Proclamation

BY THE County Judge of Donley County

To all to whom these presents shall come:

I, Billie Christal, County Judge of Donley County do hereby declare the week of September 16-22, 1984 as FARM AND RANCH SAFETY WEEK in Donley County, for the following reasons:

Whereas, the president has proclaimed the 41st annual National Farm Safety Week (founded in 1944 to fight accidents impairing wartime food and fiber production) and the Governor has proclaimed the same period as Texas Farm and Ranch Safety Week; and

Whereas, during this week, a statewide farm and ranch accident/illness prevention education campaign is being undertaken by the Texas Farm Bureau, the Texas Farm and Safety Council, the Texas Safety Association, the Texas Agricultural Extension Service and 4-H Clubs, Texas Education Agency through the Texas Future Farmers and Future Homemakers of America, the Young Farmers and Young Homemakers of Texas and the Donley County Farm Bureau with the theme, "MANAGE FOR BETTER SAFETY AND HEALTH"; and

Whereas, the National Safety Council estimates indicate that in 1983 farm work accidents resulted in approximately 1,900 deaths and 190,000 disabling injuries. This unhappy toll is further compounded by many job-related illnesses. The direct economic costs of these problems exceed \$5 billion annually, and there is no way to measure the pain, despair and family disruption that also result.

Therefore, I urge every man and

woman engaged in farming and ranching to make basic safety and health a priority in every activity and task -- on the job, in the home and on the highway. I call upon parents especially to teach their children good safety and health practices and instill in them a positive attitude toward safety and health which will serve them well throughout their lives.

Billie Christal
County Judge
Sept. 16-22 proclaimed Farm and Ranch Safety Week

County Judge Billie Christal has proclaimed September 16-22, 1984, as Farm and Ranch Safety Week in Donley County, at the request of Harold White, Donley County Farm Bureau president. This year marks the 41st annual observance of National Farm Safety Week, co-sponsored by the National Safety Council and the U.S. Department of Agriculture. Farm Safety Week was founded in 1944 to fight accidents impairing wartime food and fiber production. The theme, Manage for Better Safety and Health, recognizes that safety and health must be a management goal if losses due to farming accidents and illnesses are to be controlled.

In the proclamation, Judge Christal said, "I urge every man and woman engaged in farming and ranching to make basic safety and health a priority in every activity and task -- on the job, in the home and on the highway."

Donley County Farm Bureau President Harold White said, "We wish to emphasize this year's Farm Safety Week theme - Manage for Better Safety and Health" - Successful farmers and ranchers know that how well they use their heads at the desk is just as important as how well they use their hands in the field. There's just no substitute for good management. They also know accidents and work-related illnesses cost time, money and sometimes life, and that there's no substitute for making safety and health a top management goal.

*Develop a safety and health plan tailored to your operation and those who live and work on your place.

*Keep informed about safety and health. Attend local events that include them. Encourage children to take part in 4-H, FFA and other safety projects.

*Carry out regular safety inspections of equipment and facilities.

*Buy quality products, then use and care for them as directed in product manuals, on labels and or as instructed by product suppliers.

*Train your help, then see that they work safely.

*Take needed precautions before starting a job. Have the right tools. Check out equipment. See that shielding is on, that correct personal protective equipment is worn.

*Take care of your health. Be fit and ready for a safe day. Avoid activities that require normal competence if ill or taking strong medications or alcoholic drinks.

*Respect limitations of mind and body. Take action to reduce stress. Get enough rest and take work breaks to reduce fatigue.

*Keep children off and away from machinery. Give youngsters chores they can safely handle.

Be prepared for medical, accident, fire and weather emergencies.

DYRON HOWELL

New Literary trophy presented to CHS

Bob Howell, principal of Clarendon High School, has announced the arrival and display of a gift trophy to the school.

Given by Helen and J.C. Woody, owners of The Clarendon Press, the trophy is a tribute to the literary talents of CHS students participating in UIL contests.

The trophy is a rectangle of approximately 12 x 16 inches. The top section is glossy onyx-like material bearing the inscription "Woody, Literary Honor Roll, State Finalists". At either side of the inscription gold medallions repeat the gold of the lettering.

The dark walnut wood body of the trophy is the background for the glossy black individual plates let-

tered in gold which lists the state winners for 1984 and 1984 state finalists.

Privileged to appear on the initial display are 1983 winners: Dorothy Braddock, state champion in Editorial Writing; Dyron Howell, fourth place in Persuasive Speaking; and Dalyn Croslin, fifth in Headline Writing.

For 1984 the winners listed are Annette Watson, state champion in Prose Interpretation and Dalyn Croslin, fourth in Headline Writing.

There is plenty of room for many more name plates as students continue to distinguish themselves in the literary competition of UIL state contests.

INFECTION-FIGHTERS

Medicines used to help the body fight bacterial infection are called antibiotics or antifungives. There is a large number of different bacteria that cause infection and, fortunately, there is a large variety of agents available to fight the infections thus produced.

The infection-fighting value of sulfonamides [the "sulfas"] was discovered in the early 1930's. Labeled "miracle drugs", the sulfonamides revolutionized our thinking about infection. The importance of penicillin as an infection-fighter was discovered shortly thereafter. People became excited about the

possibility of living in an infection-free world. Unfortunately, this possibility has not materialized.

What has materialized, however, is an increasing variety of antibacterial agents that help us cope with life-threatening infections. Streptomycin, for example, brought hope to thousands of individuals suffering with tuberculosis. The broad spectrum antibiotics which began to emerge in the 1950's and 1960's resolved a variety of infections that would not respond to sulfonamides or penicillin. Tetracycline, chloramphenicol, and - more recently - the cephalosporins have often been proven to be more miraculous than their predecessors.

FARM-STORED GRAIN UNDER CCC LOAN

When you get your commodity loan at your local ASCS county office, you sign an agreement with the Commodity Credit Corporation. Your responsibilities are spelled out in the terms and conditions section of the agreement. IT'S ALL THERE IN THE FINE PRINT - so read your agreement carefully. Until your farm-stored loan is satisfied, you are responsible for both the quality and the quantity of the grain under loan. Deterioration, shortage or contamination can cost you money when it's time to settle up. Protect your interests and safeguard your commodity by using good storage management.

While your grain is in storage, you should check the grain carefully at regular intervals (2-3 weeks). Grain temperatures should be checked at each inspection (any evidence of higher than normal temperature is a danger signal). Look for insects (likely spots are

grain surface peaks, at the unloading door and the southwest side of the bin). Use an approved fumigant, if necessary, to kill insects. If your bin is equipped with fans, aerate to cool the grain when outside air is cooler than the grain.

DEADLINE NEARS FOR WHEAT INSURANCE

The final application date for Federal Crop Insurance on 1984-crop wheat in Donley County is August 31st, according to Gene Hamilton, District Director of the Federal Crop Insurance Corp. Hamilton adds, however, the wheat growers interested in participating in the special individual yield coverage program should apply for the necessary yield certification by December 1st.

Farmers who can qualify for the IYC plan are offered higher yield guarantees at no additional cost. To be eligible, Hamilton explains, producers must have records to show that average wheat yields during the three most recent crop

years have been above the average for the area.

Yield records should be submitted to the ASCS office in Donley County for certification. Hamilton suggests that interested producers may want to contact the ASCS office in advance to determine the kinds of acreage and production records that are needed.

WHEAT PROVEN YIELDS

Wheat yield and base notices for the 1985 crop year will be mailed out soon. If you feel the yield assigned by the Donley County ASC Committee is lower than what you actually produced the last few years, then you may want to apply for a proven yield. Just bringing your production into the county office doesn't mean that you have made it clear that you want to prove it. If you are interested in providing your wheat yield and further questions, please feel free to come by the office and inquire.

1984 WOOL AND MOHAIR SUPPORT RATES

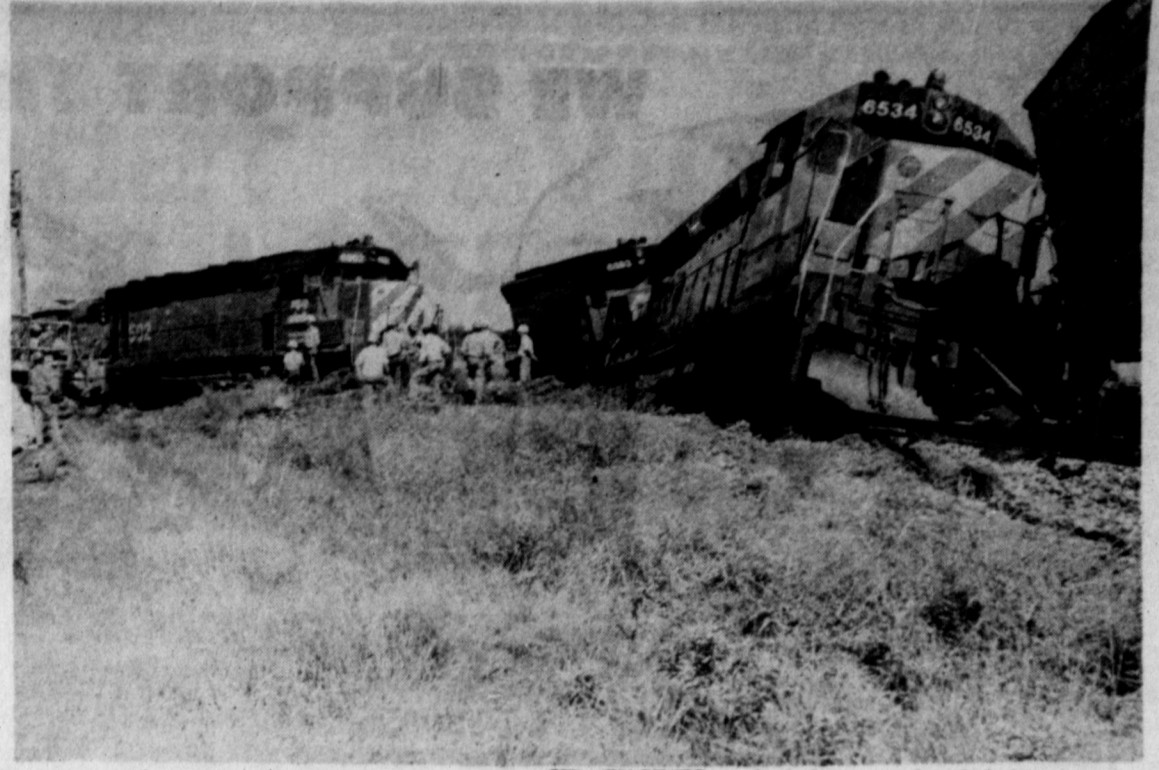

Support prices for wool and mohair for 1984 marketings are \$1.65 per pound for shorn wool and \$5.169 per pound for mohair, according to Secretary of Agriculture John R. Block. Mohair is being supported at the same percent of parity as wool.

NOTE OF THANKS

Thanks to our farmers for their cooperation in filing 1984 crop planted acreages with the county office. It was a big task for both farmers and the office staff. The identification of all planted crops on farm sketches and the listing of each area planted took a great deal of time. After we complete a review of all individual farm reports, a county summary of all crop acreages will be made.

AERIAL OBSERVATION

Those of you that requested measurement services on spring seeded crops will be happy to know that we should be receiving slides in the near future, so be alert and come into the office when you receive your notification that you have been measured.

SIX ENGINES and 4 boxcars derailed in Clarendon Sunday morning.

Train derailed in Clarendon Sunday

The county office will use these slides to verify accuracy of reports again this year for all crops. Hopefully, we will have better quality slides this year due to the recent rainfall.

ACR MAINTENANCE

It is very important that ACR (set-aside) acreage is maintained. The acreage needs to have a cover crop seeded or a crop residue to prevent wind erosion and weeds must be controlled. Emergency tillage operations to control weeds are only able to be carried out on acreages that the producers requested and were approved by the County ASC Committee.

I realize that dry weather and then wet weather has been a problem in being able to seed a cover crop, but the acreage must be maintained and a cover crop seeded when conditions permit. Be sure and control wind and water erosion during this time and control weeds all of the time. Maintenance checks will be made by state and local offices.

LOCAL

Visitors in the Homer Bond home and the Hugh Sanders home Sunday were Mr. and Mrs. Ed Holloway of Canyon.

There was another train derailment Sunday night, when six engines and 4 cars jumped the track directly behind Chamberlain Motor Company.

According to Mr. Lynch, a supervisor for Burlington Northern Railroad, the derailment started at a switch about 800 yards south of the crossing on Avers Street. The exact

cause of the accident was still under investigation Monday afternoon.

There were approximately one hundred fifty thousand dollars of damage done to the railroad property according to Lynch. The wreck-age was cleared by 1:30 p.m. Monday and by 6 p.m. the railroad was cleared for traffic.

Only one President so far has held a Ph.D. degree—Woodrow Wilson.

DON'T SHOOT AT POWER LINES!

Never shoot at power lines or the insulators that hold them. A severed line could cause a dangerous power outage, and the downed line itself could also be a very serious safety hazard.

Here are a few other tips on how to live more safely — electrically:

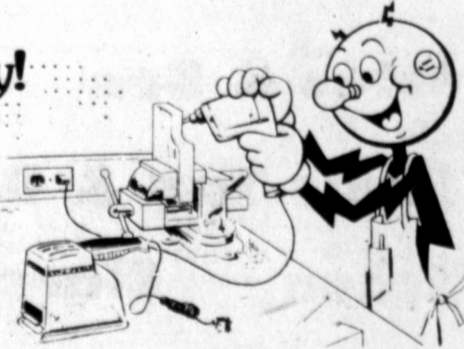

Keep Children Away from Outlets!

Don't let small children play near electrical outlets. A child could easily put a finger or some object in an outlet when you're looking away. A wise safety precaution would be to put safety caps in all wall outlets.

Use Power Tools Wisely!

Be extra careful when using power tools. Always be sure the wiring is adequate for the job. See to it that there are enough circuits of the right size, and that all circuits are grounded. Also, never use electric tools in the rain or on wet surfaces.

JOHNNY HILL

Lewis Ranches place 6th in Ranch Roundup

The Lewis Ranches did not fare as well this year as they had in previous years, at the Texas Ranch Roundup in Wichita Falls, as they placed 6th. Johnny Hill did bring home the Bob Marris saddle as Top Hand. He won this title by placing in three events. He placed first in the Wild Mare Race, with teammates Jake Longan and Rick Lowe. He also won a pair of spurs in this event. He placed 5th in saddle bronc riding and he and Burl Hollar won a third in team roping.

Margarita Arias placed 2nd in the ranch cook off with her picante sauce, while Donny and Shane Hall placed 2nd in the music talent.

The R.A. Brown Ranch of Throckmorton won this year's event. The cowhands at the Lewis Ranches are looking forward to next year's event, which is sponsored by Budweiser

Hedley Happenings

The Hedley Volunteer Fire Department has an important new piece of fire fighting equipment. They recently received from the

Texas Forestry Service a self contained foaming unit. They got this machine on a cost sharing basis and anyone who wants to can make a

donation to help with Hedley's share of the cost. According to M.O. Weatherly, the city is looking for a good used pickup to purchase to mount the unit on.

The Adamson-Lane Post 287 of the American Legion recently met in the Lion's Den to formulate plans for the reorganization of the post. The members have been inactive for some time and they are attempting to get it going again. Post Commander, Gerald Bland said they'll be meeting in the Lion's Den the second Tuesday of each month. All veterans are urged to

come and help keep this post going. M.O. Weatherly is the post service officer and Jack Moreman is the County Service Officer. The other officers are: Travid Bland-Vice Commander, John Waddell-2nd Vice Commander, James Farly-Adjutant, Otis Holland-Chaplain, Phillip Wiggins will keep the books.

Plans are being made for the thirty-third annual Hedley Cotton Festival. There are several high school girls competing for Queen Gaylee Osborn's crown and several primary grade girls vying for Future Queen Michelle Clubb's Tiara.

The most astonishing news that Pie Adamson left town last week. This might be the first time she's been out of town in years. She attended the golf tournament in Wellington Friday then went on to Canadian with her daughter, Rita Stone, Saturday. On Sunday, they attended the First Baptist Church in Spearman where Jerry Don Davis presented a program. Jerry Don is Pie's grandson-in-law. He is the Associate Pastor at the church in Spearman.

Kenneth Brinson recently celebrated his birthday. I don't know which one it was, but I know that he's younger than Fred.

We're still getting some rains around. We had a nice shower Thursday morning. Not a lot, or enough, but it was enough that the school bus had to turn around and backtrack from Giles. Somebody must have told Oscar that the corner north of Giles is impassable when it's wet. A lot of bus drivers have learned that the hard way.

The cemetery is looking good. There has been a lot of work done out there this summer. This work is paid for with donations so if anyone wants to make a donation, they can do so at the city hall.

Duane and Gayle Osborn took a bunch of the high school kids to Amarillo Friday afternoon to take advantage of the discount rate for the Tri-State Fair.

The Tri-State Fair is going on now. This is about the biggest event in this area, after the Hedley Cotton Festival, of course.

T. Mullins is driving the Borden's milk truck in Memphis while Jerry McCarty is on vacation.

L.D. and Darlene Ball are getting ready to install a woodburning stove in their store. L.D. must be expecting a long cold winter.

I've decided that if this winter is like the last one, I might take Fred and go south until spring. The only problem with that is, I don't know anybody willing to take three teenage boys and feed them for those cold months.

The Hedley Chapter of the Order of the Eastern Star met Monday, September 3. Su-San Couch and Fred Watt are Worthy Matron and Worthy Patron.

There's a rumor going around that the Hedley Senior Citizens are about to expand their operation. Since there's more Senior Citizens in Hedley than anyone else, that sounds good.

Hedley Senior Citizen Menu

Friday-Roast beef with gravy, mashed potatoes, steamed cabbage, Waldorf Salad, corn muffin, butter, peach cobbler, milk, tea, coffee, juice.

Monday-Pork chops, butter beans, broccoli, lettuce-tomato salad, corn muffin, butter, fruit cup with cookie, milk, tea, coffee, juice.

Join the Senior Citizens Friday and Monday for games.

The Board of Directors of the Senior Citizens will meet September 11 this month. This is an open meeting and everyone can come.

Stanley Bailey of Amarillo has been doing a lot of work on his farm. Looks like he's getting it ready to plant wheat. Stanley farms what is known as the 'Plunk Place' north of town.

Mrs. Cassie Owens recently had as visitors her nephew, Mr. and Mrs. Jack Long and family of Nashville, Tennessee, and her nieces, Peggy Myers of Enid, Oklahoma and Bobbie Long of Atlanta, Georgia. Her son, Berle and Linda Owens and Stacy of Amarillo spent the weekend.

Mr. and Mrs. Gary Shields are the parents of a son, Robert Landon, born August 7th. He weighed 6 pounds, 6 1/2 ounces. His big sisters, Cary and Heather, welcomed him home. His maternal grandparents are Harold and Mary White of Hedley. Paternal grandparents are Arthur and Thelma Shields. Great grandparents are Mr. and Mrs. Obie White of Wellington. He made a nice birthday present for his aunt

City Minutes

The Board of Aldermen of the City of Clarendon met in regular session on August 28, 1984, in the Board Room, City Hall at 7:00 p.m.

Members present were Mayor James L. Kuhn, Aldermen Richard Bell, Steve Smith, Lloyd McCord, and James Sharrar.

Member absent was Alderman Gene White.

City Secretary Donna Edwards was also present.

Minutes of the August 13, 1984 meeting were read and approved.

The Board then looked over the proposed budget for the 1984-85 year and motion was made to approve the budget.

Lion Billy Ray Johnston introduced Jim Aveni who is Director of Emergency Services of Amarillo Mental Health Mental Retardation who brought our program. Accompanying was Janice Johnston who is director of the local unit which serves the Clarendon, Wellington and
