Three Candidates Is Final Count In Political Race For Mayor Of City

Clarendon voters will have the opportunity of selecting a Mayor from a list of three candidates when the City Election comes up Tuesday, April 2nd. A third candidate, S. W. Lowe, entered the race before the deadline Saturday to bring the total number of candidates to three. Mayor B. Hudson was the first to announce and was followed the next week by C. J. Jerry Lohoefer. Mayor H. T. Burton, upon the advice of his doctors, chose not to seek re-election even though it was his personal desire to do so. I have enjoyed serving the people of Clarendon and I still have the interests of our little City at heart and I will continue to assist in the progress of our community in any way I can, Mayor Burton stated.

John Vaughn Services Held At Hedley

Funeral services for James Vaughn, 81, of Hedley, were held Monday at the Hedley Methodist Church with Rev. Robert L. Gill, pastor, officiating. Burial was in Rowe Cemetery at Hedley. Mr. Vaughn died Sunday in Morgan Rest Home in Panhandle. He had been a resident of Hedley since 1918. He was a retired farmer. Survivors include one brother, Earl of Fort Worth; one cousin, Mrs. W. W. Dodson of Clarendon.

SINGERS INVITED TO PARTICIPATE IN EASTER CONTATA

The Ministerial Alliance and the five churches which they represent will present the Easter Contata "For He Is Risen" by Clokey at the evening service Easter Sunday. The program will be presented at the First Baptist Church. Mr. Lynn Whitten, Minister of Music at the First Presbyterian Church in Amarillo will be the director. He will be assisted by his wife, a pianist, and Mrs. Dee Williams, organist. Mr. Whitten is dean of the Organist Guild for this section of the Panhandle and is the son-in-law of Charles Dean, a former Clarendon resident. All persons interested in taking part in the contata are invited to come to the next practice which will be held Sunday afternoon at 4 p.m. at the Baptist Church.

Lions Club Broom Sale Friday

The Clarendon Lions Club will be sponsoring a Broom and Mop Sale Friday and Friday night of this week. This is the annual sale of this nature and the Caravan of the Blind will be here with their truck Friday morning at 8 a.m. on the parking lot across from Greene Dry Goods Co.

Attendants will be at the truck all day to serve the needs of those living in the country or choose to buy earlier in the day. The items made by the rehabilitated blind include brooms, mops, whisk brooms, brushes, door mats and many other items. When you purchase one of these items, you will not only be receiving a good product for your money but will be helping the blind in their rehabilitation program. A special residential drive will be carried on from 6 to 8 p.m. Friday evening by members of the local Lions Club. Lions L. L. Wallace and Billy Goodman will be directing the two groups of Lions who will be making the residential sales. Please turn on your porch light and welcome the Lions when they call at your home Friday evening... and remember your purchases will be going toward a very worthy cause.

Eighteen members of the Clarendon Fire Dept. met Thursday evening in regular session with George Green, Fire Marshal, present. Mr. Green discussed many aspects of having a better organized department. President Basil Smith appointed a By-Laws committee to bring the dept. By-Laws up to date. This committee, composed of Bill Land, Chairman, Tommy Saye, Ronnie Hill, Chief Graham, and Assistant Chief McCord, will meet tonight at 7:30 at the City Hall. Hubert Kidd of the social committee is working on a social for the department sometime in March. Chief Graham reports the department answered a one alarm fire on the Hommel ranch, on Tuesday of last week, with several acres of grass land being burned before it was brought under control. Chief Graham also stated the local firemen are burning off vacant lots in order to prevent future fire hazards, and ask that if you own a vacant lot and will grant permission for it to be burned off, just sign your name and give the location of the lot on the cut out section of this article and mail it to him, it will be burned as weather permits. I hereby grant permission for my lot located at _____ to be burned by the Clarendon Fire Department.

Signature _____ The Clarendon Fire Department met in a special called session on Saturday afternoon to discuss the possibility of buying a 3/4 ton four wheel drive pickup to be converted into a Fire Truck to fight grass fires. This will be discussed further, after a report from the committee that was appointed, to check into the legal requirements of the department owning equipment. Delbert Robertson, Reporter

FARM NEWS

from County ASCS Committee 1963 Feed Grain Program We have more than one-third of all eligible feed grain farms already signed up to participate in this year's program. Approximately 25% of these have signed to divert 25 acres and plant no feed grains. The other 75% show the farmers slightly favoring the 20% diversion method over the 40% diversion method. Payments and benefits are larger and better than most farmers thought they would be and in most cases the price support payment rate has more than offset the lower diverted acres payment rates. Also, being eligible to place all grain produced in the loan and being able to plant any one or all three of the feed grains (corn - barley - grain sorghum) has met with the approval of those who have signed an intention to participate. Remember March 22nd is the final date to file your intention to participate in the 1963 Feed Grain Program. ACP News The Agricultural Conservation Program shares with individual farmers and ranchers the cost of carrying out soil and water conservation measures intended to (1) protect farm and ranch land from wind and water erosion, (2) improve the productivity of the Nation's agricultural resources, and (3) protect and improve the source, flow and use of water for agricultural purposes. Through this program the Federal Government offers to share with farmers the cost of conservation practices authorized for use as a means for achieving the above purposes. Averaging about 50 percent of the cost of a practice, this cost-sharing is provided in the form of conservation materials, services, and financial assistance. Costs are shared for those approved conservation practices on individual farms, for which cost-sharing is requested, and for which the work is performed according to recognized standards. We are getting well underway in the 1963 ACP Program. 189 applications have been approved already for 1963. Approximately \$31,740.47 was involved in these practices. Many have been cancelled due to weather conditions and some did not qualify leaving approximately \$26,000.00 currently being earned by Donley County farmers. Those farmers who have earned payments this year are: "A" Community - Frank Tyler - deep plowing "B" Community - Robert see FARM NEWS page 8

Services Held Saturday For J. T. Pearson

Funeral services were held Saturday afternoon in Murphy Memorial Chapel for James Truman Pearson with Rev. Paul Hancock, officiating. Burial was in Rowe Cemetery, Hedley, with the Murphy Funeral Home in charge of arrangements. Mr. Pearson, 56, died Friday in a Childress hospital. He was a ranch hand and had worked the past six months on the Crews ranch near Childress. He was a native of Hedley and had been a long time resident of Donley County. He was a member of the Claude American Legion. Survivors include his father, John T. Pearson of Clarendon; two sisters, Mrs. Arlie Wood of Colorado and Mrs. Kattie Underhill of Uniontown, Ind.; five brothers, Dave of Levelland, John and Ed, both of Lamesa, Carl of Elida, N.M., and Alva of Littlefield. Nephews of Mr. Pearson served as pallbearers.

No School Friday; Teachers' Conference In Amarillo

Supt. Kenneth D. Vaughan has announced that the Clarendon Public Schools and Junior College will be closed on Friday of this week. This is for the purpose of the District IV TSTA Convention which is being held in Amarillo. All local teachers in both the public schools and junior college will attend this convention which will begin at 9:30 a.m. in the Municipal Auditorium. Annually some 3,000 teachers from 26 counties in the Panhandle attend the convention.

Harlem Stars To Play Here Tonight

The Clarendon Jaycees are sponsoring the appearance here tonight of the world famous Harlem Stars basketball team and will be their opponents in the game which will be played in the College gym at 8 p.m. Admission is \$1 for advance tickets and \$1.25 at the door. The Harlem Stars are unique in the fact they never try to run up a huge score against opponents. It is their policy to keep the game close, devoting much time to comedy stunts. Magicians is what owner Boid Buie calls them. Referring to his Harlem Stars when they begin their zany antics on the basketball court - razzle dazzle ball handling, intricate pass patterns, trick shooting, marathon dribbling and impromptu comedy antics all go to make this the greatest show in the business. Our policy is that, "The world is our audience," "Send them home laughing," and we can continue to return for years to come. When we have done this we feel we have accomplished a little something in life, Buie added.

Four Announce For Clarendon School District Trustee Positions

Up until 2 p.m. Wednesday, only four candidates had announced for places on the school board with the deadline for filing Wednesday afternoon. Warren Hardin, president of the board, and F. E. Chamberlain, Jr., have both announced for re-election. Lee Palmer of Goodnight and Bill Craft were the other candidates to file. The latter two candidates are apparently being supported by the Junior College opposition group. Lee Palmer's name was signed on the suit being brought against the elections affecting the college and Mr. Craft has previously stated his views on the college in an advertisement published recently in the Leader. There are two places on the board to be filled. Three members of the County Board of Education are up for re-election this year and each have filed for a place on the ballot. They are: A. G. Alexander, Precinct 3, G. W. Estlack, Precinct 2 and J. R. Gillham, County at Large member. Deadline for filing for these positions is Wednesday afternoon also.

Last Rites Held Sunday For Mrs. Carpenter

Funeral services were held Sunday afternoon in the First Baptist Church for Mrs. Marguerite Carpenter with Rev. W. R. Lawrence, pastor, officiating. Mrs. Carpenter, 55, died Friday morning in Adair Hospital after a lengthy illness. She was a native of Potter County and was married to Vada W. Carpenter Dec. 17, 1927, in Clarendon. Survivors include her husband, a daughter, Mrs. Juanita Beard, Chicago; her mother, Mrs. J. C. McDowell, Claude; four sisters, Mrs. John F. Cook, Clarendon, Mrs. Paul Lambert, Stinnett, Mrs. Rural Taylor, Beaumont, and Mrs. L. D. Wicks, Claude; a brother, D. S. McDowell, LeFors, and two grandchildren. Pallbearers were Bill Ray, Al Cook, Carl Naylor, Hershel Heath, Joe Ritter and Clyde Martin. Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

Our Sin Is Omission

By NAOMI GREEN

For all the years our children have attended public school in Clarendon we have never taken time to say a "THANK YOU" to any of the citizens who make it possible for them to do so. We don't even take time to tell people of the activities and hopes and dreams our children enjoy through participation in this school.

Oh yes, we have been quick to tell all about troubles and criticisms and lack of facilities. But

how seldom, we point with pride to what we do enjoy! Is it any wonder that some people think they are not getting their money's worth, if all they hear is our "needs"? All of us should do some boosting and advertising about some of our "gots". For we have got a lot to be proud of.

Clarendon School system is part of the miracle of the American Way of Life. We should stop to appreciate and honor it, along with our liberty and freedom. Of course there are improvements that any of us would like to make, but they take time and

work. These improvements will not come until time and work are expended. This too is a part of the American way of life.

If we were to look for weakness in our school system, we would not look at the teachers. They are human and have only so much time to explore each child's mind; only so much time to help him develop himself to the fullest. Look the state or nation over, teachers more interested and concerned about children, than Clarendon has, cannot be found.

If we MUST look for weakness, let us not point fingers at administrators who administer eighteen to twenty hours daily. Nor accuse trustees who give of their time and knowledge on a voluntary basis.

Instead let us look at the parents of Clarendon students. How many of them take time to make a happy, relaxed, seeking attitude in each of their children? Too many of us, either push too hard or don't give a hoot. Those little victories our child accomplishes; to him is hard labor. We dismiss them as trifles. Or else such a struggle is made to make him feel he must be "first" that no chance is given him to be a well rounded student. What help do we offer a child who is determined to just "get by". DO WE WORK AT DEVELOPING A SENSE OF RESPONSIBILITY AND MORAL VALUES IN ALL OF OUR CHILDREN?

Do we as parents spend as much money on books and magazines and papers as we do on keeping the TV repaired? Are we setting any example for our children in our own continued search for knowledge? Or are we too busy at making a living keeping house and enjoying ourselves, to be concerned about what is going on in this WORLD, or at SCHOOL or in a child's mind?

Sometimes we "catch" ourselves criticizing a teacher's method or lack of method in getting across material to our youngsters. Until we recall how hard and incessantly we nag, threaten and conjure, trying to bring across a point here at home. Then we wonder why teachers continue to teach, and wish there were some way some of us could make up to them, the abuses received from children and the public at large. For through the years they seem quite efficient at filling the vacuums we leave in our children. While we continue to STRUG-

GLE to fill any they might overlook.

All we can manage is to say to ALL our school officials we THANK YOU and consider you our best of friends. Truly it takes more to make a school system than good teachers, administrators, trustees, janitors, bus drivers or fine buildings and fancy equipment. It takes parents and grandparents, uncles and aunts, friends and neighbors who really CARE what our young people are doing and feeling and talking about GOD BLESS each of you who have a part in the rearing of our future generations. May your prayers and financial support be an influence upon these students throughout their lives.

Blowin' Out the Corners

The Uncle Zeb

Once upon a time there was a little nation that owed little or no debts . . . It had low taxes and rendered little or no services for the people — especially any thing which they should do for themselves . . . This little nation was proud of its boundaries and would dare any foreign aggressive power to land thereon. It had this same respect for the lands of other peoples. The people were proud to be free and would drop any work to defend their right to stay that way . . . This little nation never promised its people a bed of roses, or any of the cradle to the grave make-believe security. The country

was strong even though small, and the people were courageous and above all else free . . . The people wished to live and let live with the other people in the world . . . This plan worked fine for a long time . . .

Finally the little country became a big nation and decided that they should have a big government. They decided that the great new concept in government should do big things for its people. They agreed to higher taxes and fewer freedoms in exchange for more security and a planned economy for their life. They decided that if they were to pass this great government on to their children that it would be all right for the children to also pay for its cost . . . This great nation decided to help all the other nations of the world plan a better world for their people. They felt that a great nation such as this should do most of the fighting for the whole world and pay the cost of most wars. When the government became bigger it be-

came necessary to remodel the very foundation which had made it great. Now it seems that the country won't stop teetering long enough to settle down on its foundation. It seems too top heavy to ever set solid on the foundation again. It seems such a shame for all this to happen just because this little nation got too big for its foundation . . .

"We believe that the Holy Scriptures in their entirety, both Old and New Testaments, are the inspired Word of God; that this divine inspiration was given in such a way as to furnish us with an absolutely infallible and authoritative Bible as a rule of faith and practice."

The above is the first plank in a 10-point doctrinal platform of Faith City Mission, and is the foundation of all the other points. Faith City Mission in Amarillo is one of three all founded by Dick and Bee Hogan, a pastor and wife combination. Dedicated first of all to the bringing of lost souls to a closer walk with Christ, it is here also that the down and out find food, clothing, and guidance just for the seeking. They believe as workers that to be down doesn't mean that one is out, and that with help many will be made to look up . . . The other two missions are at Wichita Falls and Lubbock . . . The page one columnist of the Wichita Falls Pa-

per said recently that there were just about three organizations that he would boost in his column and that Faith City Missions were one of those . . . We feel about the same way. If you should desire more information or wish a part in this work write to Box 804, Amarillo, Texas . . . Just say Uncle Zeb asked you to . . .

There are two kinds of folks; those who take, and those who have "been took" . . . We hate to agree, but in this push and shove, dog eat dog, and the devil take the hindmost world of ours it almost seems to be true . . .

The hill country was thinly settled, and houses were sometimes miles apart. It wasn't that neighbors couldn't get together and talk to each other, but the real problem was in finding someone to talk about.

"Whether we travel far in life or not, we all have to start from our own front door" . . .

"Civilization is where a man will pay a quarter to park his car in order to avoid a one dollar fine while he is spending a dime for a nickel cup of coffee."

We heard of the city editor who came out with this glaring headline on his paper — "Half Of The City Council Are Crooks" . . . A full and complete retraction was demanded of the editor, and the next day the headline read "Half Of The City Council Are Not Crooks" . . .

SOIL CONSERVATION DISTRICT NEWS

MAKE WILDLIFE A PART OF YOUR CONSERVATION PLAN

By Douglas Cunningham

What has happened to the Wildlife? We often hear comments such as this when we have difficulty in finding game and fish. Often with very little trouble we could farm wildlife in rather than out.

No matter what the major purpose, anything done on the land for soil and water conservation also produces something wildlife needs. Many conservation practices produce additional food and water and other practices provide a safe place to raise their young, hide or travel unseen by their natural enemies.

More and more conservation farmers and ranchers are making doubly sure that wildlife has what it needs. Where weeds are no problem, small areas are allowed to grow wild with native plants. Low shrubs and plants that bear fruit and seeds especially liked by wildlife are included in winbreaks and other odd areas. Brush is left piled here

and there to provide cover for wildlife. A few outer rows of grain crops may be left standing bordering protected areas or game feeders located over the farm to provide additional food supply.

"Odd areas" on farms and ranches can be managed for wildlife, odd areas or such places as fence corners, rocky spots, blowouts, abandoned roads and good land isolated by ditches, streams and gullies. Stock ponds should be protected by fencing and silting prevented. The shallow portions when properly planted will give suitable cover

and food to water fowl and fish. Wildlife, if managed correctly, can be a very good source of income. Many thousands of dollars are made each year by farmers and ranchers selling fish and hunting rights. Wildlife is a crop of the land. Hunting and fishing opportunities are affected by the way farmers and ranchers manage their land. Where they apply soil and water conservation practices more wildlife results.

THIS is the Center of the Southwest.

The Center of the Southwest is our service area.

It is called the Center of the Southwest because it is in the very heart of one of the Nation's fastest growing regions

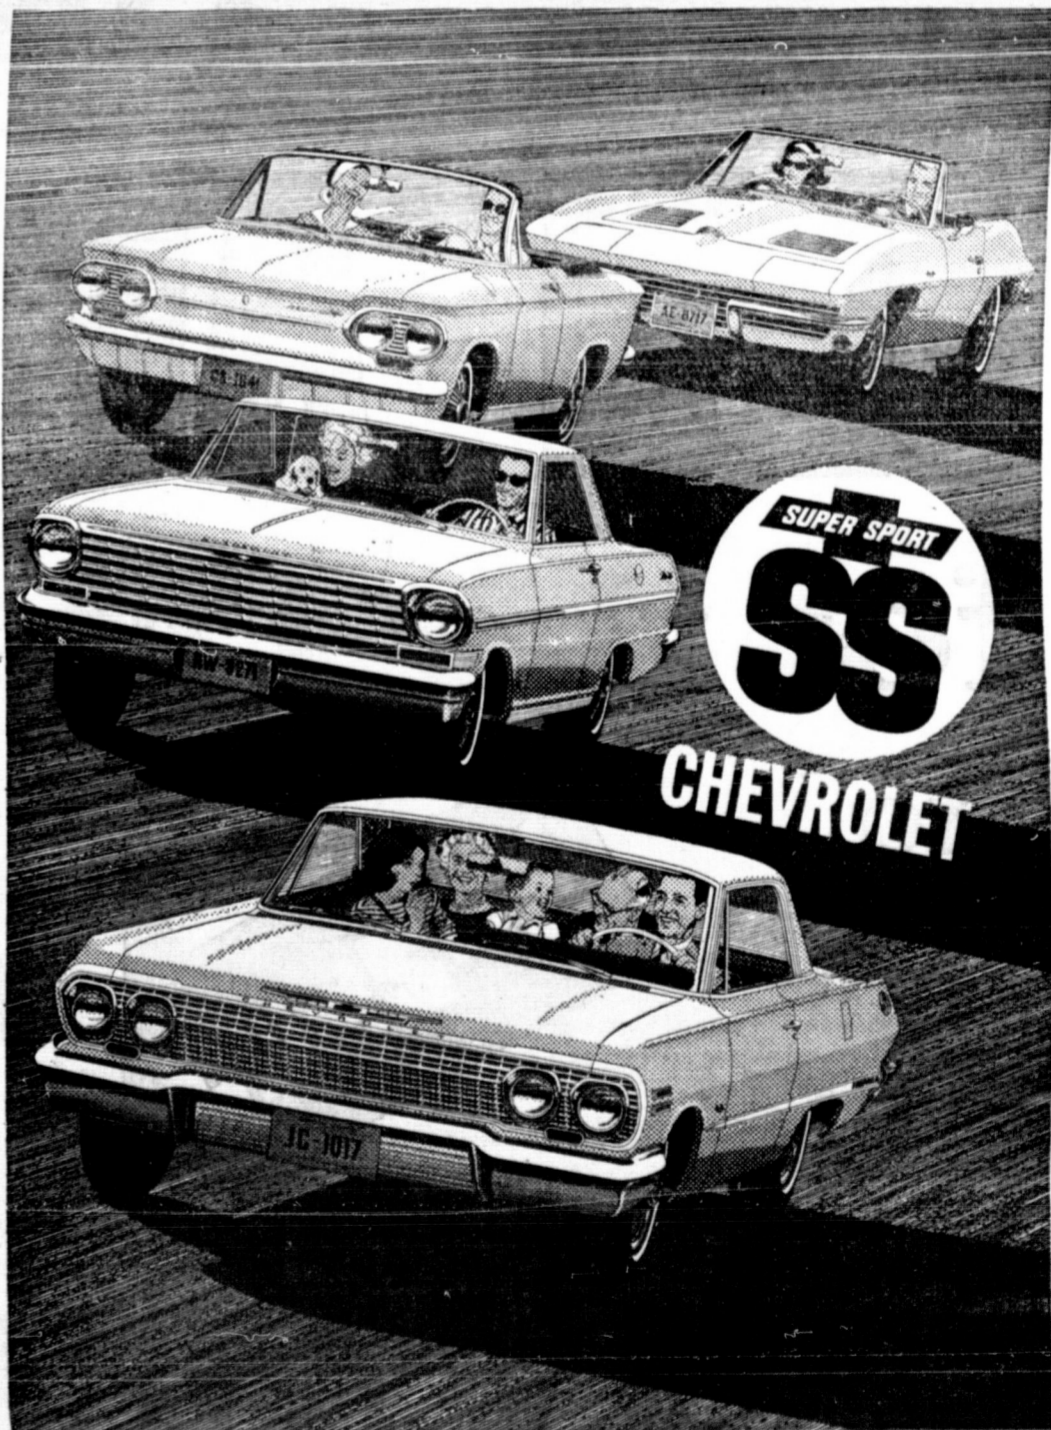

For many months we have been engaged in an extensive expansion program throughout our service area, enlarging both generating capacity and distribution facilities.

It is a far-sighted, long-range program based on one simple fact. We are convinced that the Center of the Southwest faces GROWTH UNLIMITED.

Current conditions confirm the belief. Population is increasing, more businesses are moving in, new industry is coming our way, natural resources are being developed, bank deposits, spendable income and business construction all are on the way up.

That is why we are investing millions to meet the present growth of the Center of the Southwest, and to be prepared for its continued development in the months and years ahead.

J. L. MOORES CELEBRATE FIFTIETH WEDDING ANNIVERSARY SUNDAY

The Golden Wedding anniversary of Mr. and Mrs. Jesse Lee Moore of Clarendon was observed Sunday, March 3, by the couple, their relatives, and friends during an open house in the home of their son and daughter-in-law, Mr. and Mrs. William O. Moore of Clarendon. Other hosts for the occasion were their children and their families: Mr. and Mrs. Cecil Tucker and son of Rodeo, Calif., Mr. and Mrs. Ross Nettles and son of Loma Linda, Calif., Mrs. Lovelle Buckley and son of Placerville, Calif., Mr. and Mrs. Ray Heitzman and children of Martinez, Calif., and Mr. and Mrs. Frank D. Moore and daughter of San Bernardino, Calif.

Other grandchildren and their families attending were Mr. and Mrs. LeRoy Nettles and sons of San Bernardino, Calif., Mr. and

Mrs. Harold Sanders and daughters of Amarillo, fifteen grandchildren and six great-grandchildren.

May Victoria Melton and Jesse Lee Moore were married at Brice, Texas, February 23, 1913. Mr. Moore engaged in farm and ranch work until his retirement in December of 1961. Nine years were spent working for the JA Ranch and sixteen years at the RO Ranch near Clarendon.

Guests were greeted by two sons, William O. Moore of Clarendon and Frank D. Moore of San Bernardino and presented to their parents. Alternating at the guest registrar were two granddaughters, Linda Ferguson, Martinez, Calif., and Trena Mae Moore of San Bernardino. Others assisting in the houseparty were Joetta and Tracey Moore of San Bernardino and Debora Heckman of Clarendon, also granddaughters.

The refreshment table was covered with gold and white linen and centered with an arrangement of gold roses flanked by gold tapers in white and gold candelabra. Presiding at the punch bowl was Mrs. J. T. Stone of Clarendon, a niece. Assisting with the cake and coffee were two granddaughters, Mrs. LeRoy Nettles of San Bernardino and Mrs. Harold Sanders of Amarillo.

Brothers and sisters of the couple attending were Roy Moore of Amarillo, Mrs. Onea Nations of Wheeler, and Mrs. O. A. Churchman of Sudan. —Rep.

DELTA KAPPA GAMMA MEET AT CHILDRRESS

"Challenging Social World" was the program theme for Gamma Kappa Chapter of Delta Kappa Gamma at the Saturday meeting, March 2, in Childress. Childress members were hostesses for the luncheon meeting held at Gay's Cafe. The Texas Independence Day theme was used in decoration.

Miss Inez Blankenship of Clarendon, chairman, introduced the program. Mrs. Velma Weaver, also of Clarendon, led members in singing Delta Kappa Gamma songs. Miss Blankenship was the accompanist.

At the business session, members voted to send subscriptions to "U.S. News and World Report" and "Reader's Digest" as a part of the Magazines for the Philippines project. It was also voted to send gifts to the State Hospital in Wichita Falls in April. Members authorized the sending of a telegram to Senator Andy Rogers expressing the chapter's support of the current legislation revising the Teacher Retirement System.

The next meeting of the chapter will be in Wellington on April 6 when future and retired teachers will be honored at a tea. Mrs. Charlotte Word of Clarendon, honorary member of the chapter, will present "A Musical Tribute" of her compositions for the piano.

Attending from Clarendon were Mrs. Velma Weaver and Misses Inez Blankenship and Edgar Mae Mongole. —Rep.

GRANDDAUGHTER OF LOCAL RESIDENTS MARRIED AT ODESSA

Miss Sherill Rolls, daughter of Mr. and Mrs. O. C. Rolls of Odessa and granddaughter of Mr. and Mrs. V. L. Smith of Clarendon, became the bride of Malcolm Self, son of Mr. and Mrs. M. E. Self of Monahans in a double ceremony Friday evening, February 13, in the chapel of First Methodist Church, Odessa, Texas. The Rev. Hardin L. At-

kins, III, pastor of the Asbury Methodist Church officiated.

The bride wore a white brocade street-length, sheath dress with short box jacket designed with elbow length sleeves and self buttons. Her chiffon flower hat held a brief veil. She wore white satin gloves and opera pumps and a corsage of double gardenias.

Mrs. David Waldrop was matron of honor and Davis Waldrop was best man.

The couple will make their home at Odessa following a wedding trip to Carlsbad, N.M.

Mrs. Self is a graduate of Fort Stockton High School where she took part in many school activities. She attended McMurry College and Texas Western College and is now employed with the business office of Southwestern Bell Telephone Co.

Mr. Self is a graduate of Odessa High School and served four years in the U.S. Navy, stationed at San Diego, Calif. He is an employee of Heide's Portable Pipe and Supply.

JR. HD. CLUB REGULAR MEETING HELD THURS.

The Junior Home Demonstration Club met at Patching Club House Thursday afternoon, February 28, in regular meeting. Hostesses were Sadie Head and Louise Lamberth.

The president, Hazel Noble opened the meeting with the Pledge and prayer by the group. Baskets for the Rest Home were discussed and plans made to prepare these in the near future.

Attending were Dollie Wilson, Eddith Spivey, Hazel Noble, Noma Lewis, Leona Henson, Sadie Head, and Louise Lamberth. —Rep.

EGGS WEAR CROWN AMONG MARCH PLENTIFUL FOODS

COLLEGE STATION — Ever-popular eggs wear a new crown this March. They are featured among this month's 12 plentiful foods, reports the Texas Agricultural Extension Service.

Other March plentifuls for this area are potatoes, sweet potatoes,

carrots, onions, cottage cheese, pork, canned and frozen red tart cherries, canned corn, peanuts and peanut products, rice and dry beans.

These items have been selected for special promotion because supplies exceed normal trade needs. A similar list is compiled each month by USDA's Agricultural Marketing Service, in cooperation with growers and the food trade.

Eggs join the list, this month, because production is increasing seasonally and March prices are expected to be much lower than in January. March is national "Egg Month" and also "Good Breakfast Month."

Pork is another newcomer to the list. The 1962 fall crops of pigs, up 5 percent from a year earlier, will be slaughtered from March through June and slaughter may be near a record for these months. Live pork prices already have lowered noticeably.

Consumers will find it in their interest to buy and serve plentiful foods often and generously, suggest Extension home economists. Economy and wider choice in selection for quality usually accompany abundance.

Cub Scout News

The Clarendon Cub Scouts are planning to go to Amarillo Friday morning, March 8. All Cubs with their parents who are going will meet at the Little League Baseball Field at 8 a.m. We are in need of at least 20 cars to go. Two adults and four boys to the car is the maximum. Everybody will carry a picnic sack lunch which we will eat in an Amarillo Park. If you can take a car, call Jake Lamberth.

We will go through the Borden Company at 10 a.m., Mead's Bakery at 11 a.m. then have lunch at Elwood Park. At 2 p.m. we will tour the new Police Station museum finishing the day by touring the Central Fire Station at 3 p.m.

There will be a special Dads' Meeting held on Monday evening, March 11, in the Hospitality Room of the Farmers State Bank at 7 p.m. A film strip on Pack Administration will be shown. A special training team from Memphis will be on hand. Adults from the Memphis Cub Scouts have been invited to come so we need a good representation from the Clarendon Cub Fathers to welcome them.

CARDS OF THANKS

Our heartfelt thanks to all who extended comforting sympathy and help in our recent sorrow. For the beautiful service, floral offerings, and other kindnesses, we are deeply grateful. Lora Chenault and The Family of E. J. Chenault

It is with a deep sense of gratitude that I express my appreciation for the cards, letters, visits, and many kindnesses extended me while I was in the hospital and since I have been at home. I am sincerely thankful for all of your thoughtfulness. Mrs. D. C. Williams

May we take this method of thanking our neighbors and friends for their kind expressions of sympathy in our bereavement. These expressions have been deeply appreciated. The Family of T. L. Melton

I would like to say Thank You to each and every one that visited me, sent gifts, cards and flowers while I was in the Adair and Northwest Texas hospitals. They were deeply appreciated. Mrs. C. E. Jackson

It is estimated that the sales of chemicals and related products will increase six per cent this year over 1962 for a total of about \$34.5 billion.

TERRE HAUTE, IND. ADVOCATE: "Nobody knows what will happen in the next war, but don't be bothered; after all, you can't die but one time."

AUSTIN — Hospitals have been playing an important part in State government.

While Gov. John B. Connally was recuperating from a hernia operation, the state senate turned thumbs down on his choice of former Supreme Court Justice W. St. John Garwood as a University of Texas regent.

The man who sponsored Garwood — Sen. Charles Herring of Austin — also was recuperating from an operation: an appendectomy.

Attempts at bedside maneuvers by both to get a senatorial confirmation for the prominent Texan failed and the appointment was turned down by an estimated minority of 12-16.

It takes a two-thirds majority to approve an appointment.

Governor Connally issued a statement, saying he was "bitterly disappointed that a minority group of the Senate prevented confirmation of Judge Garwood."

He added, "To me, it seems inconceivable that the people of Texas could be denied the services of a man of exceptional intellect, a man of great capaci-

ties, and a man of deep devotion to the University and his State." The governor said he had hoped the senate might choose to reconsider its action but had no further comment at this time.

GAME - PARKS MERGER — Senate spent most of the week spinning its wheels. But over in the House of Representatives one of Governor Connally's major reorganizations — merging the Game and Fish Commission and the State Parks Board into a single three-member "Parks and Wildlife Commission" — was pushed through by a two to one majority.

Rep. James Cotten of Weatherford, long a foe of the Game and Fish Commission, carried the measure through the house, and committed himself to vote to provide general tax revenues to support the parks system once they are merged.

COUNTY SCHOOL SUPERINTENDENTS — A heavy majority in the House favors outstanding county school superintendents in 86 counties. They voted to cut off state aid to them. Aim is to force the voters to say "yes" or "no" on whether they want to keep them at county tax expense, after their present terms run out in 1966.

If this proposal gets through as it now stands in the House, the state saving will be more than \$1,000,000.

Counties affected are those with no more than two rural school districts under the county official's supervision.

COASTAL PROBLEMS — One sick industry on the coast got a shot in the arm when a bill by Rep. Bill Walker of Cleveland and Rep. Neil Caldwell of Alvin,

to cut the state occupation tax on sulphur producers from \$1.40 a ton to \$1.03, was passed by the House.

This would reduce state revenue from sulphur taxes by \$970,000 the first year. But Walker estimated an increase in business would make up at least half of that.

Consideration of two hotly-contested bills — one to raise teachers' retirement benefits and one to authorize a new system for granting shell-taking permits — was postponed for a week.

PADRE ISLAND PARK APPROVED — A noisy but brief flurry attended final House passage of Rep. Menton J. Murray's bill to make a National Seashore of Padre Island. But the Harlingen representative's bill passed by a 126-19 vote.

A slightly-different version of this proposal, one by Sen. Bruce Reagan of Corpus Christi, already had passed the Senate.

It is expected that the first bill to get committee approval by the other chamber will go to a joint conference committee.

Some coastal legislators were hoping the matter will be settled in time for April consideration by Congress, where appropriations must be made to finance the purchase of privately-owned land on the island.

COUNTY BUILDING HIKE OKAYED — A bill by Rep. Vernon Beckham of Denison, designed to solve a local problem, may prove helpful for rural counties.

It would allow county commissioners' courts to spend up to \$200,000 for county buildings outside the county seats. Present law limits this expenditure to

\$150,000. Bill was passed by the House, 143-0.

County seat of Grayson County is Sherman. But Denison — in the same county — is almost as big and as busy. Therefore an adjunct county courthouse building is under construction there. Building and property costs have risen so that the Denison courthouse can't be finished until the increase is authorized.

VALE, ORE. MALHEUR ESTERPRISE: "In our modern world freedom of the press is a symbol. A bright and shining beacon of personal freedom as applied to each individual. For when a nation loses this freedom of the press it has automatically lost all other freedoms. It has fallen prey to the dictators, the despots. So it is a thing to be treasured by every one living in a free world."

HENSON'S

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

OUR TEXAS HERITAGE

At this time each year we Texans mark two fateful events in the history of our great State, the Declaration of Texas Independence and the immortal sacrifice of the Alamo defenders. Independence was declared on March 2, 1836, as delegates to a convention to replace the quarrelsome Provisional Government were in the second day of their meeting at Washington-on-the-Brazos, some 150 miles to the east of the tiny mission town of San Antonio de Bejar. The delegates were still in session when Col. James Barret Travis and his heroic band of 183 Texas patriots fell March 6 to the massed onslaught of Santa Anna's army.

The ringing words of the Texas Declaration of Independence have been memorized by generations of Texas school children: "We, therefore, the delegates, with plenary powers, of the people of Texas, in solemn convention assembled, appealing to a candid world for the necessities of our condition, do hereby resolve and declare that our political connection with the Mexican nation has forever ended, and that the people of Texas do now constitute a free, sovereign and independent Republic . . ."

Names on our Panhandle land reflect those glorious days of Texas history. All 28 counties of the 18th Congressional District bear the names of distinguished sons of Texas, men who sacrifices shall forever earn the respect of their countrymen. As we remember the Alamo again this year, we remember GEORGE WASHINGTON COTTLE, one of the Alamo defenders, who gave his name to Cottle County. As we mark the Independence anniversary, we pay our respects to nine signers of the document whose names were later to be given to Panhandle counties: GEORGE C. CHILDRESS, who as committee chairman was the principal author; JAMES COLLINSWORTH, later to become the first chief justice of the Republic of Texas; DR. JUNIUS WILLIAM MOTTLEY, killed a month later in the Battle of San Jacinto; SAMUEL P. CARSON, secretary of state for the Republic in the cabinet of the first president, David G. Burnet; ANDREW BRISCOE, who fought at San Jacinto; and ROBERT POTTER, JOHN S. ROBERTS, MARTIN PARKER, and JAMES G. SWISHER, four others among the 59 signers of the Declaration. When Collingsworth and Motley counties were established by an Act of the Legislature Aug. 21, 1876, careless writing of the bill added a letter "g" to James Collinsworth's name and dropped a letter "t" from Mottley's. Despite these errors, many residents of Collingsworth County omit the "g" in pronouncing the name of their county and Motley County you'll never hear a resident call it "Mote-ly," the pronunciation the spelling error might indicate to a newcomer. The proper names live on.

Other counties in the 18th Congressional District are named for men who played important roles in the days of the Republic of Texas. ERASTUS (DEAF) SMITH was commander of Sam Houston's scouts. COMMODORE EDWIN WARD MOORE led the Texas Navy. WILLIAM BECK ICHILTREE served in the cabinet of the Republic. SIDNEY SHERMAN was an officer with Houston at San Jacinto. JUDGE ANDERSON HUTCHINSON was a district judge in the Republic. WARREN D. C. HALL was adjutant general under President Burnet. HENRI CASTRO was a native of France who came to America, established a colony in Southwest Texas, and later served the Republic as consul to Paris. ABNER S. LIPSCOMB was secretary of state under President Lamar. JUDGE JOHN HEMPHILL (whose great-great-nephew, Robert W. Hemphill, is a colleague of mine as a Member of Congress from South Carolina) was chief justice under the Republic of Texas and U. S. Senator after annexation. These are other men whose names our counties bear: ROYAL T. WHEELER, chief justice of the Texas Supreme Court in the 1850's; OLIVER C. and RUFUS HARTLEY and JOHN M. HANSFORD and JAMES W. DALLAM and STOCKTON P. DONLEY, pioneer Texas attorneys all; GEN. HORACE RANDALL, killed in the Civil War; WILLIS SIMPSON OLDHAM, member of the Confederate Senate from Texas. ARMSTRONG COUNTY, in the words of the 1876 Act, was named for "several early Texas pioneers of that name." PETER GRAY, for whom my home county was named, was a member of the first Texas legislature.

In 1836, the population of Texas was about 40,000, including Indians. The American armed force that wrested Texas from Mexico numbered the 183 men who died at the Alamo, some 400 men massacred at Goliad, the 783 who triumphed at San Jacinto. There were probably no more than 2,000 other Texans under arms between the Colorado and the Sabine. Against

them was a Mexican force numbering 10,000 to 25,000 men. It is no wonder that the victory of Texas is of continuing inspiration to all America.

Now, the population of Texas is more than 10,116,000 persons, according to the July, 1962, estimate of the Census Bureau. And my friend John Lyle, former Congressman from Corpus Christi, points out that Texas people are still outnumbered by Texas cattle. He reports that the Texas Crop and Livestock Service in Austin claims a total of 10.3 million head of cattle in Texas.

Texas history has always been an inspiration to me. I often wonder why it isn't taught in other States.

Limited success has been obtained with eggs and milt taken from Medina and Falcon Lake white bass. The fertilized eggs developed normally for the first 36 to 48 hours, but then the embryos died. This is probably due to the fact that the eggs were taken from females which were not quite ready to spawn. Better success is anticipated as the spawning season develops.

Once the technique has been perfected, hatchery personnel will be trained to collect eggs and milt in the field and to transport fertilized eggs to the hatchery for hatching in jars. Young fish would then be stocked as fry, right after the yolk sac is absorbed or as fingerlings after rearing in hatchery ponds.

ATTEMPT MADE TO SPAWN WHITE BASS

ROCKPORT — Experiments to determine if white bass can be artificially propagated in large numbers are underway at the Game and Fish Commission's Inland Fisheries Laboratory in San Antonio, according to Biologist E.M.C. Dietz, project leader. If successful, this work will make possible the stocking of smaller lakes with white bass where they are needed as an open water predator to help control rough fish. In addition, such white bass would provide and additional game fish in lakes where they do not now occur.

The OLD RANCHER

MOVING SALT FEEDERS HELPS ME COAX COWS TO GRAZE ALL MY RANGE.

SALTING

Salt not only adds a mineral supplement to the diet of livestock, but can be used in such a manner as to improve distribution of grazing.

Salt should not be located at watering facilities unless the pastures are small enough that the cattle are grazing the entire area fairly evenly.

The following simple rules should be followed:

- 1) Locate salt grounds on areas that are being used, little or none, under the existing management plan.
- 2) Salt locations must be on areas that are accessible to livestock as to topography and roughness.
- 3) A maximum of 100 animal units should be concentrated at a single salt location. This number should be decreased as the soils become more sandy and the range conditions become poorer.
- 4) Approximately 20 lbs. of salt per animal unit should meet the yearly requirements.
- 5) Salt locations should be moved every 2 or 3 months depending on the range condition.

Since selecting proper salt locations have become one of the many requirements of good range management, proper care must

be exercised to use it to its full benefit. Your local Soil Conservation District stresses the importance of salting in your overall livestock management. For further information concerning this practice contact your local Soil Conservation Service office.

GRASSROOTS OPINION

BALTIMORE, MD., RECORD:

"The editorials of any newspaper are an effort to achieve informed and balanced thinking on issues which affect the public and the country. They are designed to stimulate thought and express an opinion based on the facts, as free of prejudice as is humanly possible, and are designed to fairly include the interests of all in the community served by the newspaper, to reflect patriotism and an uplifting, Christian tone . . . Newspapers are businesses, to be sure, but they are not run solely to make money. Traditionally they have been dedicated to public service and to printing the truth."

Bulldogs To Meet Odessa Wranglers In Region Tourney

The Clarendon Junior College Bulldogs have accepted an invitation to participate in the Region V National Junior College Athletic Association Tournament which will begin at two o'clock today in the Amarillo College Gymnasium.

The Bulldogs will meet the fourth seeded Odessa Wranglers in the opening game of the tournament. Following the Clarendon-Odessa game, third seeded Decatur Baptist College will meet Lubbock Christian College. The night session tonight will

have the tournament favorite, San Angelo Rams, meeting Ranger and second seeded Amarillo College going against Cisco.

The Bulldogs finished the regular season here last Friday night by defeating Frank Phillips College, 68 to 60. This brought the Bulldog's season record to five wins against 21 defeats and their conference record to three wins against 13 defeats.

The Clarendon-Odessa game should be a thriller. The two teams have played three times this season with the Wranglers taking all three wins but the games have all been well played defensive games. In their first meeting in Odessa in December in the annual Odessa College Tournament, the Wranglers managed a 79 to 67 win over the Bulldogs. Then in January the Bulldogs went to Odessa for a conference game and came away on the short end of a 62 to 48 score, and recently in a game played here the Bulldogs went down to a third defeat at the hands of the Wranglers, but this time by only a single point, 60 to 59. The Bulldogs were leading, 59 to 58, with less than ten seconds on the clock when Odessa's Ed Gardner hit a 30 foot jump shot to provide the one point margin.

from Quitaque; Sammy Johnston, 5-10 freshman from Quitaque; Hubert Bronniman, 5-9 freshman from Adrian and Noel King, 6-3 freshman from Chilli-cothe.

Boyd has been the Bulldog's leading scorer during the season. He started out great but slumped in mid season and finished with a 14.9 per game average. Scott started slow but finished strong and posted an 11.1 per game average. The other boys have been inconsistent and have had good games and poor games. Murry has hit as high as 25 and as low as zero. However, Murry is a valuable floor man as he is a good dribbler, passer, and hustlers all the way. Allen has hit as high as 16 points as has Bentley. Starkey has hit a high as 18. Courtney, although a valuable rebounder, very seldom scores more than 10 points, however he adds great value to the team as a defensive man under the basket. Courtney, although rarely playing a full game because of his excessive fouling, is one of the leading rebounders in the conference.

Should the Bulldogs get by the Odessa Wranglers, they will meet the winner of the Amarillo-Cisco game on Friday night.

Mr. and Mrs. Bill Jordan and children of Amarillo visited Saturday and Saturday night in the home of their parents, Mr. and Mrs. Carl Pittman.

Mr. and Mrs. Jack Eddings and Mr. and Mrs. Charles Hunt and son of Amarillo visited Sunday in the home of Mr. and Mrs. Carl Pittman.

S. W. LOWE ANNOUNCES FOR MAYOR OF CITY

S. W. Lowe, retired educator, business man, farmer, and resident of Clarendon for 45 years, has announced he is a candidate for the office of Mayor of the City of Clarendon.

Lowe received a Bachelor of Science degree from Simmons University, now Hardin-Simmons, at Abilene, Texas. He was Dean at Goodnight College for two years and taught summer school at Clarendon Methodist College during such time. He then moved to Clarendon to accept the position as Principal of Clarendon High School, in which position he served until his resignation to enter the grocery business.

He served three terms as County Judge of this county. He was in the wholesale oil and gas business for 20 years when he sold such business a few years ago.

He is a member of the First Baptist Church, a deacon, and has taught a Sunday School class for 43 years. He served as Sunday School superintendent for 20 years.

"In making my announcement for the office of Mayor for the City of Clarendon, there are at least four items of importance with which all should be concerned," says Lowe.

"The sanitation department is much improved over former years, yet this is a matter that cannot be neglected, for the health conditions of our city depends up it in a large manner. "If one will drive to the western side of town there will be found almost a new community. Many, many new homes have been erected which naturally calls for an added water supply. Such conditions make it imperative that our water system keep a constant watch for the needs and conveniences of all of its people.

we had some unusual weather, and most residents of the city did not have adequate fuel for heating and other necessities. This utility is not owned by the City, but no doubt a close association should be maintained with the owner to prevent a repetition of a gas shortage.

"One of the most important aspects to the growth of our community is the development of business and industry. I feel that the City of Clarendon should be a major element in seeking out, assisting, and promoting business and industry. The newest and latest site for the Greenbelt Municipal Water Authority dam on Salt Fork of Red River is located just north of Lelia Lake where core drilling tests will be conducted in the next few weeks. We should keep constantly alert to develop our last known fresh water supply as a member of the seven city organization. With the dam being located at our doorsteps, we should not neglect this prospective boom to Clarendon."
