CHS MADE MEMBER SCHOLASTIC GROUP

SIX LARGER TEXAS SCHOOLS INCLUDING QUANAH IS NOT ELECTED

H. T. Burton, superintendent of schools was informed in a letter this week that the Clarendon High School had been elected a member of the Southern Association of Colleges and Secondary Schools. The membership in this association is based on teacher load, salaries, number of degree teachers and several other items, and is to be considered as a high compliment to the teaching staff and school board. For the past several years Clarendon High School has been a member of the association and is awarded a high recognition this year in view of the fact that six larger schools including Corpus Christi and Quanaah were eliminated from the membership list. By being a member of the association, graduates from the local school are privileged to enter most of the colleges and universities in the south without entrance examinations.

Consolidated Voting Precincts Dissolved

The Donley County Commissioners Court in regular monthly session Monday besides routine business nullified an order made last August consolidating voting precincts at Watkins, Oller and Bray; and the voting boxes at Wilson and Rowe, due to a state law prohibiting such consolidation when the boxes are located in separate justice precincts. The order passed Monday is as follows:

"Consolidation of voting precincts Watkins-Oller and Bray, and the voting boxes of Wilson and Rowe, same having been in error due to the fact that voting precinct Watkins-Oller and voting precinct Bray are in separate justice precincts and the voting precinct Wilson and the voting precinct Rowe being in separate justice precincts, which consolidation is not permitted by law governing the consolidation of voting precincts, therefore the above act of consolidation is declared void and of no effect."

WORST BLIZZARD IN YEARS FELT

FRUIT KILLED IN COUNTY BY WINTER BLASTS PANHANDLE HIGHWAYS BLOCKED

The worst blizzard in several years wrought untold suffering, damage and low temperatures to Donley county and the Panhandle last Thursday night and Friday.

A low of 21 degrees temperature was registered here during Thursday night. All trains ran late Friday because of sand and snow drifts on the track in several places.

Snowdrifts blocked highways at Carey, Childress and Kirklund to the East; Claude and Washburn to the west; Shamrock and eastern Oklahoma points to the east; and Pampa, Panhandle and Borger to the north.

Drifts and wet roads delayed school bus travel on most of the Donley county routes. C. R. Hunsucker, driver of a Hedley School bus walked and carried several children to their homes north of Hedley when snow blew under the engine hood to drown out the motor.

Five students of the Fairview school spent Thursday night and Friday with their teacher, Mrs. Sada Gray Payne while the blizzard was at its height.

John S. Bugbee reported the loss of 36 head of calves on full feed in the chilling blast Thursday night.

Grave concern was felt by Clarendon friends for Mrs. Homer McElvany, who was forced to spend Thursday, Friday and part of Saturday in a farm home nine miles west of Clinton, Okla., after her car stuck in a snow drift blocking Highway 66. Mrs. McElvany was returning to Clarendon with her father, L. F. Trammel, after having spent several days visiting him at Prague, Okla. Mrs. McElvany's hosts, Mr. and Mrs. E. A. Kimberlain, found Mrs. McElvany's car in the drift thinking it was her son who had started in his home in Clinton. Mr. Kimberlain assisted Mrs. McElvany in getting the car to his home and despite little food and fuel in the home made them as comfortable during their forced stay as was possible, Mrs. McElvany said.

A Californian, who was on his way to his home state from a visit in Indiana, also found shelter and comfort in the Kimberlain home. Two country hams he was taking home and a small amount of food in Mrs. McElvany's car provided most of the food the three families subsisted on during the blizzard.

Mr. McElvany and Verna Lusk made their way through the storms and drifts Saturday to the home where Mrs. McElvany stayed during the storm. Inspection of wheat in the Groom and Jericho area reveals that wheat in this county was not seriously hurt. Some early wheat was killed it was said. Fruit in this section was killed by the wintry blasts that blew across the Panhandle at 50 miles per hour and better.

Roofing on the west side of the courthouse was damaged and is being repaired this week. Several road signs were blown over, as were a few small buildings in the county.

Approximately 32 persons were rescued from stranded cars between Childress and Carey. About 15 persons sought shelter at Washburn in a grocery store and the Fort Worth and Denver station.

Rising temperatures Saturday and Sunday melted practically all snow drifts, which in some places were six and seven feet deep, to open highways for travel.

COURTHOUSE WALKS ARE BEING REPAIRED

Thirty six foot blocks of cement sidewalk around the courthouse block will replace cracked and damaged blocks, according to a contract let by the county commissioners at their regular meeting Monday.

Speed Bros. was employed to do the work.

Work was started on tearing out the damaged sections Tuesday, and pouring concrete is expected to get under way next week.

Memphis Orders Gas Rate Reduced To 35c

On March 1, the City Council of Memphis made application to the State Railroad Commission to reduce the Memphis rate, and the ordinance is a follow-up action of the application.

Attorneys of the gas company said they would appeal to the court of civil appeals at Amarillo.

City Rejects 55-Cent Gas Rate Offer In Compromise

RATE EFFECTIVE APRIL 13 OFFERED

COUNCIL MEETING IS CALLED AT REQUEST OF CITY GAS COMPANY

At a city council meeting held Wednesday afternoon at the request of the City Gas Co., and businessmen, city officials declined to accept an offer in compromise made by the City Gas Co., as a settlement in the domestic gas rate controversy in Clarendon.

Judge W. H. Penix as a representative of the gas company, after giving a history of the rate controversy, that has been pending since 1933 when the city commission passed an ordinance reducing the rate from 70 cents to 50 cents per thousand cubic feet, and explaining that the City Gas

Co., was now paying 27 cents for gas at the city line instead of 50 per cent of gas sales as was formerly done, and that the well price is now 4 cents where it was formerly 2 cents, offered the City of Clarendon the same compromise agreement that was recently accepted by the city of Olney.

The Olney compromise was 55 cents for a trial period of two years, to be raised in case the gas company could show the city that the 55 cent rate was not returning a fair rate on their investment.

Under open questioning by several citizens Judge Penix said the compromise rate would be effective Wednesday, April 13, but he would recommend to the gas company that the date be made retroactive to July 1, 1937. He further explained that one-ninth of the 55 cent rate bills would be added for non-payment of account by the 10th of the month following.

A decision in favor of the city would result in refunds on bills to gas customers since June, 1933, which is said to amount to several thousand dollars.

U. J. Boston underwent a tonsillectomy Monday afternoon in Amarillo.

COURAGE THAT WOULDN'T BOW ITS HEAD

When the manuscript for his first volume of "French Revolution" had been completed after months of toil, Thomas Carlyle gave it to his friend John Stuart Mill to read and criticize. It was the unhappiest moment in Mill's life when he had to tell Carlyle a day or so later that, save for a few sheets, the precious manuscript was gone, burned. His chambermaid had found it on his desk, and thinking it was valueless, had started a fire with it.

After Mill had left the Carlyle home, Carlyle turned to his wife and said: "Well, the poor fellow is badly upset. We must not let him know how serious the business is to us."

And it was serious business to the Carlyles, too, for they were penniless. Serious, too, because as he had finished each sheet of the manuscript, he had torn up his notes as something he would neither need nor wish to see again.

But as serious as it was, it could not daunt his Scotch spirit. He began again next day to rewrite the burned manuscript, and in his diary he made this notation:

It is as if my invisible schoolmaster had torn up my copybook when I showed it to him, and said, "No, thou, must write it better."

AGITATORS—THEN AND NOW

The author of the following words can hardly be accused of having an axe to grind in the present situation, for he has been dead nearly 90 years. Yet his words ring peculiarly true today as we see irresponsible agitators formenting riots, strikes and property seizure. That man writes:

There are persons who constantly clamor. They complain of oppression, speculation and the pernicious influence of accumulated wealth. They cry out loudly against all banks and corporations and all means by which small capitalists become united in order to produce important and beneficial results.

"They carry on mad hostility against all established institutions. They would choke the fountain of industry and dry all streams. In a country of unbound liberty, they clamor against oppression. In a country where property is more evenly divided than anywhere else, they rend the air shouting agrarian doctrines. In a country where wages of labor are high beyond parallel, they would teach the laborer he is but an oppressed slave.

"What can such men want? What do they mean? They can want nothing but to enjoy the fruits of other men's labor. They can mean nothing but disturbance and disorder, the diffusion of corrupt principles and the destruction of the moral sentiments and moral habits of society."

Yes, the man who wrote this has been dead nearly 90 years. He was the great Daniel Webster.

LAW AGAINST SPARE TIRES

The present tax law which penalizes, through the undistributed profits tax, a conservative and thrifty industry for building up a reserve against hard times is like a law taxing an automobile driver for carrying a spare tire to insure uninterrupted operation.

A taxation or legislative policy which discourages and destroys industry, gradually sets the stage for advocates of state socialism to claim that private enterprise has broken down and that government must step in and operate the affairs of its citizens.

It seems fantastic that such a program is being deliberately promoted here. But that idea is growing in the minds of persons who have watched the current world trend to submerge the individual under government dictation, and the increasing drive to constantly inject government into business, and into the affairs of private citizens in our own country.

HIS SOUL WILL SHRIVEL IN HELL

There's a certain person in this city who committed an act the other day that will cause even the devils in hell to shrink away when that person enters for his eternal punishment.

Of all the slimy flotsam and putrid souls that will be there, none will greet this person for their bellies will quiver with nausea and they will hold their noses as this dog poisoner comes to receive the eternal punishment.

In the scale of human gradations there is nothing lower than that of a dog poisoner. When the friendly, chummy pet accepted the proffered gift of a bit of poisoned food it did so gratefully, thinking, "here is another friend."

Then slinking away and from behind closed curtains, the poisoner watched the animal innocently eat the death potion that was within a brief interval to cause it agony and slow death.

You, who committed this act, from which there can be no human pardon, will feel the eyes of accusation as you walk down the streets. As you pass people by, go into the stores, do your daily routine, you will be conscious of the silent thoughts of those you see who will say to themselves, "there goes a dog poisoner."

You have poisoned yourself and you'll live a thousand deaths until you die. The pet dog you killed had it the easiest way.—Art Jenkins in Mascoutah (Ill.) Herald.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

AUSTIN—Texas' foremost 1938 political floor-show got off to a flying start this week, when Ernest O. Thompson, erstwhile mayor of Amarillo, now serving his second term of Railroad Commissioner, made his initial bow to the voters at Waco, where he reviewed the record he has made, and outlined the issues upon which he asks the voters to promote him to the governorship.

Previously, Thompson had staked a march on his chief opponent, Attorney General Bill McCraw, of Dallas, by promulgating a 15-point platform advocating economy, no new taxes, aid for farmers and schools, a leasing board for school lands, liberal old age pensions based upon need, removal of insane from jails, cooperation with organized labor, lower utility rates and State utility regulation. He opposed un-American "isms", chain stores, centralization of government, Federal control of child labor and natural resources, open saloons and liquor by the drink, gambling, socialized medicine. He pledged fulfillment of the State's obligation to pension teachers and aid dependent children and needy blind, as approved by the voters. He advocated additional taxes on natural resources or on luxuries to finance this obligation, if additional funds were needed, though expressing the belief more taxes will be unnecessary.

McCRAW OPPOSES TAXES

Meanwhile McCraw, leaving the State for a hearing in the Green estate tax case in Florida, issued a statement echoing Thompson's opposition to new or increased taxes, and advocating increased taxes on natural resources, public utilities and pipelines, if they are

needed for the social security program. He said he will state his platform fully in his opening address at Arlington, between Fort Worth and Dallas, on Saturday, April 23.

Announcement by Jim Ferguson that his wife would not enter the race clarified the gubernatorial waters considerably, and left Harry Hines, Highway Commissioner, the only unheard-from prospective candidate. Hines' friends believe he will announce for Governor during the week.

INSIDE STORY

Behind the decision of the Fergusonons to keep out of the gubernatorial race this year lies an interesting story which goes back to 1933, when Mrs. Ferguson took office for her second term as Governor. Ernest O. Thompson was serving his first elective term as Railroad Commissioner at the time. There were a good many state officials, elective and appointive, who had been aligned with Ross Sterling, and who resented fiercely Mrs. Ferguson's defeat of the Houstonian for a second term. They were hostile, some even discourteous, to the woman governor. Thompson, although his political ideas were quite different from those of the Fergusonons, and he was loyal to Sterling, the man who had originally appointed him to the Railroad Commission, was nevertheless, courteous and considerate of the woman governor. This chivalry and good sportsmanship won the undying friendship of Mrs. Ferguson for the red-headed Amarilloan. So when there was talk by Jim this year of running Mrs. Ferguson for governor again, close friends sayshe told her husband he could do a little political dicker-ing by using her name, but when when the showdown came, she would not enter the race against Thompson.

FAMILY CONFERS

The final decision of the Fergusonons was reached the day before

Jim's announcement, at a family conference attended by their children and in-laws. The unanimous opinion of the latter group was that the health and age of neither Jim nor Ma justified them in entering, and this opinion, backed by the positive stand of Mrs. Ferguson against jeopardizing the chances of the man who had been chivalrous to her, swung the balance, and Jim was overruled. It was a knowledge of this situation which caused the writer of this column last autumn to report that the Fergusonons would not be in the race this year, in direct contradiction of reports and rumors published in virtually every daily paper in the state.

WILD CLAIMS FOOL VOTERS

The voters of Texas would do well any year, and particularly this year, to familiarize themselves with the duties and powers of the principal elective officers, both state and local, before the campaigns get hit. It is a favorite trick of some politicians to confuse the voters with promises to perform certain things, which may be desirable to a lot of voters, but which the occupant of the office the promising candidate seeks is entirely without power to perform. Legislative candidates pour out promises to do things which lie entirely without the province of the legislative bodies to do, and which only administrative officers can perform. And Administrative office candidates, from Governor down to tax collector, quite often paint rosy pictures of the reforms they will bring about, when they know—but often the voters don't—that only the legislative agents of the people can make changes. The present campaigning reveals a candidate for attorney general who would furnish Texas with a new constitution, which only the people could create in an election; another seeker of the lieutenant governor's chair would change the fundamental structure of the government and destroy a legislative system that has been in use for nearly 100 years, when actually the sole and only power the lieutenant governor has is to preside over the sessions of the Senate. Still another candidate for governor promises pensions for everybody over 65, when all the governor can do about it is to abide by his oath of office, and enforce the pensions-for-needy-only law which the legislators wrote and placed on the statute books.

ALLRED COLUMN QUILTS

Indicating his determination to retire from political fray—at least for the time being—Gov. Allred this week suspended his weekly newspaper column "The Rest of the Record", in which he has urged his political beliefs for the past several months.

MARKETING QUOTAS HELPS WHEAT MARKET

COLLEGE STATION—Wheat marketing quotas under the new farm act will be proclaimed only when the supplies for any year are estimated at more than 950 million bushels, according to Geo. Slaughter, chairman of the Texas Agricultural Conservation Committee. The act states that there will be no wheat quota for 1938 unless parity payments are made available.

The quota plan for wheat will be used only when the total supply is so large that prices threaten to fall to very low levels, as they did from 1928 to 1934, and then only when two-thirds of the wheat farmers voting in a referendum approve of the plan. The Secretary of Agriculture is directed by that act to announce the necessity for quotas on May 15.

FSA Gives Aid To Farmers of Donley

Every business man realizes the importance of considering the future needs of his business and how these needs may be met, and the farm home is no exception to this rule, according to Miss Vera Martin, home management supervisor for the Farm Security Administration in Donley county.

At this time of the year Miss Vera Martin and Mr. Robert C. Land, rural rehabilitation supervisor for this agency, are busily engaged in helping farm families plan their needs and devising ways to meet them. Each farm family cooperating with their needs for the next year, which include the needs for crops, food for the family, clothing, medical attention, schooling, recreation and similar requirements, not forgetting the amount of money necessary from month to month. After the needs are estimated a budget is outlined and the family is encouraged to live within that budget which is based on thrift.

Farmers are taught the value of balanced rations for their livestock. They are encouraged to improve the care and breeding of livestock to insure maximum production. They are advised to plant their field crops in accordance with approved practices for the locality in which they live, not forgetting the importance of soil conservation methods.

The Farm Security Administration makes loans to needy and worthy farm families in order to help them get on a balanced, live-at-home program. Full details of this rural rehabilitation plan can be obtained from either Mr. Robert C. Land or Miss Martin who maintain offices at the City Hall, Tuesday and Friday of each week.

ARE YOU ONLY A 3/4 WIFE?

MEN because they are men can never understand a three-quarter wife—a wife who is all love and kindness for three weeks of the month—but a hell-cat the fourth.

And make up your mind men never will understand. There are certain things a woman has to put up with and be a good sport.

No matter how your back aches—no matter how loudly your nerves scream—don't take it out on your husband.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood into womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife. Take Lydia E. Pinkham's Vegetable Compound and go "smiling through." Over a million women have written in reporting their benefit. Why not give this world-famous medicine a chance to help YOU?

Milk A Mainstay Of Farm Income

Year	FARM CASH	MILK	INCOME	(IN MILLIONS OF DOLLARS)
1933	\$	\$	\$	999
1934	\$	\$	\$	1133
1935	\$	\$	\$	1289
1936	\$	\$	\$	1417
1937	\$	\$	\$	1475

ABILITY of the dairy industry to maintain cash payments to farmers for milk and employ payrolls in evidence, says the Milk Industry Foundation, that this 3 1/2 billion dollar industry is a mainstay of agricultural and industrial purchasing power during periods of recession.

Milk, the largest source of farm cash income, was also the only major farm commodity except cotton to return farmers more cash in January than the same month of 1937. Farm cash income from milk of \$132,000,000 for January was the largest for the month in eight years and 14.8 per cent greater than in January 1937. Total farm cash from marketings of all other farm products was down 10 per cent.

Total farm cash income from milk for the twelve months of 1937 was

\$1,475,000,000, an increase of \$58,000,000 over 1936 and \$490,000,000 greater than the low of 1932. An important factor in the steady increase of dairy farm income results from the axiom that farmers benefit most from milk sold in fluid form to homes, stores, hotels, restaurants.

Foundation reports from 136 markets throughout the country show that payrolls of milk companies were 4.3 per cent higher and employment down only 1.8 per cent in January 1938 compared with January 1937.

Further evidence of the importance of fluid milk distribution to economic stability is that despite curtailed business activity during the last quarter of 1937, milk company payrolls increased 4.8 per cent and employment .7 per cent over the last quarter of 1936.

IT CAN'T HAPPEN TO YOU? HALF OF SYPHILIS CASES INNOCENT

It can't happen to me. The American public's fondest invitation to troubles lies in those five words. It's the same cocksureness that allows us to think of war's slaughter in terms of other nations blasted.

The same ostrich attitude that looks at a smashed automobile and its cargo of mutilated dead—looks and looks away to say: "It's horrible! But it can't happen to me."

The public refusal to face facts because they're uncomfortable is the factor that has geysered syphilis in America to its preeminent position of the nation's number one killer.

"Appalling! There are terrible conditions, but they can't apply to me!"

But they can. Readily contagious, syphilis to-

day is a disease to which none are immune—not a sin. State health authorities and syphilologists will tell you that the disease is contractable in any one of 20 ways—that its innocent and unconscious acquisitions are legion. Surgeon General Thomas Parran wrote: "From my own findings I should estimate that half of all syphilis infections have been acquired innocently."

It can be incurred from kissing, from a pipe or cigaret, from a recently soiled drinking cup, napkin, handkerchief or bath towel, from borrowed razors and combs.

A family disease, it has spread quietly yet unnecessarily in childbirth from infected parents. And as it has spread, it will continue to do so until the public taxes deliberate action in cutting such transportation short.

New Building Plans Given On FHA Loans

New dwellings, garages, barns, silos, hog, poultry and milk houses may be built by Panhandle-Plains farmers with loans insured by the Federal Housing Administration as a result of an amendment to the national housing act recently passed by Congress, Robert B. Smith, Washington, assistant to the FHA administrator, announced.

Under provisions passed in February, farmers may borrow money from their local banks for needed house or building improvements.

Farmers or tenants having leases which will expire not less than six months after the maturity date of the loan may borrow up to \$10,000 to be used exclusively for property investments of a permanent character, Smith said.

Installation and purchase of equipment and machinery, such as cream separators and churns, are no longer eligible for insurance, but permanent improvements such as barn pens, feed bins, stalls, troughs, ventilating systems, water systems and electric wiring are eligible.

Loans are payable in monthly or seasonal payments from sale of crops or livestock, but at least one payment a year must be made.

For the first time a new type loan, insured up to \$2,500, will be made. This applies to the building of new structures such as barns, garages, service buildings of various kinds, tourist cabins and other commercial buildings. These loans run for five years and are payable to equal monthly installments.

Whether security will be required for loans up to \$2,500 is a matter to be decided by lending institutions. Security is strongly urged by the FHA where loans exceed \$2,500.

SOCIETY

Mrs. Bugbee Hostess To Jr. Beaux Arts

Mrs. Harold Bugbee was hostess to the members of the Junior Beaux Arts Club, last Thursday afternoon, April 7, at her home.

The subject for the afternoon's study was "Southwestern Art in New Mexico" with Mrs. Rufus White as leader. Mrs. Harold Bugbee gave an interesting discussion on "A Visit with Taos Artists," while Mrs. George Bagby gave brief sketches of "Taos Artists Themselves," namely Sharp, Dumtin, and Phillips, and Cousin Miss Margaret Cope discussed the "Santa Fe Artists, Cassidy and Dasburg." In the absence of Mrs. Ralph Randal of Panhandle, Mrs. W. C. Stewart, her mother, gave a delightful sketch of "The Life of Harold Bugbee," our own Clarendon Artist.

Lovely refreshments were served by Mrs. Bugbee and Mrs. W. H. Patrick to the following guests: Mrs. T. H. Ellis, Miss Maxine Ellis, Mrs. Sam Braswell, and Mrs. W. C. Stewart and to the following members: Mrs. George Bagby, Miss Nell Cook, Miss Margaret Cope, Miss Peggy Word, Miss Myrtle Hall, Miss Mary H. Howren, Mrs. Frank White, Jr., and Mrs. Rufus White.

Garden Club Has Bluebonnet Stouidy

The Garden Club was entertained at the home of Mrs. A. L. Chase, Monday afternoon at three-thirty.

As suggested at last meeting the roll call was answered by useful garden hints from each member.

Mrs. Walter Taylor gave an interesting paper on "Bluebonnets of Texas," and terminated the discussion with an "Indian Legend on the Origin of the Bluebonnets."

Mrs. Meredith Gentry, who has been quite successful in growing dahlias, in an informal way stated some practical facts in regard to dahlia culture that will be helpful to each member of the club.

The hostess served dainty refreshment plates to the following members: Mesdames Tom Goldston, George Ryan, Meredith Gentry, John Potts, Tom Connally, Walter Taylor, Ben Previtt, Oscar Jenkins, Lee Bell, C. B. Morris, Joe Goldston, D. O. Stallings and Cliff McDowell.

After refreshments were served a visit was made through the green house of the hostess. The green house was a colorful and lovely place to view after the last week's damaging freeze of the lawns. The rockery had some small blooming plants, and a stately hardy rose was gorgeous with its fifteen orange and yellow blooms, which is likely the only outdoor rose blooming in town.

Garden Glances

Presented weekly by the Garden Club

America Beautiful lies in the hands of the gardeners.

The suggestions offered last week to gardeners seeking advanced spring beauty spots, were written before Old Man Winter made a belated visit, and left his path of destruction.

"Blooming trees, Oh, so pretty — April freeze What a pity!"

But the evergreens are remaining to add their grace and beauty at the Jim Patman home certainly intensify the attractiveness of the place. Other lawns that have been recently re-landscaped with shubbery and numerous evergreens are those of C. W. Bennett and Bert Smith. Extensive improvements are being made on the Smith lawn.

The First Christian Church has added six shapely evergreens and shrubbery to its well kept lawn this week. A variety of evergreens against the walls of the Baptist Church and those of the Methodist Church have added greatly to the attractiveness of the grounds.

Let us not be discouraged over the damage done by the cold of the past week and prepare to enjoy the second coming of spring.

The Clarendon Voc. Ag poultry team had accomplished a perfect score until their representation at Tech was defeated. This team captured 1st place in Memphis, White Deer, Tulsa, Miami and Pampa where more than 50 teams were represented and in the judging they also won many high individual placings in all of the listed contests and also captured first place in White Leghorns in the Tech contest where they were defeated. In all of the contests the team placed high. They were presented with a silver loving cup.

For the past two weeks the local F.F.A. officers have devoted their time to training for the Memphis district annual Chapter conducting contest, which they will enter April 22. The Clarendon Chapter last year won in this contest but was defeated at the Area I contest at Lubbock for lacking in elements that will be improved upon this year. In connection with Chapter conducting, news writing will be entered by Homer Speed and extemporaneous speaking by J. D. Swift.

Accompanied by bad weather through out the week-end the Clarendon Voc. Ag judging teams competed in the Area I annual judging contest and captured 1st place in Dairy products out of a representation of more than 80 boys in each contest. The boys that competed and their individual placings are as follows: Maschell Cole high point contestant, Johnny Leathers 3rd high point contestant, and Horace Green 5th place in the dairy products judging. In the other entries that judged in the contest the poultry placed 9th, dairy 6th, and livestock 7th in the contest.

All of the Clarendon teams will be made eligible for the A & M contests that require a high 5th placing in the Area Contest throughout the state.

ON OUR BOOK SHELF

Hendrik Willem Van Loon is famous for his human treatment of history and science in "The Story of Mankind" and other books. His "Geography" is no different. In this he takes up each country or geographical division and gives a brief history of it and explains its geographical construction, offering some of the theories and explanations for the why and wherefore of them. He shows how geography deeply influenced history and the development of mankind. There is more than a little satire in this book, and many ideas that make one stop to think. Although Van Loon is a Dutchman, he has made his home in America for some time, and this book is written from an American point of view. Especially does he poke satire at the empiricist am-

C.H.S. ELECTED HIGH RATING IN ASSOCIATION

The Clarendon school system received a signal honor last week when a letter came from the chairman of the Reviewing Committee of the Southern Association of Colleges and Secondary Schools stating that the Clarendon High School has been accepted for membership in the Southern Association without reservation. This means that this school is accepted as a Class A high school and that graduates of it may enter any college in this Association without taking entrance examinations. Following is a quotation from the letter by J. W. O'Banion, chairman of the State Committee to Superintendent Burton:

"Your high school was accepted for membership in the Southern Association of Colleges and Secondary Schools for the current year without a single reservation. This, it seems to me, is a very signal compliment to you and your associates in this work."

The Clarendon school is especially proud of this achievement as several large city schools were dropped from this group. To attain this standing, the school has to pass certain standards and offer certain work. The Clarendon school has a high reputation for its work in the white man, and at his colonial expansion. Not the least interesting feature of the book is the original illustrations and maps by Van Loon. They should certainly provoke the imagination of anyone. He says that only by drawing his own maps can he visualize things as they are. Some of the illustrations are so imaginative that if they were not labeled they might well be taken for surrealist art. And speaking of maps, be sure to have an atlas handy when you read this book, or you will have little or no idea of what the author is writing about.

SENIOR PERSONALITIES

Mildred Atteberry, another senior is approximately five feet four inches tall, possesses blue eyes that sparkle with mischief, and has blond hair. She is active in Sunday School work and has held many offices including that of vice-president of the Presbyterian League. She likes to dance, and indeed is very apt at that recreation. She is a good sport and is noted for her wit and continued good humor. We rate her as one of the cutest girls in the senior class, and know that that is the opinion of all. She is a loyal supporter of the school and was a member of the Pep Squad. She was given one of the comedy leads in the coming senior play. She answers to the nickname of Mimi.

Gail Adams, or "Sport", is five feet eleven inches tall; he has hazel eyes and very blond hair. He, too, is a loyal supporter of C. H. S. and is noted for his tennis playing. Although Gail hasn't won out in the eliminations, he has been in there right up to the finish. He, too, is a devotee of "Swing". He excels in typing and is well liked by all because of his wit and good humor.

Mildred Barker, who makes grades that rate the first honor roll, is five feet four inches tall and has soft brown eyes and dark brown hair. She weighs about one hundred and ten pounds. She played tennis in the county Inter-scholastic Meet representing Ash-tola, where she attended school in her Freshman and Sophomore years. She also played basketball. This year she is going to Pampa to represent C. H. S. in the District in typing. She was Secretary Treasurer of her class in her Freshman and Sophomore years. Her favorite pastime is horse-back riding. She is very quiet, doesn't have much to say, but is very well liked by everyone and has a host of friends.

Jack Gardeshire, is five feet eight inches tall, has green eyes with long dark eyelashes. His dark brown curly hair is the envy of many a girl. He has ranked high in scholastics throughout his four years in high school. In his Sophomore year he was the alternate for the spelling team in the County Meet, has entered Essay writing several times, and this year will represent Clarendon at Pampa in Typing. He likes to dance and his favorite pastimes

CAMPUS CLOTHES

With the arrival of spring, when it doesn't go back to winter, bright prints and other gay clothes dot the campus. White shoes are seen everywhere, together with gray and blue. Flat heels and rubber soles seem to be about the only thing worn, even among the boys. Most unusual shoes are those of Dorothy Jean Bogard; these are white sandals with the new-famous built-up soles.

Light blouses are seen a lot. Frances Grady and Ethelyn Drennan have cute yellow and blue mixed sweaters. Frances wears hers with a light blue flecked with yellow and black suit. Jeanice Porter has a pretty white dotted with blue sheer blouse, while Miss Headrick's yellow and pink linen blouses are the envy of all. Johnnie Stewart has a pretty green linen blouse and Theresa Bain a red and white checked with puff sleeves.

One of the cleverest prints has been worn by Mary Charlotte Ward, who has a multi-colored floral with pink tape on collar, cuffs and hem. Johnnie Rhodes has a blue, lavender and cream print made with high neck and swing skirt. Ruth Cornell attracted a lot of attention in her white and pink and blue linen which had print one place and then surprised you with plain someplace else. Billie Horton wears a royal blue linen with white initials on the tie. Madalyn Taylor looks well in a large green and black print on a white background.

DAINGEROUS WEEK ENDS

Weekend recreation in Texas appears increasingly hazardous if Monday morning newspaper accounts of sudden deaths are a fair criterion. During a recent week end, twenty-four Texans lost their lives from traffic, violence or drowning. While this is but a tiny proportion of six million people, the number is what larger than it should be. Traffic deaths still call piteously for more careful driving and better enforcement of traffic laws. In addition to a number of collisions of one auto with another, two grade-crossing accidents took eight lives. Proper care in approaching rail crossings would eliminate nearly all such accidents; but since it seems impossible to induce drivers to exercise proper precaution, the crusade to eliminate grade crossings needs to be pursued vigorously. If Texas highways increase their Sunday toll, many people will become afraid to leave their homes on week end.—Dallas News.

ASSEMBLY

Due to the excessive cold, only a brief assembly was held by the High School last week. On Thursday at the second period Mesdames Landreth, Heath and Howze members of the Book Club, presented a brief program. The quartet sang, "Open the Temple", and Mrs. Landreth sang a solo, "The Holy City". They were accompanied by Mrs. Allen Bryan.

COLLEGE ASSEMBLY

The College met in assembly Tuesday at the fifth period. Plans for the college society were discussed, a number of songs were sung, and Mr. Drennan made an interesting talk.

SPECTATOR

Is Durward McCracken losing his attraction for the girls?

Who was the lucky boy Billie Horton was with last Saturday night?

Who accompanied Huen Harvey to a party Saturday night?

Is Verna Collier still hitting the high spots?

Apparently the junior president, Billy Patman, doesn't know that these spring nights were especially made for parties.

Have the boys fallen for B. J. C. or the new Buick?

It looks like Marjorie Beverly has two admirers? Max Rumpy is afraid to smoke cigars, for it might stunt his growth.

Why are the Seniors seen mumbling to themselves while peeping through their fingers at their poetry?

C. C. Broughton, Childress, was in Clarendon Monday in the interest of his candidacy for District Attorney.

Mr. and Mrs. Henry Williams and son, Chester, returned Saturday from Mineral Wells where they spent several weeks.

IT HAPPENED AGAIN AT TECH—

by Homer Speed

Although someone tore down the barb wire fence that was the only wind-break between Clarendon and the north pole Thursday and Friday of last week, the Agriculture class of Clarendon High completed another journey to a judging contest at Texas Tech. College at Lubbock. This contest did not have the content as did the Amarillo Fat Stock show but it was filled with wind, snow, hard work, and fun for all who could find it throughout its procedure.

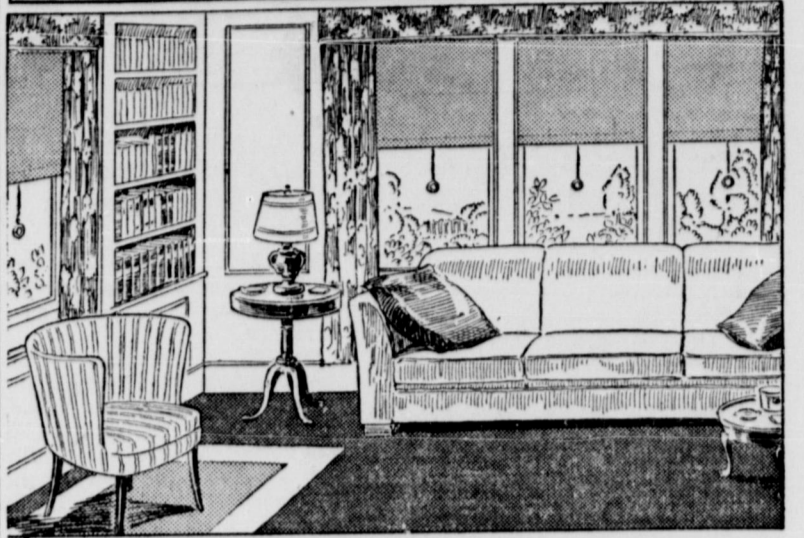

In considering some of the difficult facts that I have just written I found that Jelly McGowan made it a most successful trip by meeting one of his old school chums (another woman) and paid her a long visit Friday night at the Palace Theatre on MY money.

Although Jelly is the only one I have mentioned in telling of the excitement of that trip, he was not the only one that made fun out of it for the rest of the members had such a good time that they were afraid to tell me about it. Therefore I will give the boys a break and not disclose what I saw some of them doing.

I, too, had a wonderful time, Jelly and I met and visited one of our old school chums whom all of you remember and whom you think of often when the name Lubbock is mentioned. Mr. John M. Bass who is now Mr. John Bass as the students of Lubbock High School could not find out what the M stood for. But laying all jokes aside, John was a candidate for the senior "prexy" and is very well liked by all. He often stated during our visit that he would never forget Clarendon High. So don't get the big head for having the opportunity to be going to the best high school in the state, according to some people's estimation.

Cool Your Home With Springleaf Green Shades

It's a grand, brand new color in cloth shades that brings the whole green countryside indoors. We've just seen this new color and like it.

For one thing the green is soft enough in tone to diffuse the glare of sunlight and keep the rooms of your home cool and livable even on scorching hot days. Then too, green is one of the most restful colors on the eyes and the nerves. If you have it in the kitchen you'll find that room a cooler, more pleasant place to work in. In the bedrooms it protects your eyes from the glare of early morning sun—and eye specialists tell us that sun should never beat

down on the eyelids of a sleeping youngster or even a grown-up.

Springleaf green, we learn from the interior decorators, is the color this year in cretonnes, chintzes, draperies, wallpaper, and pottery. And the best part of these new shades is that they are made of cloth—woven on a loom and then "processed" for long life. They're color fast—weather resistant, that is, they won't, so they tell us, crumple up from rainstorms or steam from the kitchen or bathroom. All in all, these new summer window shades sound pretty attractive to us. We think you'll approve of them, too!

Br-r-r! When It's Hot It's Cold

Friends of J. Frank Heath, owner of the Clarendon Furniture store, have been remarking about the change that has come over him.

"Like a kid with a new toy," they say, and although it's a far cry from a toy, the thing in which he is so much interested is as intriguing as any of those modern talking, walking, squawking mechanical contraptions that bring shouts of glee from youngsters.

"But there is nothing mechanical about this," he tells you. "It has no moving parts or machinery to get out of order and its almost like magic, the way it makes ice from oil heat."

Right, it's a refrigerator. Not an ordinary refrigerator, yet not a new idea, he will tell you, but a modern kerosene-burning refrigerator which for the last ten years has been bringing delight to so many rural residents—even those who live miles from other conveniences.

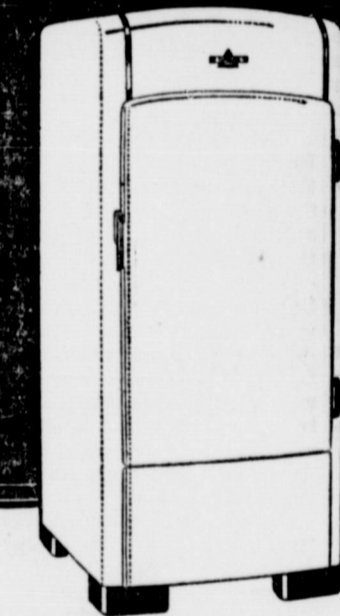

"Do you wonder that I am enthusiastic?" he asked.

HELP KIDNEYS

To Get Rid of Acid and Poisonous Waste

Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.

You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!

Aged Trail Driver Dies In Oklahoma

J. L. Reid, 90, freighter, trail driver and Donley County resident for 50 years, who died in Oklahoma City Saturday, was buried in Citizens Cemetery Wednesday afternoon.

Born at Fairfax, Va. June 1847, he had drifted west as a youth and settled on the Texas frontier in Palo Pinto county. In 1885 he moved to Wise county and rode trail to Baxter Springs Kansas, during the early era of cattle drives. He settled in Donley county in 1887.

Surviving are his daughters, Mrs. Susie McFarland, Los Angeles; Mrs. Katie Herwig, Oklahoma City; and a son Jack Reid, Lubbock.

Bible Commentary Added To Museum

The Donley County Museum continues to open its doors to the public each Monday afternoon according to an announcement by Mrs. L. S. Bagby, who is in charge.

A stir of unusual interest was created this week at the museum by the addition of an old Bible Commentary published in London in 1677, loaned by W. A. Clark, former dean of Clarendon College.

The front page was inscribed, "The Works of the Pious and Profoundly-Learned Joseph Mede, B. D. Sometime Fellow in Christ's College in Cambridge." The publisher inscribed it to "His Most Gracious Majesty," who was Charles II. Among the leaves of this worn, leather-bound volume are slips of paper on which someone in years past had made notes in Latin, Greek and Old English, and one paper is folded in envelope fashion and sealed with sealing wax.

Mr. Clark also loaned the museum a large old-fashioned Bible, bound with tooled leather and reinforced with metal clasps, and its pages illustrated with fine steel engravings. This, too, was published in London and prefaced by the Rev. Robert Jamieson, D.D., a minister of Glasgow, Scotland. It perhaps dates back 100 years or more.

Another new addition to the collection of the museum is a small trunk loaned by Odos Caraway. It was once the possession of his small sister, Miss Bonnie Caraway, who received it as a gift in 1898.

Mrs. Bagby is still wanting antique furnishings for the planned pioneer bedroom. Any loan in the way of furniture, rugs or old-fashioned knick-knacks will be appreciated, she said.

The Museum Board announces that an open house will be held at the museum on the first Sunday in May, to which the public is accorded a special invitation.

AT THE FIRST BAPTIST CHURCH

There Is Always Worship Fellowship-Service

J. Perry King, pastor

There are many habits that are not commendable. All people regardless of social standing, intellectual ability, calling or profession have their good points and some that are not so good. The commendable ought always to be commended. The good ought to be exalted, and the bad discounted. Look for the good qualities in your neighbor or friend, always remembering that he has to do the same on your behalf. There is room for improvement in every life. No one is an exception to this rule. Church going is a good habit. All agree to this. It is a habit that is calculated to lift and encourage and exalt and build for better living. If you have the bad habit of not going to church the best way to break it is to drop it and start going to the services of your church next Easter Sunday. People who are regular in their attendance believe you will enjoy it and that your outlook on life will be happier if you continue this commendable habit.

The First Baptist Church is happy to comply with many requests to have Mrs. McHenry Lane present as a special feature for the evening service, "The Prophet", by Kahil Gibran. The morning service will be a regular Easter Sunday service with music and sermon in keeping with the occasion.
