## Fat Stock Show To Be Held Thursday, Feb. 27th

### J. D. SWIFT NAMED AS PRESIDENT OF ORGANIZATION

#### DIRECTORS MEET AND FURTHER PLANS FOR ANNUAL EVENT

Directors of the Donley County Fat Stock Show met in the County Agent's office here last Friday, selected the date for the 1941 showing and named officers and committees for the ensuing year.

The Fat Stock Show will be held on Thursday, Feb. 27, which is the last Thursday preceding the Amarillo Fat Stock Show. A premium list of \$218 was voted. This list is the same as that used in the 1940 show.

J. D. Swift was named president of the organization, Carroll Lewis, vice president and Verna Lusk, secretary treasurer.

Selected on the finance committee to start work at once for raising funds for expense and premium money were Allen Bryan, chairman, Bert Smith, Odos Caraway, Cap Morris, John Gillham, Alfred McMurtry, C. M. Breedlove, Verna Lusk, C. T. McMurtry and Clyde Gilbert.

The 1941 show is expected to reach a new high in calf and pig breeding for Donley County according to H. M. Breedlove, county agent.

Breedlove was instructed by the directors to contact K. J. Edwards to judge the beef cattle and E. N. Regenbrecht to judge the swine.

Committees named by the group to have charge of different divisions of the show are: Swine: Cap Morris, Elba Ballew and Bert Mayfield. Beef Cattle: Clyde Gilbert, Carroll Lewis and D. E. Leathers. Sheep: Joe Green and John Potter.

Those present at the meeting were Clyde Gilbert, R. W. Moore, Elba Ballew, Carroll Lewis, Bert Smith, Cap Morris, Odos Caraway, D. E. Leathers, Bert Mayfield, Allen Bryan, Alfred McMurtry, George Estlack, Verna Lusk, John Gillham and H. M. Breedlove.

### BRONCHO CAGERS BATTLE ASHTOLA HERE TONIGHT

Having won their first victory of the season at Lella Lake Monday night, the Clarendon Broncho Independents are prepared for a tough encounter with the Ashtola high school cagers here tonight, beginning at 7:30 o'clock at the gymnasium.

There will be no admission charged and everyone is invited to watch the local boys try for their second win of the season.

Eugene Putman scored 21 points in Monday's night game to lead the Clarendon basketball team to a 35-21 victory over Lella Lake.

The Bronchos took the lead early and maintained it throughout the contest, leading at the halfway period by about eight points.

Starters for Clarendon were Putman, Tooter Johnson, Bailey, Hartzog and James.

The Clarendon team is an independent school team composed of students of both high school and junior college.

### CLARENDON LIONS ATTEND SILVERTON MEETING WEDNESDAY NIGHT

Led by President Ralph Andis, a delegation of Clarendon Lions went to Silverton, Wednesday afternoon to attend a meeting last night of Lions from the clubs in Group 3 of this district. Others in the company were Lions Verna Lusk, McHenry Lane, L. B. Penick, and Marvin Warren. Clubs in Group 3 are Floydada, Paducah, Matador, Silverton, Turkey, Childress and Clarendon.

Returning late last night the Clarendon boys report a good attendance and an interesting program. The next quarterly meeting of the Group will be held in Turkey.

### EARLY RISER CLAIMS WILD GAME ROAM MAIN STREET

You can see almost any kind of wild game roaming Clarendon's Main Street, providing you are an early riser.

Frank Whitlock, long time Clarendon resident who rises about 4:30 every morning, said that in the past few months enroute to work he had seen a coyote, a jack rabbit, pheasants, and prairie chickens on the city's main thoroughfare.

One day recently, Whitlock said that a large jack rabbit dashed right down the center of the street from one end of town to the other end.

### QUAIL SCHOOL WINS POULTRY JUDGING CONTEST AGAIN

SCORES 1001 POINTS OUT OF 1200 TO WIN; CLAUDE IS SECOND

For the second straight year, the Quail, Texas, boys ran off with first honors in the annual Green Belt poultry judging contest here last Saturday by scoring 1001 out of 1200 points. The Quail team bettered its 1940 record when it carried off first place by posting a total of 996 points.

Claude won second place with 983 points. Quitaque, Panhandle, Turkey and Memphis finished in order named.

Glen F. Ramsey of Quitaque finished first in individual honors by scoring 384 points out of a possible 400. Harold Thomas of Claude was second with 343 and G. Breeden of Quail placed third.

Poultry judging teams from over the Panhandle participated and Clarendon FFA members conducted the contests. Bobbie Harold Smith won the intra-mural contest with a total of 361 out of a possible 400 points for the best mark scored in either the intra-mural or inter-school judging event. C. C. Kirkland finished second and Redell Henson third in the second year class intra-mural event. Ray Pittman, O. A. Smith, Billy Jack Green, Roger Hester, and Ralph Morrow were the top five in the Greenhand or first year students contest.

### GILES SCHOOL BUS AND CAR COLLIDE AT HEDLEY

The Giles school bus was reported to have collided with another car in the east part of Hedley Monday morning. Sheriff Guy Wright said the accident was reported to him but that he was not called to investigate. He said that one girl was reported slightly hurt.

### Band Lovers Can Hear Favorites, From Sibelius To Sousa At Band Concert Here On Jan. 30th

One of the most interesting band programs ever to be heard in Clarendon will be presented by the Clarendon high school band on Thursday, Jan. 30, in the College Auditorium, according to Ray Robbins, bandmaster, who says his band is now composed of 55 members and has an excellent instrumentation.

The program will open with the famous "On the Mail", march by Edwin Franko Goldman. Following this famous march will be the "Crusaders Overture" by Buchtel. Next on the program is the number by the great Jean Sibelius, "Finlandia." Closing the first half of the program will be the ever popular "Star Dust," of Hoagy Carmichael.

Following a short intermission a brass sextet composed of John Burton King, Fred Lynn, Billy Jack Shelly, Victor Smith, Raymond Johnson and Jack Lackey will play, "Memories" by Stephen Foster.

### C. OF C. DINNER PROGRAM ALMOST COMPLETE

#### COMMITTEES BUSY ON ARRANGEMENTS—GOOD MENU PROMISED

Plans for the annual banquet of the Clarendon Chamber of Commerce are rapidly maturing this week, after a meeting of the program committee Tuesday afternoon at J. T. Patman's office.

Mr. Patman will have charge of contracting for the dinner and place of meeting, and a good menu is in prospect.

A constitutional order of business for the annual meeting includes the election of directors, four one year, and three the next. This is the year three places are to be filled, and a nominating committee consisting of Clyde J. Douglas, Isadore Mellinger and J. R. Gillham will bring in a list of six names from which the three will be selected by the members present at the banquet. Retiring directors are: J. R. Porter, Sam M. Braswell and Ralph Andis. Holdover members of the board are: Isadore Mellinger, C. J. Douglas, Homer McElvany and J. T. Patman.

According to custom, the retiring president, J. R. Porter, will be the toastmaster, and will make the welcome address. Response will be made by a prominent Panhandle civic leader, whose name is not announced, pending confirmation. A surprise entertainment feature is also being arranged.

Representatives from neighboring towns and cities will be the guests of the organization, and Wesley Izard, Amarillo news and radio commentator, will bring the annual address, as announced last week.

Tickets will be on sale a few days preceding the banquet, and the completed program will appear in next week's issue of The News.

### Gene Worley Given Assignments On 3 Committees

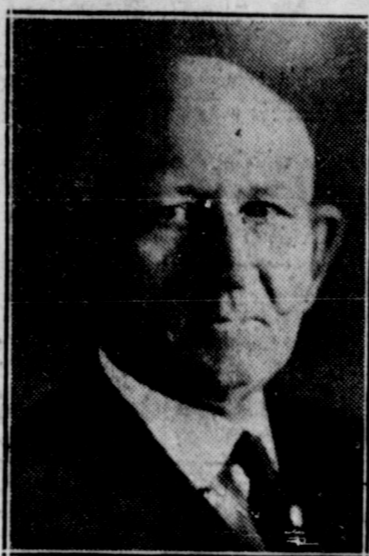

The Panhandle's new congressman, Gene Worley of Shamrock, has been given assignments on three congressional committees.

These are the labor committee, irrigation and reclamation committee, and the committee on coinage, weights, and measures.

While none of these is considered a major committee there is much work for the congressman to do on each. The labor committee probably is the most important of the three, although the irrigation and reclamation committee will take up matters of importance to the agricultural areas of the country.

Worley's predecessor, Marvin Jones, ended his career in congress as chairman of the agricultural committee.

### Re-Appointed

DR. B. L. JENKINS

### COUNTY OFFICIALS' SALARIES SET BY COUNTY COURT

#### DR. JENKINS RE-APPOINTED HEALTH OFFICER FOR DONLEY COUNTY

Salaries of the various county officials were set and Dr. B. L. Jenkins was re-appointed as Donley County health officer for two more years by the county court meeting here in regular session last Saturday.

The salary of the county-district clerk was set at \$900 besides fees of office, and the salary of the clerk's deputy was set at \$125 per month to be paid out of fees of office.

The commissioners voted to allow the sheriff to appoint a second deputy at a salary of \$125 per month from fees of office, and to allow the assessor-collector \$200 per month as expense money during the year, as advance fees, the same to be accounted for at the end of the year as other fees of office.

No changes were made in the salaries of other county officials.

### Durwood-Skelton Is Rushed To Mayo's By Airplane

Durwood Skelton was reported Wednesday morning as feeling better and resting fine at Rochester, Minnesota, where he was rushed by plane to Mayo's last week-end for treatment.

Skelton was put aboard a plane at Amarillo at 6 p. m., Friday and arrived in Kansas City a few hours later where he was given two hyps to relieve his suffering. He then boarded another plane for Des Moines where he changed again and arrived at the Rochester clinic at 4:30 p. m., Saturday.

The Mayo doctors began treatment at once and after examination said that no operation would be necessary.

### Marvin Jones Will Be Paid Tribute Friday Night

All the Panhandle will join in paying tribute to Judge Marvin Jones in Amarillo Friday night.

The banquet is scheduled at the Amarillo Hotel, to begin at 7:30 o'clock, and the former congressman's many, many friends will honor him at this time for his long service in representing the people of the Panhandle in Congress.

There will be no formal program. R. E. Underwood will be toastmaster. The price per plate of thick Panhandle steak will be \$1.25.

Mrs. B. Atterberry of Amarillo spent the week-end in Clarendon with Mrs. R. L. Biggers.

Dr. George T. Palmer attended a Conference Rally of Evangelism presided over by Bishop Ivan Lee Holt in Lubbock on Thursday and Friday of this week.

### COURT REFRAINS FROM ACTING ON HOSPITAL ISSUE

#### LOCAL DOCTORS HEARD AT SPECIAL MEETING OF COUNTY COURT

County commissioners, meeting in a called session Tuesday again refrained from taking action in regards to the financial operation of the Adair Hospital after a full discussion of the issue with local doctors.

Hoping to find some solution to put the hospital back on a sound financial basis and at the same time satisfy taxpayers, the county court invited the Clarendon doctors to participate in the so-called "get together" session. All four of the local doctors, Drs. B. L. Jenkins, Guy Stricklin, E. F. Hamm, and T. H. Ellis, were present, with the former taking the roll as spokesman.

On Jan. 1, the Adair Hospital ceased to function as a county institution, due to action taken by the county court on Dec. 10, at which time the court went on record not to be liable for debts incurred by the hospital after the first of the year.

Three of the four members of the court contend that a county taxpayer, brought to a county financed hospital, has the right to call and be treated by the doctor of his preference, according to the state statutes which say that "any reputable doctor can enter and practice in such a hospital maintained by taxpayer's monies."

On the other hand, the local doctors maintain that to admit any other doctor other than an M. D. would cause this hospital to lose its recognition by the American Medical Association, and eliminate the practice by resident M. D.'s and registered nurses.

After a full discussion of the issue, the court said it would take no action, but would continue to seek some way or means by which the hospital issue could be ironed out satisfactory to everyone.

The commissioners voted to allow R. L. Steedley, constable of precinct two, to appoint a deputy constable, to be paid from fees of office.

### TWO MEN CALLED FOR 4TH DRAFT

Two Donley County men will answer the fourth draft call Feb. 7 for induction into the United States army for one year under the selective service law.

J. H. Green and H. L. Riley are the two men to be sent to the Lubbock station on this date. Both men are volunteers.

Beside these two, the local draft board has nineteen other volunteers awaiting their turn to be called.

Donley's second draft call was answered last Tuesday by eight men. The third draft call was for negroes, but Donley County was skipped and so no colored men were called.

### JESSE CORNELL WINS FOOTBALL LETTER AT CANYON

CANYON — Jesse Cornell of Clarendon, a junior, has been granted a letter in football at West Texas State College, contingent upon maintaining a satisfactory scholastic standing during the first semester.

This honor was announced at the annual banquet last week. The Buffalo squad received a big silver trophy emblematic of the Alamo conference football championship in 1940.

Cornell traveled and played with the Buffaloes last season in games as far away as Fresno, Calif. Losing only eight of 27 lettermen next season, the West Texas State eleven will be a powerful outfit next season, with a schedule covering thousands of miles.

Mrs. J. O. Quattlebaum returned Monday from a week's visit with her daughter, Mrs. Dale Nix, in Canadian.

### District 3-A Adopts AA Grid Ruling Which Decides Tied Conference Tilts On Penetrations, Yardage and Downs

Football representatives of District 3-A met here Wednesday

and named John L. Beard of Wellington as chairman of the district committee and voted to adopt the AA grid ruling which decides all conference games ending in ties by penetrations, yardage, and first downs.

Beard replaces H. T. Burton of Clarendon as head of the committee, the latter being named as committee member. The third member of the body is F. L. Mize of Lefors while J. L. Gilmore of Wheeler and C. A. Cryer of McLean were chosen as alternates. John Williams, Wellington coach, was named secretary-treasurer.

The 1941 league schedules will be the same as that of 1940, according to the coaches who agreed to schedule games with their conference opponents on the same dates this year as they did last year.

The group also voted that players' birth certificates and early documentary evidence pertaining to birth must be presented to the district committee, and called a meeting for the first week in September to decide the eligibility of players.

It was decided here also to end the district season on Nov.

21, instead of Nov. 15.

The meeting was attended by representatives of all the towns in the district, namely, W. C. Perkins, superintendent, and Forrest Kline, coach, of Shamrock; W. C. Davis, superintendent, and C. E. Headstream, coach, of Memphis; F. L. Mize, superintendent of Lefors; John Beard, superintendent, and John Williams, coach, of Wellington; J. L. Gilmore, superintendent, and Bill Horchem, coach, of Wheeler; W. V. Swinburn, superintendent, and O. H. Newton, coach, of Lakeview; George Colebank, superintendent, and "Crickett" Christian, coach, of McLean; H. T. Burton, superintendent, and O. C. Warden, coach, Clarendon.

The Bronchos will open their 1941 season on Sept. 20 at Claude, and will play their first conference game with Lefors here on Sept. 26.

Clarendon's tentative schedule is as follows: Sept. 12—Open Sept. 19—Claude, there Sept. 26—Lefors, here Oct. 3—Wheeler, here Oct. 10—Shamrock, there Oct. 17—Open Oct. 24—Wellington, there Oct. 31—Lakeview, here Nov. 7—Memphis, here Nov. 14—McLean, there

### NYA Girl's Home Report Made To County Court

County commissioners, convening in a called session Tuesday heard a report on the Clarendon NYA girls' home by Miss Joyce Burleson, supervisor.

Miss Burleson reported that since the establishment of the home here about two years ago, 130 girls have made their home here, 21 of these being from Donley County. She said that out of these 130 girls, twelve had married here and were now residing in Donley County. The home supervisor added that four more Donley County girls would soon be admitted to the NYA home.

Miss Burleson said the government's part in maintaining the home was \$7,000 per year for salaries, groceries, etc.

Both county and city contribute to the maintenance, the former paying \$10 per month and furnishing lights and gas, and the latter paying \$10 per month and water.

### School Lunch Room Project Continues To Be Successful

The Clarendon school lunch room project continues to operate successfully and a report made by McHenry Lane, junior high principal, shows that a total of 2715 individual meals have been served in 46 school days between Nov. 1 and Jan. 11.

To date, community spirit and cooperation has been 100 per cent perfect, according to Mrs. Gladys Power, supervisor in charge. Donations to the lunch room have totalled \$25 in cash, in addition to dozens of items such as dishes, silver, and kitchen supplies. At the present time, the proceeds from the sale of paid lunches are sufficient to purchase all necessary supplies and foods.

Foods received to date from the government surplus commodities are of 20 different commodities including 3250 pounds of foods, 650 cans evaporated milk and 225 dozen eggs.

Of government surplus commodities each child has had daily 1.2 pound of food, one egg, and .24 can of evaporated milk (used in cocoa). Of local money expended, each child has had daily 5 cents per meal.

The local money expended since operation began totals \$139.50.

Four workers are employed in the lunch room and all lunch room projects in the county are under the supervision of Mrs. Gladys Power.

### JOHN M. STEPHENS SERVICES HELD ON WEDNESDAY

Funeral services were held here Wednesday afternoon for John Morgan Stephens, 68, former Clarendon grocery owner who died in the Baylor hospital in Dallas on Tuesday.

The services were conducted by the Rev. J. Perry King at the First Baptist Church at 3 p. m., with burial in the Citizens Cemetery.

Pallbearers were Walter Taylor, Ed Duncan, Frank Whitlock, Jim Hedrick, Tom Connally and Leck Goldston.

Stephens was survived by his wife, and daughter, one brother, two sisters, and six grandsons.

He was born Sept. 10, 1872 in Cleburn County Alabama, and moved to McClennan County, Texas in 1901. Later he moved to Haskell County for a short period, then to Childress County for five years and to Donley County in 1913 where he remained until the spring of 1940, moving to Corpus Christi.

Stephens was engaged in the grocery business here for a number of years.

### School Officials Hear L. A. Woods At Estelline

Supt. of Schools H. T. Burton, Miss Ruth Richerson, county school superintendent, and two deputy state school officials heard L. A. Woods, state superintendent of schools, speak at Estelline Friday on national defense and democracy.

The two local school officials, Anthony Hunt, deputy superintendent of the Childress district, and W. T. Lofland, deputy superintendent of the district one, visited and inspected the school system at Quail enroute to Estelline.

The two deputy state superintendents visited and checked the city school systems at Hedley, Lella Lake and Clarendon earlier in the day.

### GIRLS SEEKING NYA EMPLOYMENT TO BE GIVEN INTERVIEWS

Donley County girls between the ages of 15 and 24 who wish to apply for NYA employment can do so next Tuesday, from 1 p. m. until five.

Miss Joyce Burleson, supervisor of the NYA home here, said today that she would interview girls seeking NYA employment at the NYA house during the above stated hours.

## TASKS AHEAD FOR CLARENDON IN 1941

With the approach of the annual banquet for the Clarendon chamber of commerce, we are reminded that there are a number of very definite tasks ahead for the organization in 1941.

After organization following the election of directors at the banquet one of the first items to demand attention is the setting up of the machinery for the Annual Fourth of July Celebration. The high mark of success attained last year, brings a job of unusual difficulties for 1941, therefore no time should be lost in getting the wheels rolling.

Then, under rapidly changing national conditions, there are many problems in our community situation that should have early and careful attention and action.

Every good citizen should begin to do some constructive thinking and planning for Clarendon and Donley. Open discussion should bring an enlarged and renewed unity of action so productive in past years.

## PALODURO PARK SITUATION CRITICAL

There is a growing unrest and dissatisfaction over the Panhandle in the failure of the state parks board to give the Paloduro State Park its effective promotion and aid. This unrest is making itself manifest in a movement to do something about the situation, and do it promptly.

Several years ago many here in the Panhandle thought the best procedure was to get a bill through the legislature authorizing the setting up of a separate board for the Paloduro Park. Senator Small wrote such a bill, but on the basis of certain promises it was finally held out of the legislative hopper in the hopes of getting something helpful accomplished through the state parks board.

The Paloduro Park holds vast possibilities as the greatest tourist attraction in all our area. It deserves the united backing of all the Panhandle territory, for it is a Panhandle asset of general benefit.

Something should be done in 1941 to make secure and operative the spectacular attractions of Paloduro State Park.

## RACE TRACK BETTING AND LIQUOR

Unlimited financial backing and a powerful lobby is at work in Austin to legalize race track betting, and to bring back liquor by the drink in Texas. Thus the morals of our state are under continued attack from these twin evils of greed and debauchery.

With many new members in the senate and house, it is a little early to predict the outcome of this renewed attack, but there is hope that firm pressure from the clean citizenship in every district will warn legislators that the people will not stand for any letting down of the bars in the matter of the liquor traffic, or organized betting.

The fact is the beer and whiskey people have overstepped, as they always have done, and it is more than likely further restrictions will be imposed on their lawless operations. There is a determined movement

## THE NEW HOUSEKEEPER

to see that effective restrictions be put on the prescription liquor farce now legally practiced in Texas.

We need less gambling of all kinds, to the tune of less guzzling of alcoholic beverages in all parts of this state, if we are to prosper and do our part as Americans in this era of national crisis.

## CAPITALISM AND DEMOCRACY AT WORK

Trend of this country's minority public opinion against our economic system was scored heavily by A. P. Giannini, founder of the Bank of America and now its chairman, in an address to stockholders during celebration at San Francisco Friday last week of the 36th anniversary of the institution.

Discussing the tirade against capitalistic systems, Mr. Giannini presented what we believe to be one of the clearest cut arguments for the system that we have heard. Said he:

"Business must have capital. What is capital? Savings. Whose savings? The people's, yours, your friends, your neighbors'.

"Everyone who saves something from his earnings and puts that money to work, or has it put to work for him, is a capitalist.

"That's the American way, the way in which America has been built. Capitalism is democracy—at work."—Commercial West, Minneapolis, Minn.

The President's extraordinary "State of the Nation" speech to the new Congress was received with mixed emotions. The majority of larger newspapers, which are pro-British in policy, approved it with some reservations. So did most of the leading commentators. However, in Congress there was criticism to the effect that the President did not give enough particulars — and that it looked as if he intended to put this country deeper into European affairs than it had ever been before. At the same time, surveys indicate that the President's proposal to lend Britain arms and other implements of war, which she is supposed to repay in kind or its equivalent at the end of hostilities, will eventually go through. The non-interventionist bloc, however, of which Senator Wheeler is now leader, says that it intends to fight the President's program to the last ditch.

The President firmly fixed this country's foreign policy. According to him, that policy has three facets: First, we are committed to an all-inclusive national defense. Second, we are committed to support all nations which are resisting aggression and, in the President's words, "thereby keeping war from our hemisphere." Third, we will never acquiesce in a peace "dictated by aggressors and sponsored by appeasers." The President stressed his opinion that this policy is completely non-Partisan, and represents the will of the majority of the people, whatever their political affiliations.

It is obviously the Administration belief that it would be impossible for this country to live in the same world with Hitler, and at the same time maintain democratic processes and principles. As he has said on several occasions, there would be no peace—there would be only an armed truce, which would inevitably result in a ruinous armament race and the establishment of a permanent military economy for us, no less than for the Axis. There are many who disagree with this doctrine, but, so far as legislative influence is concerned, they seem to be a minority now.

It is probable that the President's speech, coupled with his "fireside chat" of a week before, was the strongest talk ever given by the head of a great nation to the heads of other great nations. It could be easily construed as an ipso facto declaration of war, even though Mr. Roosevelt said he did not intend for it to be so taken. But Italy and Germany were relatively calm in their comments. It looks as if they are willing to take a great deal before formally going to war with us — which, in view of Italy's stunning reverses in Africa, is easily understandable. The Axis has not lost the war, but its plans are not going as scheduled, by any means.

The possibility remains of Congress declaring war on Germany and Italy, but rolls of Congress indicate that only a small majority would vote for war at this time. The bulk of the lawmakers apparently feel that we can get away with helping England with every resource at our command, yet not fighting ourselves.

Magnitude of projected aid to England will not be fully known for some time. As the budget message shows, it will run far into the billions. It will involve the construction and delivery of many merchant ships to embattled Britain. And it may very

likely involve the transfer of more of our naval vessels. The 77th Congress will be responsible for our national defense, which includes domestic problems to do with wages and hours, taxation, relief, and government loaning both at home

and abroad. It has the countries of South America to consider; just loaning them money is but a small part of the job of improving our relations with them. Also, as one of its greatest jobs, it will have to consider adopting a fiscal policy that is in the opposite direction to the present easy money policies of the Administration. Financial experts are going to make a determined stand to return the financing of our government into sounder channels.

The Federal Reserve Board recently reported that its index of industrial production reached an all-time high in December—and was equal to 136 per cent of the 1935-39 average on a seasonally adjusted basis. Yet security markets remain comparatively dormant.

Reason: The prospect of new and big taxes is a deterrent—only the naive believe that Congress will approve this year's gigantic war budget without attempting to raise part of it through additional taxation.

On top of that, the cooler heads know that a war boom is apt to prove a bubble which will explode when pricked — and peace is the pin that will eventually prick it.

Government officials are said to be laying plans now for cushioning the shock. But many economists doubt if much can be done. They still feel that great artificial booms are more than likely to be followed by great depressions. And no one knows what the world will be like when this unprecedentedly destructive war finally ends.

Texas is fifth in the manufacture of cheese and eighth in the total income from the sale of milk.

## Two C. A. A. Members Miss Clarendon And Land At McLean

Here's what happened when two CAA members took off from Amarillo recently and attempted to fly to Clarendon.

Madge Lahey and Harry Solnick ran into a little trouble when they took their cross-country flight in the CAA. The two started for Clarendon, flying by the methods of navigation taught them in the ground school division of the course, but they wound up in McLean, over 35

miles off their course. Harry was leading the way, and when he made his landing, the rough terrain broke the tail-wheel spring of his plane. He experienced considerable difficulty getting his plane on the ground all in one piece. Madge followed him in and hit a sort of ditch and tore the landing gear off her plane. A new spring had to be flown down from Amarillo for Harry's plane but a truck was needed to get Madge's back to the airport.

Mrs. Gladys D. Power visited with Mr. and Mrs. B. P. Brents in Amarillo over the week-end.

# We're Ready to Serve Uncle Sam

## -But We're Not Forgetting You!

It has been asked:

*How soon can the electric industry prepare?*

The question was answered by a noted editor who wrote:

"When there is a big job to be done, it is logical and sensible to assign it to hands that are willing, ready, able and experienced.... This is directly applicable to the problem of electric power for defense. The willing hands in this case are your everyday friends and acquaintances... the men and women, working under a system of private initiative and enterprise, who operate your service company. Their experience and ability cannot be questioned.... They are ready NOW."

The United States today has more than 40,000,000 kilowatts of generating capacity—50 per cent above demand—of which 90 per cent is privately owned by people who invested their savings in sound business enterprise. By way of comparison, Germany, England and France each have less than 9,000,000 kilowatts.

Not only is power for defense assured by this capacity, but it is further guaranteed by interconnections and integration—started 30 years ago and bringing electric service in West Texas and the nation to

a higher peak of EFFICIENCY and ECONOMY THAN ANYWHERE ELSE IN THE WORLD. Jobs are provided 275,000 men and women, every one of whom is fully trained in some special post necessary to producing and distributing power. The industry is paying \$400,000,000 a year in taxes supporting the various local, state and federal governments and school and highway systems.

Guiding Your Electric Servant are capable, willing hands—your assurance of plentiful, cheap electric service.

## Electric Power..and Man Power, too

We've prepared in advance to help Uncle Sam with electric power without peril to our service to you. And we are contributing manpower for defense as well. Twenty-three of our men already are in uniform. Those left behind are "carrying on" without impairment of service to you.

'Summary of a recent survey among our thousand employees shows that as of January 1:

- 23 had entered service (8 as commissioned officers)
- 7 are reserve officers awaiting call
- 27 are eligible draftees awaiting immediate call
- 315 are within draft age
- 87 are veterans of first World War

## NEWS

The Junior class sponsored a backward program Wednesday afternoon in the gymnasium. The closing song was sung and then a reading was given by Pauline Bain. Two plays representing how the sophomores and seniors act in class added much to the program. A poem titled "It's Funny About Hearts" was read by Inez Scott. A "Dummy Line" song was sung and acted out by the class.

Manners that boys and girls should know were given by another group and then another reading was given by Lola Marie Ayers. At the close of the program, the opening song was sung by the class.

The senior class will be in charge of the next assembly program.

## SPORTS

The Lelia Lake girls played Quail January 16 at Quail, and were defeated for the third time of the season. The score was Quail 32, Lelia Lake 9.

The court of the gymnasium at Quail was larger than the Lelia Lake court and the Lelia Lake girls seemed to have some difficulty in finding their way around. The game was played very fast.

The basketball girls will miss one of their players, Geneva Leech, very much. Her arm was badly bruised during the game with Quail.

W

## SPORTS

Although the Bluebirds played harder than they have at any time this season, they went down to defeat Thursday night under the strong playing of the Quail boys. The score was 36 to 24.

The Bluebirds had defeated the Quail team a week before, but they didn't seem to have as much energy and determination as they had the week before.

The boys played another game Monday night which they were defeated by a team from Clarendon college by a score of 35-21. It was a very clean game with the Clarendon team obtaining a lead in the first quarter and holding it the rest of the game.

W

## SPORTS SIDELIGHTS

Although Geneva Leach has been attending Lelia School only a short while we all know her very well because she is easy to get acquainted with. We know her as a girl with high ideals, good sportsmanship, and a very cheerful personality. She is probably the most perfect blonde in school and this along with the things mentioned above make her very popular and respected girl. When asked how she thought the basketball team could be improved, she said, "By working harder in their practice sessions, by passing the ball just a little bit more and better, and by putting into practice a more determined spirit." In a personal interview I found these things to be her outstanding characteristics:

Ambition: To be a nurse

Hobby: Playing basketball

Pet Hate: People who speak too plainly

Worst Habit: Breaking gentlemen's hearts

Outstanding characteristic: Writing letters

Favorite subject: Algebra

Favorite radio program: Henry Aldrich

Ideal Boy: Tall, dark and handsome, smart in his studies with a moderate amount of money.

\*\*\*

Doyle Martin is not a member of the boy's first string basketball team because, until recently, he did not spend enough time studying English. Now that he is passing, some of the first string are playing hard to keep him from taking their places.

Doyle is six feet tall which makes him the tallest boy on the team. He has black hair and dark blue eyes; but don't get any ideas girls; he has two wondrous things which he likes best, now.

Doyle is one of those boys who

hasn't that certain thirst for knowledge but enjoys his experiences more. He takes an interest in cattle and will probably become a very good rancher.

In a personal interview, I found out these facts about Doyle:

Hobby: Going places and seeing things  
Ideal girl: - This should be interesting to one of those two - brunette, medium sized, plenty of personality, wealthy, and a good sport.

Favorite actress and actor: Clark Gable and Hedy Lamarr.  
Favorite radio program: Major Bowes

Favorite subject: English, this year  
What you think of mid-term tests - I think they are useless in my case.

Worst habit: Breaking two Senior girls' hearts.  
Pet hate: The flu which I feel like I'm taking

Ambition: County agent

## WIND

The most noticeable thing about our school this week is the feverish activity which always accompanies final examinations and the semester wind-up. If you should come through our community at night, you might think we were celebrating a "Night of Light", but the brilliance is caused by the midnight oil burning. Too bad it isn't from the students.

## WIND

One of the most noticeable things about Yvonne Howerton, a new pupil, is her light brown curly hair. Yvonne is 16 years old, 5 feet 2 1/2 inches tall. She only weighs 95 pounds, but is very active. Like most of the girls at Lelia, her hobby is basket ball. The pet hate is snooty people, maybe its because she is so jolly and friendly herself. Her ambition is to be a beauty operator and her favorite pastime and subject is English, and reading you will notice Gram stays turned around talking to her most of the time. Maybe she's a good talker too. A smaller edition of her older sister is Billie Jean Howerton. Although a year younger, Billie Jean is almost the same size as Yvonne. Their habits seem to be almost identical, too, except in two respects - Billie Jean wants to become a nurse and her favorite pastime is listening to the radio.

The new boy in our school is Kenneth Reed. Kenneth's nickname is "Pop". His height is 5 feet, 2 inches; weighs 135 pounds. Pop says his pet hate is anything, but really he isn't hard to get along with as you would think. His hobby is pictures. Favorite pastime and subject is going to movies and English. Pop like other boys of today, is air-minded. He wants to be an aviator.

## WIND

The Lelia Lake School Club met Tuesday with Mrs. Quinn Aten, the president in the chair. Mrs. Powers of Clarendon discussed the lunch subject. The club decided to meet on the second and fourth Tuesdays at 2:45 o'clock. Mrs. Kinch Leathers, Mrs. Frank Clark, with Mr. Wilson as chairman, were appointed as the program committee for the next meeting on January 28.

If you should happen to be going down the east stairway, cast your eyes up toward the floor above. You will notice the number '41 with the bright faces of the seniors gazing down upon you from the numbers. The seniors are very proud of their pictures and hope others can stand to look at it in the years to come.

## WIND

There are going to be a few changes made next semester especially in our schedule of classes. We don't know exactly how they are going to be changed at the present, but Mr. Wilson says they would be rearranged some way because of our new pupils. Some of the subjects they take come at conflicting times.

Students, who don't we make some more changes take place next semester. Let's make it easy for the teacher to put an A or B on our report card instead of a C or D.

## WIND

The project of serving hot lunches in the cooking room has been a success so far. The lunches will be served at noon. Two workers will report to work Monday and later others will be assigned. The workers will be responsible for the lunches and cooking.

When the student body was asked at the first of school whether to have an assembly program or not; everyone voted for one. What do we go to assembly programs for? I think the main purpose is for everyone to have a good time, but do we have only about one third of the group sings? I think that if everyone would take part in our programs would be better liked and soon an interest for new things would develop.

The Homemaking boys class baked cookies last Tuesday. They will cook and serve a meal Thursday as a part of their six-weeks grade. Next week they will review for a mid-term examination.

The Homemaking I girls remodeled curtains and made pot litters for the homemaking room. The girls are very interested in making things needed for the room. The girls will continue cooking this week; and after the semester, they will start sewing.

The Junior class program committee met Monday for a further discussion about the program for the 22nd of January. They are making much progress and hope to have it well prepared for the time. It still seems to be a secret among the class.

The assembly program last Wednesday was given by everyone having a birthday in April and May. F. C. Crawford was the outstanding performer, putting on five numbers. Mr. McDaniels had three boys to play "The Eighth of January" for him, which was very appropriate for the time.

The next month to be used for the assembly program will be June and July.

## TRUCK INDUSTRY PAYS \$15,536 TAX TO THIS COUNTY

AUSTIN — The Texas trucking industry last year paid taxes to Donley county amounting to \$15,536.93, Lynn B. Shaw, general manager of the Texas Motor Transportation Association, reported today.

Shaw said the amount represented \$10,628.53 for highway construction and maintenance, and \$4,908.40 for the public schools of Donley county. For each scholastic in the state, the truckers paid \$2.80, an increase of 31 cents over the previous year. An amount equal to the school fund was distributed to counties to absorb bonds for road building purposes.

For highway and school purposes alone, the Texas trucking industry last year paid taxes in excess of fourteen million dollars.

## NYA Youths Gain Experience In Woodwork

With an eye to giving Childrens County youths practical work experience in woodwork vocations, the National Youth Administration for Texas has equipped an outstanding shop at Childress which has turned out hundreds of pieces of furniture for county, school, and city officials, and for other NYA projects in the Amarillo area, and other Government Agencies.

Opening November 16, 1939, with 38 workers, over 100 boys have received experience during the past year. At present there are approximately 40 boys engaged in woodworking.

The boys, which form only a small portion of the near 300 youths employed in Childrens County, work in shifts of eighty hours per month and receive wages while on the project.

Under the guidance of Johnny Williams, shop supervisor, the youths have, during the past year, learned to use adactly jig

saws, drill presses, jointers, lathes, table saws, grinders, table shapers, electric glue pots, air compressors and paint guns in addition to hand tools which includes saws, hammers, electric drills, squares, dividers, pliers, nippers, screwdrivers, and mechanical drawing sets to lay out plans to scale.

Indicative of the benefit to the community are the 300 articles of school furniture which have been repaired and refinished, for the county offices eleven desks, and filing cases have been made in addition to repair jobs on desks, chairs and office furniture.

Christmas decorations for Childrens streets highlights latest activities for the city but more practical jobs as refinishing the gym floors, repairing chairs, desks, and sewing machines and building truck beds, windows doors, has been done.

Cooperating with the Farm Security Administration, fourteen

thirty nests, sanitary roosts and sliding windows.

Also, interesting objects made for the FSA are the washing machines constructed of 55 gallon barrels. The drum is cut in half. The fireboxes are underneath. Through a covering a wooden paddle is operated by a lever.

Portable kitchen cabinets, complete with sink and double deck beds for farm homes have also been made for the Farm Security Administration.

Through their work experience on the project, local youths have found private employment in paint shops, body works, construction work, carpentry, lumber companies, and other forms of employment. Several also are attending college and some are members of the United States Army and Navy.

Chicken houses were made in sections so farmers may move them easily. With perfect ventilation the houses accommodate

## NOTED NEWS MAN WILL SPEAK AT PADUCAH, JAN. 27

PADUCAH. — William L. Shirer, Berlin correspondent and noted news commentator of the Columbia Broadcasting system, will picture military and economic conditions as they are today in war-torn Germany in an address in the Paducah high school auditorium Monday night, Jan. 27, starting at 8 o'clock.

The noted news commentator has been in the United States only a few days and comes to Paducah directly from Berlin.

His talk here will not only be the first in the Southwest, but will be Shirer's first appearance in the United States since his return from the capital of the German reich.

Shirer was credited a few weeks ago as being "the best informed newsman" in Europe.

The public address will be sponsored by the Paducah Lions club and will replace the organization's annual ladies' night banquet. Announcement that Shirer would speak in Paducah was made by J. D. Wilson, president of the Lions club.

Wilson said that "Shirer is being brought to Paducah at considerable expense and we feel that we are exceptionally fortunate in securing him to address the residents of the Greenbelt."

The address will not only embrace the interests of Paducah but also of Northwest Texas and Southern Oklahoma and is expected to attract an unusually large crowd.

Seven hundred and fifty tickets have been reserved and may be secured through the mail from the president of the Paducah Lions club. Charge will be \$1, tax included.

## U. S. Civil Service Positions Listed For Applicants

The United States Civil Service Commission has announced that applications will be received for the positions listed below. Applications must be on file at the Commission's Washington office not later than the closing dates given below. The first date in each case refers to applications received from States east of Colorado, and the second to those received from Colorado and States westward. The salary in each case is subject to a 3 1-2 per cent retirement deduction. The age limits do not apply to veterans receiving veteran preference, up to retirement age.

Occupational therapy aide, junior occupational therapy aide, recreational aide, \$1,800, \$1,620, and \$1,800 a year, respectively. Optional branches for the occupational therapy aide positions are: 1. Arts and crafts, 2. trades and industries, and 3. gardening. Applicants will be rated on their education and general test in lieu of high school education. They must not have passed their forty-fifth birthday.

Student dietitian, student physiotherapy aide, \$420 a year less a deduction of \$360 a year for subsistence and quarters, Army Medical Center, War Department. Upon successful completion of the training course at the Army Medical Center, graduates will be eligible for retention in the service. A 4-year college course with special study is required for entrance to the examination. Applications may be accepted from senior students now in attendance at institutions of recognized standing, subject to their furnishing, during the life of the register, proof of successful completion of the required college course prior to September 1, 1941. Applicants must have reached their twentieth but must not have passed their twenty-eighth birthday.

Under and minor library assistant, \$1,440 and \$1,260 a year. Some training in a recognized library apprenticeship course or certain paid library experience, is required.

Consultant in social services, various grades, \$4,600 to \$3,200 a year, Children's Bureau, Department of Labor; Bureau of Public Assistance, and of Research and Statistics, Social Security Board. Completion of a 4-year college course including or supplemented by 1 full year

## The Low Down FROM HICKORY GROVE

I like old stories. Pretty often, the oldest one is the best. Some of the old ones on the radio are not so good because they are not really old enough. They are sorta half-way; something like half-aged cabbage, which is not yet sauerkraut.

And while we are still on sauerkraut versus old stories, you are in for an awakening if you still think sauerkraut is common. Sauerkraut is now stepping out — it is served in high places. And when more people eat more sauerkraut, the doctors are gonna have tough sledding.

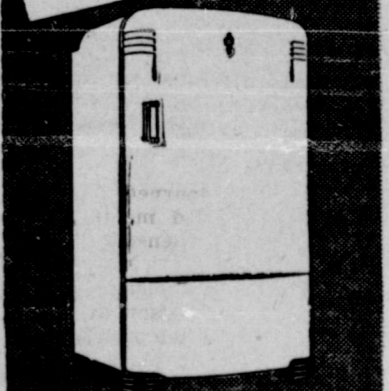

But to get back to old stories. The old timer I had in mind was the one about the souse who was bragging he could lick anybody in the house. Nobody took him serious, so he kept broadening his scope until he finally reckoned he could pulverize anybody — no limit. Whereupon a quiet kind of person popped the gent on the chin. And when the gent woke up and was able to talk, he kinda allowed he had maybe taken in too much territory in his last remark.

Ruth Palmer and Avis Lee McElvany were Amarillo visitors Saturday.

## Cranberry Pies Take the Cake

By BETTY BARCLAY

Especially when this early American fruit is used in three such tempting variations of pie lore. Three pies to give a fillip to fall meals are Horn O'Plenty, with cranberry and walnut meats peering out from a white collar of meringue, Cranberry Mince Pie, and Cranberry Chiffon Pie, with its center decoration of whipped cream.

It was Ellis Parker Butler, the humorist, who said, "Washington, Lincoln and pie are immortal." Be that as it may, pie is America's most popular dessert and the cranberry, which the Pilgrim settlers learned of from the Indians, is one of this country's oldest pie ingredients.

You can feel virtuous about pie-eating from the health score, too, for with the colorful cranberries, you're packing in a good supply of vitamins. Also, for cold control, cranberries used liberally along with other Vitamin A foods are a strong foe against the common cold. You can eat your cranberry pie and have your vitamins, too.

**Horn O' Plenty Pie**  
1 1/2 cups sugar  
1 tablespoon cornstarch  
1/2 cup water  
3 cups raw cranberries  
1/2 cup raisins  
1/2 cup broken walnut meats  
2 tablespoons butter  
Few grains salt  
1 baked pie shell (8")  
3 egg whites  
6 tablespoons brown sugar

Blend sugar and cornstarch; add water and bring to boil. Wash cranberries; add with raisins and nuts. Cook slowly until cranberries pop open. Add butter and salt. Set aside to cool; do not stir. Beat egg whites stiff; gradually add brown sugar, beating constantly while adding. Pour filling into baked pie shell; pile meringue on top. Bake in low oven (325° F) 20 minutes or until delicate brown. Serves 6.

**Cranberry Mince Pie**  
2 cups fresh cranberries  
1 cup suet  
2 apples, peeled and quartered  
1/2 cup mixed candied peel  
1 cup raisins  
1 cup currants  
1 1/2 cups brown sugar  
1/2 teaspoon nutmeg  
1/2 teaspoon cinnamon  
1/2 teaspoon cloves  
1/2 teaspoon ginger  
Grated rind 1 lemon  
3 tablespoons lemon juice  
1/2 cup fruit juice (Cranberry, orange or pineapple)  
Pie pastry

Put cranberries, suet, apples and candied peel through food chopper. Add remaining ingredients and blend. Fill pie plate lined with pastry, arrange strips of pie crust criss-cross over the top. Brush with milk. Bake in hot oven 400° F., 40-45 minutes. Makes two 8-inch pies.

**Cranberry Chiffon Pie**  
2 cups raw cranberries  
1/2 cup water  
3 eggs, separated  
1 cup sugar  
1 tablespoon gelatin  
1/2 cup cold water  
Dash of salt  
1 tablespoon lemon juice  
Baked pie shell  
1/2 cup cream, whipped

Cook cranberries in water until all the skins pop open. Put through sieve and add to egg yolks beaten together with half the sugar. Cook over hot water until thickened. Add gelatin, softened in cold water, salt and lemon juice. Cool. Fold in egg whites, whipped stiff with remaining half cup of sugar. Transfer to baked pie shell and chill until firm. Spread top with whipped cream just before serving. Makes 1 8-inch pie.

## 1922 BRIDGE CLUB MEETS WITH MRS. SIMS

Mrs. John Sims entertained the members of the 1922 Bridge Club Tuesday afternoon, January 22, when they met in her home.

After several games of auction were played, Mrs. George Ryan was awarded high score and Mrs. John Molesworth consolation.

The hostess then served a lovely plate lunch to club members Mesdames Lollie Bagby, R. A. Chamberlain, Odos Caraway, T. H. Ellis, Sella Gentry, Arthur Letts, and to guests, Mesdames George Ryan, Hugh McCullough, John Molesworth, Dick Bruyere, and Miss Charlotte Molesworth.

THE EDITOR SAYS

Up to date this corner has heard of no personal thanks to the school board members for the extra holiday we received. Speaking from my angle, the ordinary student thinks of the school board only as an organization to take all the joy out of school but by your gracious act you changed the minds of all of these ordinary students. I speak for the whole school when I say "Thanks a Million."

Although it is a little early for predictions in the way our band will come out when the last strains die down at Amarillo where the Regign Contest will be held this year. There is no reason why they should not come back to Clarendon with another first division. If this should happen this would be a banner year for old CHS taking in consideration the students of the three class activities, the faculty, and most of all the Bronchos!

To The College Students: Although the Broncho Range is published by a large group of the college students, I think it is only fair to you that there should be as much if not more college news than high school news. Please cooperate with your reporters and let's have more college news.

THANKS!

We the ex-officers of the Broncho Range wish to thank each and every person in CHS and CJC for the splendid cooperation they gave us the first school term. We, also, want to thank all the teachers, especially Miss Wallis, our sponsor, who has been a great help. We hope and know you will continue to give your splendid cooperation to the newly elected officers of the Broncho Range. Bill Andis, Editor, Clyde Douglas, Asst. Editor, Anna Lynn Barnes, Feature Editor.

YEHUDIE

Written very willing by me with helpful hints from all. Yehudie originated from a slip of the hand on a typewriter, and a slip of Bob Hope's tongue added the Whose. Thereafter it has been whose Tehudie. Whose Yehudie?

The word means someone you are particularly fond of and attached to. Like fond of your hound dog, but attached to your wife.

You may go crazy if you are not already thinking about Yehudie. You probably wish for him by day and dream of him by night. Some times you feel as if he were very near and then again you feel as he were on the other side of the world digging wells.

He is a very funny fellow. Often he is tall, dark, and handsome, but more often he is short, many places.

I heard voices weird and deble light, and fat. Yehudie can be coming from the old church steeple. Saying, "Now listen here all you people, who's Yehudie?" and affects many people.

Poor grandmother sitting by the fire knitting suddenly yelled, "Who's Yehudie?"

Detective Hoover is getting moody, Put all his men on double duty, Trying to find out Who's Yehudie?

Yehudie is the little man who ain't there and thrives on doughnut holes and balloon juice. He is the guilty person who turns off the light in the refrigerator when you shut the door; he is the one who stops the radio when you go under a railroad pass; and he is the one who makes the trap go off when the mouse steps on it.

Joke - laugh and don't look at the answer until after you have guessed.

If your mother is Who's Yehudie and your father is the little man who isn't there, who are you?

Answer - Nobody's baby. Moral - Never, never sign your name as Yehudie even if someone dares you to. Never, never sign your name. Never, never have to write another theme for Mr. James so that he can learn the history of Yehudie.

Last night the Clarendon Bronchos defeated the Lelia Lake basket ball team by a score of 35 and 21. The Bronchos lead the game from start to finish. Eugene Putman scored 21 points of the Bronchos' 35. Toughy Tooter Johnson was also a star of the game. The Clarendon team plays Independent basket ball. The starting team for Clarendon was Putman, Bailey, Hartzog, Toughy Tooter, and James. The Bronchos have a game with Ash-tola's independent team next week.

The Clarendon Volley Ball team will also play its first game of the season this week.

The Press Club gave their formal dance Friday night January 17, 1941 at the home of Mrs. R. L. Biggers. The room was decorated in blue and white and the floor was flooded with blue lights.

The dance was given in honor of the officers of the Club. There were approximately 65 people present and they danced to the rhythm of a nickleodeon.

Some outstanding couples were Millard and Margaret Jean Leathers making the rest feel bad, with their good dancing.

Mildred Phelps and Joe Hayes actually staying until the last. Frances Phelps and Raymond Johnson making a little noise.

Mr. and Mrs. James dancing in rhythm. Mr. and Mrs. Dreannan gracious chaperons.

Mary Nell Keys and Earnest Thompson making the ideal couple.

Very few of the outstanding couples have been named here, but it goes without saying, it was a big success.

Betty Jo Bartlett gave an informal dance Saturday night at her home. Delicious sandwiches, cookies, nuts, punch were served to approximately twenty people.

That dashing hero, the former Broncho mystery man, the play-boy of Canyon was rushing Kitty Ruth Baley. See her for his name.

Roy Morrison, Cornell's date was playing the piano for everyone's amusement.

Why did George Reeves leave early? That blond siren of CHS, Naomi Morris was there.

Betty Jo Bartlett as usual was a perfect hostess.

Gossip

QWERT YUOP

Is it because of certain people that certain people want to be left out of this column?

Why has Margaret Fay Wadsworth decided that it is not wrong to have boys in her car? Ask a certain Billy if he has any information on this subject? (P. S. This Billy's last name could start with the letter T. He might be a Junior, too!)

Censored says Censored "mugged" him too! Why was Kitty Ruth anxious

for a certain boy from Canyon to come to Betty Jo's house Saturday night? This is worth looking into, Homer.

Who's ring is Margaret Jean Leathers wearing? We know! We have another "set" of muggers this week. Right, B. J. C. and E. T.

Seen - The boys trying to get in good with the girls by sending them flowers to wear to the Press Club Dance.

Seen - Carl Morris surrounded by girls Friday and Saturday. (chickens at the chicken show.) Everyone certainly misses Bud. Especially Pearl.

Seen Saturday night at the show - Kenneth Lyle and Marilyn Sawyer and Tooter Johnson and June Melton. Wow - also Iva Ruth and Ralph!

Frank Drew was really going to town at the Press Room Dance.

Is the pale look which LaVerne Phillips is wearing lately caused by Thad leaving or because the Peabodys are going to leave? We wonder--?

Well, well, well, Billie Cook seems to be beating Kitty Ruth's time. Homer Hardin rather likes her so it seems (Billie).

PROFESSIONAL SNOOPER PEEPS IN ON THE PRESS CLUB FORMAL

We really did some "snooping" last Friday night. Here are some of the things we saw:

Wanda Craft with Johnnie Leathers. Waldron Melton having a swell time.

Clyde Benton with Annie Ree. June Miller's date doing his best to dance with her! (Ask Bill Andis).

The outstanding couple was Millard Miller and Margaret Jean Leathers.

Jack Lackey rushing Pat Grady again! Carl, you better get to work! Betty Ann with Billy Thornberry.

M. F. W. had a date with B. J. S. What would Mrs. say if she knew Censored was in Lee's Friday night with two boys.

Geraldine Ryan being rushed by Colie and Waldron. Fred Lynn and Anna Lynn clearing the floor!

This is the professional snooper signing off till the next dance.

Organizations

PRESS CLUB MEETING

The regular meeting of the Press Club was held on January 20, 1941, at 12:30 in Miss Wallis's Room.

After plans for this week's paper had been made, assignments were given to each member. Ernest Thompson was elected Asst. Sports Editor. The resignation of Anna Lynn Barnes as Feature Editor was accepted and Margaret Wadsworth was elected to fill this position.

After all business had been discussed the meeting adjourned until next Monday, Jan. 27 at 12:30.

HOME EC. REPORT

The Home Ec. girls interest in their work has been revived again at Mid-Term. The first year girls have put away their sewing to study the preparation and serving of breakfast and luncheons. The second year students have left the kitchen laboratory and plan to take the clothing phase. In their first year they learned to sew on cotton prints, so in their second year, they make tailored garments of rayon, silk, or woolen fabrics, and pre-school children's clothing.

The third year girls, as well as the second, are studying the new spring colors, fashions, and fabrics. They are first making formal and Semi-formal dresses, especially to wear to the school banquets. Later they will study the artistic arrangement of the home, and consumer buying in relation to clothing and household linens.

After the dresses are finished in the spring, each girl will model hers in a fashion show at school.

CAPS CAN WAIT

The band members have decided to let the caps wait until after the contest at Amarillo. If they win there they will get the caps before they go to Waco.

The band is scheduled to play a concert at Memphis on February 7, and on February 25, the band plays a concert at Canyon.

It will be the first time the group has appeared there. Mr. Robbins has divided the band in two sides. The Tomcats and The Bobcats. They will get so many points for practicing. Each side marches once a week. This contest is to get every one to work for the contest.

SIGMA DELTA CHI

The Science Club had its bi-monthly meeting January 14 at the College.

The program consisted of several interesting demonstrations by Mr. Stewart. The program was opened by a dime trick.

The simple process of making can heat (alcohol jelly) was performed.

A "magic" glass rod was used to set the alcohol on fire.

Jack Riley demonstrated the incendiary bomb (being used in World War II). The thermite bomb is composed of aluminum dust and iron dust. The bomb does not explode but gives off a tremendous amount of heat. The bomb gave off so much light the room was as bright as day. The bomb became so hot it produced liquid iron and melted a hole in our sand protected roof.

The club adjourned the meeting following the program because of term examinations the following day.

ADDED ATTRACTIONS

To turn a dress into an attractive costume you must have the right accessories. For sports, you might try a handkerchief for your head that tells a story. For instance, a map of some country. In the corners there will be scenes typical of that country.

For loyalty to your school wear a bracelet with the school name on it in gold letters.

Spring is coming and it's time to start thinking about the shoes you want. For warm summer days, leather sandals studded with nail heads are going to be good.

Still looking at the winter side we see plaid bags matched plaid skirts and jackets.

Patriotism has hit even mittens. These are striped in red, white and blue. In the center is a hand painted American emblem. Heaven sent for frosty mornings.

"The Texas Parade" says in part:

"There's a family out at Clarendon, Texas, who won't soon forget the last half of 1940. The nation-wide honors which spotlighted them as America's Typical Family are still coming to them but they are gradually settling back into the normal activities of a "typical family."

"The D. E. Leathers family was selected last spring in a newspaper contest to represent West Texas at the New York World's Fair. They competed with other typical families from all over the nation for the national title. On their first trip to New York they were furnished an attractive FHA home on the fair site in which they lived for one week. They were feted and entertained as was such typical families from other sections of the country. They returned home and thought the matter closed. But six months later a committee of New York newspapermen, studying case histories of more than 40 families, had announced as its choice of "typical family" the Texas family.

"The family, consisting of Rancher and Mrs. Leathers, their son, John, 19, and daughter, Margaret Jean, 16, was selected on standards of longevity and permanency of residence in West Texas and as to Americanism of name and ancestors; as to exemplifying in interests, work and environment the major economic resources, production, activities and prevailing viewpoint of their particular section - in this case, West Texas; as to cultural, religious, civil and moral attainments best exemplifying West Texas' high and progressive standards."

**LOANS AVAILABLE TO QUALIFIED FARMERS**

Farmers in Donley County who will need operating funds in 1941 and who can not get adequate credit elsewhere, should make application to the Farm Security Administration immediately, according to John E. Burch, County FSA Supervisor.

Funds in the form of loans are available to qualified farmers for the purchase of feed, seed, tools, livestock, and other equipment necessary to carry on farming operations.

"The Farm Security Administration," Mr. Burch said, "was created to help needy and low-income farm families and we invite the farm operators in Donley County to come in and discuss their problems with us. We may be able to help them."

Mr. Burch explained that this agency has a number of programs designed to help troubled farm families in addition to that of making rehabilitation loans to individual farmers. Among those mentioned by Mr. Burch were loans for community services, farm debt adjustment services, and tenant improvement.

"Community Service loans," Mr. Burch said, "will be made by the FSA to groups of qualified farmers to buy tractors, combines, pure-bred silt, feed grinders, veterinary services and many other services and facilities which a single farmer could not afford alone."

"For farmers in Donley County who are overburdened with old debts, the FSA offers help to have the debts adjusted to their ability to pay. This service is available without cost to all farmers, whether or not they take part in other phases of this agency's program."

Mr. Burch explained that a local farm debt adjustment committee meets with the debtor and his creditors for a discussion of their mutual problems. Those meetings often result in an agreement for extending the time of payment, reducing interest rates, scaling down the debt, or refinancing part of it through an FSA rehabilitation loan. In this way, the farmer is saved from foreclosure.

In an effort to conserve and build up the soil in this country, and to assist landlords and tenants improve the tenancy system, the Farm Security Administration is encouraging better leasing arrangements.

Mr. Burch said that emphasis is placed on long-term or renewable contracts and on agreements which will encourage the tenant to protect the soil and improve the property. Flexible farm-lease forms are obtainable free at the FSA office and the personnel will be glad to assist in drawing them up for the landlords and tenants.

"I feel certain there are many farmers and landlords in Donley County who need the services of this agency," Mr. Burch said "and I wish to issue an invitation to everyone to visit our office in the Goldston Building and give us a chance to be of help."

"The Farm Security Administration," he concluded, "is a part of the U. S. Department of Agriculture. It is maintained by and for the people of this country and we want to help all farm families that need help."

**WE LOVE TEXAS**

There is magic in the name of the King Ranch. It is known wherever Texas is known. Imagine, then, the thrill of visiting the biggest ranch in the United States—900,000 acres in three Southwest Texas counties. Over that almost limitless expanse roam 75,000 head of cattle and 4,000 sheep. To operate that vast enterprise, a force of 450 men is necessary, including 250 vaqueros. Why, it requires 2,500 cowponies for those riders!

cluding 250 vaqueros. Why, it requires 2,500 cowponies for those riders!

At the head of the King Ranch is Robert J. Kleberg, Jr. To a thorough knowledge of ranching and great executive ability, there has been added a sheer genius for the breeding of livestock. All the world knows, of course, about the Santa Gertrudis cattle, evolved on the King Ranch. Legends already are clustering around Old Monkey, the head of the line. The bull derived his name from the Mexicana who noticed that he was always getting into mischief—in other words, "Monkeying around."

What is not so widely known is that the King Ranch has produced its own type of cowpony through the crossing of the thoroughbred with the quarter horse—the latter deriving its name from its speed in the quarter-mile races which once were so popular in the Southwest. The head of this line is still living—a pampered pensioner. Though nameless, "the old sorrel horse" has earned a place in ballads that are yet to be written. His wonderful disposition has been passed on to his descendants, along with a gain in size and endurance.

By selection, Kleberg fixed the desired type, color and other characteristics. Along with all these qualities is bred such an instinct that the young King Ranch cowponies naturally go right to work with cattle.

Just a few days ago, two colts were shipped to Venezuela and others have been sent to Cuba, Montana and elsewhere, so that—in time—the King Ranch cowponies will do duty on many ranges in distant lands.

Of course, the regular readers of this column know that I didn't know all these things to begin with. I figured them all out, however, by myself—well, that is, with maybe a little assistance from Dr. J. K. North-

way, who—as a veterinarian—has charge of all the fine horses and cattle on the Ranch.

Inconsistency in the Texas truck law (according to those urging liberalization) is that the load limit is 7,000 pounds but twice that load is permitted to the nearest rail point. That provision shows those interested in the law written and harks back to day when highways were very unimportant, they are, in spite of repression and restriction, motor transportation developed into a big and important part of the Texas transportation picture and there are boys and girls who are almost grown up who have never ridden on a, yet have traveled thousands of miles—by highway, of course. The legislature is being a little more of the law in the re-writing of this great development, with load limit increase based on scientific principles that have worked out by experts and other states have tested and to operate satisfactorily.

The deftness which the fingers of bankers send bills fluttering down like autumn leaves as they are marvelous to behold. When they're counting the money for a check, they get through so soon. The withering woman playing love on an old accordion as singing, theatre crowds huddled by always seemed the dot paths—until a few days when an icy wind was blowing, yet she was there, playing tunes with fingers that had stumbled over the because blue with cold—when the scene seemed the of courage.

# Donley's Poultry Show Successful As 450 Quality Birds, Representing 36 Breeds, Compete For Honors

A total of 450 quality birds, representing 36 breeds, were displayed here by sixty exhibitors in the three-day Green Belt poultry show which ended here last Saturday.

The show was another successful one according to John Gillham, who said that finer quality fowls and more interest on the part of the exhibitors featured the annual event.

In the judging Friday, E. V. Quattlebaum, G. W. Beasley, Beatty Hillman and Junior Bullman topped the sweepstakes winnings, Quattlebaum showing the best parti-colored hen, cock and pullet, and also old pen, with his prize Rhode Island Red. G. W. Beasley had the champion cockerel Rhode Island Red.

Beatty Hillman had the best solid colored hen and cockerel with Black Langshans, while Junior Bullman's White Leghorn cock won first honors. The champion pullet was a Rhode Island White, owned by Billy Thornberry. Troy Moffett carried off first honors in pen with his Buff Orpingtons.

Mrs. Sarah M. Stocking left Sunday for a visit with her daughter, Mrs. W. M. McConnell in Panhandle. She will be gone until the first of the month.

Mrs. J. C. Richerson of Estelina visited here last week with Ruth and Janet Richerson. She returned home Friday night.

Mr. and Mrs. T. E. Trostle of the Shamrock country and former residents of Clarendon were here on business Tuesday.

Judge J. R. Porter made a trip to Tulsa Monday to bring his mother, Mrs. W. A. Porter home with him for a two weeks' visit.

Don Leary of Estelina visited friends here over the weekend.

He, with other British subjects, was sent to prison. At first they were treated as criminals and allowed out of their cells only one hour a day. But soon better treatment was accorded. They are in a group of red brick buildings which formerly was an insane asylum. And here Wodehouse goes calmly on with his writing. One wonders if 'Jeeves' will be in it.

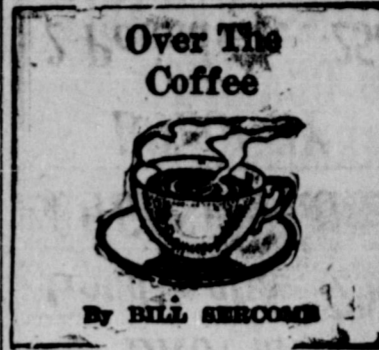

Charles Morgan, author of "The Voyage" and various other books, some of which are on our shelves, recently resigned from the British Admiralty, but is still in London and carrying on with his writing "So far as the din of anti-aircraft guns will allow."

Nevil Shute, another British author who will be recognized by our readers, is working in the Admiralty Office in London. Earlier in the war he was engaged in research and experimental work for the British Air Force.

Richard Llewellyn, author of "How Green Was My Valley" was, before the fall of France, Chief Transport Officer for the Entertainment National Services Association, directing the movements of approximately five hundred concert parties entertaining troops in England and France.

A recent air raid destroyed a famous literary landmark recently — the former home of Henry James and E. T. Benson at Rye. Benson had occupied the home after the death of Henry James in 1916.

Willa Cather has a new novel — her first in five years: It is Virginia where Willa Cather lived as a child before the family moved, to Nebraska, and the time is 1856, when tensions were gathering for the storm of the Civil War, especially in this proud state which held traditions of both the South and the North, of England, and the frontier. The book is said to have a quality of spaciousness and sunlit distance, the beauty and distinction that long since gave Willa Cather a pre-eminent place among contemporary novelists. She took the Pulitzer Prize for "One of Ours" but better known than this story are "O Pioneers," "The Song of the Lark," "My Antonia," and best of all "Death Comes for the Archbishop" and "A Lost Lady." Miss Cather is an Episcopalian, and is extremely American. She has always had a deep feeling for the frontier, for its freshness and strength, for the wild beauty of new land, and its fortitude. She lives simply, and writes for two hours in the mornings, using a pen, not a typewriter. The literary world is greatly interested in the appearance of her new book.

The best local yarn of the year — so far! A Clarendon citizen whose business requires a bit of traveling around, had an early morning phone call a few days back from a young woman he had known many years, who was visiting Clarendon friends and who inquired if she might ride with him that day to her home in a neighboring town, having learned he was to pass through it that morning. He agreed in his usual cheerful manner, and said he would call by for her around 8:30. Well, he came down town, attended to a few matters that delayed him, and around ten o'clock, not that he was late, he jumped in his car and hurried away without remembering to go by for his passenger. Embarrassed by his forgetfulness, he told a local doctor the story and suggested that he needed a mental examination. The doctor asked his age, which wasn't too far from the numerical of a certain well-known oil corporation, and wise man that he was, he said, "My dear sir, you don't need an examination, you are just about normal. It was the young woman's fault. She should have phoned you twenty years earlier."

The relator went on to say, that if he was losing his mental alertness, he was willing that it take that direction.

Here's one we picked up. "Twin beds are all very well," said the blushing bride to the salesman in the furniture department, "but there is no use buying them until we get the twins."

From Time (letters we quote): "The Greeks claimed that their army was built of fighting men; Mussolini doubted it, but he came, he saw and he concurred."

Several of the boys have been arguing about the ground-gaining of John Kimbrough, Texas Aggie All-American, this year compared to last year.

Well boys, Kimbrough ad-

ranced 168 yards more this year in nine games than he did in ten last season, but this year he carried the ball more. His advance last year was 503 yards against 28 lost — This year his gain was 671 yards against 54 lost. His yardage per try in 1939 was 3.35 yards. This past year it was 3.83. That settles that.

Sho' Mus' Be  
"There's only one thing wrong with me, Blondie, I'm color-blind."  
"You-all sho' mus' be, Mistah."

Dexter Todd, former funeral home employee, lauded the choir singing at Homer Mulkey's funeral. "It was the best singing I've ever heard at a funeral," Dexter said. Those singers, along with Mr. Braswell, should feel mighty fine about this comment. We've heard a number of others say that they did a good job.

Folks You Know:  
Mike Stricklin buying coffee for everyone in the house — C. C. Powell trying to get caught up with work after being 'down in bed with flu' — Jerome Price running around "lost" after Homer's death — Coach James bragging about his basketball team — Mrs. Marvin Warren elated over return of husband from a buying trip to Chicago — Rev. J. Perry King joining conversation of bunch in store — McHenry Lane giving report on lunch room project — Louie Thompson setting up the drinks.

Seventeen of the squad of 23 Clarendon Bronchos will be awarded letters in the near future. Of these seventeen lettersmen, only three will return for play next fall. According to this information, Clarendon's chances for winning the 3-A district title are very, very slim, and coaches Warden and James are none too optimistic.

Mr. Edwin Barnes of Amarillo visited his mother, Mrs. Lola Barnes here Sunday.

Mr. and Mrs. C. R. Ringham and son, Lee Owen, visited here the week-end on her way home from Denver, Colorado to Legion, Texas, where she is employed in the Veterans Hospital.

**LIBRA NOTES**  
By MRS. BURTON

Because of world situation there will be Nobel Prize awards for the peace prize, passed up last year, normally would be awarded through a Norwegian committee from funds invested by the man who invented it. But with Norway under German control, it appears the money will be used for other purposes. It will be awarded to German banks. Not awards several years. Literary prizes are awarded Swedish committees.

The present National Council of the United States, Mrs. H. V. Milligan, recently announced a list of the ten best books of 1940 on the crisis of Democracy. She said that collectively ten books describe the ineffectual efforts dictators make to undermine democracy, but the picture the great heritage democratic liberty and justice stands solidly in the past the dictators. They are "Froxy Lands" by Louis Adamic; "Freedom, Its Meaning" by H. A. H. H. "The Fifth Column Here" by George Britt; "Up Education for a Democracy" by William Hard Kilpatrick; "The Voice of Destruction" by Norman Ransching; "The Basis of Democracy" by Eleanor Roosevelt; "The Sky of Terror" by Edmond T. "They Want War" by G. C. "Total Defense" by Rausenbush, and Clark P. and "The American Story" by John Chamberlain.

Angus Thwaite, of the Associated Press staff, was given permission by the German authorities to go to a prison camp in East Germany for an interview with G. Wodehouse, British author who was taken prisoner when German army took North Africa. Thwaite is from Illinois. From his interview with the author known to millions of readers in the English speaking world as the creator of Jeeves, the all-knowing butler, now residing in a German civilian internment camp among truck drivers, coal heavers and British prisoners, calmly and unhurriedly writing another novel. He expected that he had not yet decided on a title for the book. Wodehouse and 1100 other British subjects are held at the camp behind double barbed wire fences. Wodehouse said, "It certainly was grand to be able to come down to see the camp. Then he explained that he had had a villa since 1934, and before he realized what was happening the country was full of German troops.
