July 1 deadline for Donley County family histories

July 1st, will be the first deadline for getting in your family, business and community histories for the new history book. If you want to purchase one of these books, you must also get your reservation in. Out of town sales are coming in every day, but the local reservations are slow, so we need residents to get their histories and reservations in soon as they can.

Every business has interesting facts about their history, how they started, where they have been loca-

ted, who has been owners, stories about hard times and emergencies, old prices and wages and unusual events in the lifetime of the business.

The early reservation price to reserve a book is \$20.00 if you do not reserve a book, the price of the book could be as much as \$10 or \$15 higher than an early reservation. One you make a reservation, and after the book comes in, for any reason you do not want to purchase a book, your money will be refunded.

Clarendon College mini-courses offered

For the past few years Clarendon College has offered a very popular minicourse. This concentrated two week course is an effective means of earning 3 hours of college credit. This year Clarendon College is offering two minicourses. Registration will begin immediately. Because of the special nature of the courses, no late registration will be permitted. Interested students should contact the Office of the Registrar (874-3571) for further information.

The English Department will offer a sophomore level World Literature, English 263, class beginning Monday, May 18. This class will meet Monday through Saturday from 8 a.m. to 12 noon for two weeks and will be completed Saturday, May 30. This survey course is a study of the masterpieces of literature of the western world from the drama of the ancient Greeks through the poetry of the English Romantics. Two semesters of freshman English are the prerequisites for the course. Terry Scoggin will be the instructor. The cost of this course will be \$75 including book for a Donley County resident and \$90 for an Out of County Texas resident.

The Business Department will be offering a two-week course to improve keyboarding (typing) skills from May 18-29. The class will be meeting from 1-5 p.m. Monday through Saturday, but will make necessary adjustments in the time as needed by the individual student. This course is designed for those who wish to improve their speed and accuracy on the keyboard. Students are expected to have learned to use

the touch method on the keyboard at some time, but do not have to be able to type over 15 or 20 words a minute currently for the course to be helpful to them. It will be ideal for those who are wanting to apply for a job this summer but need to improve their typing skills first. It will also be of help to those who have never learned to type very fast or accurately and are finding difficulty in getting information into the computer on onto typing paper as quickly as they wish they could. Students will have option of working on a typewriter or a computer Keyboard during the course.

By using the scientific approach developed by the world's fastest typist, Cortez Peters, each student takes a set of diagnostic tests to identify the precise problems that he or she may have on the keyboard. This way, each student will follow an individually prescribed set of exercises designed specifically for him/her.

'Sam Hill' BBQ to open May 9

"Sam Hill" Pit BBQ will have their Grand opening Saturday, May 9th at 11:00 a.m. Located on Highway 287 West, Wayne and Sammie Lou Doering have extensively remodeled and redecorated the building.

Wayne and Sammie came to Clarendon from Amarillo after they both retired. Wayne had been in Amarillo since 1950 when he was one of the first with a military attaché from Shepherd Air Force Base in Wichita Falls to come to Amarillo to open Amarillo Air Force Base. He served 23 years in the Air Force with 9,000 flying hours for military air lift command. He has taught in the Air Force as well as Amarillo College and TSTI and has 29 years of teaching experience.

"I am a Texan by choice" smiles Doering, "and I have spent most of my adult life here in Texas."

Sammie is by no means a new comer to our area. She is the

daughter of Henretta "Nette" Salmon and the late Roland Salmon. She was raised at Antelope Flats and attended school at Lakeview. After attending Clarendon College and then Amarillo College she traveled around before returning to Amarillo to attend TSTI. With a degree in drafting and design she worked at Bell Helicopter for 8½ years as a draftsman before retiring to come to Clarendon with Wayne.

Sammie's daughter, Gina Goodwin, will graduate from Amarillo College this month.

For the past 4-5 years Wayne and Sammie have been catering private parties and affairs with their West Texas Cookin Co. portable BBQ rig. For your catering needs contact them and get a taste of real pit BBQ.

The Doering's are both community oriented and civic minded. Having them here will be a great privilege to each of us.

Historical route planned

The Chamber of Commerce, with Tommy Noble as chairman, is working on a historical route through Clarendon, so that anyone passing through our city could see our historical buildings which include Old Courthouse, First United Methodist Church, St. John the Baptist Episcopal Church, St. Mary's Catholic Church, and the S.W. Lowe Home. At this time, Tommy is not sure what will be on the route but it will include some of the beautiful old homes around town.

The committee is also working on making picture frames and hanging them in the store windows with pictures of Early Clarendon scenes. Some of the pictures are ready and may be hung by Press time. If you are downtown stop and see the pictures. If you have pictures that Tommy and his committee can borrow, please bring them by West Texas Utilities or the Chamber office. A copy will be made and your picture returned to you. Tommy would like to have enough old pictures to trade out and keep new pictures every couple of months or so.

Tourism is the second largest industry in Texas and the Chamber wants to see it they can attract some

of the tourist dollar to Clarendon from the traffic which comes through Donley County. The Texas Highway Department estimates that over 8,000 cars pass through the city limits of Clarendon everyday. Thousands of citizens take to the highways just looking for something to do and see.

Tommy is assisted on this committee by Wes Henson and Bob Williams. Also Bill Wise of J & W Lumber has been very helpful with the frames.

Help Tommy help Clarendon by loaning him your Early Clarendon pictures.

Governor proclaims Texas Hospital Week

Gov. William P. Clements Jr. has designated May 10-16 as Texas Hospital Week in recognition of Texas hospitals; their trustees, volunteers, employees and medical staff; and the Texas Hospital Association (THA) membership for their efforts in providing and promoting better health care for all Texans.

In his proclamation, Gov. Clements recognized Texas hospitals' and their staffs' commitment to helping Texans feel their very best.

"It is fitting and proper to salute Texas hospitals and their contributions to the public welfare, high standards of care, state-of-the-art equipped facilities, and educational and research programs," White stated.

Thank You

The Board of Directors of the Saint's Roost Museum would like to express their appreciation to ALL the Homemakers Clubs who furnished cookies for the tea the Museum Board hosted for Clarendon College ex-students.

This year's theme, "Texas Hospitals-Making You Feel Better," reflects hospitals' efforts to help you and your family feel better when an illness or injury occurs. Hospital employees are dedicated to their jobs, and are proud of their roles in contributing to the well-being of each community.

To demonstrate the theme, hospitals throughout Texas are promoting good health habits. Many hospitals are providing free blood pressure screenings and educating participants on the role of weight control, exercise and nutrition in controlling high blood pressure. Health assessments, screenings, various tests and health information are being provided at health fairs, hospital open houses and other scheduled activities

throughout the state during Texas Hospital Week.

Texas Hospital Week is celebrated in conjunction with National Hospital Week, which originated in 1921. Matthew A. Foley, a hospital magazine editor, selected May 12, the birthday of Florence Nightingale, as a special day for hospitals "so that the community may know its hospital." In 1924 the American Hospital Association assumed sponsorship of National Hospital Day and expanded the celebration to National Hospital Week in 1953.

Texas Hospital Week is sponsored by the Texas Hospital Association (THA), the Austin-based trade association for hospitals. THA represents more than 800 institutional and 4,000 personal members.

1926 Book Club

The 1926 Book Club met on April 21, 1987, at the Patching Clubhouse at 4:00 p.m. Glenda Hawkins, president, presiding.

President Glenda Hawkins presented Thelma Shields and her students from Clarendon Elementary School. The following students presented a patriotic program about George Washington: Julie Altman, Mandy Floyd, Amanda Ward, Kimberly Wootten, Beth Barbee, Haley Hamilton, Jason Dunn, Jason Ham, E.J. Bamirez, Jeremy Hicks, and Randy Haire. The program was "Let George Do It" songs about George Washington and our nation being born. Jason Ham presented a fiddle presentation of "Faded Love" and "Boiled Them Cabbages Down".

Following refreshments by hostesses Frieda Tucker and Dorothy Whitaker, President Glenda Hawkins presided over the business meeting.

The club "Collect" was read by all members in unison, led by Glenda Hawkins. The minutes of the previous meeting were read by Betty Veach, recording secretary. The minutes were approved. Our new member, Renee Duncan, was recognized and welcomed. No treasurer's report.

Viola Bones made a motion to change our by-laws to read--the 1926 Book Club shall have one meeting a month instead of two, Dikki Howell seconded the motion. After discussion, the motion passed. Viola Bones made a motion to change meeting to 1st Tuesday of the month for the meeting, Hazel Brandon seconded the motion, motion passed.

The May meeting was discussed. The original meeting was scheduled for May 5, but several members had conflicts on that date. This meeting is the President's Dinner Meeting. It is to be a "pot luck" supper. After discussion, it was decided to change the meeting to May 12 (Tuesday) at 6:00 p.m. at the Patching Clubhouse. Jessie Adams made a motion to have 3 hostesses for the Social Committee instead of only 2, motion seconded by Mary Hazel VanZandt, motion carried.

A sheet was passed around which had committees for the year 1987-88 on it, you were suppose to put down your name on which committee you would like to serve on for the coming year. Mrs. Bones made the statement that she would like to get back tot he object of the 1926 Book Club--book reviews, poetry, and other literature being presented as

Taxpayers save \$5,000,000 with the single location primary bill

Our State legislature faces a serious fiscal crisis. In response, many of the bills introduced in this Legislative session effect cost savings. Unfortunately, those same bills significantly reduce the level of services or have the potential to hamper the efficient administration of State government. There is, however, one notable exception.

In response to recommendations of the Office of the Secretary of State, Senator Cyndi Taylor Krier of San Antonio and Representative Richard Smith of Bryan have filed a bill proposing that the Democratic and Republican primary elections be conducted in a single location in each election precinct. This proposal will save Texas taxpayers \$5,000,000. Elections will be improved and the cost reduced dramatically by lower polling place rental costs, reducing the number of election workers, and the implementation of other economies of scale. The bill has the additional advantage of providing for professional election administration by county officials as opposed to the political party workers used in the past. This bill only "desegregates" the polling place while retaining a separate ballot and separate machines for each political party, and establishes bi-partisan election judges.

The current primary election scheme used in Texas provides that each political party have a separate polling places, making Texas the only state without a single location primary. The resulting duplication of service by both parties, saddle our State with the highest cost per primary vote in the United States. Under the present scheme, primary costs have been steadily rising from \$1.36 in 1978 to \$4.30 in 1986. It is conclusive to note that primary election costs in Texas greatly exceed the costs of our general election. For example, the five largest counties in Texas average \$3.00 per primary vote and only \$1.00 per general election vote. In tough times, we can't tolerate such waste.

The passage of legislation mandating our State's participation in the "Super Tuesday" primary election next March also provides that the primary elections will now be held on weekdays. The single location primary bill will eliminate approximately 26,000 election workers. This reduction will address any potential personnel shortages due to the weekday date. The bill also places the responsibility for elections in the

hands of experienced election professionals in each county in Texas as opposed to political party workers. Political party workers could work weekends, but many would experience difficulty working on weekdays due to personal job commitments.

Many Democratic and Republican partisans have expressed concerns regarding the bill. Democrats claim it will create political advantage for the Republican Party by establishing primaries in counties which never have held such elections. In response, please remember that only 22 of 254 Texas counties did not hold Republican primaries in 1986 and The Elections Division of the Office of the Secretary of State has estimated over half of those counties will hold GOP primaries in 1988 because of the heightened interest in the "Super Tuesday" election. Further, these counties only account for approximately 70,000 registered voters which represent only 1 percent of the approximately 7 and a half million registered voters in the State. Finally, who can legitimately complain when State funds are used to make it equally convenient to vote in the primary of either party?

Republicans complain of "losing control" of their primary. In response remember, the elections will be run exactly as the general elections were responsibility is fixed with elected officials. The bill provides both parties will be fairly represented in each polling place.

Some critics of the bill have suggested that long lines will result from the high interest in "Super Tuesday". Such allegations are unfounded. Here is why. The primary election will be conducted in the same manner as a general election is presently conducted. However, the combined total of primary voters will not approach the number of voters in the general election. For example, the highest primary vote turnout in Texas history since 1972 was 35 percent, well below the 68 percent watermark figure for general elections. Therefore it is clear that, with the efficient allocation of poll workers, professional election administration, and efficiency of staff, the primary election should run much smoother and faster than the general election.

The professional elections staff of the Secretary of State's Office, in conjunction with local election officials

throughout the State, developed the guidelines for this bill. They are of the strong opinion that the procedures will work efficiently and result in significant savings tot he taxpayers.

Non-specific Allegations of partisan advantage of Republicans because of the change are without merit. Only 12 of 254 County Clerks are Republicans. Therefore, if there exists and advantage, it is to the Democrats. Republicans should not be concerned, however, as they are placing the responsibility for elections in the hands of elected officials who are serving under oath of office and, while the vast majority are Democrats, the elections will be conducted in the same manner as general elections are today.

One final point. This legislation was prepared in response to the need to find an innovative means to reduce the cost of government without reducing services and for no other reason. It was drafted with the recommendations prepared by the professional non-partisan staff of the Elections Division of the Office of the

Secretary of State and with the advice of local election officials. Both political parties and the leadership of the House and Senate were briefed in advance concerning the provisions of this bill and asked for input before it was filed. This is a non-partisan response to the State's fiscal crisis. It is not a plot any either party to gain political advantage. While republicans are taking the initiative on this occasion, in the past Democratic leaders such as Former Secretary of State Bob Bullock, Senator Oscar Mauzy, Representative Joseph F. Pentony and republicans such as Senator Walter H. Mengden, Jr., have advocated this approach. It does, in fact, represent an idea whose time has not only come, but is past due.

These are not times for political bickering. It is time for statesmanship and bi-partisan responses to problems facing Texas. The single location primary bill deserves a fair hearing and enactment.

KOW KANDY

Cattle show a grazing preference for KOW KANDY because its high protein and sugar levels enhance its palatability. KOW KANDY is a superior multi-purpose sorghum-sudangrass for spring and summer production. This excellent forage crop, with its sweet, juicy stalk and abundant succulent leaves is a very palatable and nutritious livestock feed. It produces excellent results when used for pasture, green chop or hay production, and when fed in large or conventional bales. Fast and abundant regrowth make KOW KANDY a maximum TDN producer. Its rapid regrowth and drought tolerance enable this superior hybrid to produce several cuttings per season.

HISTORICAL RELIABILITY:

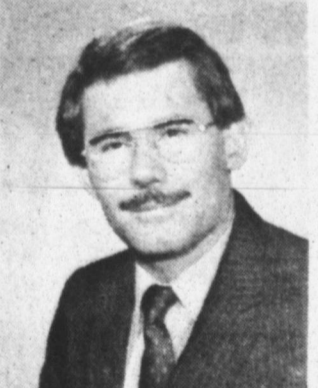

Either the Bible is a book of myth and legend (hense, one of the greatest lies ever perpetrated upon the human race); or the Bible is accurate & reliable history (and therefore the inspired Word of God as it claims to be)! Perhaps you have never thought about it, but what do we find when we test the Bible for "Historical Reliability"? You need to know that scholars have put the Bible through severe tests, using every scientific, historical & literary device known to man.... and through it all the Bible has come through with flying colors and has been proven time and again to be accurate, reliable history! For example: Scholars use the "SPACE-TIME DIMENSION" to document the reality of Bible characters, places, events and settings; they use "ARCHAEOLOGY" to document people, places, custom & culture; they use "CONTEMPORARY DOCUMENTATION" to establish the reliability of Biblical characters & events; they use "MANUSCRIPT ATTESTATION" to establish the fact that our Bible is thousands of times more reliable than any ancient history dating back to that time era; and they use the "ACID TEST" to determine how Bible events were accepted by the people who lived in that day and age! These are just a few, but enough to show that we cannot afford to be careless and neglect what the Bible has to say to us. For the sake of your family, your friends, yourself... seek God's Word while you have opportunity!!!

ASCS news

Two important items to a lot of people - -

First off, for you that let some generic commodity certificates expire on December 31, 1986 through March 31, 1987, you have one last chance to exchange them for cash.

To apply for payment, the original holder of the certificate must return the expired certificate by May 15, 1987 to this office, along with a written request for their exchange for cash. Upon approval, payment will be made equal to the face value minus 15% for handling and another 4.3% required by the Balanced Budget and Emergency Deficit Control Act of 1985.

The expired certificates may not be exchanged for commodities in the Commodity Credit Corporation Inventory.

This is a one shot deal, so if you let this one pass, I guess those expired certificates would make good wall paper.

We told you in the last newsletter that the Committee was asking permission to hay and graze ACR (set aside) acres. This has been approved.

This means you can hay or graze your ACR that previously we had been saying you had to stay off of from June 1 through Oct. 31.

Now there are some rules such as:

1. You cannot charge others for grazing your ACR.
2. You cannot charge others for the value of the vegetative growth that is hayed.
3. You can recover normal and reasonable costs of letting others graze or bale your ACR such as:
 - a. Installing temporary (electric) fences or pumping water.
 - b. Swathing and/or baling the hay.

After grazing out or haying, you may plant another cover (sudan) and hay or graze it also.

You must not remove or allow to

graze to the extent that the acreage is not protected from wind and water erosion.

Now, like all these good deals, you will have to come in and sign a form for us before you hay or graze.

Be sure and do this because we are spot checking and if you are haying or grazing and haven't made application, you will be in violation.

Now talk about having your cake and eating it too - this is a good deal for us - let's don't abuse it.

You still need to certify your small grain by May 15th.

Now, one last time, we are checking every CRP (old soil bank) field this week for grazing. You have been reminded for the last time, if they are on the CRP acres this week and we catch them then you are the one caught.

Fair enough - if you get caught under the gate - don't holler.

Who said it would never dry up enough to get in the fields?

Texas Land Commissioner

Here at the Texas Veterans Land Board, we are proud of a government program that really works, and that's the Texas Veterans Housing Assistance Program.

Since the program began in 1983, we have not spent a single penny of Texas taxpayers' money, yet we have put over 24,000 Texas Veterans into homes.

We do this by pledging the credit of the state to secure the lowest interest rates possible for our Texas Veterans—through the sale of general obligation bonds. The Veterans who participate in the program pay back the bonds, plus the cost of administering the program, in their low monthly payments.

Currently, we are lending \$20,000 at 9 percent interest—that's competitive with current market interest rates. We lend the first \$20,000 on a home. That \$20,000 can be combined with a conventional loan.

Texas Veterans who are interested in the program can call 1-800-252-VETS from 7:30 a.m. to 6 p.m., Monday through Friday.

During this time of a buyer's market in the real estate market, that is good news for Texas Veterans. And good news for taxpayers, since the program doesn't cost a single penny.

And good news for the economy, since every dollar spent by the Texas Veterans Housing Assistance Program puts seven dollars to work in the private sector.

Veterans Q and A

Q-I receive VA compensation benefits. I am now retired and living on a limited income, can I also receive a VA pension?

A--You cannot receive both VA compensation benefits and a VA pension. You may elect to receive a pension, if you qualify, and the pension would in fact be greater than the compensation benefit.

Q-I am a veteran with a service-connected disability rated at 50 percent. I have received an injury which is not service-connected, but which will require a prosthetic appliance. Will the VA supply this needed appliance?

A--Yes. Any veteran with a service-connected disability of 50 percent or more may be provided with necessary prosthetic appliances for any medical condition.

Q--Can a female veteran claim her husband as a dependent?

A--Yes. When receiving compensation, pension or education benefits from the VA, the female veteran may claim her husband as a dependent.

On April 15, 1987, the Clarendon F.T.A. chapter sponsored a "Teacher Appreciation Day" event in the cafeteria of the high school, starting at 4:00 p.m. The F.T.A. provided refreshment for the teachers and honored them this particular day.

This program has had amazing results. Mr. Peters, who types over 200 words a minute, has personally taught over 12,000 students, and about 600 schools across the nation offer his course using locally trained instructors. Mrs. Pamela Denney, Chair person of the Business Department at Clarendon College, has been teaching this course on campus for 1 1/2 years and will be the instructor for the two-week course this summer.

According to Mrs. Denney, it is not uncommon to find that most students starting in the program make over 20 errors while typing for 5 minutes. Many of the students learn to type for 5 minutes with no more than 1 error before the course is over, and most learn to type with no more than 5 errors per 5 minutes timed writing, which is the accuracy rate desired for most job applicants. Speed is usually increased anywhere from 10 to 40 words a minute.

The cost of this course with book will be \$71 for a Donley County resident and \$86 for an Out of County Texas resident. Come by the Registrar's Office as soon as possible to sign up for this course which has a 20 student limit due to machine availability.

Family honors Carrie Edwards with 90th Birthday celebration

Copied from Wellington Leader, Thursday, April 30, 1987

Mrs. Carrie Bell Turner Edwards was honored on her 90th birthday when her 11 children hosted a family gathering on Saturday evening, April 25 and a reception on Sunday afternoon, April 26.

The children are Leonard and Ruby Edwards and Ruby Alexander of Shamrock, Luther and Irene Edwards of Amarillo, Troy and Myrtle Stallings of Wellington, Preston Judd of Amarillo, Jewell and Homer Vorse of Tennessee, Colony, Betty Kizer of McLean, Elouise Miller of Grand Prairie, Ralph and Nell Edwards of Hale Center, Elwanda and John Tylor of Shamrock.

Grandchildren assisted with the celebration.

Mrs. Edwards lives in Shamrock, but before moving there in the 1940s, she lived in Wellington many years, and before that she was a Dodson resident.

Both the family get-together and the reception were held in Bura Handley Community Center club room.

A sign decorated with twinkling lights stood outside the building, proclaiming "Happy 90th Birthday."

Inside there was much visiting and reminiscing. The children brought family photographs. Some were more than 100 years old, and among them was a picture of Mrs. Edwards and her family made when she was two years old.

The Edwards are a musical family, and there was much music and singing during the evening. Three grandsons, Beeny Stallings, Kenny Stallings, and Calvin Judd, are members of the country-western band, Laredo, in Amarillo. A great-granddaughter, Michelle Stallings of Pampa and a daughter, Betty Kizer of McLean, joined them Saturday evening.

A buffet dinner was served with the Rev. Raymond Vaughan of Lubbock giving the opening prayer. More family members and friends came from out of town and from the county on Sunday between 2 and 3:30 p.m.

Various family members received the guests, who were then greeted by Mrs. Edwards. She was presented with a money tree.

There was more music in the afternoon and family members spoke their tribute to her.

Her pastor, the Rev. maney also spoke of her life.

Mrs. Edward's 7 daughters presented a skit, "What a Mother is."

Quilts were hung across the north side of the room made by members of the family. Some contained the hand embroidered names of the family. Others were made by Mrs. Edwards. A family tree contained 212 names of the Edwards family.

At the close of the celebration, three grandsons played and sang "Will the Circle Be Unbroken," but with the modern country-western sound.

Refreshments were served from

Call your air conditioning serviceman now!

Summer's ahead and your serviceman will be mighty busy in the months to come.

While he still has time to include you in an early schedule, calling your air conditioning serviceman will assure the dependable cooling you've come to expect from your electric air conditioning units. Early maintenance or installation of new units will save you from a long waiting period later on. Remember, the hotter it gets, the busier your air conditioning serviceman is.

Caulking and Weatherstripping!

If you check all windows and doors and install weatherstripping and caulking where needed, you will save on both cooling and heating costs. Close that gap with easy-to-install felt or foam rubber products which draft-proof doorways.

Keep the cool air you've paid for inside of your house. Consider installing insulation as support for your hard-working air conditioning unit. Insulation comes in

Our last two meetings for the Intermediate Clothing Group, have been on April 23 and April 30, 1987.

During the first meeting, we went to the Clarendon College Cosmetology Department, where we learned about hygiene.

During the second meeting, we went up to the courtroom to see slides on posture.

JUST A LITTLE TIME

We are living in a time when great things are taking place. Some good and some bad. Maybe you have walked a long way in your quest of life and seen the change that has taken place. That fifty years ago, the people thought would never happen. In my lifetime, I have seen the change that has taken place in the family, from a close unit into one that doesn't have time for one another. Who got their own way unable to set down together and enjoy one another's company.

I remember when I was young, the neighbor down the road would come on a Saturday or Sunday to spend all day, just visiting one another. The children would play together and have a great time. The boys would go hunting or fishing and have a ball. Now it seems they don't know how to have clean fun and enjoy life as they should. It's not all their fault because we parents drive our children too fast into life that is demanding more and more of their lives and energy. It is no wonder that drugs and alcohol becomes part of their lives. Take some of the pressure off of their lives and let them be a child awhile longer and enjoy some time with you as a family. Turn that ONE EYED babysitter off and be a mom and dad to them. The time spent with your children will reap a big reward, all the rest of your life.

GRAND OPENING MAY 9

Watt's Happening in Hedley

by Peggy Watt

Roy and Oleta Burnett of Hugo, Oklahoma. Louis and Ethel Mullinix of Grandbury, and Betty Weems of Weatherford, Texas spent the weekend with the ladies' cousin, Walter Johnson.

Donnie and Debbie Powers of Memphis worked at Rhema Ranch Country Store while L.C. and June Johnson was in Dallas at the Market.

Kendra Martin entered St. Anthony's Hospital in Amarillo Tuesday to have her tonsils out. She'll have some more corrective surgery while she's there. I guess Sis and Marty were with her, and probably Blackie and Shirley.

Red Hill and Red Doherty have returned from a fishing trip to

Canton, Texas. I'm not sure how lucky they were fishing. Red Hill told me they caught about one hundred pounds of fish, but everyone who knows him, knows he tends to prevaricate on occasion. They spent one night in Dallas. Red Hill stayed with Ray and Sue Pinkerton, Chad and Mandy. Red Doherty stayed with Jack and Ruth Doherty, Steve, Charles, and Chris.

Richard and Janet Conine, Rachel Adams, and Marie Adams attended the Bob Wills Celebration in Turkey last week. They also picniced in the park at Memphis.

Phyllis Black, Jeff and Stephanie of Red River, New Mexico spent the weekend with her parents, Travis

and Inez Bland. They also visited her uncle and aunt, Gerald and Marie Bland.

Bill and Jo Bridges and Mary Rains Jefferys of Amarillo spent the weekend at their farm home near Hedley. Fred and I went out Sunday evening and visited with them. Jo and Mary are busy working on their family history for the Donley County History Book. Bill was more hindered than help. He didn't seem too interested in his ancestors. Bill, Mary, and Fred shared a set of great-grandparents.

Johnny and Dorene Conatser shopped in Clarendon one day last week.

Bill Mullins and Natalie Connors of Stamford spent the weekend with Bill's parents, T. and Nancy Mullins.

Tode and Mattie Laura Hill and T. and Nancy Mullins, Steve and Dan came down Thursday evening and helped us celebrate Fred's birthday. We enjoyed homemade birthday cake and ice cream. He got several nice gifts. He didn't get a puppy. Guy did.

Our grandson, Langly Joe Couch brought his parents, Leon and Linda Couch from Lueders for the weekend. They spent some time in Memphis with Linda's parents, Albert and Edith Ivy and some time in Hedley with my parents, Lola Brown and Moon Mullins. They attended worship services at the Baptist Church Sunday morning. They even spent a little time with us. NOT NEARLY ENOUGH, but we enjoyed the little kid and his folks while they were here. Two days aren't enough to see everybody they need to see when they are here.

The First Baptist Church recognized the graduating seniors at the morning worship services. The pastor, Rev. Bryan Knowles presented each of the seniors, all four of them, and Mr. Collins, their sponsor, with beautiful bibles. The seniors are Calvin Holland, Terry Moore, Eugene Schwertner and our son Keith.

Woodrow and Ora Pearl Farris visited Woodrow's sister, Nella Gamble in the Memphis Convalescence Center one day last week.

J.T. and Helen Lamberson celebrated their fifty-fourth wedding and anniversary last week. Their son, Sonny and Colleen Lamberson treat-

ed them to a day out in Childress with lunch.

Johnny and Della Linville visited their son, Jonny Harold Linville in Wellington Sunday.

Angie Pierce of Amarillo spent Saturday night with her Hedley grandparents, Manford and Wilma Snelson.

I notice Helen Lamberson and Louise Stewart watering their buckets on Main Street one day last week. Some of the flowers are dying and some of them are thriving. It looks to me like they would set out plastic or some other artificial flower in the pots. That way, they wouldn't have to water them and worry about them dying. They have also planted some trees in their mini-park on main street. They have two pecan trees and two apricot trees. I hope they aren't expecting pecans off the trees any time within the next few years!

Tony Clendennen of Lueders spent the weekend with his parents, Tom and Opal Clendennen.

The Hedley Eastern Star Chapter 413 held their regular monthly meeting Monday, May 4, in the Lodge Hall in Hedley. Worthy Matron, Dorothy Brinson presided.

A pot luck supper preceded the meeting. John and Polly Sarich, Bill and Tena Powell, and Opal James of Clarendon Chapter #6 and Roy and Wanda Jeffery, Edna Rudy, and Kathryn Barjenbrook of Wellington, Chapter #238 were with us.

I was privileged to preside during the ceremony initiating S.J. Johnson.

Sister Dorothy conducted the regular business meeting.

Hedley members present were Dorothy Brinson, Fred Watt, Peggy Watt, Nancy Mullins, Jonnie Hill, Wilma Leslie, Kim Clubb, Beth Lemons, Tige Hill, Jaussetta Marin, Gail Johnson, Lola Brown, Nell Land and Kenneth Brinson.

From The PEN of PASTOR PINION

"DEFILEMENT BY EVIL COMMUNICATION"

Defilement of a christian is a very serious spiritual matter. Over the past several weeks we have studied how Daniel purposed in his heart not to be defiled by the ways of the Babylonians. We must live in the world but we do not have to live like the world. And remember that God does not use or honor unclean vessels.

The week we want to talk about another source of defilement: There are those who may never be overcome by the flesh and it's appetite

but who leave themselves open to be defiled by the gossip of others. We're talking about those who allow themselves to be the garbage dump for the gossip, slander and talebearing of the backslidden and lost. James chapter three deals with the evil and damage the tongue can accomplish. It would do us well to review that chapter and heed the apostles warning. In Proverbs 26:22 we are told, "The words of a talebearer are as wounds and they go down into the innermost parts of the belly." There are never any positive results from such practices. We need to also emphasize that those who listen to such malicious conversation are just as guilty as those who practice it.

Satan loves to use gossip, slander and talebearing to cause division in the local body of believers. His tactic is to divide and conquer. But not only does he divide believer from believer but also believer from his relationship with God. In I Peter 4:15 we are instructed, "But let none of you suffer as a murderer or a thief or as an evildoer or as a busy body in other mans matters." God links murder, theft and evil doing with gossip and slander.

Next week we will see how to deal with talebearers. But in the meantime remember that those who misuse the gift of speech are always destructive. God expects his children to be positive, loving and even building up others and self in the love and grace of God.

Happy Mother's Day

Especially for MOM on her Day

We've got great plans and an even finer menu to make her special day a memorable one. Make plans now!

Delta Kappa Gamma held meeting

On Saturday, May 2, 1987, the Delta Kappa Gamma Chapter met at Hazel Brandon's home. Membership is from 4 counties: Wellington, Clarendon, Memphis and Childress.

This event was a special meeting to recognize our membership who have been in Delta Kappa Gamma for 25 years or more.

President Jean Cavitt, Samnorwood, presided at the meeting.

Tops Gilbreath, Memphis, opened with inspirational thoughts on friendship. Evelyn Messer, Hedley, recording secretary read the minutes and called roll. Alma Bruce, Memphis, gave the treasurer's report.

President Cavitt reported that an organization, the Womans Forum, would like to re-establish the "Panhandle Distinguished Woman's Award". This award recognizes women and their outstanding contributions to their community and state. Our organization may join for \$10.00 or individual members may join for \$10.00. We could nominate a lady for this award. We have until October 17 to decide. Members are to think about this until our next meeting.

Evelyn Messer, Hedley, gave the program on our founding ladies. There were 12 ladies who started the Delta Kappa Gamma Society. It was a very interesting and informative program.

President Cavitt reported that the next meeting for the 1987-88 year will

be at Jean Cavitt's home in Samnorwood; it will be a salad luncheon.

The highlight of our meeting was recognizing members who had been in our chapter for 25 years or more; they were presented a certificate and a rose. They were: Tops Gilbreath, Memphis, 48 years; Edgar Mae Mongole, Canyon, 48 years; Alma Bruce, Memphis, 27 1/2 years; Hazel Brandon, Clarendon, 32 years; Helen Madden, Memphis, 43 years; Ethel Hillhouse, Memphis, 32 years.

Following the awards, everyone had brunch. Chicken salad casserole, sausage balls, strawberry tortes, cookies, coffee, orange juice and rolls were served.

Attending were: Edgar Mae Mongole, Mabel Mongole both from Canyon; Pauline Heath, Thelma Shields, Betty Veach and Hazel Brandon all from Clarendon; Ethel Hillhouse, Helen Madden, Tops Gilbreath and Alma Bruce all of Memphis; Evelyn Messer, Hedley; Juanita Hernandez and Jean Cavitt both of Samnorwood; Evelyn Carter, Wellington and guests Jessie Adams and Ethelyn Grady both from Clarendon.
