Clarendon Junior College Students To Register Monday, September 16

Clarendon Junior College registration will begin on September 16 at 9:00 a.m. The faculty will approve each individual's program for the fall semester of 1963-64, and they will be available for individual counseling. The last day for registration is September 30. Classes will begin on September 17.

The influx of transcripts indicates students from as far as Mississippi. Students will find a complete dormitory facility for the first time this year. The dormitory supervisor will be Mrs. J. S. Dale. Clarendon Junior College is offering a "Package Plan" to any student residing in the dormitory. For \$397.72, a student may reside in the dormitory for one semester with all tuition, books, meals, room, and fees paid. A good response to this plan is indicated by the number of room reservations already on hand.

Three new members of the staff are Mr. Henry Cunningham, Mr. Ellis Moltz, and Mr. Billy White. Mr. Cunningham, from Littlefield, Texas, will be head of the Business Department. Mr. Moltz, from Austin, Texas, will be head of the Mathematics Department. Mr. Billy White, from Hedley, Texas, will be Coach and Physical Education instructor.

The Night School will enroll beginning September 23 at 7:00 p.m. A complete schedule of night classes will be available within the next two weeks. Those classes to be offered include: Bible, English, Education, Spanish, Trigonometry, Intermediate Algebra, Business Math, and Business Law. Any person interested in these or any other courses should call 874-3552.

Moisture Total Continues To Climb

With an added .70 inch in a blowing downpour here in town last Saturday night, the year's moisture total has now grown to 10.05 inches as compared with 14.86 through the month of August last year.

The August total for this year so far is 3.53 and the August total last year was 1.95 inches. The biggest drawback to the moisture is the fact that most of the showers have been the section line variety and covered only a small area.

School Enrollment Figure Exceeds That Of Previous Year

The Clarendon Public Schools (White only) registered an estimated total of 674 students on opening day which was Tuesday of this week. This figure represents a total of 199 in high school and 475 in the elementary and junior high. This is slightly above the figures for the first day last year. A year ago, 203 enrolled in high school and 430 in the grades for a total first day's enrollment of 633. This year's enrollment figures are estimated since many of the students do not enroll on first day of school.

Broken down by grades, the high school enrollment is as follows: seniors, 40; juniors, 55; sophomores, 60; and freshmen, 44. In the grades, the first grade enrolled 51; second, 55; third, 65; fourth, 69; fifth, 60; sixth, 58; seventh, 66; and eighth, 51. Estimated enrollment for North Ward is 55 for grades one through eight.

Rail Strike May Cause Mail Delivery To Be Curtailed Across Nation

Postmaster Mike McCully announced today that planes, trucks and busses will be pressed into service to move air and first class mail to its destination and to move other classes of mail within a 150-mile radius of Clarendon in the event of a nationwide rail strike.

However, Postmaster McCully noted that he had received instructions not to accept mailings other than first class, air mail and air parcel post which are destined for points farther than the second postal zone, which is generally approximately 150 miles from Clarendon for the duration of the rail strike, if it occurs.

"We are prepared to handle any letters or parcels addressed to any point provided first class or air mail postage is paid on the items," Postmaster McCully said.

But he cautioned that service will be temporarily suspended on 2nd class magazines and newspapers, third class matter and fourth class parcel post packages addressed to points beyond the second parcel post zone — extending 150 miles from the point of mailing — as part of the national post office contingency plan for operating under the rail strike emergency.

Postmaster McCully advised mailers that any emergency shipment, such as medicine or badly needed spare parts, should be sent first class or air mail during the strike, if it occurs, and if the shipment demands delivery beyond the second postal zone. Perishable items, such as baby chicks and honey bees, should not be mailed for the duration of the strike, if it occurs, he recommended.

Mailing of items covered by the temporary and limited service suspension, deposited at post offices immediately prior to the strike, will be made at the risk of the mailer. The Department cannot guarantee early delivery of perishable items and other than first class and air mail parcels, letters and other matter if they are in transit at the time the strike commences.

Postmaster McCully noted that Amarillo, Childress, and Pampa are among cities within the second postal zone of Clarendon which will continue to get full mail service from this post office if and when the strike occurs. He urged the public and large mailers to call the post office at 874-3353 for detailed information or to get answer to technical questions involving their particular mailing problem.

JAYCEES DISTRIBUTE ATTITUDE SURVEY FORMS

The Jaycees distributed their community attitude questionnaire from house to house within the city last night. The survey form consists of 60 questions to be answered either good, adequate or don't know by marking an X in the proper column. The survey form may seem of very little importance to you as an individual, but the Jaycees would like to point out that communities that have progressed and are continuing to progress run surveys of this type. It may save you as a citizen of this community many dollars, because a survey of this type, that is properly analyzed, will give the Jaycees a true picture of what you as citizens would like to see done within this community.

These forms should be completed and mailed today if at all possible. It will only take a few minutes of your time and will be greatly appreciated by the Jaycees who will pay the postage. Just drop in the mailbox or hand to one of the Jaycees.

A slate of nominees for membership on the ASC community committee for Donley County is now being established by the present Community Committee. The slate will include six nominees, from which a community committee of three regulars and two alternate members will be elected by farmers eligible to cast ballots in the election. The slate of nominees must be completed by August 29, 1963.

The election will be held by mail on September 12, 1963. Eligible voters will be farm owners, tenants, or sharecroppers who are taking part in one or more of the programs which the ASC Committee helps administer. The ballots will be tabulated publicly by the ASC County Committee on September 17 at 10:00 a.m. in the Donley ASCS County Office.

You will receive a ballot very soon. REMEMBER, the date, and vote for the members of this important ASC Community Committee. You can get more details at your ASCS County Office.

As all of you already know, a 1964 Feed Grain Program has been announced. Let us urge all farmers in Donley County who intend to plant wheat this fall and who also plant feed grains to look into the possibility of participation in the 1964 feed grain program before they complete their seeding plans. Even though the feed grain sign-up will not be until early next year, farmers who plan to participate will need to keep their fall seeded acreage in line with total crop acreage permitted on their farms under the feed grain program.

CLARENDON JAYCEES TO EXTEND HOSPITALITY TO LABOR DAY TRAVELERS

The Jaycees of Clarendon will extend hospitality to travelers this Labor Day week end at the intersection of Highways 287 and 70. Many rest stops will be set up over the nation and the Clarendon Jaycees plan to have one that will be a reminder to the holiday drivers to drive more carefully and save lives that the highways usually take on a holiday such as this by setting up a mock wreck scene along with their hospitality booth.

The Clarendon Jaycees served over 2,000 people last year free and they expect even more this year. Lee Johnson will be the director in charge of this project and with his committee has planned one of the finest rest stops in the State. All the Clarendon Jaycees and Jaycee-ettes will be working hard in the interest of safety this week end, so they ask everyone who will to come by and visit with them.

Those appearing before the Texas Water Development Board last week on behalf of the Greenbelt Water Authority were "greatly" encouraged, it was reported last week.

Representatives of the fiscal agents for the Authority are scheduled to appear before city councils of the cities involved this week to suggest the rates that will be necessary to retire the debt.

The major portions of the water contracts that will be voted on by the cities were approved by the Water Development Board.

Minor changes in the contracts are being made now and the elections should be called within the next few days.

The fiscal agent representative scheduled to meet with the Childress City Council at Childress Monday night.

"Should the Texas Water Development Board agree to participate in this loan, it will be the first time it has participated where the cities involved are retiring the debt through water revenue only," said State Senator Andy Rogers who attended the meeting in Austin.

"Members of the Water Development Board, I believe, realize that this is the only source of good water we have left and it is the only salvation of the cities in the area," he added.

Sen. Rogers pointed out, however, that although the water contracts are approved, that does not bind the Water Development Board to participating in the loan.

"Action of the board will depend upon several things and one of the main factors will be just how strongly the people in the cities involved want the water," he said.

"We should have a large turnout of voters and the project should be favored by a big majority," he added.

Just prior to the hearing of the Greenbelt's contracts, Tyler and other east Texas cities were turned down on a \$4,000,000 loan.

"That should prove that it is not a giveaway program," Rogers said.

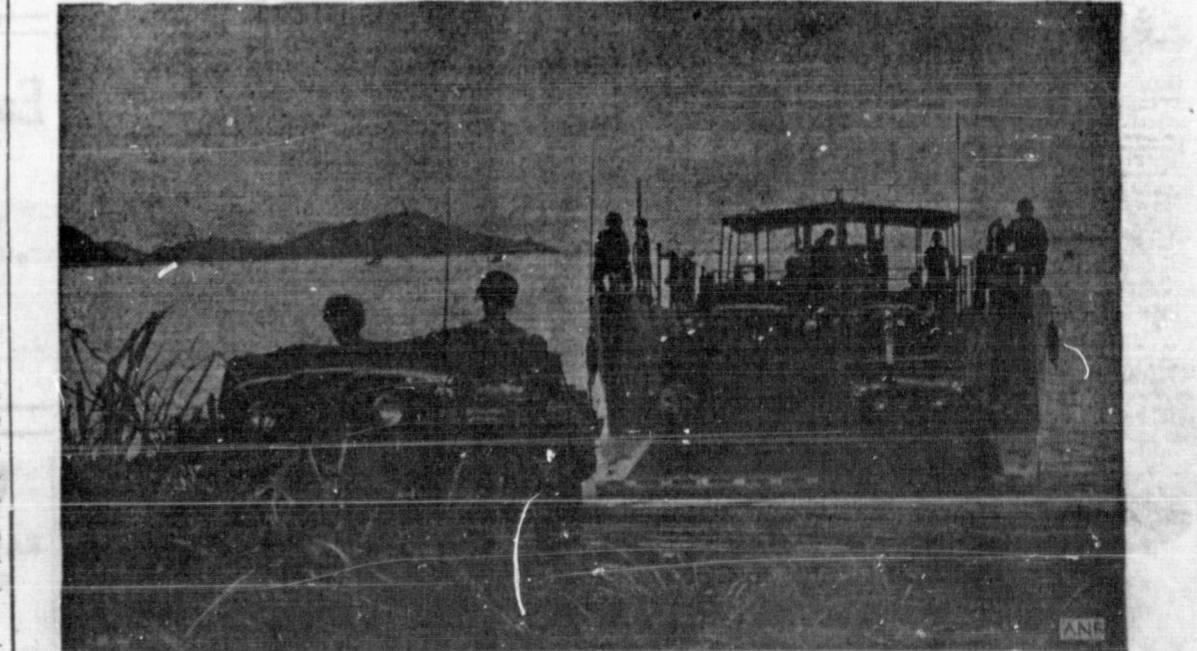

"It is a big project for few small cities," said Dr. S. H. Townsend, president of the Greenbelt.

"I have been asked if we were checking into federal participation in the project," he continued. "We have been and so far the results are not good."

"As of right now and we need water right now, the state or the Texas Water Development Board is our only solution."

Deferred Grazing

Deferred grazing is defined as periodically postponing grazing on rangeland for a prescribed period during any growth period of the year.

The length of deferred periods vary according to the size of the grass species being used as the key plant. For instance, a minimum of 3 months deferment will be adequate for short grasses; 4 months for mid-grasses; and 5 months for tall grasses.

Characteristic conditions needing deferment include:

- A) Poor and fair range conditions. B) Low vigor of key grazing plants. C) Absence of litter. D) 50% or less potential ground cover of decreases and increases. E) Newly seeded or mechanically treated areas.

F) Following spraying of brush.

Deferred grazing is required following seeding of native dryland grasses in the Great Plains Conservation Program. Some farmers and ranchers feel that this should be left up to their own judgment and that the requirement is quite stiff. However, knowing about the growth habits of plants they should realize that a plant which is seeded in the spring will not be able to establish a deep root system to protect it from the winter season if it is grazed during this time. Therefore, the deferred requirement is actually benefiting the owner much more by allowing him to get a deeply rooted plant established before grazing.

For further information concerning deferred grazing as a management practice, contact your local Soil Conservation Service Office.

Miss Mays Weds The Rev. Billy Hill In Church Service

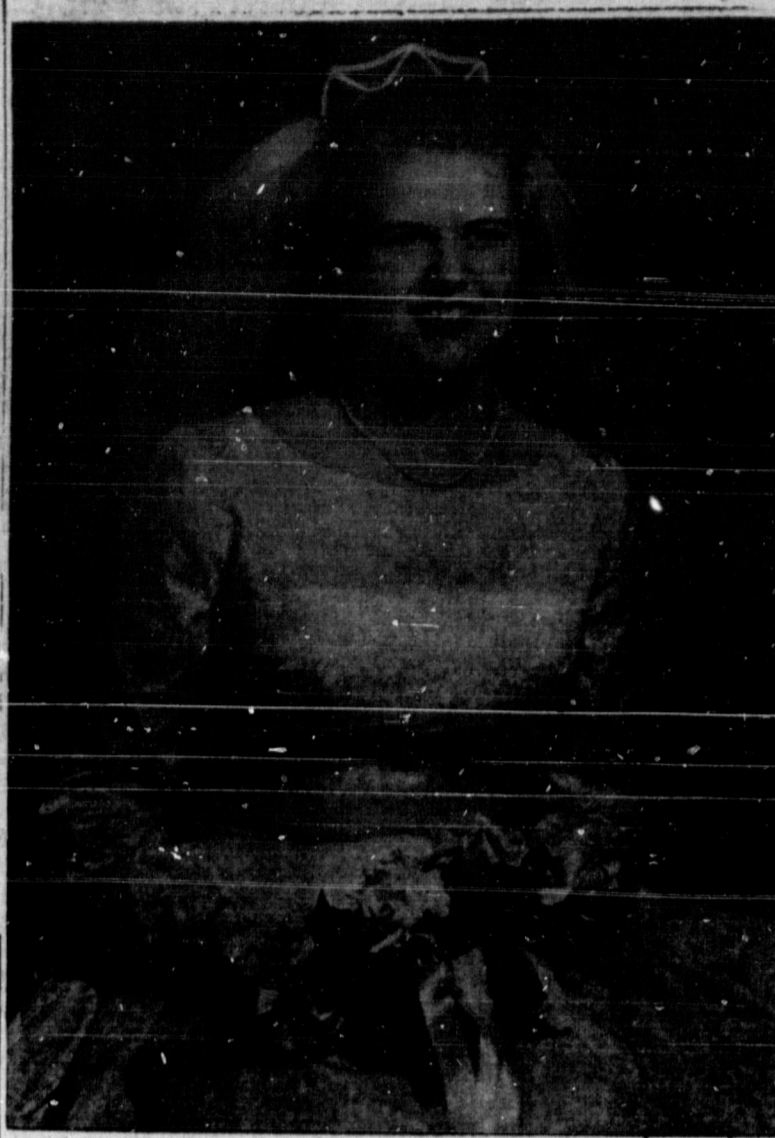

Miss Rhonda Mae Mays, daughter of Mr. and Mrs. Marva Lee Mays of Clarendon, Texas, became the bride of the Rev. Billy Gene Hill, pastor of Calvary Baptist Church, Clarendon, and son of Mrs. W. L. Hill and the late Mr. Hill of White Deer, in a double ring ceremony performed Monday evening, August 26, at 8 p.m. in the Calvary Baptist Church. The Rev. Earl Maddux, pastor of Fellowship Baptist Church in Pampa, officiated.

Vows were exchanged before an altar decorated with white gladioli, upright wrought iron candelabra bearing white tapers, and emerald palms. Centering the decoration was a satin covered kneeling bench. Tapers were lighted by Gary Mays, brother of the bride, and Harold Gerner. Brothers of the bride also served as ushers, George Mays and John Mays.

Mrs. Harold Gerner played traditional wedding selections and accompanied Mrs. Delores Freezner of Amarillo, vocalist, as she sang "Because" and as a benediction, "The Lord's Prayer."

The bride, given in marriage by her father, was lovely in a ballerina length dress of white brocade fashioned with a fitted bodice, scoop neckline, and long tapered sleeves. The skirt was pleated. Her shoulder length veil of illusion was attached to a tiara ornamented with seed pearls and she carried a colonial bouquet of white carnations. She wore a single strand of pearls and carried out all of the traditions of something old, new, borrowed, blue and a penny in her shoe.

For her daughter's wedding, Mrs. Mays wore a dress of beige cupioni, white accessories and a corsage of white carnations. Mrs. Hill, mother of the groom, wore a dress of sky blue cupioni accented by white accessories and a corsage of white carnations. Immediately following the

Presiding were Mrs. Doyle Hall and Mrs. Harold Gerner. They were assisted by Mrs. Lamar Aten and Mrs. J. B. Lane.

The bride graduated from Clarendon High School and is attending Clarendon Junior College. The groom is pastor of Calvary Baptist Church. After this week, the couple will be at home

Boys Ranch Rodeo September 1 and 2

Two coveted titles will be at stake when the young contestants at Cal Farley's Boys Ranch hold their 19th annual Boys Ranch Rodeo over the Labor Day weekend, September 1 and 2.

The top rider among the older boys will be named Senior All-Around Cowboy while the Junior All-Around Cowboy will be selected from among the younger boys. Dean Warren, a former Liberal, Kansas, boy, was named Junior All-Around Cowboy of the 1962 rodeo and will be riding for the senior title this year. He compiled a perfect score of 100 points last year.

Miss Mai Nell Ratliff and Monte Mann, both former students of Texas Technological College, Lubbock, have planned their wedding for Saturday, September 7. The approaching marriage was announced by her parents, Mr. and Mrs. Ben Ratliff. The prospective bridegroom is the son of Mr. and Mrs. Clayton Mann of Clarendon.

Boys entered in the senior division of the rodeo will ride Brahma bulls and bucking broncs while the smaller steers and calves are reserved for the younger riders. The contestants ride under R.C.A. rules on professional rodeo stock that is taken to the Ranch.

In addition to the color and excitement of the rodeo, an enlarged arena is expected to attract a record number of visitors. For the first time, reserved box seats will be available in addition to the elevated bleachers. The box seats are \$2.50 which includes the general admission charge and are being sold at the Ranch headquarters in Amarillo. General admission tickets are \$1.75 for adults and 75c for children and servicemen in uniform.

At the present time, 312 boys from all over the nation are being cared for at the Ranch and those who do not ride as contestants will have some part in the rodeo. Proceeds will be used for the Ranch's expansion.

AUSTIN — Texas Youth Council's parole division will triple in the next six months or so. But the problem of trying to help "reform school" graduates become useful citizens is still great.

Until September 1, five state parole officers are responsible for some 1,800 juvenile parolees spread out over 169 counties. That's a ratio of one parole officer to about 357 parolees, compared to national standards of one officer to 40 parolees.

Staff will increase to 10 on September 1 — a ratio of one to 178. On March 1, 1964, when five more are added, ratio will be down to one parole officer to 119 parolees, spread over the Lone Star State.

Biggest number of parolees is centered in big cities where the general rate of crime is always higher. More than a third of the paroled children are in Dallas, Harris and Bexar counties; another 288 in El Paso, Jefferson, Tarrant and Travis counties.

About 154 are in Nueces, McLennan, Bell and Lubbock counties.

But sizeable juvenile parole populations are centered in smaller counties, such as Cameron, Grayson, Brazoria, Ector, Galveston, Gregg, Hale, Hidalgo, Howard, Hunt, Midland, Navarro, Potter, San Patricio, Smith, Taylor, Wichita and Williamson.

Some counties only have one paroled child. But the state is responsible for every one it has "retrained."

FIRST AIDE — State Regulatory Loan Commissioner Frank Miskell appointed Robert C. Duke, Houston attorney, as Deputy Commissioner and General Counsel of the new state agency.

Duke formerly served as acting Securities Commissioner in the Secretary of State's securities division.

Regulatory bill takes effect on August 23. Some 2,000 loan companies operating in Texas will have to file for state licenses at that time.

MONEY MEN — The Legislative Budget Board, lawmakers who make the Legislature's financial decisions between sessions, recommended \$4,644,000 worth of state building to Gov. John Connally.

Plans approved included one by the State Hospitals Board to equip a genetics lab and follow-up clinic on mental retardation in the State Psychiatric Institute at Houston; new dormitories for Gatesville School for Boys, Gainesville School for Girls and Crockett School for Negro Girls; and several prison system units.

Authorization was recommended for \$25,000 worth of partitioning to provide 23 new offices in Atty. Gen. Waggoner Carr's department.

But the board balked at Texas A&M University's request to spend some \$100,000 on a home — exclusive of land and furnishings — for A&M President Earl Rudder, to replace the one destroyed by fire.

A compromise recommendation of about \$60,000 for a 4,500 square-foot home was the outcome.

SHORT SNORTS — Rep. Sam F. Collins of Newton asked to be allowed to serve as a state representative without pay, when he accepted a job as assistant to General Manager John W. Simmons of the Sabine River Authority.

Governor Connally appointed Hudson Davis of Borger as Canadian River Compact Commissioner, and R. Leighton McKinney, Jr., of Denison, Interstate Compact Commissioner for the Red River.

to know...

Anyhow, I think every person should have to move once in awhile. We believe this even if for no other reason than to make one better satisfied with where they happen to be... One thing for sure we don't want to move for another 17 years... As of this moment I don't feel like even moving a muscle... not for weeks anyway...

As a youngster our family moved real often, up until we were about grown two years was our longest stay in one spot. It seemed there was always a bargain just across the way. Then, about one year after moving someone would offer a profit and my folks would decide that we could make more that way than we could farming the place and off we would go. This time there was no profit incentive from our standpoint... just a place to call home for the rest of our allotted time, we hope... The biggest thrill when we moved as a boy was to see what kind of stuff and junk the former owners left scattered about... We couldn't wait to visit their junk pile...

It is unbelievable how much stuff both good and bad that one can accumulate between moves; some worthless, some priceless, and almost all of it a bit too precious to throw away. Take for instance my desk, plumb, chuck full of things, few of which we are ready to part with... As for moving, take our advice and don't do it, especially after age 39...

Speaking of neighbors; we always liked the story about the fellow who moved because of his neighbors. On arriving at the new place he asked about the neighbors. A wise one asked how his neighbors were back where he came from. He answered that they were very bad to which the new neighbor replied; "You'll find the same kind here."

It is true that we find neighbors in about the same proportion of goodness as we show ourselves. Most always we get far better than we deserve. And along this line of thinking I just

know my new ones will be the very best in all the world... very like the ones we had before...

Honestly in all the 17 years we never really criticized but one neighbor to her face... On this point we really felt justified. Every time we were sick she would bake a pie and bring it over, but when we were fit as a fiddle and in a pie-eating frame of mind it was always the cook's night out or something... But just to show that there is no hard feelings we are going to let this fine neighbor have the rare joy of living next to our grandson...

What a real break for her... If you don't think the following is a cute grandson story then we won't mention him again soon. Anyhow, the other night my son was putting him away for the night. He was whining and taking on which is something they just don't allow. The precious one was informed that if he kept on crying he would get something to cry about in the form of a spanking... Suddenly he began crying in a big way, and when asked what was the sudden cause replied;

"I just spanked myself." And now before we get in real trouble we better move from the subject of grandchildren... Bad as we hate to.

I am not satisfied with what has been done or what is being done about this situation. I am again insisting on hearings by the House Foreign Affairs Committee and action by the full House on a bill I have written to close all United States ports to ships engaged in trade with Cuba. This will prove more effective than any other weapon we can exercise — short of an outright blockade — to discourage commerce with our avowed enemy, Communist Cuba. By barring access to U.S. ports to ships also doing business with Cuba, the profit margin for the trading countries would be sharply reduced. Deprived of American cargoes, these foreign vessels would sail with partly empty holds to and from Cuba and further tighten the already difficult economic pinch facing the Castro regime. My bill is worded: "Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all ports of the United States are hereby closed to all vessels while engaged in trade or commerce with Cuba (except United States installations therein), or while engaged on any voyage during which such vessel has engaged in trade or commerce with Cuba (except United States installations therein), except where such vessels are required to enter ports of the United States for repairs or emergencies recognized as such under international law. SEC. 2. Any vessel which enters or attempts to enter any port of the United States during a period when the ports of the United States are closed to it under the first section of this Act shall, together with its cargo, be forfeited."

ships so used. American ships are barred from trading with Cuba. The step was properly taken as one of the measures being employed to loosen the Red foothold on that island so close to our shores. There is no reason why this action should not now be extended so that we do what is in our power to discourage foreign commerce with Castro. According to the American

Red Cross, farming is the third most dangerous occupation in the country, exceeded only by mining and quarrying, and the building industry. In one recent year, there was a total of 8,700 deaths and 800,000 injuries from accidents to farm residents. The Red Cross emphasizes that safety consciousness and accident prevention knowledge for farm people can be acquired in the courses taught by its chapters throughout the country.

By Congressman Walter Rogers

The House Acts On Foreign Aid

The showdown on the foreign aid authorization bill brought a vote of 224 yeas to 186 nays and the House of Representatives thus extended the controversial program through the current fiscal year. In a dramatic action preceding final passage, the House voted 222 to 188 to "re-commit" the bill to the Foreign Affairs Committee with instructions that the authorization amount be cut by half a billion dollars. Within minutes the Committee had obeyed that injunction by the House majority (of which I was a member) and reported the bill to the floor once again. With the foreign aid authorization ceiling thus measurably cut, the next round in the fight will come over the actual appropriation for the program — and further cuts are likely. I voted against the foreign aid bill. Never have I voted for foreign aid authorizations or appropriations measures. This program was sold to the American people and the Congress as a means of combatting Communism in the world's underdeveloped nations. If foreign aid would bring us the advantages its supporters perennially promise, not a single vote would be cast against it in the House or Senate. But foreign aid simply does not measure up to its high purpose. It does not produce results. In addition, it is too wasteful. Before Friday's final vote, a long session of the House stretching late into Thursday night brought action on a series of amendments. Of 21 amendments acted upon in the succession of votes, seven were passed, including one to limit aid for projects creating competition with certain American industries and another to provide for inspections in countries receiving U.S. aid so that the manner of its administration and distribution may be checked. Another amendment provided a cut-off of aid to countries whose ships or planes carry products to or from Cuba. You may recall that last year, when the foreign aid bill was up for debate, I offered an amendment cutting off foreign aid funds to any country whose ships engaged in trade with Cuba — and this was the same sort of provision as included in the bill this year. However, I could not agree with the limitation spelled out in the amendment adopted by the House. My position is that all aid should be completely stopped — not temporarily suspended — to any country engaged in the Cuban trade.

REGION ONE NEWS NOTES

SAN ANGELO — Antelope counts west of Dalhart and in five other north Panhandle antelope counties totaled 3,072 head this year. In order to keep populations well balanced, biologists are recommending the harvest of 350 bucks and 194 does on Panhandle ranches between September 28-October 1, both days inclusive. Landowners will receive permits based on the number of surplus antelope present on their property, to be disposed of at the landowner's discretion.

West Texas fishermen who store their fishing tackle before the first of November are missing the best fishing time during the year. Game fish come out of deep, cool lake depths and feed furiously on late summer insect hatches before cold weather begins in earnest. Shallow water areas, unproductive during hot summer months, become prime feeding areas for fish until the first norther arrives.

Midland and Reagan Counties are now under regulatory authority of the Parks and Wildlife Department and for the first time in many years antelope hunting will be permitted on some ranches in both counties. Sportsmen who wish to hunt antelope, but cannot make the long trip to either the Trans-Pecos or the Panhandle, should vie for permits that will be available in the Permian Basin this year.

Mrs. Bob Allen and children of Houston visited the week end in the home of Mr. and Mrs. Tom Shadle. Mrs. Allen will be remembered here as Lavois Armstrong, daughter of Mr. and Mrs. Bryan Armstrong.

Mrs. Allen had visited Mrs. Ray Pittman (La Rue Shadle) of Amarillo; the two had visited Mrs. Otis Denny (Charlene Knox) at Santa Fe. The girls were classmates in Clarendon schools.

I would like to express my appreciation to my many friends for the wonderful cards and flowers I received during my stay in the hospital. May God bless each of you.
Mrs. M. G. Helton

We are sincerely grateful to friends and neighbors for their many kind acts of sympathy during our sad bereavement. Our appreciation cannot be adequately expressed.
