## DONLEY COUNTY TO HAVE FALL SHOW AND FAIR--TWO DAYS

### Farm Passenger Cars Not Eligible For New Tires

For some time now the tire situation in Donley county has been approaching the acute stage. Especially are the farmers faced with the serious problem of transporting their dairy, poultry and farm produce to local markets. A great number of the farmers have only passenger cars for means of transportation. In fact most of the trailers on the farms are pulled by passenger cars, and especially is this carried out on a large scale during the fall at cotton and feed gathering time.

Some days ago Ed Kinslow, Chairman of the local Rationing Board wrote to Mark McGee, State Director, Office of Price Administrator requesting a clarification of the possibilities of new tires for farmers who are now practically stranded and for those later on who would be in need as the old tires gave way. Tuesday morning Mr. Kinslow received the following letter:

"Mr. G. E. Kinslow, Chairman Donley County War Price & Rationing Board Clarendon, Texas Dear Mr. Kinslow:

Thank you for your letter of August 4 which referred to the problem confronting your Board as a result of the farm car situation.

Farm passenger cars are not eligible for new tires and may only be granted certificates for recaps. We are aware of the acute shortage of retreadable carcasses and are hopeful that some measures will be taken to relieve this problem. We know that it is statewide, and probably, nation-wide in scope.

We have found some counties throughout the state who have organized cooperative plans among groups of farmers to utilize the tires available to all the farmers in a certain area. In this manner they all get together and pool their vehicles, using those with good tires to haul off the crops for everyone participating in the plan.

If you think information along this line would be of any benefit, we will be glad to forward you what material we have in this Office.

Very sincerely yours,  
Mark McGee, State Director  
Office of Price Administration."

### M. W. MOSLEY COLLIDES WITH MOTORCAR

M. W. Mosley narrowly escaped injury Tuesday when a railroad motor car collided into the rear of his car at a railroad crossing about two miles this side of Hedley. The motor car was derailed and Mr. Palmer, road inspector for the Ft. Worth & Denver, was knocked unconscious. The extent of his injuries could not be learned as he was taken to an Amarillo hospital.

Officers reported the accident unavoidable.

### J. L. Goodman Wins "Victory Jersey" Presented By Jersey Cattle Ass'n

J. L. Goodman was notified this week that he was one of the sixty-seven farmers in Texas to be chosen to receive free of charge an outstanding Jersey bull free of charge from the American Jersey Cattle Association. Goodman was chosen with the other sixty-six lucky parties from a group of over twenty-five thousand applicants for the bulls to be distributed in Texas. He will receive the bull during the week of August 17th

### PATROLMAN TO INSPECT SCHOOL BUSES NEXT TUESDAY, AUGUST 18

A state highway patrolman will be here next Tuesday for the purpose of inspecting all school buses and to renew all bus driver chauffeur licenses. It is compulsory for all drivers and buses to be on hand at that date. County school superintendent Ruth Richerson announced today.

### HEATHERLY INFANT DIES WEDNESDAY

Graveside funeral services were held today at 1:30 for the infant son of Mr. and Mrs. Hubert Heatherly with Rev. E. L. Moody officiating.

The infant son, only a few days old, died in an Amarillo hospital Wednesday evening. He is survived by his parents and a brother.

### Clarendon F.F.A. Youths Carry On Well Planned And Complete Swine Program

Some eighty members of the Clarendon F.F.A. Chapter are carrying on their most complete swine production program in the history of the chapter's outstanding swine work this summer. The program is well rounded with each of the six leading swine breeds being well represented in feeding and breeding operations. Outstanding males and females of the Spotted Poland China, Duroc, Poland China, Chester White, Hampshire, and Berkshire breeds are owned by the chapter, chapter members, and farmers participating in the production program. Top barrows of each of the breeds are being prepared for the Fall fair, and will be sold by auction following the annual fall show on October 9th.

Joe and Bobbie Harold Smith, Ralph Morrow, C. G. Kirkland, Frank Jackson, Billy Marshall, Chester Seaton, Jr. and Gene Bulman, Raymond McKee, Joe Wayne man, Raymond McKee, Herschel Brinson, Joe Wayne Dilli, Loyd Spier, Billy Williams, J. F. White, and Harry Blair, Jr., all have

### CHECK FORGER BEING HELD IN WYOMING

Sheriff Guy Wright has received word of the capture of Sam L. Hunt in Cheyenne, Wyo. From all descriptions, he is the same person that gave the Antro Hotel two forged checks around the 3rd and 4th of July. One of the checks was for \$87.54 and the other was for \$49.50.

The Sheriff sent a retainer for his return in case he is not sentenced up there.

### J. L. Goodman Wins "Victory Jersey" Presented By Jersey Cattle Ass'n

J. L. Goodman was notified this week that he was one of the sixty-seven farmers in Texas to be chosen to receive free of charge an outstanding Jersey bull free of charge from the American Jersey Cattle Association. Goodman was chosen with the other sixty-six lucky parties from a group of over twenty-five thousand applicants for the bulls to be distributed in Texas. He will receive the bull during the week of August 17th

### Mother Receives Letter From England

These are times when anxious moments are spent waiting for a letter from a son--somewhere from afar. Many a mother in our land, lives from day to day, hoping to hear from her soldier boy.

Recently a letter came from across the briny deep to Mrs. W. C. Hayes, who lives near Clarendon, from her son Roland Hayes who is now in England. The letter was in photostatic form, reduced from its original size. The letter follows:

Dear Mother:  
I am dropping you a line to let you know I'm ok. I'm in England now. The trip over was just fine. Write me soon and send some candy and soap and let me know how all the folks are at home. I may get to go to London before long. I will write more later.  
All my love,  
Roland

### To Classify Men Of 20 Years

Local draft boards throughout Texas were instructed today by a memorandum from state selective service headquarters to proceed immediately with classification of all registrants of the fifth registration (June 30) who have reached their 20th birthday.

In Texas, the fifth registration affected approximately 132,000 men, Gen. J. Watt Page said. "The selective training and service act, as amended," General Page said, "sets out, that except as otherwise provided, every male citizen of the United States and every male person residing in the United States, who is between the ages of 20 and 45 at the time fixed for registration, or who attains the age of 20 after having been required to register, shall be liable for training service in the land or naval forces of the United States." "Accordingly all registrants of the fifth registration are, upon reaching their 20th birthday, subject to induction when their number is reached."

### Agriculture And Livestock To Highlight Exhibits As Proof Of Donley's Food Strength

#### CHILDREN FROM BOLE'S HOME TO BE HERE AT CHURCH OF CHRIST SAT. EVENING

Sixteen children from Bole's Orphan's Home; eight boys and eight girls will be at the local church building Saturday evening August 15th.

Beginning at 9 o'clock, they will render a special song service. The members of the church are urged to attend this meeting, and a warm welcome is extended to everybody else.

#### SCHOOL MATES MEET AFTER FORTY YEARS

"It was just like meeting a long lost brother," stated Judge R. C. Weatherly, when speaking of the visit of an old school mate.

Last Tuesday, he had as visitors Mr. and Mrs. J. O. Jones of Lubbock and Jim Christian of Claude. It had been forty years since Mr. Weatherly and Mr. Jones had seen each other, and it had been twenty-five years since he had seen Mrs. Jones. Many enjoyable hours were spent relating old times and recalling incidents they both knew as school mates.

### Sheriff Issues Tire Warning As Two Are Stolen

Sheriff Guy Wright issued another warning to all persons this week, stressing the importance of a good lock on all garages and other steps that might be taken to safeguard your automobile tires.

"This tire business is becoming more acute as time goes by, and without the greatest of precautions, a great loss is liable to be affected here before long," the sheriff stated, "regardless of the long hours that are spent policing the town and county. We are doing everything in our power to prevent tire theft but your help must be enlisted, for we can't be everywhere at the same time."

Dr. T. H. Ellis is the most recent tire theft victim. He lost two tires to some thugs Sunday night. Up to date no clue has been found as to the guilty parties.

#### LION COMMITTEEMEN NAMED FOR TWO AFFAIRS

At the regular noon meeting of the lions club Tuesday, a committee for the direction of a Carnival in connection with the county fair scheduled for October 9 and 10th was announced. Those named were McHenry Lane, Sam Braswell and Chas. Lowry.

A committee was also named to have charge of a picnic that is planned for the club's Ladies Night. It is comprised of H. R. Beck, John Gillham and John Knorpp.

### Old Settlers Ready For Picnic

The Donley County Old Settlers' picnic will be held tomorrow, Friday, August 14th. The picnic ground is at Tate Grove, four miles north of Hedley.

The program this year will be made up of local talent and a full day of entertainment and visiting is promised all those who attend. Those folks who have lived in Donley county 20 years or longer are eligible to attend.

Since the picnic is patterned along the same lines that made the old fashioned picnic famous, everyone who attends is asked to bring along well-filled baskets. There will be plenty of coffee, but you must take your own cup and sugar.

President of the association, Uncle Bill Rains, requests that everyone come prepared to have a good time, meet old friends and renew acquaintances made back through the years. He urges very strongly that there be plenty of food brought along, as everyone like to eat hearty at a picnic.

#### DUE FOR ARMY SERVICE

Word was received here this week that W. T. (Ted) Willie had received his call to report for selective service August 16th, from El Paso where he is now living.

Young Willie is well known here, having lived here most of his life.

registered Chester White females of outstanding breeding. The chapter owns a highly bred chester male.

James Vick, Billy Jack Land, Marvin Ray Jordan, Jr. and Gene Bulman, Russell, Ray and Royce Morris, Jack Riley, C. G. Kirkland, Harry and Dwight Blair, H. A. Harrison, Dennis Rattan, and Billy Stapp, own outstanding Poland China females. In addition to the club boys, C. E. Bairfield, Clarence Bairfield, Richard Cannon, and Carl Morris also have top blooded Poland sows, and the F.F.A. chapter and Charlie Bairfield have desirable Poland boars for service.

J. F. White, Gene Harrison, James Reed Lovell, W. R. Parker, Vernon Goldston, Jiggs Mann, Henry Wilson, Jr., J. B. Knight, J. L. Goodman, Jack Fowlkes, Max Mays, Harold Darby, Ray Graham, Marvin Ray Jordan, C. G. Kirkland and Jack Cobb have top Duroc Jersey Females. J. B. Knight plans to buy an outstanding young male from Charley

Franz's top Duroc Herd to use in Club work; and J. L. Goodman has the old Club Duroc male.

Berks have proved to be a popular breed and Billy and Charles Smith, Joe Smith, C. G. Kirkland, J. L. Goodman, Henry Wilson, Ray Morris, Dania Howerton, and Cecil Woods have Berkshire gilts and sows. The Club berkb ear is stationed at Bill Thornberry's.

Billy Ray Graham, Billy Ray Reid, Wayne and Calvin Naylor, J. R. Morgan, Pete Bromley, Drew and Lee Christie, Billie Joe Christie and Bobby Parker, have Hampshire gilts and sows. Billy Thornberry and Earle Hay have outstanding young herds of spotted Poland Chinas, and Haskell Hay has one of the top boars of the breed in this region.

In addition to the above outlined breeding program, approximately thirty other boys are feeding barrows for the fall fair and market, with pigs proving to be the most profitable method of harvesting the present supply of grain sorghums.

### Donley Receives Beneficial Rain

Today week ago, many Donley county farmers and ranchers were wondering whether their crops would last much longer. Saturday morning they took a different outlook on the matter, for after the 1.98 inches of rain that fell early that morning, the prospects were good for a bumper crop. The rain simply meant the difference of several thousand dollars to the farmers.

The rain, apparently from all reports, was general all over the county. Some sections received more precipitation than others, but it was enough all the way around to be of great help.

Another shower Monday evening brought the total here in Clarendon to 2.30 inches.

#### RALPH INGRAM DROWNS

Word was received here by Miss Jessie Ingram that her brother, Ralph Ingram of Longview, Washington, had drowned while on a fishing trip. He was sixty years old and will be buried there.

#### J. B. LONG RECEIVES LEG INJURY

J. B. Long, who lives about two miles south of Ashtola, received a fractured leg late Saturday afternoon when he was thrown from a bucking horse. It was reported that the horse had neither bridle or saddle and that J. B. didn't have much of a chance.

### Sheriff Nabs Youth For Car Theft

Sheriff Guy Wright caught James Julian near Giles late Saturday afternoon after the youth had stolen the 1941 Ford in which he was driving, earlier in the afternoon at Claude. The car belonged to Roy Strohm of Paint Rock, Nebraska.

Julian's home is in Hall county and he has been serving time at the reformatory at Gatsville and was out on parole.

Officers from Claude picked the youth up Saturday night and took him to Claude where he will answer charges.

### School Openings Announced For August 17 And 31st

Miss Ruth Richerson, county school superintendent, announces that four Donley county schools had planned their opening dates for August 17th. Due to heavy crop prospects and an early fall harvesting, most of the rural schools in the county are rushing things up a bit in order to turn out later on that school children may help with cotton picking and harvesting of the feed crop.

Those schools stepping up the calendar date are Hedley with Chester O. Hill as superintendent. Chamberlain will begin the school term with Mrs. Bill Todd as principal and Miss Zackie Salmon as the primary teacher. At Bray Mr. O. L. Davis will have things in charge and Mrs. O. L. Davis will manage the primary grades. J. M. Baker will hold down the principal's job at Giles, assisted by Miss Virginia Watt as primary teacher.

The following schools have not announced their opening dates definitely, but will probably open August 31st: Goldston, C. W. Howard, principal and Mrs. Howard primary teacher; Jericho, Mrs. Mathews, principal; Skillet, Mrs. Eleanor Bailey, principal; Ashtola, Mrs. Mary Sue Longan, principal and Mrs. Wayne Ewing primary; Martin, Mrs. E. W. Patrick, principal and Miss Wilda Faye Gibbs, primary; Hudgins, Mrs. Ida Whitt, principal.

The Clarendon schools will open Monday, August 31st, but the faculty is not fully decided at this date, but will probably be in shape for publication next week.

County agent H. M. Breedlove of the Texas A&M College Extension Service announced this morning that a meeting of the board of directors of the Donley county show board met in his office on the eighth of August and discussed the fall show and fair. Ten farmers and business men were present at the meeting and discussed all phases of the show and the importance of this show to the county. It was decided by the group to have a two day show this fall. The dates as set by the board were October 9th and 10th, making a two day fair and show.

The agriculture department will feature exhibits from all of the communities in the county. These exhibits will be exhibited by a chairman in the community to be appointed at a later date. Prizes will be given each community that places in the number of places to be set by the committee. H. M. Breedlove was elected to have charge of this department.

The agriculture building will also feature a floral display and a Home Economics department. All persons will have a chance to show in these departments. The displays will be on show for two full days before being torn down. The first day of the show will feature the boys swine show and sale. The committee in charge of the boys swine show is Elba Ballew, well known Donley county swine breeder. Bert Mayfield, another one of Donley's well known swine men was named chairman of the swine sale.

The dairy show will be held the second day of the show in connection with the horse show. Men appointed on the dairy show committee are C. L. Knight, Wes Sullivan and F. S. Clark. The committee for the horse show are Ike Rains, Raymond Pharr and Joe McMurtry.

The poultry show will be held both days of the fair, and heading this committee is Frank White Jr. of the Clarendon Hatchery.

The board voted that the Clarendon Lions Club handle all of the activities in regard to the carnival part of the fair. The carnival will be of local talent and assisted by the Lions Club of Hedley.

The finance committee elected by the board is composed of R. E. Drennan, Cap Morris and Lee Bell with Mr. Bell as chairman.

The chairman of each committee was asked to get together and select the building for the fair and the grounds for the hog show, and the horse and dairy shows.

Carroll Lewis, president of the board called for other business, but it was decided by the board to meet again on the 29th of August, and have all committees report on their activities. Geo. Bagby, swine breeder and secretary and treasurer of the show board, completed the minutes of the meeting and the board was adjourned.

"The meeting met with much success and enthusiasm," Breedlove said, "and the people of Donley county are promised a good fair this fall. Approximately 180 pigs will be marketed at this time, and this will also help the war effort."

#### WM. CAMERON CLOSES YARD HERE

It was announced this week by company officials that due to war conditions the local Cameron Lumber business had been discontinued.

#### HITLER MUST CHUCKLE

A certain group of public officials seem to be doing everything in their power, knowingly or unknowingly, to produce a future electric power shortage.

That is a severe indictment. But the facts justify it. The private electric utilities produce about 85 per cent of the nation's commercially-generated electricity. Electric power is the very heart of the war effort—and expansion of the electric industry to meet increased demand that will come in the future, is vital. Yet a small group of public servants is moving heaven and earth to socialize and destroy private ownership and development of electric power. They are doing that in the face of the fact that a persecuted industry can never be a progressive industry.

A particularly disgraceful example of the rule or ruin tactics recently occurred in Oregon. The Bonneville Administration refused to renew a contract under which it sold power to a private company for redistribution to consumers, unless that company agreed to sell its system if and when Congress authorizes Bonneville to buy existing utilities. It is now selling power to the company on a day-by-day basis, and it will make no guarantee of continued performance. And so the company and its customers—residential, industrial, and agricultural—are completely up in the air.

Concerning this, the Portland Oregonian recently said, "There is a war need that every kilowatt of

energy available be conserved and put to economical use. War does not suspend its demands upon the country's power and fuel supply—while public ownership of public utilities is debated and decided upon." The destroyers of private enterprise are establishing an alien precedent which would make possible the planned destruction of any business. The fact that an adequate supply of electric power may thus be imperiled does not deter them in the slightest. Hitler must chuckle with pleasure when his agents bring him news of the drive to hamstring private industries in the United States which are essential to war production.

#### MINIMIZING DROP IN LIVING STANDARD

You, as a consumer, can do something about that ever-present bogey, the high cost of living, by taking advantage of the information that is being distributed by retail stores in all fields.

The chain systems pioneered this kind of work, and thousands of independent stores have joined in. In the food field, retailers are cooperating aggressively in the National Nutrition Campaign. Through advertising, handbills, posters, store displays, etc., they are showing the housewife how she may prepare nutritious, soundly-balanced and appetizing meals at minimum cost. As nutrition experts have long pointed out, a good diet need not be costly—and many costly diets are inadequate in the minerals and vita-

mins the body needs for health. Some of the least expensive foods are richest in vitamin content—and they may be prepared and served in a wide variety of forms to avoid monotony.

In other fields, stores are doing a similar good work. Shortages of metals, certain kinds of cloth, rubber and other items have made it necessary to produce and sell substitutes. The stores have cooperated with manufacturers and chemists in developing the best and the least expensive substitutes for scarce and costly commodities. As time goes on, more and more substitutes will appear—and retailers can advise you on their merits.

Retailers are doing a big job in minimizing the drop in our standard of living, to the benefit of both your health and your pocket-book.

#### MEN—MACHINES—AND MONEY

Most of us think of war exclusively in terms of men and machines. But there is another essential to the prosecution of war—money.

The role played by banking in this war is, therefore, of the first importance. Men must obtain money to expand their plants—and they go to the banks. Men must receive advice on difficult financial problems—and they go to the banks. Men seek understanding of the many complicated financial restrictions laid down by the government—and they go to the banks. Billions of dollars worth of War Bonds must be sold to the public—and the banks do a large part of the job. The Treasury freezes the vast financial holdings of enemy governments and enemy nations in this country—and it is up to the banks to see that the freeze goes quickly, efficiently and completely into effect.

So the story goes, in a hundred varied fields of financial activity. Banking is in the war to the hilt. Men, machines and money make up the combination that is necessary to eventual victory.

### Radio Waves Kill Parasites In Pork Test At University Of Buffalo; Explained to Physical Society

BUFFALO, April 6 (Science Service) — "Ultra-short radio waves of the kind which is used to produce artificial fever have been used to kill parasites which embed themselves in pork and cause trichinosis. This discovery was reported at the University of Buffalo, before the meeting of the New York state section of the American Physical Society.

The organism which cause trichinosis are called Trichinella spiralis. They live in the muscle tissue of pigs, rats, and man inside protective coating known as cyst.

Doctors who use Radioclast have been eradicating intestinal parasites, intestinal worms, tape worms and the various types of the intestinal virus with this instrument for many years. There is no question but what ultra-short waves can correct all of these and many other conditions difficult to reach by ordinary procedures.

The type of radio wave generated by the Radioclast are much more efficient for treating purposes than the type referred to in the above news item. The heat feature is of little consequence and is the radio waves that do the work. Another important feature is that the ultra-short wave heat

producing instruments are not specific in their treatment. With the Radioclast one can use the actual wave length of the condition to be treated, then pick the specific radio frequency that will neutralize same.

If you are suffering from any unusual condition which has not responded to the so-called orthodox methods of treatment, we would recommend that you have a Radioclast diagnosis which will reveal whether or not your case can be treated successfully by radio waves."

### Bag Limit Cut To Ten On Doves

Regulations governing hunting of white-winged doves, mourning doves, waterfowl, geese and coot in Texas were clarified by the Executive Secretary of the Game Department upon receipt of official copies of the Federal regulations, which often conflict with State laws pertaining to hunting some of these species.

The Legislature as long ago as 1935 gave the Game, Fish and Oyster Commission authority to make State laws concerning ducks, geese and coot conform to Federal regulations. The Commission at its regular quarterly meeting July 17 assented to the recently issued Federal waterfowl regulations, and so there will be no conflicts in laws regarding these species this year, it was pointed out.

But conflicts exist in the dove laws, the Executive Secretary said, principally because the Game Commission has no legislative authority to reconcile them.

The white-winged dove open season this year, according to Federal regulations, will be September 16 to 25, inclusive, thus on the surface giving hunters 10 days of white-winged shooting. It is a fact, however, the Executive Secretary said, that virtually all white-winged doves in Texas concentrate each season in Webb, Starr, Zapata, Hidalgo, Cameron, and Willacy Counties, and a special State law applicable to those Counties forbids shooting of white-winged and mourning doves except on Sundays, Tuesdays and Thursdays during the open season, and then only from 12 noon until sunset.

**RED CROSS VOLUNTEER SERVICE**

**KNITTING**

Helmets have been turned in this week by Mrs. Ed Dishman, Mrs. Frank McClure, Mrs. Ralph Andis, Mrs. Jack Molesworth, Mrs. Hattie Palmer, Mrs. Tom Bugbee, Mrs. Frank Hutchins and Mrs. M. A. Hahn have turned in sleeveless sweaters and Mrs. A. G. Lane turned in a war production sweater, Mrs. J. W. Smithey, Mrs. Alta Angel and Mrs. Mae Hayes turned in mufflers. Squares have been turned in by Mrs. Angel, Mrs. Joe Kendall and Mrs. Roy Crutchfield.

Olive drab yarn for the helmets has been issued to Mrs. Floyd Lumpkin, Mrs. G. E. Norwood, Mrs. Frank McClure, Mrs. Ed Dishman, Mrs. A. J. Sibley, Mrs. Ernest Kent, Mrs. A. G. Lane and Mrs. Hattie Palmer.

**Cutting and Sewing**

Mrs. Wilson Gray of the Goldston community has recently turned in a quilt made by the Goldston ladies. No names were given.

Mrs. U. J. Boston, chairman of the cutting committee, has announced several new members that have been added to the committee. They include Mrs. Hattie Palmer, Mrs. Bryan Armstrong, Mrs. J. L. McMurtry, Mrs. M. R. Allensworth, Mrs. C. C. Powell, Mrs. Sam Dyer, Mrs. Rolle Brumley, and Mrs. Lon Rundell. These ladies and others on the committee have been working steadily every day cutting blouses.

Mrs. Earl Myers of Lelia Lake has asked for 100 blouses for that unit and the ladies are meeting at the schoolhouse today (Thursday) and plan to complete the 100 garments in one day.

Ten other blouses have been issued to the Dorcas-Alethean Sunday school class of the First Baptist Church under the direction of Mrs. H. T. Burton.

Last week when the forty blouses were delivered to the Martin community, members of the Martin Quilting club were busy at the schoolhouse quilting for the Red Cross. It was indeed a pleasure to see this group of women working together. The ladies of this community, in spite of all their other work, have given more time and effort to aiding the Red

Cross work than any other group of women in the chapter. Their work is always of the best and always returned on time. They are indeed to be credited for their response to the call of help.

**Home Service News**

Mrs. C. A. Burton, chairman of the Home Service Committee of the Donley County Chapter of the American Red Cross has been kind enough to prepare articles for this column in regard for her branch of the organization. A recent article follows:

Enlisted men of the army when released from active duty for dependency are transferred to the reserve, instead of being discharged. Thus they be subject to recall should need for their service arise. Dependency discharges were suspended by the order of the Adjutant General on Dec. 10, 1941.

Dependents of service personnel are no longer permitted to go to any of the outlying possessions of the U. S. including Alaska. Service families are being removed from all of these areas by such ships as are returning to the U. S.

The new editor of the textbook on Red Cross Home Nursing was made available the 1st of July. More than 6,000,000 copies of the Red Cross First Aid textbook have been sold.

**News Item**

An interesting article regarding the knitted afagans for which we make so many calls for scrap yarn appeared recently in the American Red Cross News Service sheet:

San Diego, Cal. — An afagan made by the McKinley School Junior Red Cross members has finally arrived in England—in spite of the enemy.

Shipped with other Red Cross supplies, the 70-piece knitted cover was found in a crate floating near the shore of Smyrna Beach, Fla., after the vessel on which it first was sent was torpedoed. After being cleaned by the Smyrna Beach Chapter it resumed its journey bearing a water blurred note reading "To our friends in England."

Cousin Ed says the only difference between alcohol and castor oil is that one's a talkie and the other's a movie.

**SUBSIDIZING THE CONSUMER**

Fred S. Sexauer, president of the Dairymen's League Cooperative Association of New York, recently made some illuminating observations on the farm price question.

"Farmers are not looking for subsidies," he said. "All that farmers want is a fair return for the cost of producing the volume of food they are being called upon to supply the United Nations. The real purpose of the subsidy prices being talked about in Washington, is to prevent a rise in food prices to consumers. That certainly is not a subsidy to farmers. It is a subsidy to the consuming public. It is a subsidy to the already high paid workers of industry, whose reward for a 40-hour week is lavish compared to farmers' return for 12, 14 or 16-hour days with no extra pay for Sundays or holidays. While labor is making big money and enjoying a high standard of living, farmers are still only a little better off than during the depression years."

This year farm income will be between 12 to 15 per cent of total national income—and the farm population accounts for 36 per cent of the entire population. That certainly doesn't make agriculture look too prosperous.

## Physical Exercise Is Health Builder

"Physical exercise, despite labor-saving devices, still is one of nature's basic requirements for vigorous health. This fact frequently is overlooked by many middle-aged and older persons who deliberately have reduced exertion to a minimum, permitting gadgets, the automobile and other persons to do for them those things, which, in a less ingenious and abundant age, they would have called on their own muscles to perform. This tendency is being overdone," stated Dr. Geo. W. Cox, State Health Officer.

"For instance, a few days ago a woman of fifty consulted a physician. After relating her vague symptoms, the doctor requested her to outline her daily routine. She said she arose about 9:00 a. m., had breakfast, read the paper, visited with friends on the telephone, had lunch, went to a movie or played bridge, dined at seven, played more bridge or read a book until bedtime. 'You see,' she said, 'I don't do anything.' 'And that, madam, is exactly your trouble. Sit-down recreations have got the best of you. Exercise, not pills, is what you need.'

"While an extreme example, this case serves to illustrate a lesson that well could be taken to heart by many men and women of middle-age or older. Substituting inclinations and inventions for physical activity definitely is not in line with nature's plans for the best achievable health.

"Of course, there is no desire to imply that the middle-aged and older should make a fetish of exercise. Indeed, a rigid exertion schedule might be harmful. The daily walk, physical interest in gardening, a moderate game of golf or other sport, if the doctor approves, should meet the re-

quirements nicely. The regularity, not the severity, of the exercise in the fresh air is the big factor.

"Of course, some folks can 'lazy' through life and apparently live happily, healthily and to a good old age. From strictly a health viewpoint, however, they are likely to be the exception rather than the rule.

"Consequently, a little more attention to the fundamental demands of the body and less emphasis upon the 'soft life' is a rule that should be beneficial to many. Even in these speed-up days, leisure still is available to most persons in a measure not thought of a few decades ago. To put some of it to work for oneself in terms of healthful exercise, is good for young, middle-aged, and older persons alike."

**GIANT CARGO AIRPLANES SEEN AS REMEDY LIKELY TO REPLACE GROWING SUBMARINE MENACE**

There is nothing basically new in the idea of using cargo airplanes to supplant water-borne transport. It has long been urged by such authorities on the strength and the adaptability of airpower as Major de Seversky. And Hitler himself has made excellent use of the cargo plane. In the Crete campaign, for instance, the British had superiority in seapower. But the Germans took to the air, and used their air freighters to bring in men, materials and supplies. The result was that British sea superiority proved to be of almost no importance. The British men-of-war dominated the sea lanes—but they could do nothing to the Nazi air transports which flew safely by overhead.

What is new is the magnitude of the plan recently proposed by Henry J. Kaiser, and supported by a number of the principal builders of aircraft. The German planes so far used have been relatively small—Mr. Kaiser envisages air freighters of 200 to 500 tons. The German planes, due to the Reich's geographical position, have not had to have any great range—Mr. Kaiser envisages freighters which can cross the seas and still have capacity for tremendous amounts of cargo. The German planes, it is believed, were and are being produced slowly and in relatively small numbers—Mr. Kaiser talks of building planes of vast size under a mass-production system which will turn them out almost as quickly as Detroit assembly lines used to turn out motor cars.

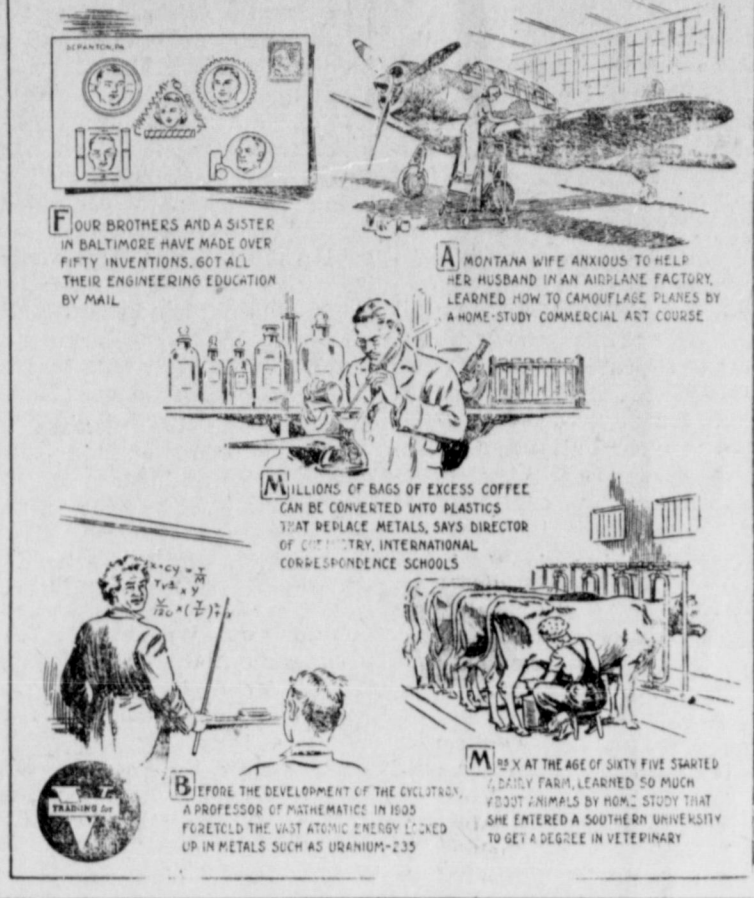

No one can deny that the cargo plane idea, if it is workable, will prove at least a partial solution to the most difficult problem the United Nations face. So far as production for war is concerned, this country has generally realized the "arsenal of democracy" goal laid down by the President. But getting that production to the far-flung battlefronts of this global war is a very different matter. The hard truth is that the Axis is sinking more ships than the United Nations can replace—and it is sinking with them an enormous amount of vital supplies. The Navy has not been able to solve the problem. And some authorities are convinced that it is basically insoluble—that terrible losses will continue and perhaps mount, unless and until the freighters leave the water and take to the skies.

Even the biggest cargo planes so far built cannot carry a great deal in one trip. But, over a period of time, their speed will make up for that lack. It is said, for instance, that 40 flying boats of the 70-ton size are equal to a 10,800-ton Liberty ship in carrying capacity. An ordinary freighter can make only three round trips to and from Australia in the course of a year—and a cargo plane can make 26. A cargo plane might make 70 or more round trips carrying freight and troops to England.

So far as the practicality of the planes themselves is concerned, there seems to be little question. The gigantic flying boat "Mars," built as an experiment by the Glenn Martin Company, has proved completely successful in its trials. The Army's B-19, largest land plane ever built, has also proved its worth. And far bigger planes still are now on the drawing boards of the designers.

The advocates of cargo planes also say that they would be extremely difficult to intercept and destroy. Their range and speed would be so great that they could constantly change their routes. When approaching their destinations, Allied fighters could be sent out to screen them and bring them in. Due to the time element

**WHAT WE WANT IS TIRES**

The charge that oil companies have deliberately blocked the production of artificial rubber for mercenary reasons is an example of political buck-passing of the worst type.

One of the largest oil companies recently stated categorically that it "supports and will fight for just one program for the production of synthetic rubber. That is, whatever program the government adopts to give our nation the most rubber in the shortest time, from any raw material whatsoever, and with the least possible drain on vital construction materials." That is the policy of the industry generally.

What has delayed the synthetic rubber program is inexcusable political manhandling. Bureau after bureau has stuck its finger into the pie. The public has been fed one conflicting opinion after another. Only recently has any order come out of the chaos—and only recently has any real start toward solving the problem been made.

Whether synthetic rubber can best be made from petroleum, grain alcohol or anything else is a chemical problem, not a political problem. The oil industry, like the rest of the country, wants results. Its interest, like the interest of all of us, lies in getting tires in the shortest possible time, irrespective of the process used to manufacture them.

alone, merchant ships must closely follow certain definite and prescribed routes—and they must, at the end of their journeys, converge on ports which are known to the enemy. The planes, in brief, would be infinitely more flexible.

Steps are being taken to get the Kaiser program started. The skeptics are waiting and watching with their fingers crossed—while the plan's backers seem to have no doubts at all. Inside a year, the country should know which side is right.

**JUDGE E. C. NELSON**

Candidate for Chief Justice Court of Civil Appeals Saturday, Aug. 22nd

**DOES TRAINING COUNT?**  
If not, why have schools and colleges? Judge Nelson has had the best literary and legal training our country affords.

**DOES EXPERIENCE COUNT?**  
Should a Chief Justice have had some actual experience as a practicing lawyer? Should he have had some experience before the Court he seeks to preside over? Judge Nelson has had years of experience, both as a practicing lawyer and as a trial judge.

**SHOULD REPRESENTATION BE EQUAL?**  
The Lubbock area already has one of the judges of this Court; and the Vernon area has one. Isn't it fair for the northern part of the district to continue to have a representative on the Court?

**WHO SHOULD CHOOSE THE CHIEF JUSTICE?**  
The people? Or a group of Lubbock lawyers? Judge Nelson did not ask any group whether he might run for the office; and he has not sought any endorsements. If elected, he will be under no obligations to any such group. He will be able to chart the course of the law fairly for all. Is that what you want? If so—VOTE FOR JUDGE E. C. NELSON.

### Allred To Seek 25-Cent Cotton, Labor Regulation

James V. Allred, driving hard down the campaign trail in the "run-off that wasn't going to be," continued to stress his win-the-war, win-the-peace issues, together with his platform for bolstering home-front economy during the tremendous war effort.

The U. S. Senatorial candidate has declared with forthright emphasis for regulation of labor and "outlawry of vicious practices," for "real parity" for agricultural products—including the pegging of cotton at not less than 25 cents for the duration—for a permanent law reducing the rate of interest on government farm and ranch loans to 3 per cent and for extension of the rural electrification program.

Allred pledges that if elected,

he will introduce and push to passage a bill prohibiting any enforced initiation fee, permit fee or dues in defense industries. "In the event a defense worker joins a union he shall be charged not more than one dollar initiation fee and one dollar per month dues on war work for the duration of the war," he declared. "I will also support legislation to prohibit strikes or sit-down strikes anywhere, any time; to put teeth into the law prohibiting 'kick-barks.' The people of this country are not going to tolerate any interference with our war effort on the part of labor, business, or any other group. As your United States Senator I will see to it that the people's will in this respect is carried out."

Regarding his agricultural program, Allred declares frankly: "Unless the farmer is guaranteed a sufficient price to take care of his increased costs, to encourage farm labor and provide an incentive, unless the present trend is stopped by prompt and effective

action, the struggle can be lost. It is a lamentable and unjust situation when the patriotic farmers of Texas are not able to buy their portion of war bonds because they haven't got the money. I believe that a 25 cent minimum price for cotton would permit farmers now struggling against higher costs of living and labor to participate equally with other groups in the buying of war bonds. A real, not a theoretical parity price for cotton would provide the necessary additional income that must be had to equalize farm work with that of others engaged in the war effort.

"I shall take the message to Washington that anything less than a 25 cent minimum on cotton for the period of the war is unthinkable; that anything less than fair and equitable prices for all farm and ranch commodities is unjust. If anyone in Washington or Texas should say that this is not supporting the policies of the administration, then they must say it."

**ARMY COBBLER**—How the shoeless Continentals at Valley Forge would have envied the United States soldiers of today when the Army carries to the field every facility for keeping footwear whole and comfortable!

Despite the modern mechanization of the armed forces, shoes are still a most important factor in the soldier's equipment. An Army shoe lasts about four months and in that time is re-soled twice. The shoe then is ready for salvage, and from this Uncle Sam also derives a percentage. With the latest equipment and skilled repairmen some of the camps and posts can turn out 900 pairs of re-soled shoes a day, according to the Quartermaster Corps. Millions of shoes have been bought for the Army since it is estimated that each man in the fighting forces will require 10 pairs during his period of service.

**ON THE HOME FRONT**  
 \*\*\*\*\*

During the last week, civilians on the home front got the answer to one of their worries of six months ago: Whether our great civilian industries could be converted to war production in time. The answer came from Chairman Donald Nelson of the War Production Board, who said that our factories will turn out a total of about 45 billion dollars worth of weapons and military supplies and equipment this year. And, he expects the figure to rise to 70 or 75 billion in 1943.

This statement means more than comfort to the Home Front. It also means that we now are shooting the works for war, and as a result civilians are going to have to do without all the products that formerly came out of those factories that have been converted.

But, doing without is a civilian duty during wartime. We must do without many things now so that we may have many more things, in addition to peace, after the war is won.

With war production figures reaching colossal proportions—on a scale never before attained—it means that almost nothing in the way of durable goods such as autos, appliances and gadgets for civilian use will be made for the duration.

It also means that to feed the furnaces for war production, raw materials in unprecedented proportions are going to be necessary, and salvaged materials, highly vital among the materials, are going to have to be supplied in greater quantities. With a better job of salvage than we have been doing demanded, the WPB is pressing its new and continuing national salvage campaign. We've got to stay on the salvage job until the war is won.

With discontinued manufacture of thousands of civilian items already effected—bathtubs, golf clubs, musical instruments, toys, vending machines, fishing tackle, etc.—the WPB added another long list of items in a new "stop" order during the week.

The new list for which iron and steel cannot be used after a specified deadline includes such things as garden tools, hospital equipment, merry-go-rounds, magic lanterns, umbrella shafts and vanity cases. The metals thus saved soon will be in the hands of our soldiers who can reap a far better harvest with a Garand rifle than with a hoe, or get into the thick of things better with a tank than a merry-go-round.

### Radio Instructors In Demand

Civilian radio instructors are urgently needed for duty in connection with the war program at Kelly Field, San Antonio, Texas, the Tenth U. S. Civil Service district announced this week.

Two years of experience as a commercial radio operator are needed to qualify for appointment at \$2600 per year. For appointment at \$2000 a year, possession of a First Class Radio Operator's license, a First or Second Class Radiotelegraph Operator's license, a Restricted Radio Telegraph Operator's license or a Class A Amateur Radio Operator's license will qualify, or six months of appropriate experience as a radio operator.

Junior stenographers who can take dictation at 96 words per minute are also urgently needed in Washington, D. C. \$120 per month is the entrance salary for junior stenographers, and 18 years the minimum age limit.

Positions in Pearl Harbor and the Panama Canal Zone for various craftsmen are also open, with applicants urgently needed, particularly in aircraft and marine lines.

In formation on all positions except the radio operator can be obtained from any first or second class post office in Louisiana or Texas, or from the manager, 10th U. S. Civil Service district, Customhouse, New Orleans. Applicants for the radio operator's position should write directly to the New Orleans district office.

Join the Navy, sail the high seas, and help cut our nation's enemies off at the knees!

### INVASION JITTERS

The recent parade of crack Nazi divisions in Paris was obviously designed for propaganda purposes both at home and abroad. In effect, Hitler told the world that he was ready to resist a United Nations' invasion of the German-held continent of Europe.

In the meantime, the English seem to be carrying out their big scale air raids on German industrial areas as often as they can. The English have a great many first-class bombers—but they lack fuel and other supplies. That is probably the reason for the delays between raids.

**H. J. A. No. 1**  
**A JOINT RESOLUTION**  
 proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under

oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made

known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:

"For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words:

"Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

Sec. 4. The sum of Five Thou-

sand Dollars (\$5,000.00), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election. (26-c)

**H. J. R. No. 23**  
**A JOINT RESOLUTION**

proposing an Amendment to Article 3 of the Constitution of the State of Texas authorizing the lending of Two Million Dollars (\$2,000,000) of the Permanent School Fund for the construction of a State office building or buildings; providing for repayment to the Permanent School Fund; providing for the submission of this Amendment to the voters of this State; and providing for the necessary proclamation and expense of publication.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. That Article 3 of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 49-b, which shall read as follows:

"Section 49-b. The Legislature may provide by law for the issuance of not more than Two Million Dollars (\$2,000,000) in bonds or obligations of the State of Texas as to the Permanent School Fund for the construction in the City of Austin of a State office building or buildings, and the State Board of Education is hereby directed to invest not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund therein. Such bonds shall be executed on behalf of the State of Texas by the Governor and Comptroller, and shall bear a rate of interest not to exceed three (3) per cent per annum, payable annually; they shall be of such denomination as may be prescribed by law, and shall be payable in not to exceed twenty-five (25) equal installments beginning one (1) year from date of issuance; and the State Treasurer is hereby authorized and directed to set aside into a special fund annually at the beginning of each fiscal year until all of said bonds shall have been paid off and discharged, a sufficient amount of the first moneys coming into the Treasury for the use and benefit of the General Revenue Fund not otherwise heretofore obligated to the payment of bonds and interest, a sufficient amount to pay the interest becoming due and the bonds maturing during such fiscal year. From said Fund, the Treasurer shall pay the interest on said bonds as it comes due, to the credit of the Available School Fund; and shall pay off said bonds as they become due and deposit the amounts so paid to the credit of the Permanent School Fund. The power hereby granted to issue bonds is expressly limited to the amount stated and to five (5) years from and after the adoption of this grant by the people."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at an election to be held on the third day of November, 1942, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words: "For the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Those voters opposing said Amendment shall write or have printed on their ballots the words: "Against the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have it published as required by the Constitution and existing laws of this State.

Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary is hereby appropriated out of the State Treasury not otherwise appropriated to pay the expenses of said publication and election. (26-c)

**H. J. R. No. 24**  
**A JOINT RESOLUTION**

proposing an Amendment to Article V of the Constitution of Texas by providing that the Legislature shall have the power by local or general law, in counties having a population in excess of two hundred thousand (200,000) inhabitants to create other courts having exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters; fixing the time for an election therefor; prescribing the form of ballot; providing for a proclamation of such election and the advertisement thereof; and making an appropriation therefor.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. Article V of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 22-a and reading as follows:

"Section 22-a. The Legislature shall have the power, by local or general law (without the necessity of advertising any such local law), in counties having a population in excess of two hundred thousand (200,000) inhabitants according to the then last Federal Census, to create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at a special election to be held on the first Tuesday after the first Monday in November, 1942, at which time all voters favoring such proposed Amendments shall have written or printed on their ballots the following:

"For the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Those voters opposed to such Amendment shall have written or printed on their ballots the following:

"Against the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

If it appears from the returns of said election that a majority of the votes cast is in favor of the Amendment, the same shall become part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have it published as required by the Constitution and existing laws of this State.

Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary is hereby appropriated out of the State Treasury not otherwise appropriated to pay the expenses of said publication and election. (26-c)

**PRAIRIE CHICKEN PUT TO ROUT BY LONE PHEASANT**

Prairie chickens, vain creatures, try to chase each other off the "booming grounds" when courtship begins in the Spring. But recently a bunch of them got their hands called. A straggling ring-neck pheasant cock showed up while the prairie chickens were calling their mates on a booming ground in Wheeler County. The pheasant chased all the prairie chickens away after a thrilling fight, according to the Game Department biologist in that area.

The pheasant is not a native Texas bird. The straggler's appearance in Wheeler County probably was the result of the release of a number of ringnecks in the Canadian River bottoms several years ago.

Mrs. W. H. Davis arrived Saturday night for a visit with her daughter, Miss Carrie Davis.

O. C. Watson had business in Amarillo Tuesday.

**NAVY FILMS SHOWN HERE MONDAY NIGHT**

An enthusiastic crowd of several hundred people witnessed the showing of the Navy films here Monday night at the Cozy Theatre. The films were shown by Yeoman Elliott McClung, representative of the publicity department of the U. S. Navy Recruiting Station at Dallas.

The films shown depicted American sea power, above and under water. The life of the sailor was shown, revealing him both at play and at his given task.

Yeoman McClung gave a brief talk explaining the duties of the Navy men and how they are schooled and trained according to their talents. He stated emphatic-

ally that all men entering the Navy are volunteers and not in the history of the Nation has the Navy been forced to draft men to fill its quota.

The Navy is now conducting a campaign to last through August and September to obtain enough enlisted men to fill the requirements needed by our two-ocean Navy. The Donley County quota for each month is seven men or a total of 14 for the two months.

**RETURNS TO CALIFORNIA**

Lu McClellan Jr. returned to the Naval training station near San Diego, California Tuesday night after spending a few days with homefolks. While here, he stated that "he liked his work fine and thought his superior officers were mighty fine men."

**Percival Family Has Reunion**

Children of Mrs. N. S. Percival gathered at her home Sunday, August 9th for a family reunion. A delicious chicken dinner was served at the noon hour to the following: Mrs. Norma Bearden and son, George Tozer, Mr. and Mrs. N. S. Percival Jr., Mr. and Mrs. J. W. Toler and children, Betty Pearl and Jimmy; Mrs. George Goodman and daughter, Pauline; Mr. and Mrs. S. J. Gasway, all of Amarillo; Mr. and Mrs. H. L. Percival and children, Ralph, Jeanne and Billy Joe and Mr. and Mrs. W. O. Percival and son, Charles Dean of Clarendon.

Out of state relatives who arrived Friday, a daughter of Mrs. Percival, Mr. and Mrs. Phillip Bianchi and daughter Beverly June of Valley Forge, Calif. After a 10 day visit with Mrs. Percival they will visit the above relatives in Amarillo before returning to California, the 1st of Sept.

**Urgent Call For Radio Men**

An urgent call for men interested in radio work was issued today at the U. S. Navy Recruiting Station at Amarillo.

Operators, repair and service men and technicians between the ages of 17 and 50 years are especially wanted for enlistment in petty officer ratings with beginning pay ranging from \$78.00 to \$96.00. Inexperienced men between the ages of 17 and 28 years may be enlisted as apprentice seamen with beginning pay of \$50.00 and, if qualified in accordance with standards for entrance in Navy service schools, be assigned to Navy radio school upon completion of recruit training. Men who fail to qualify for or in radio school will be retained in the naval service in rating and pay in which qualified to hold.

All enlisted men of the navy receive 20 per cent addition to base pay for sea service or foreign duty. Married men are also allowed extra pay for their family.

**JIMMIE ALLRED HERE FRIDAY**

James V. Allred, candidate for United States senator, was a Clarendon visitor Friday, meeting the voters and greeting former acquaintances made in past campaigns. After leaving here, Jimmie's schedule called for a trip down the Ft. Worth & Deaver Railway to Wichita Falls where a big rally that night was being held in the interest of his candidacy for U. S. Senator.

**SELECTED FOR AIR SERVICE**

Mrs. M. D. Buchanan of Clarendon has received word from the commanding general at the Santa Ana Army Air Base in California that her son Cordell Buchanan had been selected by the Classification Board for pilot training in the United States Army air forces.

Young Buchanan will be sent to a preliminary air training school and then on to active flying training from which he will receive his wings.

**Church of Christ Revival At Lelia Begins Aug. 14**

The Lelia Lake Church of Christ will begin a revival this Friday, August 14, which will continue through Sunday, Aug. 23rd. R. L. Colley, well known Evangelist from Memphis, Tenn. will

R. L. COLLEY

conduct the meeting. Mr. Colley is a forceful speaker and is noted for his fine gospel messages.

The revival will be an open air meeting unless the weather will not permit. Services will be held both morning and night. Morning services will begin at 11 o'clock and the evening services at 9:00. Everyone has a cordial invitation to attend this revival.

**Man Dies From Severe Burns**

Funeral services were held at the Buntin Funeral Chapel Tuesday afternoon for Joe Wesley Johnston, aged 58 years. Rev. E. L. Moody officiated.

Mr. Johnston died as a result of serious burns received about 7:30 Saturday evening. It was reported that he was servicing a stationary engine near the Clarendon Gin and set a can of gas on a battery and shorted it out, causing the blaze. He was employed by Williams Bros. Corp., Tulsa, Okla., a pipeline crew that is taking up a pipe line west of town.

He is survived by a daughter in Buckner's Orphans Home, Dallas. Two brothers and a nephew attended the services. Burial was in Citizens Cemetery under the direction of Buntin's Funeral Home.

**ENLISTS IN AIR CORPS**

**RECEIVES COMMISSION**

Lt. Kenneth Brown, son of Mr. and Mrs. Frank Brown, received his commission at Albany, Georgia last week and is now stationed at Langley Field, Virginia where he has been assigned to one of the big B-17 Boeing Flying Fortresses. Kenneth returned from Canada June 15 where he had been in training with the RCAF.

**CHAMBERLAIN SCHOOL BEGINS AUGUST 17**

The Leader is authorized to announce that the Chamberlain school will begin August 17th. Due to fall cotton picking, the school will begin early in order to off set the time lost when school is suspended for crop gathering time. A heavy crop is anticipated and all available help, including the older school children, will be in demand.

Bill Todd, principal for the last several years, will not be with the school this year, but will be in the armed forces. Mrs. Bill Todd will be the principal and Miss Zackie Salmon will be the other teacher, this coming term.

Mr. and Mrs. Kenneth Fink and son K. Mack of Childress visited his mother, Mrs. Earl Lea Sunday.

**W. LEE O'DANIEL HERE MONDAY NIGHT**

W. Lee O'Daniel, junior senator from Texas, made a talk here Monday night in interest of his candidacy for re-election to the U. S. senate. Falling rain cut down the crowd considerably, but the Senator made his usual appeal. Supporters of O'Daniel claim he made a strong and convincing talk.

Voters in the first primary gave O'Daniel the lead in Donley county with Allred coming in second.

**VISITS AUNT HERE**

Miss Stella Carter and Mrs. Anna O. Bryas of Ft. Worth visited in the home of Mrs. M. C. Reed Saturday. They were on their vacation to Denver and Colorado Springs. Miss Carter is a niece of Mrs. Reed.
