Leader Completes 35th Year of Publication

On Friday of this past week, The Leader completed 35 years as a weekly hometown publication serving the people of this area.

Your present Publisher and Editor, G. W. Estlack, has been with the Leader since it began publication on March 12, 1929 by the late J. C. Estlack, Mrs. G. W. Estlack, Co-publisher and Society Editor, has been with the Leader since November 1938.

There have been many trials and tribulations throughout this period of time and there will probably be more in the future. We hope that our many subscribers throughout the years have appreciated our community efforts to some degree in face of the fact that in serving some we have disagreed with others. We are newspaper people and look forward to serving the people of this area in the best interests of all for many more years to come.

Our main purpose is to acquaint our readers with the news and the facts that involve this community in any manner and we are certainly not overlooking the fact that we have received wonderful cooperation from you people, our people, in publishing the Leader each week.

Jaycee - Jaycee-ette Banquet Slated For Tuesday, March 23

The Clarendon Jaycees and Jaycee-ettes have set Tuesday, March 23rd, for their annual installation Banquet. Tickets for the banquet are \$1.50 each and may be purchased from any member of the Jaycees or Jaycee-ettes.

New officers will be installed for the coming year and special awards will be given to persons who have been outstanding in their service to the town. Roland Hill will be installed as President of the Jaycees for the coming year while Brenda Higley will head the Jaycee-ettes.

Banquet time is 7:30 p.m. in the High School Cafeteria, Tuesday, March 23rd.

Hedley-McLean Road Contract Let By State

A \$602,714 contract to build a road through ranchland to connect Hedley and McLean has been awarded to an Amarillo firm, Ivan Dement, Inc. it was announced by the Texas Highway Department.

When completed, the road will cut about 30 miles from the route motorists must now travel between the two communities and will make another shortcut between Highway 287 and Highway 66. Construction is scheduled to begin about March 15.

The contract calls for construction of Ranch Road 2695 from a point about 6 miles south of the Gray County line, south to State Highway 203. Also in the contract is construction of Ranch Road 2044 from State Highway 203 at a point 6 miles east of Hedley, north to an intersection with Ranch Road 2695.

RED CHECK TIME ROLLS AROUND AGAIN

It is Red Check time again which is our means of reminding those whose subscription to the Leader expires during the month of March. If a Red Check appears at the top of this page please let us have your renewal promptly so that your name will not be removed from our list.

The subscription rate inside Donley County is \$3.50 a year. If you receive your Leader at a mailing address outside of Donley County the rate is \$4.50 a year. If you fail to send the correct amount, your subscription will be credited for only the length of time the money covers.

We will appreciate the cooperation of our subscribers in keeping addresses up to date. Should you move or for any reason change your address, please send in the change to us immediately. We pay the Postal department 10 cents on papers not delivered, and you can see that this will soon take up the price of your subscription. We also ask that you check your expiration date beside your name and advise us if any error has been made.

Two Contracts Are Let By Greenbelt Authority For Lelia Lake Creek Site

POST OFFICE BUILDING DAMAGED BY UNRULY CAR

City Police Chief Gary Gerdes reported damage upwards of \$1200 to the Clarendon Post Office building and approximately \$800 damage to a 1964 Chrysler when the car plunged into the east wall of the Post Office at 4:10 Saturday afternoon.

Chief Gerdes reported that Mrs. Carl Naylor, driver of the car, apparently stepped on the gas pedal instead of the brake when she approached the parking zone east of the Post Office. Mrs. Naylor received painful bruises but was not seriously injured.

CLARENDON ROPING CLUB ORGANIZED

The Clarendon Roping Club was organized at a meeting at the Donley Coffee Shop Thursday evening, March 11. Officers elected were James Owens, president; Lee Roy McCracken, vice-president; and Joe Robinson, secretary-treasurer.

Membership dues were set up at \$50 per season. Non-members who participate must be invited by a member and pay the allotted fee per steer and calf. The group hopes to get activities under way by May 2nd.

MRS. MCCrackEN INJURED IN ACCIDENT

Mrs. Marie McCracken of McLean was injured in a car wreck four miles west of Alanreed Friday morning. She received broken legs, a broken arm, ribs and nose, multiple cuts and bruises. At last report she was improving.

Mrs. McCracken, a nurse at Groom Memorial Hospital, was enroute to work at the time of the accident. Her vehicle was struck by a car traveling on the wrong side of the divided highway. Heavy fog blanketed the area. Mrs. McCracken is a sister of Clarence Reynolds, Mrs. Price Webb, and Mrs. Kirk McAnear.

Two contracts were let at a meeting of directors of the Greenbelt Municipal and Industrial Water Authority at Childress last Thursday night, according to President S. H. Townsend.

A contract for the diversion or gathering system at Lelia Lake Creek was let to Gilvin and Terrell of Amarillo. The low bid was \$38,572.

A low bid of \$4,830.66 for a 100-horsepower pump and a 50-horsepower pump to put the water into the pipeline at Lelia Lake Creek was let to Pierce Company of Dallas.

The 50-horsepower pump will cost \$2,045.33 and 100-horsepower pump \$2,785.33. The two pumps will provide 3,000,000 gallons of water a day and will be the principal supply for Childress and Quanah this summer.

The diversion or gathering system at Lelia Lake Creek will be located on the Kennedy land about 3½ miles east of Lelia Lake.

"Should additional water be needed, we will take it from water wells at Quanah or Childress or both," Dr. Townsend said. As of June 1, 1965, all water for the two cities will be provided by Greenbelt and the wells of the cities will be turned to the Greenbelt.

A delegation from Memphis appeared before the directors and asked that their director be retained on the Greenbelt. Directors were of the opinion that it would not be fair to the participating member cities in the Greenbelt to allow a director from a city which was not purchasing water and has no connection with the Greenbelt to help direct its activities. The elimination of a director from Memphis in the Greenbelt must be through action of the State Legislature. Memphis has a privately owned water system and could not vote on the Greenbelt project.

Directors, under the act of setting up the Authority, are paid \$20 per meeting and they started accepting the pay in January of this year. Dr. Townsend said that no replacement has been made of Roland Walden from Quanah as a Greenbelt director. Walden has moved to Grand Prairie.

W. J. Lowe, Greenbelt Attorney, reported yesterday that right-of-way easements for the pipeline from Quanah to Lelia Lake Creek were almost complete and that the pipe was now underground from Childress to Quanah and part of the line and all of the pipe has been strung out or put underground to Memphis. Lowe stated that he was proceeding with land purchase contracts at the proposed lake site north of town. The lake itself will cover approximately 2,000 acres.

Miss Sue Hill Chosen Lions Club Queen

Miss Sue Hill, 17, high school junior and daughter of Mr. and Mrs. J. T. Hill, was chosen queen of the local Lions Club at the Tuesday luncheon from a field of ten very attractive young ladies. Runners-up were Miss Nan Neal, 18, daughter of Mr. and Mrs. Gayle Neal and Miss Janice Ann Riley, 16, daughter of Mr. and Mrs. J. D. Riley. The winners were chosen by ballot of the entire club.

Miss Hill will represent the local club in the district queen contest at the District 2T-1 Lions convention in Dalhart April 8-10. She will serve as queen of the local club until a new queen is chosen next year. She succeeds Miss Sandy Deyhle, daughter of Dr. and Mrs. Chas. E. Deyhle.

Annual Vaccination Of Pets Set For March 30

The annual vaccination of pets for rabies has been set for Tuesday, March 30, from 4 p.m. to 6 p.m. on the Courthouse lawn. Dr. C. E. Deyhle will hold a group inoculation of dogs and cats and issue license at that time as he has in years past. He will be assisted by the Animal Control Officer. Charges will be \$1.50 for Rabies vaccination and \$1 for the license, a total of \$2.50 per animal.

Due to the fact that there have been three positive cases of Rabies in the past three weeks everyone is urged to have their animals inoculated to prevent an outbreak of Rabies.

SOIL SAMPLES NOW BEING TAKEN

Ronald Gooch, County Agent, reports that many Donley County farmers have been taking soil samples the past few weeks. If you have not had a test run on your field recently, \$2 for soil tests would be money well spent, particularly on irrigated crops.

Soil sample bags and information sheets can be picked up at the County Agent's office, or if you will call Gooch he will drop them in the mail for you.

College Work-Study Program At Clarendon College

Clarendon College began the new College Work-Study Program on the campus this week. Approximately 56 million dollars in federal funds have been made available as the initial allocation for this particular program. The estimated allocation for the State of Texas is \$3,372,283, exceeded only by the states of New York and California. The program is aimed to aid, through part-time employment, students whose parents can make no significant contribution toward the cost of higher education.

Two categories of student part-time employment have been specified: on-campus and off-campus. The first includes almost every type of institutional job such as laboratory assistants, clerical, maintenance, etc. Off-campus employment may relate to non-profit organizations only (churches are not included) such as the city and county governments.

Students who qualify under this program must be full-time students of the college, carrying a minimum of 12 semester hours. These students will be limited to a maximum of 15 hours of work per week in which classes are scheduled during the regular academic year.

Summer employment is available under this program to GRADUATING SENIORS of area HIGH SCHOOLS who qualify under the program. Employment is available up to a maximum of 40 hours per week DURING THE SUMMER for THESE STUDENTS who make application for admission to the college. Preference will be given to this category of students who are incoming freshmen.

Application forms and job information data are available from Clarendon College. Applications will be accepted at this time for the Summer employment as well as for the academic year of 1965-66. Students who wish to

apply should request forms immediately from:

Spring Sports Begin

The 1965 spring sport's season began with our tennis squad traveling to Amarillo on March 2nd. The teams are composed of: Singles—Johnny Lacy, Greg Wood, Kenneth Willingham, Sandy Verden, and Karen Clements; Doubles—(girls) Sandy Verden, Karen Clements, (boys) Johnny Lacy, Greg Wood. The teams brought back no victories, but, on the whole, made good showings for their first match.

The 1965 tennis schedule is as follows:

Big Spring at Clarendon, March 15, 1:00 P.M.; Odessa at Clarendon, March 16, 9:00 A.M.; NMMI at Clarendon*, March 20, 1:00 P.M.; Clarendon at Borger, March 29, 1:00 P.M.; San Angelo at Clarendon*, April 2, 1:00 P.M. Lubbock at Clarendon, April 12, 1:00 P.M.; Clarendon at South

Plains, April 13, 1:00 P.M. *Men's teams only.

Military Represented on Campus

Clarendon College was honored by the presence of two visitors on the campus Wednesday. Lt. Taylor, representing the U. S. Army, and Lt. Neptune, a representative of WAC, spent most of the day visiting with students in both high school and college. Lt. Taylor's job is to inform young men of the various ways of fulfilling their military obligations giving special emphasis to the officer programs. Lt. Neptune informs young ladies of the various types of work open to them in the Army. Both of these Armed Forces representatives are very personable young people and it was our pleasure to have them as our guests.

WHEN AND WHERE

The Sophomore - sponsored Game Night was a huge success. A total of fifty-five class members and guests participated in various card games, forty-two, and dominoes at the Country Club House Tuesday night. Sandwiches, chips, dip, cokes, and

cookies were furnished by sophomore students and added zest (and calories) to the occasion. Our thanks to our class officers and sponsors, Mrs. Weaver and Mr. Ellerbrook, for planning a wonderful evening of fun, and to Mr. and Mrs. Bud Moore for arranging for the use of the club house.

Dogetts Plan For St. Patrick's Day

The Clarendon College Dogetts are sponsoring a St. Patrick's Day Dance to be held at the canteen on March 19. Music will be furnished by the Velasquez Brothers, who proved to be so popular at the Valentine party. The festivities will get under way at 8:30 P.M. and the price of admission will be \$1.00 each. Make your plans now to attend.

The Dogetts are also entering a float in the St. Patrick's Day parade at Shamrock. Cheerleaders Karen Clements, T'Rose Stepp, and Ann Weatherly will ride on the float.

Local Instructors Attend Convention

Classes were dismissed Friday to permit the college instructors to attend the District IX Convention of the Texas State Teachers Association in Amarillo. The general session convened in the Municipal Auditorium for the keynote address by Mr. E. L. Galyean, Director, Research and Records, T.S.T.A., Austin. Sectional meetings were held in the afternoon for the purpose of discussing educational procedures in each particular field of teaching. The theme for the convention was, "Education: America's Best Investment."

the campus of Clarendon College, effective as of February 23, 1965. Its purpose is to aid students who need financial help in meeting college expenses by providing part-time employment. The program comes under the Economic Opportunity Act of 1964. To be eligible, a student must be enrolled or must have made application for enrollment on a full-time basis in the college. A full load carries a minimum of 12 hours. The participating student may work a maximum of 15 hours per week, or as many as 40 hours per week in the summer if he is not currently enrolled in any class, but plans to attend the college the following fall. In addition to carrying a full class load, the student must prove his financial need before qualifying for this program. Many of our students have manifested interest in the program and are making inquiries from the Dean's office concerning available jobs.

Campus Chatter

by Steve Richerson

This reporter was late arriving at the sophomore game night Tuesday, but according to all reports, the entire evening was quite a festive occasion.

A couple of us were sitting around the other day, talking about the origin of names. Someone mentioned the name, "Punk", so we decided to look it up. We did, and we recommend that everybody else do the same if you are interested in finding out how it originated.

A black day is also approaching Murphy's Canyon is being closed and evacuated. A petition is being planned for circulation to cancel this catastrophic action and I expect everyone to sign it.

People used to lose their shirts in the stock market - now we mostly lose them in the super markets.

From Nancy Morchel's Column we borrow these definitions; the scientist concentrates on a single problem, learning more and more about less and less until he finally knows everything about nothing. The economist knows a little about everything, learning less and less about more and more until he finally knows

nothing about everything.

A quarrel is like buttermilk—the longer it stands the more sour it grows.

The fellow who said - well be-gun is half done - wasn't talking about an argument.

"Ask your grandmother if she remembers this old 1893 Mosley oil-fired water heater and folding bathtub... I dare say, it would hardly meet the needs of 1964 living—supplying dishwashers, clothes washers, bathtubs, and lavatories with instant clean hot water upon demand.

Few of us actually realize that over 2/3 of the water used in the home is hot water. With the completely automatic electric water heater there is no fear of a flame going out when hot water is needed the most. And being totally flameless, it requires no venting, is easier to install and maintenance is practically nil.

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

Imports have long been a source of controversy in our country. Throughout our history we have generally found goods, wares, and products available from foreign sources at a price cheaper than prevailed in this country. This is so primarily because of the high standard of living that we in this country have built up under our philosophy of government. This standard of living is not confined to one group or one segment of our economy. It is available to all, regardless of the economic strata in which they find themselves, as compared to counterparts in all other countries of the world. Our particular 18th Congressional District of Texas is directly affected by this import problem in oil, in cattle, and in sugar. All of these are national problems of great consequence, but are of particular interest to our Pan-

handle because any adverse action relating to any of these products is immediately felt in our local economy.

The oil import problem is presently under study by the Department of the Interior. A sweeping review of U. S. policies under the "Mandatory Oil Import Control Program", now in its sixth year, is underway at the present time. Hearings last week in the Department of Interior auditorium brought more than 130 witnesses, including State governors (Governor Connally appeared not only as Texas' governor but also as chairman of the Interstate Oil Compact Commission). Our own Panhandle was represented by R. P. Herrmann and Don Watson, who appeared on behalf of the Panhandle Producers and Royalty Owners Association. The appearance of government officials, organization officials, spokesmen for oil industry associations, executives of oil companies, leaders in associated segments of the oil industry such as labor organizations, business groups, etc. helps measurably.

The inquiry seeks to determine whether the program is meeting its objectives. It was originally designed to maintain strength in the domestic oil industry by keeping imports in satisfactory proportion to domestic petroleum production. Everyone recognizes that the national security requirements of our nation demand a strong and vigorous domestic oil industry. Such an industry cannot be maintained unless incentive is present for our own citizens to be willing to risk money in further exploration and development of oil and gas deposits in our nation. The number of exploratory wells has been falling far below prior years. Domestic production has not been increasing at a pace equal to demand. Adequate reserves are not being located. Operation of drilling rigs dropped sharply. When these things happen, all associated businesses in and around oil development areas suffer, whether they be the corner hamburger stand, the doctor's office, or the department store. Many U. S. oil experts feel that the Mandatory Oil Import Control Program has not gone far enough to

bring imports into proper balance with domestic production. Many of the independents in our area have most impressive statistics to prove their position in support of curtailment of imports. Unless this problem can be worked out within the Department of the Interior, it can be expected that import control legislation will be sought.

The oil import problem is only one facet of the larger problem of imports generally. In the past it has been the practice of those affected by imports to remain separate and apart from other segments of the economy and to try to press for action on their own separate problem. This meant that there was no coordination between the domestic producers of cattle with the domestic manufacturers of pottery and bicycles or clothespins or steel, or the farmers trying to produce sugar, to name only a few of the groups that find imports a constant threat. The percentage of imports varies with the different products, even as regards those products in which this country could be wholly self-sufficient. For instance, it would not be necessary for this country to import cattle, yet between 10% and 15% of the beef consumed

in this country is imported. This country could produce all of its sugar and enough to export, yet it is importing from foreign countries approximately 43% or almost half of our domestic consumption. One person admonished me for supporting a reduction in sugar imports. He told me that the foreign sugar could be acquired much cheaper than domestic sugar. My reply to him was that the same rule would apply to everything from oil to automobiles and from hairpins to cattle, which happened to be this fellow's business. I told him about a former Member of Congress who made a speech almost every day advocating "Buy American." Every afternoon this same Member would pass me on the way home, driving his Mercedes-Benz.

Clarendon Band Parents Honor Band Students With Banquet

Eighty-five students and guests were entertained at the school cafeteria Saturday evening, March 13, at 7:30 p.m. when the Band Parents hosted their annual Band banquet.

The theme, "Erin Go Bragh," was lettered in green on a white ribbon banner. On either side were giant green shamrocks crossed with gold pipes. The tables were placed in a modified triangle which enabled everyone to enjoy the golden glow of twinkling candles highlighted by soft-glowing multicolored dancing lights. The head table was centered with a mound of Irish potatoes from which a gilded and sparkling gold lyre surrounded with glittering green sham-

rocks. Green shamrock place-mats, green and gold leprechaun hat programs, and balloons tied to the chairs marked the pieces of the guests.

Rev. Baldwin Stribling gave the invocation.

The buffet table, in white, with crystal and silver appointments, was elegant. Holding white candles, an ornate, three-armed silver candleholder centered the table. Small white mums springing into crescent shapes from small green lyres graced each side of the holder. The menu for the evening consisted of Paddy's Pig, Irish Eyes, Emerald Isle, Harp Strings, Sun on Shamrocks, Bit of Heaven, and cup of Shannon. Soft background music completed the picture for the banquet.

Mrs. Dick Vallance, president of Band Parents, gave the welcome. Miss Dolphia Vallance, Band president, responded.

Guests for the occasion were the dates of the members, Mr. and Mrs. Phil Anthony, Mrs. Dick Vallance, Mr. and Mrs. Morris Ledger, Mr. Kenneth Vaughan, Mr. and Mrs. Stina Cain, Rev. Stribling, and Mr. and Mrs. Tom Higley.

Mr. Phil Anthony, Band Director, gave a review of the year's activities.

Green topiary trees on either side of a green shamrock canopy formed the bandstand. The Velasquez Brothers of Wheeler played for an evening of dancing. —Rep.

Present for the occasion were Miss Myrtle Hall of Cactus, Miss Alma Hall of Amarillo, Mr. and Mrs. Durrell Hall of Panhandle, Mr. and Mrs. Carl Hall of Forest, N. Mex., Mr. and Mrs. Carl Naylor, Mr. and Mrs. Truett Hall and family of Clarendon, and the hosts, Mr. and Mrs. Royce Hall.

VEHICLE INSPECTION DEADLINE NEARING

Only one month remains for some 1,500,000 vehicles registered in Texas to secure the 1965 safety inspection sticker. Col Homer Garrison, director of the Texas Department of Public Safety, said today. "The period set by law for securing the 1965 sticker ends at midnight, April 15, and there can be no extension of that deadline," Garrison pointed out. "Any Texas motorist whose vehicle does not display the new sticker after April 15 is subject to arrest by any sheriff or his deputy, any city policeman, or by officers of the Department of Public Safety."

Garrison said that in the remaining month of the inspection period there is sufficient time for the 5,300 official inspection stations to inspect the remaining vehicles without undue inconvenience to the motorist, provided the vehicle owners act promptly. "From now until the deadline, every minute of the inspection station's time will be at a premium, Garrison warned, "and waiting lines will become general throughout the state."

Garrison suggested that congestion at inspection stations would be lessened if known defects were repaired prior to presenting the vehicle to the station for inspection.

Mr. and Mr. Monte Mann of Harlingen are visiting their parents, Mr. and Mrs. Clayton Mann of Clarendon and Mr. and Mrs. Ben Rathoff of Wellington, this week.

If you want to sit in on the committee hearing for the bill which would legalize the sale of miniature bottles of liquor in restaurants, you better come early. That's what Sen. Jim Bates of Edinburg, sponsor of the bill in the upper house, is saying. He expects as many as 3,000 persons will be at the Capitol to testify or to listen when the bill comes up before the Senate Committee on Jurisprudence at 2 p.m., Tuesday, March 16.

Bill would allow establishments where at least half of the monthly business is for meals to get a state license for the sale of 2-oz. bottles of liquor, enough for a single cocktail. There's organized support on both sides. The line-up:

In favor, the Texas Restaurant Association, which hopes the bill will permit its members to meet the competitive private clubs, which increasingly are getting the restaurant business from people who like to drink before dinner.

Opposed, church groups which generally are against any liberalization of liquor regulations and a strange bedfellow, the Texas Package Stores Association, which contends the bill as written would prevent liquor stores from continuing to sell beer.

The Texas Package Stores Association also believes the same section it opposes would prohibit restaurants from selling beer and wine if they sold minatures.

A hearing is yet to be scheduled on the House version of the bill by Rep. Willis Whatley of Houston.

CONGRESSIONAL REDISTRICTING — Texas Republicans, whose lawsuit resulted in present congressional districts being invalidated, have offered their version of how the lines should be redrawn. Plan is embodied in a bill sponsored by Rep. Frank Cahoon of Midland, only Republican in the 59th Legislature.

The GOP product satisfies many objections raised to others introduced so far, since it disturbs fewer incumbents than any plan to date.

Only U. S. Reps. Graham Purcell of Wichita Falls and Omar Dullson of Anson would be facing each other as opponents in a newly-created Congressional District 13, and U. S. Reps. John Dowdy of Athens and Lindley Beckworth of Gladewater, in a newly-defined District 3.

Three new districts would be developed: A District 23, giving Harris County a third congressman; District 17, giving Bexar County and a group of South Texas Counties another representative; and District 7, giving Dallas County a second congressman. U. S. Rep. Joe Pool, who sits in District 7, but now is elected statewide, could thus retain a seat.

LAND PROGRAM RENEWAL PROPOSED — Voters will get another chance to say whether they want to continue the veterans land program under which

thousands of Texas veterans have purchased farm property at low interest.

A proposed constitutional amendment to extend the program—first amendment cleared this session—was approved by the Senate and sent to the governor. Amendment will be voted on in November. Rep. Gus Mutscher of Brenham and Sen. Criss Cole of Houston are the sponsors.

SMALL LOAN HEARING—A housewife from Dallas told members of the House Committee on Banks and Banking that a \$50 loan, which she later decided she did not need in the first place, cost her \$1,500 over a three-year period by the time she went through renewals and additional loans to meet high interest rates.

She testified in a hearing on a bill by Rep. W. Reed Quilliam Jr. of Lubbock, which would reduce interest rates on loans of \$100 or less by one-half to two-thirds.

An association of small loan companies appeared to oppose the bill. A citizens committee from Dallas and ex-Attorney General Will Wilson favored it. The bill went to a sub-committee.

GUADALUPE PARK ASKED — Senate adopted a resolution by Sen. W. E. Snelson of Midland urging fast action by Congress to appropriate funds for buying land to create a Guadalupe Mountain National Park.

A federal agency has recommended that the park be created, and an area man has offered to sell 72,000 acres. Area contains the only stream in Texas where mountain trout thrive and is stocked with bear, mountain lion, elk, bighorn sheep, deer turkey and a great variety of birds.

INTEREST BILL UP AGAIN — Rep. James Nugent of Kerrville has reintroduced the amendment to the state conflict of interest statute which failed to pass during the last session.

Among the changes is addition of a section which would prohibit any member of the Legislature from introducing or causing to be introduced legislation which would directly affect any client or employer from whom the legislator receives a retainer fee or any other financial consideration during his term in the Legislature.

HORSES STALLED — Rep. V. E. (Red) Berry of San Antonio was left at the post again in his latest try to legalize race track betting on the horses.

Berry couldn't win for losing when he argued for a constitutional amendment to permit pari-mutuel wagering in Bexar, Dallas, Tarrant, Harris, Galveston, Hidalgo, Cameron, Midland and Webb Counties on a local option basis.

House Constitutional Amendments Committee tucked Berry's proposal away in sub-committee.

Frank Newsom, executive secretary of Texas Racing Association, said his group preferred a bill by Rep. Maurice Pipkin of Brownsville (scheduled for House State Affairs Committee hearing

on March 29). That bill would permit pari-mutuel betting at licensed tracks in all counties, subject to local option elections.

INTEGRATION COMPLIANCE NOTED — Texas Education Agency notified federal authorities of compliance with school integration requirements of Federal Civil Rights Act.

All but 160 of 1,350 Texas school districts also have agreed to comply, according to Dr. J. W. Edgar, state education commissioner.

Agreement is necessary to continue receiving \$40,000,000 in federal school aid.

Eight Texas school segregation laws now are under court challenge, Edgar reported.

GUARD FORCES CUT — Texas National Guard forces will undergo reductions more drastic than anticipated under Guard Army Reserve merger troop allocation plans announced by the Pentagon.

Maj. Gen. Thomas S. Bishop, state adjutant general, said Texas personnel will be reduced 4,654 from the 28,233 in the Guard and Reserves. And 155 of the present 367 existing units will be dropped if the proposal—still subject to negotiation—becomes final. "This far exceeds the 25 per cent (reduction) that we were advised to expect," Bishop commented.

SHORT SNORTS — "Equal legal rights for women" received another setback in the House, where the proposed constitutional amendment mustered only 91 of needed 100 votes.

Texas Commission on Higher Education picked three junior colleges and 11 four-year institutions to receive \$12,000,000 in federal building aid.

Bill to place game and fish regulation in all 254 counties under Parks and Wildlife Commission ran into strong opposition at House Game and Fisheries Committee hearing, was sent to sub-committee.

House amended Senate-passed bill to require imported meat to be so labeled.

Final approval has been given a bill by Sen. Bruce Reagan of Corpus Christi, which adds milo, maize seed and safflower to the list of products from which oleo-

margarine can be made and sold in Texas without payment of the 10 cents a pound tax.

State Treasurer Jesse James reports that revenue from cigarette tax stamps in February totaled \$5,600,000 or \$1,000,000 over February, 1964.

Mrs. Stock Lamberson of Amarillo and Mrs. Jack Lamberson visited Mrs. Edith Longan Friday afternoon.

I would like to express my appreciation to my wonderful friends and neighbors for the cards, flowers, visits, food, and kindness during my stay in the hospital and since being at home. May God bless each of you. Mrs. Mary Chenault

The kindness and sympathy of neighbors and friends in our recent sorrow will always remain with us as a precious memory. Our sincere thanks for the cards, flowers, food, and many other kindnesses extended us. The family of Troy Broome

We wish to thank all of our friends for the kind deeds, cards, and flowers that were sent following our accident. The Thomas Perkins

SOIL CONSERVATION DISTRICT NEWS

SDC SUPERVISORS

As most of us know, Soil Conservation Districts are governed by local citizens. These members are referred to generally as supervisors.

Districts may be broken down into subdivisions, the number varying on the size of the district. A district supervisor is elected every 4 years by citizens of each subdivision and he serves for the subdivision. District supervisors receive no pay for their district work. In some states they receive a small expense allowance out of local or State funds. Sometimes this is on a per diem basis. In no case do they receive Federal money.

A district program is worked up describing the conditions and situations relating to soil and water conservation within the district, including flood and sediment damage and its long-time land use and soil conservation objectives. These objectives establish a target at which to aim the district work.

Our present supervisors are John Knorpp, T. C. D'Spain, W. P. Doherty, J. C. Shields and Vance Gray.

Anyone interested in the district program should feel free to ask any one of these district

supervisors. Your local Soil Conservation Service office staff is always available to give technical help through the district.

RANGE SEEDING

Nearly any expert can tell us what should have been done in connection with much of our wind blown Great Plains land. Some of it should never have been plowed. The fact remains that is has been plowed and it is up to us to try to correct the mistake and return this land to a stable condition covered with useful plants.

To begin a systematic procedure of re-establishing grasses in this area, it is necessary to recognize certain factors of nature; namely very high wind velocities and long periods of drought. So in planting grass, one must bear these factors in mind. A good dead litter cover is a must in grass seeding in order to get maximum protection from wind erosion. Also a good litter will gather and hold more moisture which will be available for the young grass seedlings when sown. When planting grasses one should plant a mixture that was formerly adapted to that type of soil. Short grasses generally grow better on deep, fine, and medium textured soils and the midgrasses generally do better on deep, moderately coarse textured soils. For deep, coarse textured soils the tall grass group is best adapted.

Your local Soil Conservation Service can assist you in working out a good sound grass mixture to fit the needs of the land.

Sunday, March 14th, 1965 was a big day for the members of First Baptist Church of Clarendon. About one hundred former members in addition to current membership and friends were present for the occasion. Rev. Howard Scott, pastor here in 1952-53 and now at Field Street Baptist Church of Cleburne, Texas, was speaker for the morning service. Mr. W. W. Pinkerton, who lived in Clarendon for eight years and was connected with the schools here, acted as Sunday School Superintendent. Mrs. Pinkerton led the singing and special music was brought by the Pinkerton Quartet.

At the afternoon meeting which followed a basket lunch at the noon hour, Mr. Sam Lowe gave a history of the Sunday School in this church. Mrs. J. H. Headrick gave a resume of the work of the women through the years and P. C. Messer told something of the work of the men in the church. Dale Hill, who was at one time director of the Training Union and now lives in Dierks, Ark., recalled interesting and significant facts in the training of workers. The closing message was given by Rev. J. Perry King, pastor in Clarendon for over seven years. Rev. King moved from Clarendon in 1934 and now lives in retirement in Abilene, Texas.

Ground breaking for the new Baptist Church building was conducted following the afternoon service. It was a happy group of faithful followers who stood on the hillside in west Clarendon and tried to picture a new building overlooking the town.

Rev. W. F. Vanderburg, who served the church here prior to the present pastor was the speaker for the evening service.

FARM NEWS

from County ASCS Committee

COTTON REAPPORTIONMENT
As we've told you before, we had only 265.7 acres of cotton released in Donley County. We have received 946.5 additional cotton from the State Office making a total of 1211.2 acres to be reapportioned. 363 producers requested additional cotton and will receive their share of the 1211.2. Notices of cotton allotments after reapportionment will be mailed out very soon.

PEANUT ALLOTMENTS
Several producers have asked about obtaining a new grower peanut allotment in our county. Let us give you the requirements for receiving such an allotment. First of all, the producer must be an experienced commercial peanut grower. Neither the owner nor the operator can have an interest in any other peanut allotment in the United States; furthermore, the producer must expect to obtain at least 50% of his livelihood from the commodities produced on the farm for which the peanut allotment is requested. Last of all the request must be approved by the State Committee.

FEED GRAIN PROGRAM
Time is slipping away very quickly and some of you still have not been in to talk with us about the feed grain program. If you have not been in, do not fail to do so before March 26. We would be glad to show you just how the program for 1965 would pertain to your individual farm.

Remember too, that March 26 is the last day to sign up to participate in the Cotton Domestic Allotment Program or to revise 1965 Wheat Intentions.

DONLEY CATTLEMEN TO ATTEND BEEF MEETING IN HEREFORD

A beef cattle meeting will be held Friday, March 26th, at the Bull Barn in Hereford beginning at 9:15 a.m. Dr. Jan Bosma, professor in Animal Husbandry, Pretoria University of South Africa and at the present time visiting professor at Texas A&M University will be the featured speaker and demonstrate "Selecting Cattle for Functional Efficiency."

Since 1937 Dr. Bosma has measured an average of 800 cows a year and has correlated the external measurements with a rating of the animal's fertility for their calf raising ability. L. A. Maddox, Jr. Animal Husbandman, Texas Agricultural Extension Service, will also appear on the program to discuss "Improving Present Breeding Programs by Selecting for Functional Efficiency," or a cow's calf raising ability.

In commenting, Gooch stated, "I saw Dr. Bosma demonstrate on selecting cows and heifers that will wean a heavy calf each year, how to pick out the loafers and poor producers. All cattlemen should enjoy this program and pick up some useful information that will be helpful in managing their cow herd."

All Donley County Cattlemen are invited and urged to attend this meeting. If you plan to attend you are asked to contact Gooch at the County Agent's office so transportation can be pooled.

FUNDS NEEDED FOR SCREW-WORM PROGRAM

Texas farmers and ranchers have been asked to raise \$300,000 to keep the screw-worm eradication program in operation thru June.

The Southwest Animal Health Research Foundation set the two-week period beginning March 29 for committees in all Texas counties to ask livestock producers for contributions to keep the popular insect eradication project alive until the Federal government can assume full financial responsibility. Livestock industry leaders are hopeful that with Congress considering a U. S. Department of Agriculture request for \$5 million, this will come about July 1.

Dolph Briscoe, Jr., SWTHRF president of Uvalde, stated his organization had investigated all alternatives before deciding to ask for additional contributions from producers and assured the livestock industry that its funds are vital to the continuation of the eradication project. He said a reduced level of operation during the winter and economies in production of sterile screw-worm flies have extended available funds by several months, else a fund drive would have been necessary much earlier.

Eradication experts have estimated that during April, May and June, which in the past has been a time of heavy screw-worm activity, 100 million sterile screw-worm flies will be needed each week to keep fertile insects from Mexico from reinfesting the Southwest where the livestock pest has been eradicated thru the use of the sterile male fly technique. Cost of operating at this level will be \$12,000 a day or approximately \$1.1 million for the three-month period.

The \$300,000 to be raised by livestockmen, along with \$250,000 already appropriated by the Texas Legislature, will match an equal amount of Federal funds to supply the total required.

Animal Health committees have been organized in all counties. Livestockmen will be asked to contribute 10 cents each for each head of beef or dairy cattle or horse and two cents for each head of sheep, goats or swine. A similar campaign conducted by the Foundation earlier resulted in more than \$3 million being raised for the eradication program.

Spencer Sitter, chairman of the local committee will be calling a meeting of ranchers and stockmen within the near future to explain details of the program, Ronald Gooch, County Agent, reported.
