpp, County Attorney, was given Friday in the commissioners courtroom.

John is a life long resident of Clarendon. He was born in Clarendon, but spent most of the winter months as a youth in Long Beach, California. His father and grandfather were both old time ranchers and part of the original organizers of the Donley County State Bank.

John's mother, Bliss Bugbee Knorpp, thought the winter in the panhandle was too severe. About 1910 the Knorpp family, which consisted of Mr. and Mrs. Wesley Knorpp, John, Carroll and Buddy, spent the winter in San Antonio, as Mrs. Knorpp thought that the winters would be milder. John stated, "that was the coldest winter on record for San Antonio, hundreds of people died with the flu that year." The next winter the family moved to Long Beach, California. They always returned to Clarendon in the summer time.

John graduated from Woodrow Wilson High School, Long Beach, attended Menlo Junior College, Palo Alto, attended Southwestern Law

School in Long Beach and graduated from Jefferson Law School, Dallas. He was a member of the last graduating class from Jefferson Law School.

He was elected county attorney for the first time in 1939. He served four years. He then went to work for the State Attorney General's office in Austin. He had an office in the Capital Building. He entered the army in 1944 and was attached to the Counter Intelligence Corp (CIC). He was assigned as a special agent for the War Department in Weiden, West Germany.

After being released from the army, he practiced law in Clarendon for a while, then went to work for the Veteran Administration in Lubbock and Amarillo for the next 10 years. He returned to Clarendon about 1950 and went to farming and ranching. He was re-elected county attorney in 1974.

John stated, "the first week I am off, I intend to sleep without getting up. The next week, weather permitting, I intend to sit on my front porch in my rocker. The third week, I might even rock a little."

Services held for Ora Murphy

Services for Ora Lee Murphy, 88, 3439 Amherst, Amarillo, were Saturday in Robertson Chapel of Memories, Clarendon, with Rev. Bill Watson officiating. Mrs. Murphy passed away Thursday, December 27 at Clarendon Medical Center where she had been a resident for four months.

She was married to J.W. Murphy at Paducah, Kentucky in 1912. Mr. and Mrs. Murphy owned the Murphy Funeral Home from January 1946 until he passed away in 1953. Mrs. Murphy continued to operate the

funeral home until December 1974. She was a member of the First United Methodist Church, Clarendon, where she was active in the United Methodist Women's Society.

Survivors include two daughters, Louise Payne and Ruth Neal, both of Amarillo; a son Joe of Amarillo; eight grandchildren and 17 great grandchildren. One son, Pat Murphy preceded her in death in 1975.

The family suggests memorials be made to Medical Center Nursing Home, Clarendon, or your favorite charity.

Gibsons Discount Center Burglarized Saturday

Saturday, December 29, when Assistant Manager John Smith opened Gibson's Discount Center, he discovered that the store has been broken into during the night.

Several hundred dollars worth of watches, gold and silver chains, stereos, speakers, guns and several other items as well as money had been taken.

The merchandise was stacked on a toy wagon and a dolly taken from the store and taken out the back door. Sheriff's officers followed the tracks to an empty house on the other side of the railroad tracks behind the

store. Officers found not only the Gibson's merchandise but jewelry taken on November 29 from the residence of Billie Johnson.

Johnny Gaines, 20, was arrested and charged on two accounts of burglary. Gaines is on probation from Amarillo and is in the Donley County jail pending action by the grand jury.

James Stubblefield, manager of Gibson's, stated, "I would like to express my appreciation to the Donley County law enforcement officers, their fast action resulted in a quick arrest and the return of the merchandise taken from the store."

Who's Taking Vitamins?

Vitamin and mineral supplements are a popular -- even if not always necessary -- part of the American diet, says a Texas A&M University Agricultural Extension Service nutritionist.

A recent Gallup Poll shows that about 40 percent of the adult population uses vitamin or mineral supplements, says Dr. Alice Hunt. Multivitamins lead the product sales, followed by Vitamin C, B vitamins and Vitamin E, she adds.

Food and Drug Administration (FDA) studies indicate that women are more frequent users of supplements than men in all age groups, says the nutritionist. Heaviest users are those over 65 years of age. While half of all users take only one supplement, about 11 percent take five or more different supplements daily.

One recent study of national health and nutrition suggests that this vitamin and mineral use is not related to actual need, except for iron supplementation in women of child-bearing age, reports Hunt. But vitamin use is influenced by advertising and promotions as well as individual health beliefs.

"The vast majority of people can get all the vitamins and minerals they need by eating a well-balanced diet," Hunt maintains. "If you are concerned about your nutrient intake, a physician or registered dietician can tell you whether you need a dietary supplement or not."

If you take vitamins and minerals without consulting a physician, be cautious, says the nutritionist. The FDA has only limited authority to regulate supplements, except for those intended for children under 12 or for pregnant or lactating women. The FDA is not allowed to limit the combination or number of vitamins, minerals or other ingredients in a supplement product.

Most supplement products are safe, says Hunt, since they contain modest amounts of vitamins and minerals which approximate the U.S. Recommended Daily Allowance (RDA). However, higher potency products can be a cause for concern, she says.

For example, extremely high potency selenium products were recalled by the FDA this spring because they resulted in the loss of hair and other adverse effects.

Even when supplements are safe, they may not be everything they claim to be, the nutritionist cautions. Small, high-priced tablets of dried vegetables were sold last year with the claim that they were a substitute for vegetables for those interested in a healthful diet to prevent cancer. The FDA has since required that the claims be withdrawn.

"Before spending money on vitamin and mineral supplements, consumers really should know what they're taking and have a medically sound reason for adding it to their diet," emphasizes Hunt.

QUICK QUIZ

Now's a good time to test your knowledge of natural gas — one of the most important energy sources of the eighties.

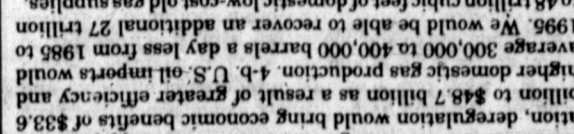

1. The Natural Gas Policy Act (NGPA) of 1978 was passed to help our nation cope with a natural gas shortage a) True b) False

2. When partial deregulation of natural gas prices occurs on January 1, 1985, prices are expected to rise sharply. a) True b) False

3. Comprehensive natural gas deregulation would mean economic benefits and higher domestic gas production. a) True b) False

4. The U.S. would have to import more foreign oil if domestic natural gas supply prices were deregulated. a) True b) False

Answers: 1-a, 2-b, 3-a, 4-b. According to a new report, gas prices will not rise significantly, or "fly up," after January 1, 1985 when partial deregulation becomes effective under the NGPA. Greater market flexibility will encourage producers and pipeline companies to adjust prices in response to competitive forces. 3-a: According to the Natural Gas Supply Association, deregulation would bring economic benefits of \$3.6 billion to \$4.7 billion as a result of greater efficiency and higher domestic gas production. 4-b: U.S. oil imports would average 300,000 to 400,000 barrels a day less from 1986 to 1996. We would be able to recover an additional 27 trillion to 48 trillion cubic feet of domestic low-cost oil gas supplies. (Source of information: Department of Energy.)

Texas boasting more smaller farms

Farming in Texas is continuing to expand, according to recent figures released from the 1982 Census of Agriculture.

The U.S. Census Bureau defines a farm as any place from which \$1,000 or more of agricultural products were sold or normally would have been sold during the census year.

Should calves be wormed, implanted?

Worming and implanting of steer calves have been touted by many as a paying proposition, but just how good are these practices?

A study conducted last fall on the Heine Bade farm in Dewitt County shows that using growth implants does pay but that worming is questionable.

Dr. L.R. Sprott and Dr. David Bade, beef cattle specialist and forage specialist, respectively, with the Texas Agricultural Extension Service, Texas A&M University System, conducted the study which involved four treatments of nursing calves: one implant, no implant, one implant and a worming agent, and one implant following by another in 90 days. Ralgro implants and Tramisol worming agent were used.

Steers that received at least one implant had an increase in average daily gain of just over two-tenths pound compared to non-implanted steers during the first 90 days, points out Sprott. There was little difference in average daily gain among implanted steers and those that were both implanted and wormed.

After the first 90 days of the study, half of the previously implanted steers were given another implant, which increased average daily gains by almost four-tenths pound compared to steers that originally received one implant.

What does all this mean in dollars and cents?

The greatest return--\$35.40 per head--came from re-implanting steers after 90 days when compared to those receiving no implant, Sprott points out. When compared to steers receiving only the first implant, those that were re-implanted increased returns \$20.40 per head. Implanting once versus not implanting increased returns \$15 per head.

The study clearly shows that implanting steer calves, preferably twice (every 90 days), can greatly increase profits on sale day, says Sprott. Worming could help worm-infested calves but is not likely to be a profitable practice in healthy calves, he adds.

LOCAL

Mr. and Mrs. Herman Cross of Memphis, Mr. and Mrs. Lloyd Benson, Mrs. Ernest Kent, C.L. Benson and Mrs. Benny Osburn and Blake were in Amarillo Sunday to attend the 60th Wedding Anniversary of their aunt and uncle Mr. and Mrs. Neely Hudson. The event was held at the Elizabeth Jane Bivens home where the couple resides and was hosted by their son Mr. and Mrs. Dewayne Hudson of Amarillo.

IT'S A FACT!

The 1960's was a decade of change and television played a big part in that change. John Kennedy and television sort of rode into town together. It's been said he was our first television President, and that his charisma punched right through the screen. What was true in life was true in death. His was the first televised assassination and state funeral.

The change and social upheaval in the 1960's was the subject of an hour long documentary aptly called "Change, Change." It is the 19th and final documentary in the acclaimed "A Walk Through The 20th Century" series with Bill Moyers. The series, made possible by a grant from Chevron, has been nominated for four Emmy Awards.

Daniel Defoe, the English writer who penned *Robinson Crusoe*, has been called the father of the English novel.

The number of individual or family farms in the state rose 5.7 percent from 1978 to 1982 while the U.S. total fell 1 percent. At the same time, family farm acreage fell 5.4 percent in Texas and 4.7 in the U.S., notes Dr. Forrest Stegelin, agribusiness economist with the Texas Agricultural Extension Service, Texas A&M University System.

A major item of interest from the census data was the increase in smaller farms, in both Texas and the nation, says Stegelin. Farms of one to nine acres increased 43.3 percent in Texas and 24.1 percent nationally, while those of 10 to 49 acres jumped 47.3 percent in Texas and 14.7 percent in the U.S. Farms in 50 to 179 acres increased only 2.6 percent in Texas while all categories of larger farms decreased except for those of more than 2,000 acres, which showed a 1.0 percent increase.

The number of Texans citing farming as their main occupation rose 6.5 percent while the U.S. figure was down 2.7 percent.

Texas farmers had an average of 52.4 years compared to the U.S. average of 50.5 years, with a sharp increase in farmers 65 years old or older, Stegelin points out.

Farms averaged 707 acres in Texas in 1982 compared to 439 for the U.S.

average. Farms boasting a lot of woodland increased 10.5 percent in Texas during the four-year period but fell 2.4 percent nationally while farms of mainly pastureland and rangeland increased 8.4 percent in the state and 1.6 percent in the U.S. Irrigated acreage declined almost 20 percent in Texas while the national irrigated acreage fell only 2.7 percent, notes Stegelin.

The increase in market value of agricultural products sold by Texans from 1978 to 1982 did not keep pace with the U.S. average, says Stegelin. The Texas market value increased only 8.1 percent while the national increase was 23.1 percent. The average market value per Texas farm increased 2.5 percent while the

national average jumped 24 percent during the four-year period.

Regarding the market value of certain crops, Texas grains were up almost 50 percent while cotton and cottonseed fell almost 33 percent. Vegetables and melons were up about 23 percent while the value of nursery and greenhouse products skyrocketed 69.5 percent.

The market value of Texas livestock and poultry increased 6.1 percent during 1978-82 compared to the national gain of 18.1 percent.

By value of sales, only 2.7 percent of Texas farms had a volume of \$250,000 or more in 1982 while almost 51 percent had sales of less than \$5,000. These figures dispel the notion that Texas farmers are big marketers, points out Stegelin.

FACTS & FIGURES

Every week, hundreds of lives could be saved. That's how many people in this country are killed in motor vehicle accidents. Every day, almost 10,000 others are injured on our streets and highways.

If you are involved in a car crash in which you are wearing a safety belt, you are much less likely to be injured or killed than if you are not wearing any safety belt, according to the U.S. Department of Transportation, National Highway Traffic Safety Administration. Wearing a safety belt more than doubles your chances of surviving an accident.

If every driver and passenger in the United States would wear safety belts during every trip in a car, about 14,000 lives would be saved every year. Twenty billion dollars in costs would be substantially reduced every year. Costs that are borne by taxpayers who pay for extra police, medical rehabilitation and welfare services, by employers who pay for lost work time, and by people who must pay higher insurance premiums due to deaths and injuries that wouldn't have happened if safety belts had been used.

MEDICAL CENTER Nursing Home Christmas Tree.

Medical Center News

by VERA JOHNSON
 The residents and employees wish to take this time of year to express our thanks and gratitude for all the lovely things that the churches, clubs, and individuals have done for us, for the many kind deeds that everyone in our community has done for our residents at Medical Center.

We wish to thank the churches and pastors for the Sunday afternoon church services they have brought to our residents through the past year.

Thanks to Bro. Bruce Hofmann for our Thursday night Bible Study, to Mrs. Helen Rogers for being so faithful in teaching our Sunday School each Sunday morning, the Martin Baptist Church and all others who made the Country Store a wonderful success. It brought so much happiness to our residents and their families, to the Littlest Angel Choir of the First Methodist Church for their sweet Christmas program, to the LVN class for their program, fruit and Cokes, Bro. Paul Heil's special Christmas message with film, Church of Christ for Christmas baskets of fruit and aprons, Harlan's Flowers for the beautiful Christmas corsages they gave to each resident and all the lovely vases of flowers they sent for every special occasion, Mrs. Beth Nelson for teaching music therapy every Monday afternoon, Mrs. C.F. Moss and all the faithful singers that come twice a month to sing for our residents, Clayton Ferris who plays the piano for the residents as they are getting ready for their evening meal, Louise Payne for our new Christmas tree decorations, Methodist ladies for the lovely gifts for our residents, weekly visitors, volunteers for all types of programs and volunteers who help serve the evening meal, kitchen employees who gave each a beautiful red rose, plates of cookies from the ladies of the First Baptist Church, the 4-H Club for fruit and singing, Calvary Baptist Church for gifts and the night of our residents Christmas party, and if we have missed your name we are grateful for any service you may have done for us.

Also we wish to thank Mr. and Mrs. Santa for a wonderful time they

helped give us when we had our Christmas tree, also thanks to the families of our residents who furnished food for their evening meal. Also we don't want to miss Hugh Mahaffey for helping move out all the tables and returning them to the dining room the night of our Christmas tree and program.

Mrs. Carrie Johnson wanted me to thank each and every one for the good nursing care and proper food, all the nice activities that she enjoyed while she was recovering from her two surgeries and all the nice clean clothes, and clean room that she enjoyed while she was regaining her health. She thinks Medical Center is a wonderful place to be when you are sick and need care. She said, "I love all the employees, they all were so nice to me."

All the residents want to say thanks for all the wonderful things that are done for them. May God bless all of you and have a Happy New Year.

Watt's Happening in Hedley

By PEGGY WATT

On December 16th Buddy and Alma Lamberson came from Pampa in their R.V. and picked up J.T. and Helen and took them to Burkburnett for Buddy and Alma's granddaughter's birthday party. They ate at Show Biz Pizza Place and had pizza and birthday cake. Nettie Alexander is home from her

son's home in Denton. R.H. and Tommie took Nettie and Tommie's aunt, Mrs. Ruby Leggett to Waco to the home of Mike and Sharon Newman for Christmas. They were joined there by their son, Richard and Judy Alexander of Plano. Nettie intended to visit Pat Lesley in Houston, but came home early on

account of a bad cold. When I saw her Sunday, she was wrapped in a Ben-Gay soaked towel. Hope she's feeling better soon. It's bad to be sick at Christmas.

Connie and Mahdeene DeBord celebrated Christmas this weekend. Debbie and John Flanary couldn't get home before then. Connie Lee and Troy Wilson and Cory and Brad came along with Slat and Peggy DeBord.

I talked to L.D. Ball a few days ago. Darlene is ill. I don't think her recent heart surgery is giving her trouble. She seems to have the flu or some obscure virus.

J.T. and Helen Lamberson spent Christmas in Pampa with Bud and Alma. Their grandson and his family from Burkburnett met them there. They enjoyed Santa's visit on Christmas Eve.

Jean Rowell spent Christmas with Louie and Dottie Bogue. Their children live away, except Kim and Bill Jeffery and they had company, but Dottie didn't know their names. She really wasn't too informative.

Jack and Jackie Stafford went to Spur for the holiday. They met Bob and Sandy Stafford, Jay and John at the home of Sandy's parents, Borde and Adrin Puckett.

Pie Adamson had a brand new

great grandson. Born December 23 to Jerry Don and Judy Davis of Spearman, he was named Marcus Wade. He weighed 8 pounds 4 1/4 ounces and was 21 inches long. According to Pie, he's the most beautiful baby born lately. She said he looked just like her!

Radell and Elizabeth Sanders of Tulia visited his mother, Beaulah and D.K. Hall Friday. On Sunday Gene Sanders and Delores Gouch of Dimmitt and Lisa and Renee Sanders of Childress visited the Halls.

Don and Eram Lee Young and Milissa and Landon of Wichita Falls visited her parents, Woodrow and Ora Pearl Farris last week.

Paula Clendennen of McLean visited her parents Tom and Opal last week. Opal and Tom have both been on the sick list. Tom's been to the doctor. Laqueta Cox has been tending to Opal.

Alfred and Elloise Spalding had all their family home during the holidays. Martha and Doug Lowe of Fort Worth and David Lowe of Duncanville were there. Sara and Gary Carter and Lisa and Deena Messer of Clayton, Kathleen and Bob Pixley of Lindsey, Oklahoma, Randy and Debbie Matthews and Jason of Sayre, Oklahoma and Darrell Messer of Gruver completed the party. Jack and Jackie Stafford visited sometime during that time.

Boots and Eunice Ward had all their kids home for the holiday except Jean and her family. Those enjoying their mother's cooking were Glenn and Wanda Ward, Helena, Debbie, and Glenn Eric of Childress, Ronnie and Becki Ward of Hugeton, Kansas, Ricky and Pam Ward, Lewanna and Brent from Lakeview, Lorene McCrary, Dean and Shanna and Shawna, Leon and Carole Ward, Amanda and David of Hedley, and Pam's sister Shelly Mize from Houston. Tonya and Lawun live at home so they didn't count as visitors.

A.E. and Jackie Ranson recently had their daughter Reatha and Gayle Pyeatt of Amarillo and their granddaughter, Mary Margaret and Scott Ekart of Dallas visiting in their home. Reatha told me she got up before breakfast and helped A.E. feed the cattle. I wonder how long it's been since she shared that chore with him.

T. Mullins got along alright Christmas. He and Nancy and the boys came to our house for Christmas dinner and went on to Estelline to Bob and Mildred Jewett's house for supper. Actually we enjoy the company of the Mullins family. Bill, Steve, and Danny are my very favorite nephews. My parents Moon Mullins and Mrs. Lola Brown and Linda Ivy were here also.

Earnest and Shirley Lamberson and Jack and Sue Nivens had supper with J.T. and Helen Lamberson Friday night.

Bill and Juanel Carson had their daughter and grandchildren with them at church Sunday. Susan Cosby, David, Charlotte, and Nancy don't get to visit the church in Hedley very often. Susan's husband, Stan, is the pastor of one of the churches in Amarillo and for the life of me, I can't remember which one it is. Whichever one it is, I saw his picture, along with Mrs. Tom Tate in the paper not long ago. Stan was horseback. It had to do with the Kenneth Wyatt painting of two hundred years of Methodists.

Lisa Mullins came by for a short visit Saturday. She's living in Amarillo and attending T.S.T.I. She'd been with her mother, Janie Mullins, in Memphis for Christmas. She's got to be the nicest niece I have.

The floor covering is down in the basement of the Methodist Church. It looks real nice. Several of us were admiring it Sunday morning after church. There was a rock about the size of a man's fist laying on the floor and the window was broken. I can't believe a car could throw a rock that size through the window. Especially since most of the window is screened by the evergreen trees that grow just outside the building. Helen Lamberson and I are anxious to have a social at the church.

Lori Ann Yannis has been with us during the school holidays. She has to go back to school Wednesday, so I guess she'll be going home this week. We always enjoy her. She's like I imagine a grandchild would be. She's in the first grade now and beginning to read and write. It seems impossible. It's been no time at all since she was just a baby.

Harry Rowley was here a few days ago. He had bought one of the boy's hogs and finigled Fred and Keith and Guy to help him kill it. If I had my druthers, I'd druther Dewey and Shirley Butler do my butchering. That way, when you get your meat, it's sliced and wrapped in nice tidy packages and all you have to do is cook it. That's the way I like it. I can't slice bacon or ham worth nothing. Besides that, I usually manage to cut myself while I'm slicing it.

Eva Canada is home after spending several days in the home of her

daughter, Cieta Davis in Little Rock. Laqueta Cox spent the weekend in Stinnett with Pick. Jeanette Cates and Billy Ray joined them there.

Herbert Spier is in the VA Hospital in Amarillo.

Wally Jones of San Rafael, Ca. has been visiting her sister, Dean Hill, recently. She's in Fort Worth visiting Wendell and Patsy Spier.

Red and Dean Hill spent Christmas in Dallas with their daughter and son-in-law, Sue and Ray Pinkerton. Their other kids, Neva and Max Lewis of Quannah, met them there. Red spoiled the grandkids, Chad and Mandy Pinkerton and Eric and Karah Lewis. When they got home Dean was rushed to the Childress Hospital where she spent several days suffering from bronchitis and asthma. She came home Sunday.

Amy and Tammy Osborne cele-

brated their birthday last week. Their parents, Duane and Gayle, hosted a birthday breakfast for them. Afterward nearly all the kids in town participated in a scavenger hunt. The winning team was treated to a pizza party in Amarillo Sunday.

This has been a most unusual December. We've had about 6 inches of rain. It's also been foggy several days. We haven't had a lot of ice, but have had some. The pond hasn't frozen hard enough to skate on yet. Not hat I skate, mind you, but the kids enjoy it.

Classes at Hedley school will resume this week. Most mothers will be breathing sighs of relief and the teachers will be groaning. Basketball season is well underway and the kids will begin drama and start working on the UIL competition. That's what I'm looking forward to.

JET-LAG RELIEF

The effects that result when one moves quickly from one time zone to another ("jet-lag") include an inability to fall asleep, reduced daytime alertness, and changes in mood. The same type of problems can occur with changes in one's work schedule-for example, working nights instead of days or vice versa.

Two medicines that were thought to be helpful in reducing the problems with jet-lag were studied with a report appearing in a recent issue of SCIENCE. In this study, the bedtimes of several individuals were shifted 12 hours for three 24-hour periods. One group of individuals received the prescription sleep aid

flurazepam, which lasts several hours in the body. Another group received triazolam, which has a much shorter duration of action. And a third group was given a capsule with no active ingredient (placebo).

Persons receiving the placebo experienced difficulty sleeping while the other two groups had almost normal sleeping patterns. The group receiving the short-acting drug triazolam appeared to be most alert following sleep.

Most of us need no medicines when changing time zones or work schedules. For those who have severe problems, however, a sedative might be suggested by their physicians.

LAW**

PRESENTED BY THE
STATE BAR OF TEXAS

Q: My husband and I have no chil-
dren. If he dies without a will, do I
inherit all community property?
What about property owned before
our marriage?
A: If your husband dies without a will
and without any surviving children, you
will inherit his half of the community
estate.
The property owned before marriage,
which is separate property, passes in a
different manner. You as surviving wife
receive all his personal separate property
and half of the real estate. Your husband's
parents or his descendants inherit the
other half.
Q: My husband and I are consider-
ing selling our house, but I am con-
fused by some of the terminology. For
example, what is meant by the term,
"Points?"
A: A point is one percent of the loan,
and it is usually assessed by the lender
as a cost of the loan. In this manner, the
lender makes more money from the
loan, but the interest rate stays competi-
tive with other loans in the market.
Usually, a buyer and seller will negoti-
ate who will pay the points at closing,
thus increasing the cost to the buyer or
reducing your profit.
Q: Is a marriage considered valid
in Texas if the woman marries under
a false name? Also, does a judge ask
for a marriage certificate in cases of
divorce or probate?
A: Yes, a marriage even under a false
name will be valid, unless there are
other reasons the marriage might be
void. Therefore, the license is valid.
Ordinarily, neither the divorce court
nor the probate court will require a
copy of the marriage license, unless
there is some question whether the mar-
riage was valid.
Send your questions to "You and the
Law," State Bar of Texas, P.O. Box 12487,
Austin, 78711. Answers may appear in col-
umns in hypothetical terms; personal
answers not possible.
