## Onita Thomas received Distinguished Award

Onita Thomas of Clarendon has received one of 10 Texas Panhandle Distinguished Service Awards during the sixth annual luncheon at West Texas State University.

The recipients were chosen from 98 nominees in the 32-county Texas Panhandle.

Dr. Emily Taylor of the American Council on Education was the keynote speaker for the luncheon, which was hosted by the WTSU Office of Programs for Women on Saturday, April 25.

The first WTSU Humanitarian Award was presented to Sybil Harrington of Amarillo whose philanthropic and financial gifts have benefited numerous concerns through the Don and Sybil Harrington Foundation. One million dollar gift is the Don and Sybil Harrington Cancer Center which will serve residents within 500 miles of Amarillo.

Thomas, one of three nominees from Clarendon, was nominated by the Pathfinder Club, 1926 Book Club and Les Beaux Art Club.

Thomas is a native of Donley County, a registered nurse, wife, mother of four sons and a physician's assistant. She became supervisor of nurses at the 17-bed Adair Hospital in 1964 where she secured state accreditation. The hospital had one other registered nurse and she graduated two classes of vocational nurses.

More than 70 injured persons were brought to the hospital in 1970 after a tornado had struck the Clarendon area. She supervised the care and transfer of the victims and for her work, she was commended by the Texas governor, the Disaster Section of Texas Medical Area and the National Civil Defense.

The hospital closed in 1970, but Thomas has remained as a nurse for Dr. Richard Gilkey's office, at the Clarendon Medical Center and at the convalescent home. She is on duty call for the residents of the home and refuses to charge them for her services.

The four sons of Onita and Claude Thomas each have achieved the rank of Eagle Scout and each member of the family is active in the First Baptist Church of Clarendon.

## Carroll Knorpp has 50th anniversary in banking

By JEANICE WEATHERLY

One of Clarendon's oldest and most respected businesses honored its president, Carroll Knorpp recently for his 50 years of service in the Donley County State Bank.

Organized in 1906, the Donley County Bank will celebrate its 75th birthday this year and continue to serve the residents of Clarendon, Donley County, and other persons whose residence is farther away; but who find what they want in banking services with the Donley County State Bank.

The original site of the bank was on the corner of Kearney and First Sts. where the old Antro Hotel is still standing today. Local families organized the bank and many Stetson hats and handcrafted cowboy boots have crossed the threshold on personal and professional business during the 75 years.

After some years the location of the bank was moved to the present site at the intersection of US 287 East and S. Kearney Street on the south side of the highway.

It was at this time that the original oak fixtures and teller cages were replaced with the very up to date marble which was used to make the counters, and the entire compartments of the teller cages. In 1956 the bank was remodeled to its present state and the marble was removed and newer materials installed.

The Knorpp family has been directly connected with the Donley County Bank since its organization with one or more members of the family actively involved with the bank operation. Today Carroll Knorpp is the only family member in the bank on a day to day basis but his brother, Walter B. Knorpp Sr. and a nephew, Walt Knorpp join Carroll on the Board of Directors of the Donley County Bank. The other members of the board of directors are Wm. J. Lowe and Willard Hudson, all of Clarendon.

Although changes in the site and to the building have occurred, the services to patrons has not changed drastically since organization.

Service charges were only started this year, January 1, 1981 and were added because of increased costs. The national average of the cost of handling is 37c per check. The bank is still one of a fast dwindling number of banking

institutions which still pays on signature instead of a number. This practice will continue as long as it is practical to do so.

Wesley P. Knorpp, father of Carroll, John, and Walter B. Knorpp, and Fred Chamberlain Sr., were familiar figures at the bank for many of Clarendon's older residents. They were succeeded by Carroll and Walter B. Knorpp. Carroll remained at the bank and Walter B. (Bud) who began his service with the bank in 1936 remained until 1962. Since that time he has been a director with the bank and had other business interests.

Carroll graduated from high school at a California school in Long Beach and attended the University of Texas before joining the bank staff. He has spent the past 50 years at the bank. The Donley County Bank was one of the three Clarendon banks which remained solidly secure during the dreadful days of the Great Depression when many institutions had to close their doors forever. It is a fine tribute to the management of banking personnel and level headedness of patrons of the banks that a small town like Clarendon had such security.

Personnel changes have come mostly as a result of seniority. A few did retire and left the bank. Others stayed as long as they remained on this earth to continue their tradition of dependable service.

One reason for the minimum of changes is the camaraderie which staff members enjoy. They are members of the banks 'family' and proof of the old adage that a family who stays together can indeed grow.

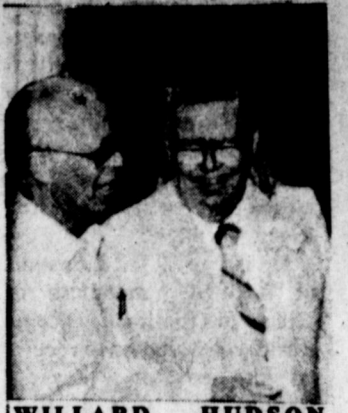

Among the list of personnel in the bank's history are: Wesley P. Knorpp, Fred Chamberlain Sr., M.R. Allensworth, Jack SoRelle, Kelly Chamberlain, Roy Clayton, Holman Kennedy, Mark Kelly, and Miss Anna Bourland.

Also Mantie Graves, Lottie E. Lane, Ethyl Harvey, Carroll Knorpp, Walter B. Knorpp, Jane Hillman, Mary Neal Risley, Jo Ann Brown, Doris Knorpp, Barbara Cosper, Carol Hall, Tom Cook and Wes. Knorpp.

Also Cliff Goss, Vida O'Neal, Jessica McCord and Betty Lane.

Congratulations to Carroll Knorpp and to the institution which he represents.

Clarendon Lion Homer Estlack was presented the "Key of Nations" which goes to those Lions who have sponsored 100 new members in the organization. This handsome yellow gold award with the diamond is the latest of 7 key awards for sponsoring new members. Estlack has worked at increasing Lions Club membership since he became a member in January, 1945. The first key award was made in March 1946.

He is one of 152 Lions out of 3,500,000 members of Lions International, (Lions world wide) who have received the coveted "key of Nations", and he is justifiably proud of the award given him.

**Donley Co. Land**

**Owners NOTE**

At the present time all of Donley County real estate is in the process of being appraised for the Donley Appraisal District. To reach estimated market value this land will be described by use category (pasture, cropland etc.) and productive capacity from existing records.

Available information lists the section etc. but generally does not give the boundary lines of specific tracts within a section or survey of rural land.

If you own parts of sections or surveys, please come by the Appraisal Office in the northwest corner of the Court House Annex and draw in the boundary lines on the county map in order to make the most accurate record of ownership location. This will be for the benefit of the owner and the appraisal district.

Plat questionnaires will be mailed to most acreage owners and they can be mailed or brought to the Appraisal Office. However the best way is for the land owner to draw the boundaries on the map at the Appraisal Office.

At the Appraisal Office Charles SoKelle, Paula Lowrie and Shirley Riley will be present to assist you.

**Young Homemakers Met**

The Young Homemakers held their monthly meeting April 27, at 7:30 in the home of Fuzz Mooring.

Members present were Neva Spier, Shirley Riley, Kathi Holland, Tonya Owens, Judy Bland, Missy Kidd, Fuzz Mooring, and Kathy Skinner. Kathi Holland was there as a visitor and hopefully will join the club.

The meeting was called to order by Neva Spier and following that, Missy Kidd read the minutes and called the roll. Fuzz Mooring then read the treasurers report and then an open discussion started about the cookbooks being sold and the booth rental for July 4th.

Fuzz Mooring presented a very interesting program about basket-weaving, and dried flowers.

Fuzz gave some good tips on drying dried flowers. Refreshments brought by Kathi Holland were then served. Kathi made a delicious cheese roll served with crackers and ice tea.

The next meeting will be at Judy Bland's.

## Letter to the Editor

From the Law Offices of Don R. Butler, Austin, Texas came the following information to the City of Clarendon.

**TO ALL PARTICIPATING CITIES GENERAL TELEPHONE RATE CASE**  
Re: Status of Case

Yesterday, April 20, 1981, the Public Utility Commission Staff filed its recommendations in the above case. The Staff recommendation indicates that the Company has a rate deficiency of \$4.7 million per annum. However, the Staff also recommended that the Company be penalized by \$4 million for poor quality of service. Thus, the net recommendation of the Staff is an increase of \$740,000 per year which is, in essence, no increase at all compared to the Company's requested \$44.6 million.

Last week, the Cities filed

their testimony which indicated the Company should have a rate reduction of \$6.9 million per annum (without further reduction for poor quality of service) or \$9.7 million per annum reduction after imposition of a penalty for poor quality of service. In last years General Telephone rate case, the PUC order was about \$2 million less than the amount recommended by their Staff. It is hoped that similar results can be achieved in this case.

The case commences next week. The time of hearing may require as much as two weeks. It is also anticipated that General will attempt to file supplemental testimony which would show additional needs for a rate increase. You will be advised as developments occur. In the meantime, if there are any questions, please advise.

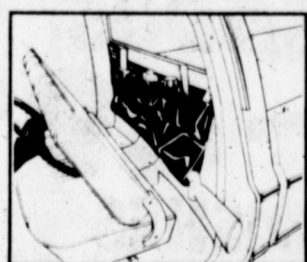

Experts predict that increased calling will more than double phone bills by 1990.

# Bookworm

The summer reading program for our young people will begin on Monday, May 26th and run through August 8th. This program is for all ages pre-school through the 12th grade.

The State Library System is sponsoring a book mark contest. It will begin with the May 26th reading program and end the middle of July. The 2 local winners will have their book marks reproduced by the State System for display at the Tri-State Fair and also for local distribution.

A reading hour for separate age groups will be conducted by Mary Beth Nelson and her helpers. We will announce the ages and time for these story hours in the weeks to follow.

The theme for our summer program is Famous Monsters, and many new books have been ordered with this theme in mind.

The Library will have a costume party with refreshments at the end of the summer. At the

party, all boys and girls, who have read at least 10 books during the summer will be given a certificate. Pre-schoolers will also get a certificate if someone has read 10 books to the child. We welcome children and young people of all ages to the public library for a summer of reading fun. If you need more information about this summer in your library, please call us.

"Man of Nazareth" Anthony Burgess  
This Richly textured work is the novel on which the widely acclaimed television production "Jesus of Nazareth" is based. In "Man of Nazareth" Burgess once again delights and astonishes with the elegance of his style and the intelligence of his narrative. He coreographs characters, events and dialogue to achieve his own interpretation for modern readers of a timeless story.

## Clarendon Outdoor Entertainment Ass'n Offers Box Seats

Clarendon Outdoor Entertainment Association is about to complete construction of new bleachers on the south side of the Rodeo Arena. They will be completed for the annual July 4th celebration which includes the traditional rodeo in Clarendon.

The construction is being done by Bailey Estes & Son, of Clarendon and the bleachers replace the old concrete block and wood structure that was used for many years. The new structure is all metal and should give trouble free service for many years of Rodeos in Clarendon.

These new bleachers have made available an additional twenty (20) box seats, which rodeo fans have been asking for, and which are now available on a first come basis at \$65.00 per box seat. This entitles the box owner to all three nights of the rodeo performances and includes six (6) tickets for each night to get through the gate.

In this way the box seat can be shared if someone can not be present at all three nights of the rodeo performances. If like many persons guests will be in your home during the July 4th holiday what better way to entertain them than in your own box seat at the rodeo.

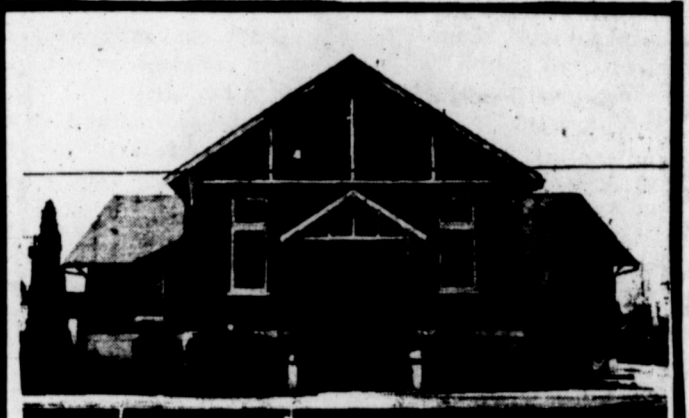

If you are interested in one of these new box seats please contact Jack A. Moreman, P.O. Box 68, Clarendon, Texas 79226 or phone 806-874-2071 at night.

# Day Care Center receives \$5,000

The Donley County Learning Center, Inc. today announced it received a \$5,000 grant from the Corporate Child Development Fund for Texas. The grant will be used to secure a new building for the day care center and as part of their operating funds under contract with the Texas Department of Human Resources.

The program's former facility at 323 South Kearney Street was destroyed by fire last February 16th. Children have been cared for temporarily in the building located at 819 Gorst in Clarendon. Recently, efforts have been taken to purchase the building to be used as

permanent site for the day care center.

The center provides preschool care and educational services to 34 low-income children from the community. While their children are supervised, parents are able to seek and maintain employment.

The Corporate Child Development Fund for Texas is an agency sponsored by private industry in Texas. The Corporate Fund was established through a grant from the Levi Strauss Foundation. The funding agency is based in Austin, Texas and receives contributions from private corporations and foundations

to be used in improving child development services in the small towns and rural areas of the state.

Current private sponsors of the Corporate Fund include Exxon Company U.S.A., Shell Companies Foundation, Texas Energy Reserve Corporation, NL Industries, Haggard, Zale Corporation, Moody Foundation, West Texas Marketing Corporation, Houston Oil & Minerals, and the Great American Reserve Company.

Bruce Esterline, director of the Corporate Fund, presented the \$5,000 check to Pat

Foster, director of the center. Accompanying Esterline from Amarillo was Nova Purdy of the Texas Department of Human Resources.

"We appreciate all the help we have received from the community since the fire," said Foster. She added, "This grant is particularly important because now we can have a permanent home for the program."

Esterline commented, "We are pleased to represent private industries' concern for the children and families of this community. We wish you continued success."

## Quarterly-Sales Tax Report

State Comptroller Bob Bullock Thursday reported that gross sales in Texas during the final quarter of last year surged to \$89.8 billion.

Sales in the final three months of 1980, as reported by 341,539 outlets, outstripped third quarter sales by \$24.1 billion, Bullock said.

Total gross sales figures for 1980 in Texas reached \$281.1 billion, according to Bullock, compared to gross sales for 1979 of \$213.8 billion.

"The numbers speak for themselves," Bullock said, "showing most Texas companies closed out the year on an economic high note."

Bullock said the expanding Texas business picture was also partly responsible for the rapid increase in reporting outlets—up by nearly 100,000 from the third quarter to 341,539 at year's end.

Donley County gross sales were 34,136,685 for the 4th quarter of 1980.

Junior High principal Floyd Guinn, acted as Master of Ceremonies at the sports banquet held Monday night to recognize the students for their efforts in sports for the past season.

Following the invocation by Johnny Leathers and the dinner the coaches made comments about their teams of athletes. Jack Hall, Joe Bryant and Roy Rutledge spoke of the outstanding events of the year for each group and made personal

observations very creditable to the young athletes.

Pete Bromley in his charge to the student athletes stated that Clarendon Junior High School is probably the home of the smartest kids in the world. He modified this statement slightly and added that after watching the group of Junior High Schoolers at the banquet tables he knew they were the best looking bunch of kids in the world. In one candid interval he revealed that at least two of the students were second generation family members for him.

More than 75 ex-students and spouses enjoyed the 43rd annual reunion April 25, 26, 1981 held on the Clarendon College Campus. Registration, visiting and reminiscing by looking through annuals for most of the years beginning with 1917, began the first day. Many enjoyed more visiting and the beautifully served tea in Mrs. Ruby Bromley's Dining Room in the afternoon.

Clarendon's own bounty of iris, bridal wreath, mock orange, columbine, etc. decorated the tables for the evening banquet.

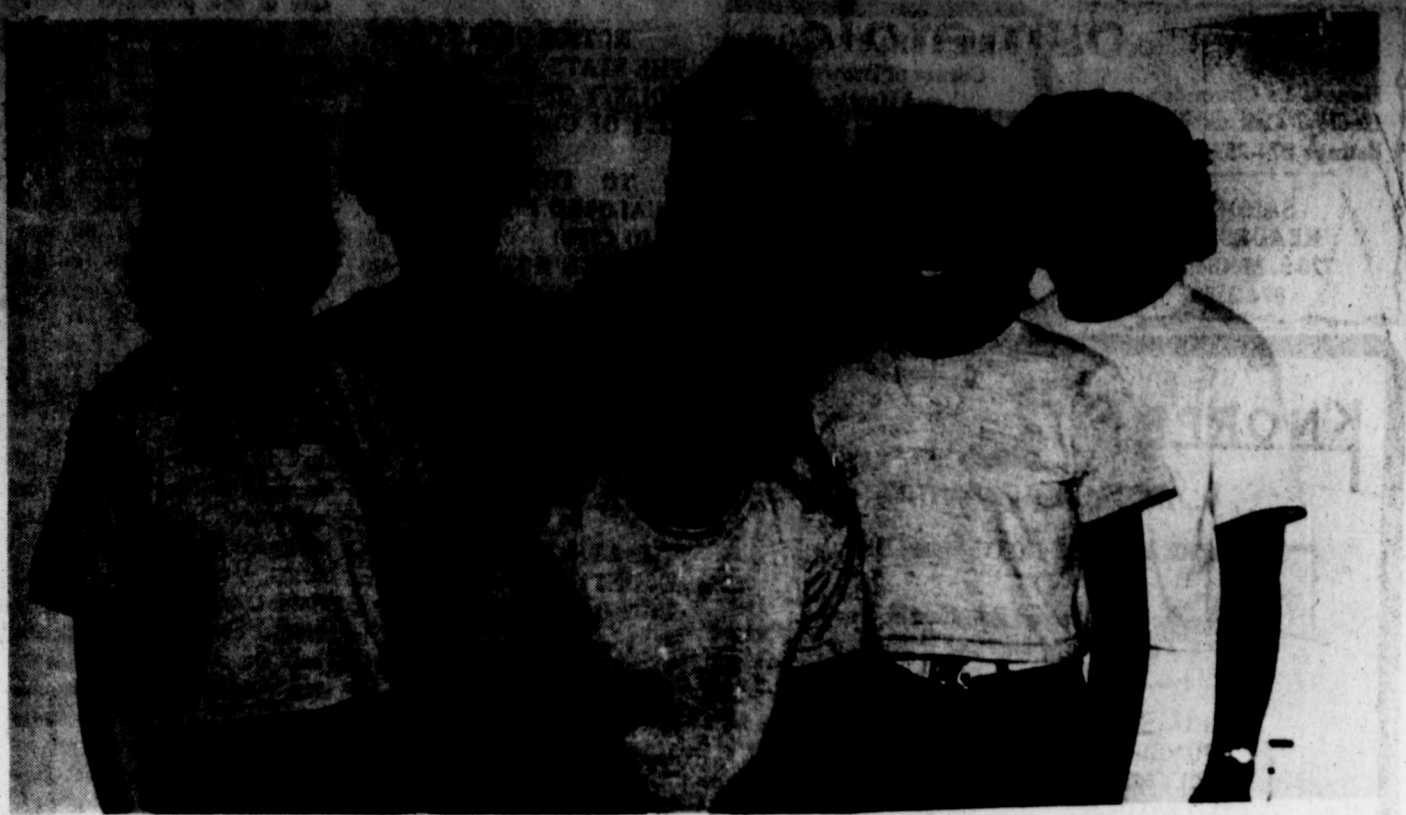

Jennifer B. Scoggin and

This service was attended by many of the ex-students.

Following the noon luncheon at the College Cafeteria President Emmett Simmons conducted the business meeting. ### Why Must God "Damn It?"

BY EARL JABAAY USED BY WAYNE NAYLOR

"The title hurts me because I hate even to quote people who call upon the almighty to damn things, but I must be understood. Yesterday I heard my barber ask God to damn his scissors, because they were not cutting properly. I asked him why he asked God to damn them and he didn't know. Do you?"

"Let's begin with this question: What is the reason why we curse? Actually, profanity is caused by a lust for power. It gives us a sense of superiority over others and seems to put us in command of the situation. We have the need for such feelings because of our sense of inferiority to others.

"If we are honest, we'll have to admit that deep down within us, we feel very weak and uncertain of ourselves.

We need power and we do not have it. Yet we need it to get on top of life. The use of God's name in profanity seems to give us this needed sense of power and superiority.

"But now I have another question: Why do people, unconsciously harboring these deep feelings of inferiority, drag the name of Almighty God in their profanity? Why is God asked to damn things, rather than the mayor, the angels, the preacher or even the devils?"

"The reason is clear: the curser uses God's name because it INSULTS God who has given us the commandment, 'Thou shalt not use the Name of Jehovah thy God in vain.' Just as a traffic violator has the urge to insult the policeman who gives him the ticket and the judge who fines him, so the sinner

wants to insult God by dragging Him off of His Holy Throne, humiliating His person, mocking His justice and ridiculing His name. We attempt to degrade God just because we know we are guilty of breaking His commandments.

"We have learned, therefore, that the use of God's name (not the mayor's name, nor the devil's) in profanity seems to give us a sense of power over people. In other words, we feel weak before God that we even dare to insult Him! Something is terribly wrong with the person who gains power among men by insulting God.

"And what is wrong? God tells us: 'I have nourished and brought up children and they have rebelled against me. My people are laden with iniquity, a seed of evil doers, children that deal corruptly.' Isaiah 1:2,4. This can mean nothing else than that we have rebelled against God!

"I hope you can see with me that there is only one thing to do-surrender to God. Stop fighting. Seek peace with God on His terms. The Bible says, 'we have peace with God through our Lord Jesus Christ.' Romans 5:1. Jesus comes to us with words of forgiveness-a forgiveness accomplished through the sacrifice of Himself of the cross. He finished the work of salvation by paying with his life the penalty of our guilt. He also broke the power of sin over us so that now we need no longer be under the power of sin. If Christ has freed us from guilt and power of sin, it means that we are no longer rebels who desire to insult God. Jesus Christ, therefore, is the answer to our problem. It is my hope and prayer that you will not cast Him aside.

"You have used your mouth to curse-I now invite you and urge you to confess Jesus Christ as your Savior and Lord, thereby blessing Him with the very lips which once cursed His name."

### Bronchos turned in excellent performances

The Clarendon Broncho Varsity Boys Track Team traveled to Hamlin on April 24th to participate in a regional qualifiers meet. Ten members of the team participated in the meet. The Bronchos gave a fine account of themselves in the extremely rugged competition as several personal records and seasonal bests were recorded by the Bronchos.

Several Bronchos who did not qualify for region in various events also participated and turned in some outstanding performances. The highlight of the day was very possibly the seasonal best of the mile relay team. The relay finished 3rd at district and did not qualify for region at Odessa. However at Hamlin they finished ahead of both teams that had earlier defeated them as they turned in the best mile relay team of any District 2-AA team this season. Bronchos who competed and their performances are as follows:

- 400 METER RELAY

### Do you have a question?

A meeting, on Thursday, May 7, 1981 at 7:30 p.m. by the City of Clarendon Board of Aldermen and the Mayor is planned for citizens of the city to ask questions about the up-coming water improvement bond election. The election has been called for Tuesday, May 19, 1981. All eligible voters who are water users in the city of Clarendon will be interested in this election.

let's share... ok?

### Do the "roman collars" label them Catholics?

Episcopalians and Roman Catholics and Presbyterians and Baptists and Methodists... these and countless other denominations exist because of the differences between men.

It's the similarities between men that produce Christians.

Episcopalians are proud of both their differences AND their similarities to other

Those Episcopalians Crazy

denominations. You can call them anything you like. They're Protestant because their forebears were among the leaders of the Protestant Reformation in 16th-Century England. But the word "Catholic" means "universal, whole, or complete"... and, certainly, Episcopalians are proud to embrace all the traditions of Christ's universal church.

In short, they don't feel that heaven is reserved for those who agree with the Episcopal viewpoint. They say, "There's only one God. Let's share. OK?"

By the way, would you believe that the "backward collar" was not a Roman-Catholic invention? It was introduced by a priest of the

Church of England, parent of the Episcopal Church in the United States. He devised it as a mark of identification during his ministrations to the London Dock area.

It's surprising how often people new to the Episcopal faith discover that its "peculiarities" help them appreciate the universality of the Christian religion. Think about that.

The program is for disadvantaged senior rural workers and places workers in non-profit organizations which serve the needs to rural communities.

Host agencies to Green Thumb, who also attended, were Billy Ray Johnston of Donley County Medical Center from Clarendon; from Turkey, Shirley Couch, city secretary; and Dorothy Johnson, director of Hedley Senior Center from Hedley. Green Thumb extends its thanks for those in Clarendon who helped make this training session meeting possible.

BY KATIE DVORAK

One of the high school boys was telling me a story that I just had to believe was true because surely these kids haven't learned the fine art of lying so early. Unless his dad was a big fisherman, then it COULD be a lie, but....

It seems that one fall, this fellow named Ray, just for the sake of giving him a

name, mind you, and a friend were hunting doves around a stock tank. When the doves fell into the water, they used a fishing pole to retrieve the birds. The sinker was on the end of the line so they could throw the line over the dove and drag it in. Ray left a hook on his line and discovered that when he had pulled his dove back in, there on the end of the hook was a 5 lb. bass! I don't think that fishing in tanks is going to be as good this fall, Ray.

Since the stock tanks are drying up and in danger of becoming part of the pasture or plowed field, the water dog concession may fall into a recession this fishing session. I have found a few adult dogs in the water meter

boxes, but they aren't good for bait. If any of you have an ambitious youngster at home, send them out siening for water dogs so we can set trot lines.

The Texas Parks and Wildlife has a booklet you should own if you hunt or fish, it's called the Hunting and Sport Fishing Guide. In it are the rules and regulations to setting trot lines. One of the things you should be aware of is that your hooks must be three feet apart, a minimum of five hooks and a maximum of 50 hooks on one line and that your total hooks on all of the trot lines you set at Greenbelt must not exceed more than a grand total of 100.

When you set a trot line, you must have a legible label either on the jug or on the line with your name and address and the date of the line was set. This date must be changed every 90 days. You can't set a line near a boat ramp or any area used as swimming areas.

The little Bass Nursery Pond will be in operation again this summer. The Greenbelt Water Authority sealed the end of the pond with some drilling mud so that the water won't run out of the nursery pond back into the lake. There were 20,000 largemouth fry set into the pond. This year, all of the little fishes will be of the same hatch so there shouldn't be any cannibalism again this year. All of the fish will grow at the same rate and be content to eat the minnows that will be fed to them rather than each other. Because of this precaution, there should be a greater number of little bass dumped into the lake in a years time. This is a noble effort on the part of the water authority people and the folks out at the lake. They are doing it in your interest and to help you catch more and bigger bass, so why not drop by and thank them for their efforts?

The Inland Fisheries folks recently dumped a bucket or two full of small mouth bass fish into the lake to grow and be caught. Last year there was a stocking of these small mouth bass and this year's stocking will make a pair of stockings so surely you should be able to catch a small mouth bass next year to boot!

Joe Kraai and some of his crew have recently completed one of their creel counts conducted at Merrideth, McKenzie and Greenbelt lakes. The purpose of these checks is to see how many fishermen use the lakes, how many hours are spent fishing and what the rate of catch per hour is. I'm glad Gary Hunt wasn't out there because his rate of fish per hour would make even Rip Van Winkle tired of waiting!

The fisheries men counted all of the fishermen, on the bank or in the boats, then they set up a check station at the boat ramp where they counted and weighed all of the fish each and every fisherman brought in. Joe Kraai, the Inland Fisheries Project Leader out of Canyon, said that he was pleased with the result of his creel count conducted over the weekend at Greenbelt.

There were several big stringers of white bass, 20 or so. There were a couple of nice sized walleye caught and a 7 lb. 2 oz. black bass was pulled-in. The crappies are biting as well, over 40 counted on Sunday. Fishing during the weekdays will be more profitable than on weekends because of the increased use of the lake for recreational boating.
