A Fine Paper For Fine People

Long Sought FM Road Into Spade Flat To Become A Reality

The Leader received a letter and press release from V. J. McGee, District Highway Engineer at Childress, Tuesday morning stating that the Texas Highway Commission this last week approved the 1968 Texas Farm to Market Road Program.

Included in the program is the long sought Farm to Market road across Salt Fork of Red River near the Rowe Ranch headquarters leading into Spade Flat south of Alanreed.

The Donley County project extends from the end of FH Road 1260, 5 miles north of U. S. Highway 287, east and north a distance of 5 miles. The present pavement now ends east of the Hillis farm in the Midway community. Estimated cost of the work is \$270,000.

We understand this next extension will cross the river and beyond approximately 1 mile, which will still leave a gap in the connection with the pavement extending south of Alanreed but will afford those people a good route into the county seat and school buses will have an all weather crossing of the river.

The work authorized in this county is part of 826 miles of Farm to Market road development. The 1968 program will add 545 new miles bringing the total designated mileage of the Texas FM-RM system to almost 39.5 thousand miles, and includes advance stage construction on some roads already begun. Total cost of the work is \$23.8 million.

CHS DRILL TEAM PLANS BAKE SALE

The Clarendon High School Drill Team will sponsor a Bake Sale Saturday, July 27 with food placed at Cliffords' Grocery, Landers & Ray Super Save, and Junior's Food Market beginning at 9:30 a.m. Members of the Drill Team will appreciate your support. Money will be used to help send our school cheerleaders to Cheerleaders School at Dallas in August.

CLARENDON COLLEGE ENTERS 2ND TERM

Dean Beryl Clinton announced this week that the second semester of summer school at Clarendon College was well under way. A total of 109 students have registered representing something over 10 per cent increase from the same period last year. Most classes conducted the first semester are being continued through the second summer term.

Study of Retarded Program To Be Fri.

Representatives from the Amarillo State Center under the supervision of the Texas Department of Mental Health and Mental Retardation will conduct a meeting Friday morning, July 26, at 10 a.m. in Lions Club Hall for the purpose of providing the Center an opportunity to present the possibilities of sending a traveling diagnostic and evaluation team to Clarendon for screening pre-school and post-school individuals. There is also a possibility that screening can be done for any parent who may be interested in such a service.

After the screening program, if sufficient children are in need of this service, the State Center hopes to start a class for these individuals in Clarendon. Should the community desire this screening service, it will be available to anyone interested from the area. Such programs are now being conducted in Dimmitt, Dalhart, Borger, Pampa and Childress.

All who are interested in this program are extended a special invitation to be present at the meeting Friday morning, July 26, at 10 a.m. in Lions Club Hall.

FORMER AG TEACHER STUDIES IN ARIZONA

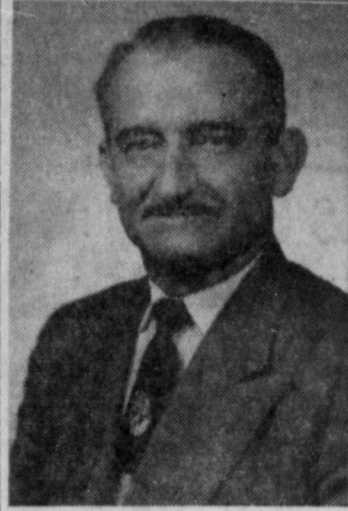

Delbert W. Reed a former Biology teacher at Clarendon College is among 41 college teachers from over the country who are participating in a summer institute on Desert Biology in session June 24 to August 3 at Arizona State University.

The institute is supported by the National Science Foundation with emphasis placed on plants and animals of the Southwestern deserts. Two five-day field trips are planned with short field trips being undertaken each week.

HOSPITAL NOTES

Patients as of Wednesday, July 24: Mrs. C. C. Bailey, Mrs. Tom Stotts, Mrs. Fannie Reynolds, Mrs. Fletcher Banister, Mrs. Milton Haven and baby girl, Mrs. L. O. Christie, Mrs. Bertha Benson, Mrs. Irene Deaton, Mrs. C. E. Killough, Willie McCall.

Dismissals: B. C. Antrobus, Wayne McElroy, T. H. Ringwald, Mrs. Willie Stinchcomb.

George M. Thompson, Jr.

Services Today For George Thompson, Jr.

Funeral service for George McClellan Thompson, Jr., age 60, of Thompson Bros. Hardware, will be held at 10 a.m. Thursday morning, July 25, in the First Baptist Church with Rev. W. R. Lawrence, pastor, and Rev. W. F. Vanderburg of Dallas officiating. Interment with Masonic Rites will be held in Citizens Cemetery under the direction of Murphy Funeral Home.

Mr. Thompson died Tuesday morning, July 23, in Adair Hospital after suffering a heart attack Monday afternoon. He was born April 6, 1908 at Memphis and married Nonalie Spear May 5, 1931 at Altus, Oklahoma. He came to Clarendon in 1946 from Memphis. He was a member of the First Baptist Church, Clarendon Masonic Lodge and Masonic Bodies, Memphis Commandry, Scottish Rite, Khiva Temple in Amarillo and Red Cross of Constantine, a chosen Masonic Order. He served on the Public School Board for 13 years, Board of Regents of Clarendon College, was past president of the Country Club, Lions Club and Chamber of Commerce and was active in all aspects of community affairs.

Survivors include his wife, Nonalie Thompson of the home; daughters, Mrs. Ann Hommel of Clarendon, Mrs. Odell La Grone of Canyon Mrs. Dennis Kotara of Panhandle; a son, George M. Thompson III of Carrollton, Texas; two sisters, Mrs. Byron Baldwin of Memphis, Mrs. Joe Brown of Tyler; and thirteen grandchildren.

Bearers will be J. H. Spier, Jr., Gene Alderson, John Payne, James Bain, Billy Goodman, Gene Swearingen, Joe Powell, and Basil Smith; Masonic Bearers named were Homer Estlack, Lee Bell, L. L. Wallace, Clyde Price, Jr., Redell Henson Richard Tunnell, A. J. Garland, and Kenneth Vaughan.

Weldon Day Named Director Of Education Service Center

Weldon Day, who will receive his doctorate in education at Texas Tech in August, has been named director of planning, evaluation and research for the Lubbock-based Education Service Center. His duties will include service to the 72 schools in the ESC Region in matters of planning proposals for federal funds, research and evaluation, assisting local school districts in comprehensive planning, and preparing applications for federal funds.

Day has served as a student and part-time instructor at Tech for the past two years. He was dean of Clarendon College from 1963 to 1968 and a mathematics teacher in Clarendon College and Clarendon High School from 1957 to 1963. He received his bachelor of science and master of science degrees from West Texas State University.

Mr. Day, his wife Pat, and two children, Debbie and David, will continue to make their home in Lubbock.

Farm News

from County ASCS Com.

Acceage Reports

September 1 is not long off—don't wait until the last minute to file your final acreage reports. Those of you who wait until the last week or two can expect a delay in receiving your payments. We cannot emphasize too strongly the importance of filing accurate acreage reports. We will help you in any way we can in this office with your measurements.

Grain Mixtures

In response to previous information concerning mixtures of grain on diverted acres and the fact that a number of producers were not aware of the classification we want to print again that any amount of grain sorghum in a mixture with sweet sorghum will be counted as grain sorghum. Hegari, which is a grain sorghum, in a mixture with cane will be counted as grain sorghum. If you are using such a mixture, or planning to use such a mixture, it would count against your feed grain permitted acres and would not be an approved cover for diverted acres. If you have any questions about the classification of a mixture, you should come by the office.

1968 Wheat Certificates - \$1.38

Wheat certificate payments to producers participating in the 1968 wheat program will have a value of \$1.38 per bushel. The payment is based on the difference between the July 1, 1968 wheat parity price of \$2.63 per bushel and the 1968 crop national average loan rate of \$1.25 per bushel. The 1967 value was \$1.36 per bushel. These payments are now being disbursed to those farmers enrolled in the wheat program only. As we have said before, the earlier you complete your acreage reports, the sooner you should receive your payments. No feed grain or cotton payments will be disbursed prior to September 2.

1969 Wheat Allotments

The 1969 wheat allotment for Donley County is 2174 acres less than for 1968. This represents a 13 per cent decrease from the 1968 allotment. This reduction has been made necessary by another bumper crop produced throughout most of the world in 1968. This reduction makes necessary a diversion program similar to that available in 1966. There will be diversion payments for diverting acreage from wheat below the farm allotment. The 1968 program again provides for price support loans, marketing certificates and substitution between wheat and feed grain. The sign-up period for the 1969 Wheat Program will be announced at a later date.

BAND STUDENTS ATTEND WTSU CAMP

Eight members of the Clarendon High School Band are attending The West Texas State University Music Camp in Canyon. The school opened July 14 and will continue through July 26. Some 800 junior and senior High School band students are expected to be in attendance.

Attending from Clarendon are Cindy Lowe, Suzanne Moore, Debbie Heckman, Becky Deyhle, Brian Tucker, Frank Phelan III, Charles Phelan and Jerry Moore.

GOODNIGHT REUNION SET FOR AUGUST 4

There will be a public school ex-student and teachers reunion along with the annual Goodnight Homecoming to be held Sunday, August 4.

Church services will be at 11 a.m. There will be a basket lunch at the noon hour and the exes will meet back at the church for a short program, election of officers, and plenty of visiting.

NEWS FROM CITY HALL

By Mayor R. L. Gilkey

Water, for years our most important asset, is now our greatest liability. For years we have had excellent well water, occasionally a little sand or low pressure, but always good, refreshing water. Profits from the sale of this water have operated our city through the years. Hence we have had low taxes and low city operating costs.

Our city has now been on Greenbelt Lake water for about six months. The increased cost of water was planned in advance and all went well for a few months. Then to pay our bonds due next January, the cities agreed to pay their pro rata share each month until January. Our share is approximately \$7,900.00 per month. The amount of water actually purchased from the Greenbelt in May was approximately \$2,500.00, in June about \$3,000.00, but our payment has been \$7,900.00. This is a huge operating deficit. Even selling this water to individual citizens for \$5.50 to \$6.00, we still are in the red, with no funds whatsoever with which to operate the balance of city expenses.

We have met this deficit as well as possible. Our \$20,000.00 surplus has now been given to the Greenbelt. Since we have no additional funds we shall simply pay for the water used rather than \$7,900.00. Next January we'll meet our obligations with what general revenue taxes we have.

The causes of Greenbelt's need for money are many. To begin with, financing was questionable with so few cities involved in the total cost; administrative and legislative delays earlier in the planning added time and cost to the total project; decreasing population of other cities (rather than increasing), and hence the purchases of water by these cities was much less than projected. Even Clarendon did not purchase as much water as projected because of our wet spring months. All of these items and more have put the Greenbelt and its cities in a financial squeeze.

We can no longer look to water to solve our financial problems. Water is now the cause. An increase in taxes will be necessary. Since a city sales tax appears unpopular, we'll most likely be required to increase property taxes. We all know that taxes are a "dirty word," but then we did vote for the lake and its water, and now it's time to pay the bill. This seems a little hard to do when we have days like two weeks ago, when our new water tasted, smelled, and looked bad. Fortunately this cleared promptly by a "charcoal filtration" process. And hopefully it won't occur again. For those of you who have drilled wells to prevent from using this "expensive" water, remember that a well increases the value of property. We all voted for this lake, so we all have the financial obligation.

Now one word of hope. Should the Greenbelt sell enough water to other users or industries, the financial obligations of the cities would decrease correspondingly. Should they sell enough, the cost of our purchases would decrease and we would again make profit on the sale of water. Such progress takes time, but must occur. While we can have "hard times" for a few years, it would seem ridiculous to bankrupt our city for another forty years because of the Greenbelt.

Sell the Greenbelt. It costs you if you don't.

Guests in the home of Mr. and Mrs. R. S. Brumley the latter part of the week were Mrs. Annabel Smith and Miss Glen McCarthy of El Reno, Okla., also Mrs. Carl Cone of Yukon, Oklahoma.

John R. Gillham

Services Held Wed. For John R. Gillham

Funeral services were held Wednesday afternoon in the First Methodist Church for John Rollins Gillham with Rev. Carl Nunn, pastor, officiating. Interment was in Citizens Cemetery under the direction of Murphy Funeral Home.

Mr. Gillham, 55, was dead on arrival at Adair Hospital at 1:45 p.m. Monday, July 22nd. He was born August 18, 1912 at Wayside, Texas and married Clara Alexander January 20, 1934 at Claude. He attended Canyon Schools, West Texas State University, A&M University and Texas Tech.

He taught in Carey and Miami schools from 1931 to 1937, at which time he came to Clarendon and continued his teaching career until 1960. He attended Baylor Law School from 1961 to 1963, where he led his class with highest recognition. He established his law practice here in 1963 and has served as District Attorney for 3 1/2 years.

Mr. Gillham was a member of the Lions Club, Texas Bar Association, the First Methodist Church as well as serving the community in many other civic activities and organizations.

Gillham's aims were always high and he worked long, hard hours to obtain his objectives. While teaching in the local schools, his students brought home top honors from hundreds of shows and he received numerous personal honors and recognitions.

He was always a strong promoter of our community. He was the first to instigate the first irrigation well in the Ash-tola community; he promoted various highway projects, school projects, and was the attorney for the Lakeview Watershed Project which is close to a reality.

John Gillham will be missed tremendously by this community but his high ideals and foresightedness will become an inspiration for others to carry on.

Survivors include his wife, Clara A. Gillham; a daughter, Beth Gillham of Ames, Iowa; a sister, Mrs. S. A. Hill of Winfield, Missouri; three brothers, Charles of Lake Charles, La., Wendell of Ramsey, New Jersey, and Millard of Hurst, Texas.

Pallbearers were Sam Lowry, Jerry Hawkins, Milton Mann, Joe Lovell, Horace Green, Fred Bourland, Redell Henson and Johnny Leathers.

NEW SCHEDULE FOR P. O. WINDOW SERVICE

The director of the Regional Office of the U. S. Postal Service at Dallas has issued the following directive: Effective July 27, window service will be discontinued on Saturdays and Sundays at all First and Second class Post Offices.

This information is being passed on to area residents so that there will be an understanding in regards to window service and to remind patrons that stamps, postals and other business usually transacted at the windows should be taken care of prior to Saturday.

Leader Advertisements Pay Dividends.

Dist. Attorney J. R. Gillham Dies As Result Of Shooting Here

MASONIC CORNER STONE CEREMONY AT CC THIS SATURDAY

A corner stone ceremony will be conducted by Clarendon Masonic Lodge 700 at the new Clarendon College campus Saturday morning, July 27 at 10 a.m.

The stone will become part of the Administration - Class room building facing highway 287. The tube which will be sealed in with the corner stone will contain historical documents and other items. The tube is to remain for 100 years and then may be removed for residents of that time to receive a glimpse of what was taking place at the present time.

The public is invited to attend this historical event.

COUNTRY CLUB PLANS BARBECUE AUGUST 2

The Country Club of Clarendon will hold its annual barbecue Friday, August 2, at 7:30 p.m. The "Union of Sound" will furnish the music for teen dancing and there will be Bingo and swimming.

Tickets for your chickens may be picked up at Tunnell's Pharmacy and Goodman's Furniture. Each half will be 85 cents and the deadline for ordering the chickens will be Monday, July 29th.

All members and their guests are invited to attend.

ARMY RECRUITER HERE MONTHLY

The U. S. Army Recruiting Sgt., SFC Bobby J. Manley, will be in Clarendon each first and third Wednesday from 12 p.m. to 2 p.m. He may be contacted at the Post Office or Sheriff's Department. In Vernon he may be reached by calling LI 2-2762.

Leader Classifieds Get Results

J. R. Gillham, prominent Clarendon Attorney and District Attorney, died about 1:30 Monday afternoon from gunshot wounds in front of his office here. Clyde Gilbreth was arraigned before District Judge Charles Reynolds at 5 p.m. and charged with murder with malice. He was remanded to the custody of the sheriff without bail.

According to Attorney Wm. J. Lowe, Gilbreth came to his office with the rifle and then left for Gillham's office. Mrs. Sandra Mooring, Lowe's secretary, called Gillham's office to warn them. Gillham sent his secretary, Mrs. Chauncey Hommel across the street to the First Supply Co. and apparently believed that he could reason with Gilbreth.

Gillham kept Mrs. Hommel's car, which was parked in front of his office, between he and Gilbreth until Gilbreth jumped on top of the car. Gillham was shot five times with a 30-30 rifle. Gilbreth's son, Doyle, made a flying tackle knocking his father from the car to the ground after the fifth shot had been fired. Basil Smith grabbed the gun. Doyle had run from Lowe's office to the courthouse to summon help.

Gillham was representing Mrs. Gilbreth in a divorce suit and Lowe was representing Gilbreth. In view of the dignified manner with which John Gillham had always conducted his business and his life in the community, we feel the sensational account of this tragic event has been more than amply covered by the Amarillo paper, TV and Radio stations.

Led Jay returned to his home in Annandale, Virginia Thursday after having attended funeral services for his father, Andrew Jay.

This whopper was caught in a pond in Donley County by Stina Cain. The big bass weighed 8 lbs., 2 oz. and measured 23 3/4 inches long and 21 inches girth. He was caught on a chugger. —Photo by Saye's.

Richard Rudolph Martin, 39, of Barto, Fla., died when this cattle truck he was driving hit a culvert 2 miles east of town Tuesday morning and overturned. A passenger, Willie McCall of Florida is receiving treatment for injuries in Adair Hospital. Five steers were killed and others were rounded up along the highway. —Photo by Saye's

Texas & Panhandle Press Associations
AND
National Newspaper Association

Texas Liquor Control Board is studying new regulations for private clubs where "spirits" are sold.

Members won't reveal the recommendations that were submitted to them by Acting Administrator O. N. Humphreys, Jr., until after careful study.

Last set of regulations banning cash sales in the clubs and curbing the issuance of guest cards by manager - members was knocked out by a district court order in May.

Humphreys termed the new rules "workable" but "not rigid."

Meanwhile, he submitted a long report on the steps taken to restore public confidence in the LCB which has been hard hit on investigation of irregularities. Humphreys detailed steps taken to upgrade personnel and improve administration, case handling and record keeping. At their July meeting, the board also:

Approved retirement of LCB Enforcement Chief A. R. Cartledge and named as his temporary replacement Don Fisrell, 39.

Announced that a permanent successor to resigned Administrator Coke Stevenson, Jr., will be appointed in 30 to 60 days.

Acknowledged that Stevenson told members he had received an expensive watch as a gift but they did not question his acceptance of it.

Reported law enforcement activities and collections are on a substantial increase over last year.

"The future looks good," commented Chairman W. D. Noel of Odessa, who is scheduled to step down soon after 16 years of service.

Tax Bill Law Now there's no way out of paying those new taxes approved by the Legislature in special session. Gov. John Connally has signed into law the bill which is designed to raise \$160.2 million for 1969 state operations. It's effective October 1, and here's what it does:

raises the general sales and auto sales tax rates from two

to three per cent statewide. In cities with 1 per cent local option sales taxes the rate will be four per cent. (No change was made in exemptions.)

Increases the corporation franchise tax rate (collectable May 1) from \$2.25 to \$2.75 per \$1,000 of taxable capital, surplus and undivided profits. Portion of the franchise tax on corporate debt will be reduced from \$2.25 to \$2.00 in 1969 and phased out in 1973.

Tourist Record in Making Tourist travel is expected to far surpass all previous records this year, according to State Highway Department's travel and information division soundings.

One Highway Department travel bureau on Interstate Highway 10 near Orange reported "customers" for first half of 1968 more than doubled total for January - June 1967. Ninety per cent of the visitors were on their way to the HemisFair in San Antonio.

All eight established bureaus run by the Highway Department reported big increases. Total services went up 14.2 per cent for the first half of this year compared with the same period in 1967. Travel and information division said its mail inquiries are up 27 per cent.

Last year Texas was visited by 20.6 million persons who spent \$1.2 billion. This was an eight per cent increase in visitors over 1966, and an 11 per cent jump in spending.

Courts Speak Atty. Gen. Crawford Martin has urged the U. S. Supreme Court to reconsider its decision that the Texas tidelands boundaries must be measured from 10.3 miles of shoreline as it existed in 1845, without regard to recessions.

State Supreme Court reversed an \$862,000 verdict favoring foreign car dealers. They had sued the city of Houston for flood damage to autos, claiming inadequate drainage.

High court set October 16 for review of the lower court orders directing a charter be granted to Mission Savings and Loan As-

sociation, San Antonio. Court said National Surety Corporation has a valid judgment of \$18,237 against the Friendswood Independent School District, Galveston County, but cannot collect.

It ordered a new trial in a Hansford County landowner's suit against a professional wheat-cutter whose truck started a fire in his field.

Third Court of Civil Appeals held that the State Board of Education could order a hearing on the appeal of a Lumberton school superintendent who was fired by a local board.

Third Court directed a new trial in a case involving disannexation of 550 acres of land from Temple.

Attorney General Rules City cannot force on a landowner higher air control standards than those set by State Aid Control Board, Attorney General Martin has held.

In other recent opinions, Martin concluded that: A Texan is qualified to vote in a local liquor election if he resided in the state a year, the county six months before election and is a resident of the city where the election is held.

Dallas County Hospital District has no authority to build and operate a crime laboratory.

State Insurance Commissioner has authority to release a surety bond on an insurance company that is in receivership when all claims are satisfied and when the one-year statutory time limit is satisfied.

Board of Vocational Nurse Examiners cannot vary fees set by state law.

Plaintiff could not recover for faulty workmanship, labor and materials and/or negligence under a surety bond required by the Water Well Drillers Act.

Dr. Bevington A. Reed, 52, was named to succeed Dr. Jack K. Williams as Texas Commissioner of Higher Education effective September 1.

Lt. Gov. Preston Smith named three senators to a new committee to study state park needs: Joe Christie of El Paso, Dorsey Hardeman of San Angelo, Roy Harrington of Port Arthur, Charles Herring of Austin, Don Kennard of Fort Worth, Bruce Reagan of Corpus Christi and Murray Watson, Jr., of Waco.

State Republican Chairman Peter O'Donnell, Jr., designated Jim Campbell of Pampa as acting state GOP chairman for the Panhandle - Northern Texas Region V, temporarily replacing Bryce V. Beard, Amarillo. O'Donnell appointed Mrs. Pierce P. Langford, Jr., of Wichita Falls Region V as a deputy State vice - chairman.

Operation Youthlift August has been declared by Governor Connally as Youth Month at HemisFair.

Ben Barnes, Speaker of the Texas House of Representatives, heads a statewide committee to organize special youth excursions to the Fair. He is meeting with leaders in key cities of Texas to plan the August trips.

Special, low-cost package-plan excursions, including overnight accommodations in San Antonio, have been developed by HemisFair to tie in with the program.

Any youth group in Texas desiring to participate in "Operation Youthlift" should contact HemisFair Headquarters or the Speaker's office at the state capitol.

Short Snorts New \$7 million bond issue has been sold to aid Texas college students needing tuition loans.

First court penalty - \$10,000 - has been directed against a chemical company accused of polluting the air near Galena Park.

Governor Connally approved \$1.633 regional planning grants to aid Lubbock Metropolitan Council of Governments and Smith County - Tyler COG, benefiting Tyler, Arp, Bullard, Lindale, Troup, Whitehouse and Winona.

Veteran University Interscholastic League Director Rodney J. Kidd will go on modified service September 1, as UIL scholarship program head.

Land Commissioner Jerry Sadler reports that 2,262 active contracts have been received from purchasers under the refitted Veterans Land Program.

Lint filters on washing machines are helpful in fighting the lint problem. However, your best defense against lint is to wash lint-givers separately from lint attractors.

Mrs. Eva Hill Feted On 80th Birthday

Mrs. Eva Hill was honored with a surprise birthday party Tuesday afternoon at her home in Hedley. Friends called from 4 to 6 p.m. Hostesses were her granddaughter, Mrs. Claudine Keisinger of Sunray; a niece, Mrs. Thelma Hall, and a friend, Mrs. Gladys Howell of Hedley. It was nothing unusual when company first arrived but as more and more arrived, Mrs. Eva said, "Oh, today is my 80th birthday." She was completely surprised. A very pleasant time was spent visiting with pioneer neighbors and friends.

Mrs. Hill came to Donley County in January 1901 with her father, Dr. Hardcase. She lived in the Bray community before moving to Hedley. Her life has been filled with good living. She has been a good neighbor and friend and to know her is to love her. Birthday cake and punch were served to 27 friends and neighbors. She received many lovely gifts along with many, many wishes for more Happy Birthdays to come.

MR. AND MRS. FRED WATT, JR. HONORED

Mr. and Mrs. Fred Watt, Jr. were honored with a shower Monday evening in the home of Mr. and Mrs. Walter Johnson. After guests arrived Virginia Browder and Jackie Ranson served homemade ice cream and cake. Mrs. Johnson presented the bride and groom with some lovely gifts. The couple expressed their sincere thanks to those present and others who were unable to be present.

Hostesses were neighbors and friends in the Giles community, where the Watts are at home.

NEW ARRIVAL

Mr. and Mrs. Frank Hermeyer of Cleveland, Texas announce the arrival of a daughter, Jacqueline LeRae, July 6. The little miss weighed 6 lbs 4 oz.

CHS DRILL TEAM ELECTS OFFICERS

The Clarendon High School Drill Team met Monday afternoon, July 22, at 3:30 p.m. in the home of Candy Skelton. Purpose of the meeting was to elect officers for the coming school year.

Elected to serve the organization for the coming year were Susan McAnear, President; Cheryl Hardin, Vice - President; Kay Greer, Secretary - Treasurer; and Leann McCracken, Reporter.

Twenty-one members of the Drill Team and their sponsor, Mrs. Ethelyn Grady, were present.

NEW ARRIVAL

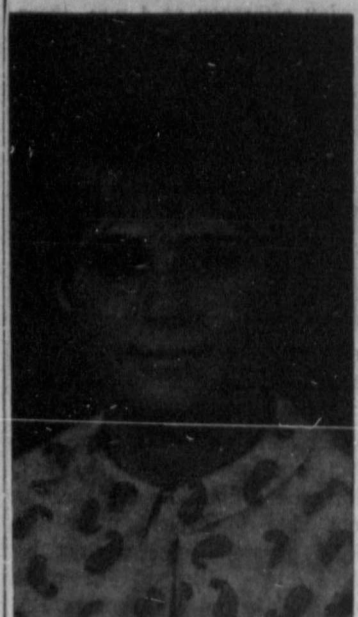

Mr. and Mrs. David Fricks of Perryton announce the arrival of a daughter, Margaret Michelle, July 18. The young lady weighed 7 lbs. 14 oz. and is the granddaughter of Mrs. Ruby Annis and Mrs. Louise Fricks of Clarendon, and the Harmon Fricks of Perryton.

HUNTINGTON, IND., HERALD PRESS

"... the FBI's Uniform Crime Report released by the Department of Justice ... was not necessary for public realization that crime is a daily threat to life, limb and the possession of property in America. It may help the public to realize, however, that the affliction of a steadily rising crime rate will continue until official and personal determination to stop it takes meaningful form."

AGRICULTURAL BRIEFS

TIME CHANGES - Heavy rains have reversed the trend of growing mesquite and may necessitate a change in the timing of aerial spraying for its control, reports G. O. Hoffman, Extension range, weed and brush control specialist. Usually sprays should begin about 40-90 days after green growth at the buds is noticed. But now, says the specialist, mesquite in Texas is behind schedule and controls will vary from the set times and standards. Local county agents can supply the new suggested spraying schedules.

UNCLE ZEB

CARL C. WOOD

A garden spade is one place a man can put his foot down and get by with it.

Most of us think our lot in life should be a lot more than the other fellow's.

At least two things come to the man who waits - his monthly bills and whiskers.

Making the same mistake over and over again could be called doing one thing well.

Just as sure as some one lets you have the honest truth straight from the shoulder, so to speak, it will almost surely do something bad.

One thing about avoiding temptation is that the older we get the more it starts avoiding us.

The more we live on the square, the easier it will be to find it everywhere.

About the only cute thing one can cry about anger is the arch in a cat's back.

Miss Ruth Fite, our shut-in friend from Childress, sent in some thoughts including the following verse from a birthday greeting. It is called "Hope Your Birthday's Wonderful." It's not enough to say you're nice,

Though people often do . . . Lots of folks are nice, of course, But they're still not quite like you . . .

WONDERFUL . . . that's better, For you really are, you see, And therefore that's exactly How your birthday ought to be.

It might be just wonderful to put the above on a little birthday note to someone . . . It might turn out better than just plain nice.

Sam King of Dallas and Mr. and Mrs. H. R. King and Steve of Amarillo spent the week end with their sister, Mrs. J. R. Batson and Mack.

FOOD DOLLAR STRETCH

Food prices are like the weather - everyone talks about them. The important difference is that with food prices you can do something about them, reminds Gwendolyn Clyatt, Extension consumer marketing specialist.

You can't change the price but you can receive more for your money if you make wise choices. With careful planning and shopping you can stretch your food dollar. Resolve to keep alert to what your market is featuring by watching food ads. Plan your menus to include as many "specials" as possible, suggests the Texas A&M University specialist.

Try to remember the regular prices so you'll know if the special is really a good value. Buy good values in quantity if you can use them and if storage space allows. Make a shopping list, and remember to take it with you. This helps cut down on impulse buying, says Mrs. Clyatt. Take time to shop around in your favorite store. Every week there are new and different food items from which you can choose. Take some just window shopping time and look around for them.

Figure the "real" cost and not just the price per unit. The cost per pound or unit of an item is often misleading if you do not check the number of servings, according to Mrs. Clyatt. The cost per serving is the true measure of cost. For example, meat which has a large amount of bone at a lower price per pound will often cost more per serving than boneless meat that sells for a higher price per pound.

When selecting convenience foods, consider time and cost. Some cost the same or slightly more while some cost less than those with no convenience built in, she adds.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. Carrel Rippetoe announce the engagement and approaching marriage of their daughter, Deborah, to Dennis Brundige, Jr., son of Mr. and Mrs. Dennis Brundige, Sr., of Memphis, Texas. The wedding date has been set for August 9 at the Church of the Nazarene, Clarendon, Texas.

Children Need To Be Loved And Cared For

A child is not a lump of clay to be molded or a pitcher to be poured into but a growing plant to be nurtured, loved and cared for. This is the first step in understanding young children, according to Jennie Kitching, Extension family life education specialist.

But also learn to understand their behavior, says the Texas A&M University specialist. Parents must be aware of what their children are telling by their behavior yet they should not put every little act or expression under a microscope.

A child's behavior communicates more than his talk, according to Miss Kitching. The keys to understanding this are reserving judgment, avoiding labels, accepting personality differences and being aware that the apparent cause of an incident may not be the real one. In trying to discover the meaning of behavior, Miss Kitching points out some of the obstacles. Common is labeling automatically a kind of behavior which doesn't tell why he is behaving as he is.

For example, if he rejects a suggestion it may not be "stubborn" or if he fails to be up and doing it may not be "lazy." Perhaps he is stubborn about getting dressed in the morning because he is not eager to go to school.

Giving labels to behavior and putting actions into categories prevent understanding and give us too easy an out, says Miss Kitching. Relieving anxiety and worry with a handy phrase often drains the need to do something more constructive than to praise or blame.

"She just wants attention," "He'll grow out of it" are common phrases that may block further exploration of a child's actions. Yet, the specialist points out another factor in understanding children and deciphering their behavior: the parent's makeup. Everyone is in trouble if the parent's emotions differ from the child's.

Too, the connection between a behavior and its cause is not always obvious.

Have a wide-angle approach to understanding children, suggests Miss Kitching. A certain behavior may have several possible causes. A nightmare could be caused by too much candy or a television program - or something else.

But the family life specialist urged parents not to interpret a child's behavior to him before he has a chance to realize it himself.

Given a little time, he might figure out his own feelings and put them into his own words, a much bigger contribution to growing.

You must respect a child's rights to some emotional privacy, said Miss Kitching. He should be free to have feelings and fantasies without uncomfortably sensing an ever-watchful eye always ready to read something into every tone of voice or bit of play.

John Jay returned to his home in Dalhart Saturday afternoon.

NEWS FROM

Congressman Bob Price

18th District, Texas

I joined with other members of the House Republican Task Force on Crime last week in introducing a bill to empower Federal judges to increase prison terms for certain types of hard-core criminals.

This proposal would attack some of the most serious problems of law enforcement—

—The habitual offender or repeater

—the professional organized crime hoodlum

—Individuals who use firearms during the commission of a crime

—by giving Federal judges authority to extend prison terms up to twenty years over the maximum for the specific offenses of which the accused is convicted.

The bill gives judges an effective tool to protect society as a whole from hard-core undesirables.

The Crime Task Force's proposal works in this way. Following a trial, and conviction,

a Federal court would hold a hearing in which the government and the offender present evidence related to the proposed finding. If, after such a hearing and prior to sentencing, the court finds that the defendant falls into one of the specified categories of hard-core offenders, the grounds for which are clearly set forth in the proposed statute, then the court may impose the additional sentence. Nothing is mandatory, however.

The bill also contains a unique proposal requiring that all federal conviction records contain the defendant's fingerprints and provides for the creation of a central repository for such records from State and Federal Courts within the Department of Justice.

This is designed primarily to facilitate the sentencing of repeaters. If all the States were to adopt the fingerprint requirements, it would greatly increase efficiency in seeing to it that all repeaters are recognized and dealt with as such when they are convicted again. As it is now, the process of proving prior convictions is uncertain and cumbersome and nobody really knows in how many instances they are never proven because the evidence is not

brought to light. Some of the provisions of the new bill implement recommendations of the President's Crime Commission and the American Bar Association and would, I believe, substantially strengthen the effectiveness of Federal courts in the nationwide fight against crime.

The alarming and continuing increase in crime over the country indicates that something is drastically wrong with the policies, means and methods being used in the Federal anti-crime fight.

In spite of an all-time high of persons employed in the Justice Department and record expenditures—up 55 per cent since 1960—there has been a nationwide increase of 88 per cent in crime during the same period.

The record for the District of Columbia where the Justice Department has exclusive jurisdiction over all crimes is even worse. Serious felonies in the nation's capital have climbed 175 per cent since 1960 while felony convictions were down 37 per cent. During 1967, for every 45 felonies committed in the District of Columbia, only one felony conviction resulted.

Some criminologists would doubtless blame the courts for

such a show of ineffectiveness. However, Attorney General Ramsey Clark has consistently denied any adverse effect of court decisions on law enforcement. So it certainly appears that if the courts are not to blame for this ineffectiveness, the Department of Justice must be.

BOB PRICE
Member of Congress

Former Basketball Teams To Be Feted At McLean July 28

The Alanreed-McLean Historical Society will honor the first basketball teams, both girls and boys, ever sent on a court to represent McLean High School, on Sunday, July 28, at 2:30 p.m. at the School Cafeteria on Main Street.

These teams played in 1913 and 1914. All men and women in the Clarendon area who played against these teams are invited to be guests for this occasion. McLean played both Clarendon High School and Clarendon College. People are expected to attend from as far away as Houston for this special program.

Greenbelt Bowl Game Set For Aug. 10

The 1968 Greenbelt Bowl Game has been set for August 10 at Childress. Game time will be 8:30 p.m. with the presentation of queen nominees beginning at 7:30 p.m. Tickets are \$2.50 for Reserved Seats and \$2.00 General Admission.

Forty-four boys from surrounding towns have been selected to play in the game and will arrive in Childress August 5 to begin workouts. Coaches for the East Team are Max Bumgardner and Buddy Horne. Coaches for the West Team are Buddy Fornes and Ronnie Giles.

Monte Land has been selected from the 1967-68 Broncho Squad to play in the game but as of this time does not know which team he will be working with. Susan McAnear will be the local representative in the Queen contest.

A picnic Friday afternoon, August 9, will honor players, queen nominees, and their parents at Rotary Bowl in Childress Fair Park. That night at 8:30 the queen contest will be held, at which time all entries will be presented to the public. This presentation will take place at

the Elks' Club in Childress. Saturday afternoon at 4 p.m. there will be a parade featuring queen nominees and that night at the game the 1968 Greenbelt Bowl Queen will be announced.

Soil Conservation District News

Grassland Management Must Be Flexible

Almost every rancher can be successful in years of good rainfall and productive grassland, but the Panhandle rancher is not able to depend upon this kind of weather. He must be able to withstand frequent droughts in order to survive. His operation must be flexible.

The best drought insurance is a reserve of grass. This can be accomplished by stocking at a moderate rate or by deferring some land each year.

Grass that is not harvested by cattle each year is not wasted. It pays dividends in future years through increased grass production and forage quality.

Annual crops planted for grazing can be a great help in providing flexibility. Small acreages of summer and winter forages

such as sorghum or small grain can allow deferral of large amounts of native rangeland for future use.

Some ranchers have given stability to their operations by stocking a base herd of about 70 per cent normal carrying capacity of the range. The remainder of the livestock consists of animals such as stockers that are easily marketed. This 30 per cent "floating herd" can be adjusted to suit seasonal forage production and gives the rancher needed flexibility. It allows him to operate year in and year out while protecting his basic resource of grass.

The Soil Conservation Service will be happy to assist anyone with developing a flexible grazing management program.

The Department of Agriculture has a major responsibility for resource conservation leadership in America and in the world. USDA conservation programs are concerned with the quality and quantity of crops, range, livestock, soils, water, forests, wildlife, and scenic beauty.

All foreign government pavilions are situated in one area - "Plazas del Mundo" - at Hemis Fair '68 for easy access.

GOLFERS ENJOY FIRST SEASONAL TOURNEY

The Golf Tournament held the past Sunday on the local course drew considerable interest despite the extremely hot weather. Three flights were entered in play with first place winner in each flight receiving 8 balls, second place 4 balls, third place three balls and the low man in each flight 1 ball. Eighteen holes were played in the first flight only with the remaining two flights playing 9 holes each. Clyde Noonkester took first with an 82 in the first flight. David Mooring shot 86 for second and Tommy Powell placed third with 89. John Wayne Stepp was low man with 90.

The second flight saw Jeff Walker walk away with honors scoring 44. Earnest Tipton, Carroll Knorpp and J. Gordon Stewart tied for second with 48. Jimmy Lee Butler held low honors with 52. Ray Palmer shot a 49 in this flight.

A score of 50 by Pete Brorley took first in the third flight. He was trailed closely by Bill Mooring with 51. Harold Gerner and Bob Lemons tied for third with 58 to wrap up play.
