Award Given

Shepard's Helping Hands was honored with the state wide award for volunteerism by the Texas Association of Home Care. The award was presented at the annual Texas Association of Home Care convention in Ft. Worth. Accepting the award was Teresa Henson, President of the Helping Hands Board.

The purpose of the Volunteerism Award is to recognize individuals and or groups who, by net working, perform activities that fill gaps in home care services.

Shepard's Helping Hand was established in 1990 to help the elderly on over-extended budgets purchase necessary medications. In it's three year history this organization has grown from serving one community to serving five cities on an eight county area. Without duplication of services, Shepard's Helping hands also has been known to provide groceries, pay utilities, arrange for transportation to neighboring towns for physician visits and provide volunteers to assist with home projects. Their Board of Directors consists of 10 volunteer members who never seem to run out of ideas for fund raising events. Funds for Shepard's Helping Hands are raised through fund raisers and be private donations.

Social Security News

by Jim Talbot

Last year, over one million people received more money from Social Security than they were entitled to receive. Don't worry, it was not a widespread fraud or a huge government giveaway. People who are overpaid by Social Security are required to return the money, either be direct refunds or by having their benefits reduced to cover the overpayment.

Most of these overpayments occurred because beneficiaries who work while drawing benefits earned more than they had estimated and their income exceeded Social Security's annual limits. The annual limit in 1993 is \$7,680 for retired persons under age 65, and for person between age 65 and 69, the limit is \$10,560. (There's no limit for people age 70 or older.) Because it is difficult to estimate exact earning for the year, we encourage beneficiaries who work to call us to adjust their estimated earnings if they get a raise, work overtime, or otherwise increase their income.

Many overpayments can be avoided. For example, if you file for Social Security benefits several months before you plan to retire and then you decide not to retire, you must let us know.

Otherwise, we will automatically send you benefit checks, and you will have to refund your money.

Overpayments often occurs when the beneficiary dies and the death is not reported timely. As one example, if a person dies and his or her benefit check is directly deposited into a joint bank account after the person's death, the surviving spouse is overpaid if he or she receives benefits on the deceased's Social Security record.

When you file for Social Security benefits, we tell you what you are responsible for reporting to us. And when your benefits start, we send you a booklet that contains reporting instructions. For ex-

ample, you should report if you get married or divorced; if you move; if you change banks and have direct deposit; and if a child who is receiving benefits turns 18 or leaves home.

If you follow the reporting instructions, you can avoid the inconvenience and possible hardship of having to return money that you were not entitled to receive.

It's easy to report events that would cause you to be overpaid. Visit the nearest Social Security office or call us on our toll free number, 1-800-772-1213, business days between 7:00 a.m. and 7:00 p.m.

You Can Work and Still Get Retirement Benefits

Social Security estimates that nearly 140,000 people will file for retirement benefits in September. But many of them will not be retirees in the true sense of the word because they'll keep on working. They also will receive Social Security checks.

If you are 62 years of age or older, you can continue to work and still get all of your Social Security benefits as long as your earnings don't exceed certain limits. If you earn more than the limit, your Social Security check will be reduced. For example, in 1993, you can earn up to \$7,680 and receive all of your benefits if you are under age 65. For every \$2 you earn over the limit, \$1 is withheld from your benefits. If you are between age 65 and 69, the 1993 limit is \$10,560. For every \$3 you earn over this limit, \$1 is withheld from your benefits. When you reach age 70, your Social Security benefits are not reduced, no matter how much you earn.

If you are under age 70 and continue to work, you must contact us promptly to give us an estimate of your earnings for the year if you expect to earn more than the annual limit. If you later find that your earnings will be higher or lower than you estimated, you should contact us again to change your estimate.

And by each April 15, you must let us know how much you earned in the previous if you received some Social Security benefits. We will send you an an-

nual earnings report form that you must file in addition to your Federal income tax return. There is a substantial penalty for not filing an annual report of earnings on or before April 15. If you are still working at age 70, you no longer have to report your earnings to us.

These types of income do not count toward the earning limits: investment and interest income, Veterans or other government benefits, annuities, capital gain, gifts or inheritances, rental income (unless you are a real estate dealer or you rent a farm to someone and have an active role in managing the farm), income from trust funds, moving expenses, travel expenses, and jury duty pay.

If you have any questions about receiving Social Security benefits while continuing to work, contact your nearest Social Security office. You also may call Social Security's toll-free number, 1-800-772-1213.

Have you been taking advantage of Burton Memorial Library's book sale which has been in progress for several weeks? Selections by master writers such as Bret Harte, William Thackeray, Ralph Waldo Emerson, James Fenimore Cooper, and Sir Walter Scott are available for a price which an avid reader could hardly afford to pass up. Fifty cents will buy an

antique classic. Other good duplicate readings are being sold for ten cents per inch. Ten cents will also purchase a good magazine, maybe one of your favorites.

In checking some of the publication dates and written inscriptions, I found some of the books to be almost one hundred years old, making it understandable why they are too fragile to include in a collection for circulation, but can be an enjoyable asset to a personal home library.

There are several children's books still available for purchase such as *The Bobbys Twins* and Carolyn Keene's *Hardy Boys*. The sale will be continuing until the end of September. There are still good choices for interested readers.

While visiting with Librarians, Mary Linn Bills and Mary Green last week, they told me about an interesting donation which had been received for the library. It was from California in memory of a friend by a man who had traveled through this area, and simply believes in the importance of libraries.

I also became aware of the Jerome Stocking Fund. Hubert Stocking, Jerome's son, established the fund in honor of his family, prominent Clarendon citizens. This fund has contributed much to our City Library through investment in an account from which the

library continues to draw interest.

There have been many other appreciated gifts. Some are through memorial donations. Burton Memorial Library continues to thank those individuals and local organizations who have done this. Each contribution always serves as another step in library improvement. Thanks again for gifts and your response to book sales which help add to quality services and education within our community. Thanks again for "checking it out".

PUBLIC NOTICE
BRIEF EXPLANATORY STATEMENTS
OF PROPOSED
CONSTITUTIONAL AMENDMENTS
SPECIAL ELECTION
NOVEMBER 2, 1993

PROPOSITION NO. 1
ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would authorize the Texas Legislature to provide for the issuance of bonds for the state financing of start-up costs for historically underutilized businesses.

"The constitutional amendment to promote the reduction of pollution and to encourage the preservation of jobs by authorizing the exemption from ad valorem taxation of real and personal property used for the control of air, water, or land pollution."

PROPOSITION NO. 3
ON THE BALLOT

House Joint Resolution 3 proposes a constitutional amendment to clear land titles in which the State of Texas relinquishes and releases any claim of sovereign ownership or title to an undivided one-third interest in and to the lands and minerals within the Shelby, Frazier, and McCormick League (now located in Fort Bend and Austin counties) arising out of the interest in that league originally granted under the Mexican Colonization Law of 1823 to John McCormick on or about July 24, 1824, and subsequently voided by the governing body of Austin's Original Colony on or about December 15, 1830.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the clearing of land titles by the release of a state claim in a fractional interest, arising out of the voiding of an interest under a Mexican land grant, to the owners of certain property in Fort Bend and Austin counties."

PROPOSITION NO. 2
ON THE BALLOT

House Joint Resolution 86 proposes a constitutional amendment authorizing the legislature, by general law, to exempt from ad valorem taxation all or part of real and personal property used, constructed, acquired, or installed wholly or partly to meet or exceed rules or regulations adopted by any environmental protection agency of the United States, Texas, or a political subdivision of this state for the prevention, monitoring, control, or reduction of air, water, or land pollution.

The proposed amendment will appear on the ballot as follows:

PROPOSITION NO. 4
ON THE BALLOT

Senate Joint Resolution 49 proposes a constitutional amendment that would prohibit a state personal income tax without voter approval and would dedicate the proceeds of any income tax, if enacted, to property tax relief and education. The amendment provides that a general law enacted by the legislature that imposes a tax on the net incomes of natural persons, including a person's share of partnership and unincorporated association income, must provide that the portion of the law imposing the tax not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of imposing the tax.

The amendment also provides that a general law enacted by the legislature that increases the rate of the tax, or changes the tax in a manner that results in an increase in the combined income tax

liability of all persons subject to the tax, may not take effect until approved by a majority of the registered voters voting in a statewide referendum held on the question of increasing the income tax. The referendum must specify the manner in which the proposed law would increase the combined tax liability of all persons subject to the tax. The legislature may repeal, or amend without increasing, a tax approved by the voters without submitting the amendment or the repeal to the voters. If the legislature repeals a tax approved by the voters, the legislature may only reenact the tax without voter approval if the effective date of the reenactment of the tax is within one year of the effective date of the repeal of the tax.

The amendment also provides that, in the first year in which an income tax is imposed, and during the first year of any increase in the tax, not less than two-thirds of all net revenues from the tax shall be used to reduce the rate of ad valorem maintenance and operation taxes levied for the support of primary and secondary education. In subsequent years, not less than two-thirds of all net revenues of the tax shall be used to continue such ad valorem tax relief. The net revenues of the tax remaining after the dedication of money for reduction of ad valorem maintenance and operation taxes shall be used for support of education. The maximum rate at which a school district may impose ad valorem maintenance and operation taxes is reduced by an amount equal to one cent per \$100 valuation for each one cent per \$100 valuation that the school district's ad valorem maintenance and operation tax is reduced by the minimum amount of money dedicated under the amendment, provided that a school district may subsequently increase the maximum ad valorem maintenance and operation tax rate if the increased maximum rate is approved by a majority of the voters of the school district voting at an election called and held for that purpose. The portions of the amendment relating to dedicating tax revenues to reduce the rate of ad valorem maintenance and operation taxes apply on or after the first January 1 after the date on which an income tax takes effect, except that if the income tax begins to apply on a January 1, the amendment applies to ad valorem maintenance and operation taxes levied on or after that date.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment prohibiting a personal income tax without voter approval and, if an income tax is enacted, dedicating the revenue to education and limiting the rate of local school taxes."

PROPOSITION NO. 5
ON THE BALLOT

Senate Joint Resolution 18 proposes a constitutional amendment that would authorize the legislature to prescribe the qualifications of sheriffs. Currently, the constitution authorizes the legislature to prescribe the duties, perquisites, and fees of office, but not the qualifications for the office of sheriff.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to allow the legislature to prescribe the qualifications of sheriffs."

low the legislature to prescribe the qualifications of sheriffs."

PROPOSITION NO. 6
ON THE BALLOT

House Joint Resolution 21 proposes a constitutional amendment that would abolish the office of county surveyor in Jackson County. The amendment also provides for the powers, duties, and functions of the county surveyor to be transferred to the county officer designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment abolishing the office of county surveyor in Jackson County."

PROPOSITION NO. 7
ON THE BALLOT

House Joint Resolution 57 proposes a constitutional amendment that repeals article XII, section 6, of the Texas Constitution, which currently provides that no corporation shall issue stock or bonds except for money paid, labor done, or property actually received, and that all fictitious increase of stock or indebtedness shall be void.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment repealing certain restrictions on the ability of corporations to raise capital."

PROPOSITION NO. 8
ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment that would authorize the commissioners court of McLennan County to call an election to abolish the office of county surveyor. The office of county surveyor will be abolished if a majority of the qualified voters of McLennan County voting on the question favor the abolition. If the office of county surveyor is abolished, the amendment requires the maps, field notes, and other records in the custody of the county surveyor to be transferred to the county clerk of McLennan County. After abolition, the amendment also grants the commissioners court of McLennan County the authority to employ or contract with a qualified person to perform any of the functions that would have been performed by the county surveyor if the office had not been abolished.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to abolish the office of county surveyor in McLennan County."

PROPOSITION NO. 9
ON THE BALLOT

Senate Joint Resolution 19 proposes an amendment to article VIII, section 13 of the Texas Constitution that would modify the provisions for the redemption of real property sold at a tax sale. The amendment deletes current language in article VIII, section 13 that allows the legislature to provide for the sale of property without trial to pay for delinquent taxes. It also states that the deed to the new owner vests a good and perfect title subject only to redemption as set out in this amendment or impeachment for fraud. Language is added limiting application of the current two-year redemption period to former owners of residence homesteads and land designated for agricultural use sold for unpaid taxes. When property is sold as the result of a suit to enforce collection of unpaid taxes, the amendment would allow the legislature to limit redemption to property used as a residence homestead or designated for agricultural use at the time the suit was filed. The amendment creates a second type of redemption for former owners of real property when property is neither a residence homestead, nor designated for agricultural use. These owners would have a six-month period in which to redeem their property by paying the amount of money paid for the property, including the Tax Deed Recording Fee, all taxes, penalties, interest, and costs paid plus an amount not exceeding 25 percent of the aggregate total. The amendment applies to redemption of properties sold at a tax sale for which the purchaser's deed is filed on or after January 1, 1994. For redemption of properties sold at a tax sale for which the purchaser's deed was filed before January 1, 1994, the former law is applicable and remains in effect.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to modify the provisions for the redemption of real property sold at a tax sale."

PROPOSITION NO. 10
ON THE BALLOT

Senate Joint Resolution 34 proposes a constitutional amendment that adds a new section 49-b-2 to article III of the Texas Constitution. This new section provides that, in addition to the general obligation bonds authorized to be issued and sold by the Veterans' Land Board (the "Board") by sections 49-b (950 million) and 49-b-1 (\$1.3 billion) of article III, the board may provide for, issue, and sell general obligation bonds of the state in an amount not to exceed \$750 million to provide financing to Texas veterans. \$250 million of the bonds authorized by this new section shall be used to augment the Veterans' Land Fund (the "Land Fund"). The Land Fund shall be used by the Board to purchase lands situated in Texas owned by the United States government, an agency of the United States government, the State of Texas, a political subdivision or agency of the State of Texas, or a person, firm, or corporation. The lands shall be sold to veterans in quantities, on terms, at prices, and at fixed, variable, floating, or other rates of interest determined by the Board. Lands in the Land Fund that are offered for sale to veterans and that are not sold may be sold or resold to the purchasers in quantities, terms, prices, and rates of interest determined by the Board.

New section 49-b-2 creates the Veterans' Housing Assistance Fund II (the "Housing Fund II"), and \$500 million of the general obligation bonds authorized by the section shall be used for the Housing Fund II. The Housing Fund II is a separate and distinct fund from the Veterans' Housing Assistance Fund (the "Housing Fund") established under section 49-b-1 of article III. Money in the

Housing Fund II shall be administered by the Board and shall be used to make home mortgage loans to veterans for housing within this state in quantities, on terms, and at fixed, variable, floating, or other rates of interest determined by the Board. The principal of, and interest on, the general obligation bonds authorized by this section for the benefit of the Housing Fund II shall be paid out of the money of the Housing Fund II. The principal of, and interest on, the general obligation bonds authorized by section 49-b-1 of article III for the benefit of the Housing Fund shall be paid out of money in the Housing Fund. If there is not enough money in the Land Fund, the Housing Fund, or the Housing Fund II, as the case may be, available to pay the principal of, and interest on, the general obligation bonds authorized by this section or by sections 49-b or 49-b-1 of article III, there is appropriated out of the first money coming into the treasury in each fiscal year an amount that is sufficient to pay the principal of, and interest on, the general obligation bonds that mature or become due during that fiscal year.

If the Board determines that assets from the Land Fund, the Housing Fund, or the Housing Fund II are not required for purposes of the fund, the Board may transfer the assets to another of those funds or use the assets to secure revenue bonds issued by the Board. The revenue bonds shall be special obligations of the Board and payable only from and secured by receipts of the funds, assets transferred from the funds, and other revenues as determined by the Board and shall not constitute indebtedness of the State of Texas or the Board. The Board may issue revenue bonds from time to time, which bonds may not exceed an aggregate principal amount that the Board determines can be fully retired from the receipts of the funds. The revenue bonds shall be sold in forms, denominations, and in installments, and bear a rate or rates of interest as the Board determines.

The general obligation bonds authorized to be issued by the Board by this section or by sections 49-b and 49-b-1 of article III shall be issued and sold in forms and denominations, on terms, at times, in the manner, at places, in installments, and shall bear a rate or rates of interest the Board determines. The bonds shall be incontestable after execution by the Board, approval by the Attorney General of Texas, and delivery to the purchaser.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing issuance of \$750 million in general obligation bonds to augment the Veterans' Land Fund and the Veterans' Housing Assistance Fund and to fund the Veterans' Housing Assistance Fund II."

PROPOSITION NO. 11
ON THE BALLOT

Senate Joint Resolution 31 proposes a constitutional amendment relating to the duties of trustees of local retirement systems which provide retirement and related disability and death benefits for public officers and employees and that do not belong to a statewide retirement system. The amendment provides that the board of trustees of such a system shall (1) administer the system of benefits; (2) hold the assets of the system for the exclusive purposes of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the system; and (3) select legal counsel and an actuary and adopt sound actuarial assumptions to be used by the system.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing that the trustees of a local public pension system must administer the system for the benefit of the system's participants and beneficiaries."

PROPOSITION NO. 12
ON THE BALLOT

House Joint Resolution 23 proposes a constitutional amendment providing that any person accused of a violent or sexual offense committed while under the supervision of a criminal justice agency of this state or a political subdivision of this state for a prior felony may, after a hearing and evidence substantially showing the guilt of the accused, be denied bail pending trial. If the accused is not, however, accorded a trial within 60 days from the time of his incarceration upon the accusation or indictment, the order denying bail shall be set aside unless a continuance is obtained upon the request of the accused. In the amendment, the term "violent offense" means murder, aggravated assault (if a deadly weapon was used or exhibited during the commission of the assault), aggravated kidnapping, or aggravated robbery. The term "sexual offense" means aggravated sexual assault, sexual assault, or indecency with a child.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment permitting the denial of bail to certain persons charged with certain violent or sexual offenses committed while under the supervision of a criminal justice agency of the state or a political subdivision of the state."

PROPOSITION NO. 13
ON THE BALLOT

Senate Joint Resolution 13 proposes a constitutional amendment that amends article VII, section 17(a), of the Texas Constitution to provide that, of the \$100 million currently appropriated by that section for the use of public institutions of higher education during each fiscal year, those institutions may also utilize this money to pay for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities and for auxiliary enterprises to the extent of their use for educational and general activities. For the five-year period beginning on September 1, 2000, and for each five-year period thereafter, the legislature, during a regular session that is nearest, but preceding, a five-year period may, by a two-thirds vote of the membership of each

house, increase the amount of the \$100 million constitutional appropriation for the five-year period. The amendment also reflects name changes that have been made to some of the institutions of higher education for which such funding is available. The amendment adds the Texas State Technical College System to those institutions eligible to receive such funding, but limits its allocation of the annual appropriation to 2.2 percent of the total appropriation each fiscal year. The amendment also provides that each governing board authorized to participate in the distribution of money under article III, section 17, may also issue bonds and notes issued under that section or prior law for the purposes of acquiring capital equipment, library books and library materials, paying for acquiring, constructing, or equipping or for major repair or rehabilitation of buildings, facilities, other permanent improvements, or capital equipment used jointly for educational and general activities. The amendment deletes language in article III, section 17, which authorizes the legislature to designate a single agency to issue such bonds or notes in lieu of the governing bodies, and to transfer to that agency the authority to collect and pledge money to the payment of such bonds and notes as directed by the governing body of each eligible institution. Funds appropriated under article III, section 17, may not be used for the purpose of constructing, equipping, repairing, or rehabilitating buildings or other permanent improvements that are to be used only for student housing, intercollegiate athletics, or auxiliary enterprises.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the amount and expenditure of certain constitutionally dedicated funding for public institutions of higher education."

PROPOSITION NO. 14
ON THE BALLOT

Senate Joint Resolution 45 proposes a constitutional amendment that adds a new subsection (c) to article III, section 49-h, of the Texas Constitution. The new subsection provides that, in addition to the amounts authorized by subsections (a) (\$500 million), (c) (\$400 million), and (d) (\$1.1 billion) of section 49-h, the legislature may authorize the issuance of up to \$1 billion in general obligation bonds and may use the proceeds of the bonds for acquiring, constructing, or equipping new corrections institutions, including youth corrections institutions, and mental health and mental retardation institutions and for major repair or renovation of existing facilities of those corrections and mental health and mental retardation facilities. The amendment also provides that the provisions of subsection (a) of section 49-h, relating to the review and approval of bonds, and the provisions of subsection (b) of section 49-h, relating to the status of the bonds as a general obligation of the state and to the manner in which the principal and interest on the bonds are paid, apply to bonds authorized by this amendment.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of up to \$1 billion in general obligation bonds payable from the general revenues of the state for projects relating to facilities of corrections and mental health and mental retardation institutions."

PROPOSITION NO. 15
ON THE BALLOT

House Joint Resolution 37 proposes a constitutional amendment that would authorize the county commissioners court of a county to call an election to abolish the office of county surveyor. The office of county surveyor is abolished if a majority of voters of the county voting in the election approve the measure. If the office of county surveyor is abolished, the maps, field notes, and other records of the county surveyor are transferred to the county officer or employee designated by the commissioners court.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit the voters of a county to decide, at an election called by the commissioners court, whether to abolish the office of county surveyor in the county."

PROPOSITION NO. 16
ON THE BALLOT

Senate Joint Resolution 44 proposes an amendment to article III, section 49-(b) of the Texas Constitution, which currently limits the principal amount of bonds outstanding at one time for the Texas agricultural fund to \$25 million and for the rural microenterprise development fund to \$5 million. The amendment would raise the principal amount limit for the Texas agricultural fund to \$100 million. The amendment would also make the principal amount limit for each fund apply to the total principal amounts of both bonds and notes issued or sold rather than just the principal amounts of bonds outstanding at one time.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing up to a total of \$100 million in bonds and notes to be issued or sold to finance the Texas agricultural fund for providing financial assistance to develop, increase, improve, or expand the production, processing, marketing, or export of crops or products grown or produced primarily in this state by agricultural businesses domiciled in the state."

Medical Center News

Medical Center residents are getting ready for the fall season. Many of the Medical Center residents have requested a "Turnip Patch." The garden bed used this summer will be replaced for the turnips. Lots of vitamins to ward off winter colds.

Coke floats and ice cream will be replaced by hot cocoa, hot spice tea and cookies.

Tuesday residents gathered

for some serious bowling. Bernice Littlefield led their top scores with a 60, Lillie Carmichael bowled a 44, Terra Putman came in third with a 36. Other bowlers scores were: Sybil Rattan 28, Fred Patterson 27, Mollie Dickson 23, Fred Carter 20, Tunnice Kent 15, and Ruby White 9. They all had lots of fun.

Wednesday, September 8th the residents gathered in the dining room to celebrate the Residents Monthly Birthday Party for September. The residents who celebrated their birthdays were: Ruby White, Beulah Maxey, Myrtle Hay, Dorothy Hall, Ione Stanley, Willie Brandon, Mary Miller, Katie Phillips and Birdie King. They are

pleased to tell Birdie's age as she is 104 years young this month. Residents, staff and visitors were moved by a duet sung by Birdie King and Ruby White at the Birthday Party. These two beautiful ladies sang "Precious Memories."

Tina and Etta will be attending Hospice classes every Thursday afternoon in Amarillo at St. Anthony's Hospice Center. The classes will last for ten weeks. Also September 29th, they will be attending a one day activity seminar in Amarillo as well. They hope to come back from the seminar with lots of new ideas for their activity program.
