Colts Defeat Memphis 38-14

The Clarendon Junior High Colts added another victory to their season record when they defeated the Junior High team from Memphis by a score of 38-14 in a game played here Thursday night.

The Colts scored twice in the first quarter of the game with a 30 yard run by Mike Sloan and a 20 yard run by Sloan. He also ran for the extra points. The Colt's third touchdown came in the second quarter when Ray Fields carried the ball in from the one yard line. Sloan again converted. In the third quarter Don Mooring ran 30 yards for the tally and Sloan made the extra points. The final touchdown of the game was made by Don Mooring on a 15 yard run. Fields ran the extra points.

Pep rally was held at 1 p.m. with the Junior High Band participating, and Colt Mothers had the concession stand open at the game.

The Colts have had an excellent football season with 5 wins, 1 loss, and 1 tie. They were not defeated on their home field. Members of the team and their coaches would like to express their appreciation for the support given them this season.

Revival To Begin Sunday At First Baptist Church

Rev. Barry Wood of Oklahoma City will be the Evangelist in a Revival at the First Baptist Church of Clarendon beginning Sunday morning Nov. 8th at the morning preaching hour. Bro. Wood is a young evangelist who is completing his Seminary work in Fort Worth this Semester. The services will continue for one week.

The music for the revival will be led by Bro. Bill Michael of Lubbock, Texas, a full time singing evangelist. He was educated in Oklahoma Baptist University and Southwestern Baptist Theological Seminary.

The services will be at 7:00 A. M. and 7:00 P.M. Following the morning service there will be do-nuts and coffee. There will be a nursery for each service. Every one is welcome.

FORD'S RESTAURANT NOW OPEN FOR BUSINESS

After waiting several weeks for delivery of new equipment, Henry and Ina Lou Ford now have their new restaurant open for business in the Hommel Mobil Station building across from Palmer Motor Co.

Formal opening of the business will be held Monday, November 9th. Mr. Ford stated that all equipment was new throughout, including the dining room. The business will be operated seven days a week.

Mr. and Mrs. Ford were raised in the Lakeview-Brice area and have been in the cafe business for twenty-five years.

RAIN WEDNESDAY MORNING ADDS TO YEARS TOTAL

Slow, soaking rain Wednesday morning brought the local moisture for the year to 15.08 inches at 7 a.m. The reading for the present spell was .43 inch at that time and rain continued to fall adding to the total.

Willard Knox reported .40 at Lelia Lake, Hubert Rhoades .25 at Ashtola, C. C. Rich .50 at the Country Club and W. G. Johnson .60 at Hedley.

The moisture will help the winter grain crop but brought the cotton and grain harvest to a stand-still.

Drive Planned To Raise Money For Band Instruments

The Band Parents met in a called meeting at the band room, together with the Band Director, Mr. Phil Anthony for the purpose of evaluating the needs of the band and the progress of the band thus far this year.

Of course the entire community is delighted with the progress of the band this year. The amazing thing is how the students do it with the equipment they have to work with. Seldom does anyone except the Band Director take a look at the condition of the instruments; however, Mr. Anthony requested the parents to take a look for themselves. Sometimes it is difficult for the average layman to diagnose the ailments of an instrument, but not in the case of the Clarendon High School Instruments. It was obvious to all that some move had to be made to replace and repair the basic instruments in order not to impede further progress. It is rather ridiculous to carry an instrument in a parade that will not play in tune or maybe not play at all. These instruments are owned by the school because they are far too expensive to ask the parents to buy, yet they are a necessity. They start at \$400.00 and run to \$800.00.

Mr. Anthony was asked to list and price the minimum instruments necessary to give the band a reasonable foundation. After this was done, we were looking at a figure of approximately \$3,200.00. This is a rather staggering sum for a small group to raise in a short time. Nevertheless, plans are under way to attempt just that.

Mrs. Dick Vallance, President of the Band Parents, appointed a committee to stage the famous "Womanless Wedding". Mrs. Vallance appointed another committee to supervise a car wash, and we have just finished a project. No doubt other projects will be forthcoming in the near future because the afore mentioned projects will not produce the needed revenue.

DONLEY COUNTY VOTERS PICK ALL DEMOCRATIC CANDIDATES

PRESIDENT LYNDON B. JOHNSON

who was closely contested by Republican George Bush. State-wide, Yabrorough won by a good margin as did Joe Pool, Gov. John B. Connally, Preston Smith, Waggoner Carr and other Democratic state candidates.

F. J. HOMMEL HEREFORDS PLACE HIGH AND BRING TOP PRICE AT FT. WORTH

F. J. Hommel, local cattle raiser and feeder was more than pleased with the type of animals he was raising when he entered two loads in the special Stocker and Feeder Calf sale at Fort Worth October 30th.

Mr. Hommel sent a load of 40 stocker steers he had raised and a load of 40 stocker heifers to the sale. The Hereford steers placed first and his heifers placed 3rd over all the 6000 animals entered in the event.

His steers brought a top price of \$22.50 and the heifers brought \$20.60 which was above all the other animals in the sale. This was quite a bit above average market price.

The steers averaged 455 pounds each and the heifers averaged 422 pounds each.

Mr. and Mrs. Javan Tucker returned to their home in Dallas Monday after spending three days in the home of his parents, Mr. and Mrs. Tom Tucker.

President Lyndon B. Johnson swamped Senator Barry Goldwater for the presidency Tuesday night with a flood of votes that even swept over a big portion of the Republican bulwark states. In addition to the presidential victory, the Democrats retained control of the Senate and won the House by a bigger majority than they now have.

Here in Donley County, Democratic candidates led the ticket all the way by a pretty fair margin for the exception of Senator Ralph Yarborough who was closely contested by Republican George Bush. State-wide, Yabrorough won by a good margin as did Joe Pool, Gov. John B. Connally, Preston Smith, Waggoner Carr and other Democratic state candidates.

Walter Rogers was returned as Congressman of the 18th Congressional district over Bob Price. Price won in a number of counties but the overall vote went for Rogers.

A large vote was polled in Donley County with the total count being 1902. Counting of ballots were difficult as a large number voted a split ticket.

In the more hotly contested races, the Donley County vote was as follows: President Johnson 1068, Goldwater 705; Senator Ralph Yarborough 968, Bush 809; Cong.-at-large—Joe Pool 1162 Hayes 489; Congressman - Walter Rogers 1116, Price 711; Attorney General - Waggoner Carr 1366, John Trice 43; Governor - John Connally 1339, Crichton 433; Lt. Gov. - Preston Smith 1315, Houston 433.

A majority of Donley County voters went for adoption of the three constitutional amendments listed on the ballot.

Plans have been completed and everything is in readiness for one of the biggest and best Homecomings ever at Clarendon High School Saturday, November 7th. A day-long schedule of activities has been planned and is being run as a separate article in the paper.

Basil Smith, president of the Ex-Student Association, would like to take this opportunity to extend a warm welcome to all of the Exes and to urge all of the people of our local area to attend all or part of the activities. Mr. Smith stated, "if as many local people attend Homecoming as those who come from a distance it will indeed be a glorious occasion."

If you have any suggestions to make regarding the annual reunion plan to attend the business meeting at 3 p.m. Saturday afternoon and make them known.

Don't forget the football game Friday night to be followed by a social hour at the Canteen. Early arrivals will find this an excellent time for visiting and catching up on all of the local news. So, see you Saturday. We will be looking for you!

ASSEMBLY OF GOD BAKE SALE SATURDAY

The Missionettes of the Assembly of God Church are having a Bake Sale Saturday, November 7th, at Vallance Food Store. Sale will begin at 9 a.m. Proceeds will be used to buy material with which to work.

PATTERNS FOR PROGRESS

Does your Community Development Program include these basic steps?

Recent WTU advertising has outlined some of the basic community development elements which are widely considered essential in community growth. They are summarized here again to give communities an opportunity to check their local development plans.

- ... The Community Survey, an inventory of both favorable and unfavorable community resources and growth factors.
- ... Community Survey Analysis, where growth factors are continually being assessed and evaluated.
- ... The Industrial Foundation, which provides community-wide financing for the land, brick and mortar required for new industry.
- ... Community Leadership, the organized energy, effort and manpower essential for sound economic growth and development.

WTU Area Representatives will provide growth-conscious communities with information about these elements or about a complete development program. Request this service through your local WTU manager.

"SAFETY IS NO ACCIDENT"
Tuesday at 11:00 a safety assembly was presented by the American Trucking Industry in the College auditorium. Patrolman, McNeil from Amarillo, presented Sargent Pike of Michigan, "the Teenagers Bob Hope." For over an hour this talented man kept the audience spell bound as he gave us an insight on the terrible problem of "Death on the Highway". He began the program with several extremely funny jokes and stories and presently began his talk on safety, which he mixed with much humor. In the last part of the assembly, he performed several amazing feats of magic for us.

I am almost certain that after this inspiring assembly the entire student body will take more caution when they are in the driver's seat.
I want to applaud the work Sargent Pike is doing, and remind everyone "safety is no accident."

Freshman, Donna Tomlinson and Billy Neal; Sophomore, Janice Riley and Pete Campbell; Junior Linda McCrary and David Mooring; Senior, Regina Borden and Buddy Wooten.

FTA Assembly
The Future Teachers of America presented an assembly in the College auditorium, one day last week. The purpose was to choose the girl who would represent Clarendon in the Miss FTA contest in Canyon. President, Nan Neal, opened the assembly by stating the purpose of FTA and introducing the officers and members. Vice-President Mary Martin led the members in the FTA pledge. Nan then explained the requirements a candidate for Miss FTA must have. Lynn Bourland was the first candidate to present her speech, Sherrie Shaw then gave her speech. The topic of each speech was "Explorers in Progress." Adele Barnhill who is running for Area 9 recording secretary presented her campaign speech. Next Lynn Bourland and Adele Barnhill led the group in "Texas Our Texas" and "America the Beautiful". Finally we climaxed the assembly by presenting Mr. Vaughan, superintendent of Clarendon High School.

He spoke on the values and goals of teaching. Nan then presented our sponsor, Mrs. Dema Justice. The two judges, Mrs. Frank Phelan, and Mrs. Frank White announced the winner, Miss Lynn Bourland, as the Miss FTA candidate representing Clarendon High School.

The purpose of this assembly was to interest more students in joining and participating in the Future Teachers of America Club.

AMERICANS EATING MORE

IN '64 — Per capita food consumption is expected to be 1 per cent higher in 1964 than in '63. This would be the largest increase in 5 years. Expenditures for food for the first 6 months of 1964 were 4 per cent higher than for the same months of last year and are expected to hold at that level for the remainder of the year. Consumers are now spending about 18.5 per cent of their disposable income for food. Food is still a bargain.

YOUNG HOMEMAKERS MEETING HELD

The Clarendon Young Homemakers met Tuesday afternoon for a regular meeting in the Homemaking Department.

Jerry Hawkins gave a very interesting talk on the different types of beef and pork and the different cuts. He explained the difference in prime and choice cattle and from which the better beef cuts come. He told us that color and bones are good factors to watch for in buying.

In the regular business meeting, a report of a "hilarious time by all" was given by our program chairman. It was decided that the Young Homemakers would appear on Cotton John's program the 2nd of January. It was also voted that we would have a bake sale prior to Christmas and Ginny Garland will be in charge of this project. Our project for the preceding month was fixing posters and placing them in business places urging people to go to the polls and vote.

Hostesses Ginny Garland and Roxie Barbee served refreshments to members: Peggy Maxcey, Sherry Semrad, Wilma Lindley, Pat Reed, Donna Tipton, Jo Schollenbarger, Barbara Orsak, Gay Cole and Velma Bourland; visitors Mrs. Melba Risley, and Mr. and Mrs. Jerry Hawkins. On November 21, we will have a Charm Workshop in the High School Cafeteria. —Rep.

ASHTOLA CENTER NEWS

There will be a "42" party Friday, November 6th, at the Ash-tola Community Center. Everyone is invited. Bring along some cookies and don't forget your dominoes. And have a good time. Vida Mahaffey is hostess. —Rep.

Meals can be easy on the pocketbook as well as appetizing when consumers select from seasonally large produce supplies, plenty of beef and poultry, says Mrs. Gwen Clyatt, Extension Service consumer marketing specialist. Homemakers who understand and use current food supply information can get more mileage from their food dollars, she adds.

SOIL CONSERVATION DISTRICT NEWS

WINDBREAKS

The purpose of windbreaks is to protect soil resources, control snow deposition, prevent wind damage to farmsteads, to provide shelter for livestock, and food and shelter for wildlife.

Field windbreaks are planted in crop fields to help control wind erosion and lessen the drying effect of wind on the soil. They conserve snow moisture needed in low rainfall and light soil areas. Because of the large amount of "edge" in relation to acreage, field windbreaks are especially valuable in providing wildlife cover. They create homes for insect eating birds close to cropland where they can do the most good.

Farmstead windbreaks are planted around farm buildings to protect them from winter wind and snow. Two kinds of wind breaks are used in various parts of the U. S. In the prairie areas shrub-hardwood windbreaks are used. Both usually planted at right angles to the prevailing winds. To prepare the ground for planting you should plow and harrow it in the fall, and then harrow it again in the spring. In the great Plains you should summer fallow a year ahead of planting.

Shrub-hardwood windbreaks usually consist of from 4 to 12 rows. In 4 row windbreaks the outer 2 rows are shrubs and conifers and the inner 2 are hardwood trees. Windbreaks containing 8 or more rows should have shrubs or conifers in the outer 4 rows.

You should protect all windbreaks from fire and overgrazing at all times. They should be cultivated regularly the first 2 years in the East, and for at least 5 years in the West.

The Donley County S.C.D. will be glad to assist you on any windbreak plantings or management.

CUB SCOUT HALLOWEEN CARNIVAL BIG SUCCESS

The traditional Cub Scout Halloween Carnival was held Saturday night at Lions Club Hall. Nine game booths were open for public enjoyment. The big attraction was the Cake Walk made possible by the generous merchant who donated gifts. Other attractions were the Bean Counting with a large Teddy being given as the prize, and a drawing for a big Poodle.

Refreshments were available for everyone and a fine time was had by all. Cecil McAfee, Cub Master, says "thanks" to everyone who helped make this the success that it was and "thanks" to the many merchants who donated to the Cub Scouts.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

TEXAS PRESS ASSOCIATION

SIDELINES AND SIDELIGHTS

An increase of \$107,000,000 in state expenditures for higher education and doubled tuition in state colleges and universities is proposed.

Texas Commission on Higher Education recommends a \$457,100,000 budget for upper level institutions during the 1965-67 biennium. Figure includes \$307,500,000 for 22 state-supported senior colleges and universities.

Tuition under the Commission's recommendations would be hiked from \$50 to \$100 a semester. Last increase was in 1957, when the rate was raised from \$25. If the Legislature approves this hike, revenues would be boosted \$33,000,000—leaving some \$74,000,000 more needed from tax funds.

Overall budget increase of 45.2 per cent would permit a 23 per cent faculty salary raise. Previously, the Commission had asked a \$5,900,000 supplemental appropriation for faculty salaries.

Commission also recommended "phasing out" Texas Southern University's law school.

CONNALLY GETS NEW JOB—Gov. John Connally returned from the Southern Governor's Conference in San Antonio with a new honor and a new assignment.

Already chairman of the National Democratic Governors' Caucus, he was unanimously elected chairman of the Southern Conference of chief executives.

In a three-day session, the governors discussed a variety of state problems and adopted 14 resolutions. Among the latter was one urging a federal constitutional amendment to permit states to take other factors than population into consideration in reapportioning their senates. Resolution was aimed at nullify-

ing a U. S. Supreme Court decision ordering both houses of state legislatures apportioned on the basis of population alone.

Three governors blocked action on Alabama Gov. George Wallace's resolution calling on the federal government to leave operation of public schools entirely in the hands of states.

TEXAS BIDS FOR NATIONAL CONVENTION—State Democratic Committee has authorized Chairman Marvin Watson of Daingerfield to enter a bid for the 1968 Democratic Convention in Texas.

Watson will name a committee to consider possible host cities.

COURT SPEAKS—Court of Criminal Appeals ordered a new trial for a man convicted of murder, because his attorney filed an appeal after the deadline.

Court heard argument that the trial attorney for the defendant lacked sufficient experience.

Third Court of Civil Appeals heard pleas that the new state loan shark law was applied unconstitutionally in an Austin district court. Court had ordered package store owner E. L. Parker to stop lending money at rates over 10 per cent without a license.

State Supreme Court upheld an appellate court's "time is of the essence" ruling in deciding the contract contest between Concord Oil Company of San Antonio and Alco Oil and Gas of Illinois.

Court said termination of the contract by letter held precedence over a telephone promise to "wait and see."

TEXTBOOK PROTESTS AIR-ED—Witnesses protesting adoption of three high school biology textbooks charged that evolution is an atheistic, unscientific and materialistic theory that should

not be taught in public schools.

State Textbook Committee took protests into consideration after a public hearing. Actually, eight books on the list were opposed. Principal targets were the three books developed by the National Science Foundation.

OIL PRODUCTION FIGURE SET—Texas Railroad Commission set oil production for November at 28.4 per cent of potential.

Figure represents a slight increase over October, which was limited to 2,860,000 barrels daily under a 27.9 per cent of potential order.

MENTAL HEALTH PLAN COMPLETED—A statewide citizens committee has approved a new program of mental health services.

Earlier, a steering committee had recommended creation of a single agency—Texas Department of Mental Health—to administer state-financed mental health services, including all mental hospital facilities.

Missing pieces in the Texas plan included facilities, financing and administration.

Hale County Judge C. L. Abernethy, chairman of the 112-member general planning committee, said efforts will be stepped up between now and next January to inform the public and officials about the recommendations which will be submitted to Governor Connally and the 59th Legislature.

PARK LAND ACQUISITION URGED—Parks and Wildlife Commission Chairman Will Odom said Texas may lose up to a third of its park land during the next 80 years because leases are expiring.

Odom called for a program of land acquisition to prevent loss of needed acreage when he spoke at the State Conservation Conference.

Earlier, he had lauded Gulf States Marine Commission for efforts to develop the fishing industry and bring sea resources to the public for general benefit.

WATER NEEDS TALKED—Atty. Gen. Waggoner Carr told Texas Water Conservation Association all units of government must work with private enterprise and individuals to assure

a water supply adequate to meet Texas' needs.

Brig. Gen. R. H. Free, commander of U. S. Army Engineers, said Texas must have an overall program of water development.

SCREWORM BATTLE BIG SUCCESS—The screwworm eradication program, which was conceived by individual livestock producers in Texas and later embraced by State and Federal animal health authorities, now is such a big success that only 102 cases of screwworm infestation have been reported in Texas this year. This compares to 3,000 by this time in 1963, and 50,000 cases in the last half of 1962.

According to Dr. Seymour J. Smith, State supervisor for the sterile screwworm plant in Mission, the picture is even brighter than those figures indicate because reporting of cases by farmers and ranchers has improved more than 100 per cent.

EMPLOYMENT UP—Employment statistics from the Texas Employment Commission shows a big increase in August. There were 3,322,300 jobholders in the non-farm category in July, compared with 3,325,600 in August. More significant was a drop in unemployment: 152,500 were looking for work in August, compared to 159,500 in July, and 174,500 in August of 1963.

COMMITTEE ON AGED PROPOSAL—Governor's Committee on Aging, chaired by State Senator Walter H. Ritcher of Gonzales, will ask the next Legislature to establish a permanent Texas Commission on Aging.

Purpose of the Commission would be to work with community groups interested in the problems of Texas' senior citizens and to coordinate efforts of local organizations with those of state agencies.

CITRUS CROP UP—Texas' 1964-65 citrus crop will be four and a half times greater than last season's 740,000 boxes, reports USDA's Crop and Livestock Reporting Service.

CLRS estimated a 3,400,000-box fruit crop for the coming season, including 2,400,000 boxes of grapefruit and 1,000,000 boxes of oranges.

Widespread showers and heavy rains in the Falcon Reservoir watershed of the lower Rio Grande Valley were credited with assuring proper fruit sizing.

SHORT SNORTS—State Sav-

ings and Loan Commissioner James O Gerst postponed until December 15 the hearing on an application from Portland Savings and Loan Association.

Attorney General Carr filed two more suits alleging slant-hole oil well activities in five Rusk County wells against H. L. Long and J. K. Maxwell, both of Kilgore.

A highway program even larger than the present one will be needed for Texas in 1972, according to T. Lawrence Jones, deputy federal highway administrator.

HATCHERIES GEARED FOR RESTOCKING

The summer dry spell dented Texas fishing areas but when the rains come back ample facilities are available to adequately restock the affected places, reports Marion Toole, coordinator for inland fisheries for the Parks and Wildlife Department.

In fact, Toole said drying up ponds and small lakes, from a fishing viewpoint, "often is a blessing in disguise."

"The fish population in the average farm pond," he said,

"gets out of balance in from three to seven years. These places are seldom scientifically treated by removing the rough fish and the stunted species. So the dry spells, while working hardships otherwise, generally do a good job of readying the areas for getting started all over again."

Toole said the departmental hatchery system "is in a healthy condition and ready for the restoration program beginning next year."

He explained that the acute dryness necessitated some "adjustments" such as transferring the San Angelo hatchery brood stock to the Ingram hatchery where water supplies were more adequate.

Toole said the summer fish distribution program had all been committed before the toll of the small water areas became so pronounced.

The cutoff date for restocking requests was August 1. He said the deadline for bass from the hatcheries will be April 1.

"Our program is geared to stock bass in the spring," said Toole. "The other fish, such as

catfish and bream, are stocked later on in the summer and fall."

Toole optimistically predicted that the revived fishing areas "will be ready for the fishermen quicker than most people think" with good-sized bass and catfish "hungry and biting" within a year or two, and the panfish even sooner.

The fisheries chief said the State and Federal hatchery processes are coordinated to avoid duplication. "After all," he said, "overstocking is one of the main problems we have. And anybody misguided to the point of crash restoration program by getting fish deliveries from both Federal and State hatcheries will be simply working to his own detriment."

FARM NEWS

from County ASCS Committee

COTTON REFERENDUM

The Secretary has proclaimed marketing quotas for the 1965 crop of upland cotton.

A cotton referendum will be held Dec. 15, 1964, to determine whether or not marketing quotas will be in effect for the 1965 crop.

The 1965 national allotment has been set at the minimum of 16 million acres. This is the same as the 1964 allotment. Texas portion of this allotment is 6,835,945 acres.

The state allotment will be apportioned among counties and the county allotments among farms according to provisions of the law. Notices of farm acreage will be mailed to operators of cotton farms prior to the referendum.

If marketing quotas are approved in December, the domestic cotton allotment will be in effect for 1965. For those voluntarily reducing the acreage, growers may qualify for price support payments in addition to the regular price-support loans. The domestic allotment program was in effect for the 1964 upland cotton crop.

ACP

There are 60 days left in the 1964 ACP Program Year. The current balance of funds for commitment is approximately \$6500. We are anxious for our Donley County Producers to be able to apply this money on sound conservation measures. If you have a conservation problem on your farm or ranch, and cost-share would help you solve this problem, we will be glad to assist you in any way possible.

Broncs Fall To McLean 36-22

By Douglas Bradshaw

A large crowd of disappointed Clarendon fans saw their hometown Broncs fall to the McLean Tigers by a score of 36-22 last Friday night.

The first period of play was rough and tough football with both teams fighting hard. In the later minutes of the quarter, the Tigers, with the help of fullback Dick Crockett, marched down the field for the first score of the game. The try for points was good, making the score 8-0 in favor of McLean as the quarter ended.

In the second period McLean scored again before the Broncs could mark up their first score. Late in the period, the Broncs got on the scoreboard with a 22 yard pass from Mooring to Grady. The try for points failed making the score 16-6 as the half ended.

The third quarter brought no relief to the Broncs. The Tigers scored twice, with both extra points failing. Late in the third quarter from 40 yards out, a well-thrown pass from Mooring to Thornberry gave the Broncs another score. Mooring passed to Cain for the extra points making the score 28-14 in favor of the visitors.

In the early part of the final quarter, the Broncs, deep in their own territory, had to punt and Tiger Dick Crockett, behind some good blocking, raced 35 yards to pay dirt. The try for points was good, leaving McLean ahead 36-14. In the middle of the last quarter, the Broncs began to move the ball from 10 yards out and Archie Smith went in for the final Bronc touchdown of the game. Because of penalties, the try for points was made on the third attempt from 23 yards out on a pass from Mooring to Odell Louis. This ended the scoring for both teams with the final ac-

count at 36-22.

With plenty of work and fewer mistakes, the Broncs hope to put up a good battle against their old rival, the Memphis Cyclone Friday night. This is the Bronchos homecoming game and they urge all the people to attend Friday night at 7:30 in Broncho stadium.

Donley County Farm Bureau Elects Officers

Around forty people attended the regular fall meeting of the Donley County Farm Bureau and Chili Supper Thursday night Oct. 29th at the Lelia Lake Community center.

Officers and 2 directors were elected and installed, namely: Maurice Risley, President, J. L. (Luther) Butler Vice President, Lacy Noble 2nd Vice President, Mrs. Hubert Rhoades, Sec., Treasurer, Harold White of Hedley and Jay Gould of Clarendon were elected to the Board of Directors.

It was the decision of the members that two more Directors were to be chosen by the Board of Directors in regular session.

The second Tuesday night of each month is the regular meeting night now set for 7 p.m., and unless otherwise stated, meetings will be held in the County Agents office.

Directors are elected for a 3 year term, unless it is necessary to fill irregular vacancies, thereby retiring the senior director each year.

It was resolved to pay the expenses of two delegates to the State Convention in Houston, Tex., registration beginning Sunday afternoon, Nov. 8th. Maurice Risley and Jay Gould are planning to attend if at all possible.

LIONS CLUB NEWS

Members of the Lions Club enjoyed another program Tuesday noon presented by Maudena Self, Beth Bourland, and T. Rose Stepp who sang several numbers accompanied by Mrs. Velma Weaver at the piano and saxophone solos rendered by Graham Bowen.

George Schollenbarger was voted in as a member of the Club and guests for the day were Tex McCoy and Cecil McAfee.

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

SPACE SOVEREIGNTY

Space science has been in the news again recently. The increasing momentum behind U. S. and Soviet manned space activities brings stronger focus on one of the unsolved problems affecting these great adventures: The position nations, particularly our own, should take in defining the upper boundaries of their territorial airspace and their sovereignty rights involving it.

In the Air Commerce Act of 1926, a provision was included stating: "that the Government of the United States has to the exclusion of all foreign nations, complete sovereignty of the air space over the lands and waters above the United States." The legal status of national airspace as part of our territory is not subject to question. However, in the dawn of the space age, the concept of airspace existing in 1926 is no longer applicable. Where now does it end?

The United States has the same right to control movement within its airspace as it has to control movement on its land and waters. But Congress has not acted to establish the upper boundary of our national airspace territory. This unresolved matter becomes important in determining whether foreign spacecrafts are to be permitted to fly within 25 miles, or 50 miles, or 100 miles above the U. S. From a technological standpoint, 25 miles above sea level is approximately the maximum height at which aircraft requiring aerodynamic support can sustain flight by air-breathing motive power. Fifty miles above sea level is approximately the maximum height at which the atmosphere is sufficiently dense to

dynamic lift. A joint somewhere between 75 and 90 miles is the lowest point of practical orbital unpowered flight, the beginning limit "outer space."

Where precisely does outer space begin? It is an important question, because the United States has supported a United Nations resolution declaring that outer space is a highway remaining open to all nations, free of any claim or rights of sovereign control by any nation.

The flight of spacecraft thru national airspace in taking off or landing poses one part of the problem calling for an early decision on what constitutes the sovereign territory. Experts say that up to now flights have been confined to U. S. and Russian airspace in their ascents and descents. As orbital flights become more frequent and diverse, we must make a determination whether or not to use our territorial airspace in ascending and descending. We will need to know whether we will be permitted the same privileges in the airspace of other countries.

Treaties and other international agreements are now required if an aircraft is to enter and use our airspace. There are no general rights of passage. An airplane approaching our shores and intending to land here cannot proceed past the outer boundary of the airspace above our territorial waters unless it has specific authority to do so. Free passage is permitted aircraft over the high seas as it is ships sailing on them. Up to now, our sovereign position in control of our airspace has not been questioned because atmospheric factors limit the altitude at which conventional aircraft may operate. The new problem is posed by spacecraft able to operate beyond limits of the atmosphere.

The legal status of space needs to be clearly defined not only for reasons of national sovereignty but also in order to avoid the pos-

sibility of armed conflict over territorial rights to outer space. It is possible that in the absence of clear definitions, the space race could become one in which military development of spacecraft and weaponry is emphasized and exploration and peaceful scientific advancement are minimized.

Up to now, man's main concern with space has been getting to it, surviving there, and returning. These will continue to be problems, and billions of dollars will be spent in improving space technology. At the same time we move forward scientifically, we must seek answers to legal questions posed by the space age.

18th District of Texas.

SMOKING CITED AS FIRE HAZARD

The Texas Safety Association said that smoking is one of the greatest personal causes of fire and noted some ways to stay out of trouble when smoking. These are:

Never smoke when drowsy or lying in bed. You may go to sleep and set yourself or the furniture on fire. Always use large, deep ashtrays. And, make sure the cigarette butts are completely out before emptying them into a waste basket.

Stay away from flammable liquids and out of cluttered closets with a lighted cigarette. Be sure to take note of "No Smoking" signs in public places. There is usually something flammable or danger in smoking in the area.

Mrs. L. O. Dennis and W. C. of Memphis visited in the home of Mr. and Mrs. Dick Vallance Saturday.

Mr. and Mrs. Benny Dennis and boys of Borger were guests Sunday in the home of Mr. and Mrs. Dick Vallance and family.
