Bronchos Face Wellington In Final Game Of Season Here Friday Night

by Tom Higley The season is almost over and the Clarendon Bronchos could almost call it complete with a victory over the Wellington Skyrockets Friday night in Broncho Stadium.

The Skyrockets, one of the pre-season picks with a possible chance to upend White Deer for the District 2-A title, found themselves on the bottom looking up two weeks ago when they met White Deer. The Bucks scored almost at will in trouncing the 'Rockets, 40-0.

White Deer defeated Clarendon 40-14. Wellington has one of the largest teams in all classes in the Panhandle. Their ends check into each contest at 214 and 245 respectively. That is a lot of weight for any offensive team to move around but it has been done. Before the White Deer game, Wellington had been scored on only one time and Shamrock was the club that turned the trick.

Last week Clarendon turned a minor upset in catching up to Memphis and winning 22-21. Broncho coach Jeff Walker will be pulling out all stops this week in an effort to better the Clarendon record.

All of his players reported for workouts in excellent condition this week following the Memphis win.

If Wellington is looking forward to the coming of basketball season, and the Bronchos want to better their record, the final game could wind up with Clarendon on top, 22-21. The Broncho Drill Team will march Friday night in pre-game ceremonies at the Clarendon-Wellington football game. This will be their last performance for the current season. They will present the "Hello" yell and a new one called "Action To Win." Their presentation will start soon after 7 p.m.

The Young Homemakers will sponsor a rummage sale Saturday between the hours of 8 a.m. and 3 p.m. Clothing and household items will be offered for sale. The sale will be held across the street from the Donley Hotel to the north end of Main Street.

Sixty Bulls Consigned To Registered Bull Sale

Flip Breedlove, secretary and manager of the Rolling Plains Registered Bull Sale, reports that 60 bulls are consigned to the 1965 sale to be held in Clarendon December 1 at 12:30 noon. There will be a big TV show over Channel 4 on Cotton John's Farm and Home Show November 27th showing herd bulls and some consignments to be Clarendon sale. This show for the 27th will be video taped Monday, November 22.

November 13th, the American Galloway Directors will hold a night meeting in the Community Room of the Farmers State Bank. H. A. Green will be host at this meeting.

Bulls are expected to start arriving in Clarendon a couple of days prior to the December 1 sale. Classifications for sales order will be at 9 a.m. December 1, the day of the sale. This gives buyers a chance to come early and see the bulls being judged for auction.

Walter Britten of College Station, Texas will be auctioneer.

Supt. Kenneth Sams announced yesterday that Open House at the New Hedley School building would be held Monday evening Nov. 15th at 7 p.m. with entertainment and refreshments. The public is invited to attend and inspect the new building.

The new building was completed in September at a cost of approximately \$273,000 and has a floor space of close to 25,000 sq. feet. Students started the fall semester in the old building but moved into the new structure September 28th. The building was constructed by Trout Construction Co. of Borger.

Hedley residents are quite proud of this new structure which includes 3 primary class rooms, 4 secondary class rooms, 1 mechanical room, study hall & library, typing room, science room and laboratory, 2 rooms for Home economics, principals office and reception room, teachers work room, Superintendents office, book room, 2 custodial rooms, toilet facilities. Also a gym to seat 500, cafeteria to seat 250 and a stage at one end, boys and girls dressing rooms.

Window Peeping And Prowling Reported Here

Numerous reports of prowling, window peeping, gasoline stealing, entering homes and etc. have been circulated the last couple of weeks. Some true and others probably exaggerated. It is known that some shots have been fired and apprehension made in some cases.

The problem could become a serious one. Parents should warn their children, teenagers as well as youngsters, that trespassing is a serious offense and property of others must be respected according to law. A person can hardly be proven guilty for shooting unidentified prowlers or peepers. There is little to be doing in Clarendon all night long. See that your young people are at home at a reasonable time. It might prevent a serious problem.

Anyone seeing suspicious persons or cars about their premises is asked to contact the Chief of Police, Gary Gerdes. All such reports will be investigated.

Mike has been a 4-H Club member the past four years and has been active in livestock projects. He has fed several show steers and has placed near the top with them at some of the major shows in the area.

Mike will be honored along with Gold Star winners from 21 other Panhandle counties at the annual Gold Star Banquet to be held in Amarillo Saturday, November 13th. Speaker for the occasion will be Grainger McIlhenny of Wheeler who is a member of the Texas Legislature.

Quail Season To Open Saturday Nov. 13

The fastest starting feathered target in Texas will bid in its own sporting way for gunner's attention when Quail season opens in the Panhandle area Saturday, November 13th. It will continue thru January 31st.

Local hunters should take special note of the area included in the opening date. Every County west, north and east of Donley will be open but Hall and Briscoe counties to the south will not have open season until December 1st so watch your hunting south of the county line.

The daily bag limit is 12 birds with 36 in possession. If you plan to hunt outside of Donley County be sure to have your State Hunting license. Landowners are more strict than ever so you should have definite permission to hunt a place before trespassing thereon as game wardens and other peace officers will be on the job.

The deer and turkey season for the Panhandle will open Saturday also and continue thru the 28th. The bag limit is one deer, buck or antlerless; one turkey, either sex.

Most important of all . . . is to be careful with firearms and over exertion.

News Copy Required To Meet Deadlines

That word "deadline" is a nasty word to have to use in regards to any subject and arouses rebellion in most of us when applied to what we are doing. However, once again we are at the Donley County Leader office are reminding everyone that all news deadlines must be met so we can meet our mailing deadline. You see we have deadlines to meet every day the same as our reporters. If we have no break down in machinery we barely make the mailing time.

We have a wonderful group of people to work with here in our area and you have never let us down yet so we know you will cooperate with us as in the past. We need your news for we want our paper to be representative of everybody in our area, not just a few.

Advertising determines the number of pages run each week and provides the income to pay our grocery bill and keep us in operation. The subscription rate won't cover the cost of paper for printing and the postage. The news matter is run as a public service.

We at the news office have worked at night for the last three weeks to take care of news items. There are hundreds of good and plausible reasons why material is not in the office before 5 p.m. but that is closing time supposedly, so what can we do—work until that amount is turned out—so much has to go through each day that the ink may dry enough for the next day's work.

We are asking that all material be turned in on time and dated. If we have any reason to believe news late due to no dating or if news is late it will not be run. Please don't ask for exceptions except in case of death or serious complications.

News turned in on time but crowded out due to lack of space may be used the next week space permitting.

If you doubt our problems, come by the office and we will be glad to give you a conducted tour so that you may understand the situation. We will truly appreciate your help.

WHEN AND WHERE

Phi Beta Lambda News by Betty Dover

The Clarendon College Chapter of Phi Beta Lambda met Monday night, November 1, at 7:30 P.M. in the Business room. Ten members were present.

Mrs. Joe Ritter presented the program, a very interesting and informative talk on how to be successful and how to enjoy one's work in the business field. At the close of her speech, she read a poem she had composed on the idea of what an "ideal secretary" should be. We would like to thank Mrs. Ritter for her enjoyable program.

The chapter voted to sponsor two "twirp days" the 18th and 19th of November. The girls can buy licenses to ask boys for dates, the boys can buy licenses to refuse dates, and those "going steady" can also buy licenses.

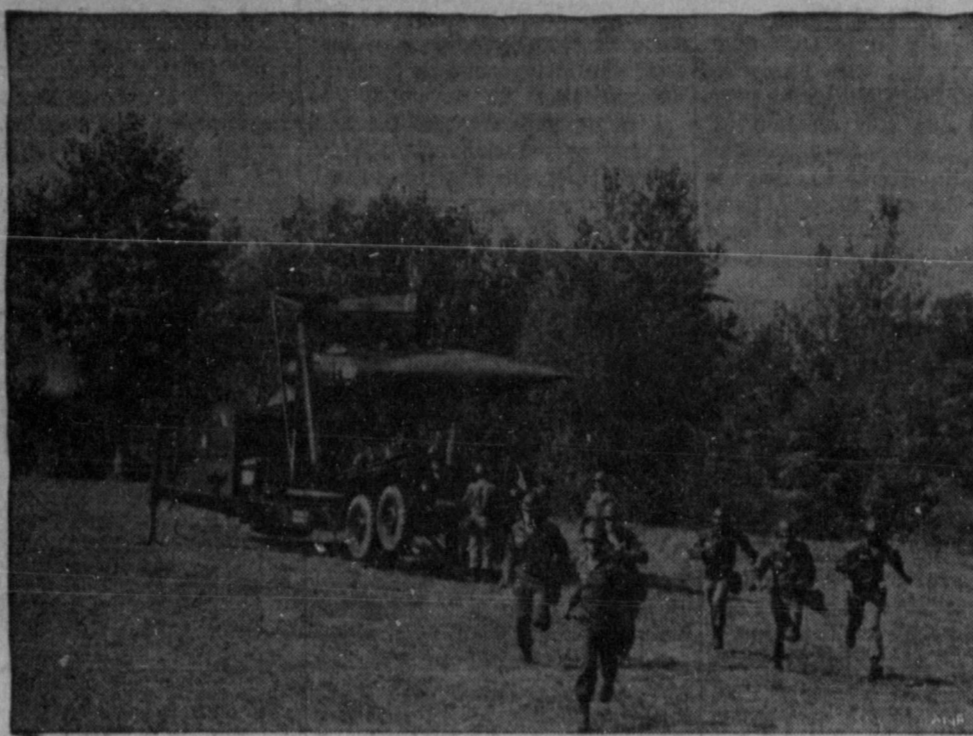

The club will also sell chances on a cake to be given away on November 19th during the first ball game.

The chapter voted to continue the membership drive through November 5 and meet on the first and third Mondays during the activity period rather than at night as previously planned.

Mrs. Day To Have Coke Party
Mrs. Day, wife of the Dean of Clarendon College, is having a Coke party in her home for all college girls Tuesday, November 9 at 7:30 P.M. It's to be an informal get-together, giving all the girls who commute from various communities and those who live in Clarendon a chance to become better acquainted. Make your plans now to attend, girls.

always in a hurry, suddenly discover the library, and lose much sleep. All in all, it is not a pleasant experience for students or teachers. Maybe the natural vitality of youth will restore us to our normal behavior, at least until grades are mailed out. By that time, more than natural vitality may be needed by some of us to enable us to recuperate.

Lonnie Roark reported that he lost forty hours of sleep and then drew a complete blank on one of his tests. Lonnie is now looking forward to next year with great gusto. Tommy Waldrop walked into the library Friday morning, turned around and walked out, muttering to himself, "Who ever said, 'better late than never?'"

Of course, one can never go by what students say during test week. The student who complains the most about not being ready just might be the one who makes the highest grade. Maybe all things will have returned to normal by next week.

Here and There
The Drama Department of Clarendon College, under the direction of Mrs. Norma Selvidge,

is working on a production of Mark Twain's, "A Connecticut Yankee in King Arthur's Court." The cast is made up of the following students: Hank Bennett-John Cearley; Marion and Elaine-Patty Juno; King Arthur-Lonnie Roark; Queen Guinevere-Maudena Self; Merlin-Kenneth Price; Clarence-Todd Dyess; Queen Morgan Le Fay-Dolfia Vallance; Sandy-TRose Stepp; Sir Sagramor and Sir Launcelot-Buster Branum.

The three-act comedy will be presented on Monday evening, November 22, at 7:30, in the college auditorium. Price of admission is seventy-five cents for adults and fifty cents for students.

BULLDOG KENNEL

The Bulldogs will be executing a kind of leg-work Thursday that will be a trifle different from the exercise they've been getting in work-outs. They plan to cover the entire town, pushing the sale of season tickets to the twelve Bulldog home games. The tickets are a real bargain at half price—\$6.00 for adults and \$3.50 for students. Everyone will want to take advantage of this money-saving opportunity. A brisk sale of season tickets is a good indication of the interest and support which the Bulldogs can expect from the town.

Coach Overcast announces that the Bulldogs will scrimmage Thursday night in the college gym at 7:30. The public is invited to stop by and watch the work-out.

CONGRESS STUDIES ITSELF

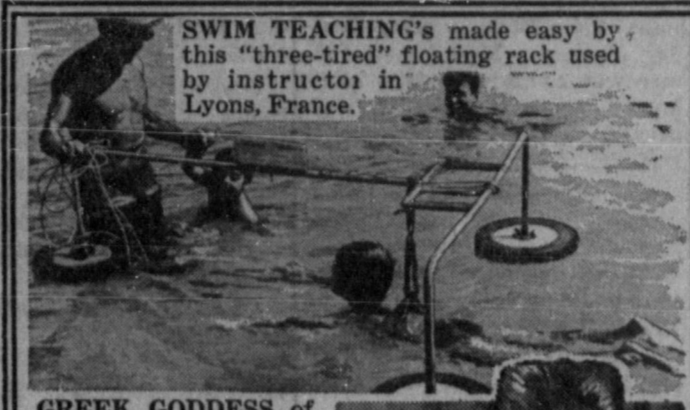

In recently concluded hearings of the Joint House-Senate Committee on the Organization of Congress, a group established to study means by which Congressional functions can be strengthened and improved, extremely valuable recommendations were received from some of the most senior members of the two Houses. While the suggestions were many (the printed hearings are five inches thick), some proposals had particular bearing on problems that, in my view, need to be solved if Congress is to continue to do its work well and, as envisioned in the Constitution, in proper relation to the Executive and Judicial branches of

government.

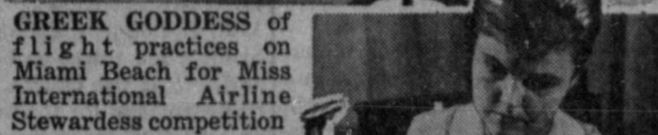

Of paramount importance in the hearings was the carefully prepared testimony of my warm friend and House colleague from the South Plains, the Honorable George H. Mahon, who has represented the 19th Congressional District of Texas in the House since 1935 and who is now chairman of the very powerful House Committee on Appropriations. The fiscal operations of our Government have received Congressman Mahon's daily attention for years. No man in or out of Congress has a better background of experience to base recommendations for improved Congressional review and disposition of the appropriations responsibility. As Congressman Mahon put it in his testimony, "The supreme weapon of the Congress for control of Government is the appropriating power."

Space here does not permit a full review of Congressman Ma-

hon's recommendations for improved procedures. I would like to summarize several of them because of their particular interest to me and, I know, to other experienced members of Congress who believe present procedures can be improved.

It may come as a surprise to many citizens, but there is not now any service Congress provides itself by which a Member can receive an up-to-date summary on any given day of the status of budgetary actions in relation to budget recommendation originally submitted by the President. A number of factors

beyond the appropriations actions affect this matter. The extent of "back-door" spending — money spent by Government agencies without their having to go thru the appropriating process — can affect the state budget without Members having immediate knowledge of it. Appropriations actions may reflect lower spending levels than requested in the President's budget, but the situation may actually be that back-door spending has raised the total above budget goals.

"Back-door" appropriations are indefensible in my view as in Congressman Mahon's Standing

authorizations permitting agencies to stage end runs on the appropriating process, by enabling them (as an example) to borrow money from the Treasury to finance their operations, are a travesty on the Constitution. Congress should, in acting on reorganization recommendations expected to come forward next year, take action to curtail this evil.

Also being urged is a careful look at the desirability of changing the Government's fiscal year to a calendar year basis. Until 1842, the two coincided. Now, because of the press on Congress in so many areas, appropriation bills for a fiscal year beginning on a July 1 are often not acted upon until the fiscal year is several months old. Departmental efficiency is affected as a result, and it might well be that the return of the fiscal year to a calendar year would be a sound step to take.

These are examples of the very close look Congress is taking now at its own procedures. You'll be hearing more on this subject after the first of the year when the joint committee presents its recommendations.

Not so in America.

In all criminal prosecutions the accused shall enjoy the right of a public trial, says Article the Sixth of the Bill of Rights of the Constitution of the United States.

So people may know, newspapers must report these trials.

This is not freedom of the press. This is responsibility of the press.

Newspapers have no extraordinary rights.

People do.

Men have the right to a public trial and the right to know what happens in courtrooms. These are rights written into the Constitution and affirmed by the Supreme Court in 1829 when Mr. Justice Bagley wrote: "It is one of the essential qualities of a court of justice that its proceedings should be public."

If people are to know the truth the newspaper must report the news.

Les Beaux Arts Club Holds Regular Meeting

Les Beaux Arts Club met November 5th at Patching Club House for their regular monthly meeting. Refreshments of spiced tea and cookies were served from a table decorated with a Thanksgiving turkey made of fall flowers and leaves.

The president, Mrs. John Bass, presided over the business meeting.

The program on glass and glassware was given by Mrs. M. R. Allensworth and Mrs. W. C. Thornberry. Mrs. Allensworth traced the history of glass from its beginning to the present. The glass industry was the first organized industry of the American colonies. Six glassmen were brought to the Jamestown Colony when it was decided it would be cheaper to make glass than have it sent from England. Mrs. Allensworth had several pieces of colonial glass on exhibit and told its history.

Mrs. Thornberry had several glass articles which had been sun-colored. The ultra-violet rays of the sun cause a chemical interaction in the glass. The glass becomes a soft amber, turquoise, or purple.

Hostesses for the afternoon were Mesdames W. W. Taylor and Gene Alderson.

Members present were Mesdames M. R. Allensworth, John Bass, W. K. Hardin, Thomas L. Cook, W. J. Lewis, Jr., Forrest Sawyer, T. C. Saye, Douglas Shelton, E. O. Simmons, C. G. Stricklin, J. D. Swift, W. C. Thornberry, J. H. Howze, C. T. McMurtry, Homer Glascoe, and Miss Mabel Mongole; also two guests, Mrs. W. G. Word, and Mrs. Arthur Howard of Memphis. —Rep.

Charlie Deyhle, eighth grade center, gave the invocation. Master of ceremonies was Jim Moore who played in the quarterback position for the Colts. Jim introduced the after dinner speakers beginning with tackle Jim Risley who welcomed the Colt fathers. On behalf of the fathers, Bill Craft offered the response to Jim's welcome.

Mrs. L. N. Cox Returns From Methodist Mission Tour

Mrs. L. N. Cox, Clarendon, was among 37 persons from eight states who left Los Angeles, Calif. October 23 on an 11-day tour of Methodist mission centers in Hawaii. It was the second such tour this fall, a similar one having been made by 38 persons October 2-12.

The two "Methodist Mission Tours — Hawaiian Style" are among several missions tours sponsored annually by the Methodist Board of Missions to mission fields at home and overseas.

Though the group saw many of the usual tourist attractions, their main purpose was to see the Methodist Church at work in its 50th State. They visited various types of Methodist congregations, urban, suburban and rural, to see the varieties of ways in which Methodism seeks to minister to the growing multi-cultural, multi-cultural population.

The tour spent the greatest part of its time on Oahu, the most populous of the Hawaiian Islands and the site of Honolulu. However, they journeyed to the islands of Maui, Hawaii and Kauai. There they worshiped and had buffet suppers in some of the churches.

In addition to visiting churches the group visited the Wesley Foundation in Honolulu, the center which ministers to Methodist students of the University of Hawaii. They also visited Pohani Nani, the new Methodist home for senior citizens where they were served lunch. The tour returned to Los Angeles Nov. 2.

The "Methodist Tour — Hawaiian Style" is organized and promoted by the Joint Commission on Education and Cultivation of the Board of Missions. The principal purpose is to familiarize the tour members with Methodist work through first-hand observation in hope that when they return, they will interpret and promote missions in Methodist churches at every opportunity.

The director of the tour was the Rev. Dr. Darris L. Egger, pastor of the First Methodist Church of Colorado City, Texas. —Rep.

If the girls ever caught the lucky boy, they walked back to the barn where they were married by "Marrying Sam" (Rip Gilkey).

Everyone enjoyed the spooky interior of the Leathers' barn where food was eaten, games played, and ghost stories told. —Rep.

BREEDLOVE ATTENDS BANKERS SCHOOL THIS WEEK

Flip Breedlove, vice-president of the Farmers State Bank of Clarendon, is attending a three day school for bankers at Texas A&M University this week.

This is a farm and ranch credit school with some of the top bankers in the nation taking part on the program. Approximately 300 bankers from over the state are expected to attend from reports on registration from the University. Some of the latest information on banking will be presented to those attending the school.

COTTON CLASSING WEEKLY NEWS

For the week ending last Friday, November 5, 6,000 samples of cotton had been classed for the week. Staple length, grade, and tests showed quality classed lower than that of last week. Mike readings remained about the same.

Some ginners are asking patrons to delay harvest of their cotton until it is more mature. Immature cotton causes preparation problems. Fibers were reported weaker. Selling of the new crop was light with buyers chiefly interested in lower light spotted and spotted grades. Average prices were near the same with cottonseed bringing the farmer \$47 per ton at most gin points.

NEWS FROM CITY HALL

by R. L. Gilkey, Mayor

The Texas League of Municipalities held its 53rd annual convention the first of the month. For Clarendon it was our first year to be a member of this association. Your mayor was assisted by the huge attendance of city officials from all over the state. They had one common purpose, to preserve, protect and improve the city government in the best interests of the individual citizen. All were interested in keeping state and Federal controls out of city government as much as possible. All were concerned with proper city planning, well in advance of future problems where possible. Every person at that conference was fighting to maintain government control as close to home as possible; in other words city government is the best government for the individual. These men were selling a product that we sometimes overlook in everyday living. They were simply selling AMERICANISM.

No matter what business we might be in, no matter what we do or where we are, we are all citizens of the United States of America. I wasn't born a mayor, but I was born an American. I wasn't born a physician, but I was born an American. I wasn't even born in Clarendon, but I was born an American. In America just being born gives us the right to life, liberty and the pursuit of happiness. Being born in America gives these rights to the individual, not to any group, not to any church, not to any society, or race, or color or any other group. In America these God given rights are to each and every individual.

The Texas Municipal League fights to preserve these rights of the individual. For one, I'm glad to be a member of this organization to help in the fight for Americanism. We could all be better Americans.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Texas law enforcement officers are urging Gov. John Connally to call a special session of the Legislature to repeal the controversial new Code of Criminal Procedure before it becomes effective January 1.

Texas Police Association has petitions circulating among lawmen of 60 police departments, calling on Connally to do something about the code.

Many lawmen fear forthcoming changes in the statutes will hinder them in combatting crime in Texas. They feel new procedures tend to molly-coddle criminals.

Meanwhile, Atty. Gen. Waggoner Carr is continuing a series of seminars over the state to explain provisions of the new code. A conference at the University of Texas on November 11-13 will explore it in depth.

State Bar Association, which assumed leadership in putting across the changes after years of study, received praise for its efforts from Civil Liberties Union. Commented Austin Police Chief Bob Miles, past president of Texas Police Association:

"To be perfectly frank, the more we read of the new code . . . the less encouraged we feel."

APPOINTMENTS ANNOUNCED—Governor Connally named three new members of the State Commission for the Blind: Mrs. Alfred A. Ratner of El Paso, Woodrow Wilson Sanderfer of Houston and Frank Roberson of San Antonio. They succeed James R. Curtis of Longview, Burt Risley of Austin and W. Reginald Taylor of Columbus.

Connally reappointed Zeb Fitzgerald of San Marcos, Ed DeLeon of Cuero and Edward Reece of Gonzales to the board of directors of the Guadalupe-Blanco River Authority.

Lt. Gov. Preston Smith picked Joe E. Ward of Wichita Falls as his layman appointee to the Interim Committee on Faculty Compensation in State Supported Colleges and Universities.

A Beaumont banker, I. F. Betts, was elected chairman of the Texas Research League at the annual meeting in Austin. Betts replaces Tom Sealy, Midland attorney. League is a privately financed governmental research agency.

John W. Burcham, chief of insurance for the Texas Employment Commission since 1958, has been named the Commission's general counsel effective November 1.

POLLUTION STUDIES—Strong moves to abate present pollution of Texas streams and to prevent further contamination are being made by State agencies.

Texas Railroad Commission continued its series of moves to pinpoint oilfield salt water pollution and outlaw it. Latest was an order giving oil and gas operators in Lipscomb County until May 1 to quit using surface pits for disposal of salt water.

Texas water pollution Control Board had a show-cause hearing on seven sewer plant operators in the Clear Lake Basin of Harris and Galveston Counties. Plants failed to come up to standards ordered by the Board to protect the NASA center area water-

courses from pollution. They were given until February - to comply.

Tight rules for the Houston Ship Channel also were proposed by the Pollution Control Board. On December 1, a hearing will be held for suggestion before the regulations are put into effect.

A legislator-citizen committee on pollution, headed by Sen. Culp Krueger of El Campo, also held two days of hearings. Committee called in 18 operators of sewer plants in Galveston, Harris and Bexar Counties to see what their problems are and what new laws might improve things.

All of this activity has as its background the new federal law, giving the states until June 30, 1967, to adopt and make plans to enforce purity standards on all their streams. Otherwise, the Federal government will set up anti-pollution measures.

INSURANCE RATE CUT—State Board of Insurance approved an average decrease of 2.9 per cent in Texas workmen's compensation rates, effective December 1.

Annual savings on premiums are estimated at \$4,500,000 a year. There are about 600 categories of compensation coverage. Some will be increased, some decreased sharply, but the overall average cut will be 2.9 per cent.

TOP OFFICIALS QUIT—Two top state appointive officials have resigned.

Insurance Commissioner J. N. Nutt said he was leaving his post, effective November 1, to return to private business.

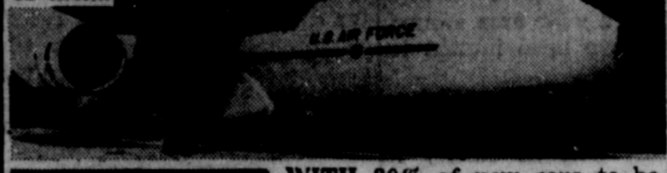

Dr. Cyril Rulman asked to be relieved as acting Commissioner of Mental Health and Mental Retardation before January 1. He said he would "pursue a long-standing interest in medical education and private practice."

Dr. Shervert H. Frazier, director of the Houston State Psychiatric Institute for Research and Training, was named to replace Rulman.

ATTORNEY GENERAL SPEAKS—Licensed beauty operators cannot legally work in barber shops, shampooing, tinting or styling hair of male patrons, says Attorney General Carr. Barbers and beauty operators, he cautioned, have separate state licensing laws and regulatory boards.

In other opinions, Carr concluded that the Dallas Junior College District has no authority to tax intangible assets or rolling stock of railroads; and that a "pour and shake" flower is prohibited from sale because it does not meet standard measures and is not designed for "special or limited use."

SECOND CONFERENCE—The second annual conference of the Central Texas Industrial Development Council will be held November 12 at Baylor University in Waco, the Texas Industrial Commission announced here.

Council is comprised of Central Texas community leaders actively engaged in industrial development programs. It is charged with attracting industry to the area and encouraging the expansion of existing industry.

Agriculture Commissioner John C. White proposes strict enforcement of egg laws aimed at off-quality eggs from out-of-state.

Attorney General Carr filed suit for injunction and \$3,900 in penalties against O. J. McCullough of Houston for building a dam across the San Jacinto River near Conroe.

Texas Highway Commission will initiate a study of the Highway Beautification Act bill to determine the manner in which its provisions may be affected.

RESERVOIR REFUSED—Texas Water Rights Commission denied application for \$4,750,000 reservoir on Village Creek near Kountze in Hardin County.

Commission acted after opponents testified the project would mean an added tax burden of \$308,992 a year for property owners in the southeast Texas area and that additional 33,000 acre-feet of water which the dam would impound will not be needed for more than 30 years.

Advocates were advised they could reapply for creation of a district empowered only with making surveys to determine feasibility or to develop plans for a water supply program if desired.

Broncs Down Memphis In Sensational Affair

by Tom Higley

With a comeback that could be envied by the Arkansas Razorbacks, the underdog Clarendon Bronchos spotted Memphis 15 points before the game was barely five minutes old, and rallied to down the Cyclone in a sensational affair that kept local fans in a standing position a greater portion of the game.

Clarendon went to Memphis an 8 to 21 point underdog and it looked like it should have been before the Bronchos were sparked by a sensational 85 yard run that put them on the go and they dominated the game thereafter.

The Bronchos were on the receiving end of the first kick-off and fumbled. Memphis opened their scoring with William McFall catching a 13 yard scoring pass from Tony Pounds and Gilbert Devorce ran over the two point conversion.

It seemed like certain doom for the Bronchos when the Cyclone kicked again and on the second play Memphis took over on another fumble and turned it into 7 more points on the scoreboard. Pounds ran five yards and Kay Miller kicked for the conversion and a 15-0 lead.

When Memphis kicked again, Archie Smith made it a personal issue and drove 85 yards right up thru the middle of the field bouncing would-be tacklers aside and crossed the goal stripe with very little deviation in his stride. Odell Louis made the 2-point conversion.

Memphis scored again in the midst of the Bronchos glory when Dwayne Jones caught a 68 yard pass from Pounds but this was the end of the Cyclone scoring as the Bronchos took over and dominated the game from thereon.

Broncho quarterback David Mooring and wingback Mac McClellan started passing and running and moved the squad down to the Memphis 2-yard line where Archie Smith drove off-tackle for the tally. Mooring passed to McClellan for the conversion and the Bronchos trailed by five—21-16.

McClellan, on a brilliant 35-yard dash, put Clarendon in the lead in the final quarter with a touchdown scamper and the attempted conversion pass failed but the Bronchos had the win 22-21.

The Clarendon defense was more determined than ever and kept the Cyclone under control with no serious threat the remainder of the game. Outstanding line play was presented for the Bronchos by Mike Horton, Richard Thornberry and Bill Monk. Defensive standouts were Larnce Gardner, Mooring and Gayle Grey.

The final game of the season will be Friday night against the Wellington Skyrockets in Broncho Stadium. Kickoff is set for 7:30 p.m.

Basketball Practice To Start At CHS Saturday

The defending District 2-A basketball champions from Clarendon High School will begin their practices Saturday under new head coach Carl Irlbeck.

Irlbeck replaced Charlie Sullivan who is now coaching at Darrouzette.

The new mentor will have one of the more experienced ball clubs in the Panhandle as he has four returning starters from last year's bi-district finalists. Clarendon was defeated by Gruver in bi-district play last year and the Greyhounds advanced to the state tournament in Austin before falling.

Heading the list of returning starters are David Mooring, Archie Smith, Odell Louis and Richard Thornberry.

The Bronchos and Bronchoettes will play their first games Tuesday in the Broncho Gym against Hedley.

Listed as starters for the Bronchoettes will be Cheryl Fedric, Judy McAnear, Sue Hill, Sandra Longan, Leane Risley and Beth Bourland.

The number five position on the Bronchos will probably be filled by Larnce Gardner or Mac McClellan.

Irlbeck has 40 girls out for basketball and is expecting about 25 out for the Bronchos. He has scheduled 19 games and three tournaments thus far this year and is looking for a game on December 19.

FARM NEWS

from County ASCS Committee

CROSS COMPLIANCE UNDER THE 1966 PROGRAM OUTLINE

Cotton—To be eligible for program benefits, cotton producers will meet the allotment and other cotton program provisions on the participating farm and will plant within the cotton allotment on other farms in which they have an interest in cotton. Under this program, participating farmers need not keep within the acreage allotments for other crops on the participating farm unless signed up under the Cropland Adjustment Program. They will not be required to stay within the feed grain base as was necessary in 1965.

Wheat—To be eligible for program benefits, wheat producers will meet the wheat diversion provision of the program, stay within the allotments on all other farms in which they have an interest in wheat. They will not have to stay within their feed grain bases unless wheat is being substituted for feed grains. To substitute, a producer must participate in both wheat and feed grain programs and stay within the wheat allotment and feed grain base on other farms in which they have an interest in the crop.

Feed Grain—Feed grain producers will have to reduce their feed grain acreage and put the feed grain diverted acres to a conserving use. In addition, participating farmers may not exceed the feed grain acreage on other farms in which they have an interest in the feed grain crop; however, these other farms need not participate in the diversion program. Farmers participating only in the feed grain program need not plant within other crop allotments unless signed up in the Cropland Adjustment Program. Farmers electing to substitute wheat acreage for feed grains would participate in both the wheat and feed grain programs on the participating farm and stay within the wheat acreage allotments and feed grain bases on any other farm in which they have an interest in the crop.

Cropland Adjustment Program—A producer who participates in the newly authorized cropland adjustment program will need to keep within any crop acreage allotment or permitted acreage on that farm or on any other farm in which he has an interest.

All Programs—Under all programs, participants are asked to maintain the normal soil conserving acreage on the participating farm. In addition, all crops diverted under each program must be put to conserving use.
