GOOD-BYE SON -----!

By MARY S. COOKE

It was a faultless Texas morning with only a few white clouds hanging motionlessly in the clear sky, when a man and a boy drove briskly over the broad smooth road which ran between gold fields of ripened wheat.

The man had the wheel and he drove carefully, his eyes glued to the road as if there were no other thought in his mind but that of driving. If he caught the anxious, half pitying glances of the youth who sat so straight and stiffly beside him, he gave no sign.

For a long time they rode like this. Hours and hours it seemed. Then the boy laid a slender brown hand on the older man's knee and spoke:

"I could have waited, Dad. Maybe it was selfish of me, not waiting to be drafted. But Gosh, Dad, I've already stayed out longer than I intended to. I've got to go."

The man turned, then, catching the hand on his knee in a hard, quick grasp. "I didn't wait," he smiled, "and it nearly broke my mother's heart, you haven't a mother to leave, Pal, only a Pop, and he can take it."

Pride shown suddenly in the boy's dark eyes, pride and sheer gratitude replaced the uneasiness that had been there before. Then he relaxed, and by the time the car slipped quietly up to the railway station from which he was to leave for the induction center, the boy was asleep. He must have spent many wakeful nights thinking of this dad of his, this dad who had also been a mother to him. He must have remembered the long games of golf they had played together, the fishing trips, the times he had turned English and cut those classes his dad didn't want him to cut. It wasn't an easy thing he was doing, leaving this dad.

And the dad? As he sat watching this soldier son of his as he slept, was he thinking back to the days when he had so clumsily bathed and dressed him and prepared his bottle, testing the warmth of the milk by dropping a bit on his wrist as he had been told to do. But whatever he was thinking, he kept it concealed, and when, at length, the far away whistle of the train penetrated his consciousness, he only touched the boy.

"It's about time to go, Partner," he said simply. "There's your train." And when his son was fully awake, he added, "Just remember, Pal, always be a good soldier. You are fighting for your country, but you are also fighting for yourself and your own future. And respect your officers no matter what they do. After all, it isn't the man you will be saluting, but the uniform, the flag, America."

He said no more. And when his son, in a sudden burst of emotion threw his arms about him and openly, unashamedly kissed him, he only held him tightly. Then, as this new soldier for Uncle Sam slid from the car and started running for the train's platform, not speaking, not even looking back, he put his car in motion and drove rapidly away. He had given his only son, his only child and there was no mother at home to be comforted, but, as alone as he felt, he was proud.

FEED DESTROYED BY FIRE MONDAY

Fire starting from a carelessly dropped match Monday burned 1500 bundles of feed and a plank fence at the W. W. Bain farm 4 1-2 miles east of Lella Lake.

Prompt action on the part of the Clarendon fire department saved the barn and approximately \$100 worth of feed stored in the structure.

The fire started about 9:30 Monday morning.

1943 ANNUALS

W. C. Larimer announced today that he had received the 1943 Bronco and that most of the annuals had been delivered. If you have not received your copy you may do so by contacting W. C. Larimer or Bill Andie.

Lella Lake, Hedley Included In Canning Program

According to J. R. Gillham, supervisor for the Rural War Production Training program, arrangements were made this week whereby Lella Lake and Hedley will also be included in the canning program to be offered. School officials of these two towns have agreed to allow the use of the home economics room in each of the schools to be used as a canning center in that respective town.

All persons living in and around Clarendon who desire to take advantage of the use of the canning facilities offered by government in the above training program are urged to contact either J. R. Gillham or Mrs. J. E. Humphries at an early date. The canning facilities at the Clarendon Junior high school will be available on the morning of June 17 at 9 a. m. The facilities at Hedley high school will be open Friday, June 18 and at the Lella Lake home economics room on June 22.

The use of hot and cold water for washing, the use of cookers, and sealers will be offered free of charge to those desiring to take advantage of the facilities. An additional service will be offered at a later date to be announced when pressure cookers will be tested by the ladies in charge of the course.

Miss Maurice Berry, Clarendon high school economics instructor, will serve as home economics supervisor of the three plants and will offer demonstrations in food processing at dates to be announced at a later date to be under the supervision of a lady experienced in canning all types of food who will be able to offer suggestions to anyone on any type of canning.

EARL JONES DIES IN AMARILLO TUESDAY

Earl D. Jones, 37-year-old line operator at the Pantax Ardance Plant, formerly of Clarendon, died at 6:30 o'clock yesterday afternoon in an Amarillo hospital.

Mr. Jones and his family had made their home at 3501 North-east Eight Avenue, while in Amarillo.

Survivors include his wife, Mrs. Stella Jones; two sons, Stuart Carrol and Barry Lynn Jones; his parents, Mr. and Mrs. W. C. Jones, pioneer residents of Clarendon; and one sister Mrs. Althea Ellis of Bivins Station, Amarillo.

The body will be brought to Clarendon Thursday for funeral services to be held Friday afternoon at 4 o'clock in the Clarendon Methodist Church.

Burial will be in the Clarendon Cemetery under the direction of Blackburn-Shaw Funeral Home of Amarillo.

GHOST BANDIT IS THWARTED BY TEAR GAS

A ghost bandit struck Clarendon Sunday night but found a safe protected with tear gas too much for his eerie work.

Without leaving a clue or an indication as to how he entered the bandit knocked the knob off the Douglas & Goldston Drug company's safe but was thwarted by the protective tear gas that was automatically released when the safe's combination mechanism was hit.

C. J. Douglas, manager of the store, said the bandit failed to secure loot.

All doors and windows were securely locked when employees went to work Monday morning leaving the possible clue that the bandit had been concealed in the building when the store was closed for the night and had let himself out of a door equipped with a night latch which automatically locked.

So heavy were the tear gas fumes that employees were almost blinded when they entered the building next morning.

Two kids and A FLAG

(AN EDITORIAL)

Beyond the shoulder of the world this Flag Day a man knows what you are doing and hates you for it. For you are causing the Symbol of Freedom to be raised—and loved—by little children. And these children, in this man's world of tomorrow, are not to be free. They are destined, boy and girl alike, to be his slaves.

To this man, trained from youth in merciless conquest, it is only a question of time before he gets these two children in his power as he and his fellows got the boys and girls of Poland, Norway, Holland, France. You he will kill. They, if young enough, will be systematically schooled by him to loathe and despise their Flag and all you have taught them to hold dear. Make no mistake, the work will be done thoroughly. This man is expert in the murder of children's souls.

But on some things this man knows he must gamble. He must gamble on the hope that to you, now, your own personal convenience is more important than your country's life. He must gamble and is gambling that recent victories have made you feel secure; that you are already seeking ways to evade your duty in the illusion the war is now safely won. He is grumbling that you are beginning to lie down on the job.

If his gamble is correct, if you are telling yourself it is all over but the shouting, there is more than a faint chance that the flag waving from your post office next Flag Day will not be the one that floats there today.

For there is one point on which you and your enemy can safely agree: This war will not be over until one side or the other is utterly defeated. And only increasing determination on our part to put all things second to winning this war will make absolutely certain that the defeated side will not be our own.

Increased Purchase Of War Bonds Asked As Tribute To Flag

WASHINGTON, June 7 — By increasing their purchases of war bonds during the week of June 8 to 14, American citizens can play their part in the team-work called for by President Roosevelt in his proclamation broadening the purposes of Flag Day celebrations. The United States Flag Association declared today. The association pointed out that by purchasing an additional \$100,000,000 worth of bonds, the American people will be paying substantial tribute to the flags of the United Nations and, at the same time, provide more armament for the common struggle against the Axis.

"Save by Sacrifice," is the slogan of the campaign. As President Roosevelt in his proclamation, declaring June 14 as "Flag Day," paid especial tribute to the peoples of the United Nations. Special programs are being arranged by organizations whose members are of recent foreign origin. Emphasis is on heavier war bond buying and the teamwork necessary for winning the war.

Nearly every governor of the 48 states has issued similar "Flag Week," proclamations, while thousands of mayors and other municipal heads are arranging programs to give proper recognition to the United Nations and "Flag Week," with due consideration of the necessity of maintaining our production schedules at top peak.

Four thousand church organizations have been asked to enlist the cooperation of their various minister members to hold special services in their churches on "Flag Sunday," June 13. Ministers have been asked to announce special collections in their churches, the proceeds to be used immediately for the purchase of war bonds and stamps. Where special conditions exist the Flag Association has asked the church leaders to make its regular collection first and then to conduct a second collection which will be used entirely for the war bond effort.

effort the thousands of members of the Flag association have pledged themselves "to forego the purchase of things that they need and place the money, thru war bonds and stamps, out there on the firing line where our flag is being advanced and maintained with such heroic sacrifice."

The association also has pledged "to our government our full effort and leadership in urging all Americans during this week of self-denial to purchase war bonds and stamps as a tribute (Continued on Page 8)

RURAL SCHOOLS FINISH YEAR

All the Rural schools have finished the year's work and closed for the summer according to Miss Ruth Richerson, County Superintendent of Public schools. The teaching staffs have not been filled in all these rural schools. Vacancies are to be filled in the following: Ashtola, 2; Jericho 1, Goldsotn 2, Bray 2, Chamberlain 1.

Anyone eligible to teach, said Miss Richerson, may leave application at the office of County Superintendent.

FUNERAL SERVICES FOR WILLIAM THOMAS GAITHER

Funeral services for William Thomas Gaither, 41, were held Monday afternoon in the First Baptist Church. The Reverend Merle Weathers of Panhandle officiated, assisted by the Reverend E. L. Moody, pastor of the First Baptist Church.

Mr. Gaither, a former resident of Clarendon, died of a heart ailment in his home in Breckenridge, Texas, on June 5th. He had lived in Breckenridge for about three years.

Surviving him are two boys, Henry and Billie Gaither, his mother, Mrs. T. Gaither of Breckenridge, his mother-in-law, Mrs. Pat Longan and a step-sister, Mrs. Wella Finley of Floydada.

Pallbearers were, E. B. Misamore, Harold Guinn, Harvey Bower, and Dave Crowell of Breckenridge, Carl Pitman, and Slaon McMabaffey of Clarendon. Burial was in the Citizens cemetery under the direction of Puntin Funeral Home.

FARMERS WARNED TO WATCH MACHINE CEILING PRICES

LUBBOCK, June 9. — With the harvest season near and many West Texas farmers "figuring on a little trading" for used farm machinery and used trucks, the OPA has come to the fore again with price ceiling violation warnings. Those in the market for the equipment should be careful not to pay more than the legal price ceiling. Howard Gholson, district OPA director, said today.

"All used farm equipment sold by dealers is covered by price ceiling while only certain types sold by farmers, other individuals or auctioneers are covered," Gholson said. In case of sales by the latter group the ceiling prices apply to five critical farm machines including tractors (except the crawler type), combines, corn pickers, corn binders and balers (motor or tractor operated). When one of these machines is sold less than a year from the time it was sold as a new machine, its ceiling price is 85 per cent of its base price; in every other case its ceiling price is 70 per cent of the base price, last published FOB factory price. For example, if a base price of a tractor was \$1,000 it may not be sold for more than \$850 if it is less than a year old, or more than \$700 if over a year old.

As for used trucks, the OPA points out that price ceilings apply whether sold by dealers or by individuals.

These are only maximum prices, the OPA has emphasized, and much used equipment will be sold for less. Non-controlled items such as a cow or bale of hay cannot be thrown in with the sale of the controlled item and violation of the price ceiling will be held against both owner and auctioneer of a sale. Persons wishing to obtain information on a used farm machine or on a truck should write to OPA district office in Lubbock.

SERVICE MEN TO BE ISSUED WAR RATION BOOK 3

LUBBOCK, June 9. — Assurance that service men would be issued war ration book III was made today by Howard Gholson, district director of OPA. Numerous service men from the air fields in West Texas have been appearing before local boards to find out why they are not to make out applications for the books at this time.

Applications of service men will be taken at a later date and final details for taking the applications are being worked out now, the OPA announced. Military personnel eating in their own homes were previously issued Book I and II, Book III is merely a replacement book and probably will not be put into use until August. Members of service men's families file applications for the book in the same manner of other civilians and must send in their applications before June 10.

ROBERT HOWREN IN PRISON CAMP

W. D. Howren of Amarillo was notified by the War Department this week that his son, Pfc. Robert Howren, reported missing since the fall of Bataan, has been located by the Red Cross in a Japanese prison camp at Kawaska Branch, Japan. Pvt. Howren is the nephew of Miss Mary H. Howren of Clarendon.

CLARENDON LIONS CLUB

The election of officers highlighted this week's program at the Clarendon Lions Club. The election was as follows: J. R. Gillham, president; C. M. Lowry, 1st vice president; John G. Knorrp, 2nd vice president; Keith S. Lowell, 3rd vice president; Walker Lane, secretary; D. O. Stallings, treasurer; Fred Cook, Lion Tamer; W. A. Riney, tall twister; H. R. Beck, assistant tall twister; Joe Holland and Alvin Landers, directors.

Rationing . . . At A Glance

Rationed Commodities

SUGAR—Stamp No. 13 valid for five pounds until midnight, August 15.

CANNING SUGAR—Stamps 15 and 16 in Ration Book One valid for 5 pounds of sugar each through Oct. 31, 1943. Those needing additional sugar for canning may apply to local rationing boards.

COFFEE—Stamp No. 24 in Book No. 1 (for those 14 or older on the date the book was issued) valid for 1 pound of coffee beginning May 31, expires on June 30.

SHOES—Stamp No. 17 in Book No. 1 good for 1 pair of shoes through June 15. Stamp No. 18 becomes valid June 16 for 1 pair of shoes.

MILK, EDIBLE FATS AND OILS, (including butter), CHEESES, CANNED FISH—Each holder of Book 2 allowed 16 points per week. Red Stamps, E, F, G, and H expire May 31. Red Stamps J, K, L, M, and N expire June 30 and become valid as follows: J, May 23; K, May 30; L, June 6, M, June 13; and N, June 20.

PROCESSED FOODS — Blue K, L and M stamps (48 points) valid through July 7.

Mileage Rationing

GASOLINE—Value of each coupon in A, B and C books is 4 gallons. A-6 coupons expire midnight July 21.

TIRE INSPECTION—All "A" book holders must have second official tire inspections by Sept. 30, 1943. Subsequent inspections for A book holders will be once every six months. "B" book holders must have second official tire inspection by June 30, 1943. "C" book holders must have second official tire inspection by May 31, 1943. Next official tire inspection for "T" book holders must be made within 60 days of last inspection or within 5,000 miles, whichever occurs first.

TIRES—If official tire inspector recommends a tire replacement apply to local ration board for the tire ration certificate. Tires will be rationed to all on the basis of tire inspections and county quotas available with most essential mileage to come first. Recaps can now be secured without rationing certificates.

Other Rationing

Eligible purchasers needing new automobiles, bicycles, typewriters, rubber footwear and other commodities, (except farm machinery and pressure cookers) on which sales might be restricted should see their local ration board. Persons interested in securing farm machinery and pressure cookers should see their county USDA War Board.

PASTURE FOR MILK COWS IS NECESSARY

COLLEGE STATION.—Dairy men should exert every effort to provide temporary pastures for their milk cows.

According to E. R. Eudaly, dairyman for the A. and M. College extension service, cows on pasture save the labor and expense of harvesting, hauling and grinding of feed crops. The dairyman has little responsibility beyond taking the milk twice daily. Meanwhile, permanent pastures should not be neglected, notwithstanding that over most of the state they cannot be depended upon to furnish good green grazing for more than three months out of the year. Accordingly, temporary pastures should be provided to supply this grazing when permanent pastures fall from drought or cold.

Crops most universally used for temporary pasture are sudan and Johnson grasses for late spring, summer and early fall, and oats, barley or wheat for late fall, winter and early spring. There still is time to plant sudan — and it may even be planted on stubble land after oats, barley or wheat has been harvested. Moisture, of course, is a governing factor. A dry summer means no pasture. "Regardless," says Eudaly, "if we don't sow we cannot reap."

Good pasture should enable a cow to get her fill within two hours. The grass should be young and green because it is higher in protein, minerals and vitamins than mature grass. Such pasture will pay a good dairyman more not profit per acre than any other crop he can grow. Eudaly declares, "Good pasture should support one cow per acre, which means that it is worth from \$9 to \$12 an acre monthly. Sudan grass usually can be depended upon to furnish good 12, if properly managed. This means that a sudan pasture is worth from \$27 to \$36 an acre for the season. And since the cow

SOCIAL SECURITY NUMBERS CAN'T BE LOANED

Borrowing, lending, and transferring of Social Security account number cards is strictly prohibited under the regulations of the Social Security Board. Dewey Reed, Manager of the Amarillo filed office pointed out today.

Mr. Reed stated that several cases have been brought to his attention recently in which a wage earner used or attempted to use an other person's social security number at his job.

The Board official pointed out the following as a few of the complications caused by the misuse of account number cards:

The worker's employer is called on to make corrected reports to the Government, and also to correct his own records, as well as make extensive searches for the right name and number belonging to the person employed. Work fail to get credit on their social security account for wages paid in employment covered by the social security act.

The social security board undergoes expense and loss of time to the government in finding and securing information from each of the individuals in straightening out their accounts.

Account number cards can be secured from the social security board office in the New Post Office building in Amarillo. Applicants for cards where workers have lost their original cards can be secured through the same office. It takes only a short time to check the original records for making certain that the worker has a card bearing his correct number.

does the harvesting most of the income is net. Mowed sudan can be conserved as hay or silage. Oats, barley and wheat pasture will pay as much per acre as sudan.

BUY WAR BONDS TODAY

MARTIN

By Mrs. J. H. Helton

Bro. Naylor preached his regular appointment Sunday. We didn't have a very large crowd and hope everyone will come next Sunday.

Mrs. Marvin Salman and baby went Monday in the home of her parents, Mr. and Mrs. Seaton, to the Midway Community.

Mr. and Mrs. Sullivan spent Sunday afternoon in the I. C. Gibbs home.

Helen Joe Bulman and June Gibbs spent last week end in the home of the Claude Parkers, in Amarillo.

Mr. and Mrs. Jack Eddines and daughter ate Sunday dinner in the home of J. D. Woods.

Mrs. Mona Jackson of Wichita Falls is visiting her parents Mr. and Mrs. L. M. Marshall.

Mr. and Mrs. Jack Eddines and daughter, and Mr. and Mrs. Clotis Stogner and children spent Sunday evening in the I. T. Eastling home.

Mr. and Mrs. Claude Parker visited in the I. C. Gibbs home Saturday night and Sunday.

Mr. and Mrs. W. L. Jordan ate dinner Sunday in the home of Tom Easterling.

Mr. and Mrs. Geo. Bulman and Gene visited in the home of their daughter, Mr. and Mrs. Tick Barfee at Groom.

Mr. I. C. Gibbs visited Saturday evening in the Claude Easterling home.

Mr. and Mrs. Grady Henson of Ashtola spent Sunday afternoon in the J. H. Helton home.

Fern Helton spent Sunday in the Marvin Salmon home.

Mrs. Geo. Bulman visited Mrs. Pete Sand Monday.

Mrs. Edwin Bailey entertained her Sunday School class at her home Friday.

Mr. Fred Gray of Houston arrived Thursday night and spent a few days in the home of relatives.

Jack Gray and Claude Hearn visited in Amarillo Thursday.

Mr. and Mrs. J. H. Helton and children visited Sunday night in the Marvin Salmon home.

Mr. and Mrs. Clarence Cobb and children of Ashtola visited Sunday in the home of her sister Mr. and Mrs. Pell Sand.

Mrs. Smith of California is visiting her daughter and fam-

ily Mr. and Mrs. Floyd Crawford.

Mrs. W. L. Jordan of Wichita Falls is visiting in the Jordan home.

Bro. Naylor and his wife and daughter ate Sunday dinner in the J. D. Woods home. They also visited in the I. C. Gibbs home in the afternoon.

Mrs. J. H. Helton, Franky and Francis, and Mrs. Gibbs and June spent a while Monday afternoon in the Geo. Bulman home.

Mr. and Mrs. Fred Gray left Saturday night for their home in Houston. Mrs. Gray has been visiting her mother, Mrs. J. H. Easterling, also other relatives for the last month.

PRESS REVIEW OF TEXAS ALMANAC

Great economic and social changes are revealed in data presented by the 1943-1944 edition of the Texas Almanac, which has just been published by The Dallas Morning News. Approximately 400,000 rural Texans have shifted to urban residence and vocation since the census of 1940. For the first time in the history of the state, the majority of population is now urban, according to information in the new volume. More remarkable relatively, has been the industrial expansion due to the founding of munitions, rubber, shipbuilding, aviation, and other war industries. Texas' manufacturing output has expanded as much during the last three years as in all preceding history.

Mineral production has also been greatly stimulated. Last official figure on value of all minerals produced was \$954,211,150 in 1941, placing Texas far ahead of any other state. On basis of partial reports the Texas Almanac estimates total value of minerals produced in 1942 was more than one billion dollars. While petroleum, natural gas and natural gasoline counted for most of the production, Texas would rank high among the states without the oil group. During the increase in the number of minerals produced in Texas, and in 1942 there was commercial output of more than sixty different kinds.

Next to the greatly increased manufacturing and mining pro-

duction, military activity has had the most notable effect on recent Texas developments. While reasons of military secrecy prevent release of some information the new Texas Almanac lists twenty-two major army aviation fields at San Antonio and Corpus Christi, the army and navy have, respectively, their greatest air training centers.

While the chapters on military activities and industrial expansion are the principal items of current interest, the new Texas Almanac is essentially the all round reference book that it has been, ranging through the whole field of Texas' historical, civic and economic data. The date of the battle of the Alamo, the cotton production of Jones county, the number of deer killed in the name of the State Comptroller, Texas in 1942 and thousands of other classes of information in as widely diversified fields can be found on its pages.

The Texas Almanac is a biennial publication, and the new volume is for the two years, 1943 and 1944. It is bound in paper at 60c on newsstands, 75c by mail; also in cloth at \$1 on newsstands and \$1.15 by mail.

VOLUNTEERS FOR AIR FORCES ARE STILL WANTED

PAMPA ARMY AIR FIELD — The "eyes of the top 'o Texas" will be on Pampa army air field during the month of June, for it is during this period that the Army Air forces is launching one of its most intensive campaigns to recruit young men between the ages of 18 and 26 for air crew training. Pampa field is the aviation cadet recruiting center for this area.

According to Lt. E. K. Shelby, Pampa field cadet recruiting officer, all young men between the ages of 18 and 26 who have not yet been called for induction under selective service, may apply at once at the legal office, Pampa Field, and take the aviation cadet physical and mental examinations. No school or college credits are required. Those who pass the examinations and are found acceptable, will be given letters addressed to the induction station requesting assign-

Sure missed you for Spring plowing. But everything's going along in good shape. You'd hardly know Jimmie. After you joined up, he figured it was up to him to fill your shoes. He's proved himself a real man. Any day now I expect hell be trying to shave. That new Conoco 70 oil you started using in the tractor and car is a real help, too. The Conoco agent tells me it contains special oil-improvers to cut down cylinder wear and bad acid action. He said acid is worst in a car standing around — not used much. That means us, because we're saving the car and tires, and not wasting time, either. Just tell your buddies that the farmers around your home are busy as the devil, raising all you can eat, and then some. We all send love — and luck — Dad!

HERE'S HOW TO GUARD AGAINST ATHLETES FOOT

AUSTIN — The common disease, popularly known as athlete's foot, is said to be the third most common disease seen by skin specialists during the summer, and the fifth most common disorder in winter. It is due to a little mold-like growth or fungus which thrives best where there is moisture and warmth. "Therefore the feet make an ideal place for growth of this germ," Dr. Cox suggested the following as some effective measures for preventing and avoiding recurrent attacks of athlete's foot:

1. Dry carefully and thoroughly between the toes.
2. Use a mild alcoholic solution on these areas after drying.
3. Liberally apply a plain, un-scented talcum to those areas and sprinkle it freely in socks, stockings and shoes.
4. Wear socks that are absorbent but not too coarse. Shoes should be well fitting but not too tight; sufficiently roomy but not large enough to chafe and rub.

A little over three years ago the ratio of women workers in the automobile field was under ten percent. The ratio is expected to reach thirty per cent in 1943.

The current ratio of three to one at which we are out-producing the Axis in aircraft is expected to increase steadily.

Zoy Fronabarger Is Married To W. C. Risinger

Mrs. Nell Fronabarger has announced the marriage of her daughter Zoy to William Clifton Risinger, son of Mrs. W. A. Risinger of Goodnight, which took place, May 30, at the Baptist Parsonage in Altus, Okla. The vows were read by the Reverend W. N. Green, pastor of the First Baptist Church.
The bride is a former student of Clarendon Junior College and West Texas State College, at Canyon and for the past year has been teaching in Goodnight, Texas. The bridegroom attended Cameron Junior College and Texas Technological College, in Lubbock. He is the athletic coach in Goodnight.
The couple are at home in Goodnight, where Mr. Risinger is employed in an elevator.

Blanche Groves Y. W. A. Meet With Mrs. Joe Goldston

The Blanche Groves Y. W. A. of the First Baptist Church, met in the home of Mrs. Joe Goldston, Wednesday evening for a Bible study.
The Reverend E. L. Moody reviewed the seventh chapter of Revelations.
Attending were Maxine Robertson, Lavon Armstrong, Hazel Bingham, Hulda Cauthen, Jane Wright, Nelda Massey, Frankie Hommel, Loveta Cowan Rev. and Mrs. Moody, and the hostess.

T. E. L. Sunday School Class Has An All Day Meeting

The T. E. L. Sunday School class of the Baptist church met Tuesday in the home of Mrs. Cap Lane, for an all day meeting.
Red Cross work was done in the morning, followed by a luncheon. In the afternoon, Rev. Moody brought the devotional on the theme, "As a man thinketh in his heart, so is he."
Mrs. G. C. Heath, president presided at the business meeting. A new assist teacher was elected to take the place of Mrs. J. R. Tucker, who was resigning. The names of prospective members were read and discussed.

Woman's Society Of Christian Service

The Woman's Society of Christian Service met in the First Methodist Church Wednesday af-

ternoon for the World Outlook program, with Mrs. Lena Antrobus as leader. Mrs. J. R. Bulls gave the devotional on "The Christian Code" and Mrs. L. N. Cox gave the World Outlook lesson, which was "I Come—Because the Light is Here."

Ashtola Needle Club Meets

The Ashtola Needle Club met last Thursday at the school house with Mrs. Hubert Rhoades, Mrs. L. U. McClellan, and Mrs. Frances Brown as hostesses.
The regular business meeting was held after which Red Cross was done. Refreshments were served to eighteen members.

Win One Class Has Monthly Meeting Monday

The Win One Sunday School Class of the Methodist Church met in the home of Mrs. Will Johnson, Monday afternoon, for its monthly meeting. A business session took up the afternoon.
Refreshments were served to guests, Mesdames Victor Smith, Johnny Johnson, W. H. Price and members, Mesdames Eva Rhoades, J. T. Patman, R. C. Weatherly, Van Eaton, C. D. McDowell, Ralph Porter, Lon Rundell, C. L. Benson and D. O. Stallings.

Les Beaux Arts Club Met With Mrs. Walker Lane

The Les Beaux Arts Club met last Thursday in the home of Mrs. Walker Lane. The topics of discussion for the afternoon were on Texas artists, which was given by Mrs. Frank White, Jr. and Texas painters, given by Mrs. J. D. Stocking.
Refreshments were served to the following: Mesdames Geo. Bagby, C. L. Benson, U. J. Boston, Frank Bourland, W. J. Evans, C. C. Powell, Fred Russell, J. D. Stocking, J. D. Swift, Frank White Jr., and Homer Glasco.

Dramatics Club Dance Friday Night

The Clarendon Junior College Dramatics Club will sponsor a dance Friday evening, June 11, for high school and college students, at the Junior high school gym.
The dance will begin at 8:30 p. m., and no admission will be charged.

Make it DO for the DURATION

THE kitchen is going to be the most important room in many a home for the duration. More time will be spent figuring out rationed menus and more time mixing up the soups and puddings that used to come in cans. That's why the kitchen must be kept in top working condition for efficiency, comfort and cheer in the days to come.
The refrigerator, which can't be replaced if it wears out, should be handled with special care. It should be defrosted at least once a week and never overcrowded with food. When preparing a meal, it is also wise to take everything you're going to need out at one time to avoid frequent opening and shutting of the refrigerator door.
The stove will wear better and use up less cooking gas if the burners are kept spotless. Pots and pans won't blacken so readily and much gas will also be saved if the flame is never turned up so high that it licks around the sides of the pans.
Where there's room, a desk or table for keeping wartime recipes and your ration coupon budgets is a grand convenience in the kitchen today.

Small horizontal panels of translucent glass blocks can be set into the wall above such a work table as well as in windows above other much-used work surfaces for better daylighting with complete privacy. These blocks can be kept sanitary by wiping them with a damp cloth, require no curtaining or painting, and will actually improve the kitchen's comfort because of their insulating qualities.
A waterproof varnish applied to the floor, if it is not a washable surface, will help preserve it from the inevitable spillovers of food or liquid and make it much easier to keep clean. And liquid wax applied to the wall surfaces that get hard wear such as behind the sink or behind the stove is a practical protection.
Every utensil in the kitchen is precious today because of the metals it contains and should be handled and polished with the same loving care that was once lavished only on the company silverware. The kitchen is going to get more use and less replacements than almost any part of the house, so it's up to the housewife to keep it looking and functioning as well as she can with the aid of modern equipment and plain old-fashioned elbow grease.

GOLDSTON NEWS

By Beatrice Smith

A larger number attended Sunday school Sunday than last Sunday. We want everyone to come next Sunday and bring someone else with them.

Mr. Gregory, of Memphis is spending this week with his daughter and family. Mr. and Mrs. Odell McBrayer.

Mr. and Mrs. Jesse Vick and family spent Saturday in Memphis. Mrs. Vick and small daughter remained in Memphis to return home Sunday with her parents, Mr. and Mrs. J. M. Allen, Mr. and Mrs. Lloyd Brock of Groom spent the week end here visiting relatives.

The young folks Sunday school class enjoyed a party at the school house Friday night. A number of visitors attended and we want to welcome them all back.

Wayburn Phillips of Lelia Lake spent last week with his uncle and family, Mr. and Mrs. Odell McBrayer.

Mrs. Irene Heath and Boyd Brock spent Saturday evening with their brother and wife, Mr. and Mrs. Lloyd Brock of Groom.

Mr. Odell McBrayer went to Wichita Falls on business Sunday.

Fern Haynes who graduated from Amarillo high school this past school term is home spending the summer with her parents Mr. and Mrs. J. E. Haynes.

Ina Mae Brock spent Thursday night with her cousin Lorene Brock.

Gladys Mae Johnson spent Saturday night with Ina Mae Brock. Wesley Gray Farr spent Friday afternoon with James Vick. Mrs. Eulan Hegdon spent the week end in the John Stewart home.

Mr. and Mrs. Philly and family of Texola, Okla, are visiting in the Darus home.

Mr. and Mrs. McDonald and family and her sister spent Sunday in the Joe Dill home.

Garden Glances

Presented weekly by the Garden Club

The yards and gardens are still very attractive as flowers and shrubs are blossoming in profusion almost everywhere.
The golden elder at the first Christian Church is in full bloom and adds a formal touch to the landscape. A number of elders are also blooming in the garden of Roy Clayton.
The home of Mrs. A. H. Baker is very attractive with numerous flowers and the recently clipped lawn.
Lilies are still blossoming in profusion including the orange colored day lilies. The Vada Carpenter home is made a place of beauty by the huge bed of day lilies.
Tall catalpa trees are white with their blossoms and sweet with fragrance in the gardens of U. Z. Patterson, S. W. Lowe, and A. T. Cole.
Victory gardens are fine. It has been aptly said, "If you expect to live out of your garden you must live in it."

THIS BUSINESS OF Living

BY SUSAN THAYER

OUR BIGGEST INDUSTRY

It was the women of the country who began what has now become our biggest industry. All through the summers of long ago our greatgrandmothers preserved and pickled and dried the extra vegetables and fruits that came from their gardens and orchards. In the fall came the hickory stole from those old smokehouses where the meats were hung to cure. Eggs were put down in brine and such things as potatoes and turnips were buried under heaps of earth in the cellar.
However, as the American industrial system grew and men discovered better ways of processing foods, one after another of the jobs great-grandmother did regularly, went out of the home and into the plants. So today the food industry is the biggest in the country and as industries that supply the machines and munitions for fighting.
Never before in the history of the world has a nation faced a food situation like the one that confronts America today. We must not only keep our home front strong and send the best possible provisions to our armies all over the world. We must send huge shipments of food to the countries that have been occupied and half-starved by the Axis.
There are about 50,000 factories where foods are salted, smoked, pickled, canned, frozen, and dried. And the number is growing with the need for still more food. are being frozen, many of them for the armed forces. New methods of packaging foods are being developed every day.
But most of the foods we eat this year were grown in 1942, and the foods from this year's planting will be consumed a year from now. So it takes long range planning and planting as well as skillful processing if we are to meet our obligations. The food industry is doing a stupendous job. When the planning and administration of food control are equally efficient we shall be able to feed a large share of the world.

FRIENDSHIP CLUB

Mrs. J. S. Pool entertained the Friendship Club in her home Tuesday. The afternoon was spent in doing Red Cross work. Refreshments were served to guests Mesdames R. L. Bain, W. D. Van Eaton, and J. M. Morman and members Mesdames G. J. Teel, C. R. Skinner, L. Ballew, J. W. Morrison, J. D. Stocking, J. A. Meadow, C. E. Lindsey, Mattie Tyree and Miss Katie Meadow.

NEWS From Donley County Boys In The Service

The News Cannot Hope to Obtain Informa- tion of All Donley County Boys Without Your Help! Please mail or bring your news to the office.

Cpl. Thomas L. Holman, son of Mr. and Mrs. Pulmer E. Holman, Naylor route, Clarendon, has reported last week for a special course in tank mechanics in the Armored Force School at Fort Knox, Ky. Cpl. Holman is one of many technicians from armored divisions all over the country to be chosen for this training.

In the modern shops of the tank department, officers and enlisted men students study engines, power train suspension systems and the driving mechanism. They do their own trouble shooting and repair in a half-million dollar live engine text building.

Roland Hayes, son of Mrs. May B. Hayes of Clarendon, has returned to the United States from Africa and is hospitalized at Ft. Dix, New Jersey. Hayes received a broken leg during the African campaign.

Pfc. Ernest Kent, M. P., has returned to the United States from Africa. Pfc. Kent sailed from the United States in April.

Following is a letter from Pfc. Clyde Putman, son of Mr. and Mrs. M. L. Putman of Clarendon, to his mother on Mother's day. Pfc. Putman may be overseas as he has an APO address.

Dear Mother:
Dear mother, I wish you a very happy mother's day greeting, although I cannot be with you, I am always thinking of my dear mother, for I know she is always thinking of her son, even though he is far away. It is a nice day and we had a nice dinner. I hope we have a nice supper as I am getting hungry as usual. Ha! I am beginning to think I have become a chow hound. Ha! I have written two letters so far. Tedd the kids that I'll try to write them a letter sometime soon. Even though I am not working hard but have to stay busy, and don't have much time to write. You can let them read your letters if they don't hear from me. Also write Wilma and Edna as I lost Edna's address and tell them to write me often. Well, I will close for this time and write again in a few days.
Good night and sweet dreams to all. Tell everyone hello for me.
Your loving son, lots of love, SKINNIE.

From Pfc. Albert H. Whitsell, Camp McCoy, Wisconsin, son of Mrs. A. L. Whitsell of Clarendon, comes the following poem which should be enjoyed by soldiers. Pfc. Whitsell, now 22 years old, has been in service almost three years.

ODE TO THE INFANTRY
I sit here thinking of the things I left behind,
And I'd hate to put on paper what is running through my mind.
We dug a million foxholes and cleared ten miles of ground,
And a meaner place this side of Hell, I know is still unfound.
But we've got on consolation; gather closely while I tell:
When we die we're bound for Heaven, for we've done our stretch in Hell.

We've built a hundred kitchens for the cooks to heat our rations,
We've laid a million miles of wire cleaned up camp latrines,
We've rolled a million blanket rolls and washed a million duds;
We've washed a million mess kits and peeled a million spuds.
The number of inspections stood, would sure be hard to tell,
But we'll parade in Heaven, for we've done our hitch in Hell.

We've made a thousand different bunkers and laid on many rocks;
And bulldozed a million stubs and turned out our army sox;
We've rode a million miles and made a thousand camps,
And shook a million scorpions from our army pants;

But when our work on earth is done, our friends will proudly tell,
"When they died, they went to Heaven, for they've done their hitch in Hell."
When final taps are sounded and we lay aside life's cares,
And we do our last parade up the shining golden stairs,
And the angels bid us welcome and their chaps begin to play,
We'll draw a million canteen checks and spend them all in one day.
It is then we'll hear Saint Peter tell us loudly, with a yell
"Take the front seat, Soldier, you've done your stretch in Hell."

H. Waldron Melton, son of Mr. and Mrs. Henry Melton of Hereford, is visiting in Clarendon.

CHURCH NEWS AND COMMENT

By J. O. QUATTLEBAUM, JR.

Recognition given the churches by the government in the war activities, is encouraging to those who believe in looking after the spiritual interest of our men. It is especially encouraging to the parents of boys in the service. The government has set up proper machinery composed of leading churchmen to select the Chaplains. Each church is asked for a quota. The qualifications are such that, we believe, excellent ministers are being chosen. Many more men would volunteer if they could meet these qualifications, of age, physical, educational, and experience. Often all but one of these can be met but a defect in one other will disqualify. Equally encouraging, is the reports that come from the camps and battle fronts, that these chaplains are popular with the men and that they appreciate the church services. The chaplains are often of great help in personal counseling, and assistance in time of trouble. They often aid the men in making contacts with relatives, where the Red Cross is not available. The leaders of the churches locally are planning a full summer's work. No let down or relaxation seems to be the slogan. Some are yet to hold their revivals. Why should a slump come at any time when the world is in such peril? If the churches are worth what is believed about them, now is the time to speed up the work.

FIRST CHRISTIAN MISSIONARY SOCIETY MEETS
The Christian Missionary Society met Monday afternoon in the home of Mrs. C. T. McClenny.

The annual election of officers was held with Mrs. Ament, re-elected as president; Mrs. G. D. Shelley vice president; and Mrs. Ray Clamplitt, Secretary-Treasurer.

The year-book committee was appointed and the books were ordered for another year. The society voted to send the missionary offering made in the last quarter, which was eighteen dollars, to Old Mexico.
After the business session a program followed led by Mrs. Joe Humphries. Mrs. Rooster Cobus led the group in the hidden answer discussion and Rev. Ament was the guest speaker of the afternoon.

following his discharge from the navy for a knee injury received in boot camp.
Melton was training in a fire control school at San Diego, California, when he was injured. He is a former Clarendon high school football star.

Capt. J. H. Green of Camp Cooke, Cal., is visiting this week with Mr. and Mrs. J. C. Heathington. Capt. Green is in the Armored Division. He was rear by the Heathingtons.
Pvt. Alvin R. Robertson, LAAF (Lubbock army air field) is here on furlough. He is spending his time with his mother, Mrs. Jim Robertson.

Pvt. Ray P. Pitmann of the AAF instructors school (instrument pilot) Bryan, Texas has been visiting his mother, Mrs. A. Pitmann of Martin.
Pvt. Lloyd W. Johnson, son of Mr. and Mrs. Frank Johnson, is now stationed at Ft. Francis E. Warren at Cheyenne, Wyoming. Pvt. Johnson is in the quartermaster school.

Former Donley county sheriff, Lt. Guy Pierce is serving as assistant provost marshal at New Orleans, La.
Auxiliary D'Laurel Beville has been transferred to the general operations office, WAAC Detachment Station, Camp Kilmer, N. J.

Cpl. James Eugene Bell of the Laughlin Army Air Field, Del Rio, Texas, arrived Wednesday to spend his furlough with his parents, Mr. and Mrs. S. C. Bell.
(Located in North Africa)
Letter from Woodley Richerson to—
Ruth M. Richerson.

Enjoying the country other than the people who are very peculiar. We have been guarding Nazi and Italian prisoners several and Italian prisoners several days. Some are in pretty bad shape physically but still have the faith that they are still going to win the war.
On his way over he didn't get sea sick, of which he was very thankful.

Men and Women of U. S. Services Show Proper Way to Display Flag

1. Yeoman Elaine B. Ivarsen of Baltimore, Md., here indicates the proper method for displaying the Stars and Stripes when it is used with another flag against a wall. The United States flag should be at the observer's left, and its staff in front of the other flag.

The United States Flag Association is asking Americans to buy \$100,000,000 worth of War Bonds more during Flag Week, June 8-14.

2. Sergeant Caroline York, of the Women's Army Auxiliary Corps, of Meridian, Texas, and a cousin of the famed Alvin C. York of World War I, is standing beside a group of flags representing our sister republics. In a group the United States flag should be placed at the center or at the highest point.

"Save-By-Sacrifice" is the slogan for "Flag Week," June 8-14, this year. Place your savings in War Bonds, is the appeal of the United States Flag Association.

3. Lt. Kathleen Hogan, United States Marines, of Stamford, Connecticut, demonstrates the proper display of the United States flag when used horizontally against a wall or in a show window. The blue field should be uppermost and at the left of the observer.
This year the United States Flag Association is asking for self-sacrifice instead of

cheers and the purchase of more War Bonds instead of personal comforts.
4. Corporal Michael Sirianni, Headquarters Squadron, of Philadelphia, shows the proper method of holding the United States flag, exercising care to prevent its touching the ground or trailing in the water.

Our service men and women are offering their all to assure Victory. During Flag Week the United States Flag Association is asking only that the home front invest an additional \$100,000,000 in War Bonds.
5. Spar Genevieve Fraleigh, Coast Guard Headquarters, of Shreveport, Louisiana, here demonstrates the proper display of the flag when flown from a staff with the blue field uppermost and to the observer's left.

If every adult in the United States buys \$1.00 worth more of War Bonds or Stamps during Flag Week, June 8-14, the United States Flag Association will reach its goal of \$100,000,000 in added War Bond Sales.
6. Yeoman George Giannittorio of the Navy, Alexandria, Virginia, shows the correct manner for displaying the flag from a staff projecting horizontally or at an angle from a window-sill, balcony or front of a building.

George Chamberlain who has been visiting his parents, Mr. and Mrs. F. E. Chamberlain returned to camp last Friday morning. His wife is remaining here for awhile.

Lewis Chamberlain has returned home after visiting Ray Robbins in Canyon, Texas.

A Word To The White People About The Negroes

EDITOR'S NOTE: The following article was written by W. M. B. Carrington, Brownwood, Texas, and is printed here for its timely interest in the racial situation, Carrington, speaking for a majority of his race, explodes the theory now held by many, that all negroes wish to be the equal of whites.

By W. M. B. CARRINGTON
Colored Western Missionary

It is a very pleasant duty for me to express my appreciation to the kindly white people in this community for the helpful favors that you show to my people here among you, I am hoping that my race everywhere can reach the point where they can more and more realize that the southern white people are our best friends.

Of course my people are yet but a child race in this Great American civilization and don't know the best things for our future welfare. For that very reason I am traveling over this section conducting Bible institutes and interracial religious good will meetings to help to educate up to the point where they will become more race conscious and better understand our economic condition and realize that every crust of bread that we break is only at the hands of some white person. I am sorry that there ever was a breach between the Southern white people and my race, but some designing white men from the North took advantage of my ignorant people during the civil war and the days of reconstruction and filled their minds with false dreams, after freedom was declared, placing them into offices once held by Southern white men; not because of the love nor sympathy they had for us but to intimidate our Southern white people who bought the Negro from the North. As we know, the North could not use us as Slaves up there because we could not stand that cold climate, so to get some profit from the Negro sold him to the South and put the money in their pockets. When they saw that the South was making better progress than the North they sought to deprive the South of the Negro's slave labor to hinder the progress of the South, and not for any love nor sympathy they had for us.

They were not fair with the South although many things may have entered into the discussion but the North was unfair because they were unwilling to give the South's money back

which she had paid to the North for the Negro. It was from a selfish standpoint that caused that civil war and after destroying the South almost then to try to use the poor ignorant colored freed man to humiliate Southern whites caused the breach between us and I am sorry that I am yet scorned for that. Those old colored people who were led wrong were led by the white men. They had been taught to respect all white people and naturally they believed in any white man who seemed to show the least unselfish interest in them and I am appealing to our white Christian people to help us to find ourselves.

I am not asking for the cruel hand of the law to crush us, for some wrong but for Christian people's helpful guidance and God will bless you.

TEXAS RUBBER PLANT ALMOST COMPLETED

AKRON, O. — One of Texas' largest synthetic rubber plants operated by a single company is nearly complete and ready for production, officials of the Good-year Tire & Rubber company disclosed today.

It is the 60,000-ton plant at Houston, adjacent to the Sinclair Refining company's big, new butadiene plant. The Houston plant is expected to start turning out Buna-S type synthetic rubber for tires and other military uses about Aug. 1.

Built with war-emergency funds provided by the Defense Plant corporation, the Houston synthetic rubber plant will be operated for the war's duration.

The Houston plant will be one of the first government plants to be completed under a standardized formula which permits maximum economies in construction materials.

The Houston plant, like the others currently under construction, will turn their product in 75 pound blocks. The first government synthetic rubber plants turned out their product in slabs and in blocks. Now the slabbing will be done in the rubber mills exclusively like Goodyear's in Akron.

In the Houston plant, the synthetic rubber will leave the driers on conveyors which will carry it directly to four automatic compressing machines in each unit to produce the syn-

shirts. She was assisted by Mrs. G. R. Grant and Mrs. Bill Crawford.

Miss Maurice Berry made 200 button holes for the men's pajamas and night shirts.

The following ladies gave a morning and afternoon helping to size and pack garments for our June shipment: Mrs. Victor Smith, Mrs. Frank Hutchins, Mrs. Rolfe Brumley, Mrs. Tom Goldston, Mrs. Pete Koontz, Mrs. Floyd Lumpkin, Mrs. Geo. Norwood, Mrs. Alan Jefferies and Miss Edna Mae Mongol. We will be able to give the number of garments sent in this shipment in our column next week.

Used clothing was donated to the Red Cross by Mrs. Marguerite Goodner and Mrs. Tom Bugbee.

HOME SERVICE

Mrs. C. A. Burton

A recent release by Red Cross gives regulations regarding the wearing of uniform after discharge. After a man has been honorably discharged from service wearing of the uniform is permissible under only two circumstances: when the man is traveling to his home from place of discharge, within three months after date of discharge; or in case of a man who has served during war, upon occasions of ceremony, when the uniform of the highest grade held during war service may be worn.

New instructions have been issued simplifying procedure of sending small essential articles such as eye glasses, watches, fountain pens, insignia, publications, church bulletins and similar articles to army personnel at APO's overseas. In sending such items the requirement that there must be a request from the serviceman, approved by his commanding officer, is not applicable provided, The sealed parcel does not exceed 8 ounces in weight, and First Class postage is prepaid. An approved request is no longer required for renewal of subscriptions to newspapers and other second class matter publications for overseas personnel.

As the number of servicemen overseas increases, the use of V-mail is urged. It is given preference over other classes of postal matter, including air mail, except official air mail.

ASHTOLA NEWS

By HELEN RHOADES

There were 76 per cent at Sunday School and Church Sunday.

Mrs. Van Knox is home from the hospital, where she underwent an operation two weeks ago. Shirley Smith spent Saturday night with Laura Ruth Sagrome. John White was in Amarillo Friday.

Laura Mae Harp of Amarillo spent the week end with her parents.

Ila K Rhoades of Amarillo, Mr. and Mrs. Skeet Brown and family of Memphis, and Mr. and Mrs. Hubert Rhoades visited their parents, Mr. and Mrs. Austin Rhoades Saturday.

The young people of the community enjoyed a weiner roast in the city ypark Saturday night.

Old-Age and Survivors Insurance is not based on the amount of taxes paid by the worker and his employer. Benefits are figured entirely on the amount of wages credited to the wage earner's social security account.

thetic rubber blocks to be baled for shipment.

Pipe lines direct from the Sinclair refinery will supply butadiene for the Houston plant while styrene will come from the Dow Chemical company plant at Belasco, Texas, and from the Monsanto Chemical Company at Texas City, Texas.

The Houston and Baytown synthetic rubber plants are part of a synthetic rubber construction program in Texas which, when it is completed this fall, will make Texas the leading synthetic rubber-producing state in the nation.

The government investment represented by these synthetic rubber plants, together with their auxiliary butadiene facilities and increased styrene production, will total more than a half a billion dollars and enable Texas to supply more than a quarter of a million tons of synthetic rubber yearly.

Into the Houston plant, it is estimated, will go about \$11,000,000 while the Baytown plant will cost approximately half as much.

Fry Your Home Town First "You've Done Your Bit Now Do Your Best"

DURING the first year of our toughest war, We—Trained a lot of men—made a lot of fighting tools—built a lot of shipping.

And to help pay for it all, we bought War Bonds. Altogether, 50 millions of us bought War Bonds. And nearly 30 millions of us started putting, on the average, 10 percent of our pay into War Bonds every payday through the Payroll Savings Plan.

That was a good start. But, it was ONLY a start. What we did in '42 is not enough for '43!

We've got to do more fighting this year. We've got to do more building, more training, more shipping—and more saving.

We've got to buy MORE War Bonds.

SOLDIER'S KITS

Ashtola has completed and turned in 50 kits made by the following ladies: Mrs. H. S. Mahaffey, Mrs. F. M. Watkins, Mrs. Watt Hardin, Mrs. M. H. Rhoades, Mrs. J. R. Brandon, Mrs. C. G. Cobbs, Mrs. Austin Rhoades, Mrs. Chas. Harp, Mrs. W. P. Holley, Mary Swinburne, Mrs. Hubert Rhoades, Mrs. J. M. Graham, and Miss Jessie Cook.

Ashtola has taken 50 more to make, and these ladies are meeting once a month to do Red Cross work. We want to thank Mrs. J. R. Brandon for her help in collecting \$24 from the Ashtola community for the kits. Donations were received from the following: Mrs. H. S. Mahaffey, Mrs. M. H. Rhoades, Mrs. S. C. Evans, Mrs. C. G. Cobbs, Mrs. Watt Hardin, Mrs. J. R. Brandon, Mrs. Chas. Harp, Mrs. Lu McClellan, Mrs. Hubert Rhoades, Mrs. W. P. Holley, Mrs. Mary Swinburne, Mrs. Joe Bownds, Mrs. N. L. Jones, Mrs. J. M. Graham, Mrs. M. R. Word, Mrs. G. G. Henson, Mrs. F. M. Brown, Dr. M. H. Rhoades, Mrs. Selden Bagby and the Ashtola Needle Club.

Mrs. Doss Palmer has taken 41 more kits for Mrs. Burton's Sunday School Class. This is a total of 66 kits that this class is to make.

Other donations for the Soldier's Kits given by Mrs. S. T. Sayer and two others in memory of Mrs. C. W. Bennett.

SEWING

Two quilts were turned in last week, one from the Goldston community and the other made by Mrs. L. O. Jacobs.

Mrs. Doss Palmer turned in 15 shirts made by Mrs. W. E. Riney, Mrs. Bill Bromley, Mrs. Oller, Mrs. Alfred Estlack, Mrs. Forrest Sawyer, Mrs. Regan Bain, Mrs. Bob Hay, Mrs. Bob Head. These ladies belong to Mrs. Burton's Sunday School Class of the Baptist Church.

Mrs. J. F. Elmore helped to make button holes for 21 men's

Dear Mom:

Today I bagged a Jap plane with your kitchen fats--

The South Pacific

Dear Mom:

Today I knocked off a Zero with your kitchen fats. Hard to believe, but it's true. The grease you save and turn in goes to make gunpowder for our guns.

Keep it up, Mom. We can use plenty ammunition out here. Your waste fats make glycerine and glycerine makes powder for airplane cannons. Get the neighbors to help, too. You tell 'em what to do. Save at least a tablespoonful of fat every day. Pour it into a can, and as soon as it's full, rush it to the butcher. In less than three weeks it'll be made into gunpowder for us. So tell them to step on it, will you, Mom? We need it.

Love,
Joe

BRING YOUR WASTE KITCHEN FATS TO US.

WEST TEXAS UTILITIES

Woman-Power!

"By pushing a button, She's good as a MAN!"

She: And what do you mean, Reddy Kilowatt—"Good as a man?"

Reddy: No offense, lady! Just this: 5 feet 1 from your 4A slippers to your spun-gold hair. You love flower-hats, veils, smooth orchestras—and, maybe, being kissed by a boy now in North Africa. But, man, oh man, how you can handle that big and heavy press!

She: What's strange about that?

Reddy: How can 110 pounds of beauty boss 147,000 pounds of steel? Is it magic?

She: Oh, no, dummy! It's simple. Electricity does the heavy work. Push a button... or flick a switch... or pull a lever. I learned to do that at home... long before the war. Electricity makes it possible for women to do men's work—

Reddy: Then the secret of our great war production is electric power plus woman-power—

She: Certainly. Women are able to work beside men, or replace them, on America's roaring production lines because they learned to use electric service in the home. Call it magic if you like. But to me it's just good old common horse-sense!

... ..

The West Texas Utilities is helping make America power-full... helping provide this country with the world's greatest supply of electric power... power that enables women to do a man's work just as it has eliminated household drudgery and hard labor from the average West Texas home.

And more and more women are helping us give you the same good, dependable service you got before the war... and at the same low cost and without rationing.

Sixty-seven per cent more women were on our payroll June 1 than in 1940. The continued efficiency and dependability of Electric Service is in no small measure a tribute to woman-power.

PRODUCTION OF VEGETABLES MAY REACH NEW HIGH

COLLEGE STATION— Human effort and favorable weather conditions are working together to bring about an all-time high in vegetable food production in Texas.

CATTLE TRAP WILL SAVE COWBOYS EXTRA WORK

COLLEGE STATION June 8— Necessity jugged the elbow of a county agricultural agent and a cattle trap plan took form.

Brown describes the make-up of the device, which is designed to save labor in corralling wild cattle, thus: Two posts or pieces of pipe ten to twelve feet long are set up about 10 feet apart and about eight feet inside the gate of the catch-pen of water lot.

Until the stock becomes accustomed to passing through trap, the suspended wires should be moved to the outer ends of the crossbar in order to hold the panels well open.

In view of the shortage of cowboys, Brown believes that this method of training would be a great labor saver, especially on ranches which have large brushy pastures.

Not every worker who dies is covered by the Federal Old-Age and Survivors Insurance law, even though taxes have been deducted from his wages and taxes have been paid by his employer.

state shipments at any time of the year. Tomato plantings were made on a large scale with the idea of having a sufficient supply for daily use and a surplus for canning.

An equally large increase in green corn planting, and cream and blackeye peas was made. Harvesting and processing of these vegetables are under way.

Timely rainfall throughout the sweet potato producing section enabled growers to expand planting from vine cuttings. High priced potato slips thus were multiplied without additional cost.

MORE PRESSURE COOKERS TO BE RELEASED

COLLEGE STATION — Additional pressure cookers plus specific dollars and cents ceiling prices on this year's models have been announced by the Texas USDA war board.

The new quota of 125,000 pressure cookers brings this year's projected production to 275,000, which exceeds the output of any previous year.

Each cooker sold under the dollars and cents ceiling will carry a 90-day guarantee, Vance said, and added that application should be made to OPA for a specific maximum price for canners not carrying the guarantee.

On the basis of reports from manufacturers, approximately 31,000 of the original 150,000 pressure cookers were distributed to retailers by June 1.

Applications to purchase pressure cookers must be filed with eligibility of applicants to purchase new cookers is based on probable output of canned food from the cooker this year.

SIMPLE METHODS TO CONTROL TREE INSECTS TOLD

COLLEGE STATION — Red spider and cedar bagworms, which damage or destroy arborvitae, and cypress, may be controlled by simple methods, according to Sadie Hatfield, of the A. & M. College.

Red spider, a microscopic creature which can be seen only with a magnifier, causes the leaves of many plants, including arborvitae and cedar, to start drying and dying at the center of the plant.

When bagworms hatch, infested plants should be sprayed with a mixture of two to three level teaspoonful of lead arsenate to one gallon of water. See that the spray reaches all parts of the plants. As the pest becomes older it seems to develop resistance to poison, and therefore harder to control.

I GIVE YOU TEXAS by BOYCE HOUSE

Texas has many large and medium size cities — but there was a time when the third best "one-night show town" in the state was a place with only 6,000 inhabitants — Eastland.

The first big road show to play at the Connellee was "Up in the Clouds" — and your columnist saw the attraction from the very top row in the gallery — that was almost being "up in the clouds!"

Stars whose names were famous a generation ago trod the boards of the Eastland playhouse, Margaret Anglin appeared in "The Woman of Bronze" — Willie and Eugene Howard — (they are still Broadway favorites) — headed a big musical revue, Raymond Hitchcock, one of the great comedians of all time, brought "Hitchy-Koo."

He had attended the Rotary luncheon at noon, and then that night he stood in front of the stage as the audience was filling in and greeted the mayor and other leading citizens by name. They were flattered of course, and the crowd applauded. Afterward, it was learned that the secretary of the club was seated only a foot from Hitchy and murmured the names as the celebrities entered!

The biggest rival of Ziegfeld's Follies came to town — the New York Winter Garden's Passing show and that afternoon the bankers and oil men loaded the 50 lovely chorus girls in automobiles and took them for a tour of the oil field.

Capacity audiences thrilled to the melodies of "Blossom Time," laughed at Lasses White's minstrel and chilled at such mysteries as "The Bat" and "The Cat and the Canary."

Scenery, costumes and companies of these road shows were the same as were seen in such metropolises as St. Louis, New Orleans and San Francisco. The size of the stage and its equipment were such that elaborate lighting effects were possible. Broadway was brought into the land of desert

People, Spots In The News

TOUGH—Two soldiers inspect airplane safety glass after machine gun test. Armor-piercing bullets failed to go through glass which has been developed by Libbey-Owens-Ford for use in bombers and fighting planes.

JUNGLE FIGHTERS—Yankee "bushmasters" U.S. troops protect Panama Canal area, are shown dabbing their faces with thick oozes of mudhole as camouflage before starting out on patrol.

When a woman worker gets married one of the first things she should do is to have her name changed on her social security account number. This will be done by any Social Security Board field office without charge.

Shine Phillips of Big Spring, druggist-author of the humorous and successful book, "Big Spring," sends one of the letter-heads of George McIntire of Sterling City, it reads:

"U Ranch" — established in 1876 by D. H. Earnest and W. J. Holland. "Weather Forecast by Uncle Bill Kellis: "Today, Fair, dry and windy. "Tomorrow, Fair, windy and drier. Sunday will be a clear, dry day.
