Bud Hermesmeyer, left, and Jerrel Martin right presented County Agent Ronald Gooch with a gift Saturday night in appreciation for his work and efforts with the 4-H Club this show season.

## Ronald Gooch, Co. Agent Is Honored

Local 4-H Club Youths and their families gathered at the Chamberlain Community Center Saturday night to honor Donley County Agricultural Agent, Ronald Gooch. Through devious planning and numerous tall tales, the group was able to surprise Mr. Gooch.

Presentation of a Gift of Appreciation was made to the honoree by Bud Hermesmeyer and Jerrel Martin, parents with the longest active service to the group.

A bountiful covered dish supper was spread by the ladies of the group and enjoyed by the families, Mr. and Mrs. Ronald Gooch, the Jack Cliffords, Henry Hasteys, Roy Lee Helms, Jerry Hawkins, Bud Hermesmeyer, Johnny Leathers, Jerrel Martins, Milton Manns, Jiggs Mams, James McAnear, Jr.'s and Don Robinson.

After the meal good fellowship and games were enjoyed by those present. The hall was attractively decorated with the 4-H theme by Evelyn and Camille Mamm.

Through the many hours of work and guidance put in by Agent Gooch, he has led these young people through a very successful show season this year.

## Queen Of Hearts Ball Saturday, Feb. 10

Ask any Beta Sigma Phi what she has been doing for the past couple of weeks, and she will probably tell you that she has been making decorations, making posters, gathering tables and chairs, selling tickets, or taking reservations for the Annual Queen of Hearts Charity Ball to be held Saturday, February 10th, from 8 to 12 p.m. at the Electric Theater in Clarendon, Texas.

The proceeds from the ball will be divided among three community projects — the School for Human Development, Summer Recreation Program, and City Park Improvements.

If you have not purchased your tickets, you will want to buy them in advance for \$2.50 per person. Tickets at the door will be \$3.00 per person. Call Mrs. Owen Johnson at 874-2314 for reservations after you have made your ticket purchases.

## C.H.S. Basketball

Tuesday night of this week the Clarendon High School Basketball teams closed out their season for the current school year hosting McLean teams in Broncho Gym.

B Girls lost their game to McLean. McLean Varsity Girls also defeated the Clarendon Varsity Girls 40-26. Camille Mann and Cris Craft led the scoring for the local team.

Varsity Boys won their game defeating McLean 68-38. Elray King totaled 25 points with Tommy Shields dropping in 20 points. Clarendon Varsity Boys took second place in the round of District play with a 6-1 record.

Friday night local teams played at Silverton. B Boys lost their game. Varsity Boys defeated Silverton 47-42 with Elray King pacing the scoring with 14 points. Varsity Girls lost to Silverton 30-33 with Camille Mann dropping in 17 points. B Boys lost their game.

Mr. and Mrs. Herman Cross attended funeral services for Mrs. Henry Foster in Memphis Saturday.

## Explorer Post 33 Takes Ski Trip To Red River

Explorer Post 33 went to Red River Ski Lodge the past week end leaving Clarendon Friday and returning home Sunday and enjoyed skiing Friday afternoon, Saturday, and Sunday. Twenty-three scouts and leaders from Clarendon brought the total number in the party to 115. Explorers from Clarendon, Borger, Pampa, Shamrock, Guymon, Oklahoma and Forgan, Oklahoma made up the total.

The group had such a good time that the Council plans to make this an annual affair.

The Clarendon group stayed in apartment type units and cooked their own meals. On the return trip home they stopped at Philmont Scout Camp to allow the Explorers to see the facilities there.

Explorers from Clarendon who made the trip were: Calvin Burrow, Toni Hill, Terry Saye, Shanna Hardin, Cindy Price, Jerry Holland, Pat Robertson, Jeff Campbell, Debbie Lowry, Tim Saye, Mike Boothe, Debbie Robertson, Richard Woody, Laniita McDonald, Donnie Putman, Melissa Estes, Beth Green, Edward McKimney, Miss Betty Veach, Mr. and Mrs. Dwayne Lamberson and Mr. and Mrs. Tommie Saye.

All reported a wonderful week end filled with fun and excitement.

## Bulldog Schedule Is Changed To Feb. 14

Coach Jack Hedden of Clarendon College received a call from North Texas State University, Denton, Texas and the basketball game scheduled with the NTSU Junior Varsity that had been scheduled for February 17 will be played at Clarendon College Gym Wednesday, February 14. Game time is 7:30 p.m.

The public is cordially invited to see this game that may prove to be a fast run and shoot, high scoring basketball game.

## An Editorial

It is the policy and will continue to be the policy of the Leader to print the facts which we can always back up.

We will continue also, to do whatever we can to help secure doctors and further our medical services for the people and taxpayers of this area.

We were informed by a phone call from Austin Tuesday that a bill, introduced in the Senate had been passed by the Senate, with the provision that only the three hospital board members whose terms were expiring this year would be elected at this time if the bill passes both houses of the Legislature. The four newly appointed would continue to serve their term of office.

The bill was presented in this manner on the strength of resolutions passed by the County Commissioners Court and the Hospital Board, which was not unanimous. Opposition on the board was in favor of electing board members but on the basis listed below.

Along with many local residents, others in Austin term this a bad piece of Legislation which should be corrected before it passes the House of Representatives. They feel that in all fairness to all concerned that all SEVEN board members should be elected with the board dividing themselves into 2 or more classes to serve staggering terms.

What is your thinking Mr. Taxpayer and Voter . . . What are you going to do about it?

\*\*\*

It is an undertaking of some degree of delicacy to examine into the cause of public disorders. If a man happens not to succeed in such an enquiry, he will be thought weak and visionary; if he touches the true grievance, there is a danger that he may come near to persons of weight and consequence, who will rather be exasperated at the discovery of their errors, than thankful for the occasion of correcting them.

## Moto-Cross Races Draw Big Crowd Sun.

A large crowd was on hand to watch the Moto-Cross Races at Greenbelt Track Sunday, February 4, and the weather was cooperative for once giving us bright sunshine and fine temperature for racing. The track was in good shape and the riders were skilled and in top form for all races.

A Micro-Mini race was run, one of the first in this class to be run on this track. Jimmy Logan came in first and Tom Johnson, our local rider, came in second.

Placings in the Mini-Man: Shannon Thompson, Scotty Andrew, John Terry.

100 CLASS: Clyde Barker, Joe Moss, Rick Lyles, No. 8 whose name was not available, and Dan Frazier.

125 CLASS: Eddie Brashier, Joe Skinner, Jerry Urquhart, Greg Thompson, Mark Monroe.

250 CLASS: Mike Terry, Ronnie Rook, Thad Slaton, Lisle Patton, Robert Tennell.

OPEN: Joe Bruck, Tommy Stansell, Allan McKean, Rogers Hester, John Wright.

Many of these riders participate in races all over the area and are considered to be tops in this sport. If you haven't watched these races plan to attend the next racing day which will be February 18. A different pattern is laid out each racing day and offers a challenge to these riders as they demonstrate their skills in vying for the trophies presented in each class.

## Edward Lewis Speed Rites Held Wednesday

Funeral services for Edward Lewis Speed, 83, were held at Kiker, Rains and Seale Funeral Chapel in Colorado City, Texas at 10 a.m. Wednesday, February 7, 1973 with Rev. Caddo Mathews, pastor of Plainview Baptist Church of Colorado City officiating.

Graveside rites were conducted in Citizens Cemetery, Clarendon, Texas at 3 p.m. the same day with Dr. James O. Brandon, pastor of Clarendon First Baptist Church officiating.

Mr. Speed died Monday morning, February 5, 1973 at Colorado City where he had lived for the past 12 years having moved there in 1960. He was born July 26, 1889 in Denton County.

Prior to that time he lived in Clarendon where he was associated with his late brother, Charles G. Speed in the contracting business. He was a pioneer Building Contractor in the Panhandle area and was widely known.

Surviving are his wife, Bertie of the home in Colorado City; a son, Homer C. Speed of Amarillo, Texas; two daughters, Mrs. C. L. Morton of Longview, Texas and Mrs. Betty White of Tulsa, Oklahoma; seven grandchildren and seven great grandchildren.

## Bulletin Issued By Cong. Bob Price

## Two Locals Injured In Two Car Wreck Friday

A two car accident at the intersection of west Highway 287 and FM Road 2162 in front of the Deeprock Service Station about 6:30 p.m. Friday evening injured two people and demolished both cars.

Mrs. Frank Phelan, Jr. was driver of one vehicle and traveling west on Highway 287 when she made a left-hand turn onto FM 2162 in front of a car driven by Cecil Burrow and traveling east on Highway 287 according to Chief of Police Gary Gerdes at the scene of the accident.

Mrs. Phelan was taken to North-west Texas Hospital in Amarillo suffering from eight broken ribs and a collapsed lung. Mr. Phelan reported Wednesday that Mrs. Phelan was improving.

Cecil Burrow, driver of the second vehicle involved in the accident, was taken to Memphis where, his mother, Mrs. Ben Burrow, reported glass particles were removed from his eyes. He was dismissed. Due to his condition Saturday morning he was taken to Groom where it was found he was suffering from a severe concussion and a broken rib. He is recuperating at home.

## Boy Scout Week This Week, February 5-11

Thursday, February 8th, is the 63rd Anniversary of the Boy Scouts of America and the week of February 5 through February 11th has been set aside in observance of the anniversary. Troops have been engaged in varied activities during this time.

Scout Sunday is February 11 and Scout Troop 33 will attend church as a group at the First Baptist Church as will the Explorer Scouts.

## Chili! Chili! Chili!

The Broncho Booster Club is planning a free Chili Supper Tuesday, February 13, at 7:30 p.m. in the High School Cafeteria. The public is invited and encouraged to attend.

E. H. Monroe, president, stated that the Club felt that the citizens of Clarendon and the surrounding area had backed the Bronchos and the Club so well this past season that they felt this would be one way of saying "thanks."

History Of Ashtola

by Mrs. Van Knox

(Continued From Last Week)

Bailey of the Friberg-Cooper Community, finding they had the same problems as we do or did in some ways; also corresponding with Mrs. E. F. Hathaway in the City View Community, Pumpkin Center Community, and several to compare our community with theirs and I found we all had much in common, Flip Breedlove helped and encouraged us, just as County Agents of these communities I have mentioned helped them to be winners at one time or another. About this time the Deed was in our hands thanks to Mr. Knorrp and of course the Bugbee heirs.

Now we could talk about entering the contest. The Bugbee heirs had requested that the community elect not less than seven trustees for the building and also stated that they serve until they were no longer physically able, then to replace that one. So a special meeting was called and we discussed the pros and cons and Flip was present to help us understand what was expected of us to be a winner. We did vote to go into the contest and organized that night, February 18, 1968. Trustees elected were as follows: Chairman, Van Knox; Secretary-Treasurer, Vance Gray; John White, Hubert Rhoades, J. R. Brandon, Slaton Mahaffey, and Leo Wallace. Both Van Knox and Leo Wallace are now deceased, and Slaton Ma-

haffey took the Chairman's place. Hubert Rhoades took Leo Wallace's place on the Board of Trustees.

By that time Flip had written to Mr. Brown to send the enrollment papers and a few days later we were enrolled. Most of the people in the community joined; however, we wished it could have been unanimous. But seldom do we find that in a club or organization. Anyway I was so happy that we were on the road with so many people just like us trying our best to meet the requirements and do a good job whether we won or not. Officers were elected that same date for the Community Center organization. They were as follows: Mr. Van Knox, Chairman; Mrs. Van Knox, Assistant Chairman; Vance Gray, Secretary; Mrs. Vance Gray, Treasurer; Mrs. Doyce Graham, Reporter. So the people rolled up their sleeves and went to work, first on the building and road leading to the Center building.

The people have been very cooperative and enthusiastic as we worked to improve the building and grounds of the Community. Hubert Rhoades at that time was County Commissioner of Precinct No. 1 and was instrumental in moving 400 yards of soil to fill in and raise the road bed leading to the Center building. Previously the road lay under water after a hard rain. The level of the parking place was also built up several inches. An outdoor playground has been equipped with swings, see-saws,

basketball court and baseball diamond. The lawn was planted with burmuda grass. Outside lights were installed and we also have a barbecue pit built by the men of our community several years ago and paid for by the Ashtola Needle Club.

The inside walls of the building itself are brick and tile, thirteen inches thick. It was quite a job. The men chiseled an opening from the kitchen into the entertaining room and this proved to be very convenient and saved many steps. Next they tore out the wall between the two largest classrooms making one large room 24 x 60 feet. All of the walls were then repaired and painted including the front entrance and two restrooms. The woodwork was washed and polished as were the windows.

There are four windows each 90 inches long and 104 inches wide in the entertaining room. New curtains were made for them; then, we began an indoor play room for the children in the auditorium. Next came the building of pingpong tables. They were made out of the old church pews, torn up and made ready by two or three ladies with myself included. We set a fast pace for the men to keep up with their carpentering but we soon finished that little chore by all working together. Pingpong sets were contributed by Mr. and Mrs. H. A. Green, Mr. and Mrs. J. B. Lane, and Mr. and Mrs. Jack Lamberson.

Eight "42" tables were made out of the church pews using the blackboards for table tops. The center has four serving tables—two 5 1/4 feet and two 8 1/4 feet. We also have tablecloths for each table. There are dishes and flat wear to accommodate 75 to 100 people.

The insurance comes due every three years for the building and in 1960 the cost of the three year policy was \$144.68, now in 1973 it will probably cost much more. Anyway it is kept paid up always when it comes due and it is paid most often by the women of both organizations and by rentals for Family Reunions, Bridal Showers, and other organizations. It rents for \$10 per day, \$20 for day and night. It is a lovely place for reunions where there are children, no streets nor cars passing to cause worry to the parents.

(To Be Continued Next Week)

"There is no place like home" ... We have heard this expression all our lives, and the older one gets the more we know just how true it really is. Along this line we were looking over a magazine that we received in England ... It had of all things a short article on travel written by the well remembered Elbert Hubbard. It ended with the following statement:

"Journeys are great educators, but I advise everybody, after taking a journey around the world, across the continent, or even to the next town, to just take a good look out the window when he gets home."

It has been true with us ... So many wonderful trips we have had the pleasure to enjoy, but always the arriving back home held a thrill that exceeded every other joy.

Reading this from the pen of Albert Hubbard brought back a flood of memories to our own life. Even as a boy we enjoyed reading his well known Scrap Book and another called his Note Book. In These days money was hard to come by even for an adult much less a young boy. We remember that the books sold for something like \$3.98 plus postage and that one had the option of sending around a dollar a month until it was paid for. We used part of our small earnings to make payments on the books. What a thrill when the books came in the mail, and what an experience it was to keep up with the payments. Almost like buying an automobile in these days.

Speaking of seeing a new magazine we have never read before, or a newspaper, this too, is something we enjoy. We like to go down to the local newspaper office and scramble through the exchange for an idea coming fresh from some local editor. We enjoy receiving several copies of area weekly papers. Weekly newspaper editors are something special. Recently a friend returned from Kansas with some twelve different papers for us to read. Such is life.

Accent On Health

WHAT IS A COLD?

During this cold weather season, many of us will suffer the consequences of a cold, flu, or respiratory infection even though we may try to avoid or prevent it.

Since the chances are good to have a bout with the "cold bug" this year, it might behoove each of us to know more about what a cold is and what to do with it when you have it, say state health officials.

What is a cold? The common cold is a name given to any of a number of short-lived infections of the nose and throat. All of them are highly contagious. They have similar symptoms. Sometimes they are called by other names, which simply tell you what part of the upper respiratory tract is particularly affected: rhinitis, affecting the nose; pharyngitis, the throat; or laryngitis, the voice box.

What causes a cold? The Texas State Department of Health points out there are many different viruses which cause a cold. A virus is a disease-producing agent so small that it goes right through the very fine filter that stops bacteria. These cold-causing viruses are present in great numbers in your nose and throat when you have a cold. They are carried on the droplets you expel when talking, coughing, or sneezing.

How do you catch a cold? Through a virus causes your cold, a number of conditions seem to increase your susceptibility (science does not yet know why or how.) People appear to catch colds mainly indoors. They get more of them during the colder months. Fatigue, chilling, and poor physical condition seem to give the virus a better foothold.

What's the course of a cold? From one to three days after the virus takes hold in your body, the symptoms appear. (But other people can catch your cold even before your symptoms appear — one reason why colds are hard to prevent.) The first hint is usually scratchiness in the throat. Within a few hours, your nose gets stuffy and you have vague feelings of discomfort and illness. Usually you start sneezing, too.

Within 48 hours, your cold is in full bloom — eyes teary, nose running, voice husky, breathing obstructed, and your senses of taste and smell dulled. You may feel lethargic and achy. It's common to have a moderate headache, especially at the beginning (but a severe one may be a sign of some complication.) You may also have some fever, although that's unusual in adults.

Once the cold has fully developed, it usually continues at its peak for several days. Then there is a gradual letting up. An uncomplicated cold commonly lasts from seven to fourteen days.

Can a cold be dangerous? In itself, no. But it can open the door to other illnesses. And it's hard to know when the door has opened, because all the viruses that cause the common cold have not yet been identified. It's very different to any where the simple, unperilous cold leaves off and complications, which may be dangerous, begin.

Other - non - cold - viruses may complicate matters by getting in theiricks when you are already felled by a cold. Or bacteria — many of which live in your body harmlessly during times of good health — may grow strong when your defenses are down. Or sometimes your body is allergic to the cold virus or the activated bacteria.

Then the severity of the cold symptoms increases, and the inflammation and mucous discharge may spread to other parts of your respiratory system. For some people, these complications may be dangerous.

Can you cure a cold? No, you can't. There is no drug known today that can cure the common cold. Antibiotics, the "wonder drugs," are effective against

bacteria, not against ordinary respiratory viruses. Doctors may prescribe these drugs for the complication — the secondary, bacterial infections — but not for the cold itself.

NEWS FROM Congressman Bob Price 13th District, Texas

Today Congressman Bob Price introduced legislation which, if enacted, will require the Secretary of Agriculture to carry out the provisions of the existing law providing for the authorization and funding of the Rural Environmental Assistance Program.

Price stated, "I feel that the effects brought about through the discontinuance of this important program would be detrimental to the long range preservation of our most vital human resources — namely our soil, water and air."

Noting that the Rural Environmental Assistance Program has worked effectively as a Federal cost sharing program for conservation programs installed by farmers since the 1930's, the Texas Congressman went on to mention some of the accomplishments made possible through this program: "REAP has enabled our farmers to do more to clean up and preserve our environment than any other federally sponsored program. Through this program our farmers have been able to protect our soil through the establishment and improvement of vegetative cover, strip-

cropping practices, terracing, the re-seeding of marginal land, and cross fencing for grazing. REAP has also provided for strides to be made in the areas of sediment retention and chemical runoff control, drainage, irrigation and related practices and livestock water utilization and distribution on ranches. Through this program our farmers have also been able to embark upon activities which have slowed the spread of noxious brush and weeds, accounted for a major portion of our reforestation program on private lands, helped aid wildlife conservation and increased the development of recreational areas."

Price went on to state that it would be unfair of us to demand America's farmers to take on the burden of the conservation of our natural resources, single-handed when it is evident that REAP has benefited not only ru-

ral America, but our Nation as a whole. He added that it is not feasible at this time for farmers to initiate and continue long range programs without the aid of cost sharing initiatives provided by the Federal Government especially if we are to continue to feed the starving millions abroad.

"I am looking forward to the hearings which will soon be held on this matter by the Committee on Agriculture of which I am a member and I am hopeful that the Administration will reconsider its action with regard to this important program, Price concluded.

Impeding traffic is against the law in Texas, says "Texans for Traffic Safety." In effect, the group adds, the law says "get with it or get off the road."

The Explorer Scouts returned Sunday night from Red River, N. M. They were bruised, battered and tired but bubbling over with excitement about the good time they all had. This was all you could hear in the hall this week. Whoever said that snow is soft better ask some of these kids if that is true.

Seems like first of all Terry S. put on her skis and started down the slope and who did she run into — the Ski Instructor! This is the way NOT to Ski.

Sauna H., when a row of Skiers line up, they aren't making a bridge for you to Ski across. Cries of "help" were heard all over the mountains.

I hear that Jerry H. would make a good Ski instructor. Miss Veach decided to stick to the inner tubes after she flipped her snowmobile.

Another one to enjoy the inner tubes was Calvin B. but from all reports he needed brakes on his. Watch out for that car, Calvin!! Pat R. believes in hot showers. Seems like after he finished his the entire Lodge was without hot water for a while. Pat, we're glad it was your Ski that got broken and not your leg. Right?

You've always heard the poem about Mary and her little lamb that followed her to school one day but Katrina M. can top this. She had a little mouse that rode to school with her one day. Katrina, this is against the rules.

There have been some strange sounds coming from the Old Gym after four o'clock in the afternoon. There are moans and groans of pain. Upon investigation, I found it was Mike L. coaching his "Senior Citizens" Women's Basketball Team. They are getting ready for the big game that is coming up the last of this month. Checking with Coach Leeper, he seems to think he might have a winning team on his hands. Good luck to everybody.

Debbie R. has a big secret. She won't tell what it is but it must be pretty good.

Seems like Rodney H. went hunting the other night and brought back an "Owl". The best place to find these "Owls" is around Hedley.

Johnny G.'s new hobby these days is picking up old car parts. If you have anything to contribute, just contact Johnny.

Pat T., a right hook to the jaw might cure Mike L. from some of these little jokes he's been pulling on you.

Does anybody know why James E. looked so sad at the show Saturday night?

Thanks to some kind girls, Tommy S. didn't go hungry Sunday night. Right, Tommy?

The warm weather Sunday made everyone think summer time. Marilyn A. and Nancy O. had fun horseback riding.

## Social Security

Q—I often work for my husband in his business. He is the owner of a grocery store. Is it possible for him to pay me wages and report them so I can become insured for social security benefits?

A—No. This is considered family employment and is not covered by social security.

Q—When a girl marries, does she need to get a new social security card?

A—Yes. Her name changes and her employer must report wages under the name and number on

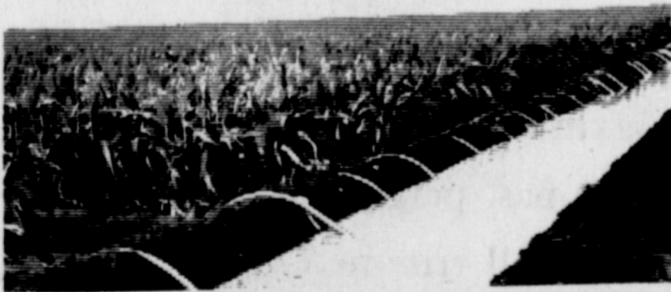

her card. Therefore, she should get a new card that will show her new name, even though the number will remain the same.

Q—I have a maid who works for me only one day per week. I pay her \$5.00 per day. Since this is such a small amount, do I have to take out social security taxes on her wages?

A—Yes. Since you pay her more than \$50.00 in a calendar quarter of the year, she is covered by social security. You are required by law to withhold social security taxes and report her wages on a quarterly basis to the Internal Revenue Service.

## WHOLE SOME MEAT FOR TEXANS

A livestock and meat marketing specialist for the Texas Agricultural Extension Service believes that meat processing plants in the state are doing the best job in history in supplying customers with top quality meat. Changes effected by the Texas Meat Inspection Law of 1969 have resulted in the remodeling of some processing plants and new plants being built. Also, many have gone out of business, leaving communities without a slaughtering facility. Thus there is a potential in such communities for new plants, and the Extension Services can provide informational assistance.

According to the Veterans Administration, nearly 10,000 wives and widows trained under its Dependents' Educational Assistance program in fiscal year 1972, an 8.7 percent increase over the previous year.

FEB. 11-17

A Salute to National Electrical Week, and a pledge to try to make life better and brighter.

## Life Holds A Little More Because of Electricity

And it's right at the tip of your fingers -- with an unobtrusive light plug, a small switch to flick. That's what starts industries humming and farms producing. That's what floods homes and buildings with brilliance. There also are a lot of little -- but important -- things that get going this way, too. The toaster toasts. The family laundry comes up sparkling. TV presents entertainment and information. Newspapers record instant history. Oh, yes. Life is a whole lot better because of electricity. We're looking forward to making it even more exciting and satisfying -- starting now.

Our next meeting will be Saturday night, February 17. This will be a Valentine Party. We will play 42. Bring sandwiches for your party. We will eat at 6:30 p.m.

## Mrs. J. H. Easterling Celebrates Birthday

Mrs. J. H. Easterling celebrated her 93rd birthday Tuesday of last week, January 27, 1973, with a family gathering at her home in Clarendon.

Present for this wonderful occasion were her children: Mr. and Mrs. Russell Wasson of Panhandle, Mr. and Mrs. V. R. Jordan of Friona, Mr. and Mrs. Earl Easterling of Clarendon, Mr. and Mrs. J. T. Easterling of Beaumont, California, and Fred Easterling of Farmington, New Mexico.

Three children were unable to be here: Clyde Easterling of Bentonville, Arkansas; Mrs. R. L. Morrow of Dallas, and Claude Easterling of Rogers, Arkansas.

Mrs. Morrow had been here the previous week end for a visit.

Others present were Mrs. Easterling's granddaughter, Mrs. Walt Knorrp of Clarendon, and Mrs. Jerry Don Eagle and daughters of Panhandle.

A number of friends called in the afternoon.

A bountiful dinner was served at the noon hour as was the traditional birthday cake.

Mrs. Easterling received many lovely gifts, flowers, cards, and best wishes.

Our congratulations to you, Mrs. Easterling, and may you have many more happy birthdays.

## Fun After Fifty Club Enjoys 42 & Dinner

The Fun After Fifty Club (Senior Citizens) met February 3 at 10 a.m. with approximately fifty senior citizens gathering at Lions Club Hall for their monthly meeting. Dominoes, 42, and visiting were enjoyed by all until 11:30 when Mr. Homer Taylor called the meeting to order.

Mr. Taylor, acting as president pro-tem in the absence of retiring president, Mrs. Lillie Knox, presented the slate of officers as named by the nominating committee and asked for nominations from the floor. Mrs. H. T. Burton moved that the nominations cease and all officers be elected by acclamation. This motion carried.

Mrs. Florence Hester, president-elect, presided at the business meeting. Visitors and new members were welcomed and birthdays recognized. The Door Prize, a beautiful box of Valentine Candy, was presented to Mrs. O. C. Watson.

Table grace was offered by Mrs. Tucker after which a bountiful lunch was served from a table decorated by Mrs. Taylor and Mrs. Hutchins using the Valentine motif.

Come join the "Fun After Fifty" group and enjoy the hospitality and friendship.

## Miss Maci Celli Is Honoree At Coffee In Phelan Home Sat.

Miss Maci Celli of Stephenville, bride-elect of Pat Perkins, was honored at a Coffee in the home of Mrs. Naomi Phelan Saturday morning, February 3, 1973. Guest were received from 10 o'clock to 12 o'clock.

Guests were greeted by Mrs. Phelan and presented to Mrs. Esta Celli of Stephenville, Miss Maci Celli and Mrs. Thomas Perkins, mother of the prospective groom. Miss Pam Perkins, sister of the groom-elect registered the guests at a table marked by a pink carnation in a bud vase.

Gifts were attractively displayed. Hostesses presented Miss Celli with a lovely silver casserole.

Guests were served sausage rolls, cinnamon rolls, pound cake and coffee from a table beautifully laid with a pink linen cloth, pink napkins, and a silver coffee service. Miss Carrie Neal presided at the table which was accented by an arrangement of pink and white carnations.

The honoree received many lovely and useful gifts.

Hostesses for the courtesy were Mesdames Naomi Phelan, Ruth Neal, Clyde Martin, Billy Jack Land, E. H. Monroe, Louise Payne, Pea Riley, J. W. Murphy, Margaret Waldrop, and Gene Welch.

Out of town guests included Mrs. Esta Celli of Stephenville, mother of Miss Celli, and Mrs. Hattie Hartzog of Brice, grandmother of the groom-elect.

## Medicare Insurance Possible For Disabled

About 1.7 million disabled people can get Medicare health insurance under a change in the social security law — the first people under 65 to become eligible for this protection since the Medicare program began in 1966.

Starting in July 1973, disabled people who have received social security or railroad retirement disability payments for 24 consecutive months or more can get help from Medicare in paying for their hospital and doctor bills and other covered services, according to Travis C. Briggs, social security district manager in Amarillo.

Those eligible will include disabled workers, disabled widows and disabled dependent widowers between 50 and 65, disabled mothers 50 or older who get social security benefits because they have young or disabled children in their care, and people who get benefits because they were disabled before age 22.

Starting in July, people under 65 who need kidney transplants or dialysis for kidney disease also will be eligible for Medicare if they have worked long enough in jobs covered by social security. This health insurance protection also will be available to insured workers' wives or husbands and dependent children who need dialysis treatments or kidney transplants.

Eligibility begins the 3rd month after the month dialysis begins and lasts through the 12th month after the month dialysis ends or the patient had a kidney transplant.

Medicare has previously been available only to people 65 and over.

The protection has been extended to severely disabled people under 65 because on the average they require seven times as much hospital care as other people — and three times as much service from doctors.

Many severely disabled people can't get private health insurance for financial or other reasons.

People who are getting monthly social security payments because they are disabled will be notified if they are eligible for Medicare. But widows 50 or older who have been severely disabled the last 2 years but haven't filed a claim based on their disability because they're getting checks as mothers caring for young or disabled children will have to apply for disabled widow's benefits to be eligible for Medicare.

The hospital insurance is funded by social security contributions from employees, employers, and self-employed people. The medical insurance is funded by individual monthly premiums and general revenues of the Federal Government.

Medicare is administered by the Social Security Administration of the U. S. Department of Health, Education, and Welfare.

## Annual 4-H Sale At Claude Sat., Feb. 10

The annual Armstrong County 4-H Club Farm Machinery Sale will be held February 10 at Claude, Texas. This sale provides an opportunity for farmers and ranchers to dispose of surplus equipment, and makes available many bargains to buyers. This sale was among the first of its kind in this section of the country, and has attracted state-wide attention. Gross sales have reached \$15,000 in a single year.

A small commission is collected on all items sold or passed out. These proceeds help finance activities of the Armstrong County 4-H Clubs. Auctioneers will be Wilden Hundley, Chester Butler and Louis Thomas of Claude, James Bible, of Wayside, and Roy Reynolds of Canyon, who will donate their services for this event.

Anyone wishing to consign equipment for this sale should contact Bo Wheeler, County Agent, Claude, Texas. Early consignments help to make an attractive handbill, which helps make a better sale.

**Community Action**

By Edna Osburn

The Donley County Community Action office reports good attendance in Vocational Training Classes, both TSTI and Clarendon College classes. The response has been tremendous which proves that our area needs Vocational Training. Some statistics to prove this are in the age breakdowns. There are 43 in the 16-21 age group, 42 in the 22-44 age group and 25 in the 45-64 age group. These are people who are drop outs or are interested in upgrading themselves on their present job or trying to get a better paying job.

The agency has worked with 72 heads of households this month. They are enrolled in 8 Vocational Training classes. This number does not include the College enrollment. Transferable college hours are being earned by these students. Some obtained student loans and some paid full tuition fees.

As coordinator of the Donley County Program, I would urge each person interested in our program to write your Congressman and Representative requesting re-funding for our agency. Since proof has been established of the need, we do not want to be phased out along with other government agencies. We want the Community Action Agency, Planned Parenthood, Housing Development, and Educational Programs to continue. We want to put forth our efforts toward the Early Childhood Development Program for our area. This is an educational and child care facility greatly needed if we expect to develop industry. There will be a survey of the county made for all purposes required for re-funding in the near future.

All persons interested in pre-entrance testing for G.E.D., please contact my office, 874-2573. We have books for studying to prepare you for pre-entrance. Once the pre-entrance is passed you can take your G.E.D. with more confidence of passing it. G.E.D. (General Equivalence Diploma) is accepted on any job for College entry. This program has had wonderful results this past year. Thirty-three diplomas have been earned and an equal amount working toward the same goal.

**Highlights and Sidelights FROM YOUR State Capitol**

By BILL BOYKIN

Texas Press Association

**CORRECTION:**

The January 31st TPA Legislative Bulletin states that House Bill 10 — the "free flow of information" bill — went to a House subcommittee. The bill did not go to a subcommittee, but was passed out by a vote of 16-4 and will be on the House calendar the week of February 5-10. This is the bill that grants a privilege to a newsman's source of news.

The Texas Legislature swept away some of the clouds last week and made important moves toward "government in the sunshine."

In addition to passing the revised "open meetings" law — patterned after Florida's famous "sunshine law"—House committees approved a new "open records" law for Texas and placed on the House calendar a "free flow of information" bill.

Changes in the Texas open meetings law will allow the public and press to be informed of all "quorum" meetings of public bodies. It was approved 132 to 13 by the House of Representatives and moved to the Senate Jurisprudence Committee.

Closed meetings will be held to a minimum under the exemptions in the new law. It was authorized by Rep. Carl Parker of Port Arthur and submitted as a part of House Speaker Price Jr.'s "reform package."

A marathon five-hour hearing by the House Judiciary Committee — chaired by Rep. DeWitt Hale — was held on the "free flow of information" measure. This proposal is H.B. 10, sponsored by Rep. Dave Allred of Wichita Falls.

It grants a "news source" confidential privilege, and allows Texas journalists to get more information about governmental, law enforcement and other matters important to the public.

The House Judiciary Committee approved the bill 6 to 4 and sent it to the House floor for debate this week.

H.B. 6, the "open records" measure, will allow the public and press access to most all records of government, city, county and state, that are not closed by state statute. A few other restrictions were placed on the bill — sponsored by Rep. Lane Denton of Waco.

All of these "government in the sunshine" measures follow the pattern of new House rules which open committee meetings, and follow the trend toward "openness."

PEOPLE'S WATCHDOG PROPOSED — AGAIN — Legislators from Houston and Fort Worth

have introduced legislation proposing to create the office of "Ombudsman" in the State Government in Texas.

The idea has been put before the legislature in previous sessions only to receive a cold shoulder. The Ombudsman would be an independent and politically neutral office with the sole duty of investigating and recommending action on citizen complaints about state government administration, under the proposed legislation.

The two sponsors, Reps. Hawkins Menefee of Houston and David Finney of Fort Worth, said the Ombudsman would be able to protect individual citizens by giving them resource for their grievances against unfair or abusive administrative practices.

The Ombudsman, however, would have only the power to criticize and publicize, but not reverse, undesirable administrative actions.

MICKEY MOUSE DISCRIMINATION? — Houston Rep. R. C. (Nick) Nichols has introduced legislation which he says will eliminate the "Mickey Mouse" discriminatory practices of some insurance companies when it comes to selling automobile and fire insurance.

One bill would prohibit any fire or automobile insurance company from cancelling, refusing to issue, or refusing to renew a policy because of the age, sex race or place of residence of the person applying for insurance.

Rep. Nichols says "older people and younger people are the victims of automatic discrimination when buying auto insurance, even though they may have good individual driving records."

Another Nichols' bill would require that the only kind of life insurance policies which can be sold in Texas would be level term policies which are guaranteed renewable to age 80 — without evidence of insurability.

"The typical cash-value life insurance policy is one of the most prevalent and least understood consumer frauds in existence," says Nichols. "The simple fact is, at the death of the insured the beneficiary automatically loses the cash value of the policy."

PRAY QUIETLY PLEASE — Sen. Walter Mengden, Republican state senator from Hous-

ton, has dropped a bill in the legislative hopper to allow local school boards to establish periods of silent prayer or meditation at the beginning of each school day.

The U. S. Supreme Court says a school district cannot dictate to a class of students the wording of a daily prayer.

**License Plates Sale Now In Progress**

Texas motorists can pick up license plates for the faithful family car starting February 1 at the county tax office or substation in the county in which they live.

The motorist may register his vehicle in person at his county tax office or substation by bringing in the entire handy three-part form he received in the mail from the Texas Highway Department. It takes only a few minutes to process the form, collect the fee and send the motorist on his way with new plates. Drivers also can get new plates by mail if they send in the complete three-part form, the registration fee plus one dollar for each vehicle to their county tax office prior to March 1.

After March 1 it will be necessary to go to the county tax office or substation in person as 30 days are required for mail delivery. In any case, owners will save themselves time and trouble by using the computerized forms.

With the form, a certificate of title and last year's registration receipt are not needed.

Whether the driver uses the mail or applies in person — the important thing for him to remember is to be very careful NOT to separate the three-part application form. The entire form must be mailed or taken to the county tax office or substation. A stick-down strip showing the new license number is attached to all sections of the form. The tax office separates the form, returning part of it as a receipt for the owner.

Applications for license plates should be sent only to the local county tax office. Motorists should NOT send their payments to the Texas Highway Department because this will delay their registration.

**How to make your home more comfortable while you lower your energy costs.**

Like to enjoy barefoot comfort in your home all year long?

Like to cut heating costs as much as a third?

Like to cut air conditioning costs as much as half?

The secret is through insulation.

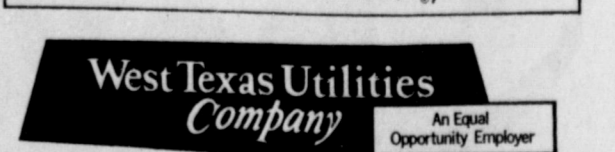

Your home probably has some insulation already. But, thorough insulation includes an adequate amount in the ceiling, in the walls and under the floor. It also includes weather stripping, storm doors and storm windows or double glazed windows.

Once you have good insulation, you can forget about cold floors, cold walls and chilly corners. You'll be more comfortable and enjoy your home more.

The cost will vary, depending on the style of home and amount of insulation already in it. But, one important fact to keep in mind is that insulation is the only comfort improvement you can make in your home which requires no maintenance, yet pays for itself through lower energy bills.

Ask an insulation dealer for advice and a free estimate, or call WTU for more information.

**WHAT COSTS LESS NOW THAN IN 1952?**  
 The average cost of a kilowatt hour of electricity used by a residential customer served by WTU cost 29% less than it did twenty years ago... (1952 - 1972) and... In 1972 the average customer used over three and a half times as much electricity as he did in '52.

Planned Parenthood Clinic Evaluation

By Mrs. M. L. Mays Our prime purpose, is of course, to provide family planning services to those families who are interested in coming to our clinic.

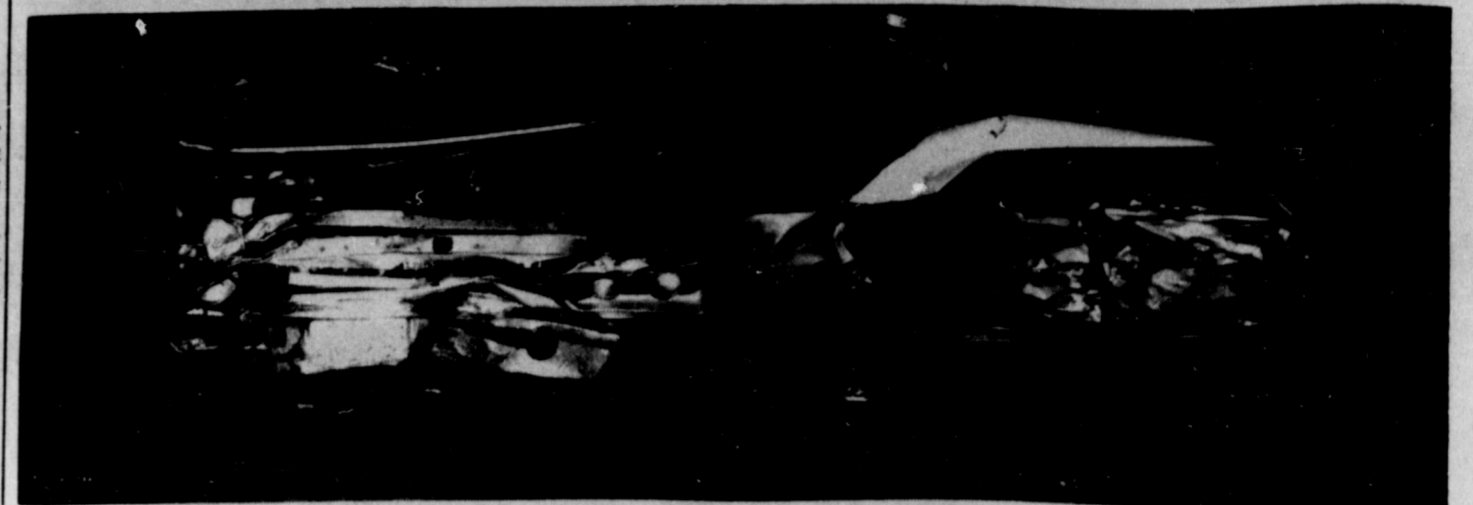

Much of what we do is educational. When a patient enters the clinic, they fill out a medical history chart, attend a short class on feminine hygiene, importance of spacing children, importance of and what a pap smear is, and the methods of child spacing.

The clinic helps the individual and their families with spacing of children which enables women to be better mothers and better wives. Spacing children gives healthier mothers and children.

Costs of one child born and raised on a very low income, to the age 18 are estimated at \$18,000 to \$37,000. To keep one woman on some kind of child spacing method for 18 years only cost \$200.00.

Early detection of cancer and other pathology eliminates many problems. In addition to the pap, pelvic, and breast examination, the clinic offers anemia, Tuberculosis, V. D., and pregnancy testing.

We are interested in every phase of this evaluation, but mostly we are interested in helping families to help themselves. Many of the women have expressed enthusiasm and gratitude to the clinic, but have asked, "where were you 10 years ago?"
