Jones, Jr. and family Monday night.

Funeral Services For Mrs. Leo Wallace Held Monday

Funeral service for Mrs. Ima N. Wallace, age 52, wife of Leo L. Wallace, was held at the First Methodist Church Monday afternoon, August 31, with Rev. Bob Ely, pastor, officiating. He was assisted by Rev. Glenn Mace.

Mrs. Wallace, daughter of Mrs. W. A. Poovey and the late Mr. Poovey was married to Leo L. Wallace in December of 1930. The family lived in the Ashtola community until a few years ago when they moved to their present home in Clarendon. Mrs. Wallace was a member of the First Methodist Church and was employed at Tunnell Pharmacy. She had undergone surgery several weeks ago and was recuperating at her home at the time of her death.

Surviving are her husband, Leo L. Wallace; a daughter, Mrs. Delbert Robertson and her mother, Mrs. W. A. Poovey of Clarendon; six sisters, Mrs. Everett Miller, Baytown, Mrs. Willard Cooke, Meade, Kansas, Mrs. Earl Butler, Borger, Mrs. Charles Caltoe, El Paso, Mrs. John Dial, Hartley, and Mrs. Ben Lovell, Goodnight; one brother, Tate Poovey, Stinnett; and two grandchildren Debra and Patrick Robertson of Clarendon.

Bronchos Open Football Season Against Gruver There Friday Night

Large Number of Bids Expected On Pipeline

More than 50 firms have indicated interest in bidding on the \$4,100,000 pipeline from Lelia Lake Creek to Childress and Quanah. The pipeline will be 73 miles according to engineers.

Bids on the project are scheduled to be opened at 10 a.m. Thursday (today) at the Courthouse in Childress. It will be up to the directors of the Greenbelt and the engineers whether a bid will be accepted at the time of the meeting.

The "second phase" of the project is expected to be the building of a dam and filtration plant on the Salt Fork of Red River near the highway 70 crossing north of town, then pipelines to Clarendon, the addition of Hedley to the system, the tapping of a line at Acme, the extension of the line from Quanah to the West Texas Utilities plant at Lake Pauline and then the extension of the line to Crowell.

1964 Broncho Football Schedule

Table with 2 columns: Date and Opponent. Sept. 4 Gruver There, Sept. 11 Claude Here, Sept. 18 Pannandle There, Sept. 25 Shamrock Here, Oct. 2 Groom There, Oct. 9 Open, Oct. 16 Canadian Here, Oct. 23 White Deer There, Oct. 30 McLean Here, Nov. 6 Memphis Here, Nov. 13 Wellington There.

The Clarendon High School Bronchos will open their 1964 football season at Gruver against the always tough Gruver Greyhounds as their first opponents.

Head Coach, Jeff Walker, reports his squad of Bronchos in good physical condition for the first game and said the boys were showing good team spirit and enthusiasm. We have had a lot of competition among the boys for starting positions and there should be some good, heads-up football displayed Friday night in order to hold present positions, Walker added.

Coach Walker has indicated that his probable starters on the offense would be as follows beginning at left end: Richard Thornberry, Freddie McAnear, Mike Horton, Kenneth Price, Douglas Bradshaw, Gene Branum, Bobby Cain. In the backfield David Mooring will be in the quarterback slot; Jack Robinson, fullback; John Grady, tailback; and Richard Bell, wingback. If he starts a defensive team, the squad will include Odell Louis, and Mike Horton as guards; Gene Branum and Richard Thornberry as ends; Douglas Bradshaw, Kenneth Price, Freddie McAnear and Bobby Cain as line-backers; David Mooring, John Grady and Richard Bell as half-backs.

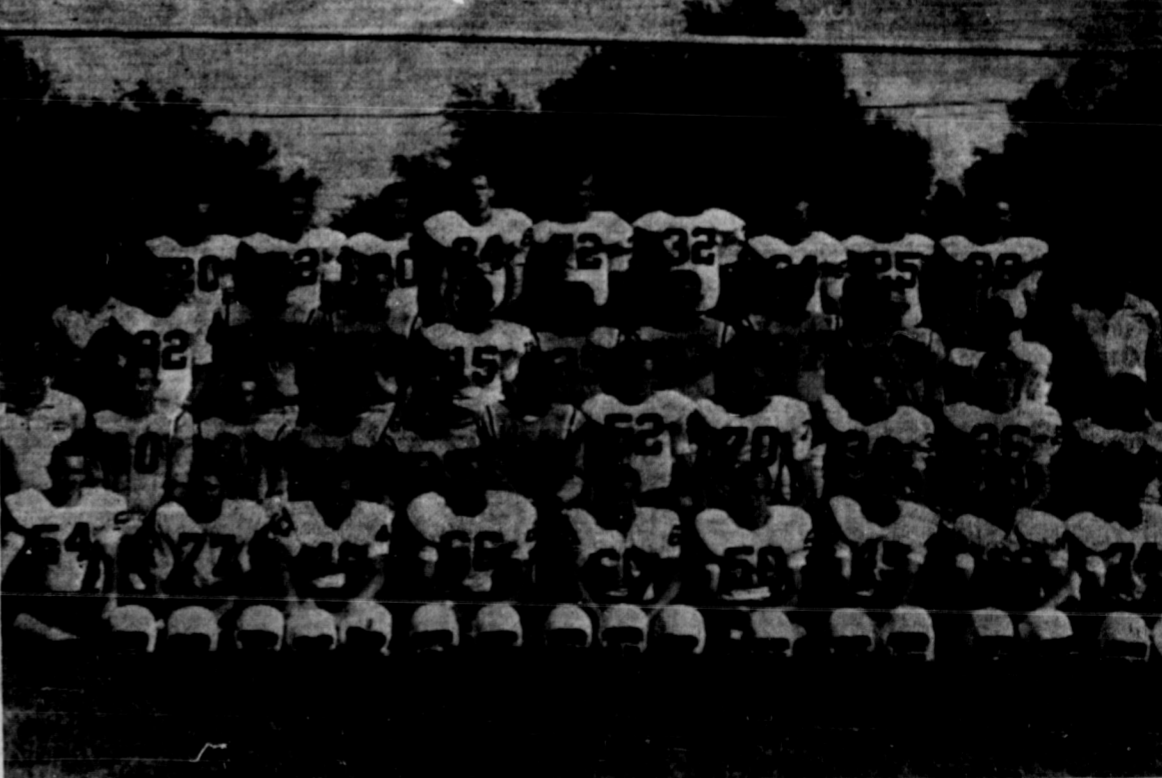

Tri-Captains of the Bronchos elected Wednesday morning were Kenneth Price, Douglas Bradshaw and John Grady.

This is Jeff Walker's first year as head coach and also Clyde Noonkaster's first year as assistant coach. Charlie Sullivan is Walker's assistant this year also. These men, along with the boys, will appreciate team support from local fans and would especially like to see as many fans as possible make this first game trip to Gruver Friday night and let the boys know you are behind them one-hundred percent. Game time Friday will be 8 p.m.

Inita and Mike Lane left for their home in Pacifica, Calif. Saturday after having spent the summer with their grandmother, Mrs. Cordia Thompson.

MEMBER OF

Texas & Panhandle Press Associations

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

When we think of conservation, we usually think of the term as being applied to natural resources. But it is a term that can as well be applied to human lives and talents. I was very pleased to read recently an excellent article by Mr. Jenkin Lloyd Jones, syndicated columnist and editor of the Tulsa Tribune, concerning the vital work in the 3320th Retraining Group at Amarillo Air Force Base. The job of the Retraining Group is to "re-rail" to use Mr. Jones' term young airmen who have run afoul of Air Force regulations and

who would otherwise be certain to receive "bad conduct" discharges.

The 3320th Retraining Group offers these young airmen a second chance. After a training period averaging six months, two-thirds of the graduates of the Retraining Group are returned to normal duty. Not only is this extremely important to the individual airmen and their families, but it is also valuable to the taxpayer. For after two years of duty, an airman's training has cost between \$7,000 and \$11,000. If a trained airman is discharged, another must be trained to take his place.

Mr. Jones' article, which appeared in a large number of U. S. newspapers, did a great service for the Air Force and was excellent publicity for Amarillo Air Force Base and Amarillo.

So impressed with the article was the ranking majority member of the House Armed Service Committee, Congressman L. Mendel Rivers of South Carolina, that he placed it in the Congressional Record.

One comment quoted by Mr. Jones was that of the well-known associate editor of the Amarillo Globe-News, Mr. Paul Timmons, who summed up the purpose of the Retraining Group in three succinct sentences: "We've got a thing going here — a human salvage yard. But we don't just take men apart. We put most of them back together." Putting men back together is indeed conservation in the finest sense.

Fort Larned, Kansas, the historic old post of the Santa Fe Trail, has been designated a National Historic Site in bills passed by the House and Senate. Located in westcentral Kansas, Fort Larned is within range of a single day's outing for Texas Panhandle residents who enjoy visiting famous landmarks of early Western history. Fort Larned has been described as "the most significant military post on the eastern portion of the Santa Fe trail." Its designation commemorates the eastern portion of the Santa Fe Trail in the same way that Fort Union, N. M., and Bent's Old Fort, Colo., have been designated as national historic sites to commemorate the trail's southwestern and mountain segments.

I have always favored the preservation of such sites as Fort Larned so that present and future Americans can be enriched by the greatness of our past, the accomplishments of the generations which came before us.

One hundred years ago this summer, the Plains Indian tribes were on the warpath. Numerous depredations by Indians were occurring along the trail. Fort Larned, like Fort Union to the west, was the base for expeditions against the marauders. It was an important base in later campaigns of the late 1860's and early 1870's.

The principal physical remains at the fort site is the quadrangle of nine stone buildings. Among the best preserved are the blacksmith and wheelwright, the quartermaster's building, the commissary, bakery, officers' quarters, and enlisted men's barracks. The

structures were built between 1856 and 1868 of native stone quarried at nearby Lookout Hill and of lumber shipped from Michigan. Also to be obtained for the site is a 60-acre parcel of land that has been retained through the years as unplowed grazing land and on which are located the authentic ruts of the Santa Fe Trail.

I'm sure that many folks in the Panhandle would enjoy a visit to Fort Larned when the National Park service has completed work on a small visitor's center and museum and work to preserve the old buildings. In New Mexico, a most interesting couple of hours can be spent visiting the ruins of Fort Union, located north of Las Vegas, and the small museum there. Both of these forts played important roles in the early, pre-settlement history of our Texas Panhandle.

The other day we visited Boys Ranch at a time when the boys were practicing for the upcoming rodeo. It was the real thing with bucking broncs and brahmas coming out of one chute after another. Whether the youngster rode his mount ten seconds or ten feet he came out looking for all the world as if this was the big moment that he had

waited months for. Some stock may be rougher, and some cowboys tougher, but for more courage, thrills, and spills per minute we sincerely recommend the Boys Ranch Annual Rodeo. It holds more excitement than anything we have ever witnessed, and we usually don't go in too strong for such things. The only thing I always breathe a sigh of relief when I see that the boy gets up and heads for the corral under his own steam. Actually the boys have received some professional training from time to time on how to take care of themselves and they do a real job of doing just that. Folks tell me that you have to learn how to get thrown and still live before you can live long enough to learn how to ride.

Some folks had rather risk

being hog-tied than to holler calf-ropes. Some folks are dumb and out-grow it. Others are dumb but don't show it. Still others that way don't know it. If you figure me out, please don't blow it.

Book Sales Department. . . Believe it or not we published over four large boxes of our Plowin' Out The Corners, and a like number of the vacation book about Red River, New Mexico. . . We are now reaching low into the fourth and last box in each case. . . If you are left out and have to go through life without your copy don't say we didn't warn you. Just to shock you into hurrying we will send a copy of the other along with the one you or-

der. . . if. . . you are one of the first ten of our readers to clip this paragraph and mail, with one dollar, to Uncle Zeb, Box 325, Claude, Texas. . . Only the first ten orders will be so honored. . . Honestly we might go along with the eleventh and twelfth orders but for fear of going bust we can't leave the deal wide open.

BOYS RANCH RODEO SUNDAY AND MONDAY SEPTEMBER 6-7

A real ranch-style bar-be-que will be added to the rodeo fare at Cal Farley's Boy's Ranch, next month, when the more than 300

boys now being cared for put on their 20th annual Boys Ranch Rodeo.

For the first time in many years, the boys of the Ranch will select a steer from the beef herd, dress it for cooking, and bar-be-que it over an open-pit fire. One of the busiest concessions at the rodeo is expected to be the bar-be-que sandwich booth where the boys will be selling "king-size" sandwiches with all the trimmings.

"We are inviting our friends, not only to watch the kids put on their rodeo, this year, but also to enjoy a bar-be-que picnic in the picnic grounds of the Ranch," Cal Farley, Ranch founder, said.

Practice sessions have been held for the past six weeks, with elimination rides on Brahma bulls, bucking broncs, steers, and

calves, being made by the boys. Nearly 100 boys will ride the professional rodeo stock that is being donated for the rodeo, and all of the boys members of the Ranch's adult staff will participate in the production of the event.

The rodeo dates are Sunday, September 6th, and Monday, September 7th, with afternoon performances both days beginning at 2:30 P. M. Reservations for reserved box seats are being taken at the Boys Ranch office in Amarillo. The box seats are \$2.50, general admission of adults, \$1.50, and 75c for children and servicemen in uniforms.

Ample parking space is provided for rodeo visitors, and they will view the action from the large, modern rodeo arena, and enjoy a picnic under the shaded picnic grounds of the Ranch.

SUPPER ON THE GROUNDS

Courses In Scientific Farming Available At Clarendon Junior College

The days of the "hit and miss" approach to farming and ranching are gone, supplanted by what might be called, at least, an educated guess. A report from the U. S. Department of Agriculture indicates that more than 50% of the nation's population is vitally interested in agriculture through related fields of economic enterprises. Such people, whether they are actively engaged in farming and ranching, or are simply engaged in a related business, realize that a working knowledge in the field of "pure agriculture" will be greatly beneficial to them. Thus the teaching of agriculture in college today is designed to prepare agricultural students in all of these various related agricultural fields in addition to the many principles of "pure farming."

Clarendon Junior College is one of the few junior colleges in the entire southwest with such a department. It is with pride

that CJC serves the people of this area with an agricultural program, especially since this region is basically an agricultural one. Clarendon Junior College offers courses in Agronomy, Animal Husbandry, Principles of Horticulture, Dairy Husbandry, Breeds of Livestock, Poultry Husbandry, Fundamentals of Agricultural Economics, and Range Plants, totaling 24 hours of agriculture that are fully accredited and are readily transferable to senior colleges and universities. These courses reflect the most recent trends in agriculture and are tailored to meet the specific needs of agricultural students of this area. Excellent laboratory facilities are available, utilizing the agricultural resources of the immediate area as well as the training and experience of many well-known breeders of livestock. Annual tours are scheduled for members of the A Club to observe some of the outstanding agricultural operations in the area. Judging to compete with colleges from other states throughout the southwest which produces a keen interest among the students. Students who are interested in becoming proficient in scientific agriculture or its related fields should contact Mr. Delbert F. head of the Agriculture Department, or any staff member of Clarendon Junior College.

Civil Defense Can Help

AUSTIN — Civil Defense can't make it rain, but it is prepared to cope with most any type of emergency.

Action by Young County Civil Defense alleviated a water problem of the City of Newcastle recently when the municipal supply in a nearby reservoir diminished.

Newcastle, a North Central Texas town of 600, located between Olney and Graham, was forced to seek another source of supply. Dry, drought conditions which existed over most of Texas prevented replenishment of the city's reservoir.

Wayne Hale, Newcastle superintendent, went first to Congressman Graham Purcell for assistance in obtaining emergency pipe, and was referred to Civil Defense director, Floyd Owen. Office of Defense and Disaster Relief was informed of the request, the Young County Civil Defense director, Floyd Owen, was notified.

Owen had two water trailers, which he had obtained for Civil Defense use through the Texas surplus property program, available for loan to Newcastle. In addition, Owen quickly located trucks that could be rented by the city, enough to provide delivery of 152,000 gallons of water per day. Under a rationing program, Newcastle had been using only 25,000 gallons per day.

Water hauling began on the week-end of August 22 from a lake near Graham and is delivered to the city's filtration plant. Superintendent Hale's first request for pipe as a means of delivery would have been an extensive program. It was Civil Defense director Owen that came up with the solution and proved

"Operation Motorcade" To Go Into Effect Sat.

AUSTIN — Col. Homer Garrison, director of the Texas Department of Public Safety, announced today that "Operation Motorcade," the grim tabulation of Labor Day traffic deaths as they occur, will go into effect at 12:01 a.m., Saturday, September 5.

The Department has estimated that 36 persons will be killed on Texas streets and highways during the 72-hour holiday period, which will last until 11:59 p.m., Monday, September 7.

Garrison called upon the driving public to join in a "crusade of common-sense driving to lessen the toll of tragic holiday deaths caused by motor vehicles."

"The heaviest concentration of moving vehicles is during holidays," he pointed out, "and it is during these times that drivers should exercise caution to the utmost."

"There is always a chance that the estimate of traffic deaths can be proved too high if all motorists put forth a concerted effort toward holding the line against accidents by staying especially alert to the added dangers of holiday travel."

The DPS Director said Labor Day this year comes at a time when traffic tragedy appears to be outstripping that for 1963, when an all-time high of 2,729 deaths were tabulated. He reported that more than 1,700 persons have been killed already this year for an increase of over 12 per cent, adding that if the trend continues the toll for 1964 will exceed 3,000 traffic deaths.

The Department of Public Safety will continue in their all-out effort to curb traffic accidents and to stop reckless and illegal driving on the highways, Garrison said. Officers from other DPS uniformed services will be assigned to Highway Patrol duty during the holiday period to add to the enforcement effort.

Garrison noted that several public and private agencies are carrying on programs to supplement the safety emphasis effort for the Labor Day holiday. The

Texas Safety Association will conduct a public information program stressing the need for courtesy and caution. TSA Vice-President W. F. (Bill) Leonard will coordinate the efforts of over 12,000 members of the Junior Chamber of Commerce over the state in operating some 200 "rest stops" for fatigued drivers to whom free coffee will be served.

The Texas Highway Department will carry on a continuing information and education program instructing drivers in free-way driving and the need for caution near highway construction areas.

And the Texas Council of Safety Supervisors and the Texas Motor Transportation Association will sponsor a fleet of 35 to 40 cars which will be used to assist stranded motorists over the state. This "Holiday Road Patrol" will be manned by the safety director, safety supervisors and safety engineers of the trucking industry who comprise the membership of the Council. Its primary purpose is to help relieve highway patrolmen for enforcement work by aiding motorists in distress.

Garrison listed several items for positive action in his appeal to all drivers. He urged each person driving during the holiday to:

Make sure the car and all its equipment (tires, brakes, lights, etc.) are in proper working order at all times.

Be sure the driver is in good physical and mental condition.

Be considerate toward other travelers.

Be alert for unexpected actions on the part of other drivers.

Be alert for unexpected road

hazards and dangerous road conditions.

Avoid improper passing and maintain control of the car at all times.

Slow down and be able to cope with all existing conditions and circumstances.

And to use caution and good sense at all times.

"Your cooperation as a driver can be the deciding factor in leading to a reduction of traffic accidents and fatalities in our state," Garrison concluded.

'COON HITS JACKPOT

MERIDIAN, Aug. — W. F. Horton, supervisor at Meridian State Park, scored another conquest for the mischievous raccoon. One of the pestiferous marauders took a three pound sack of fresh sausage from a park camper, but was discovered later trying to make off with a loaf of bread. The bread was recovered. Horton reported laconically: "The campers had bread for breakfast. The coon had sausage."

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, TEXAS—All available money and manpower of the Texas Water Commission is being dedicated to a long-range state water master plan.

Gov. John Connally authorized the agency to transfer money already appropriated for other purposes. Existing state plans, in Connally's opinion, "fall short of satisfying the water need of Texas."

In 1961, the Commission produced a plan for meeting Texas water needs to the year 1980.

Both the U. S. Bureau of Reclamation and the U. S. Army Corps of Engineers, are coming up with their own long-range plans covering parts of Texas. They propose diversion of water from surplus areas like the Sabine to water-shy areas like the Nueces.

Connally said the federal government is considering a water pollution control bill which would supplant state authority in the field.

He urged the Commission to explore "all reasonable alternatives," including those contained in preliminary reports of U. S. Agencies.

The Governor indicated he will authorize other state agencies to cooperate in the crash program. He also pledged his help in any way possible and to recommend to the Legislature "necessary funds to fulfill this important responsibility."

STIFF GUN LAW URGED—Pressure from prosecuting attorneys is beginning to sift through the legislative candidates who are being urged to pass a gun registration law during the 1965 session in an attempt to reduce the crime rate and help police

solve crimes.

Latest of the recommendations along this line comes from Dallas' District Attorney Henry Wade. Gun registration is on the list of the most-controversial issues a legislature can tackle and proposals on the subject frequently are skirted.

TEXTBOOK PROTESTS PILE UP—About 500 individual letters and 39 petitions bearing some 3,398 signatures concerning three high school biology books have been received by Governor Connally, Education Commissioner J. W. Edgar, and the State Board of Education.

And more are arriving every day.

Most protesters claim three of the eight biology books being considered for public school adoption by the Textbooks Committee have "an excessive amount of evolution in them."

All letters and petitions are being filed for the State Textbook Committee to review since Connally, Edgar and the State Board have no say on textbook selection.

The 15-member committee has the task of picking five books each in 18 subjects from the 226 books under consideration. Public then will have an opportunity to make formal complaints about the biology texts, as well as any others which are considered "objectionable," before the committee's selection list is submitted to individual school districts.

DROUTH AID—Sen. Ralph Yarborough announced here that 23 counties will qualify for drouth aid under two federal programs.

Eligible for emergency loans through the Farmers Home Ad-

ministration are Brazoria, Dallam, Dawson, Falls, Gonzales, Hardin, Hartley, Jefferson, Lavaca, Navarro, Wharton and Wilson counties.

Eligible for haying and grazing privileges until October 31 under a U. S. Agriculture Department program are Collins, Dallas, Donley, Eastland, Freestone, Jones, Rockwall, Rusk, San Augustine, Scurry, and Taylor counties.

STATE TAX RAISE SUGGESTED—A Texas State Teachers Association spokesman last week suggested the Legislature raise additional funds for education through increasing the sales tax rate or removing present exemptions.

L. P. Sturgeon, TSTA public relations director, said a half cent increase would raise \$50,000,000 a year and an across-the-boards amendment another \$61,000,000. TSTA is driving for a \$45 a month increase in teachers' pay.

If Texans paid the same amount of taxes as citizens of neighboring states, argued Sturgeon, Texas would have enough money for public school and higher education improvements.

NEW RANGER NAMED—Toliver H. Dawson of Del Rio was named a Texas Ranger by Department of Public Safety Director Homer Garrison Jr.

Dawson, who first served as a highway patrolman at Alpine, will be stationed in the Carrizo Springs area. He succeeds the late Wiley Williamson of Gonzales on the 62-man force.

SHRIMPERS REMINDED OF DEADLINES—Texas shrimpers were reminded by the State Parks and Wildlife Agency of the August 15 opening of the shrimp season in coastal bays. Also called to their attention was the August 31 deadline for renewing commercial licenses.

September 1 to August 15 has been designated as the Fall shrimping season in Sabine Lake.

A new regulation to prevent bait shrimp from being sold on the commercial food market also was announced for Gulf waters of Jefferson and Orange counties.

HUNTING 'ON THE CUFF'—Almost one out of every three Texans hunt "on the cuff" or without having to buy license, according to J. Weldon Watson, executive director for the Parks and Wildlife Department.

Watson said that last year 230,000 of the 740,000 Texans licensed to hunt secured exempt licenses without cost to them. Others paid the usual \$3.15.

On the exempt list are persons age 65 and older; those under 17 and those who can show they are hunting on their own land and live on that same property.

Watson said 2,350,000 licenses

CLASSROOM TACTICS—Seated at the controls of an experimental Reconnaissance Unit Trainer are Pvt. James L. Adams (Athens, Ala.) and Pfc. Theodore J. Kessler, (Bronx, N. Y.). Developed by the Human Research Unit, Fort Knox, Ky., the trainer brings outdoor problems to the classroom where student leaders can exercise command over tanks and trucks, using a giant viewing screen 20 feet square as their "sand table." There are nine booths, remote control units to project moving vehicles, radio equipment, and a remote control "enemy."

for hunting, fishing and commercial fishing uses now are available from 2,800 official deputies of the Parks and Wildlife Department.

AIRPORT FUNDS—Atty. Gen. Waggoner Carr advised the Texas Aeronautics Commission's director, Frank W. Raymond Jr., that the Legislature could amend the State law to authorize the State to appropriate funds to incorporated cities for construction of airports and navigational facilities without violating the constitution.

Commission is expected to seek

a legislative sponsor for this type of bill.

SHORT SNORTS
Governor Connally reports that 531 Historical Markers will be erected along State highways during the next 30 months.

Attorney General Carr says his office won 320 cases, lost three, and disposed of 58 in some other manner during the month of July.

State General Revenue fund was \$22,500,000 on the black side of the ledger at the end of July, reports State Treasurer Jesse James.

Governor Connally proclaimed September 13-19 as "Women Voters Week."

H. D. Stewart Jr. of Big Spring and Ed Tobola of Houston were appointed to the State Board of Barber examiners by Governor Connally.

Governor Connally is visiting the Mexican border states of Tamaulipas, Nuevo Leon, Chihuahua, and Coahuila this week.

Texas Highway Department reports that 9,161 persons visited the new Capitol Tourist Information Center in the Capitol during its first month of operation.

Texas Health Department sees possibility of local outbreak of influenza this winter, although no major epidemic, and advises immunization.

U. S. Senator Ralph Yarborough was top speaker at the 1,000 delegate convention of Texas Electric Cooperatives holding their 24th Annual Meeting in Austin.

HEDLEY NEWS

Mabel Bridges

A Revival meeting began at First Baptist Church Sunday, August 30 with Rev. Pogue of Petersburg doing the preaching. The public is invited to attend.

Mr. and Mrs. Joe Miller returned home the last of the week from a vacation trip into Canada.

Our community was shocked and grieved Monday morning when word came that Earl Allen had died suddenly with a heart attack at his home east of Hedley. Deepest sympathy is extended to his family.

Friends who visited Mrs. W. I. Rains Sunday to extend birthday wishes on her 84th birthday at the home of her daughter, Mrs. Mabel Bridges were: Mr. and Mrs. E. M. Glass, Mr. and Mrs. Tommie Bain, Mr. and Mrs. Frank Murray, Mr. and Mrs. Johnnie Long, Mr. and Mrs. Winfield Mosley, Mrs. Hazel Myers and daughter Pam and Venessa. The Owens boys, Tom of San Bernadino, Calif., Henry of Childress, George of Amarillo, Sam and Otis of Hedley.

Birthday cake and punch were served by Mrs. Bridges. Some old fashioned visiting dating back to the old fashion camp meetings on Lake Creek were revived. The honoree said "I've had a wonderful birthday, being 84 is fun with friends like mine."

Rev. Bob Estes and family spent several days in Straw with relatives last week.

Mr. and Mrs. Chester Talley of Dimmitt spent the week end with the lady's parents, Mr. and Mrs. Calvin Hayes. Deniece and Jackie returned home after spending several days with their grandparents.

Ernest Myers and three grandchildren of Albuquerque visited last week with his brother Johnny and family.

Mr. and Mrs. C. A. Woods of Amarillo visited Friday afternoon with Mrs. W. I. Rains. They spent Friday night with their grandson Mr. and Mrs. Harold Moffitt.

Mrs. N. E. Youree underwent major surgery in St. Anthony hospital in Amarillo Monday. Her many friends wish her complete recovery.

Jack Perkins suffered a stroke at his home Sunday. He was carried to Hall County hospital. Mrs. Perkins is quite ill at home.

Ike Rains and Johnny Myers visited Bill Bridges in St. Anthony Hospital Friday.

Mrs. J. H. Cooper was called long distance from Atlantic City, N. J. by Louise Evans who is associated with the Amarillo News-Globe after the nominations of the Democratic Convention. Several questions were asked. One was: Are you a Democrat? and what station are you listening from, and did you like the convention?

Mr. and Mrs. Paul Younger of Lubbock spent the week end with his mother, Mrs. Younger. Miss Charlotte Johnson has returned to Matador after a weeks visit with her grandparents Mr. and Mrs. Clifford Johnson.

The "Gayettes of Texas" who will perform at the Hedley Cotton Festival will appear on Television this Sunday September 6th. It will be on Ted Macks amateur hour at 4:30 P.M. C.B.S., Channell 10.

Clifford Johnson and Andy Anderson attended the meeting of the Greenbelt Water Authority at Childress last Thursday night. Bids on the pipeline from Lake Creek to Quanah were opened last Tuesday. The bids will be canvassed and contract let next week.

Everyone interested in the Old Settlers participation in the 13th Annual Cotton Festival are urged to attend the meeting at the Hedley Lions Den this Thursday night at 7:30 P.M.

Mrs. Sue Weatherly is back on her job as Cashier of the Security State Bank after a two weeks vacation.

Mrs. Danny Bernardin of Amarillo was here the last of the week. Sorry to report Claude Strickland is not doing so well in Albuquerque.

SEPTEMBER PLENTIFUL FOODS OFFER MEAT, FRUIT, VEGETABLES

COLLEGE STATION, Aug.—Three choices of meat, a selection of vegetables and a fruit are your plentiful foods selection for September, according to the Texas Extension Service.

The list, prepared by the Agricultural Marketing Service, features beef, fresh prunes, broilers, turkey and late-summer vegetables.

Although beef production in recent weeks has been somewhat below record levels set earlier this year, beef is still in big supply. And consumer prices continue attractive. Since September is "Better Breakfast Month," try serving steak for breakfast.

Another good breakfast item is fresh Italian prunes. Almost half again as may prunes will

be available as were produced last year. Oregon, one of the three big prune-producing states, is predicting a crop three times as large as in 1963. Tart fresh prunes are just the thing for sleepy back-to-schoolers.

Look for a wide variety of fresh vegetables during September. Tomatoes, onions, lettuce snap beans and cabbage likely will be plentiful in most markets. There'll be a good supply of other vegetables, too.

An estimated five percent more broiler-fryers coming to market over a year ago should put at-

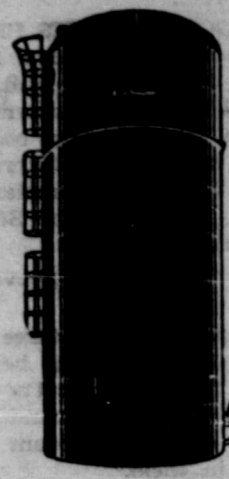

tractive consumer prices in prospect for September. Prices last September were second lowest on record.

Turkey's, too, will be abundant. Mid-summer marketing ran 18 percent higher than a year earlier; refrigerated holdings are about the same. And ready-to-cook turkey prices encourage frequent use.

Accept an invitation to healthful, economical eating. Serve September plentiful often.

MANY GET LICENSES FOR FREE

AUSTIN, Aug. — Generosity of Texas hunting regulations is reflected in statistics that show that almost one out of every three residents hunt without buying a license, according to J. Weldon Watson, executive director of the Parks and Wildlife Department.

The last complete yearly figure shows that 740,000 Texans were officially licensed to hunt but that 230,000 of these got exempt licenses without cost to them.

In other words, said Watson,

approximately three quarters of a million dollars a year in license fees "is put on the cuff." The regular hunting license costs \$3.15.

The exempt list includes persons 65 years of age and older, person under seventeen years of

age, and persons who can show that they are hunting on their land where they maintain their actual residence.

"Monticello," name of Thomas Jefferson's home, means "little mountain" in Italian.

FARM NEWS

from County ASCS Committee

PERFORMANCE

Our Reporters have completed the initial measurements on cotton, Grain Sorghum and Diverted Acres and are in the process of checking the farms that have had their excess Cotton or Grain Sorghum destroyed. You have fifteen days from the date of the notice to plow up excess cotton or grain or to designate additional diverted acres, and report it to this office.

1965 WHEAT SIGNUP

Signup for the 1965 Wheat Program began August 24, and will continue through October 2. The 1965 Feed Grain Bases and yields have been completed so that those of you may be interested in substituting Wheat and Feed Grain may see what your bases and yields will be for 1965. The payment rates and percentages of diversion for the 1965 program have not been determined.

CLEAN TILLAGE

Some of you have diverted acres clean-tilled and need to come in and sign a request to carry out clean tillage on your farm. Please do this as soon as possible and let us know what you plan to put on the land this fall. This land must have a cover this fall.

ELECTION OF COMMUNITY COMMITTEEMEN

Ballots have been mailed to all eligible voters. Remember, this envelopes containing your marked ballot must be returned to this office not later than Sept. 8, 1964.
