Canning Equipment Provided By FSA For Hall and Donley Co.

tion is providing pressure cookers for their clients to assist them in carrying on a live-at-home pro-

Approximately seventy families in Hall and Donley Counties have received this equipment. Every effort is being made by thrifty FSA families to fill the food preservation budget this fall

An adequate supply of fruits and vegetables for one person for the thirty non-productive weeks of the year are as follows:

Canned-Tomatoes 15 quarts, greens 10 quarts, string beans 6 quarts, peas 21/2 quarts, berries 3 quarts, peaches 5 quarts, cherries 3 quarts, pears 21/2 quarts, plums

21/2 quarts, rhubarb 2 quarts. Stored-Squashes 10 lbs., Carrots 7 lbs., beets 7 lbs., turnips 9 lbs., onions 8 lbs., cabbage 20 lbs.,

Dried-Peaches 11/2 lbs., apricots 11/2 lbs., prunes 5 pounds.

Storage plays an important part in the preservation of food. A storage room should be well ventilated, dry, clean, dark, free from temperature aids in preserving the quality of canned and stored foods. Cellars, basements, "dugouts'

and the ventilated pantry, if properly constructed and ventilated, connections needed — 12-inch can be made to meet these requirements in Texas.

A ventilated pantry is one so constructed that the cool air which is stored up under the house is drawn slowly through the pantry during the day and keeps the foods in the pantry at approximately the same temperature as can be maintained in a cellar or other underground storage place.

As important as the pantry itself are the containers and the way in which they are labeled and

stored. A well organized pantry makes meal planning easy because the general food divisions suggest the daily food need of the family.

As the top of any storage room is warmest and the bottom coolest, the following arrangement is suggested:

Top shelf-Pickles, relishes, preserves, jellies, and other sweets, as

Bronchos Lead In South Half Rating

Wellington Continues To Hold District Spotlight

Wellington's rampaging 'Rockets continue to hold the spotlight in district 3-B with three games won out of that many starts. The Wellington club, the only standouts in the south half of the conference, shade the north half leaders, Le fors, by virtue of victories over the strong Quanah, Mangum, Okla. and Panhandle elevens.

Lefors, although having chalked up three wins to no defeats, has met much weaker opposition in Mobeetie, Clarendon and Miami,

For the first time in several years, Clarendon gets to lead the district standing although the rating is expected to be shortlived. Clarendon nosed out the Lakeview Eagles Friday in the only conference tilt for the south half.

Lefors and Shamrock pace the north half of the conference with respective wins over Mobeetie. Wheeler takes third place with a tie with the hard pressed Hornets.
