Number 7

FRIDAY NIGHTS RAID netted 19-4 oz. baggies with a street value of \$320 each with a total value of \$6,080 and approximately 2 lbs.

from another residence with a value of \$2,260 for a total of \$8,740.

OFFICERS WHO HELPED in the drug round up Friday, February 11 were: [L to R] Charles Blackburn, Jim Mincey, Jim Lamplier, Butch

Blackburn, Sheriff Jimmy Thompson, Doug Wright, Cody McAnear, Ray Burch, Kyle Hill, Gary Hunt, Bill Baten, Jerry Morris and Falon Watson.

Drug raid resulted in 5 jailed & \$8740 in drugs taken

The largest drug bust in Donley County history was completed at approximately 7:45 p.m., February 11 when Sheriff Jimmy Thompson led teams consisting of the Game Warden, Texas Rangers, Highway Patrol, District Attorney, Deputy Reserves and Deputies in raids on two residences in Donley Co. and one in Hall Co. Joint efforts of the Investigator Doug Wright accompanied by Hall County Sheriff's office and

Memphis Police department. At one residence in Clarendon there were 19-4 oz. baggies seized with a street value of \$320.00 each bag with a total value of \$6,080. At a residence in Howardwick approximately 2 lbs. of marijuana with a value of \$2,660. This drug raid was a result of several weeks of intensive investigation by the Donley County Sheriff's office and the District Attorney's office. The raid in Hall County netted approximately

5 lbs. of marijuana with a street value of \$6,400. These drugs were brought from Mexico in 25 lb. lots and distributed by the dealer in Memphis to his "pushers" who sold them to our children on the streets of Clarendon and other communities in this area. Through this investigation and drug bust, officers believe that between 70 and 80% of the narcotics in the Clarendon area has been dried up. Deputy Faylon Watson led a team

consisting of, Highway Patrolmen Ray Burch and Jerry Morris, Reserve Deputies Cody McAnear and Jim Mincey. The other team was led by Deputy Butch Blackburn to Howardwick consisting of Reserve Deputies Jim Lamplier, James Breiting, Kyle Hill, and Charles Blackburn. At the residence in Howardwick the occupant tried to flush part of the marijuana down the commode but she was stopped by Officer Butch

Blackburn who retrieved the marijuana from the commode. Sheriff Jimmy Thompson, Texas Ranger Bill Baten and Game Warden Gary Hunt arrested 2 more subjects involved and coordinated the entire operation. The District Attorney David McCoy, assistant District Attorney Jerry Courtney, prosecutor for the 100th Judicial District and County Attorney John Knorpp were well pleased and elated with the way the operation was

handled and the results. Investigators know of several more people involved in dealing drugs in the Clarendon area. Investigators have the names of the users in the Clarendon area. This investigation is incomplete. There will be several more arrests made before this investigation is complete. There were 5 people charged and placed in jail. Raids were coordinated to go simultaneously in both counties.

Sheriff Jimmy Thompson wishes to commend his Reserve Officers for the professional manner in which these men conducted themselves during these raids. County Attorney John Knorpp and Assistant D.A. Jerry Courtney were instrumental in the successful conclusion of this operation. The subjects in Donley County were arraigned before Justice of the Peace W.W.

Lovelady. We appreciate his efforts in this matter and the efforts of County Judge Billie Christal & the Commissioners Court. This entire operation went off with precision due to the cooperation of all agencies involved. The narcotics problem has not been corrected but it is a step in the right direction. Bonds totaling \$50,000.00 were made. Four subjects made bond, one is being held in lieu of bond.

Trees can help reduce energy cost

Did you know that trees can help reduce energy costs? Properly designed windbreaks and shelterbelts can cut heating costs in the winter by keeping farmsteads warmer.

windbreak can save up to 30 percent in heating and cooling costs. Here is the price list for available trees and shrubs: SHRUBS-40 cents each-minimum order of 10; BARE ROOTED TREES-40 cents each-minimum order of 10; POTTED TREES-\$1.00 each-minimum order of 10.

Get your order in early to assure availability. Come by the Soil Conservation Service on JSouth Kearney or call 874-2339 for information on planning, ordering, and planting an effective shelter.

The Donley County Soil and Water Conservation District is now taking orders for your energy conservation protection. The Soil Conservation Service has assisted in planning windbreaks for farmsteads, gardens, and wildlife. As a windbreak, trees prevent wind erosion on cropland, cut down on energy costs in the home, and provide wildlife habitat as well as increasing both the aesthetic and monetary value of land and homes. Costs are surprisingly small to establish an effective shelterbelt and the increase in land value as well as beauty, well greatly offset the expense of planting. It is estimated that a well-planned, established,

Bronchos basketball season end

The Clarendon High Varsity Teams played the Panhandle Panthers February 2 here at the Clarendon High School Gym.

Clarendon's team also succeeded in scoring fairly high. They were Connie Garmen with 8 points and Kristen Walker with 8. Six of her points were made with free-throws!

which gave the Bronchos a comfortable lead. However, in the last quarter the Indians tried to make a comeback, but failed leaving the final score 49-45.

The Lady Bronchos played a very high, pressured and competitive game against the Pantherettes. The game resulted in an overtime with the Ladies pulling out in front with a 6 point lead in the end.

High point for the night was Kelly Hill with a total of 12 points.

Clarendon vs. Wellington February 8, the Clarendon Bronchos went to Wellington to play the Skyrockets.

Leading scorer for the game was Junior player Gina Spier with a total of 15 points. Two other players on

The Bronchos also played a great game that night against the Panthers. Their final score was 58-56 Clarendon's favor.

Both teams faced a very tough Wellington team. The Ladies game was a close one with the Rockets pulling out in front the last half. The final score of the game was 41-49.

Two other players on the team were Ray Crump with 17 points, Arlis Thomas with 12 points and Kelly Hill with 11 points.

This night was a good showing of both teams all around determination and team work.

Kristen Walker led the Lady Bronchos in points with a score of 10.

The Lady Bronchos played a very inspiring game against the Indians who had beat them earlier in the year. The Ladies knew that in order to seek and to capture a playoff position they had to defeat the Indians, and they did with a whopping score of 40-29.

The two leading scorers for the night were Connie Garmen and Linda Weatherton with a tie of 13 points apiece.

The Bronco Men played a strategic game all of the way through. However, the Bronchos were behind by 3 at the half.

The Varsity Bronchos were also playing that night. They played a great game. The score at the half was 34-19

Two Junior players were the leading scorers for the night. Arlis Thomas hit 17 points while Johnny Gaines managed 11 points.

Both Wiggins and Wydell have announced their intention to seek re-election. Those wishing to file for a

CLARENDON JR. COLLEGE Judging Team consists of: Monty Avery, Randy Vogel, Shane Smithson, LeAnne Price, Tammy Kuykendall, Jerry Hawkins (Coach) and Janet Gorden (Alternate)

CJC Livestock judging team wins against 24 teams

Clarendon College Livestock Judging Team competed in the Southwestern Livestock Exposition Livestock Judging Contest. The Clarendon Judging Team won the Livestock Judging contest competing against twenty-four other teams from Colorado, Wyoming, Kansas, Oklahoma, Texas, and Arkansas. The Clarendon Team consists of Randy Vogel, Hereford; Shane Smithson, Dimmitt; Tammy Kuykendall, Wilcox, Ariz.; Leanne Price, Roswell, N.M.; Monty Avery, Dora, N.M.; and Janet Gorden, Panhandle. Clarendon, in competition with twenty-four other teams, was second in beef cattle, second in horses, second in sheep and tenth in hogs. Randy Vogel was fourth in cattle and second high individual overall, Tammy Kuykendall was first in sheep and fifth high individual overall, Leanne Price was 3rd high in horses and 6th high individual overall.

The livestock team also recently competed in Phoenix, Arizona where they were second overall. Randy Vogel was high individual and Shane Smithson was seventh high individual.

The horse judging team competed in Denver. The horse judging team consists of Janet Gorden, Panhandle; Morris Cole, Dimmitt; Leonard Johnson, Portales, N.M.; and Randy Dunlap, Lubbock. The Horse team was third overall. Janet Gorden was third high individual and Morris Cole was tenth high individual in the horse judging contest.

March 2nd last day to file

For those who may be interested in filing for a place on the city council or for the position of Mayor of Clarendon must do so by 5 p.m. March 2, as this will be the final filing date.

Two places on the council and the mayor position will be up for election. Councilmen James Kuhn and Richard Bell terms will expire. Richard Bell has filed for re-election but neither Kuhn or Mayor Shirley Clifford has filed.

absentee by personal appearance will be March 14 and the last day will be March 29. The election for both cities will be held April 2.

There had been two persons file for councilman, James Sharrar and Steve Smith. No one had filed for the position of mayor.

The first day you may vote

There are three councilmen seats coming up for election in Hedley. Those holding councilman seats are Otis Holland, Bill Wydell and W.B. Wiggins.

Mann receives dearee from Tech

Plans are being made for a reunion of ex-students and teachers of the Martin School sometime this summer. Since some of the school records have been lost over the years, we will need information from other sources. So, if you are an ex-student, teacher or resident of the Martin Community and can furnish any names and perhaps addresses, please contact Roberta Adkins Pittman, Box 383, Clarendon, Texas 79226 806-874-2385 or Tina Pittman Eddings, 3000 S. Taylor, Amarillo Texas, 79100, 806-374-7468.

Martin plans school reunion

Mark C. Mann, son of Mr. and Mrs. W.C. (Jiggs) Mann received his Bachelor of Science degree in Agriculture from Texas Tech on December 17, 1982. Mark was also on the Deans Honor List for the fall semester. A student is awarded this

honor if he is a full time student and maintains a grade of 3.5 or better. Mark is presently employed by Production Credit Assn. of Lubbock as Asst. Vice President in the central office.

Altus Cotton Market

AUSTIN -- Although the 68th Legislature has barely begun it's already apparent several major areas of concern to Texans, ranging from transportation and government spending to public education and wildlife preservation, will be considered.

These issues will require careful study and hard decisions by your elected representatives.

Some of the major issues and related legislation expected to be discussed during this session include:

Government Spending: The Comptroller has estimated there will be a \$700 million shortfall in state revenues available to the Legislature from what was initially expected to be on hand for spending recommendations of the Legislative Budget Board for the next two years.

This shortfall will require all members of the Legislature to exercise careful judgement to ensure no necessary services are curtailed in the state budget for 1984-85 which will be written this session.

Driving While Intoxicated: Our state is part of a nationwide effort to stop the unnecessary and senseless carnage caused by the drunken driver on our highways and streets.

As a result, several bills to toughen DWI penalties, raise the legal drinking age, ban open alcoholic beverage containers from motor vehicles, force prosecutors to try DWI cases and make DWI suspects' medical records available to courts have been filed.

These bills can be expected to receive much attention from lawmakers and certainly, new and tougher laws affecting the DWI should result.

Higher Education: Texas' colleges and universities continue to be one of the major assets guaranteeing our children's futures will be both satisfying and productive.

During the time between sessions, much attention was given to the creation of funding programs for the various institutions of higher education.

At least some of these areas appear to have been addressed, but exactly how much money the various institutions of higher education will finally receive still remains to be determined in the appropriate process.

Since available funds will be limited, the different colleges and universities may, unfortunately, find themselves competing against each other for the available funds.

Public Education: As it has always been in the past, the issue of educating our children -- both from a standpoint of a quality education and an equal education -- will be given much serious attention in this session.

At the forefront is the matter of teacher salaries. The State Board of Education has requested a 22 percent average teacher pay increase, the Legislative Budget Board has recommended a 20 percent increase, and Gov. Mark White has called for a 24 percent hike.

Other proposals affecting public education include:

A group health insurance plan for teachers funded out of state revenues.

Changes in the methods for adopting textbooks for classroom use.

Criminal penalties for disrupting classes or other school activities; and

Development of a comprehensive program to expose students to different career areas.

The Legislature, perhaps as never before in recent years, is more keenly aware of the need to increase the level of teacher salaries to the point where they are competitive with those paid by other states in the top range of the scale nationally.

Although we know much about Socrates and his sayings, nothing survives of his writings. Much of the information we have about his life and teachings comes from the writings of others of his time.

Trading Friday, Feb. 11 on the Altus market was slow to moderate. Grower supplies and offerings were heavy, but carrying charges priced many out of the market.

Light to moderate merchant demand was evident as buyers filled March orders. Prices were mostly steady; grade 42 and better were up about 25 points. For mikes 30 and better: grade 42 brought about 225 points over the loan; grade 52 and spots about 300 points over the loan. Mikes below 30 brought about 400 points over the loan. Tinges moved at a physical price of about 40 cents lb. For below grades: grade 82 sold at about 40-41 cents lb.; grade 83, about 38 cents lb.; and grade 84, about 32 cents lb.

No forward contracting on the 1983 crop was reported this week. Limited interest was expressed for several PIK contracts. Two contracts offered were 45 cents lb on a 4232 basis and 50 cents lb, 4134 basis.

Ninety-five per cent or more of the 1982 crop has been harvested and ginned. Over 90 per cent has been classed.

Grade 42, staple 32, mike 35 to 49 was quoted Thursday at 51.25 cents lb. FOB warehouse on the spot market in Dallas and 52.60 cents lb. FOB warehouse in Lubbock. The New York Futures Contract No. 2 for March closed Thursday at 65.66, up 27 points from a week earlier; July, 68.15 up 23 points for the same period.

Through January 19, CCC loans were outstanding on 3,523,800 bales of 1982 crop cotton, 2,727,700 bales of 1981 crop cotton, and 112,300 bales of 1980 crop cotton.

Prices received by farmers for upland cotton averaged 56.60 cents lb. in mid-January, according to the Statistical Reporting Service, USDA. This compares with 57.30 cents lb for December and 50.30 cents lb in January 1982.

LETTER TO THE EDITOR

Would it be possible to insert a notice in your paper asking for information and/or address of a Roy L. Morrow, Rte 1, Clarendon, Tex. (Old address) (we already have 17 members from Texas) who was a member of the 593rd Joint Assault Signal Co. (JASCO) that made several landings in the Pacific during world War II? I, we and I'm most certain Roy would appreciate any effort made to locate him as we are having our 2nd reunion in Columbus, Ohio this year. We have been extremely fortunate so far in contacting 198 ex-members. The original Cadre for starting this JASCO unit was composed of survivors of the Attack on Pearl Harbor. Also maybe of interest was that in 1944, 4 of us going home by car from Calif. traveled Rte 66 or now 40 thru Texas & Okla. and was a snowbound there 20 hours right near your area on that route.

The Star Gazette of Elmira, N.Y. suggested that maybe you would help. Thank you and enclosed please find a stamped addressed return envelope for your convenience.

Sincerely,
Sid Manwaring
(593rd JASCO & Pearl Harbor Survivors Assn.)

Senator Bill Sarpalius Reports

Reports

FIRE AT CAPITOL

AUSTIN -- No matter what steps you take to prevent a tragedy, there's always a chance something will happen.

Most of you know by now that our State Capitol building in Austin caught fire on Feb. 6. During the 3-hour fight to bring it under control, 23-year-old Matthew Hansen of New Caney lost his life and six others were injured.

As earlier reported, the young man that died was extremely intoxicated at the time of the fire. This is not surprising, as 80% of all fire deaths are related to alcohol. We feel this fact shows the need for legislation that will increase Texan's awareness and knowledge of the dangers of alcohol. Perhaps in this way, the state can prevent similar untimely deaths in the future.

The fire started in Lt. Gov. Bill Hobby's apartment on the second floor of the East Wing. He has never lived in the Capitol apartment, but used it as guest quarters for visiting friends and dignitaries who stay overnight.

The fire started shortly before 6 a.m., and after it was over, officials began assessing the loss.

Personally, we were heartbroken that several of the beautiful composite pictures of the Texas Senate from the early 1900's were destroyed in the blaze. A number of other irreplaceable paintings and artifacts were lost, although Capitol officials praised the Austin Fire Department for saving many items.

Firemen speculated that

had they arrived even 15 minutes later, the fire probably would have engulfed the entire building. As it was, heaviest damage was confined to the East Wing of the Capitol, which houses the Senate offices.

In Hobby's apartment, also on the East Wing, dining room walls were charred. An antique crystal chandelier acquired in New Orleans during the early 1950's fell 20 feet from its gold chain onto the dining room table, a Chippendale reproduction. The hand-carved wooden door and window casements in the second floor hallway were reduced to ash.

Damage estimates have climbed into the millions. Surely this is a tragic loss for the people of Texas. For nine members of the Senate, including myself, it means an office outside the Capitol for the duration of the session, because repairs will take months and possibly even years.

But we think Gov. Hobby summed it up well when he said that the firefighters prevented a tragedy from becoming a catastrophe. As is characteristic of the good people of Texas, we'll simply "pick ourselves up, dust ourselves off, and start all over again."

Also, don't forget to keep in touch by writing Sen. Bill Sarpalius, P. O. Box 12068, Austin, Texas 78711. Although we are now temporarily located in room 1010 of the Sam Houston building on the Capitol Complex, our mailing address is the same. We can be reached by telephone at 475-3222.

Solar workshop rescheduled

A solar collector workshop which will offer farmers and homeowners ideas and training in applying solar power to their energy needs has been rescheduled for Friday and Saturday, Feb. 18-19. The workshop, sponsored by the community development committee of the Oldham County Extension Program Building Committee, was originally scheduled for Jan. 21-22, but was postponed because of heavy snow.

It will begin at 5:30 p.m. Feb. 18 with registration at the Texas A&M University Agricultural Research and Extension Center, 6500 Amarillo Blvd. West. Instruction will begin at 6 p.m. and continue until 10 p.m.

Saturday, Feb. 19, participants will assemble at 9 a.m. and go to a lumber yard. There they will select materials and work in teams to construct solar collectors.

Leading the workshop will be Bob Dunsmore of the San Luis Valley (Colo.) Solar Energy Assn. Also on the program will be Weedon

Echols of Lubbock, energy specialist with the Texas Agricultural Extension Service.

"Because of the great interest, with 237 persons registered in advance before we had to postpone the program in January, the rescheduled program will be limited to the first 300 to register," said Jimmie D. Walker, Oldham County Extension agent.

Each participant must pay a \$15 fee which helps cover instructional and construction materials. Advance registration can be completed by mailing the \$15 fee with your name, address and telephone number to County Extension Office, Box 380, Vega, 79092. Checks should be made payable to Oldham County Program Building Committee.

"If you wait until the night of the conference to register, we may already have reached our limit," cautioned Kay Wells, Oldham County Extension agent for home economics.

A message for absentee landowners

Here's a message for landowners who lease their land to others:

Do you help your renter or tenant apply conservation measures to your land? If not, it may be eroding at an excessive rate or your grassland may be slowly deteriorating. The problem is serious--nearly 40 percent of all land in farms and ranches in the United States is operated by someone other than the owner, and rented or leased land often gets less conservation treatment than land operated by the owner.

Here's why: Conservation practices cost money and most won't pay their way in a short time frame.

So your tenant or leasee may need financial help, a longer lease, or other incentives to apply needed conservation measures.

Conservationists with the

Soil Conservation Service, who work through locally run conservation districts, help landowners and tenants work out long-range conservation plans.

For information, contact the Soil Conservation Service Office in Clarendon.

Ninety-nine percent of all forms of life that have existed on Earth are now extinct.

The sun contains 99.8 percent of the total mass of the solar system.

Hightower seeks to overturn

PIK tax ruling

As a result of a recent Internal Revenue Service tax ruling potentially affecting farmers participating in the

Payment-In-Kind program, Congressman Jack Hightower is co-sponsoring a bill to correct what he calls "a potentially disastrous and unfair tax situation" for farmers and for the PIK program.

The I.R. S. ruled February 7th that current tax law would require farmers receiving surplus government crops under the PIK program to pay taxes on them when farmers receive their certificate for the crops, not when the crops are actually sold. Hightower's legislation would delay the taxes until farmers have actually sold the crops.

"I know farmers who can't afford to participate in the PIK program the way the tax

law stands now," Hightower said. "Our bill will make it clear that farmers in this situation will be treated fairly in the tax laws and won't pay taxes until they've sold their commodities under this program." Hightower explained that a farmer pays taxes on his crop when he markets the crop, not at harvest time. This situation should be no different Hightower argues. "Current law treats the farmer as if the PIK commodity was a cash payment," Hightower said, "but it's not, it's a commodity to be marketed."

The bill is likely to gain bipartisan support because the effectiveness of the Administration's PIK program in reducing commodity sur-

pluses now depressing market prices depends on the level of farmer participation. That level may, in turn, be directly affected by whether Congress can change the tax law before the March 11 PIK sign-up deadline for farmers.

"We're going to push the House Ways and Means Committee to take this up quickly," Hightower said, "and I hope we can see floor action in the next several weeks." Similar legislation has been introduced in the Senate where it must first be approved by the Senate Finance Committee before possible Senate passage. If the change is approved in both Houses in identical form, it then goes on to the President for his signature.

A few teachers have expressed their concern about a proposed drop in the percentage the teacher and the state pays into the Teacher Retirement System. There is no need for concern. A well-known actuarial consulting firm recommended the state's contribution be dropped from 8.5 percent to 7.1 and the individual teacher's contribution drop from 6.65 percent to 6.00 percent. This will save the State \$200 million. It will save Texas Teachers almost \$100 million. The good investments by the board, the extremely high earnings due to high interest rates and good management were cited as reasons why the contributions could be lowered. This will save each individual teacher about \$120.00 annually. This should be considered good news in view of the tight budget in which we are facing.

For many years prior to the 1981 Legislative Session, teachers pay was considered after most of the other items had been built into the budget. During the 1981 session, teachers were considered along with all other segments of the budget. As a result of hard work by the Education Committee and the Appropriation Committee in 1981, teachers were given some of the best raises in years. Some of these raises were accomplished by the Education Committee cutting out fat items in areas not needed. I feel this same process will occur again. We do not need to be pulling any items out of the budget for last or first consideration. We must consider each item, along with others, like placing a jig saw puzzle together. To do otherwise will cause divisiveness among different groups and factions affected by the State budget.

Governor Mark White endorsed the election of the Public Utility Commission. I see an appointed commission as being a much wiser route to follow. Appointees get screened through the Governor's office with exhaustive checks made. They are interrogated for days in the Senate. Sometimes to the point of total invasion of privacy. How intelligent was your vote on any of the Supreme Court or Civil Appeals Court judges? How well are you satisfied with the rate and regulatory decision of the elected Railroad Commission?

A person of excellent judgement, honest, mature, high character, and well educated running on a ticket of fairness to both the utility company and the consumer would be no match to a shrewd politician running on the ticket, "I'll lower your utility bill."

If you wound up with all consumer activist on the Public Utility Commission, every rate case would wind up in the courts and the Public Utility Commission would be as worthless as a confederate dollar.

Earlier that day, the Clarendon Varsity cheerleaders presented a pep rally to pep up the teams' spirits.

Senior Dene Green gave a speech to the student body telling them how much the Varsity appreciated the school's support and love. It was a sad time for both of the teams and the school because the Seniors knew that they would most likely not get to play in the playoffs.

Both teams vowed to go out on a winning note and that they did. The girls game was a high scoring one with a final of 58-45. The boys were defeated 81-53 but only in figures, because even though they lost they have the pride, spirit and determination to come back next year and go for it once again.

The leading scorer for the girls varsity was Senior Dena Green with 14 points. The leading scorer for the boys was Ray Crump with a fantastic 30 points.

JV plays

Wellington

The J.V. girls played very competitive basketball all year long. The Wellington game is a prime example of that. The game was close all of the way through, but the Rockets won 39-49 in the end.

The high point for the game was Shea Green with 19 points. The Varsity teams in the district had better look out for her next year!!

The J.V. Boys played well against the Rockets. Their final score was 34-45 with Rockets out in front.

Leading scorer for the game was Bryan Smith with 17 points.

JV plays

Memphis

The Junior Varsity played Memphis in their last game for the 82-83 season last Thursday, February 10.

Shea Green led the Broncos with 17 points, 8 of which came from the freethrow line.

The J.V. lost by 2 measly points which is always upsetting to come that close. The final was 21-23.

Boonie Gardner was the leading hoopster for the boys that night. He captured 6 points.

The final score for their game was 18-42, Memphis favor.

Troop 180

by SHANNON MYERS
Wednesday, January 12, 1983, the Junior Girl Scouts in troop 180 discussed the cookie sale beginning Friday January 14. We also worked on our Household Whiz badge and gained another

helper, Diana Wiggs. Then we selected Camporee skills. On the day that the cookie sale began all the Brownies and Girl Scouts met at the school and let balloons go to start off the sale.

January 19, we worked on camporee skills. This year we are working especially hard so we can win at camporee doing skills and all of the girls worked on knots.

January 26, we discussed how to find out how heat and hot water are made in your home, school, meeting place or building as a part of the Energy Saver badge. We also worked on camporee skills.

February 2, we were unable to meet due to bad weather.

February 9, Mr. Jerry Chambliss of West Texas Utilities came and told us how we can save electrical energy. He told us that we were not only saving money conserving electrical energy but also saving energy for our children. Lynn Wiggs and Andrea Edwards showed us how to convert salt water into drinkable water.

Delta Kappa Gamma Society

Gamma Kappa Chapter of Delta Kappa Gamma Society met February 12, 1983 in Clarendon at the home of Miss Edgar Mae and Miss Mabel Mongole with Donley County members as hostesses.

Evelyn Messer, president, called the house to order and Mabel Mongole gave the invocation.

During the business session Cora Cavitt of Samnorwood and Gaye McCalister of Wellington were elected to membership.

Betty White, chairman of World Fellowship Committee discusses briefly "Cybernetics and World Education". She then showed a very interesting film entitled "Texas Live the Legend".

The meeting closed with the singing of the Delta Kappa Gamma song.

Refreshments of cake, nuts, maple candies, coffee or tea were served to the group.

Donley County members attending were: Evelyn Messer, Ivy Dea Hinkle, Mabel Mongole and Edgar Mae Mongole.

Clarendon Artist Club

The Clarendon Artist Club will meet Thursday February 17, 1983 at 7:00 p.m. at the Day Care Center. James Ivey Edwards will be giving a demonstration on watercolors.

Chamberlain Community Center

The Chamberlain Community will hold their meeting Friday, Feb. 18th at 7 p.m.

Mr. and Mrs. Lloyd Thomas and Mr. and Mrs. Bob Williams will be the host and hostess. The usual covered dish supper will be served.

LYNN ALDERSON has been selected the F.T.A.'er of January. Lynn is very active in F.T.A. this year. He is also a new member of National Honor Society. Lynn is a sophomore at CHS.

MRS. JEAN STAVENHAUGEN has been selected the F.T.A. Teacher for January. She is our librarian this year. In the past she has been CHS's speech and drama teacher.

LINDA WELCH won the 100 gallons of gas given away by F.T.A. of Clarendon High School at the home basketball game, Monday, Feb. 7. Dyanne Johnson is presenting Linda Welch her certificate.

Martin-Ashtola News

By NAOMI GREEN

To all those who helped in any way with the volley ball tournament last weekend the Ashtola Community extends appreciation and thanks.

Mr. and Mrs. Earl Barker of Groom ate supper and visited Tuesday night with the Doyce Grahams. The Barkers were to leave Sunday for a ski trip.

J.F. White and Mattie Chamberlain were former Ashtolites who returned for the Nolia Marshall funeral and visited with Mrs. Lena Mae Graham Tuesday.

Our sympathy is extended to Leota Bannister and all of the Marshall family. They are residents of Martin and Ashtola for many years.

The Doss Finleys crossed muddy roads while they were frozen over and ventured to Adderline Mahaffey's for Wednesday night.

Mr. and Mrs. Pete Land went to Littlefield Wednesday to see F.A. Fitzgerald who had been very critical in a Lubbock hospital. Mr. Fitzgerald's condition had stabilized and he seemed to be improving by Friday when they returned.

Melba Risley spent the day in Memphis with the Richard Thornberry family Tuesday. The occasion was "grandma itch". If you have never had it, you are a most unfortunate underprivileged probably not a grandma. The only cure is going to see the GRANDchildren.

Jason Green spent the weekend in Amarillo with Rhonda and Lori celebrating his birthday.

Mr. and Mrs. Gene Grimland from Amarillo visited Saturday afternoon with Mr. and Mrs. Warren Hardin.

Jim, Linda and Amy Risley of Denver City were visitors

from Wednesday until Sunday in the Lloyd Risley Home.

Mrs. Frank Hardin who had been transferred to Hall County Hospital from Medical Center is reported improving.

Bernie and Katherine Green were part of the group from Clarendon who were in New Mexico on a ski trip this weekend. Clint, David and Lindsey stayed with their grandparents, the H.A. Greens.

Lloyd, Virgil, Marie, Miles and Tressa Risley of Amarillo visited Sunday afternoon with his parents the Lloyd Risleys.

Mr. and Mrs. Warren Hardin visited Sunday with the Lane Garvins and Brook Lea at Silverton.

Melba Risley was at Alta Adkins Thursday evening at a hostess planning for a shower honoring Tamra Day.

Mrs. Eadith Spivey and Mrs. Becky Lane of Silverton attended the funeral of Eadith's cousin Burl Beavers in Amarillo Saturday.

Mary Jo Hermesmeyer was home from W.T.S.U. for a visit with her parents the Bud Hermesmeyers this weekend.

The Lloyd Risleys played dominos at the home of the Lacy Nobles Tuesday evening.

Claude Johnson of Childress was a visitor in the Claude Spivey home Saturday afternoon.

Horace Green visited with his father, Joe Green of Canyon and with the Billy Jack Green family Thursday.

Pathfinder Club

meets

The Pathfinder Club met Friday, February 11, 1983 at the Patching Club House.

The president, Mrs. Horace Green presided over the business meeting. Mrs. C.J. Van Zandt was acting secretary. The roll call was answered with the name of each member's favorite love song.

The program was presented by Mrs. Frank White, Jr. She gave the love story of Elizabeth Barrett and Robert Browning. Both were well known poets of their time and when they met she was an invalid, almost bed-ridden and he was a dashing man-about-town, several years younger than she. Their love grew and deepened slowly, hindered by her despotic father, who did not want Elizabeth to marry. Finally, when she was 38 and he 34, they eloped and secretly married. When Robbery took her away from under her

father's thumb, she regained her health and strength, and they did, indeed "live happily ever after". The poems they wrote each other during their long courtship are still considered the loveliest love poems ever written.

played several love songs on the piano to conclude the afternoon's program.

The hostesses, Mrs. Paul Cook and Mrs. Tommie Saye served a congealed salad, cheese-spread crackers, and tea or coffee to the following members: Mrs. Raleigh Adams

Adams, Mrs. C.E. Bairfield, Mrs. Rolle Brumley, Mrs. Dick Delaney, Mrs. H.A. Green, Mrs. Clarence Hamilton, Miss Mable Mongole, Mrs. Heckle Stark, Mrs. C.J. Van Zandt, Mrs. Frank White, Jr., and Mrs. Joe Wells.

Doing MORE...With LESS!

by the staff of THE MOTHER EARTH NEWS

EFFICIENT TRANSPORTATION WITH HUMAN-POWERED VEHICLES

A bicycle is the most efficient transportation device yet developed. With its highly effective roller-chain-and-sprocket drive system, the two-wheeled conveyance is about five times more energy-thrifty—when distance and weight are taken into account—than is either an unaided human or an automobile. The bicycle's drive system can deliver up to 96% of the energy put into it, and it has the advantages of light weight, strength, and simplicity besides. (In comparison, an automobile transmission—which is neither light nor simple—is about 85% efficient.)

It should come as no surprise, then, that a lot of folks would like to see more attention given to this potential energy-saver in our fuel-scarce world. Of course, in many countries, the bicycle already plays as important a role as a transportation mode as does the motorized vehicle—but in North America it's generally been relegated to sporting or pleasure status. The International Human Powered Vehicle Association, however, hopes to change all that. This Clarendon, California-based group—founded in 1974 by bike-racing enthusiasts who were interested in expanding the frontiers of vehicle design—has sponsored annual speed championships since its inception, and, as a result of the competitions, a new sort of machine has emerged which just might be the forerunner of a swift, practical human-powered commuter vehicle!

For example, the 1981 IHPVA competition included several events in two categories: single- and multiple-rider vehicles. In the first event, a 200-meter time trial, entrants competed to achieve the greatest possible velocity over a flat 656-foot stretch. The second contest was an 18-mile road race designed to test the maneuverability and road-handling capability of the pedal-powered vehicles. And the speeds recorded in both events were impressive... averaging about 32 miles per hour for the distance race, and peaking at close to 60 MPH in the sprints.

In order to achieve such speeds, HPV builders must concentrate primarily upon aerodynamic design, though rider position also comes into play. For example, at 30 miles per hour, 90% of the energy expended by the rider of a conventional bicycle is wasted in trying to overcome wind resistance. To decrease inefficiency, the more radical human-powered vehicles use tubular alloy frames surrounded by shells and place the rider in a supine or prone posture for maximum pedaling power. Of course, some HPV designers practice "middle ground" technology... by simply placing lightweight fairings over slightly modified ten-speed bike frames.

No doubt a number of changes are in store for the "traditional" bicycle over the next few years. Although today's handcrafted racing HPV's aren't often commercially available, any vehicle that uses only one-quarter horsepower to move rapidly down the highway deserves a lot of attention... and these little energy-savers may get plenty of it as time goes on!

You can learn even more about HPV's by joining the International Human Powered Vehicle Association. Dues are \$10 per calendar year (\$11 in Canada and \$12 in all other countries), and membership includes a subscription to the association's new bulletin, *Human Power*, and reduced entry and admission fees to all IHPVA events.

"BIBLE QUESTIONS ANSWERED"

"Does the Bible teach that there is but one church?"
Answer-Matthew 16:18... Upon this rock I (Christ) will build my church; and the gates of hades shall not prevail against it.

Matthew 15:13...Every plant which my heavenly Father planteth not shall be rooted up.

John 17:21...That they all may be one...

Ephesians 4:4-6...There is one body, and one spirit, even as ye are called in one hope of your calling; one Lord, one faith, one baptism, one God & Father of all, who is above all, and through all, and in you all.

Please address all your Bible Questions to the Clarendon Church of Christ, Box 861, phone 874-2495. The Bible answer will appear in this newspaper.

Surles-Riggs engagement announced

Mr. and Mrs. Albert Surles Jr. of Plano, announce the engagement of their daughter, Kathe, to Walter W. Riggs, son of Mr. and Mrs. Wayne Riggs of Clarendon. The wedding is planned for 7:30 p.m., March 19, at Liberty Baptist Church.

The bride-elect was a 1978 graduate of Plano High School and a 1982 graduate of Texas Tech University. Her fiancé was a 1976 graduate of Clarendon High School and a 1980 graduate of Texas Tech University. He is currently employed as a loan review officer at BancTexas in Dallas.

Lakers Homemakers has meeting

February 14, 1983 the Lakers held their monthly meeting at Howardwick City Hall.

Meeting was called to order, minutes read and approved.

Program presented by Cheri Brown, Donley County Extension Agent, a display of fabric decorated items, including a parsons table, bedroom door mirror and picture frames. It is amazing what can be renovated from items you would normally discard!

Penny Butts demonstrated sewing the folded star pot-holder.

Lela Whitehead gave report of District I Planning, meeting was in Spearman on January 25, of which several members attended.

Delicious cookies and fruit punch was served by this month's hostess, Polly Sarich, assisted by Alice Hood.

A log cabin pattern was selected for the quilt which will be given away the 4th of July. Tickets will be \$1.00 each and will be out at a later date.

KATHE SURLS AND WALTER RIGGS

Ten of our club members and husbands attended the Extension Homemakers Salad Supper, January 29, in the First Christian Church. We are grateful to the church for use of their facilities. Thank you!

We extend our congratulations to Pat McCombs as the Donley County "Woman of the Year".

Our Lakers Club "Woman of the Year" nominee, Lola Bartel, received by surprise, a beautiful bouquet centerpiece of yellow roses from her daughter, also a lovely corsage of silk daisies and a serving bowl from our club members.

Entertainment was enjoyed by all, from the Chambliss family members, Jerry, Wayne and Michelle, also Tamra Phillips and Jim Adams. In an atmosphere of western decor.

Some of the door prizes were made by Margaret Pettit.

Pictures were taken and some presented to Alice Hood for the Lakers Club Scrap Book.

We want to welcome our two new members into the club. Welcome to the club, Alta Reynolds and Debbie Hamilton.

Members present at this meeting besides the new members were: Lucille Boren, Penny Butts, Ann Edwards, Alice Hood, Eliza

beth Maxey, Lois McVicker, Willie Moore, Beatrice Rogers, Polly Sarich, Lena Singlettery, Margaret Well, Lela Whitehead, Margaret Pettit and again we thank Cheri!

Now a little thought for the day "If you want to be happy, try to make others happy."

Emergency care attendant class

The Emergency Care Attendant Class which is to be held from March 1 to April 1 from 6 to 10 p.m. on Tuesday and Thursday nights at Clarendon College, is beginning to fill quite rapidly. Already, the class looks to be approximately one-third full with one and a half weeks still left before it begins.

This class is open to the general public. Those attending the class will learn how to recognize and treat all types of injuries and medical conditions as well as how to deliver a baby in an emergency situation and how to use things available to you in everyday life to be able to save lives. Upon successful completion of the class, the student will be certified as an

ECA for a four year period at which time, he will need to take a refresher course. This is a new regulation by the Health Department, previously the student was only certified for two years.

This class is very intensive but anyone who is willing to spend time reading and prac-

ting skills in class should be able to do very well, and can come away knowing they have the knowledge to save a life should the situation arise. The books and tuition for the class will only be approximately thirty dollars instead of the usual fifty dollars. This is a good opportunity for those in the community to learn lifesaving skills at a reduced price. This class will probably not be taught again for this price.

It is emphasized that those taking the class will not be expected to join the EMS or the Fire Department.

Clarendon firefighters who are interested in working rescue, should make every effort to attend this class. It also counts forty hours toward state volunteer firefighters certification. Any fireman interested should contact Pat Robertson no later than February 25 to be assured of an opening being held for them.

Instructors for the class will be Pat Robertson, Paramedic; Phillip Vargas, Paramedic; and Wynona Mooring, EMT. Contact any one of these for more information.

A Land Bank loan... for more than just buying land

Many people think of the Federal Land Bank only when buying land. Truth is, there are many other ways to use long-term Land Bank loans.

You can:

- ✓ Refinance debts
- ✓ Pay estate taxes
- ✓ Improve land
- ✓ Build or remodel

Long-term Land Bank loans keep payments manageable so that these and other farm needs can be handled more easily. So stop by and see how the Land Bank can help.

4-H Horse Project to hold meeting

The 4-H Horse Project will hold their meeting February 22 at 7 p.m. in the Community Center.

There will be a panel discussion about Horsemanship conducted by Trista Moore. Other members on the panel are: Donnie Hall, Berl Hollar, Johnny Hill, Ike O'Neal and Chris Anderwald.

After the meeting there will be a work period for those who have started their head styles. For those who have not started their head

styles, this will be your opportunity to start yours.

All 4-H Horse Project members are urged to attend.

Heart Attack Study

The National Institutes of Health are supporting a study program which lowers cholesterol to unprecedented levels. With heart disease the number one killer in

America today, the aim of this nationwide study is to determine if lower cholesterol levels will reduce the risk of heart attack.

The study researchers need subjects who are age 29-64 and have suffered only

one heart attack. The attack should have occurred in the last five years. Subjects should not have had a stroke, diabetes or heart surgery.

Southern: Little Rock, Ark. collect (501) 661-5291, toll free 1-800-643-8719.

The center will cover transportation and lodging costs for each prospective participant and an interested family member. The study staff works closely with each participant's private physician.

TRACY S. STUDER

Clarendon School Superintendents List

February 21-25
Monday-Teachers Inservice Day

Tuesday-Salisbury Steak with gravy, mashed potatoes, fried okra, hot rolls, peaches and milk.

Wednesday-Pig in a blanket, blackeyed peas, scalloped potatoes, mixed fruit and milk.

Thursday-Pinto beans, cornbread, macaroni and tomatoes, buttered spinach, cookies and milk.

Friday-Chili Burgers on bun with cheese, lettuce and tomato salad, tater tots, peach cobbler and milk.

Tracy S. Studer, a high school sophomore at New Mexico Military Institute, has been placed on the Superintendent's List for academic achievement for the first semester of this school year. Studer is the son of Mr. and Mrs. Melton McCowen of Clarendon. To qualify for the Superintendent's List, a cadet must have a grade point average of 3.75 or better out of a possible 4.0 and an A in department.

Sally Nicole Baldwin

Mr. and Mrs. Russell Baldwin are parents of a daughter Sally Nicole, born Friday February 4, at 10:26 a.m. at High Plains Baptist Hospital in Amarillo. She weighed 7 lbs. 14 1/4 oz. and is 20 inches long.

She has a brother, Zach, who is 3 1/2 years old.

Grandparents are Mr. and Mrs. Snooks Sparks of Clarendon and Mrs. Berniece Wood of Silverton.

Dental Health Month

by DAN BENTLEY, DDS
The month of February, along with many other special occasions, is a time we observe as Dental Health Month. Good dental health is a daily activity that should begin at birth and continue throughout your entire life. Enormous strides have been made in dentistry. In the past it was commonly assumed that sooner or later, we would all need dentures. This is no longer true. The teeth were made to last a life time, if properly cared for by daily home care and regular dental visits. Please take the time to think about your mouth this month. You use it everytime you smile. Some of us aren't smiling as much as we should.

MEDICINES AT HOME

Patrons frequently ask the pharmacist, "What types of medicines should I keep in my home?". The pharmacist's answer will depend on various factors including the ages and health problems of family members, health problems that occur in the geographic area, as well as the season of the year. Having a few well-selected items in the home may prevent a late night trip to the emergency room or unnecessary suffering while waiting to obtain an appropriate product.

FIRST AID - adhesive bandages, hydrogen peroxide, antibiotic ointment, antiseptic

SKIN RASH - hydrocortisone cream, ointment, or spray [useful for a variety of skin problems]

SWALLOWED POISONS - syrup of ipecac to induce vomiting of certain swallowed poisons

PAIN - preparation containing aspirin or acetaminophen-

STRAINS/SPRAINS - ice bag and hot water bottle or heating pad

UPSET STOMACH - antacid tablet or liquid

COUGH AND COLD - any of various preparations useful for relief of symptoms

Board of Aldermen minutes

FEBRUARY 8, 1983

The Board of Alderman of the city of Clarendon met in regular session on February 8, 1983, in the Board Room, City Hall at 7:00 p.m. Members present were Mayor Shirley Clifford, Aldermen Gene White, J.G. McAnear, Lloyd McCord,

SHALANE CHAMBERLAIN and DENNIS BRADDOCK are 1982-83 Clarendon High School Band Queen and King.

Xi Lambda Xi meets

Xi Lambda Xi met on January 24, 1983, in the home of Janie Finch with Betty Veach as co-hostess. Pres. Pat McCombs brought the meeting to or-

der. All sisters repeated the Opening Ritual in unison. There was no correspondence from International Headquarters. No treasurer report due to the fact our treasurer was absent. Pres. Pat McCombs reported to the sorority what our Council had decided on the details of the Sweetheart Ball on February 12, 1983 at the Country Club. Assignments were made between Xi Lambda Xi and Alpha Upsilon Epsilon. Concerning decorations, Pat McCombs, Charlene Mays and Maureen Butts had met and suggested decorations for the tables and they showed their suggestions. The Decoration Committee will meet later. Charlene Mays and Barbara Morrow were in charge of the program entitled "Lively Arts: Television, Something for Everyone". Terry Scoggins was invited to be our guest speaker. We learned more about the most influential communication form in all history-television. Terry gave an interesting and informative picture of television.

Frankie Henson, Peggy Anderson, Janie Finch and Betty Veach.

4-H Club meeting

The Donley County 4-H Club will hold its monthly meeting on Monday, February 21, at 7 p.m. in the Clarendon College Cafeteria. The program will be presented by Dr. Martha Couch, 4-H and Youth Specialist, on "District, State, and National 4-H Opportunities". All 4-H'ers, parents, and visitors are encouraged to attend and learn what 4-H has to offer. Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages, regardless of socio-economic level, race, color, sex, religion or national origin.

The first modern submarine was developed by John Holland in 1900.

House warming party

A housewarming party was given in honor of Mr. and Mrs. Bob Bell and Athena, Sunday Feb. 6th. Coffee, punch and cookies were served in their new home to friends attending.

Those present from Hedley were: Margaret Holland, Opal and James Evans, Earl Wheatley and Sharron Sue Weatherly, Don Springer, Patsy Springer, and Robin. From Clarendon attending were: Lovie Taylor, Nancy Taylor, Leveta Klinnert, Becky Phillips, Doris and Adenia Mills, Gayle Skinner, Fay and Brandy Vargas, Jean McAnear, Gerry Skinner, Elizabeth Bohannon, Neita Phillips, Gwen Bohannon and Marie Bell.

ESLK

and Richard Bell. One member absent was Alderman James Kuhn. Others present were City Secretary Donna Edwards, City Engineer Gene Barber, Richard Morris, David Ray and Jerry Ray of Ray Electric Amarillo; Allen Estlack of Estlack Electric, Clarendon; Roddy Klinnert of Tri-State Mechanical, Clarendon; Mr. Frazier of Frazier-Fleming Company, Lubbock. *Minutes of the January 25, 1983 meeting were read, and approved. *Bids for the Clarendon Municipal Lighting Replacement Project were opened by City Engineer Gene Barber. Mr. Frazier of Frazier-Fleming Company, Lubbock, Texas, was two minutes late bringing in his bid due to car trouble during his trip from Lubbock. The late bid was accepted. After opening the bids and calculating the figures to ensure there were no errors, the contract was awarded to Ray Electric of Amarillo with a low bid of \$14,256.00 subject to TAC approval.

*Roddy Klinnert discussed with the Board the need for the City to issue electrical licenses, to be renewed annually, to all practicing electricians in the City of Clarendon. This would make it possible for these electricians to take on out-of-town jobs without taking a test each time and paying for a license in each town in which they work. As the City of Clarendon already had an Ordinance which states that such a license is required, the Board decided that it is in the best interests of the City of Clarendon that this Ordinance be enforced and all practicing electricians in the City of Clarendon will be required to take a current Electrical Examination. Upon passing the test, the electrician will be issued an Electrical license. The initial fee for issuing the license will be \$25.00 with a renewal fee of \$10.00 annually. Those electricians who have paid the initial fee in the past will be required to take the test and pay only the \$10.00 renewal fee. As soon as the City Secretary has the tests and licenses ready, notification will appear in the Clarendon Press.

*Bills incurred by the City in the month of January, 1983 were ordered paid. *It was brought to the attention of the Board by Mayor Shirley Clifford that an Ordinance dated July 10, 1951, which prohibits peddlers from going onto private property is invalid because of a State law which states that a municipality does not have that power. As a result of this ruling, said Ordinance was repealed.

*It was decided by the Board that in order to be eligible for the National Flood Insurance Program a Resolution would need to be passed stating that compliance with the regulations of the National Flood Insurance Program would be adhered to by the City of Clarendon. Mayor Shirley Clifford will ask City Attorney Jerry Courtney to draw up the Resolution.

*There being no other City business at this time, the meeting was adjourned.

DELINQUENT TAX NOTICE

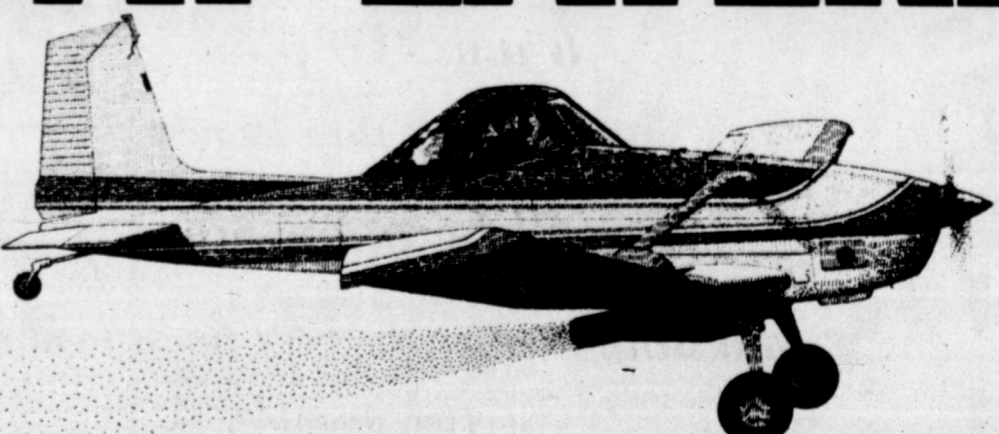

1982 local property taxes not yet paid are delinquent and will now be assessed penalty and interest. The following table indicates the penalty and interest for each month through June:

	Feb.	March	April	May	June
PENALTY	6%	7%	8%	9%	10%
INTEREST	1%	2%	3%	4%	5%
TOTAL	7%	9%	11%	13%	15%

Payable at Donley Appraisal/Tax District, Courthouse Annex.

SPRING SPECIAL ON GRASLAN BRUSH CONTROL:

FLY NOW, PAY LATER.

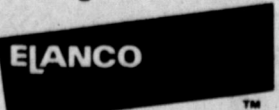

Order aerial-applied Graslan before June 30 and save all these ways:

- 1** Buy at 1982 price with guaranteed protection.
- 2** No payment required until December 15, 1983.
- 3** Extra discounts for payment before December 15.
- 4** Additional 4% discount when Graslan applied at Elanco's convenience.

*We recommend application this Spring to get Graslan's brush control benefits a year earlier. Then, when the cattle market improves, you'll be ready with more grass for higher carrying capacities.

**Graslan gets the brush.
You get the grass.**

Graslan is a totally new, proved effective approach to brush control. A high-density, pelleted herbicide that works through the roots of sand shiner, oak and other troublemakers... controls them for years in just one application. For early-order savings, see your Graslan Range Management Specialist. Or right now, call toll-free:

Pioneering a new era in range management.

Q: I spent my vacation in Florida this year and got to see some television coverage of a murder trial. The trial was very interesting and I felt I learned a little about the criminal justice system. My question is... why aren't trials televised in Texas?

A: At present, Texas does not allow live or taped coverage of courtroom proceedings by television or radio. The ban on cameras also extends to still cameras, the type used by newspaper photographers. At this time, at least eight states allow television coverage of trials while a number of other states are allowing some coverage on an experimental basis.

to the seller. Should we default on second lien payments but continue paying the mortgage company, could the second lien holder repossess our house?

A: Yes, the seller can probably repossess if you default on the second lien. Remedies for your default are spelled out in the Deed of Trust you signed at closing, creating the inferior lien and providing for notice, repossession, and other enforcement measures. You signed two Deeds of Trust that day, one giving repossession rights to each person or each institution that lent you money!

Q: If a company with pending contracts sells to another company, does the purchaser have to fulfill the contracts?

A: The sale documents describe what the buyer purchased. There are many variations on the purchase of an on-going business, from equipment only to future-income from current contracts. Parties typically contract to bind themselves and "their successors and assigns."

This wording allows contractual obligations to be sold, bought or assigned. The new owner would stand in the place of the original contractor; he would have to fulfill the contracts or defend his breach.

Q: What is the county liability, if any, for property damage resulting from extreme water runoff from a county road?

A: Under the doctrine of sovereign immunity, a governmental unit is not liable for property damage that results from negligence of the county or its employees.

The property owner may sue for relief in only two situations. If the water creates a nuisance that interferes with use of the property, he may sue to force the county to correct the road. Second, if actual damage is caused by unreasonable interference with his property, he may sue for depreciated market value, costs of repair, or damage to crops and land.

Q: My husband and I have given a second lien on our house

NOTICE
Notice is hereby given by the Parks and Wildlife Department that a public hearing will be held at 7 P.M. on March 23, 1983 at the County Courthouse at Clarendon for the purpose of gathering information concerning proposed hunting and fishing regulations for Donley County.

As the result of action by the Texas Legislature, the Texas Parks and Wildlife Commission, under the authority of the Uniform Wildlife Regulatory Act, Chapter 61, Texas Parks and Wildlife Code, is responsible for the setting of seasons, bag limits, means, and methods for taking the wildlife resources in Donley County. All interested persons are urged to attend and comment upon the proposed regulations.

Additional information concerning the public hearing may be obtained by calling our Toll Free Number 1-800-792-1112 or 512-479-4974.

JUNIOR HIGH TWIRLERS,
Cassi Stewart and Gina Smith

Q: What action can I take against a store that refuses to return a down payment, but has not delivered the merchandise for over six months?

A: Unless you agreed otherwise, the merchant must deliver in a reasonable time, but "reasonable" has to be determined in each case. Are the goods routinely stocked, or were they special ordered? If a reasonable time has passed, you may sue for return of your down payment, you may sue to force delivery, or you may even sue for the cost of replacing the merchandise or the cost of not having it when expected.

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

A&M expert says price scanners will benefit consumer

COLLEGE STATION — Despite consumer complaints, price tags must be removed from grocery items if supermarkets hope to realize the full benefits of new scanner systems used at checkout stands, says a marketing expert.

Most of the 5,000 grocery stores in the United States that use scanners aren't getting their money's worth from the equipment and won't realize the full economic benefits until they eliminate costly and labor-intensive item price-marking, says Dr. Valarie Zeithaml of Texas A&M's College of Business Administration.

"They haven't removed the price tags because of consumer resistance," she said, "but with time, and by using proper strategies that recognize customer needs, stores should be able to successfully overcome the resistance."

CONTRACT NO. 25[C]83[HM]102: Collingsworth County: U.S. 83: From Collingsworth/Wheeler County Line to S.H. 256; Length: 45.8 miles; Approximate Area: Type I: 374.05 acres; Type II: 448.4 acres.

CONTRACT NO. 25[C]83[HM]103: Donley (Hall) County: U.S. 287: From Donley/Armstrong County Line to Estelline; Length: 53.6 miles; Approximate Area: Type I: 540.97 acres; Type II: 657.41 acres.

CONTRACT NO. 25[C]83[HM]104: Wheeler County: I.H. 40: From Wheeler/Gray County Line to Shamrock, to include all of F.M. 1547 (Wheeler County), F.M. 2474 and F.M. 3075; Length: 24.1 miles; Approximate Area: Type I: 386.56 acres; Type II: 440.01 acres.

CONTRACT NO. 25[C]83[HM]105: Wheeler County: I.H. 40: From Shamrock to Oklahoma State Line to include all of F.M. 1802, F.M. 2168 and Spur 30; U.S. 83: From Wheeler/Hemphill County Line to Wheeler/Collingsworth County Line; Length: 48.85 miles; Approximate Area: Type I: 492.24 acres; Type II: 604.99.

Proposals, plans and specifications for the above contracts may be obtained at the Department Office of the following Maintenance Construction Supervisors: John W. Rothwell, Jr., Childress; Donald R. Fowler, Wellington; Donald E. Eads, Clarendon; Joe B. Hall, Shamrock; or District Office, Childress.

Proposals will not be consolidated for bidding purposes. Bidder must submit individual bids for any of the above separate highway mowing contracts.

LOCAL INVITATION TO BID ON HIGHWAY MOWING
MARCH 10, 1983

Sealed proposals for six separate mowing contracts in Cottle/King, Dickens, Foard, Hardeman, Knox and Motley Counties will be received at the State Department of Highways and Public Transportation District Office at 1700 Avenue F, N.W., Childress, Texas 79201, until 9:00 a.m., March 10, 1983.

CONTRACT NO. 25[C]83[HM]106: Cottle and King Counties: U.S. 70: From Cottle/Motley County Line to Cottle/Foard Co. Line; U.S. 83: From South Pease River south to the King/Stonewall County Line, to include all of F.M. 3256 and F.M. 2998; U.S. 82: From King/Dickens County Line to King/Knox

County Line; Length: 119.5 miles; Approximate Area: Type I: 619.95 acres; Type II: 950.4 acres.

CONTRACT NO. 25[C]83[HM]107: Dickens County: U.S. 82: From Dickens/Crosby County Line to Dickens/King County Line, to include all of F.M. 2941; S.H. 70: From Dickens/Motley County Line to Dickens, Texas; Length: 51.4 miles; Approximate Area: Type I: 503.45 acres; Type II: 632.5 acres.

CONTRACT NO. 25[C]83[HM]108: Foard County: S.H. 6: From Foard/Hardeman County Line to Foard/Knox Co. Line; U.S. 70: From Foard/Cottle County Line to Foard/Wilbarger County Line, to include all of F.M. 654, F.M. 1039 and F.M. 2566; Length: 66.8 miles; Approximate Area: Type I: 369.4 acres; Type II: 526.5 acres.

CONTRACT NO. 25[C]83[HM]109: Hardeman County: U.S. 287: From F.M. 268 to Hardeman/Wilbarger County Line, to include all of F.M. 925; S.H. 6: From Oklahoma State Line to Hardeman/Foard County Line; Length: 48.2 miles; Approximate Area: Type I: 481.1 acres; Type II: 593.9 acres.

CONTRACT NO. 25[C]83[HM]110: Knox County: U.S. 82: From Knox/King County Line to Knox/Baylor County Line; U.S. 277: From Knox/Haskell County Line to Knox/Baylor County Line, to include F.M. 266 from U.S. 82 to Goree; S.H. 6: From Knox/Foard County Line to Knox/Haskell County Line; Length: 87.58 miles; Approximate Area: Type I: 556.65 acres; Type II: 763 acres.

CONTRACT NO. 25[C]83[HM]111: Motley County: U.S. 62-70: From Motley/Floyd County Line to Motley/Cottle County Line, to include S.H. 70, from Matador to Motley/Dickens County Line; Length: 44.39 miles; Approximate Area: Type I: 188.85 acres; Type II: 312.6 acres.

Proposals, plans and specifications for the above contracts may be obtained at the Department Office of the following Maintenance Construction Supervisors: Kenneth W. Young, Paducah; Brice P. Lindsey, Dickens; Gene R. Crabtree, Quanah; Carl L. Bruce, Munday; Clay R. Jameson, Matador; or District Office, Childress.

Proposals will not be consolidated for bidding purposes. Bidder must submit individual bids for any of the above separate highway mowing contracts.

A Pre-Bid Conference will be held with Mr. Lewis H. White, District Engineer, at the District Office in Childress, Texas at 10:00 a.m., March 3, 1983. Persons interested in bidding on any of the contracts should attend this pre-bid conference.

The State Department of Highways and Public Transportation, in accordance with the provisions of Title VI of the Civil Rights Acts of 1964 [78 Stat. 252] and the regulations of the U.S. Department of Transportation [15 C.F.R., Part 8], issued pursuant to such act, hereby notifies all bidders that it will affirmatively insure that the contract entered into pursuant to this advertisement will be awarded to the lowest responsible bidder without discrimination on the ground of race, color, or national origin.

CONQUERING
CANCER

Facts From The National Cancer Institute

Less Radical Response

Many women worry more than they have to. For instance, the odds are six to one that a woman who finds a lump on her breast does not have breast cancer. Yet many women put off going to the doctor because they're afraid to face the possibility of cancer.

Many women fear they have cancer when they don't. See a doctor to be sure.

Even those women who do have breast cancer may

be overly worried about undergoing a cure. Unlike the days of even a decade ago, the total removal of the entire breast and chest muscles is not considered the only course in most cases of early-stage breast cancer.

Instead, less radical operations are performed and at least 80 percent of women who do undergo mastectomies may be eligible for breast reconstruction, which itself has been greatly refined and improved during the last few years, both in materials used and surgical technique.

In addition, chemotherapy and radiotherapy are used in some cases.

Free booklets on a woman's options if she develops breast cancer, plus step-by-step instructions for breast self-examination, are available from the National Cancer Institute, Bethesda, MD 20205.

Hedley Basketball

If you were in Hedley Monday night, and didn't go see the Hedley Owls play Lela you missed four good games and two of the most delightful games you could ever want to see.

The Hedley Owls junior high teams combined with Hedley first and second graders, took on the round ballers from Lela.

In the first game a team of girls, half regular junior high and half first and second graders played a similar team from Lela. You have never seen such a ball game with so much consideration and sportsmanship. The older team members worked hard to get the ball down to their end of the court, then passed the ball to one of the smaller team members to shoot the basket. While the older team members on the opposing team worked just as hard to keep the ball on their end of the court. But once the ball was passed on to one of the smaller girls, all the older girls on both teams watched in anticipation as the younger ones shot at the basket. Two of the highlights in the girls game was when one small Hedley Owls took off with the ball, only to run to the wrong end of the floor, while two older girls ran after her while the opposing team kept their positions until the ball was brought back to the right end of the court. With the score 4 for Hedley and 6 for Lela with just seconds left, little Shawna McCrary took the ball and with a mighty push, upped the ball and it fell in

the basket just as the buzzer went off tying the game 6 to 6.

The Junior High Boys team made up of Keith Watt, John Shields, Billy Clubb, Michael Head, Shawn Bright Chris Ward, Billy Ray Cates, Chad Wiggins, Randy Kirkpatrick, Guy Watt, Bud Drum and Kevin Brenum beat the Lela team 32-22 with John Shields scoring high point of 12 points.

The Junior High Girls team beat Lela by a score of 22-14. Team members are: Selina Kennedy, Deedra Word, Mary Ann Quijada, Danna Guthrie, Carman Quijada, Amy Shields, Carol Glover, Cheryl Glover, April McCary, Cindy Kirkpatrick, Linda Baker, Susan Phelps, Larrisa Floyd, Nora Andavidra, Jessica Sims, Stacy Cole and Sherrie Holland. Amy Shields, Carol Glover and Cheryl Glover all scored 6 points each.

In a similar game played with mixed junior high and first and second grade boys teams, the Hedley Owls tied the Lela team when Jason Ward scored 2 points evening the score 10-10.

Jason stole the ball 17 times during the game.

All the members of both teams can't be given enough praise for their sportsmanship. It was a pleasure to watch these teams play.

The Bahamas comprise about 3,000 low islands and rocky islets.

Hedley News

By DARLENE BALL

Visiting in the home of J.D. Morrison, Pauline Kaufman and Shorty Crawford this week was Mr. Morrison's sisters, Mrs. Morgan Dennis, Dimmitt; Coe Garbin, Graham; Mrs. Owen Pyeatt, Amarillo; and Mrs. Curtis of Amarillo. Also visiting was a niece Wanda Sagar from Freewater, OR.

Merlene Sargent came home from the hospital this week.

RAMONA WOODARD

Composed and recited by
James A. "Cotton" Eppers
1905, at age 9 years old

When George Washington was President
He saw full many an icicle
He never on a railroad went,
Never rode a bicycle.

He read by no electric lamps, nor
Heard about the Yellowstone,
Never licked a postage stamp,
Never saw a telephone.

His trousers ended at his knees,
By wire he could not send dispatch.
He filled his lamps with Whale Oil grease,
Never had a match to strike.

But in those days it came to pass
All work is with such dashing done,
We've all those things, but alas
We have no Washington.

"Cotton" and his wife Ola have lived in the Hedley community for 66 years. They have been married for 68 years. In June they both will celebrate their 87th and 86th birthday. Hats off to both of them.

Farmers and ranchers have taken blows

In 1982 the Federal Intermediate Credit Bank of Texas loaned \$2.5 billion to Texas farmers and ranchers through 30 Production Credit Associations (PCAs) and 17 other financing institutions in the state.

James A. Rogers, president of FICB, noted the figure was down slightly from the 1981 volume of \$2.6 billion due to adverse weather and economic trends in agriculture. Number of bor-

rowers served also was down to 17,316 from 17,366.

"It is hard to dispute the fact that in 1982 Texas agriculture took some of its hardest blows since the Great Depression," says Rogers.

But the chief executive officer quickly adds, "We at FICB are taking steps to ensure the Texas Farm Credit System remains ready willing and able to provide support to farmers and

ranchers.

Rogers referred to President Reagan's remarks made during the recent national Farm Bureau convention held in Dallas.

Reagan said, "Let me allay any concerns that you may have regarding the Farm Credit System. I support it and expect it to continue providing substantial assistance to the farm community, as it has in the past."

Rogers continued, "There are no quick fixes or easy solutions to the adversity dealt to those in Texas agriculture. But we are working hard to continue providing constructive credit that farmers and ranchers expect and need.

In some cases Farm Credit has tightened their credit policies and are counseling ag producers on an individual basis," he says. "We want to support farmers and ranchers every way we can. However, we do not feel it is in their best interest to extend credit for operations that are obviously getting further and further in debt with no chance of getting out. There are situations where it is better to advise a potential borrower to salvage what he can rather than go further in debt."

"We have stressed compassion for the plight of the individual farmer, but the System's hard-earned respect and the welfare of the majority of our borrowers cannot be jeopardized," Rogers says.

Rogers believes the Payment in Kind (PIK) program will buy time for some people to make needed adjustments and to reduce inventories. Other farm policy must be developed to move agriculture back to a sound financial basis.

Production Credit Associations have been a source of agricultural loans since 1933. Nationally they serve the credit needs of more than 380,000 farmers, ranchers and commercial fishermen, with more than \$22 billion in loans outstanding.

Big Ben is the 13 1/2 ton bell in the clock tower of the Houses of Parliament in London—the name is often incorrectly applied to the clock itself.

Sherrie Hill, of Hedley, has been selected Sophomore Favorite at Cisco Junior College by her fellow classmates. Sherrie, the daughter of Mrs. Martha Hill, is a sophomore Business major and a graduate of Hedley High School.

There is no tree at traditional Greek Christmas celebrations. Instead, a small cross wrapped in herbs is kept in a bowl to protect the house from prankster goblins.

Regulations to encourage vaccination for brucellosis

Regulations designed to encourage vaccination for brucellosis control went into effect Jan. 12. They will apply to cattle being shipped into Texas as well as cattle being moved intrastate.

Dr. John W. Holcombe, executive director, Texas Animal Health Commission, said that vaccination of eligible female cattle is a cornerstone of the Texas brucellosis program. "The new regulations reflect this. In order to more effectively control brucellosis, we simply need to get more cattle vaccinated," he said.

More than 98 percent of all cattle herds in Texas are now free of brucellosis. "This is a good record, but we need to get at the remaining infection in this state. These regulations relating to vaccination will help us accomplish this goal," Dr. Holcombe explained.

The two-area program for Texas will become Class B and Class C as of Jan. 12. This means the present Class

A control area which comprised 140 counties in the western half of the state will become Class B. The present Class B area, which comprises 114 counties in the eastern half of the state, will become Class C area.

The new vaccination requirements for cattle entering either area of Texas are:

After July 1, 1983 female breeding cattle four months of age or older, with some exceptions, must be vaccinated before entering Texas. he exceptions, cattle from commuter herds, cattle designated to go to a quarantined feedlot or slaughter, and cattle born prior to Jan. 1, 1983 moving from one area to another within the state.

Female cattle four months of age or older born after Jan. 1, 1983 must be vaccinated when moving from one area to another in Texas. However, female cattle born prior to Jan. 1, 1983 moving from one area to another area in the state need not be vaccinated.

Cattle born after Jan. 1, 1983 changing ownership within the C area must have two negative tests at least 60 days apart unless they have been officially vaccinated.

Non-vaccinated female cattle entering either B or C area of Texas from a Class C state or area require two negative tests 60 days apart until July 1, 1983.

Dr. Holcombe noted changes in the Code of Federal Regulations go into effect Jan. 12. "These changes in the Texas program conform to that code," he said.

The Liberty Bell cracked in 1835 while tolling the death of Chief Justice John Marshall.
