Good Turnout Of Voters Expected Here For General Election Tuesday

From all indications, Donley County voters along with voters all over the state, will turn out in good force for the General Election which is slated for Tuesday, November 6.

The big battle is between party candidates and the 14 constitutional amendments which will be voted on Tuesday. Candidates of both parties, Republicans and Democrats, have been pushing their campaigns at a furious pace the past several weeks and the climax is expected to reach the boiling point this week end.

Up through Tuesday of this week, 22 voters had cast absentee ballots which is considered a good number for this time of year. Absentee voting closes Friday, November 2nd. If you see that you will be unable to go to the polls Tuesday, be sure to cast your absentee ballot today or tomorrow before the deadline.

Voting at the various voting places will begin at 8 a.m. and will close at 7 p.m. Voting places and the election judge in charge are as follows: Court House, Bill Todd; Youth Canteen, Clyde Slavin; Goldston, Jack Pritchard; Lelia Lake, Bill Mooring; Hedley, Henry Moore; Ashtola, Slaton Mahaffey; Jericho, Ernest Lamb; Glenwood - Whitefish, F. M. Crisp; Skillet, Elmo Nall; Martin, George Gresham; Midway, Will Chamberlain.

Voters who have previously voted at the City Hall or the Lions Club building will notice that this location has been changed to the Youth Canteen immediately north of the Lions Club building as Tuesday is regular meeting day for the Lions Club.

The ballot is long this year.

wanted to vote for the remaining Democratic candidates. You should strike through the Constitutional Party, the remainder of the Republican party and the Democratic candidate for governor. This procedure should be followed however you wish to mix your ballot up. If the name or names of more than one candidate for the same office is left, your vote will not be counted.

In the voting for the constitutional amendments, you only have to mark through the For or Against portion.

These 14 amendments are explained in short form on Page 2 of this issue of the Leader. If you are not fully acquainted with them, you can turn to page 2 and receive a better knowledge of how you would like to vote on the issues.

The important thing . . . is to be sure and go vote. Voting is your best opportunity to voice your opinion on how our government is run . . . by voting for the person or persons you think best qualified to do the job. Mark November 6 on your calendar so you will not forget.

MISSION STUDY TO BE CONCLUDED AT METHODIST CHURCH

Next Sunday evening, November 4, at 8:45 p. m. the church wide mission study of the Methodist Church, "The Christian Mission on the Rim of East Asia," will be concluded with an illustrated lecture by Mrs. C. C. Reid of Amarillo.

Mrs. Reid was a member of a tour sponsored by the Board of Missions of the Methodist Church.

Directors Of Water Authority Support Amendment No. 4

Directors of the Greenbelt Municipal and Industrial Water Authority went on record in support of Amendment No. 4 to the Texas Constitution.

Meeting in Childress recently, directors discussed the amendment and its effects toward water conservation and future development of Texas water resources.

Directors voted unanimously to urge all voters to cast their ballots in favor of the amendment.

The amendment, along with 13 others, will be considered by voters at the General Election on Nov. 6.

Amendment 4 would encourage maximum development of water resources in Texas. No new tax requirements are anticipated since funds would come from revenue bonds that have already been approved by the state.

It also gives the state permission to purchase surplus water. Dr. S. H. Townsend, president of the Authority, said, "It is extremely important to the Greenbelt because we will not need all of the water the dam will impound when it is first built and it will help a great deal if the state is given permission to purchase the surplus water."

Carroll Knorrp, director from Clarendon, and Roland Walden, director from Quanah, were appointed by Townsend to study various ways the Authority should seek in financing the Greenbelt project.

Additional core drilling at the dam site is being completed.

1963 Wheat Program Outlined

Wheat diversion and additional price-support payments are new features of the 1963 Wheat Stabilization Program. The division payments will be similar to the payments made under the 1962 Wheat Stabilization Program. They will be available to growers who reduce their wheat acreage by at least 20 percent and who devote the diverted acres to an approved conservation use. The payment will be based on the farm's established wheat yield and one-half the price support loan rate.

In addition, a price-support payment of 18 cents a bushel on the normal production of the final 1963 wheat acreage will be available to growers who participate in the wheat diversion part of the program. Small farms must also be in compliance with their farm acreage allotments in order to be eligible for price-support loans or purchase agreements and the 18 cents price support payment.

The sign-up in the wheat diversion program is now under way. Notices have been prepared and mailed to farmers, telling them how provisions of the program may apply to their farms. We urge that any questions about the program be referred to (See FARM NEWS on Page 8.)

Countians Attend Highway Meeting In Austin Wednesday

Controversy over location of a highway link connecting McLean and Hedley was expected to be resolved by the Texas Highway Commission following a hearing Wednesday in Austin.

The road is already under construction south from McLean toward the Red River crossing and projects have been authorized for the remainder of the road.

The controversy is over location of the road south of the river. One group wants to route the road in a southwesterly direction to join Highway 203 near Hedley while the other group wants a more easterly route which would join Highway 203 farther east near the Donley-Collingsworth line. The most easterly route had previously been approved by county commissioners and was the original proposed route.

Both groups as well as the County Judge and county commissioners were scheduled to be present for the meeting in Austin Wednesday.

Bronchos Face Lefors Pirates In Broncho Stadium Friday Night, 7:30

The up-and-coming Clarendon Bronchos will host the mighty Lefors Pirates in their third District 2-A conference football game here Friday night. The Pirates have established themselves as strong favorite to take the district championship by erasing their strongest contender, Wellington, last week.

At present, the Bronchos and Pirates are tied for the district lead with two wins and no losses.

Eight New Blocks Of Paving Completed

Eight new blocks of paving have been completed in the east part of town on streets intersecting U. S. Highway 287. One additional block may be completed before present work is finished.

The paving, which is a joint project of the City and State Highway Department, was done to prevent further erosion of the streets and the continual dumping of heavy deposits of sand, gravel and mud on the highway which has to be cleared following each rain of any consequence.

Seven blocks of the paving was included in the joint project and the eighth was paid for by individuals. On the seven blocks, the City furnished the gravel which they already had on hand and the State Highway Department furnished the asphalt, labor and equipment to do a first class job. These additional blocks of paving

The Pirates have beaten Canadian, 20 to 0, and Wellington, 18 to 6, while the Bronchos have kept pace by beating McLean, 28 to 6, and Canadian, 14 to 6. In other games, the Pirates have shown a strong team all season as they have lost only one game, that to White Deer by a score of 28 to 20. They tied Stinnett and have defeated Groom, 31 to 0, Stratford, 21 to 8, and Gruver, 13 to 6. That gives them a 5-1-1 record for the season while the Bronchos are struggling with a 3-4 record.

The two teams have met three mutual opponents in Groom, Gruver and Canadian, and from the results, the Pirates would have to be a strong favorite in this game Friday night.

The Bronchos received a severe blow to their chances last Friday night when their star tailback, Jerry Elmore, suffered a knee injury which may keep him out of the game this week. He was limping Monday and Tuesday and is a doubtful starter and in all probability will see limited action if any all this week. Wingback Robin Green was sick with the flu on Monday of this week and he will also see limited action Friday night.

Coach Jack James has been well pleased with the play of the boys the last two games and feels that they are finally coming along and developing into a team. However, with their injuries this week, it is almost

The second session of the Den Mothers' training program was held Tuesday night, Oct. 23, in the Cyclone Cafe in Memphis. This session explained the achievement plan. Those attending from Clarendon were: Shirley Johnston, Lenita Estes, Bobbie Floyd, Roxie Barbee, Dot Pointer, Lucy and Tommie Saye.

Admittance tickets for the Cub Scout Halloween Party have been given this week to the boys for themselves and their brothers and sisters. Parents must accompany their children, but do not need tickets. The party will begin at 7 o'clock in the college gym. All games and activities for the children will be free. There will be some games and coffee and doughnuts for adults for which there will be a charge. All proceeds will go into the Cub Scout Pack treasury.

Some of the planned activities for the children are: apple bobbing, biting an apple on a string, fortune telling, a seance, go-fishing, a pumpkin-walk, several games of skill, and as the finale,

the walk through the spook rooms that the dads have fixed up. Because this is on a school night, the closing time has been set for 9 o'clock. See you Monday night!

Mrs. H. T. Wilkins of Roswell, N.M., returned home Saturday after visiting the past three weeks in the home of Mr. and Mrs. Frank Hommel.

Rangers Prefer Old-Time Badge

AUSTIN—Col. Homer Garrison Jr., director of the Texas Department of Public Safety, announced today the Texas Rangers are going back to the tradition - steeped Mexican badge worn by their predecessors in frontier days.

Garrison said the new official Ranger badge, issued to each of the 62 members of the force, is a replica of the badge which old-time Rangers carved out of Mexican silver pieces when Texas became a state and their duties changed from military to law enforcement.

The best information available indicates that the five-pointed star on the badge symbolizes the "Lone Star" of Texas. The points are supported by an engraving wheel.

When the department of Public Safety was created in 1935 and the Rangers became a part of it, this badge was replaced with a solid badge of somewhat different shape and design. Then in 1957, a different badge was adopted for all officers of the Department, including the Rangers. This is a modern version of the old Ranger badge, with a five-pointed star surrounded by a royal blue background.

The history of the Rangers dates back to 1823 when Stephen F. Austin hired a contingent of 10 men to "range" over a wide area to protect his colonists from Indians. Since that time, the force has been synonymous with the suppression of lawlessness and crime—first the Indians, then the bandits and cattle-rustlers, then the outlaws of the early 20th century and finally the modern-day criminals.

Good Turnout Of Voters Expected Here For General Election Tuesday

From all indications, Donley County voters along with voters all over the state, will turn out in good force for the General Election which is slated for Tuesday, November 6.

The big battle is between party candidates and the 14 constitutional amendments which will be voted on Tuesday. Candidates of both parties, Republicans and Democrats, have been pushing their campaigns at a furious pace the past several weeks and the climax is expected to reach the boiling point this week end.

Up through Tuesday of this week, 22 voters had cast absentee ballots which is considered a good number for this time of year. Absentee voting closes Friday, November 2nd. If you see that you will be unable to go to the polls Tuesday, be sure to cast your absentee ballot today or tomorrow before the deadline.

Voting at the various voting places will begin at 8 a.m. and will close at 7 p.m. Voting places and the election judge in charge are as follows: Court House, Bill Todd; Youth Canteen, Clyde Slavin; Goldston, Jack Pritchard; Lelia Lake, Bill Mooring; Hedley, Henry Moore; Ashtola, Slaton Mahaffey; Jericho, Ernest Lamb; Glenwood - Whitefish, F. M. Crisp; Skillet, Elmo Nall; Martin, George Gresham; Midway, Will Chamberlain.

Voters who have previously voted at the City Hall or the Lions Club building will notice that this location has been changed to the Youth Canteen immediately north of the Lions Club building as Tuesday is regular meeting day for the Lions Club.

The ballot is long this time and voters should take every caution not to mutilate their ballot. Candidates are listed in 3 separate columns on the ballot . . . Democratic, Republican and Constitution Party. If you vote straight Democratic, be sure you mark out the other two columns; if you vote a split ballot, be sure to strike through the opposing candidates if any are listed in the other two columns. For Example — Should you want to vote for Jack Cox, Republican candidate for Governor, but

wanted to vote for the remaining Democratic candidates you should strike through the Constitutional Party, the remainder of the Republican party and the Democratic candidate for governor. This procedure should be followed however you wish to mix your ballot up. If the name or names of more than one candidate for the same office is left, your vote will not be counted.

In the voting for the constitutional amendments, you only have to mark through the For or Against portion.

These 14 amendments are explained in short form on Page 2 of this issue of the Leader. If you are not fully acquainted with them, you can turn to page 2 and receive a better knowledge of how you would like to vote on the issues.

The important thing . . . is to be sure and go vote. Voting is your best opportunity to voice your opinion on how our government is run . . . by voting for the person or persons you think best qualified to do the job. Mark November 6 on your calendar so you will not forget.

MISSION STUDY TO BE CONCLUDED AT METHODIST CHURCH
Next Sunday evening, November 4, at 6:45 p. m. the church wide mission study of the Methodist Church, "The Christian Mission on the Rim of East Asia," will be concluded with an illustrated lecture by Mrs. C. C. Reid of Amarillo.

Mrs. Reid was a member of a tour sponsored by the Board of Missions of the Methodist Church last spring to the countries of southeast Asia designated for special study this year, namely Korea, Okinawa, Taiwan, and Hong Kong. Slides and explanations of pictures of the area will be shown and of the areas visited as well as exhibits of articles purchased from ships along with interesting information about them. The public is invited to attend.

Preceding Mrs. Reid's lecture a family night covered dish dinner will be served in Fellowship Hall at 6 p.m.

In addition to this job, the City on its own, has seal coated 40 blocks of paving in the residential area which puts most of our paved streets in good condition for the winter weather ahead. The city was unable to seal coat all the paving due to cold weather which will not allow the topping to cure out properly. Completion of the seal-coating is scheduled for next spring along with several more blocks of new paving which will be paid for by residents in the area.

The Pirates have beaten Canadian, 20 to 0, and Wellington, 18 to 6, while the Bronchos have kept pace by beating McLean, 28 to 6, and Canadian, 14 to 6. He was limping Monday and Tuesday and is a doubtful starter and in all probability will see limited action if any all this week. Wingback Robin Green was sick with the flu on Monday of this week and he will also see limited action Friday night.

Captain Jack James has been well pleased with the play of the boys the last two games and feels that they are finally coming along and developing into a team. However, with their injuries this week, it is almost impossible to think that they could stop a team with the power, size and speed of Lefors.

The starting lineup in the line will be about the same as last week which had Danny Ray and Dee Hudgins at ends; Larry Gray and David McBrayer at tackles; Billy Hearn and Charlie Slavin at guards and Steve Richerson at center. Dwight McNear will be at quarterback and Teddy Graham at fullback. If Elmore does not start, Green will be moved to tailback and Gary Campbell will be at wingback. If both Elmore and Green do not play, it will be John Cearley at tailback and Campbell at wingback.

**Comments On
14 Amendments**

The General Election ballots were delivered to the County Clerk Monday, the 15th. You can now vote absentee if you cannot be in the county on Tuesday, Nov. 6.

On this ballot you will find ten proposed constitutional amendments. Here is a short summary of each proposed amendment:

No. 1: Providing workman's compensation insurance for all employees of all political subdivisions. The constitution now allows counties and other political

subdivisions to obtain Workman's Compensation Insurance coverage for appointed employees. This amendment would permit this insurance coverage to be extended to elected officials of the county or subdivision.

No. 2: Assistants to needy children, aged and blind. This amendment would increase the total amount of money which can be expended each year out of State funds for the needy aged, needy blind and needy children.

The increase would be \$5 million dollars per year to allow \$52 million total expenditures. The present limit is \$47 million of state funds. Added to federal funds a total of about \$175 mil-

lion per year is now available for these causes in the state. State funds to this cause have been increased regularly for the past several years.

No. 3: Creation of hospital districts in certain counties. This amendment would allow the creation of hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties, but does not require a vote on the matter. It must be approved by the voters, however, in an election before the district can be formed.

No. 4: Water Development Board, Storage Facilities in Reservoirs. This amends the amendment adopted five years ago providing for a Texas Water Development Board, in which political subdivisions of the state are helped in the conservation and development of water resources. This amendment would authorize the state itself to get into the water conservation business by the construction or enlargement of reservoirs by the State. Also it would allow the state to negotiate for water storage in reservoirs developed by the federal government.

No. 5: This amendment would give the legislature authority to provide by law for the creation of hospital districts, thus making the voting of amendments for certain counties or areas unnecessary, as in Amendment No. 3

on this ballot. The county or political subdivision seeking to create the district would have to secure the approval of a majority of the voters voting on such a district just as in Amendment No. 3.

No. 6: Setting up a retirement, disability and death compensation program for elected and appointive officers and employees. This amendment would extend this right to other political subdivisions which do not now have it. Counties now have this authority but other political subdivisions do not have it.

No. 7: This amendment provides a new Section 62 to Article 3 of the constitution to permit the legislature to provide for "prompt and temporary succession to the powers and duties of public office..." In the event of disasters resulting from enemy attack. It exempts from its provisions the replacement of members from the legislature and provides that the state bill of rights would not in any manner be suspended.

No. 8: This resolution increases the present ceiling of \$1.5 million on to persons between the ages of 18 and 65 years who are permanently and totally disabled to \$2.5 million annually. Disabled persons are defined as those bedfast or chairfast and in the case of mental disability, must re-

quire maximum supervision. No. 9: Would create two hospital districts in Brazoria County and homes for aged in Titus County. This is an amendment similar to No. 3.

No. 10: This would allow state employees to serve in an advisory capacity or to be appointed to serve as a consultant or on an advisory committee, or as a member of a public school board provided they are not members of the teaching profession... with the approval of the administrative head of the State Department or Agency... in which such employees is employed and provided there is no conflict of interests.

No. 11: This amendment does not change the basic provisions of the Veterans' Land Program in any respect, excepting that it provides for the resale of the unsold repossessed lands which have first been offered to veterans and remain unsold. The resolution provides that any resale must conform to the Rules and Regulations as are now provided by law or as hereafter may be provided by law.

No. 12: Would permit the legislature to authorize counties bordering on the Gulf of Mexico or the tidewater limits to regulate and restrict the speed, parking and travel of motor vehicles on beaches available to the pub-

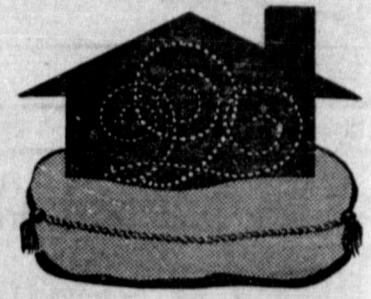

lic by virtue of public rights and the littering of such beaches.

No. 13: Would provide that school taxes voted and bonds voted, but unissued, would not be cancelled or invalidated because of a change in boundary of such district. It authorizes the levy of taxes after such boundary change without further election in the district; and excepting from its provisions the situation where there is an annexation or consolidation of whole districts.

No. 14: This is the "Trial de Novo" amendment. It provides that the legislature may enact legislation requiring that any appeal taken from any administrative agency may be "de novo" as that term is understood in appeals from Justice to County Courts in Texas. This is not a self enacting amendment as it depends on subsequent legisla-

tive action. Opponents of this proposal say it would not only render all administrative boards, commissions and councils incapable of making firm decisions, but would transfer their burdens to our already overburdened courts.

THURSDAY, NOV. 1, 1962

THE DONLEY COUNTY LEADER, CLARENDON, TEXAS

BLOWIN' Out the CORNERS
Uncle Zeb
 "You said: 'We'll build a little house To shield our love from rain or shine,

A cottage nestled safe and sweet Beneath a honeysuckle vine. We built the house, my dear, but found Two things on which we had not reckoned—
 'Twas not a vine it nestled neath, But mortgages — a first and second."
 It is shocking to read that almost seventy percent of all homes in our country nestle beneath a mortgage, and that the average debt is around seven

thousand dollars . . . Small wonder the joke goes the rounds about the fellow who was just about to catch up with the neighbors when they refinanced . . .
 "Work is the muscle of freedom, we need to stop rolling out our peevies, and begin rolling up our sleeves."
 "In this day and time the fellow who is crazy about money could well be called a doughnut."

We humans are a funny race. We rush and jump from place to place, And even try for outer space; Giving little thought to God's Grace.
 The above seems to be especially true with we Americans. We are a nation with coffee nerves and cigarette jitters. We search frantically for a pill to make us sleep, when grandfather was so tired he would doze

in his rocker. It is a crazy old mixed up world . . .
 Every child born in the United States in the year of 1962 will automatically assume a debt of \$1,603, according to information worked up by the national Chamber of Commerce. The figure is the per capita share of our national debt. This is a staggering sum and no one would have the faith to hope that it would grow smaller in the near future.

The dollar, which had a purchasing power of 100 cents at the beginning of the century now has only 28 cents of worth in goods received. If the present rate of inflation, such as we have seen since the Korean war, the two-bit dollar will be a reality in a very short time. Projecting this shrink in buying power into the future would see the dollar worth about 16 cents by 1999.

Another shocking thing is to read that our debt and guaranteed national obligations total more than \$308 billion and are rising with each setting of another sun. This debt surpasses by \$54 billion the total debt of all the other countries of the entire world. Uncle Sam's load is really our load.

These facts being true we wonder what some of the more conservative countries must think as they look upon our generosity with money. How that we spend

more as individuals, and give away more as a nation than any other country in the world. It is a small wonder that even the Communists predict that we will come to the end of our financial rope.
 Some 2000 years ago, it was Plutarch who warned: "The real destroyer of the liberties of the people is he who spreads among them bounties, donations, and benefits." An old French peasant spoke of the fall of France: "My country fell because we had come to consider France a cow to be milked, and not a watchdog to be fed." Each of these statements apply far too well to the situation we find our own country in today."

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

THE RULES COMMITTEE

From past experience it is safe to assume that one of the first tests facing the new Congress will be the age-old battle to change the membership of the Rules Committee. Some of the veteran lawmakers who knew of my fight against the change were already enlisting my support before I came home. Nearly everyone will recall the controversy in 1961 over the proposed increase in the membership of this important com-

mittee; a battle that caused a delay of several weeks before the Congress could commence its business. When the smoke had cleared, there were three additional members on the Rules Committee. The Resolution which was adopted applied only to the 87th Congress, however, and unless the new 88th Congress takes action to continue the increased membership, the Rules Committee will revert to its original composition of 12 members. Although the additional membership did not accomplish all its advocates had counted on, it is expected that a determined effort will be made to convince the 88th Congress that its Rules Committee should have 15 members, and the controversy could very well reach the same

proportions as before. Hence, I thought it would be of interest to again discuss the subject in a newsletter.

The House of Representatives operates through committees. The bills introduced in the Congress by the Members on different subject matters are assigned to the Speaker to the respective committee having jurisdiction of that subject matter. These bills are considered by that committee, and, if approved, are referred to the House of Representatives with the recommendation that the bill become law. However, instead of going directly to the House of Representatives, these bills must first pass through the Rules Committee and obtain approval by that Committee for hearing before the House of Representatives. In other words, most bills are not considered by the House unless they pass through the Rules Committee. Prior to the 87th Congress, the Rules Committee consisted of 12 members — 8 Democrats and 4 Republicans. If

all Members were present and voting, a bill, in order to receive approval to be debated before the House, had to receive at least 7 votes. If a bill received only 6 votes for it and 6 against it, the motion to report the bill failed. During recent years on several highly controversial measures, the division in the Rules Committee had been a tie of 6 and 6. This meant that the highly controversial legislation could not receive a rule to be debated before the House. This is what caused the big hue and cry to change the Rules Committee or the Rules of the House. It was the cause of the caustic and bitter criticism that was directed against Congressman Howard Smith of Virginia and Congressman William Colmer of Mississippi — unfair and unjust criticism, in my opinion, but nevertheless, criticism that formed the basis of the battle against the Rules Committee.

In the opinion of the writer the Rules Committee, as previously constituted (i.e. 12 members), is necessary for the proper dispatch of the business of the House of Representatives. It could not and did not thwart the majority rule of the House. There are 4 ways of bringing a bill before the House of Representatives. The first is through the Rules Committee; the 2nd is by a suspension of the rules which requires a 2/3 majority; the 3rd is by a discharge petition which, if signed by a majority of the House of Representatives, will discharge the

Committee in which the bill is pending and make the bill a privileged matter before the House; the 4th method would be by following the usual procedures under the rules of the House on Calendar Wednesday.

The United States is a great country, but a large country with many varied and diversified interests. The National Congress is supposed to be representative of all of those several interests. It is supposed to pass laws that are fair and just to all of the people. Just as there must be laws for all of the people to live by in fairness and justice to each other, the lawmaking body itself must have rules and regulations in order to properly conduct its business. That is the primary reason for the Committee on Rules in the first place, its jurisdiction including "(a) the rules, the joint rules and order of business of the House . . ." Good government requires a sharp division of opinion, sound presentation and expression of all facets of the problem or issue involved and a thorough screening of the proposed final result. This is the process that has made this country great, that has made it strong and will keep it strong. Any policy or process of permitting a simple majority to shove through any and all kinds of laws on emotional dictates or other pressures

would soon result in the destruction of any government. There is no doubt that the Rules Committee has on occasion created frustration in the minds of those who would like to see their pet bill or project sail through unopposed. But it must be remembered that the sharp division of the Rules Committee constitutes an excellent safeguard against impractical or inadvisable successes by advocates of any extreme Philosophy. It assures consideration for the will of the minority, whichever party that might be. The secret of good government is the balance that

is struck in the final product of law after full, complete and exhaustive consideration and debate of the issues and problems involved. Some call it compromise; others call it the agreement between the sides represented. But it is the balance that insures justice guaranteed under Constitution to all individuals. The Rules Committee in House of Representatives as constituted prior to the 87th Congress is, in my opinion, the once wheel that can preserve good health of our government.

PATHFINDER GUEST DAY PROGRAM FEATURES REVIEW

Pathfinder Club observed guest day Friday afternoon, October 26, at Patching Club House and Mrs. Joe Coffee of Amarillo was presented as guest reviewer for the afternoon. Mrs. Heckle Stark, president, called the meeting to order and Mrs. L. N. Cox offered the opening prayer. Mrs. George Benson introduced the honor guest, Mrs. Coffee.

Mrs. Coffee gave an interesting and interpretative review of "Ship of Fools" by Katherine Ann Porter, a Texan, who was 22 years in writing the book which is a story of a trip from Mexico to Europe in the year 1931. In the book she tells that she is a cousin of O'Henry and a great-granddaughter of Daniel Boone.

Mrs. Coffee related that the story was a study of different types of people and how they accepted their responsibilities in life, many stories within a story. The trip was made on a ship that was half freighter and half passenger. In conclusion she brought out the thought that in all of these experiences and in our life "God is great and God

is good and that from day to day one must strive to do what is best for all concerned."

"Ship of Fools" has held top place in fiction sales for several months and Mrs. Coffee gave a splendid account of a book which is a challenge to all reviewers.

At the close of the review Mrs. Stark invited the guests to the dining room. The refreshment table carried out the autumn theme. Laid with a brown cloth overlaid with a lovely brown net cover edged in brown felt and accented by sequins the table was centered with an arrangement of dahlias. Appointments were silver. Mrs. Heckle Stark dispensed tea and coffee.

Approximately 70 members and guests were present. Hostesses were Mesdames Lee Holland, Morris Ledger, S. W. Lowe, and William J. Lowe.

Guests in the home of Mr. and Mrs. J. R. Brandon Tuesday night were his cousin, Mrs. D. A. Horner of Old Lyme, Conn., and her friend, Mrs. Nevah Elion of Mansfield, Ohio. The two ladies were enroute home after a trip to Hawaii.

Amarillo Wednesday. Mitchell Self returned home after a visit with his grandparents.

LELIA LAKE LIONS AND COMMUNITY EXPRESS THANKS

The Lelia Lake Lions and Community Center wishes to express their appreciation to the merchants of Clarendon, Hedley and Memphis for the help extended for their Halloween Carnival Saturday night and to the many people who attended and made the event a wonderful success. Everyone is invited to the regular community meeting November 2nd.

Mr. and Mrs. W. O. Holley and Madeline of Amarillo visited Thursday and Friday in the home of Mr. and Mrs. Dick Valance and family.

AUSTIN — Texas doctors are about to open a campaign for legislative approval of a constitutional amendment bringing Texas under the Kerr-Mills program.

Through it the Federal and State governments would jointly pay hospital and medical bills of all retired persons receiving less than \$1,800 a year and unable to qualify for old age assistance. Uncle Sam would pay 75 per cent the State 25 per cent.

Doctors believe there are 350,000 Texans over 65 who would be eligible.

Idea developed at a meeting between State Welfare Director John Winters, Texas Medical Association committees, insurance agents and insurance company representatives.

Plan would be to handle the

proposition through an insurance company, as the medicare program for old age assistance now is done.

This would amount to an insurance premium of \$3,000,000 a month, based on the \$8.68 now paid Blue Cross for each of the 222,000 on old age assistance.

HIGHER EDUCATION — Texas Commission on Higher Education heard presidents or other spokesmen for 20 State colleges and universities voice objections to proposed cuts in their budget requests for 1964-65.

As a result, the Commission will reconsider its recommendations at a meeting on October 23.

Three doctoral programs in teacher education were approved for the University of Houston, which will become a senior college next year.

Four graduate programs were approved for East Texas State College.

Rex Baker, Commission secretary, opposed this latter action on grounds that it went against policy of concentrating such programs in the University of Texas and A&M College Dispersal of such programs, Baker said, would lead to general mediocrity.

Commission member Elizabeth Koch's reply was that they were necessary to attract teachers of eminence.

WATER POLLUTION — Because oil and gas companies were in a quandary over whom to turn to for waste disposal permits, the State Water Pollution Board decided to take care of them with a special application form.

This form will apply only to oilfield wastes. It will include all of a company's holdings and will incorporate, by reference, information on disposal submitted to other State agencies.

Pollution board has asked the Attorney General for an opinion to settle jurisdiction on this question between the Board, the Railroad Commission and the Water Commission. But no reply has been received.

SCHOOL LAND LEASES — Latest leasing of State school lands boosted the permanent school fund beyond the half-billion mark, Land Commissioner Jerry Sadler reported.

In exact figures, it is now \$500,639,012.

During the past 21 months, \$38,500,000 has been placed in

Land Commissioner Jerry Sadler says buyers in the state's \$200,000,000 Veterans' Land Program are signing up for credit life insurance arranged by the Veterans Land Board.

The Board, of which Sadler is chairman, secured terms of \$5.76 per thousand dollars of outstanding principal.

Same terms and conditions to age 65 apply to future purchasers, as well as the 28,000 who already have acquired tracts.

STATE TO SUE FOR PADRE — In an attempt to gain title to disputed Padre Island areas, the State of Texas will file a number of suits.

Assistant Attorney General Ben Harrison and Arthur Sandlin, Jr., reported to the House Land Study Committee that suits will be filed after additional information is collected.

SPECIAL EVENTS LISTED — A total of 407 events of general public interest are listed in a new 16 page booklet just released by the Texas Highway Department.

Texas Calendar of Events is the title of the booklet.

More than half of the activities recorded are in the fine arts field. Included are concerts, ballets, operas and stage productions.

Also mentioned, however, are such gala festivals as El Paso's Southwestern Sun Carnival, Tyler's Rose Festival, Edinburg's Pan American Bronco Days, Mission's Citrus Fiesta, and Brownsville's Charro Days.

NOSE COUNTING — Population is fast-growing Texas will increase 2,150,000 by 1970.

Texas Research League predicts 11,800,000 people for Texas by the end of the present decade. The 1960 census showed the state's population as 9,650,000.

By 1985 Texas' population will have soared by 16,000,000. Most explosive trend, says the League, will be the rise in the college-age group — expected to rise 53.4 per cent.

SALES TAX INCOME LOW — Texas' limited retail sales tax law, passed by the 57th Legislature, accounted for only 10.31 per cent of the state's revenue during the fiscal year ended Aug. 31. So reports Robert S. Calvert, State Comptroller.

During this first-year period it produced a total of \$14,660,600.57, to rank fourth in the major income sources of the State.

NEW JUDGE — Now serving as a Judge on the Corporation Court bench in Tom I. McFarling. He is a former assistant attorney general.

STORMS ABBREWING? — That same quietness that precedes a storm seems to hang over the State Capitol. It's a physical as well as a spiritual calmness.

Capitol observers have sensed it now for several weeks.

Could be due to the upcoming elections and the resulting change in the Administration. Or the coming session of the Legislature. Or to an outbreak of news from an unexpected source.

Time will tell! THREE POLIO CASES — State Health Department advises that three new cases of polio were reported during the first week of October.

A total of 223 cases, 169 paralytic and 54 non-paralytic, have been recorded so far this year.

SLANT WELL SUITS — Assistant Attorney General Linward Shivers reports that between 50 and 150 penalty suits for slant well drilling will be filed in the near future.

Shivers, who has headed the investigation, says he will file separate suits on each violation, where an illegally slanted well is found.

Law provides penalties up to \$1,000 a day for each day of violation.

SHORT SNORTS Texas Supreme Court has refused to issue a court order requiring a district judge to cancel an October 30 election contest in Starr County.

General revenue fund deficit is \$41,250,349 — up \$19,300,000 from the last call — according to State Treasurer Jesse James.

State Textbook Committee has declined to recommend adoption of any new economics textbooks for use in Texas high schools.

Eight applications for permits to sell \$2,766,590 in securities in Texas were filed with the State Banking Commission the past week.

PLENTIFUL FOODS POINT TO THANKSGIVING

College Station. — An abundance of farm-produced foods this fall emphasizes one of the many things for which Americans can be thankful, reminds the Texas Agricultural Extension Service.

Eleven items will be particularly abundant this Thanksgiving month. They make up the official November list of plentiful foods, as determined by the Agricultural Marketing Service in cooperation with producers, processors and the food trade.

Turkeys and cranberries, two traditional Thanksgiving Day features, head the list, along with frozen orange juice.

Also expected to be in supply that exceeds normal trade needs are broiler-fryers, apples, shortening, grapes, pears, potatoes, Maine sardines, and dry beans and peas.

A record-large cranberry crop is being harvested this year. There'll be enough to fill 1.4 million barrels, or 30 percent more than average; 13 percent more than last year.

Turkey supplies may be down nearly 10 percent from last year's burdensome record. Stocks in storage are substantial. Prices are expected to be some higher than last season's extremely low levels, but still economical.

Frozen orange juice prices are substantially lower than a year ago. The record-large pack of 116 million gallons, this year, is one important reason.

Consumers will find it to their advantage to rely on all 11 plentiful, for economy, nutrition and good eating, this November. Extension Service food specialists suggest.

Writing in the May issue of Harper's Magazine, Richard B. McAdoo urges that companies give executives a year's sabbatical every 11 years, in order to prevent them from becoming automatic drones — tired, uncreative, wasted. If this was done, he believes, the companies would get better mileage from hard-pressed, high-priced brainpower.

"The greatest danger that we face is not the external enemy," said Senator Thurmond recently, "but it is the internal enemy — it is Communism from within."

? Why Take A Chance ?

IF YOU BELIEVE:

- Good Government begins at home.
- That strong and effective local and state government is the best answer for less Federal control.

ANDY has employed every practical means (often at his own expense) to keep his record and that of your legislature open and available to the public for inspection and judgement.

Yet there has never been any large or responsible group or element who could claim that Andy Rogers has not represented, with vigor and integrity, the principles, ideals and interests of our Senate district, State and Nation.

- 37 Years Old — Democrat
- Wife, 2 daughters, 1 son
- Stock Farming and Businessman
- 7 Years College.
- 14 Years Seniority (4 Years In House of Representatives, 10 Years as your State Senator.)
- WW II Veteran, Baptist, Rotarian, Farm Bureau and several Fraternal Org., etc.

INDEPENDENT IN THOUGHT AND ACTION—
THE COURAGE TO DIFFER WITH FRIEND
OR FOE WHERE PRINCIPLE IS CONCERNED.

Andy Rogers — Your State Senator receiving oath of office as President Pro-Tempore of our Texas Senate. Oath administered by Lt. Gov. Ben Ramsey.

This is the highest office, honor and recognition that can be bestowed upon a Senator by his colleagues. The duties of the office include presiding over the Senate and acting as Lt. Governor and Governor, when one or both are absent from their office or state.

Andy had the honor of serving in each of these capacities.

ANDY has ACTED and REPRESENTED YOU

- FOR:**
- Right to work law.
 - Private ownership and control of underground water.
 - Bill that outlawed Jimmy Hoffa's operations in Texas.
 - Resolution to PREVENT Red China's admission to U.N.
 - More Representation for West Texas.
 - More competitive free enterprise.
- AGAINST:**
- 80% of new State taxing and spending of last 14 years.
 - More government and monopoly controls.
 - Income taxes in Texas.
 - Deficit spending.
 - Pari-mutuel horse race gambling.

In 1951 Andy (then a member of the House of Representatives) and others achieved the impossible . . . a 50% increase for our area in representation in the Senate. The entire South Plains Panhandle Area had only 2 Senate seats. Redistricting occurred. East Texas lost (1) Senate seat. The South Plains Panhandle area gained this seat — “Our 90th Senatorial District.”

us, the ASCS County Office. Sign-up dates are from now through December 14, 1962.

Grazing Feed Grain And Wheat Diverted Acres

Beginning November 1, 1962, most of the acreage diverted under the 1962 Feed Grain and Wheat Stabil. program will be released from program restrictions on grazing.

Diverted acreage on which grain or oilseed crops have matured in 1962 must not be grazed.

1963 Cotton Acreage Allotment Reduction

I am sure that you have already heard on the newscast where there will be a sizeable reduction in the cotton acreage allotment for 1963. We have not received an official notice to this effect but are of the opinion that the 1963 cotton allotments will be somewhat smaller than in the past year.

Soil Bank Program

Farms that have CR land that will expire at the end of 1962, may sign an agreement to extend this acreage for one year, if they desire to do so. All the land on the farm with respect to which the conservation reserve contract expires on December 31, 1962, is eligible except:

1. Land determined by the County Committee to be in such physical condition that it will not return to crop production in the absence of this program.
2. Land for which the ownership has changed since December 31, 1960. We urge you to contact this office as soon as you can so that we can explain the payment and answer any questions and complete an agreement.

Mr. and Mrs. J. A. Howard returned home Sunday after a month's visit with their daughter and family, Mr. and Mrs. J. E. Kelley in Glendale, Calif.

Bronchos Beat Canadian Last Friday

The Clarendon High School Bronchos made it two in a row in conference play last Friday night as they defeated the Canadian Wildcats, 14 to 6, at Canadian.

The Bronchos scored in the second and fourth quarters and held the Wildcats scoreless until the last seconds of the game. The Wildcat's score game with just nine seconds remaining in the contest.

The Bronchos took over on downs on their own 31 yard line early in the second quarter and marched for their first score with Jerry Elmore making the last five yards. Dwight McAnear's attempted conversion kick failed but the Bronchos had a lead that they never relinquished.

Clarendon's second score came midway through the fourth period. They recovered a Wildcat fumble on Canadian's 35 yard line and had a touchdown in three plays. On the first play, McAnear passed to Robin Green and Green carried the ball to Canadian's one yard line before being stopped. McAnear attempted a plunge through the line that failed, but on the next play, he carried over for the score. A pass from McAnear to Gary Campbell was good for the two-point conversion.

Canadian's score came just nine seconds before the final gun as their quarterback raced around left end for the last six yards on fourth down to climax an 80-yard drive.

The Bronchos played spirited football throughout the contest and made perhaps the fewest mistakes of any of their games this year. They played the entire contest without a fumble which has been one of their most costly errors in other games this year. McAnear, Elmore, Green

and T.ddy Graham were the sprakplugs on offense and Elmore, Graham, Campbell, Larry Gray, David McBrayer and Billy Hearn led the defense.

The Wildcats outgained the Bronchos in rushing yardage, 233 to 187, but the Bronchos completed two of six passing attempts for 44 yards while Canadian could complete only one of nine attempts for 14 yards. The Bronchos made 15 first downs, to 13 for the Wildcats. The Bronchos lost 65 yards on five penalties and the Wildcats lost 70 yards on six penalties.
