## MULKEY CELEBRATES 29TH ANNIVERSARY

Owner of Pastime and Cozy Theatres Has Been in Picture Show Business Here Since 1910. 27 Dallas Men Come To Help Celebrate Sunday

Marking the 29th anniversary of his advent into the moving picture show business for which he holds first title to continuous service to the public, Homer Mulkey had 27 film bookers here from Dallas Saturday and Sunday.

A special party was given the visitors in recognition of their services in making the motion picture business of Mr. Mulkey a success. The 27 men came by bus from Dallas and made the trip to the John Blocker ranch Sunday in the same bus.

Many of the young men had never before been on a ranch. The picnic held in their honor under the cottonwoods just south of the Blocker ranch headquarters included barbecued T-bone steaks, mutton, chickens in halves, salad trimmings and other foods and special drinks. A special compliment to the show man was paid him when Mrs. Marthe McSpadden, owner of the picture shows of Electra, sent him a large angel food cake bearing 29 pink candles. This cake was cut and passed around to the crowd, most of all of whom were well acquainted with the giver, and shared in the compliment.

A highlight of the occasion was a speech by Jerome Price in which he extolled his boss after an association of more than 20 years, paid a tribute to the guests and the picture show industry in general. The talk would have done credit to any after-dinner speaker, according to the crowd applauding at the close.

Names of the visitors and the companies represented are 20th Century Fox by Claude Atkinson, T. P. Tidwell, Veau Gregg, Paramount man were Bill Raan, Lawrence Jones, Sebe Miller, Andrew Sisk, Warner Bros. was represented by Phil Moran, Mart Dowell and "Cotton" Vogelphol. Metro had Jack Garretson, C. H. Brooks, Charles Kelly, Leroy Whittington, R. K. O. Lim Harrington, John Cummins, Harold Wilson, Jack Walton. Universal Films had Everett Green here, and Republican had Maxey Sexton. Adams had Chick Turner. Columbia was represented by Tim Stamps, Mon Whicheer.

Others were "Sody" Reynolds of the Allied Theatre Owners office; V. W. Crisp, associate editor of the Box Office magazine, Bob Euler and Forest White, both independent bookers.

John Blocker, owner of the famous Blocker ranch was a special guest, as was J. C. Estlack, publisher and editor of the Donley County Leader, and Mr. Thigpen of Childress, father-in-law of Lee Bell.

The excellent job of cooking was due to the skill of Lee Bell, right hand man of the Mulkey interests, and G. L. Green, barbequeer deluxe of many years of experience. Jack Gardenhire, member of the staff of machine operators, was "man of many talents" in seeing that the food was served, and that the show went over smoothly.

Many were the compliments paid Homer Mulkey and his excellent staff for the manner in which the party was put over. One Dallas man remarked: "Forty years from now I will be telling my grandchildren about this party as the biggest event in my life in nature's great open air theatre."

Twenty converts resulted from the preaching of Melvin J. Wise, revivalist who just closed a ten-day revival at the local Church of Christ.

Mr. Wise is now in a meeting in Tennessee.

## MUSEUM WANTS EXHIBIT MATERIAL OF VALUE

Many are at a loss to know just what would make good museum exhibit material. The Donley County Museum of Clarendon, which, as its name indicates, belongs to the whole county, makes a specialty of pioneer articles. Therefore, if you have or know of some one who has any article that has been in the family as much as forty years, that would make a good museum exhibit article. It may be a pot, Dutch oven, gun, wearing apparel, tool or most anything. Just so it was used by the family years ago.

Old books are wonderful, and the Museum here already has a large number. Old school books, Bibles and books generally read forty or more years ago are valuable.

If you know of a curious rock, Indian relic, fossil or anything along this line, kindly report the matter to the Leader office and arrangements will be made at once to secure the articles, either as a gift, or simply as a loan. Many precious possessions are loaned the Museum.

## Whites Attend Poultry Meet

World Poultry Congress Is Held in Cleveland

More than a million people visited the Poultry Congress in Cleveland, Ohio through the six days, and 138,000 attended the same day that Mr. and Mrs. Frank White Jr. of Clarendon went through the gates. They were accompanied by Mr. and Mrs. R. W. Rogers of Amarillo.

"Every nation was represented in this 26th world-wide affair, but I got more enjoyment and information from looking over the allied poultry industries than anything," Mr. White stated.

Around 15,000 birds were on exhibit. Mr. White saw many breeds for the first time, and was so pleased with Light Sussex and other breeds that he placed an order for two crates of eggs with a British Columbia firm for his hatchery next season.

A side trip was made on Lake Erie where they saw the old English convict ship in use over two hundred years. For many years it was under water off the coast of Australia, was raised and again plied the sea as a sail ship of old. This ship was used to transfer prisoners from England to Australia around two hundred years ago, the posterity of whom today furnish the families that are the leaders on that continent.

Twelve days were consumed on the vacation trip, a dozen states were crossed, principal cities visited and much interesting information gathered.

## Varied Crops Grow Prolific

Orchard Ground Produces Between Trees with Record Growth

The orchard planted out last spring by W. O. Hommel on his extensive acreage south of Alanreed, has put on a wonderful growth. Many of the trees have grown two feet, and include peaches, pears, plums, cherries, apples and pecan.

Between the trees was planted on this sod land, water melons, canteloupes, peas, okra, cucumbers and other crops. The growth of these is most astonishing, and the production is remarkable.

Thirty-five bushel of cucumbers have been gathered on a few rows today. The home demand takes care of this crop, merchants and individuals taking the output.

The acreage is situated in a creek valley on silt land. Mr. Hommel is an experienced fruit tree man after the manner born, his father having trained him by actual effort from the beginning. This will, in a short time, be the show orchard of Donley county. The Alanreed section has been known for the production of apples and other fruits of extra quality, size and color.

## "NEPHEW" RACKET FAILED IN MEMPHIS FRIDAY

After having obtained the names of a few prominent men in Memphis, four young fellows from another state set out to "take orders" for magazines in Memphis Friday, relatives of Schools, W. G. Davis.

Each fellow introduced himself as a "nephew" of some influential citizen. That was the opening wedge for a sale, cash being collected in advance. Upon reaching the Davis home, a young man introduced himself as a "nephew" of Supt. W. C. Davis. It so happened that Mrs. Davis had answered the "door bell."

Mr. Davis passed the word on to the peace officers who gathered in the four young men, had them refund to individuals from whom they had collected various amounts. Released, the grafters hit the trail for a new field. Later it was found that they had worked Wichita Falls, Vernon, and Childress. So far as known, they did not stop in Clarendon.

COL. ERNEST O. THOMPSON

...who advocates a special session of the Legislature that a 5 percent per barrel tax be placed on crude oil for the payment of old age pensions.

Thompson says the tax will net at least a hundred million dollars a year. He goes further by saying that the tax would provide payment of all social security voted by the last Legislature, including old age pensions, teacher retirement, blind, and dependent children. Col. Thompson says the oil people want to saddle a sales tax upon the poor, but this 5-cent barrel tax will make a sales tax of any kind unnecessary.

## Smith Kinsmen Hold Reunion

Annual Affairs Observed in Childress Park

The President may change Thanksgiving day, but the second Sunday in August continues as "Smith Day" for the Smith clan. Meeting last year in Childress park at Childress, the Smiths voted to hold annual reunions of the family and the "in-laws and outlaws", as one expressed it.

Twenty-seven were present last Sunday for the gathering from over northwest Texas. From this immediate section went Mr. and Mrs. Marvin Warren. From Lefors were Mr. and Mrs. Marvin Smith, Miss Louise Smith and Mr. and Mrs. Walter Hagler.

Aside from the wholesome entertainment planned for such an occasion, a picnic dinner was the outstanding attraction other than visiting among kinsmen from a wide area.

## Revival Will Begin Friday

Dallas Minister Secured For Church of Christ Revival at Lelia

Announcement is made that Tillit S. Teddlie of Dallas will conduct a revival for the Church of Christ at Lelia Lake. The first sermon will be heard Friday night of this week. The series of sermons will continue until the night of the 27th.

Brother Teddlie is well known in the evangelistic field. He conducted a revival at Hedley a few years ago and is known as one of the strongest ministers of that faith.

The public is extended a cordial invitation to attend any or all of the services. C. H. Reynolds, leading member of the church, stated Wednesday.

## OFF TO MOUNTAIN TRIP

Laden with fishing tackle and whatnot of every sort, Walker Lane, L. E. Thompson, Bill Word and Glenn Churchman with Zeb Mitchell of Hedley as chaperone, absconded these parts Wednesday. They headed for the mountain section of New Mexico. Perhaps they will continue north until the fish bite. No return date was mentioned. Bill Howren joined the crew at Amarillo.

## DONLEY'S PIONEERS TO HOLD REUNION FRIDAY

E. H. Watt of Giles Will Deliver Welcome Address With J. Claude Wells of Memphis Giving the Response

## Less Than 3 Cents

Where could you get so much information of your surrounding country for less than 3 cents a week than in the Donley County Leader. The rate is only \$1.50 a year in the first zone, 52 issues a year.

Often our readers tell us that they save the price of a year's subscription in purchasing bargains from one issue alone. More prices and better prizes are found in the Leader every week.

More news about more people appear in the Leader every week. That's why the Leader has a larger paid circulation than any other newspaper serving the Clarendon trade territory.

## COUNTY BOARD COMPLETES SALARY BUDGET

In the county budget adopted Wednesday, the county commissioners set salaries of officials for the coming year as well as making provisions for other necessities.

Salaries are: county judge, 1600; commissioners 1200 each to be paid out of the road and bridge funds; clerk 500 and certain commissions; treasurer, 1200; janitor 840; attorney, 720; sheriff 1600 and his deputy 1200 yearly. District clerk 720. The county contributes to the county agent's salary \$900 yearly.

## CITY PARK BUILDING WAS PRODUCED BY VOLCANO

An interesting bit of information was obtained from Dr. Sellards of the State University while here recently, in that he detected that the building stone being brought from the John Blocker ranch for the City Park structures, was volcanic ash pressed into the rock. The ash is of the Triassic period, he said, and is snow white.

The park development goes steadily forward under the direction of A. C. Donnel, foreman of the WPA crews doing the work. Plans were so made that the recent rains did no damage to walls, the creek bank or other structures.

## WALLACES TAKE VACATION IN SOUTH TEXAS

Leaving here the middle of last week, Mr. and Mrs. L. L. Wallace made their first stop at Greenville where they left their children, Dorris Jean and Glenn Franklin with their grandmother, Mrs. J. H. Wallace. From there they continued to visit relatives and friends on a sight-seeing tour to include Houston, San Antonio, Galveston and possibly Big Valley points.

## MEMPHIS DAIRYMEN WILL SHOW SATURDAY

The annual Hall county dairy show is to be held Saturday in the Harrison stock barn. The show this year will be limited to registered cattle.

Stock from Donley, Hall and Childress counties are expected to run the number well above a hundred head.

E. R. Eudaly of A & M will be the principal speaker at a noon luncheon to be given exhibitors and Association officials.

## ATTEND ERATH REUNION

Thousands were in attendance at the Erath county reunion at Stephenville over the week end. Few, if any, enjoyed it more than Walter Lowe, Will Johnson and his daughter, Miss Mable Johnson of Clarendon.

## FORD MEETS BULL WITH FENDER EFFECT

Returning from a Colorado fishing trip Friday, Supt. H. T. Barton failed to have the right-of-way after dark, the Ford striking a mountain bull. The right fender was demolished along with the headlight on that side. Truck lights blinded the driver. Repairs were made after reaching Clarendon. This is "news" because the "bull" shot the man, rather than man shoot the bull.

The annual reunion of the Donley County Old Settlers Association will be held in Tate grove, six miles northeast of Hedley August 18th, which is Friday of this week.

A band concert by the Clarendon high school band at 9:30 will be the opening number on a program that will be impromptu for the most part throughout the day.

Election of officers will take place at 11 a. m. Other business of the organization will come up for attention at that hour.

As is the custom, there will be plenty of stringed instruments on hand with skilled players to bring back memories of pioneer days. Old folks will be reminded that "Sally Goodin" still lives, as well as "Billy in the Low Ground."

The organization formed largely through the efforts of Mr. and Mrs. E. H. Watt, Mr. and Mrs. W. I. Rains and Mrs. Josie Adamson some ten years ago, has constantly grown in interest and attendance.

The only requirement for membership is that one must have resided in the county twenty years. There are no dues to pay.

Upon the invitation of President W. I. Rains, the Clarendon Lions club will hold their annual picnic with the Old Settlers Friday. Some thirty Lions and their ladies are expected to be present.

W. I. Rains is president, Tom Tate vice president, and Mrs. Joe Crawford is secretary of the Association.

## TO MOVE CEMETERY NEAR LEFORS SOON

Complying with a petition, Gray county commissioners Monday ordered the removal of the eighteen bodies from the old Lefors cemetery to the new location one mile south on the McLean highway.

The old cemetery was started in 1895 on land contributed by Henry Thutt, father of the present county clerk, Charlie Thutt.

## NEWMAN BARBER SHOP IS IN NEW LOCATION

The shop being operated by Bill Adams for Mrs. J. F. Newman, was moved the first of the week to the Donley county bank building, next door to Geo. Bagby's insurance office.

## Rare Minerals Brought Here

Brilliant Hues Source Of Rare Beauty In Stocking Museum  
A collection of fluorescent minerals is the latest addition to the museum at Stocking's Drug Store. The stones collected by Mr. Stocking from England, Africa, Canada, Nevada, New Jersey, and Ohio are displayed beneath a ultra-violet ray and fluoresce in intensely brilliant colors. No other light will change them. In day light they are just average minerals in colors showing zinc, iron, willemite and opal.

#### WORLD'S FAIR AND RADIO.

The New York World's Fair management thought all they needed to pack the place daily and nightly was the radio. They figured the radio would give all the big shots the opportunity to talk for their personal glory. They were positive that with the radio they would have no need for any help whatsoever from the press. By eliminating the press they would save the price of a real live press agent. Now that the public attendance has fallen so low, they are forced to lower the price of admission. By putting all their publicity eggs in the radio basket they learned too late their costly error.

Those in charge of publicity had many well-established facts to follow. The Ringling Brothers, Barnum and Bailey circus is packing the tents twice daily, and they employ clever publicity men who use nothing but the press. They should know the International Flower show packs the Grand Central Palace for an entire week using no publicity but printers' ink. The Automobile show is another similar example.

All those from hotels to parking places, from night clubs to barrooms from theatres to tourists accommodated, boosted their prices at the opening of the fair. They were all so anxious for a clean-up they went price crazy, but this time the sucker public just sat back in its traces and refused to pay twenty cents for a six ounce glass of yellow fluid marked beer. Even their own New Yorkers are now purchasing their cigarettes where they carry no extra Lehmann tax. A wiser public saw the grafters first this time and refused to buy chips. The Jimmy Hines tactics are dying out in the city made rotten by Tammany.

According to radio announcements and newspaper reports Wednesday, the New York World's Fair had lost \$5,000,000 to date. That five million would have done a lot of newspaper advertising, and saved the day.

Do you recall any show places in Texas spending money on the radio, and at the same time trying to graft free space from the newspapers of Texas?

#### OIL OR SALES TAX.

Col. Thompson's suggestion that a five cent tax be placed on each barrel of oil produced in Texas to secure money to pay social security needs rather than a straight sales tax, is being widely discussed. Should the tax be placed on oil, without further restraint on the retail prices of

the products of the oil companies, the consumer would naturally pay the bill in the end. In that case, the consumers of oil, gas and over two hundred by products of crude would pay all the bill.

A straight sales tax would compel every consumer of food, clothing, etc. to pay a part of the social security tax. Social security measures include aid for the aged, blind, dependent children and school teacher retirement pensions.

Naturally, a natural resource tax on oil, sulphur and other commodities produced from the soil of Texas, should bear the burden of caring for the needy. But some plan would have to be enforced to prevent these greedy corporations from overcharging the consumers of Texas, thus throwing the burden right back on the average citizen of Texas.

If some of our big corporation incomes are limited to six percent on the investment, why not all of them?

#### LESS BUNK COMING

While publishers have been constantly bombarded with free space graft by a large number of New Deal bureaus, the New Deal has done nothing for the publishers except to stand idly by and see them pay three prices for news print imported from Canada.

Now comes the pinch. The last congress played whaley with a lot of

bunk, on the list was the free space promotion publicity received from the multiple agencies and bureaus. The congress enacted a law specifying that federal agencies may use the free mailing privilege only for material requested by the publisher. Most publishers will refuse to ask for it, having grown tired of throwing the stuff into the wastebasket for many, many months.

On the other hand, here comes a watch manufacturing firm that spends its advertising dollars on the radio, and yet has the audacity to attempt to slip free advertising into the newspapers through the medium of "Its Time You Knew" propaganda sent out in mat form. Its time "they knew" that publishers must pay bills and live like anyone else.

#### THE HIT DOG.

Senator Hatch of New Mexico blossomed out into a full-fledged statesman when he secured the passage of his "clean politics" law. Honest voters by the millions have risen up and called him blessed. The passage of that law was a great day for America—America such as our forefathers knew it.

Hatch sponsored the new law which curbs political activity of federal employes not engaged in policy making jobs. He took the position any federal worker who attended the Young Democratic Clubs' convention in Pittsburg as a delegate and was seated as such would violate the law and be subject to dismissal.

The national president of the so-called Young Democrats branded the Hatch law as "the most un-American piece of legislation that has been passed in 25 years." Probably because the politicians at the fed trough were the heaviest contributors to the cause which President Maner represents.

On the other hand, the old rule that "to the victor belongs the spoils," has been one of the greatest detriments to the nation.

**TEMPLE OF TRUTH**

By the Apostle

**DARN THOSE GUYS!**

Grandpa Yazzie was knocked down when a cattle truck hit him while riding his scooter at the corner of the postoffice. About all that was intact when they gathered Grandpa up was his ancestral history.

**EDUCATIONAL**

A great personage in history was Tallyrand, no doubt. But by the time the Chicago fair came along, the baby talk had been eliminated.

**DARNED REPUBLICAN!**

"There soon won't be enough people working to stage a strike, and then what will be done for excitement?" was the remark of Poke Jarrold after the sermon Sunday morning.

**MIGHT BE POLITICS!**

Headline: "If you smell anything putrid, call the gas office."

**MORE PIONEERS.**

Among the well known old pioneers you will probably recall I. W. Harper and Old Crow.

**EDITORIAL POLICY**

The editor of a Mississippi weekly recently carried the following announcement at the head of his editorial column: "This issue of the Sentinel is designated as a typical county paper, expressing views, cussing nobody, praising nobody, taking no sides, tame, tasteless, inept, innocent and innocuous."

**OPEN ROAD AHEAD.**

The newspapers are really going to town now-a-days on the tax question. The radio boys can't say anything about it for fear of losing air privileges.

**HOMESPUN PHILOSOPHY.**

This is the age when a young man expects more than he gets, and the old man gets less than he expects.

**LUKE KNEW IT.**

In these modern building days, one might profit from reading St. Luke. "For which of you, intending to build a tower sixteth not down first and counteth the cost."

**LOOKING AHEAD.**

After all is said and done, the opportunities of the future are more important than the mistakes of the past.

**OUR WEAKLY POME.**

There are bells that have a pealing beauty, Of the kind that knows no flaw. But the belle that's worth the ringing, Peels potatoes for her Ma.

**PERSONAL STUFF.**

Next to being old and bent, the greatest calamity is to be young and broke.

**BOTH HEADED WEST.**

The old-fashioned family doctor is said to be a thing of the past. So is the old-fashioned family.

**INGRATITUDE.**

Some men pray for rain, then cuss when their family bus bogs down.

**INGENUITY.**

It was a great advancement for science when the squeak was taken out of shoes. In fact there was an age when one could not say whether it was the corset or the shoes. Now we just know it ain't the shoes.

The girls with the cleanest minds generally can give you the dirtiest looks.

**PIONEER SKITS.**

Show an old lady in the act of sewing on a button like buttons were once sewed on before the old man was forced to use nails.

**BLAMED NUISANCE.**

Speaking of skits recalls another nuisance growing into popular usage. It is the idea of throwing cigarette butts on the floor and smashing them so that they still are harder to pick up. Matches, butts and tobacco often make a woman a lot of trouble sweeping the floor.

**JIM GRUNDY'S FATHER IS BURIED AT BYERS**

When the Leader was founded in 1929 Jim Grundy was employed as top operator for about three years. For the past several years, he has been linotype operator on a Hobbs, New Mexico daily. Another brother, Jack, has been an operator on the Wichita Record for some 15 years. "Red" Grundy, formerly with the Claude News while Jim was here, is now operator on a littlefield paper. Their father died at Byers Friday. John Grundy was a Texas publisher for more than a half century, and published papers at Byers and Petrolia up to his retirement because of ill health in 1932.

**FURNITURE GRAFTERS BIG STUFF IN DALLAS**

A Dallas citizen here Sunday related how a new form of furniture graft had sprung up in Dallas. The grafters would rent a residence, place furniture in the home and then advertise a "forced sale" of household goods. He related that many sought bargains under such conditions believing them to be bargains because they were being sold under the statement that the sale was forced.

Mrs. Odis Jackson and son Ronald spent Monday with Mrs. Frank Whitlock. They returned to Los Angeles Wednesday.

The club is just starting this feature and hope that a great many will take advantage of this chance to see the different gardens and the many clever ideas displayed. These ladies' gardens are open to the public: Mesdames Boston, Stallings, Chase, Prewitt, Geo. Ryan, Cap Morris, Tom Goldston, Connally, McDowell, Ellis, Joe Goldston, Brumley, Potts, Misses Harned.

Gough was first prize winner among men, having read his Bible through three times.

**GARDEN GLANCES**

"America beautiful lies in the hands of the gardeners."

The recent rains have been helpful to the gardeners in supplying the green coloring to grass and shrubs that hose and sprays could not give. The garden companions have been hoes and lawn mowers recently.

This glancer went to the eastern part of town a few days ago and discovered many old fashioned flowers blooming at the A. G. Lane home and a small grass plot lawn. Next door the Armstrong's had a similar lawn with its gay posies. The Fowler lawn near by was larger and well arranged flower beds, shrubs and trees greet you. There were several pretty lawns close by that this glancer did not know exactly to whom they belonged. On the highway going thru that part of town the Decker and Water's lawns were trim and neat.

Near the business section the Mantle Graves lawn was tastefully landscaped, and Miss Lottie Lane has a well kept lawn. Some stately dahlia of extreme height and gorgeous blossoms were noticeable at the east wall of the Duncan home. Several clumps of gorgeous milk and wine lilies were reigning under the out side stair way at the H. Brumley home.

You will find enchanting landscapes any where you glance this week as Dame Nature has generously aided us in beautifying our lawns. Watch for the lovely althea bushes that are blooming profusely at several homes.

**Banking in Tomorrow's World**

The trend of banking has been toward more complete financial services for the individual. In part this trend is due to the desire of banks to be of maximum helpfulness, and in part to the growing complexity of modern life, which accents the importance of individual financial management.

This trend will continue, we believe, into the world of tomorrow. This bank, for one, will continue to study the needs of the average individual and to provide new or improved banking services whenever necessary.

WITH OUR NEIGHBORS

John Goldston has grown some fine yellow-meated melons. Because of the unique color and excellent quality, John is finding a ready local market.

With her \$35 cow pony competing with a \$50 blooded steed at the Memphis rodeo, it looked useless for Miss Penelope Blocker of the Blocker ranch. Was it? She tied the other mount just the same.

Nels Riley dotes a lot on fishing, having grown up in Louisiana, but he does more in his older days on growing good fruit. And he has just that. He also has a hankerin' after seedling peaches, and has a nice lot of seedling trees coming right along. The seed was largely selected from seedling orchards down east.

The modern cowboy reunion garb is quite a contrast to that of the old-time cowboy pictures. About the only place it resembles the old stuff is the boots, and they are not like those worn in the old days. What's the difference in this commercial age? Stated an old-timer here Monday.

Mitch E. Bell says they have plenty of rain down at the Bell ranch southwest of Brice. Many are of the opinion that grass is better right now than it has been for ten years.

About the handiest man on his job is Lee Bell. Lee can barbecue meats or operate two picture shows of the Mulkey string with equal facility. Lee put over the feed Sunday in a big way out at the Blocker ranch.

Mocking birds have already gone, presumably south. Vineyard owners say the birds disappeared last week all of a sudden. The same men are of the belief the birds expect an early winter. Old Donley needs less of an early frost line than most anything this season. Too much of the crops are late due to the drouth.

Clarendon Operates Mosquito Hatchery

Health authorities claim that mosquitoes are a detriment to health. Doctors tell their patients to keep the mosquitoes away. The insects actually breed disease or somebody is badly in error.

Clarendon has sporadic epidemics of mosquitoes. They hatch in cans and other receptacles that catch rain water. It is said by those presumed to know. Clarendon has thousands of cans in the dump grounds that are said to be hatching mosquitoes right now. They are vicious. They readily attack. They scatter all over town.

### Dartmouth Ice Festival Is Spectacular Setting for Film "Winter Carnival"

Movie fans everywhere will have one decided advantage over the gay thousands who go to New England for the snow sports this year. They will be able to view the celebrated Dartmouth winter carnival at first hand in Walter Wanger's "Winter Carnival," which is slated for its first showing at the Pastime Theatre Wednesday and Thursday through United Artists release. The film co-stars Ann Sheridan and Richard Carlson.

"Winter Carnival" is unique in that neither winter atmosphere nor winter sports control any portion of the story or demand even the slightest deviation from a smoothly moving story plot to accommodate scenes of the 1939 Dartmouth carnival. To offer a relief from timeworn settings Producer Wanger chose to create a romantic film tale around the Dartmouth carnival because it presented New England in its most colorful natural raiment and because the winter sports fete is America's most distinctive social event.

The story which the Wanger film depicts has had more than one parallel in the history of winter carnivals and Director Charles F. Riesner exercised extreme care in presenting the romance between Jill Baxter and Prof. John Weldon, in the film, as it might be seen through the eyes of youth. Both story and accompanying musical score were created by Dartmouth men whose memories of many winter carnivals are still fresh. A Wanger Production unit spent ten days in New Hampshire recording atmospheric scenes not only at the carnival and on the Dartmouth campus but in the rolling hills which frame the colorful scene which is Hanover in snowtime. Supporting Ann Sheridan and

Richard Carlson in the romantic leads are Helen Parrish, recently one of the titular trio in Deanna Durbin's "Three Smart Girls Grow Up," Robert Armstrong, James Corner, Marsha Hunt, Alan Baldwin, Robert Allen, Cecil Cunningham, Virginia Gilmore, Joan Brodel, Jimmy Butler and a large cast of typical young collegians who join in the sports, dancing, singing and general merry-making of the carnival season. Budd Schulberg, Maurice Rapp and Lester Cole provided the story of "Winter Carnival" and the musical score was composed by Werner Janssen.

### METHODIST CIRCUIT NOTES

J. G. Walker, P. C.

The revival at Ashtola turned out well. The church was really revived. Seven made professions and five of them joined the church. District Supt. Geo. T. Palmer did most of the preaching; and he did it well. He made many friends for himself and the church. He will always be remembered by this pastor and the Ashtola people. One marked success of the meeting was the bringing of pastor and people closer together.

Our work is so large that we have not had much time to visit members of each congregation. The past week furnished us this opportunity at Ashtola. Brother Palmer was with us part of time and all his efforts were to make the hearts of pastor and people one. Surely the Lord will reward him for his earnest effort. Monday evening of this week our meeting begins at Bray. Rev. Biggs of Hedley will help us there. Any time you can come our way and help us, we will appreciate it. We have to crowd our meetings together; and this necessitates pushing the work at each place for we can not protract long at any one place. This also necessitates earnestness to begin

with. Our revival at Goldston begins next Sunday. Rev. H. C. Gordon of Clarendon will help us there. This meeting can not be protracted long. Get ready now. Begin now to prepare. Each one can prepare his or herself now as well as next week. Two very necessary preparations. Prepare to attend every service; and pray earnestly for the forgiveness of

past sins. Lots of Clarendon people should come out to Goldston and help us. Your pastor's prayer: "Will thou revive us again; that thy people may rejoice in thee". Mr. and Mrs. Clyde I Price left Wednesday on a business trip to Santa Fe, N. M.

### Teamwork Wins

The traditional American formula for success is teamwork - cooperation - mutual helpfulness. Few men reach the top purely through their own efforts. Rather, they succeed because they cooperate with—and have the cooperation of—others.

Likewise no nation can achieve and maintain a standard of living such as we have in America without teamwork among all classes and groups.

Many have waited too long to apply, but unless you are over 85 years of age, you have not waited too long to enjoy the benefits of Womack Burial Insurance.

"If God were to call you, Daddy  
Or take our Mother dear  
And in deepest grief and sorrow  
Leave us linger here  
And in our darkest hour of sorrow, grief and woe  
For financial assistance  
Where could we, Daddy, Go?  
Because we love you dearly  
We would want you have the best,  
For we will remember always  
How our loved ones were laid to rest.

Perhaps, Daddy, they might tell us  
Upon that mournful day  
That the one we loved so dearly  
Had thrown his chances away;  
We now can get Burial Insurance  
And our minds could be at rest,  
And when the shadows of sorrow fall  
Give our loved ones the very best;  
And it could cost so little  
To have this peace of mind  
So, Daddy, please get protection  
While yet you have the time."

## Does The Bible Favor This Institution?

**Yes!!**

IF THE BIBLE DOES FAVOR THIS INSTITUTION,  
THEN WHY SHOULD WE DENOUNCE IT?

I TIMOTHY, 5th chapter, 8th verse: "But if any provide not for his own, and specially for those of his own house, he hath denied the faith, and is worse than an infidel."

Paul says that a man who neglects to care for his household is more obnoxious than he who rejects the scriptures.

WOMACK BURIAL INSURANCE is helping most of us to provide for that unexpected time. We all do know that DEATH IS CERTAIN WHILE LIFE IS UNCERTAIN. If we can secure these few pennies a day and do not provide for our families, then we have no right to expect mercy at the hand of God in the judgment.

A Few Pennies Can Make a Difference

## Your Neighbors Are Buying this Safe Economical Protection--Why Not You?

### OPERATING WITHIN A 75 Mile Radius of Hedley, Texas

There is a great danger confronting a family when the bread-winner dies, a danger which few men think about and for which not everyone has provided. For a year or more following death, there is a readjustment period, which involves a pressing need for income without having to make payments on a funeral bill.

The first economic problem of any man is to furnish food, clothing, and shelter to-day, for himself and his family. Most of us spend most of our working days solving that problem. Hence, your problem is only half done when you provide for to-day, because surely and certainly tomorrow will come --- maybe not next week, next month, or even next year, but some time. You will either die or live to be an old man. When either time comes, that is your tomorrow and you must either depend upon charity or else have property to furnish a minimum income to buy food, clothing and shelter.

This is the law of life, a law that is fixed, certain and beyond our control. It is a problem concerning that which there can be no debate, and for the creation of which we are in no way responsible. But we and we alone, are responsible for the condition in which we and our dependents find ourselves when that law has worked out its end.

Until a man has provided for tomorrow he can have no economic security. He can not rest easy. He cannot sleep well at nights. The squirrel, the bee, the bear, even the lowly ant recognizes this law of life --- THERE WILL INEVITABLY COME A TOMORROW --- AND WE MUST MEET ITS INEVITABLE DEMAND.

IF WE WERE NOT OFFERING THE WOMACK BURIAL INSURANCE, WE WOULD FIND IT IMPOSSIBLE FOR MANY TO PROVIDE FOR THE TOMORROW IMMEDIATELY. WE WOULD HAVE TO SPEND LONG YEARS ACCUMULATING BY PATIENT SELF DENIAL AND SAVINGS. OUR RATES ARE SUCH THAT ANYONE CAN AFFORD ITS PROTECTION.

Scoring a total of 910 points out of a possible 1,000, the local F. F. A. chapter ranked second in score in the state chapter contest for 1938-39. Approximately six hundred chapters were represented in the contest which was entered by all vocational agricultural departments.

The local chapter scored especially well in the leadership division, project program, and conduct of meetings. These divisions include individual project programs, planning of programs at meetings, participation in meetings by members, and the father-son banquet.

The local group has already started work on the 1939-40 contest. Further plans for participating in contest will be made at the next chapter meeting which will be held Thursday, August 24th.

**IS IT INSURED?**

YOUR home may be next. You never can tell. If fire should come, and you're not insured, neighbors' sympathy won't help you pay the bill. And a \$1,000 policy won't cover a \$2,000 loss, so be certain you have ENOUGH fire insurance. We'll be glad to tell you. No obligation.
