Carousel Shoppe To Have Open House

The Carousel Shoppe, located at 107 N. Kearney Street, next door to The Clarendon Press is having Open House, November 30 and December 1st., to celebrate their first year of business. We will be giving door prizes throughout the day. Daily hours are Tuesday thru Friday 10 a.m. to 5:30 p.m. and Saturday from 9:30 to 12:00 p.m. Wanda Deen, owner and operator of The Carousel Shoppe is assisted by Nancy Kidd.

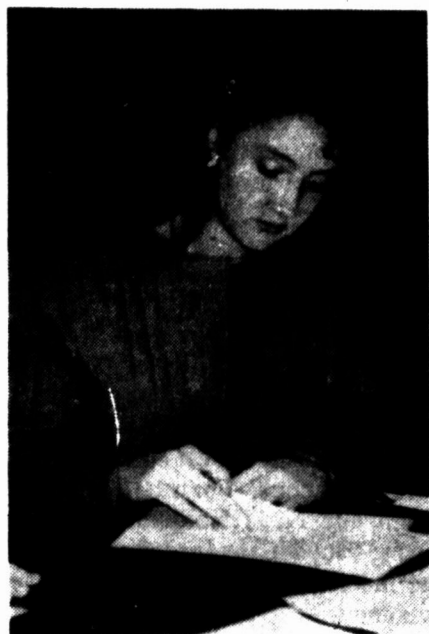

The store originally opened as a consignment shop, specializing in Ladies and Childrens Clothing. The consignment has done a very good business this past year. Wanda welcomes new consignments.

The store has expanded their clothing to include new items from the Dallas Market. All new merchandise during the Anniversary Sale is sale priced. The store is now 75% new merchandise. Wanda made her first buying trip to the Dallas Apparel Mart last April and has made return trips to Dallas to make new purchases monthly since that time. She has many name brand garments such as Technics, Cherokee, Seattle Blues, Chazz, The Edge, Jou Jou, One-Step-Up, and many other labels. The Carousel Shoppe also carries little girls Martha Miniature dresses for special occasion.

Wanda has strived to purchase a small quantity of many brands. By doing this the cost to the consumer remains low and there is a much larger selection to choose from.

Wanda and Nancy would like to extend a warm welcome to everyone to drop in and browse. They will be glad to gift wrap your purchases for Christmas. For your convenience The Carousel accepts Visa and Mastercards.

The Carousel Shoppe would like to extend a special Thank You to each and every one of our customers who have made our first year in business such a great success.

PTA Program Offered

All parents are invited to attend a program dealing with the teaching of sexual responsibility to pre-teens and teenagers on Tuesday, December 5th, at 7:00 p.m. in the public school cafeteria. Presenting the program will be Phil Stroud, Church of Christ minister and Joan Hodge, Education Specialist from the comprehensive School Health Project with Region XVI Education Service Center. Phil Stroud will present a video entitled "Sex Respect" and Joan Hodge will discuss the role of parents, school, and community in teaching sexual responsibility.

Adolescence is a turbulent time for most boys and girls. Change is so rapid that the young teenager often feels fragmented, wanting adult privileges, and yet behaving childlike. Parents, too, find this a difficult time.

Ironically, teenagers need information and guidance about sexuality at a time when they are least likely to admit that need. Why should parents be concerned about their teenager's understanding of sexuality? The facts are clear and alarming:

* The highest divorce rate in the United States today is among

teenagers.

* More than 50 percent of the marriages of high school girls occur when the girl is pregnant.

* More than one million teenagers become pregnant in the United States annually.

* Venereal disease has escalated among teenagers, and many do not know where to go for diagnosis and treatment. Some do not know that they have it.

* Adolescents are having sexual relations earlier and more frequently today than in previous generations.

Jones & Watson Wed

MRS. CARL DWAYNE WATSON
...nee Karen Jo Jones

In a picturesque mountain setting at Angel Fire Baptist Church in Angel Fire, New Mexico, Karen Jo Jones of Amarillo became the bride of Carl Dwayne Watson, also of Amarillo, Friday evening, November 10, 1989. The wedding was officiated by the Rev. Dann Masters of the church. The bride is the daughter of Paul and Martha Jones of Route 5, Hereford, and the bridegroom is the son of Faylon and Nancy Watson of Clarendon. The church was decorated with greenery accented with antique satin bows and roses.

Tawana Richardson, the bride's aunt, served as matron of honor and best man was Tony Kuhn of Altus Oklahoma.

Guests were ushered by the bride's brother, Brian Jones. Jamie Leigh, the bride's daughter, was junior bridesmaid. Kim Stevens of Canyon played "Bridal Chorus Lohengren", "The Wedding Church", and "Mid-Summer's Dream."

Presented in marriage by her father, the bride wore a tea-length candlelight satin dress fashioned with a Victorian lace collar and long satin sleeves adorned with lace at the cuffs. The bodice featured yokes of lace and the straight skirt, attached to a fitted waistband, was designed with three flowing flounces at the back which fell to the hem-length. The back of the dress, which formed a V-shape neckline, was covered with delicate lace and was highlighted with satin covered buttons.

The tulle veil with pencil edging formed a pouf at the back of a candlelight satin hat appliqued with beaded alencon lace, lily-of-the-valley and sprays of pearls. French veiling formed the blusher.

She carried six candlelight roses tied with candlelight ribbon streamers. The bride's heirloom jewelry included her maternal grandmother's antique engagement ring and pearls.

The matron of honor was attired in a tea-length forrest green taffeta semi-fitted dress designed with a V-shape back neckline, long sleeves with gathered caps and a peplum marked with a belt accented with a bow.

The junior bridal attendant wore a matching forrest green taffeta dress fashioned with a dropped waistline, adorned with a bow, and a balloon skirt. Each attendant carried a burgundy rose bud.

The dinner and reception was held in the home of the bride's parents at Angel Fire.

The bride's cousin, Sonia Barnett, served cake, and punch and coffee were poured by Wanda Cobb of Hereford.

The two-tiered bride's cake was decorated with candlelight and burgundy roses and was placed on a table covered with an antique lace cloth.

The couple will make their home in Amarillo following a wedding trip to Santa Fe, New Mexico.

The bride attended Hereford High School and is employed at Tascosa National Bank of Amarillo.

The bridegroom, a graduate of Clarendon High School, is an Allstate Security Guard at Tascosa National Bank of Amarillo.

Wedding guests represented Amarillo, Hereford, Clarendon, Canyon, Austin and Oklahoma.

Lions Celebrate 67th Anniversary

The Clarendon Lions Club celebrated its 67th anniversary with a Ladies Night Banquet at the Lions Den at 7 p.m. on Tuesday, November 14th. Forty-five members and guests were present. The meeting was called to order by Boss Lion Todd Knorpp. Songleader Bentley led the singing accompanied on the piano by Sweetheart Jessie Adams. Boss Lion Knorpp led the Pledge of Allegiance.

Lion Tamplen gave the Invocation. Everyone enjoyed a very delicious turkey and dressing dinner. The Boss Lion introduced Mrs.

Bert Smith, Mrs. Frank White and Mrs. P.C. Messer who were guests of the club. The members introduced themselves and their guests and Boss Lion Knorpp gave a brief description of their duties. Certificates of Appreciation for service during the year were given to Don Smith, G.W. Estlack, Dan Bentley and Jessie Adams. Our program was presented by the Clarendon College Singers directed by Jim Stewart, Head of the Clarendon College Music Department. The banquet closed with the Benediction given by Lion Wilbert Bernabe.

PANCAKE COOKING CONTEST - Scouts participating were Caleb Stroud, Keith Kidd, Brock Holland, and Walker McAnear,

SCOUTS OF TROOP 433 Jerry Green, Louis Ellerbrook, Clint Green and Josh Shields building Zuni Fire.

The Lions Tale

by Gene Alderson

The Clarendon Lions Club held its regular meeting at noon on Tuesday, Nov. 21st at the Lions Hall with 41 in attendance. Following the regular opening ceremony, Liontamer Henson introduced our guests including Rick Lovelady, guest of Lion Lovelady, Buster Kerlee, guest of Lion James and Olace Hicks, guest of Lion Hicks. Boss Lion Knorpp called on Program Chairman Smith who introduced the following Clarendon College cheerleaders: Lauri Carroll, Carol Ann Ward, Jayne Lindley, Alison Grimland, Trina Zaring, and Tanya Parrish.

Our Club was honored today by the Official Visit of District Governor James A. Cunningham, whose home club is Spearman. He was a charter member of the White Face club and has been a Lion for 32 years. He started his presentation by giving us a test composed of two questions: First, when was our club founded? The answer, 1922, was not too difficult since we had just had our 67th Anniversary Banquet last week. The second one we flunked. How many clubs were chartered in District 2-T1 before our own? The answer was two - Amarillo and Dalhart.

Gov. Cunningham commended our club for maintaining our membership level and being current with our account with Lions International. He urged us to continue to push worthy Lions programs such as Leader Dogs For the Blind, the Lions Crippled Children's Camp and the Lions Diabetic Camp in Kerrville and the district project to renovate one of the bunkhouses there and the Girls Town Christmas Coat and Shoe

Fund. Each Lion present was inspired by the enthusiasm and zeal for Lionism demonstrated by Gov. Cunningham.

Meeting adjourned.

Letters to the Editor

Dear Editor:

I feel compelled to write and urge readers of the Clarendon Press to write the Board of Pardons and Paroles and oppose the pardon of Bobby Templin, TDC No. 327315.

Mr. Templin was the subject of the recent series on "Prairie Justice" in the Amarillo newspaper. He was convicted twice by a jury of his peers. They had no hesitation in finding him guilty of the cold, calculated murder of his wife, Rhonda. He was sentenced to 99 years in prison.

Now, after only eight years, he is eligible for parole.

Something is seriously wrong with a system that turns loose a womanizing sociopath to kill again.

Please write the Board of Pardons and Paroles, P.O. Box 13401, Capitol Station, Austin, Texas 78711. Express opposition to Bobby Templin's release.

Sincerely,
Don Stone,
Clarendon, Texas

Dear Editor:

I am Bob Garner, membership director of the Texas Chapter LST Association. We are trying to find shipmates in your area for coming reunions. These men served in the amphibious forces of the U.S. Navy.

We want to say thanks for the help you have given us in the past. We could not have accomplished what we have without your help. The shipmates sure appreciate it.

All Navy amphibious personnel should contact me at the address below.

Sincerely,
Bob Garner LST 461,
HC 52 Box 362,
Hemphill, TX 75948
(409) 579-3732.

Dear Editor:

Remember When: You were taught that it was not that you win or lose, but how you played the game? That is now out, You are to win no matter what or who you hurt as long as you win; lie, cheat, play dirty as long as you win. Watch your TV? Watch your elected officials from the bottom to the top. See how so many are now being caught in Washington, but not until they have put millions in their pocket and then just get a slap on the hand or given a better job. Did you stop to think that your senator in just two terms will now get over a million dollars plus all the kickbacks and graft that goes with the job? Don't you think that we should ask for a two term limit?

Remember When: A girl got in the family way that the father either married the girl or supported the child for 18 years? Not now, they just go on welfare and let the rest of the people support it as more than likely they can't figure out who it was.

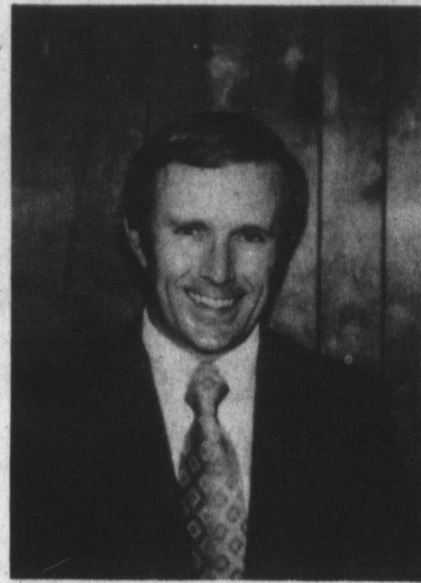

Remember When: They used to find a moonshine still and put it on display at the Courthouse? Now we have dope. Let us build the gallows but put them on the Courthouse lawn and when a dope peddler is caught with the goods, demonstrate the gallows. There would be a lot of money saved, a lot of crooked attorneys out of business and it wouldn't be too long before there wouldn't be any peddlers left. They used to hang horse thieves didn't they? I believe that Goodnight stopped some of it that way.

Remember When: People would gather on election night down in front of Greenes and watch the results on the board and visit with their neighbors, when a kid didn't make passing grades that he or she took the year over and not go on without learning. That parents knew where their children were and not just have them and then leave them with a baby sitter to raise or just turned loose. That you were really a macho guy if you are now strong enough to roll your window and throw your bottles and cans in the street. Now with the

holes in the boys ears, I am looking forward to the time when they wear a chicken bone in their nose and file their teeth to a point like the head hunters do. There was a time you could tell the boys from the girls, now all you can do is guess.

IRS Has Unclaimed Refunds

Over 5,500 Texans have Internal Revenue Service refund checks due them totaling almost \$2.6 million. About 2,500 of these taxpayers reside in the north Texas area, according to Gary Booth, Director of the Dallas District.

"In the Dallas District which includes Donley County, we are looking for 2,494 taxpayers whose refund check were returned to us as undeliverable this year," said Booth. "The average refund is about \$450, but the checks range all the way from \$1 to \$15,965.80."

Booth said the reasons for the inability of post offices to deliver the checks include an incorrect address, a taxpayer moving and not leaving a forwarding address, or an executor filing for a deceased taxpayer and using the last known address.

"When you consider that between 75-80 percent of the 2.9 million taxpayers in the Dallas District receive refunds each year, 2,496 may not seem like a large number, but to us even one is too large a number" said Booth.

Taxpayers who believe that they may be one of the taxpayers owed a check should call (214)742-2440 in Dallas, (214)263-9229 in Fort Worth, or 1-800-424-1040 elsewhere in Texas to claim their refunds.

In Donley County, the only one they have an unclaimed refund for is Donald E. or Doris Rieken of Hedley.

"Have You Heard...?"

Terry Bernabe said it succinctly recently: "If you can't say something nice, then shut up!"

Everyone should be able to understand those sentiments. Every town and every group has some experience with gossip. Everyone knows that most "news" of this type is false information. Gossip is composed of 33% misunderstanding, 33% supposition and 33% ignorance with perhaps 1% malice. All of us know better, but ...

Rotary Clubs have a "four-way test"; members are supposed to make sure that everything they say is true, kind and constructive.

Those who are disciples of Jesus also have a test for what they say:

... whatever is true, whatever is noble, whatever is right, whatever is pure, whatever is lovely, whatever is admirable--if anything is excellent or praiseworthy--think about such things. [Philippians 4:8].

Wouldn't Clarendon be a wonderful place if all who claim to be Christians lived up to the Biblical ideal for Christian conversation?

Everyone is welcome to worship with us, 10:45 a.m. and 6:00 p.m. each Lord's Day.

Pageant To Be Held

The Miss Amarillo Area Scholarship Pageant is underway and the new Committee is excited about the upcoming year. The pageant is open to women from Texas' top 33 counties, hoping to gather the talented and the bright from Amarillo and the surrounding area, said Patti Stapp, executive director for the pageant.

The pageant, set for February 3 at the Amarillo Little Theatre, 2019 Civic Circle, is open to women ages 17 to 26 (as of September 1, 1990) with entry deadline January 5. No entry fee is required.

Contestants will be judged on talent, interview, swimsuit competition and evening gown competition with talent accounting for 50 percent of the judges consideration.

The winner of Miss Amarillo Area will go on to compete in July at the Miss Texas Scholarship Pageant in Fort Worth with Miss Texas advancing to the Miss America Pageant in Atlantic City, N.J.

"We have a great potential to bring in some really good talent from Amarillo and the surrounding area," said Stapp. "If a young woman is talented, bright and interested in enhancing her college education, she should contact us for more information."

Leah Kay Lyle, from Plainview, winning the Miss Haltom-Richland Area Pageant, went on to win Miss Texas 1989 and was listed in the Top Ten at the Miss America Pageant this September.

The Miss Amarillo Area Scholarship Pageant is decades old with many fine outstanding young women representing us well at Miss Texas in the past. Our committee is large and includes three former Miss Amarillo's--Guy Del McCabe, Miss Amarillo 1950; Andrea (Lamb) Hotten, Miss Amarillo 1983 and Misty Neef, Miss Amarillo 1984.

Stapp said she is proud to have KAMR-TV in Amarillo and Stendhal Cosmetics as two of the major sponsors for the pageant this year. Also, the Harvey Hotel will be the official host, American Airlines will be the official airlines for the pageant in 1990 and the Amarillo Globe Times will be a contributing scholarship contributor.

County Stock Show Date Set

The Donley County Junior Livestock Association recently met and made some important changes in the County Stock Show for 1990. The first change is that the show has been moved up one week, and will be held on January 12 - 13, 1990. Another important change is that all FFA and 4-H members will have to have their entry cards in to the Association by December 12, 1989. 4-H members are asked to turn their entries in to the Extension Office by December 11, 1989.

This year there will also be an added attraction to the show with the addition of a Market Turkey Show. Eleven 4-H and FFA members are raising turkeys to go to the Houston Stock Show, and will participate in the County Turkey Show this year.

Remove Old Insecticide Ear Tags

Ranchers who used insecticide ear tags for horn fly and ear tick control this past spring and summer should remove the old tags this fall.

"Tags that have been used for four to five months on an animal will not emit sufficient insecticide to adequately control fly populations," said Tim Trimble, county agent with the Texas Agricultural Extension Service.

During the past three fly seasons, use of pyrethroid-impregnated ear tags has created a statewide problem with horn fly resistance to the insecticide.

As ranchers work with their cattle this fall, they should remove the old tags.

The agent said the ear tag systems for fly control exerts a constant selection pressure on the pest population and results in killing the weakest and most susceptible

pests. Other pests that have the genetic ability to survive a sublethal dose of insecticide become parents for the next pest generation. Within a two-year period, this selection process can develop a pest population highly resistant to all labeled chemicals of the pyrethroid type.

Producers may get a false impression that the old ear tags are still killing flies, since populations naturally decrease in the fall as flies enter overwintering quarters.

The old tag is not helping with control but is silently adding to selection pressure, thus making the surviving population more resistant to the target insecticide.

Fewer hours of daylight in the fall and cooler weather are environmental factors that induce pest diapause. Horn flies spend the winter months in the soil as a diapaused pupa.

Fall fly tag removal is just a good management practice to reduce additional resistance to the list of insecticides.

"When insect pests become resistant to an insecticide class, the economic incentive for future use of that compound is greatly reduced," said Trimble.

Crop And Livestock Surveys

The Texas Agricultural Statistics Service will begin contacting farmers and ranchers across the state in late November for 1989 acreage, yield and production totals and end-of-year livestock and poultry inventories.

"Adverse weather conditions this year have certainly had an impact on Texas Agriculture, and these surveys should help us summarize where the industry stands at the end of 1989," said statistician Dennis Findley explained.

"Information from these confidential surveys conducted by mail, telephone or in person will also help producers make their

plans for the coming year.

"Sound production and marketing decisions require good, reliable information and some advanced planning, and our reports provide producers with solid facts and figures they can incorporate into their plans," Findley added.

As always, the Texas service will be trying to keep survey costs at a minimum, so Findley is urging producers to return their mailed questionnaires as soon as possible to avoid follow-up contacts.

"Remember, these are sample surveys, so if you are contacted it is important to provide the requested information, since one producer represents similar operations of the same type and size. Our estimates can be no better than the numbers producers provide," Findley noted.

Results of the surveys will be published early in 1990. Anyone wanting a copy of the results can write Information Section, Texas Agricultural Statistics Service, P. O. Box 70, Austin, Texas 78767.

Seminar Held For Tax Assessor-Collectors

Wilma Lindley, tax assessor-collector for Donley County, was among almost 200 tax officials taking part in the Seventh Annual Tax Assessor-Collectors' Seminar here, Nov. 11 through 14.

There for the educational meeting was "Excellence Through Taxpayer Service."

The training was conducted as a program of the V.G. Young Institute of County Government of the Texas Agricultural Extension Service. Cooperating groups were the Tax Assessor-Collectors' Association of Texas and Texas A&M's Office of Continuing Education.

Wilma said tax assessor-collectors can prepare to meet future challenges by participating in professional seminars such as the

one just held at the College Station Hilton.

Persons who attended all sessions received 1.2 continuing education units from the Office of Continuing Education at Texas A&M University.

County tax-assessors are required to achieve certification by successfully completing continuing education courses.

The seminar this month included an orientation for new county tax assessor-collectors.

Among other highlights were discussions on current property tax issues, title hearings, motor vehicle tax, taxability issues and reporting requirement, tax office bookkeeping, voter registration and a legislative update affecting the county tax assessor-collector.

Safe Hunting Calls For Education

To avoid careless accidents, safety should be the top priority during hunting season. With the opening of deer season this month, the Texas Medical Association urges the state's estimated 1.4 million hunters to learn first aid and cardiopulmonary resuscitation and take a hunter education course.

"Don't depend on learning first aid from a book," said Kathy Scruggs, director of health and safety education for the Centex Chapter of the American Red Cross. Hunters can find first-aid courses through their local Red Cross, hospital, or emergency medical services unit.

Besides first aid, hunters can benefit from a two-day hunter education course available through the Texas Parks and Wildlife Department.

To hunt legally in Texas, some teenagers born on or after Sept. 2, 1971, are required by state law to take the course. For complete details about certification requirements, check with the state or local parks and wildlife department. The new law became effective in June 1988, but enforcement did not begin until Sept. 1, 1989, said Terry Erwin, assistant education coordinator of the state parks and wildlife office.

The course costs \$5 and covers firearm safety, a brief review of first aid, hunter ethics and responsibility, game laws, wildlife identification and conservation.

Participants must pass a 50-question test, as well as demonstrate appropriate knowledge, skills, and attitude. Participants have the option of taking part in a field exercise on a designated shooting range.

The course is taught by the state's game wardens and 1,100 volunteer instructors, as well as some 1,000 high school agricultural science teachers.

For information about course locations and times, call 1-800-792-1112 or a local parks and wildlife office, listed on the back page of the 1989-90 Texas Hunting Guide, available at most sporting goods stores.

The Texas Medical Association is a professional organization of more than 29,000 physician and medical student members. It is based in Austin and has 116 component medical societies around the state. The Association repre-

sents 80 percent of the state's physicians, and its goal is to improve the health of Texans through the professional and personal development of members.

They played win, lose or draw, black magic and some other games. No mention of last names or food but it was ten when they left to go home.

The H.A. Greens celebrated with a most thankful but stagger holiday. Ellen Patterson, Tiffany, and Stephanie came from Weatherford; Patricia, Elena and Jennifer Doerrie and Charlotte Payne from Perryton and were joined by the Jerry Green family and Jason Green Thursday. Friday, Beth and Amanda Stepp and "Hoss" Watts came from Amarillo with only Ellen, Stephanie, and Tiffany of the original Thanksgiving Day guests.

Saturday came with Danny Naylor of Sulphur Springs, the Jerry Green family and only Ellen as the girls had gone off with their Dad to visit Jr. and Pat Patterson. Sunday, everybody left Naomi and H.A. with leftovers. Monday, we cooked a pot of beans and went to Joe Green's at Canyon to celebrate his 95th birthday with Billy Jack and Frankie, Rodney and Beth and "Hoss". Had a wonderful Thanksgiving.

Bill, Bob and the Bull

John W. Lockhart, a long-time resident of the Brazos bottoms, used to tell a wonderful story about two Texas cousins, Bill and Bob, and the former's encounter with a wild bull.

The 1850s meeting between man and beast took place at Port Sullivan which today is a ghost town on the west bank of the Brazos in Milam County not far from Hearne and Calvert. Bill had gone there from his home at Chappell Hill, Texas to visit his cousin Bob.

Bob owned a general mercantile store in Port Sullivan which stood near one of the several saloons in the town. "It happened that a considerable crowd had gathered in front of the bar-room," Lockhart related in telling the tale. "Bill, having indulged in too much whiskey, swore that he could ride anything that wore hair."

This boast couldn't go without response from the crowd of Port Sullivan loungers, who knew that a particularly large bull was grazing among a herd of Texas cattle not faraway. One member of the group wagered Bill a five-dollar bill if he could ride a bull. "Bill, not knowing there was such a thing as a bull anywhere around, thought there would be no impropriety in taking the bet," Lockhart said.

Giving the other loungers a wink, the man who had wagered with Bill called on half a dozen of his cronies to ride out and rope the bull and then bring it around to the front of the saloon.

When the men reappeared with the bull, "Bill was the blindest man that ever visited Port Sullivan," Lockhart stated. "If the bull had dropped from heaven, he could not have been more surprised."

Realizing his predicament, all created by his own boasting, Bill

swallowed his pride and tried to wrangle out of his wager, but the crowd wouldn't let him back away. Now Cousin Bob's efforts came into play.

Pretending not to have heard any of the preceding ballyhoo, Cousin Bob walked up to the crowd, declaring to Bill's chagrin that no one should try to prevent Bill from riding the bull. He even swore that he would whip any man that would try to keep his cousin off the bull. Bill was aghast, feeling that his cousin was helping to offer him up for sacrifice for the entertainment of the Port Sullivan rowdies.

While the snorting animal was being prepared for the ride, Cousin Bob did all he could to prevent Bill from backing out of the ride. A rope was placed loosely around the bull's body just behind its shoulders, and the cowboys began loosening their lariats from the beast.

"Amid the protestations of Bill, and the assertion of Bob that no one should prevent his cousin riding, Bill was lifted bodily and placed astride of the animal," Lockhart remembered. His knees were placed under the rope to prevent his being pitched backward, while the animal's tail was placed in one of his hands to keep him from being bucked off forward.

Amid the cheers from the Port Sullivan loungers, Bill began his high ride. As soon as the bull found itself free from its lariat entanglements, it began bucking and belching, setting up "a regular fore-and-aft movement" of one end up and then the other. Bill looked as if he were on a seesaw.

The bucking continued for several minutes, Bill holding onto the rope and the bull's tail. After a while the beast headed into nearby woods, but returned toward the town, Bill still astride.

The animal headed toward the bluffs of the river on which Port Sullivan stood, but the locals mounted their horses to divert the beast away from the steep acclivity and down a well-worn track to the banks of the Brazos.

When the bull reached the edge of the water, it jumped out as far as it could go. Bill turned a somersault off its back, landed in the water and swam for shore.

As Lockhart ended his story, "Bill was the lion of the day and, with his five dollars and a host of admirers, spent a fine evening."

Letters From the Republic

by T. Lindsay Baker

"Kind moments afford me an opportunity of writing," is how Milly Talitha Rawlins began a letter back home to Illinois from the Republic of Texas in March 1845. A transcript of her letter is preserved with others from her family in the Barker Texas History Center at the University of Texas.

Milly Talitha Rawlins was a teenaged daughter in a group of relatives and friends that her father, Roderick Rawlins, organized in 1844 to immigrate from Illinois to the Republic of Texas. The party consisted of Rawlins, two sons and five daughters and their families, as well as several friends. They located on Ten Mile Creek on the west side of the Trinity, being the first settlers in the vicinity.

"Our nearest neighbor is seven miles (away), except those that came along with us," Milly Talitha Rawlins wrote. Her father, Roderick, noted similarly that "There was no settlement... until we came."

Another family member, Polly Rawlins, in a contemporary letter, described the new home in Texas: "I am very well pleased with the place that father has settled on," noting, "I think it pleasantly situated. We are in a tolerably good house and have enough to eat." About this home, Milly Talitha Rawlins commented, "We are at this time in a comfortable house. (It) has two rooms to it."

The setting impressed Milly Talitha Rawlins more than her new home: "We are close to a beautiful spring which affords us plenty of water. We are in the prairie on a tolerably high place, all around as green as a wheat field. The prairies are beautiful, high and rolling."

The location in Dallas County, according to Milly Talitha Rawlins, afforded abundant wild game. "Buffalo can be seen by thousands in the prairies about 20 miles from this place, and deer and turkey to any amount. Wild bees are found plenty." The presence of predatory animals didn't seem to concern the teenager. "Panthers, bears (and) wildcats are tolerably plenty and wolves to any amount," she wrote. The abundance of fish in the

Trinity River, half a dozen miles away, was a great bonus for the new settlers. Milly Talitha Rawlins reported, "I have told you about all I can except about the fish. There are thousands of them in the river. We have lived on them and buffalo for some time, and the men are going this evening to catch more."

Roderick Rawlins wrote home predominately about the agricultural prospects of the land, expecting more friends and family members to join him on Ten Mile Creek. "The prairie land," he noted, "appears to be of superior quality to any I ever saw in any other country," he added, "The soil is as deep or deeper than that of Illinois and of a darker color."

Giving suggestions that other immigrants might follow, Rawlins had some very specific advice: "Prepare as well as possible. Have good horses, wagons and harness and try to have double the money that you thing would answer," adding that enroute, "Don't stay too long in St. Louis."

Answering criticisms that he had heard in Illinois about the character of the settlers moving to Texas, Rawlins reported to his family members back home, "I have not seen in any country... a more friendly, intelligent people than I find here."

Daughter Milly Talitha Rawlins lonesomely wished for more teenaged companions. "I see but little fun here for girls," she lamented. Living in a frontier society in which men greatly outnumbered women, she observed, "Girls here are very scarce, but (as for) young men or old ones... there are more than you can shake a stick at."

A Parting Look At A Texas Cattleman

by Joe Fohn

I couldn't close the week without a farewell wave to Forest Barnett "Buck" Pyle, a prominent retired cattleman who died last week at age 93 and was buried Sunday.

I had mentioned earlier his value as a resource on cattle and ranching, but he was something more

than that.

Partly because of his successful ranching career, partly because he'd happened to live a long life and had an exceptional memory, he was able to span the distance between today's Texas and our vision of the Texas ranches of history and legend- and was a reminder that, after all, it wasn't so long ago.

Buck was born Jan. 12, 1896, in Memphis, Texas, but spent his childhood in Clarendon, about 60 miles down U.S. 287 from Amarillo and not far from the Palo Duro Canyon.

According to an unpublished biography compiled by Pyle's friend Wayne Christian, Buck's father, Theodore Maxwell Pyle, had obtained a job on a segment of Charles Goodnight's JA ranching outfit in the area, and also worked as an inspector for the Texas and Southwestern Cattle Raisers Association at Clarendon. The town was a cattle shipping point on the Fort Worth and Denver Railroad.

Later, the family bought ranches of its own and still later, in partnership with Jim West of Houston, Buck managed a cattle operation that at one point consisted of nearly a million acres stretching across Texas and New Mexico.

I was reminded of some of Larry McMurtry's novels when I'd talk to Buck about older times, and he surprised me once by saying he had known several of the McMurtrys himself back in Clarendon. While the author was reared in Archer City near Wichita Falls, a number of his relatives had gone to the Panhandle.

Pyle probably knew of some of the same stories and people that may have inspired some of McMurtry's books.

In a collection of essays titled "In A Narrow Grave" (University of New Mexico Press, 1968), McMurtry wrote "...it would appear that at the turn of the century Clarendon was to cowboys what Paris was soon to be for writers. It was the center of the action. If one merely wanted to cowboy, there were the great ranches; and if one was more ambitious the plains was the one place where land in quantity could still be had cheap."

Buck knew a lot about cowboying, but clearly he was one of the more ambitious class who went on to become a rancher in his own right.

One of the favorite stories by

Pyle, which Christian has managed to commit to paper (and which his wife, Jeanne Christian, also has captured on tape for the Institute of Texan Cultures), concerned his job as a 12 year-old cowboy on the JA Ranch in 1908, searching for strays belonging to his father amid the JA's roundup.

The way I heard it, on his very first morning Pyle was riding alone through a wild plum thicket, and he reached down over his horse's neck to pick some of the ripe fruit. Both he and the horse were startled by an old bull buffalo that suddenly came storming out of the thicket, and he nearly was thrown from his horse.

Later in the day something caught his eye, and riding over to investigate, he discovered human bones lying in the sand. Later, an anthropologist was summoned from Austin to investigate the remains, which were determined to be casualties from a skirmish between soldiers and Indians years before.

As I recall there was one more incident from his account of that first day, leading it a puzzling but comic element: At lunchtime, a ranch foreman had ridden into the camp and committed an unparadonable breach of protocol by walking between the chuck wagon and the cook's camp fire. The cook quit abruptly over the incident, Pyle said.

That was how close he came to the Texas frontier. It was part of the past even then, but the bones and relics of legend were still scattered on the bare ground or lurking in the thickets.

McMurtry also wrote in his book of essays 21 years ago of the changing character of Texas: "I see my son, age five, riding a mechanical horse in front of the Laundromat on Sunday morning and the sight calls up my Uncle Johnny when he was age five, sitting on top of the McMurtry barn watching the last trail herd go by. It is indeed a complex distance from those traildrivers who made my father and my uncles determined to be cowboys to the mechanical horse that helps convince my son that he is a cowboy."

Today's Texas, of course, still has its cowboys and ranches and cattle, but the vision of the frontier recedes a little farther into the distance with the passing of people like Buck Pyle.

The community was grieved at the passing last week of Ellen Faye Land. She was cheerful, and always ready to help anyone in need. This writer especially remembers her as the receptionist-nurse in Dr. Cox's office. Her presence always made the dreaded childhood trip to the doctor a bit easier. Much sympathy is extended to her family at his sad time. A full obituary may be found elsewhere in this issue.

Bill and Veda Waddell enjoyed a week's trip to East Texas. They visited Bill's sister in Hawkins. Then they went on to Jacksonville and to Anderson County, visiting Veda's cousins, the Fosters. They returned home Saturday. The pine trees were so beautiful, Veda reported.

Deuteronomy 6:7-9

Solomon the Wise, the Wealthy, the Fallen

by Jon Leggett

"I will surely tear the kingdom away from you."

These are the words of the Lord to Solomon as recorded in I Kings 11:11. Why? The earlier part of the eleventh chapter is the sad account of the king's lapse into apostasy.

How could this happen? Can this possibly be the same Solomon whom the Word says loved the Lord (I Kings 3:3)?

Is this the same man who was so very humble before the Lord? "I am but as a child," he says in I Kings 3:7.

Can this be the one who asks for and receives from the Lord a wisdom that became legendary even in his own lifetime? "People from every nation, whose kings had heard about his wisdom came to listen to the wisdom of Solomon" (I Kings 4:34).

Solomon was so materially blessed of the Lord that he was almost certainly the richest man on earth. "The king made silver as common as stones in Jerusalem," I Kings 10:27 says. Is this the one from whom the kingdom will be torn?

Read Solomon's magnificent prayer of dedication as the temple is completed. Hear him as he worships: "But can God really dwell upon the earth? Behold, the heavens cannot contain Thee, how much less this house which I have constructed" (I Kings 8:27). Is this Solomon the apostate?

Yes, this is the same man who set up altars to false gods. How could he--how could any man--fall so far?

Too much luxury? No. God gave it. Solomon asked for wisdom, not money. "Moreover, that which you did not request I have given you, both riches and honour, so that throughout your days there shall be no king like you" (I Kings 3:13).

Misuse of money? Probably. Deuteronomy 17:14-20, written over 400 years before Solomon's reign, looks ahead to the time when Israel would settle in the Promised Land and would demand a king. Several stern warnings are issued concerning the use of wealth, and Solomon seems to have ignored most of those warnings.

But probably the most important single element contributing to his fall was ignoring Deuteronomy 17:17: "Neither may the king multiply wives to himself, lest his heart be turned away..." I Kings 11:4 says: "When Solomon became old, his wives turned his heart to other gods, so that his heart was no longer true to the Lord his God, as the heart of David his father had been."

Plain enough, isn't it. And yet, I still find it almost incredible that one so visited by the Lord, so uniquely blessed, could fall so far. It

Thursday, November 30, 1989 seems that two lessons especially stand out.

First, as important and wonderful as visions and special blessings are, they cannot replace a daily, intimate walk with the Lord.

Secondly, I am intrigued by the phrase "when Solomon became old..." The Word says no such thing, but I can't help wondering if the king might not have been showing signs of senility. Whether or not this was the case, we should be reminded that we have no hold on tomorrow. Today is the day of salvation. Today is the day of service. Today, while your mind is clear, while the choice is still yours, "Be mindful of your Creator in the days of your youth, before the troubling days come..." (Ecclesiastes 12:1).

1990 Cotton Program

Secretary of Agriculture Clayton Yeutter announced a 12.5 percent acreage reduction and other provisions of the 1990 upland cotton program. Yeutter said, "The program I am announcing strikes a balance between the needs of the marketplace, budget considerations, and producer concerns about surpluses."

* The established target price will be 72.9 cents per pound.
* The loan level will be 50.27 cents per pound for the base quality of upland cotton, Strict Low Middling (SLM), 1-1/16 inch, micronaire 3.5 through 4.9, at average U.S. Location.

* Plan B of the marketing loan program will be implemented. Under Plan B, 1990 crop cotton pledged as collateral for a price support loan may be repaid at the lower of the adjusted world price (AWP) or the loan level.

Other provisions include:
* A paid land diversion program will not be implemented.

* Loan deficiency cash payments will be made to eligible producers who agree to forego loan eligibility if the loan repayment rate is less than the announced loan level. The payment rate will equal the difference between the loan level and the loan repayment rate. Producers may elect to forego loan eligibility and receive loan deficiency payments on a bale-by-bale basis.

* A recourse loan program for upland seed cotton will be available.

* An inventory reduction program will not be implemented.

Yeutter reserved the right to initiate cost reduction options as provided in Section 1009 of the Food Security Act of 1985.

Supplement For Stockers

The dry November condition is continuing to stress wheat pasture conditions in Donley and surrounding counties. Some producers have yet to graze wheat pastures, while others are looking for ways to stretch out grazing time and some are irrigating wheat.

Supplementation is one way stocker cattle operators can help the wheat to last longer for grazing and maybe give it a chance to produce more forage if additional moisture is received in the near future. At our recent Donley & Armstrong County Stocker Cattle Seminar, Dr. John McNeill, Extension Beef Cattle Specialist, discussed supplementation. Dr. McNeill indicated that in most cases supplementation will more than pay for itself through the added gain. He gave the follow ration for wheat pasture supplement:

Milo 65%
Wheat Midds 15%
Dehydrated Alfalfa 5%
Molasses 5%
Ground Limestone 5%
Salt 3%
Dicalcium Phosphate 2%
Ionophore**
**Add Rumensin^R or Bovatech^R so that the complete mix contains 75 - 90 mg. of ionophore per lb.

The ration should be fed free-choice on good quality wheat pasture. Consumption should be at least 1.5 - 2.0 pounds per day. If not pelleted, replace 15% of the milo with cottonseed hulls.

There are also some very good commercial supplement rations that can be purchased in bulk that will work just as good. Another option is to use cottonseed and this could be hand fed at 2 pounds a day or 3 - 4 pounds three times a week. For more information, contact your nearest county Extension office.

Important safety tips from Lone Star Gas
You can take comfort in Natural Gas.

Trusting gas for your home is a natural. After all, Lone Star Gas Company has been faithfully serving its customers for

more than 75 years. Through the years, we have worked to earn your trust by providing safe, dependable natural gas.

Do you know why gas has a strong odor? Because we have added a harmless odorant to the gas that lets you know it's there. This is for your safety, so if you ever smell the strong odor of gas in your home, follow these rules:

Since gas lines run underground, you should also take precautions against disrupting these lines, particularly if you plan to:

- 1 Do not switch anything electrical on or off. Do not use your own telephone (telephones use small amounts of electricity). Do not strike a match, and do not do anything that might cause a spark.
- 2 Have everyone leave the house immediately, leaving doors open for ventilation.
- 3 Go to the nearest telephone and call Lone Star Gas Company. Wait until we have found the cause before returning to your home.
- 1 Put in a new fence.
- 2 Install an underground sprinkler system.
- 3 Perform any major landscape renovation.

Before you dig, call your local Lone Star Gas office. If you smell a gas odor while you're outside, immediately contact Lone Star Gas.

In our continuing effort to provide better, safer service, local Lone Star Gas offices are ready to answer any questions that contractors may have concerning the location of gas lines in their areas.

The safety record for natural gas is impressive, and peace of mind is an important part of what natural gas has

to offer. By following these simple rules, you can take even greater comfort in natural gas.

Notice To Hedley Residents

New state trash disposal requirements have dictated that landfills all across the state will be closed early in 1990 unless certain improvements--all extremely expensive--are made to those dumpsites. The City Council has decided that other alternatives are more feasible and certainly less expensive. Monthly fees for trash collection within the city limits will be going up from \$5.00 to \$11.00, effective with the issuance of bills in December. The State Has Left Us Absolutely No Choice but to alter our method of trash collection. The Council has chosen what it thinks is the very cheapest way out for our citizens. We regret having to add to the bills to accomplish this, but by the time that the changes must be implemented, the additional fees will have gone a long way to pay for state-mandated equipment. A copy of the new state requirements can be seen at City Hall during business hours.

Santa Letters

Bring your Santa Letters in to The Clarendon Press and the paper will mail them to Santa at the North Pole. Letters need to be in by the 15th of December. The letters will be printed in our special Christmas Edition. There will be a box in the lobby of the newspaper office for your letters.

The VFW Post 7782 of Clarendon wish to thank the businesses and citizens of Clarendon for their support of our Veterans of Foreign Wars.

Their support enabled us to give eight Thanksgiving Turkeys, which raised funds for the coming years expenses.

Our main purpose, along with the Women's Auxiliary is to assist any needy veterans or widows and orphans of Veterans.

Eligibility for membership in the Veterans of Foreign Wars of the United States is based on honorable service in the Army, Navy, Marine Corps, Air Force, or Coast Guard performed by Officers or Enlisted Personnel who have served in any Foreign War, Insurrection, or Expedition, which service is recognized by The Award Of A Campaign or Service Medal of the United States.

Note of Thanks

We would like to thank everyone for all the cards, flowers and prayers during my recent stay in the hospital. Your kindness and concern is greatly appreciated.

Thank You

Ken & I want to thank everyone who has shown such care and concern during his surgery.

We wish we could personally acknowledge every card, letter, phone call, visit and each prayer, thought and inquiry.

His surgery was very successful and though it will take time and patience we hope for full recovery.

We also thank those of you who have come in and paid overdue bills as well as current ones. A big thank you to Preston and Mitch for keeping the shop open and all who have shown confidence in them.

Ken & Judy Sanders

Thank you, all my friends, relatives, and everyone who showed concern during my most recent illness and hospitalization. Thanks for the prayers, cards, and all acts of kindness shown in my behalf. I especially want to thank my minister, Brother Truman Ledbetter for his visits and prayers while I was in the hospital.

Your friendship and interest is sincerely appreciated.
