Highway 88 Extension To Turkey Probable After Austin Hearing

Aims of the Highway 88-18 Association were presented Monday before the Texas Highway Commission at Austin, when twenty-eight representatives from thirteen counties on the proposed route from Perryton to Del Rio urged the necessary steps to the realization of such a valuable North-South highway across Texas.

Following the recent meeting of the Highway 88-18 Association in Clarendon the delegations were assembled under the direction of Judge Sherman White and Secretary Garnett Reeves of Pampa, and in a short session Sunday evening in Austin plans were made for the presentation of the asking to the Commission Monday morning. Sam M. Braswell, editor of the News was named as spokesman of the delegation, making the opening presentation and presenting other members of the delegation to discuss specific features of the proposal.

In brief the objectives of the group outlined to the Highway Commission were: 1. Redesignation of 88 Clarendon South to Turkey, joining 18 at that point. 2. Designation of 88 North, Pampa to Perryton. 3. Unit One construction on the unpaved gaps in the route including the above designations. 4. Consolidation of Highways 88-18-70 and 30 under one number, at the end of the present fiscal period, June 30th.

Judge Mead of Roberts County, Miami made the specific plea for

the Pampa to Perryton route; Bill Harcastle of Turkey made detailed plea for the Clarendon to Turkey road; Rep. Cauthorn of Del Rio spoke for the completion of paving on Del Rio to Sonora section of Highway 30; Rep. Bob Alexander urged the utility of one bridge for the North-South and East-West highways on Red River between Clarendon and Turkey, and between Memphis and Silverton.

County Judge Sam W. Lowe of Donley County was one of nine county judges present urging the designations and construction on the route, and will return here later in the week.

Sam M. Braswell, the other Donley County representative, came home with the Turkey delegation composed of County Commissioner Roy Russell, Mayor Bill Harcastle and J. S. Irby.

Chairman R. L. Bobbitt said the decision of the Commission would be made known in a few days, and along with Commissioner John Wood agreed that the Commission had an obligation in the matter of the redesignation of 88 South from Clarendon to Turkey.

Members of the delegation were unanimous in the belief that at least a few of the askings would be granted, which would open the way for the final achievement of the completed North-South route as outlined. Plans were laid for the continued pressure of the merits of the project before the Commission.

20,455 BALES DONLEY COUNTY CROP FOR 1937

Reports received here this morning by Statistician Van Kennedy shows that Donley County grined 20,455 bales of cotton in the 1937 crop, as against 9,370 bales in 1936 crop.

The 1937 crop was a surprise in its final figures to many, who thought that the totals would hardly run over 16,000 bales, and the more than double 1936 totals, were gratifying, even if the price was not satisfactory.

POSTOFFICE INSPECTOR IS HERE TODAY

Postoffice Inspector A. S. Page of Fort Worth is in Clarendon today looking over the sites offered for the local postoffice in coming to a decision as to the location for the next five years under government lease. Lively competition is evident as the present location vies with the Stricklin building in the center block on East side of Kearney, Mrs. Fink's building, corner of Kearney and 3rd Street, with a probable entry in the Kearney block next to the railroad, and possibly some others.

LOW WATER RATE ELECTION APRIL 2

CONSIDERABLY LOWER RATE IN EFFECT FOR 1938 YARD BEAUTIFICATION

Domestic water consumers of Clarendon will have the opportunity during the coming summer of again using more water for yard beautification at a lower cost. Summer discounts, on the same scale as the 1937 summer rates will be in effect after April 1, the city commission decided at a meeting Wednesday afternoon.

The commissioners moved to allow the summer rates here this summer because of the great number of people who have set out trees and shrubbery.

The summer rate is as follows: First 2,000 gallons, \$1.00; next 3,000 at 30 cents per thousand; next 25,000 at 20 cents per thousand; next 50,000 at 15 cents per thousand, and all excess at 12½ cents per thousand.

Property owners and tenants are urged to water all trees and shrubbery at stated intervals to carry them over the dry weather period, that the water cost is in their favor. A person using 10,000 gallons would only pay \$2.90 on the summer rate, whereas the regular rate for that amount is \$4.30. 20,000 gallons would be reduced from the regular rate of \$7.30 to \$4.90.

Claude Man Adds \$5.00 To Clarendon News Goodnight Monument Fund

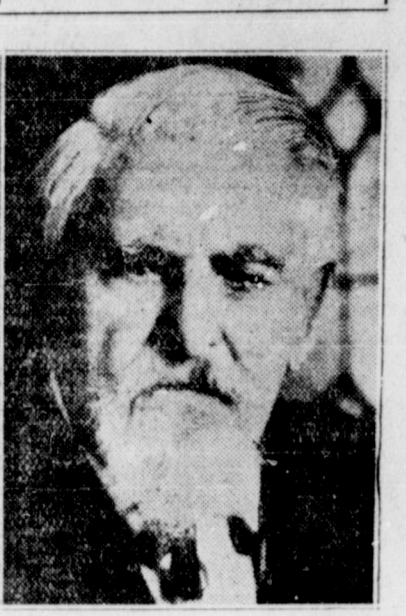

The News is in receipt of a letter from W. T. McLaren of Claude adding \$5.00 to the Goodnight Monument Fund, announced here through these columns last week. Several have expressed their pleasure at the opportunity to have a part in marking in a fitting manner the grave of Col. Chas. Goodnight, plainsman, cowman, breeder, farmer, and pioneer builder of this section who lived in Clarendon in his last days.

There is a feeling expressed that while his family might erect a handsome monument, yet his contribution to the Panhandle and Southwest was so great and varied that the public generally should place more than the ordinary marker at his grave in the little cemetery at Goodnight.

Clarendon and contiguous territory should certainly take the lead in this worthy movement, and The News will print the first list of contributors in next week's issue.

If you want a place on the first list of contributors to this movement in honor of a man who had much to do with the planting of white civilization in this country, leave your contribution at The News office this week. You will be given a receipt and the funds

THE MOST IMPORTANT OFFICES

It was the late Judge Muse of Dallas, who said that Texas voters were too prone to give more attention and thought to the filling of offices not so important, while according little heed to the candidates for county commissioner, and for the Texas legislature—the most important offices within the gift of the people.

In the heat of election years, the voter is often exercised about who is to be governor, or who is to be Attorney-general, or various other candidacies, while he passes by as of little importance his county commissioner's election, who deals so vitally with the business of county government with its power over local taxes. Likewise, the same voter is apt to give small heed to the choice of his representative in the legislature, who originates and passes legislation which controls the level of his state taxes.

There is a rising tide of sentiment that county government shall be administered more economically. There is a landslide of sentiment that our state government shall retrench in its huge expenditures—that taxes shall be reduced.

With this in mind, the voter must help himself and governmental economy by a close scrutiny of his county commissioners—his legislators. They hold the key to the stubborn situation. Any other emphasis and interest in candidacies, however worthy, cannot help in securing the economy and lowered taxes, sought.

Let us give attention to the MOST IMPORTANT OFFICES.

WORTHY OF MEMORIAL

It appears to The News that if there is any man worthy of a cenotaph in memorial of the large services rendered to this section of Texas in the bringing of law and order, the advancement of civilization in the Panhandle of Texas it is the late Col. Charles Goodnight, himself a citizen of Clarendon in his last years.

It may be that no one is able to contribute a large sum to a fitting monument over his unmarked grave in the little cemetery at Goodnight but certainly there are many thoughtful, patriotic, appreciative citizens in this community who would like to have a part in bringing to realization the project to mark forever Col. Goodnight's tomb, and it is the belief of The News that unless there are a number of Clarendon and neighboring people who will contribute at least a dollar to the fund for this purpose, the matter will languish and die, with nothing done about it.

With this thought in mind The News has opened a small list of contributors and invites the public to share in this perpetual tribute to a man who wrought skillfully that we might enjoy a modern and inviting social status here in the West.

HOW THEY STARTED

In a recent editorial in Nation's Business, Merle Thorpe tells of the origins of a number of today's so-called "economic royalists," and points out that most of the high executives in American business and industrial life came from humble homes. He says:

"Whence came this new captain of a great steel company? From a coal miner's hut. Where did economic autocracy go the other day to get the new president of a great packing company? An office boy 20 years ago."

He then recalls that more than 100 presidents of our biggest railroads came up from the ranks of telegraphers, track-walkers, transit carriers, clerks, and other small jobs. Half of New York's bankers were born in the Middle West, and most of them on farms.

All the presidents of Bell Telephone companies began at the bottom, none earning as much as \$20 a week in the beginning. And taking the heads of the three great motor companies, President Knudsen of General Motors landed as a poor immigrant lad in New York at the age of 18, Henry Ford was an itinerant watch and clock repairer, and Walter Chrysler was a mechanic in a railroad shop in Kansas.

But it is not recorded that any of these men reached their present eminencies by working only 30 hours a week.—Wellington Leader.

MEN MAKE A CITY

The source of a city's soundest and healthiest growth is the intelligence and energy of its own citizens.

A city is just like a business. The best businesses find their executives right in their own rank. They make sales managers out of stock boys, superintendents out of apprentices, and presidents and directors out of salesmen.

No city is so small that it does not contain right within its own boundaries the ability necessary for vigorous growth. Unfortunately this ability does not always express itself without encouragement. Given bankers, and capitalists who are good judges of men, and who like to help young men, and a city will grow. Let the city's capital and the city's vision be controlled by a half dozen tight old crabs, who have quit living and are rusting, and the city will soon be ready for a receivership.

Young men, fresh and eager for conquest, will be

rudely and gruffly put down when they venture to step forward. With no opportunities open in their own town, and no encouragement offered to them, they will seek new parts, and attach themselves to communities where brains and energy are welcome.

The secret of community growth is the mental attitude of the leaders. If the leaders have lost their ambition and have quit striving, this attitude will be felt by the entire body of citizens.—The Imperial Magazine.

LEST WE FORGET OUR PROGRESS

For those Americans who may too easily be led to believe the much-bally-hooed idea that the United States is a socially backward nation, that little has been done to raise the standard of living of the great mass of the people, and that some radical change in the present system is essential, we recommend they read a short article in the March issue of "The Atlantic Monthly." It is a plain analysis by Gerard Swope of living standards in eight European countries which he visited recently, compared with living standards in the United States.

Mr. Swope used as a yardstick this very simple and practical question: "How long must an American work to earn the necessities and comforts of life and how long must the European worker toil to acquire the same benefits?"

And here is what he found in his answers: A European works from 4.6 to 7.3 hours to earn enough money to purchase a basket of five staple foods. An American works 1.7 hours.

It takes from 8.5 to 24 months of work in European countries to earn money enough to buy an automobile. In America it takes only 4.5 months.

It requires from 2.4 to 6.3 months of work in Europe to buy an electric refrigerator, and only one month of work in the United States.

In European nations 1.2 to 3.4 hours of labor are required to earn the price of an incandescent lamp. In the United States it takes but .2 of an hour. And to buy a kilowatt-hour of electric energy for the lamp in Europe it requires from 12 to 43 minutes of work. In the United States the money to buy such energy is earned in only 3.6 minutes of work.

Happier May Day Will Be Spent By Crippled Children

AUSTIN—More than 5,000 underprivileged crippled children will spend a happier May Day this year because of the work of the Crippled Children's Division of the Department of Education, which has helped restore them to a more normal life, according to Dr. Geo. W. Cox, State Health Officer, whose department is co-operating with the May Day-Child Health Day state-wide movement.

Among the twelve divisions of the Department of Education is the Crippled Children's Division whose work is the correction of physical deformities and the training to overcome such handicaps. Through ministrations of this division, the child who has watched his friends at play may be able to join them. What greater happiness may be brought to a child?

In the enthusiasm to do good, many blame this division for failure to take every call, without realizing that this division is bound by Legislative Act to the definition of a crippled child as "any person of normal mentality under twenty-one years of age, whose physical functions or movements are impaired by reason of a joint, bone, or muscle defect or deformity, to the extent that the child is or may be expected to be totally or partially incapacitated for education or remunerative occupation. To be eligible for service under this Act, the child's disability must be such that it is reasonable to expect that such child can be improved through hospitalization, medical or surgical care, artificial appliances, or through a combination of these services." A child is not eligible if his parents are financially able to pay for the necessary treatment.

The United States Children's Bureau, through the Social Security Act, matches dollar for dollar the appropriation of the State

Legislature for this work. Surgeons and hospitals approved by the State Board of Health on compliance with standard requirements.

Do you know that, first, 2,037 crippled children were hospitalized? second, over one thousand two hundred crippled children were examined by orthopedic surgeons? third, over seven hundred children eligible for treatment wait on sufficient funds for further treatment?

Of every hundred crippled children, twenty-four are born crippled, eleven are crippled because of accidents, fifty-five because of disease, and ten are crippled because even in Texas they have lacked sunlight and proper food. The Crippled Children's program is four-fold—a program of prevention, early discovery, treatment, and vocational training. The State May Day Committee lists with pride this member, the

Turn into 15x10-inch pan which has been greased, lined with paper to within 1/2 inch of edge, and again greased. Bake in hot oven (400° F.) 13 minutes. Quickly cut off crisp edges of cake. NOBODY'S BUSINESS BY JULIAN CAPERS JR.

AUSTIN — Intensive preparations for a bitterly fought campaign between Ernest O. Thompson, railroad commissioner, and William McCraw, attorney general, for the office of Governor of Texas were under way here this week, following clarification of the confused situation which resulted from Gov. Allred's silence as to his intentions in regard to seeking a third term. Declaring that he did not "want or intend" to dictate his successor, the Governor renounced the third term proposal in a radio speech which reviewed the accomplishments of his two terms, and was lacking completely in the bitterness which characterized his recent exchanges with McCraw. He declared his intention of practicing law in Austin when his term expires, but Allred backers here declare the "deal" for a Federal judgeship for the governor is still "on," and they still believe he will get the \$10,000 a year life-time Federal post before Congress adjourns.

Allred's withdrawal, predicted in this column, since 10 days after he sent up his "trial balloon" last fall, resulted from a conviction that he could win only by an almost super-human effort, and the belief that his entrance into the battle would almost certainly divide the anti-McCraw strength, and elect the attorney general, whom he has bitterly opposed.

THOMPSON FORCES READY

The forces backing Ernest Thompson have been held closely in check during the last few weeks by the canny Colonel's advisors, permitting the McCraw candidacy to gain large headway. Thompson always has been a believer in a short, intensive campaign, instead of a long-drawn-out effort, as resulting in a much better timed "peek"; while McCraw's technique has been the opposite—a campaign that has been carried on almost continuously since his second election as Attorney General.

A runoff between the two red-headed candidates is regarded as certain by most observers here, and a campaign that will be a "sizzling" exhibition. Both are splendid campaigners, and both have public records that will be subject to discussion. Poll tax

payments this year, while not breaking any record, show 1,133,704 Texans paid poll taxes, which, with an estimated 15 percent additional exemptions, brings the total potential vote to 1,300,000—only 3 1/2 percent below the 1936 voting strength in a presidential election year. State headquarters for both candidates will probably be located in Austin, with regional offices in various sections of the State. Myron Blaylock, chairman of the State Democratic Executive Committee, will assume active charge of Thompson's setup, while McCraw has indicated he will manage his own campaign, with some help already being given by Carl Estes, of Longview, picturesque East Texas newspaper publisher.

NEXT LEGISLATURE

Both gubernatorial candidates have indicated endorsement of the economy in government sentiment which has gained such wide headway in Texas this year, as a swingback from the "more taxes" slogan which characterized every session of the Legislature during the two Allred administrations. Indications, gathered from a study by this correspondent of the published platforms of candidates for the House of Representatives throughout the State are that the 46th Legislature will be much more conservative in tone than the 45th, and that taxation is going to prove very unpopular. Two years ago, there was at least one candidate in almost every Representative district advocating "pensions for everybody over 65," and promising to tax natural resources, or some other line of business or industry, to pay the bill. The futurity of the State attempting to raise \$50,000,000 or \$60,000,000 a year to pension people whether in need or not, apparently has sunk in on a lot of taxpayers during the last two years, as the pensions problem has been aired in debate, and "pensions for everybody" candidates are as scarce as hen's teeth this year. Most of the legislative candidates are seeking to climb upon the "economy in government" bandwagon, manned by the gubernatorial candidates, while others are talking generalities such as "full time representation for this district," "abolition of useless bureaus and commissioners," "air for better rural schools," and similar nice-sounding phrases.

ISSUES FORTHCOMING

Of course, the issues in the gubernatorial race will be made by the candidates, and their platforms

should be out within another week or two. The most of the attention of the voters, naturally, will be concentrated upon the fiery individuals who seek the highest post—but actually, the Governor of Texas enjoys little power to formulate legislation. It is the boys in the House of Representatives and the State Senate, who get mighty little attention, during campaigns, and whose views the voters take mighty little trouble to find out about, who chart the course of the Ship of State, to a very large degree.

GRAVES ATTACKED

The Court of Criminal Appeals, when it hands down its decision in the matter of the eligibility of Harry N. Graves, of Georgetown, to serve as a judge on that court, which was submitted after argument last week, is expected by best-informed lawyers here, to rule Graves appointment constitutional. The question hinges on whether the former Williamson-Co. representative, who voted to increase the pay of the judges, is barred from appointment under a Constitutional provision. Insiders here say Governor Allred informally consulted Justices of the Supreme Court and Judges of the Court of Criminal Appeals before he made the appointment, and received informal opinions from them that it would be upheld. Austin lawyers have expressed admiration for the outstanding fairness of Graves' opinions, since he took his seat on the bench, particularly in liquor cases. Graves was a crusading prohibitionist and a dry throughout his service in the Legislature, but his political convictions, the lawyers say, have apparently had no bearing upon his judicial findings.

"O, GIVE ME A HORSE I CAN RIDE"

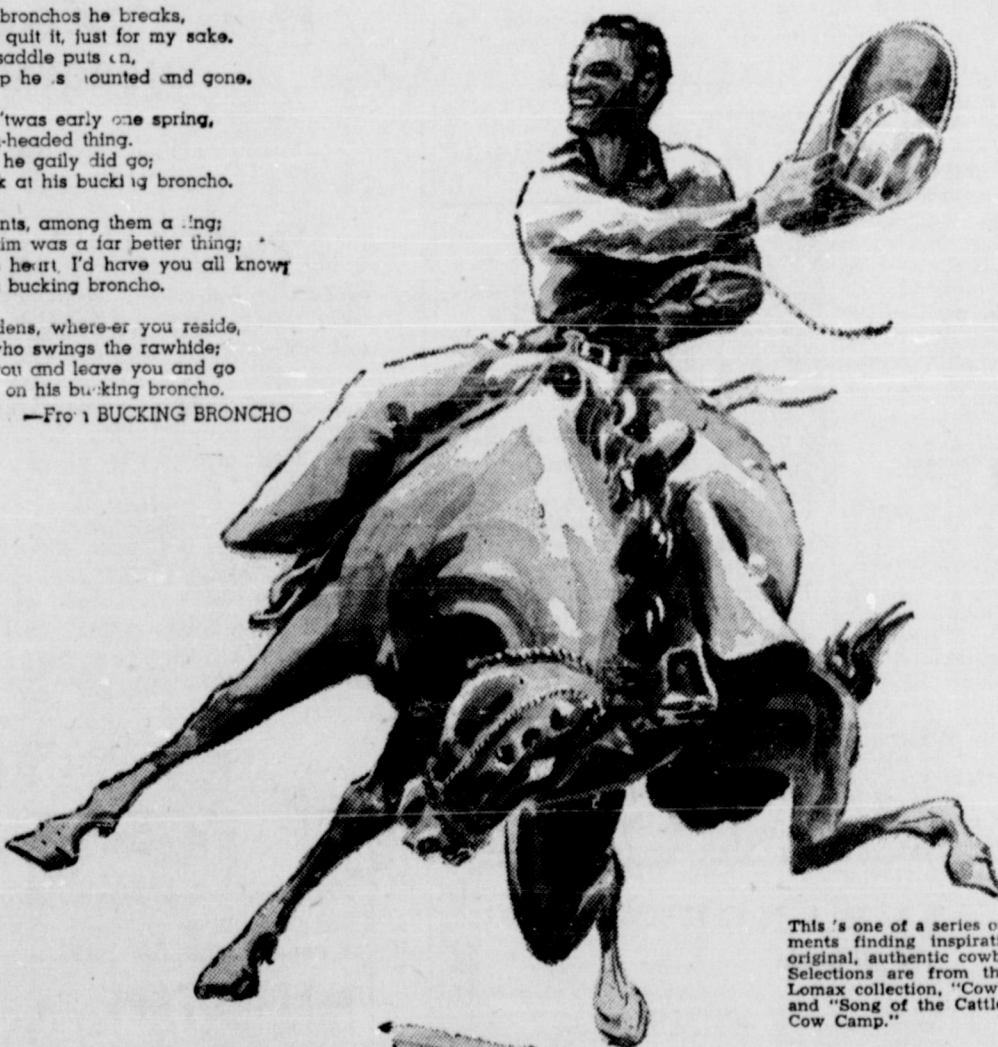

My love is a rider, wild bronchos he breaks, Though he's promised to quit it, just for my sake, He ties up one foot, the saddle puts on, With a wing and a jump he's mounted and gone.

The first time I met him, 'twas early one spring, Riding a broncho, a high-headed thing, He tipped me a wink as he galloped by, For he wished me to look at his bucking broncho.

He made me some presents, among them a ring; The return that I made him was a far better thing; 'Twas a young maiden's heart I'd have you all know, He's won it by riding his bucking broncho.

Now all you young maidens, where'er you reside, Beware of the cowboy who swings the rawhide; He'll court you and pet you and leave you and go In the spring up the trail on his bucking broncho.

—From BUCKING BRONCHO

This is one of a series of advertisements finding inspiration in the original, authentic cowboy ballads. Selections are from the John A. Lomax collection, "Cowboy Songs" and "Song of the Cattle Trail and Cow Camp."

While Admiration Coffee may not pack quite the "wallop" of a bucking bronco, nevertheless there's a quality about it as a pick-up beverage that is wholly satisfying. After work, either physical or mental, it provides a lift that soothes tired muscles and tired minds. Care is taken to roast Admiration to the exact point where its essential oils of caffeine and caffeine serve their purpose best as a mild stimulant. This, plus the known food value of good coffee, makes Admiration the ideal pick-up drink. And of course, Admiration is as delicious to the taste as it is good for you.

Southland Life Ins. Absorbs Gulf States

DALLAS, Texas—The past few days have witnessed the forward march of Texas' newest life insurance company—Southland Life Insurance Company—formed by the consolidation of the business of two of Texas' largest life insurance companies—the Southland Life Insurance Company of Dallas and the Gulf States Life Insurance Company of Dallas.

Following the action taken March 8th when announcement of the intention to consolidate the two companies was made, immediate action was taken to consolidate the two agency forces. The greater part of this work was done at a meeting March 10th and attended by agents representing more than ninety per cent of the production of the two companies. During that week-end the entire equipment of the Gulf States Life was moved to the Southland Life building, which will be used as the Home Office for the newly-constructed company, and all home office employees reported to the Southland Life building.

ON OUR BOOK SHELF

"Invincible Louisa" by Cornelia Meigs is a biography of the author of "Little Women" and its sequel, Louisa May Alcott. It is the story of the struggle of Miss Alcott to provide her beloved family with not only the luxuries, but the necessities of life. Her father, Bronson Alcott, was a brilliant educator who was two generations ahead of anyone else. Although he was not at all practical and knew nothing of the ways of the world, it was not altogether due to this that he was not a success, for no one except Emerson and the Concord group understood his advanced ideas of education which have been adopted in later years. The family loved Bronson Alcott so much that they gave up all the few conveniences of the time to try the ill-fated Fruitlands experiment, where they were all to own the land together and co-operate in doing the work and exchanging philosophical thoughts, and to move into what ever homes were offered them free so that Mr. Alcott might attempt to carry out his ideas. But always they ended up in Concord. It was this sort of life which fired the ambition of Louisa to make money so that her mother might not have to work so hard, and her sisters might have opportunities. It took her many years though to find the work which would provide these things. She wrote several things before she started writing the books for girls which won her lasting fame. "Little Women" is largely the

STATE SUPERINTENDENT SPEAKS AT ASSEMBLY

Dr. L. A. Woods, State Superintendent of Education was the chief speaker at the Assembly program Thursday, March 17. The program was opened by the group singing songs led by Miss Nell Parmalee of Austin. These were followed by a prayer by the Rev. E. D. Landreth. Miss Parmalee accompanied by Mrs. Millard Word then sang a group of Irish songs. Dr. Woods addressed the body, including the Junior High School students and a number of patrons, on the subject of "The Constitutions of the United States and Texas in Relation to Schools." He said that the founders of the country, Washington and his associates, seriously considered including in the Constitution a system of education, but they left the working out of the system to the individual states. Dr. Woods said that the founders of the country had to work out the problem of winning their freedom and liberty, but since it had been given to us we had to maintain it. In maintaining our liberty and freedom however, we need the same courage, vision, and determination that they possessed. The best way to maintain this liberty is to educate the people, he said.

THE AMARILLO Fat Stock Show

By "Nester" Homer Speed) and fellow F. F. A. students

Although it is a thing of the past, all of the Clarendon Aggies are still thinking of what queer things happened at the Amarillo Fat Stock Show and they wish to bring to you a brief summary of what took their precious time during that glorious week. But in bringing up the great event as it came to us we were advised to not describe the little show that we had in Clarendon as Jr. Warren, the informer, was deeply involved in the hardships that took place there Friday night.

Therefore starting with Saturday night we find all of the boys leaving for the bright lights of the Amarillo Fat Stock Show barn, the Amarillo Hotel where everything but the calves was stationed. But the main event that happened that night was the rambling of Johnny Grady, Jr. Warren and the author as they journeyed from Amarillo and our own little city from two to six times in one night. Although this is something out of the ordinary for Clarendon Aggies, we find that it is only the beginning as Billie Cooke and Durwood McCracken were starting their great expedition on the night and did not see civilization until the next week after the Fat Stock Show and then it was only a bird's eye view. And the great posse that was gathered to capture the colored porters of the Pioneer Hotel on the account of "Skeeter" Davis's vocabulary. The sad crying of Eugene "Puritan" Putman when he got lost on Polk Street on Monday night of the great show. And the "Little Apple" that was danced by "Bo" Longan in the Hotel lobby as he fell over the Orchestra booth tearing his corduroy pants. And also on the same floor "Speedy" Swift shagged to down town Swingtime. Even Johnny Leathers had a nice time as he washed desperately upon his calf.

Although it only lasted a short week, fun was created from every angle and through the exhausted

story of the Alcott family and their life. Miss Meigs' "Invincible Louisa" is written mostly for juvenile readers, but almost anyone will enjoy it. The style is simple and lucid, and there is little or no analysis of character in it to confuse the young reader.

It is necessary to keep the power balanced among the different groups of people, farmers, capitalists, laborers, professional, in order to maintain liberty, and it is the responsibility of the schools to educate the youth so that they will be able to take their place without upsetting the balance.

Dr. Woods stated that the schools of this state were attempting to teach three things, namely, how to live, how to make a living, and how to live in a democracy. He said that students should be taught a vocation, an avocation, and culture. However, he said, one cannot learn a vocation or an avocation without learning culture. Dr. Woods emphasized that it is necessary to all students to think quickly, justly, and deeply, for one lives on the plane on which one thinks. "It is not what others think you are, but it is what you think you are," Dr. Woods said in closing.

Mr. J. B. Speer, deputy state superintendent, spoke briefly, and complimented Donley county on having twelve standardized rural schools out of forty in the Panhandle. Other educators present were the superintendents of the schools at Hedley and Lelia Lake, Messrs. Payne and Wilson, and County Superintendent Kavanaugh.

voice of Mr. John R. Gillham there is a sincere wish of gratitude from the bottom of his heart to the boys for not having to feed the calves for them during their absence but seven times out of the whole week of the Stock Show visit. From this little story that we have brought you we hope you can see that not only was the air filled with joy and happiness but of Agg boys also. And that this old world is just what you make it even if you make it to live under a barn.

C. J. C. TO HAVE COLLEGE WEEK

CHARLIE My Dear Husband

Lonely am I as I sit here each day
For no greater loss has one met
Than I, whose companion has now gone away
Leaving me memories I shall never forget.
Yes, memories of Charlie and me long ago
When we were both young and so gay
When we were united, true love did we know
As happy together we were day by day.
Then came our first born, my suffering he felt
For sympathy reigned in his heart
He comforted kindly as by me he knelt
Wishing some help to me to impart.
And sorrows we knew, but we still had each other,
With him as a father now, to him we'd turn
He taught all our children to know their mother
And respect show to him, for dear Charlie was stern.

As both husband and father, he was unexcelled
For he loved us and did well provide
He made a good neighbor and never he failed
The needy to help through the tide.

Yes, Charlie wrote down many things while with me
In a book sealed so tight in my heart
Its pages are beautiful as them I see
Through tear brimming eyes, for we now are apart.

He suffered so much until death to him came
But I tried to him comfort repay
And I strived to give him my all just the same
As he did, until he went away.

So lonely but bravely I'll finish life's fight,
And I hope some day with him to be,
For Charlie would tell me to do what is right
And shoulder the burden he left to me.

GENERAL AUTO REPAIR

To Policyholders and Stockholders of the Southland Life Insurance Company and the Insuring Public of the Southwest

One of the most important financial transactions in the history of the Legal Reserve Life Insurance business in Texas was consummated in Dallas March 8, set by law as the annual meeting date for life insurance companies. At that time a greater, bigger, and stronger life insurance company to better serve the Mighty Empire of the Southwest was created and destined to make more secure the futures and lives of uncounted thousands.

At that time a new and greater Southland Life Insurance Company was born with the consolidation of the business in force of two Texas' most progressive Life Insurance Companies... a proposition previously that day given unanimous approval by the Stockholders and Board of Directors of the Gulf States Life Insurance Company and its Executive Committee and by Stockholders and Directors of The Southland Life Insurance Company. During its twenty-nine years of faithful service to the insuring public, The Southland Life Insurance Company had built up a total of insurance in force of \$118,433,196 and the Gulf States Life Insurance Company, during a ten-year brilliant career, had on its books a total of \$65,197,422 insurance in force—making a total of \$183,630,618—contracts guaranteed by total assets of \$28,506,067.96, according to their reports of December 31, 1937. Since their inception, these companies paid beneficiaries and policyholders in excess of \$35,000,000.

A meeting of the Stockholders of the newly-constituted Southland Life Insurance Company was held and a new Board of Directors elected. These Directors immediately placed responsibility for management of the greater Southland Life Insurance Company in the hands of the following Executive Committee: John W. Carpenter, A. Morgan

Duke, Harry L. Seay, Sr., Homer R. Mitchell, John E. Owens, B. A. Donnelly, Lewis T. Carpenter, W. C. McCord, and Dr. Hall Shannon.

We, as members of that Executive Committee, and as active officers of the enlarged Southland Life Insurance Company, deeply and sincerely recognize the great trust and obligation placed upon us and, without hesitation or reservation, accept our responsibilities with the promise to you, whom we represent, that it shall be fulfilled to the very ends of our respective abilities.

Still further, we are most happy to give you every assurance that, with the consolidation of the companies, which is proceeding apace and already has witnessed consolidation, two of the greatest agency forces in Texas, the Southland Life will forge steadily ahead to its appointed place as one of the greatest service institutions in America.

The Board of Insurance Commissioners of the State of Texas unanimously has given full and unqualified approval of the consolidation and of the formation of the new and greater institution to better serve you.

Gratefully we express our sincere appreciation to policyholders, stockholders, our splendid agency force, and the insuring public of the Southwest for expressions already given by them and their unwavering loyalty to their company and bespeak for this newer and greater Southland Life Insurance Company your confidence, respect and patronage and have requested the newly-elected President, Mr. A. Morgan Duke, to communicate this message to you over his signature.

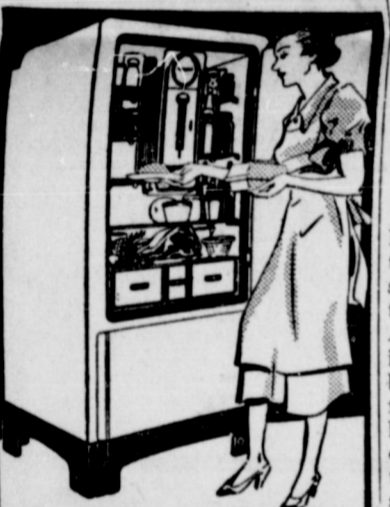

Yours very sincerely,
(Signed) A. MORGAN DUKE,
President.

We, the Directors and Officers of The Southland Life Insurance Company, gladly and without reservation pledge stockholders, policyholders, agents, and employees of The Southland Life Insurance Company our utmost devotion, co-operation, and effort to the upbuilding of our company to its rightful place among the great life insurance companies of the United States.

JUDY GARLAND KNOWS HER STAGE AND SCREEN A, B, C's

'Everybody Sing' Player Made Vaudeville Debut at Age Of Three

When romance broke up Judy Garland's vaudeville act, she decided that she'd be a screen actress. And without any outside help, the fourteen-year-old singer 'sold herself to Metro-Goldwyn-Mayer executives and received a long term contract as a reward.
Judy and her sisters, Virginia and Suzanne, were known as the Garland sisters on the stage and when they appeared at the Chi-

She is also a tap dancer of note, having taken lessons during the filming of 'Broadway Melody of 1938' from Buddy Ebsen.

Allred Does Not Choose To Run

AUSTIN, March 23 (Special)—'I have fought a good fight; I have kept the faith!'
Thus did Governor Allred summarize his stewardship of the high office to which the people of Texas have elected him twice while announcing that he would not be a candidate for a third term. The announcement was made by Governor Allred Saturday night over a statewide radio hookup from the Mansion at Austin.
'My record is written,' Governor Allred said in reviewing the accomplishments of his administrations, 'It can be changed neither by comments edged with bias nor statements poisoned with prejudice. I only trust that having given the best in me, I have in some measure justified your faith and confidence.
'Naturally, I should like to see the remainder of the people's program carried out. For this reason, and at the earnest insistence of many fine friends throughout the State, I have considered the problem of asking the people for another term.
'But necessarily, there are other considerations. Not alone the so-called third term tradition, but my family's welfare, and most important, the welfare of the State!
'Financially, I am in worse condition than when I became either Attorney General or Governor because I am deeply in debt. I owe it to my family to consider their future welfare.
'Outweighing all these things is the question of the public interest. Necessarily in a career of service where no one has ever doubted my stand on public questions, I have made bitter enemies. An unprecedented third term announcement on my part would plunge Texas into the bitterest campaign it has ever known, a campaign of false issues and personalities.
'For these reasons, I have concluded that I should not be a candidate. Therefore I plan to enter private law practice in Austin at the conclusion of my term.

CENTENARIAN HAS BIRTHDAY PARTY

CHOPPING AND PICKING COTTON IS REGULAR HOBBY OF AGED PIONEER

Taylor Lovelace, who today is celebrating his 100th birthday with friends and relatives at McLean is enjoying a birthday cake baked by Mrs. Jerome Stocking. The cake was decorated with 100 candles.

The former Donley county farmer recently visited friends in this community and invited them to his birthday party which is being held in the McLean Nazarene Church.

Born in Megis county, Tennessee, March 24, 1838, Lovelace served in the Union Army, 1862-1865, attached to Company D, seventh Tennessee mounted infantry.

Lovelace is still active and mentally alert. He chops cotton during the summer and picks the fleecy staple during the fall.

PARSONS BROS. GIVES MOTH PROOFING PROCESS SERVICE

The well-known method of moth proofing clothes at the time they are cleaned has been instituted by Parsons Bros., Master Cleaners.

It is a process whereby every thread in the fabric of woolled garments is made absolutely moth-proof—right while the garments are being cleaned. No extra charge is made for the service, Homer Parsons said.

AT THE FIRST BAPTIST CHURCH

There Is Always Worship Fellowship—Service

Yes, there is a place where your heart hunger can be satisfied. No, God has not given you a longing for immortality and a life after this to tantalize and torment you. One of the realist of all realities is your right relationship to God through Christ. A tired troubled distorted world has a standing invitation from the Prince of Peace to come unto Him and find rest for their souls. That invitation is world wide and universal. It is also individual and personal. Millions of people have tried it and found it to be true, others have refused to believe it and are none the better off for their refusal. Get in touch with the eternal and feel the faith and fortitude that will undergird your fears and seeming failures. Do not neglect church attendance. One has time for almost everything else, why not take time and make time for one of the worthiest privileges of life at least once a week. Your church will be glad to have you and you will be glad you went.

Regular services next Sunday at the Baptist Church. The regular morning offering will be a love offering to Miss Vada Waldron, our missionary to Argentina. Many of our hearts have been made glad by messages from her. Now let us make her heart glad by making it possible for her to continue to communicate with her friends and carry on her work in her chosen field.

Sentinels of Health

Don't Neglect Them!
Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer sagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feet tired, nervous, all worn out.
Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.
The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed the country over. Insist on Doan's. Sold at all drug stores.
