## Plans Being Completed For Donley County Fair, Horse Show and Races

The Donley County Fair, Horse show and races to be held in Clarendon on Sept. 30th and Oct. 1st is in full swing -- the plans are being completed for the fair and all committees are at work. Communities are being contacted in regard to agriculture displays and county agent H. M. Breedlove says that ten communities have already pledged to have displays and more are to be contacted.

Letters have been received by the county agent from people to show horses in the show and to run horses in the races from as far as Clayton, New Mexico and Wichita Falls, Texas.

Miss Ruth Richerson reports that the three home economics classes in the county will have displays and premium money will be \$25.00 for first place and ten dollars for the remaining two places.

The nine departments in the fall fair will include: horse show, races, community agriculture displays, home economics exhibits, flower show, merchants displays, poultry show, dairy show and the boys swine show.

The fair will be held at the fair grounds on the Brice highway in Clarendon.

## Now Is The Time To Treat Storage Wheat For Weevils

Farmers in Donley County who have wheat in storage for the government loan are responsible to see that weevils do not get in the wheat. County agent H. M. Breedlove says that Ethylene dichloride and carbon tetrachloride mixtures are the best methods to keep weevils out of wheat and to kill them after they get in wheat.

This mixture is cheap, non-flammable and effective and does not harm germination of the seed regardless of the dosage. It is made up of three parts of ethylene dichloride and one part by volume of carbon tetrachloride. It is applied with a watering can or sprayer on the surface of the wheat at the rate of six gallons per 1000 bushels of wheat. It does not taint the grain which remains palatable and safe for both livestock and human consumption. The preparation comes already mixed and can be bought from dealers in Clarendon.

Breedlove advises that September is a good time to give wheat in storage the first treatment and never let the weevil get started. Treatments can be used later on at intervals when necessary. It is a good idea to treat your wheat now and the county agent asks that any one needing additional information to call by his office.

Mrs. Bennie Roberts and baby are visiting her mother, Mrs. Crow at Quahah this week.

## Moisture Total Still Growing With Another 1.69 Inches

Lots of folks have certainly been taking advantage of the growing moisture total this past week and have been sowing lots of turnip seed and other greens. Practically every grocery store was out of seed by Tuesday but another supply has arrived, so you can still join the others and get that winter greens patch started.

1.69 inches of rain has fallen since last Thursday and this gives us a yearly total so far at 23.24 inches according to the official weather station at the airport.

A. B. Bynum was here from Lelia Lake Tuesday on business.

## Polio Epidemic Emergency Drive

News of a Polio Epidemic Emergency Drive was flashed to the Nation at large last night when Mr. Basil O'Connor, President of the National Foundation for Infantile Paralysis, explained the gravity of the situation in a coast-to-coast radio hook-up.

The increasing number of cases nation-wide, and the consequent drain on both national and chapter resources to the danger point permit no other alternative. For the second time in two years polio has struck the nation with unusual violence. Last year was the worst polio year since 1916 and this year the toll will be even greater.

Here in Donley County, as in thousands of other communities, the 1949 March of Dimes funds, as well as the accumulation of other years, have been completely wiped out in caring for the stricken of Donley County. Donley County has suffered five cases of polio this year and we must continue to provide funds for the stricken.

Mrs. Johnnie Blocker, Donley County Chairman, said this morning, "This is an emergency appeal. The stricken need your help NOW--they cannot wait until next year's March of Dimes. Please make your contribution to the VOLUNTEER worker who calls on you--and PLEASE GIVE GENEROUSLY."

## Ross Brown Produces First Bale of Cotton

Ross Brown, tenant farmer on the Frank Hommel farm 4 1/2 miles northwest of Clarendon, brought in the first bale of cotton to be ginned from the 1949-50 crop last Friday and netted a nice sum of money for his efforts. The 584 lb. bale was ginned from 2,260 lbs. of seed cotton. It graded low midling and sold for 27c a pound.

In addition to the sale of the cotton which netted \$157.68, he received \$203 in extra premium money which was made up by local merchants and individuals. The cotton was ginned at the E. F. (Bert) Smith Gin free of charge which gave Mr. Brown a total of \$360.68 and his cotton seed from the one bale of cotton.

### LOCAL POSTAL RECEIPTS SHOW STEADY GAIN

Postage stamp sales through the Clarendon post office for the month of August totaled \$1,438.25 and a gain of \$183.57 as compared with August of '48.

This is tops for August since the same month in 1945 which was an all time high for the local office with receipts of \$1,589.47. Sales for August in 1940 was \$962.86.

Metered canceling machines are now being used in the offices of the Donley County State Bank and the Kelly Chamberlain Insurance Company. It is understood that other machines are to be put in service here soon.

A wedding Ring is like a tourniquet; it stops your circulation.

### CAR TITLES GIVING TAX OFFICIALS MORE WORRY

The tax officials at the court house want to remind their many potential customers that it is absolutely necessary that all car titles must be notarized before being presented at the tax office for transfer to another person. The person owning the car is required by law to sign over the title before a Notary Public and the trouble in the past has arisen from the person signing the title in the absence of a Notary. The tax officials are asking that you have your papers in proper order before presenting them as they will not be accepted otherwise.

### Fifth Polio Case Reported Here This Week

Joe Naylor, son of Mr. and Mrs. Carl Naylor and student in Senior High School, was carried to the polio clinic at Plainview Tuesday night. It was reported that his left leg was completely paralyzed which was an almost positive sign that he had polio. Confirmation from the clinic had not been received late Wednesday. This will make the fifth case of polio for Donley County this year.

### Local Club Ladies Offered Patching Residence

The children of the late Mr. and Mrs. F. G. Patching have offered the club ladies of Clarendon the Patching family home place in the southwest part of town in memory of their parents. Arrangements are under way now to accept the Patching home and J. R. Porter has been authorized to draw up the deed whenever everything is in proper order. If everything goes according to plans, the Patching home will be used by the club ladies instead of the regular club room in the City Hall.

This residential structure which was built around the turn of the century and purchased by Mr. and Mrs. Patching in 1909, has 13 rooms not counting bathrooms, halls, etc. 6 downstairs and 7 upstairs.

It would make a beautiful and appropriate place for the various clubs to meet and would make an outstanding memorial to this prominent pioneer couple who cherished their home in Clarendon and always enjoyed living here.

The Clarendon Bronchos will open their 1949 season this Friday night against the Claude Mustangs on the local field at 8 p. m. This is expected to be a good opener as both teams will be out to try their strength, and another thing, the Claude quarterback, Ray Thompson, will be in there doing his best to lead his team mates to victory over the Bronchos. Many of you will recall that young Thompson was one of the leading players on the Clarendon Jr. High Colts team here last year.

Coach Clinton reported that the Bronchos were in good condition for the game and should win if they all get in there and play like they have in some of their practice scrimmage games. All of the boys reporting for the Bronco squad have really been working hard, out on the practice field, and deserve all the backing they can get from local fans. A number of fans who have been out most every evening watching their practice, believe they have very good possibilities, and may do quite a bit of surprising in the district this year.

The probable starting line-up for the Bronchos, starting at left end: Jack Trussell, Guy Tatum, Travis Mulanax, Gene White, Drew Christie, Bobby Whitaker and Leon Mulanax. Jimmy Jenkins will hold down the quarterback slot; Arlie Mooring at left half, Rex Bradford at right half and O'Dell Lagrone at the full-back position.

The probable starting lineup for Claude, starting at left end: Rex Bagwell, Joe Blakeney, Warren Hood, Weldon Hundey, Clinton Lambert, Chas. Maple, and Bill Dye. In the backfield will be Ray Thompson as quarterback, Max Hathorn at left half, Dickie Doyle at right half and Bill Rutherford in the full position.

Be sure to be out and give the Bronchos a good send-off for their first game, and also remember that season tickets are now on sale and you can save the price of a game by buying yours now before the first game.

**SOCIAL SECURITY NEWS**  
 Q—Does an employer need a Social Security number?  
 A—Yes. Actually, it is termed "identification number" rather than "social security number."  
 Q—Does an employer report his own earnings along with the wages of his employees?  
 A—Only if his business is incorporated.  
 Q—Would the partners in a business report their drawings or earnings?  
 A—No. They are considered self-employed, the same as an individual owner.  
 Q—Why does an employer in an incorporated business report his salary, while partners or individuals do not?  
 A—In the eyes of the law, everyone including salaried officers of a corporation are considered to be working for the corporation rather than being self-employed.  
 Q—Then why does an employer need an "Identification Number?"

A—Since many businesses have the same trade name, this number is used to identify their quarterly tax returns to the collector of internal revenue.  
 For further information write the Amarillo social security office or contact the representative when he is in Clarendon. Floyd B. Ellington, Amarillo office representative, will be at the County Court House, Tuesday, Sept. 13, at 9:00 a. m.

## Clarendon Couple Observe Golden Wedding Anniversary

Mr. and Mrs. W. D. Shelton celebrated their golden wedding anniversary Sunday, August 28th with open house at their home near Clarendon. Daughters and sons of the couple greeted and presented the guests to the honored couple. Mrs. E. M. Glass secured names for the register where one hundred and fifty signed and offered their congratulations and best wishes.

Throughout the entertaining suite were beautiful bouquets of yellow roses, and other seasonal flowers. The tea table was covered with a cut work linen cloth imported from Germany. The table was centered with a three-tiered wedding cake decorated with white and yellow roses topped with a golden anniversary wreath. This was a gift from the grandchildren.

Visiting was in order through the afternoon as golden punch was served from a crystal service by Mrs. E. W. Bromley and Mrs. W. I. Rains, alternated by Mrs. C. A. Wood of Amarillo, Mrs. A. L. Wall of Hereford, Mrs. Herlie Moreman of Brice and Mrs. Chas. Meacham of Memphis. Mrs. L. T.

Shelton, Mrs. Richard Moreman, Mrs. Joe Pfeiffer of Amarillo and Miss Sandra Shelton assisted in serving the guests with cake squares iced in white, decorated with yellow roses. Plate favors were white wedding bells tied with gold metallic ribbon, with the names and dates—Dayton and Julia—1899-1949 printed on them.

The many lovely and useful gifts were on display in the bedroom where Mrs. Dick Shelton, Mrs. W. C. Bridges and Mrs. J. D. Riley were in charge.

Mr. Shelton was born in Jack County and made his home with his parents until he was fourteen years of age. He then helped drive a herd of cattle to Donley County. Soon after his arrival here he began working for the RO Ranch, also worked on several other ranches. He served in almost every capacity from bronc breaking to being the head chef of the chuck wagon. Mr. Shelton still enjoys riding horse back and is a strong believer in doing all work possible in the saddle.

Miss Julia Crowford was born in Navarro County. At an early age she came to Giles to make her home with her sister and brother-in-law, the late Mr. and Mrs. E. H. Watt. Here was culminated the plans made by cupid in bringing together this young couple. On

August 30, 1899 they boarded the train at Giles for Quanah, where they hired the best livery rig the town could boast of which was a surrey with a fringed top drawn by a pair of black horses. Seated comfortably, the driver with the happy pair and the minister Bro. Griffin, set out for Greer County, Okla. and there on the banks of Red River in the presence of one witness T. P. Shelton, brother of the groom, resulted this union which has lasted for half a century. Mr. Shelton rode a bronc to Mangum, Okla. to secure the marriage license. It took him three days to make the trip. He declared the horse pitched all of the last mile on the homeward stretch. They did not dream of a honeymoon. They have seen many changes in ranching and house-keeping methods during their fifty years together. They are very active. Mrs. Shelton keeps the home going, doing most of her work. Mr. Shelton states that his memory of a cowboys life was a hard one, but it had its many advantages and pleasures. He also stated that if he had to make the choice of what life he would live again, he is certain he would choose that of a cowboy on the range. They have lived the life of a true Texas pioneer, faced by perils of drouth, sandstorms, rattlesnakes, prairie dogs, and raiding Indians; their slumbers disturbed by the howls of the coyote and the dreaded lobo wolf. But happy in their companionship of each other and their friends, they have helped make this country what it is to day. Too few couples is given the happiness of fifty years together. Friends and relatives were glad indeed to meet with them in the celebration

of this wonderful event, reminiscing of old times forever gone. Greetings were received from various parts of Texas, Oklahoma, New Mexico and Oregon.

To this union four children were born, Mrs. L. E. Moreman of Amarillo, L. T. Shelton of Clarendon, Mrs. Sam Robertson of Amarillo, Dick, Shelton of Memphis.

Grandchildren, Richard Moreman of Amarillo, Mrs. Joe Pfeiffer of Amarillo, Douglas and Sandra Shelton of Clarendon and Stephen Shelton of Memphis.

Two great grandsons, Rickie and Dannie Moreman of Amarillo. This was a very unusual occasion for Mrs. Shelton as there were four generations present, and she being the third of the Crowford family to celebrate their 50th wedding anniversary.

They have indeed climbed the hill of life together, and as they travel down the other side and approach the evening of life, may they have many more happy years of wedded happiness.

**Health Notes**

AUSTIN—The Texas State Department of Health during the first seven months of this year has a record of the examination of 2709 animal heads for rabies and of this number almost one fourth were found positive, said Dr. Geo. W. Cox, State Health Officer.

Rabies is transmitted to man through a bite or having a cut exposed to the saliva of a rabid animal. If a person is bitten, the offending animal should be penned, if possible, for a period of at least ten days. If the animal is in the infective stage, he will die within this time. This does not mean that he may not be in the noninfectious or incubative stage and develop rabies later. All dogs bitten by a rabid animal should be confined six months. If it is necessary to kill the animal, this should be done in such a manner that the brain is not destroyed.

When sending a head to the

State Laboratory it should be put in a container, sealed and packed in ice to prevent decomposition.

Dr. Cox said that rabies is a hard disease to eradicate, but that it could be done if all owners would have their dogs vaccinated each year and eliminate all stray dogs. If you have a dog, get him vaccinated the same as you have your children immunized against diphtheria and smallpox.

Rabies is commonly supposed to be a disease of warm weather, but it is more prevalent during the spring and fall because the dogs congregate and move about more, therefore the chance of exposure is greater during this time. It is true that more dogs are killed during the summer months, but the percentage of rabies is low.

A Baptist minister, Dr. John H. Buchanan of Birmingham, has been named chairman of a committee of 500 to combat mob violence by masked bands in the Birmingham, Ala., area.

## Donley County ACA Farm News

### WINTER LEGUMES:

We are really doing a "booming business" on Winter Legumes this fall. Most all of the producers that come to the office want an approval for Austrian Winter Peas, Hairy Vetch, or other legumes. A few of the producers having an approval for Austrian Winter Peas are: Finis L. Hill, J. Ralph Porter, H. A. Swinney, H. T. Warner, Wilson H. Gray, J. P. Holliman, Forrest E. Sawyer, and H. L. Riley. Those having approvals for Rye planting are: A. F. Sprinkles, John Gillham, H. S. Mahaffey, L. T. Mays, Tommy Bain, W. P. Doherty, and R. H. Finch. If you are interested in any of these practices, please come to the office and let us help you. Payment on winter legumes is made according to seed used, and the payment for Rye is \$1.50 per acre.

### NEW LAW:

We told you in last week's news article all about the new law that Congress passed. We are happy to report that this enabled us to raise a lot of the fellows' wheat allotments. If you receive a notice from us asking you to come in to the office, please do so, as it will be to your advantage.

### WHEAT FARMERS:

Flip Breedlove, County Agent, has asked us to advise you to be sure and treat your wheat seed with "cresesan" before you plant it to eliminate smut. Mr. Meers at the Merit Feed Store handles this and will be glad to sell you some.

### FARM STORAGE:

Those of you who have wheat in farm storage be sure to read Mr. Breedlove's article on "Fumigation of Farm Stored Wheat" in this issue of the paper.

### SAME OLD STUFF:

Once again we want to remind you that you can receive a payment of 25c per acre for leaving Stalks & Stubble on the land and also a 25c payment for contour seeding small grains. Come by the office and let us issue you an approval.

### PAYMENT EARNERS:

Those having an approval for 20% Superphosphate are: Roy Roberson, Roscoe Land, Marvin Jones, Buster Riley, Mark Allen, F. C. Crofford, Robert H. Couch, and W. A. Guy. Those having an approval for leaving Stalks & Stubble on the land are: Roscoe Land, W. A. Guy, W. F. Grimsley, and C. C. Carter. Raymond Waldrop and Billy Cooke have an approval to plant grass. William M. Pickering has an approval to deep plow sandy cropland.

### AGRICULTURAL SHORTS:

"Every drop of \$100 in farm income in the past has been accompanied by a drop of \$80 in rural retail sales."

"If there was no National Farm Program, needed crop adjustments would work out in time but the cost to the farm family, to the soil, and to the Nation would be great."

"We could consider agriculture as a burden and treat it as such. Or we can treat it as a basic part of our economy and the foundation of civilized society."

## The Lion's Roar

By O. D. Lowry

The Lions Club held its regular meeting Tuesday, Sept. 6th in the club hall. There were three guests and 84 Lions present.

The Boss Lion announced the Board of Directors meeting for Monday night.

Attendance chairman Allmond announced the fall and winter attendance contest. The plan was adopted by the club. At the end of the contest some fortunate Lion will receive an expense paid trip to the International Convention to be held in Chicago in July. To be eligible a Lion must have entered the contest and have 100% attendance for the thirty-two week period ending April 22. This contest will begin with the September 13 meeting so make your plans to be with us on that day. There are several ways by which you may make up an absence and keep up your 100% standing.

The program consisted of a reading by Jane Johnson and a piano solo by Sybil Head. The club will miss these two young ladies when they leave to attend school, but we wish them the best of luck. Thanks for giving the club this program.

There being no further business the club faced the flag, sang one verse of America and adjourned.

A Common Paper for Common People

Wish to goodness everyone could have heard Mr. Izzard's talk the other night. Everyone was sitting on the edge of their seat, trying to not miss a single word. What a trip, and what a wonderful way he told about it. If I listened right the main thing the people in Europe do is work and work, especially the English. His favorite folks over there seemed to be the Scotch (take a bow Uncle Bob), and the Swiss. He sure did brag on the little Switzerland. Thanks Wes for coming our way.

Most everywhere over the whole of Texas, the Farm Bureau is conducting its annual membership drive. If there ever was a

time when the Farm Bureau done the members a good turn it was this year, when they helped get emergency loans to farmers on the wheat crop. Very little wheat received loans on this emergency basis, but it broke the back of the storage problem once and for good; and most of the wheat crop was accepted for storage and the farmer got the benefit of the regular loan. The Farm Bureau was in there pitching on this and deserves our thanks.

Newest member to the Ain't Smoking Right Now Society is Gilbert Sinclair of Dalhart, Texas. He was recommended for a membership by Herbert Hunt of Claude. Glad to have him in the Club, and I'll take Herbert's word anytime that he Ain't Smoking—Thanks Herbert and Gilbert.

Everyone must have their little ups and downs, and the same is true with any Club of Society, regardless of the insinuations of this Pants Peddling Pride of Wolf Creek. Most of the members of the ASRNS have held out faithful but last week another one fell by the wayside, lost his standing in the club, fell from grace, so to

speaking, in typical non-Baptist fashion. I won't give his name. I don't have the heart to expose him; of the hundreds that have joined he is the second to stomp his toe. Maybe, he will come back into the fold. We still love him like a brother. Anyway, I hope Uncle Jay don't hear about this. Don't anyone tell him a word.

Read this somewhere: All things comes to him who waits, But here's a rule that's slicker; The man who goes for what he wants, Will get it all the quicker.

This from Tony's Scrap book: What's de starts for, Mammy, And why's dere eyes so bright? Dey's to see wif honey, To see black folks at night, An' what's de moon fo' Mammy, An' why's his mouf so wide, His Mouf's foah chawin' white folks

Every day that I live I learn to appreciate my friends all the more. I feel more and more dependent on them for their love and consideration in the battle of

life. Every time that I feel blue someone cheers me up, and when I feel lonesome someone hollers Hello and I forget my loneliness. Anyway, I appreciate so many of the Older Folks reading our column, like for instance Grandmother Nickell. She wondered if she might be kin to my old school teacher, C. L. Nickell of Cleburne. I'll try to find out, and thanks Mrs. Nickell, thanks a lot.

CITY-COUNTY LIBRARY NOTES By May L. Prewitt

The new books to arrive this week for adults are "Let Love Come Last" by Taylor Caldwell, the theme of which this story consists is the conflict between the older and younger generations, between the hard-won wisdom of maturity and the blind self-confidence of youth — each contending for worldly power. It is in the period 1879 - 1907. Then we purchased "The Brave Bulls" by Tom Lea. This book has been in circulation two or three months but continues to be ex-

tensively discussed by our leading book publication reviewers. It is the unfolding of all the elements that shaped the drama of one bull fight, from its birth in the brain of an impresario to its full, unexpected flowering on a sunny afternoon in December.

In the "Speaking of Books" column of The New York Times Book Review, J. Donald Adams writes of Margaret Mitchell, Miss Mitchell who wrote the most popular book of our time, had been in four motor accidents before she was struck down by the car in Atlanta which took her life. The accident which resulted in her death fractured both her skull and her pelvis; in previous mishaps she suffered a fractured skill and splintered vertebrae. The book that won her fame and disrupted her life was undertaken only to occupy and amuse herself while she hobbled about on crutches, she never expected to sell it and never tried to until Harold Latham of MacMillan Co. learned of its existence. She stated that she didn't think anyone but her history-minded family would be interested in a book about the Civil War. And, in the second place, after Harold Lath-

am secured the manuscript, she was utterly miserable with dread of the literary critics.

Since its publication in 1936 about 6 million copies of her prodigious novel has been sold. The sale, which once set a record of 50,000 copies in a day, is still moving at 50,000 copies a year. It has been published in 30 languages, states Life Magazine. During the past year 3 people have read a Library copy here. Our edition is very much into pieces.

A Librarian from another town was saying recently that she had purchased a new edition as it was required reading in their school. This week the Evans children from a rural district brought several usable books to the Library — One, "My Indian Family" by Hilda Wernher. This book is treasured because of its factual material woven into the story. We are quite grateful to the boys for this collection of books. Everyone is thoughtful and cooperative is the chief reason the Library has been a successful asset to our town.

Joe Baten was in town a few days the past week. He stated that he would move his family here for the winter while he remained in South Dakota where he has varied interests.

Mrs. Johnnie W. Beard had a major operation in the local hospital Saturday. She is recovering nicely at this time.

Gillham Jersey Cows Rated as Tested Dams

COLUMBUS, O.—Two registered Jersey cows have been rated as a Tested Dam by The American Jersey Cattle Club. The distinction was awarded Lee Donley Joy and Donley Little Jane for having three offsprings each with official production records. They are owned by J. R. Gillham of Clarendon, Texas.

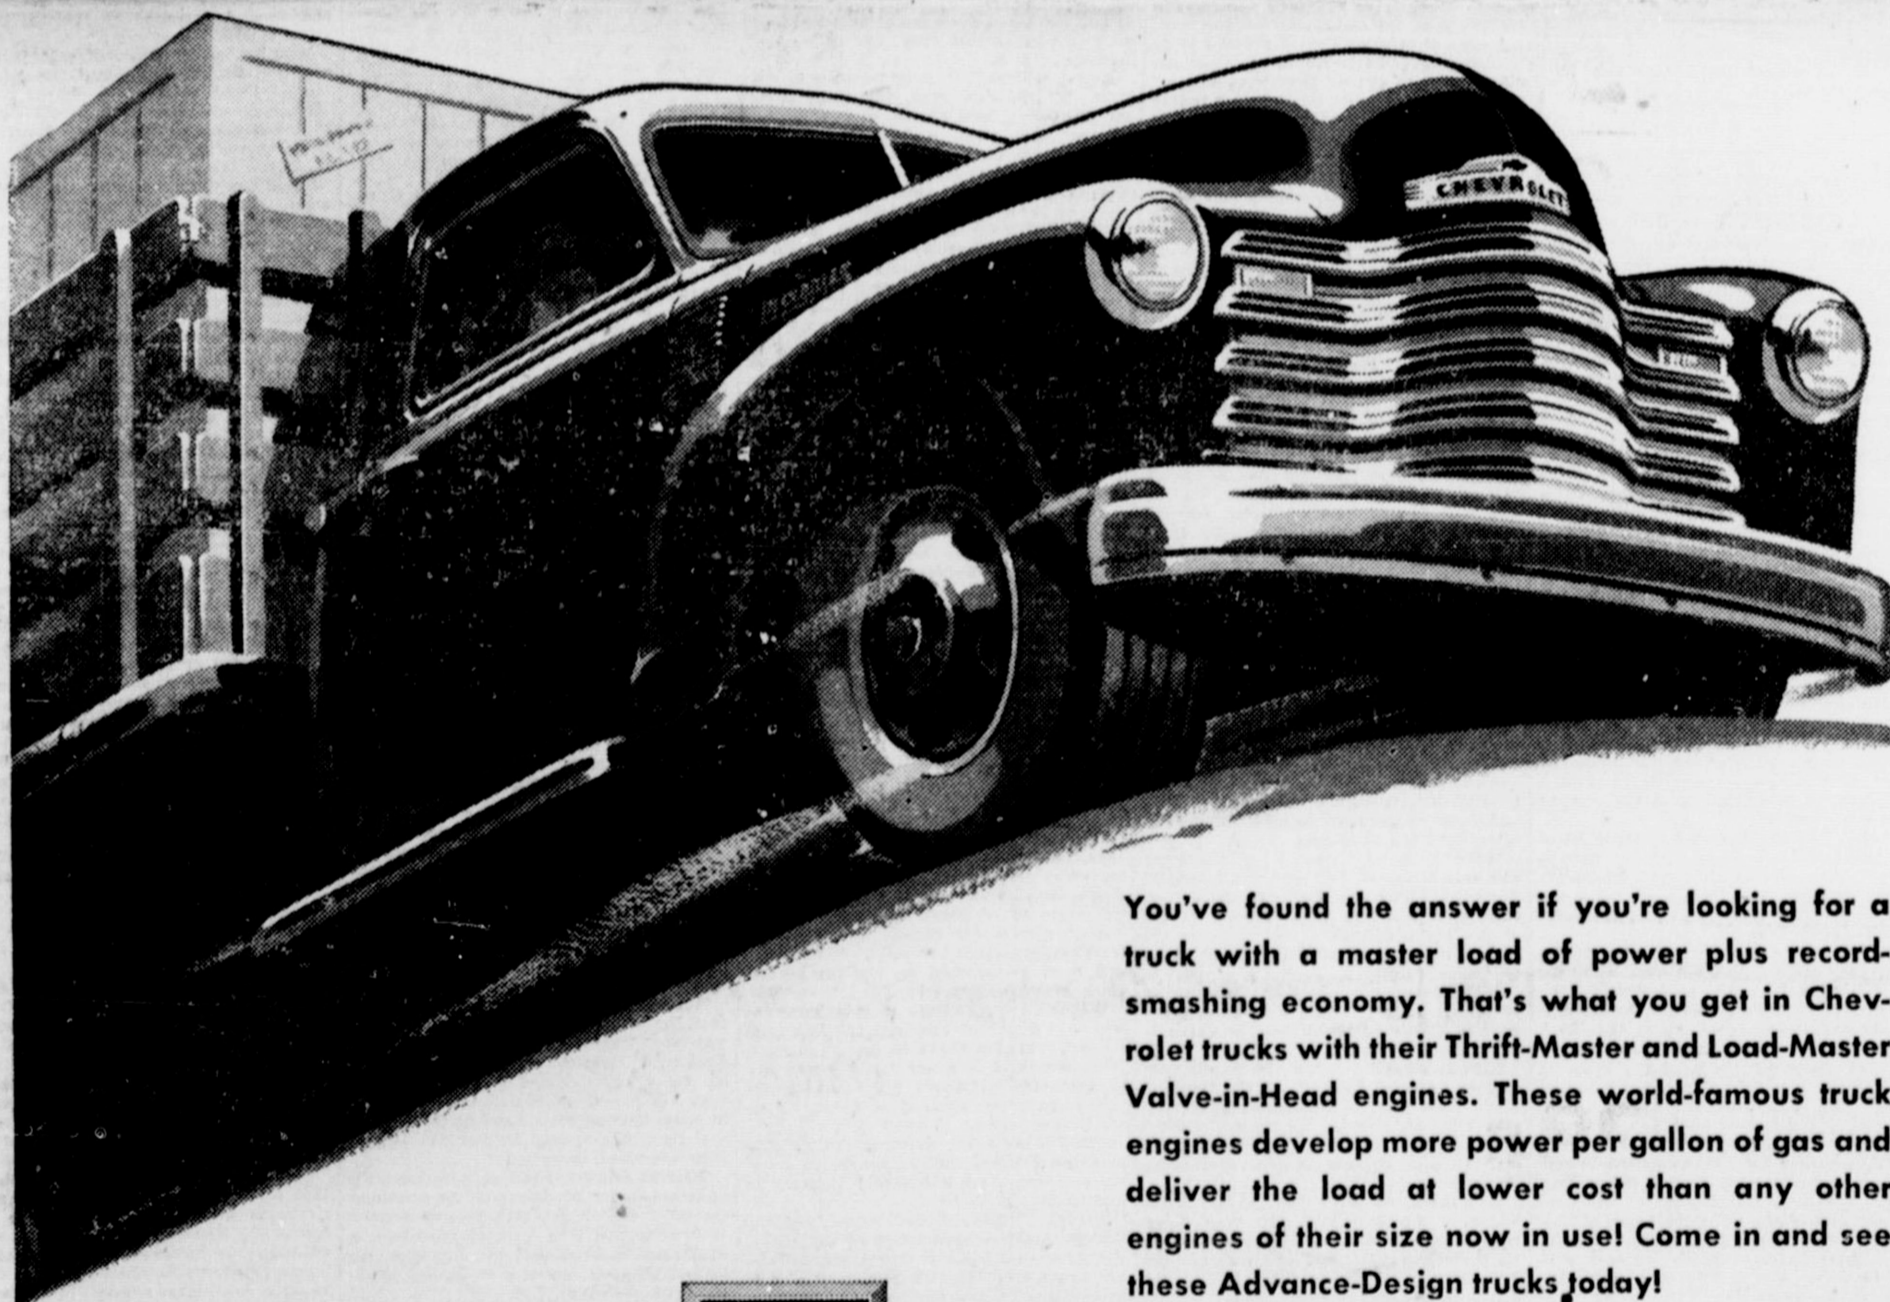

Lee Donley Joy's descendants averaged 12,153 pounds of milk and 659 pounds butterfat; Donley Little Jane's descendants averaged 12,154 pounds milk and 646 pounds butterfat on twice daily milking, mature equivalent basis. The tests were checked by the Texas A&M College and The American Jersey Cattle Club.

Gillham's cows also have been rated for breed type. They were rated as Good Plus, equal to a score of 80 to 85 points on the breed's score card which gives 100 points for a perfect animal.

The production testing and type classification work carried on by Gillham are part of a program offered by The American Jersey Cattle Club to make possible the continuous improvement of the Jersey breed. The Club's national headquarters is in Columbus, O.

Eugene H. Estlack and children, Rochelle and Joe of Austin visited his parents, Mr. and Mrs. J. C. Estlack and other relatives and friends here over the week end. They returned home Monday.

OLD PATHS By DOYLE WILLIAMS Minister of Christ Church of Christ

It is inevitable that the Gospel of Christ is plain, and that the Lord will condemn the man who does not believe it. But some men objects and insists that the Gospel can not be thus plain and intelligible, or we would not have so many sorts of preachers, doctrines, and churches. These different sorts of doctrines, preachers, and churches may present a difficulty had to explain, but furnish no refutation of the ground taken with reference to the simplicity of the Gospel. It might turn out, on careful examination that these differences are not about the Gospel, or any thing in it. No matter what they are about, they do not prove that the Gospel is not clear and intelligible. The prophet Isaiah considered the wayfaring men, though fools, should not err there in. Isaiah 35:8. Our Lord considered the way to God plain, for he said, "They who seek shall find." Mt. 7:8.

It is not some man's opinion that is here placed before you, nor some man's comment. The matter on which a man is to make up his mind is the clear and unequivocal statements of scripture. Are they true? Does he believe them? The prophet looks down through seven hundred and fifty years, to the way to God, under the new economy, and, in the most unequivocal manner says, "The

wayfaring men, though fools, should not err there in." And the Lord, in emphatic terms, says, "They who seek shall find." This ought to be an end of controversy, on all this protracted seeking, to find the way to God, or how to become a Christian. "But," says a man "I have known many persons who have been seekers for years, and have not found the savior." Nothing of this kind can disprove the words of the prophet or of Jesus. These words still stand true, and will till the day of judgment. The Lord did not intend that men should find who would not regard his directions where and how to find, but seek him where and in a way in which the Lord never promised to be found. When a clear description is given, and full information where and how any thing may be found, and a man goes somewhere else and seeks it, he ought not to be surprised if he does not find.

But now the question comes up for consideration, whether it turned out as the prophet and the Lord said. When the new and living way was opened up, and the door of the kingdom thrown wide open, did sinners have protracted seekings and many of them fail to find the way?

Let us examine. At the opening of the kingdom, on the great pentecost, the people heard one discourse, and inquired, "What shall we do?" In one sentence the apostle answered their question; told them what to do, so that they understood him, did what he commanded, and the same day became Christians, and entered into the kingdom. We find no account of a seeker going away seeking, or a mourner going away mourning. Every man and woman who inquired the way, was shown the way; told what to do to be ac-

cepted of the Lord, did it the same day, and entered the new covenant. Thus the Gospel is easily understood and easily obeyed. This fulfills the words of Jesus: "They who seek shall find." What a wonderful contrast this case makes with much of the procedure in modern times! They talk in some of these modern establishments of, "Pentecostal occasions." But when did they ever have a vast number of "Mourners," "Seekers," "Inquirers," or "Anxious persons" come to them, inquiring, "What shall we do?" and proceed forthwith, in one single sentence, to tell them what to do, so that they could do it the same day, and enter the covenant and not a mourner left mourning, or a seeker go away seeking? For reason of space we will continue this study next week.

Sweetheart of Palo Duro Canyon Gets Fondest Wish

CANYON—Miss Harriet Carter, sweetheart of Palo Duro Canyon and recently crowned "Sweetheart of the Nation," got her fondest wish today when she was paid a present of her favorite horse—General Patton—from the Palo Duro State Park riding stable.

Miss Carter, 18-year-old Amarillo beauty, wanted to buy the brown, bony trail horse with part of her Wheatcraft prize money, but the Palo Duro Boosters Club made her a present of the animal instead. The presentation was made by F. W. (Fist) Ansley, president of the Boosters, in the corral at the Canyon before a crowd of treasure hunters, who took time out from hunting lucky Palo Duro

coins to watch Miss Carter put General Patton through his paces on the rim of the colorful canyon. Blue-eyed and brunette, Palo Duro's sweetheart made a pretty picture as she swung aboard the rangy horse and galloped him to the entrance of the ancient Coronado trail, gateway to more than 35 miles of rugged and scenic horseways.

Miss Carter, who has been riding General Patton every Sunday for the last several years, said the only thing that kept her on the beam in the Wheatcraft contest in Perryton recently was the hope that she would win enough to buy the horse.

"I stopped being nervous when I paraded in front of those judges in my bathing suit," she said, "because I kept thinking about Patton."

The bathing suit wasn't really as bad as the evening-gown parade the night of the finals, Miss Carter said. "My favorite clothes are levis, plaid shirt and moccasins—not evening gowns."

Miss Carter would rather ride the Canyon trails than go to the senior prom with an All-American football player. That's what she says. The Palo Duro Boosters Club has taken her at her word and beginning last Sunday she will lead one of the weekly horseback parties of 20 or more visitors through the Canyon on a five-hour jaunt to out-of-the-way Canyon wonders, such as the Sad Monkey, the Devil's Slide, Capitol Peak and Col. Goodnights Dug-out.

Park officials have a feeling that there might be more cowpokes, dudes, etc., registering for that trip than there are State Park horses. Could be.

SEE IT and you want it - PRICE IT and you'll buy!

FOLKS take a look at those bumper-guard grilles—built as a unit and proof against "locking horns"—and say "Hmmm! Nice!"

They sweep their eyes over tapering fenders, with a suggestion of jet power in their after contours—and say, "That's for me!"

They eye-measure windshields that are 48% bigger and rear windows with 56% more area—and know without being told they can see the road up closer, both fore and aft.

So they say—"That's for me—IF!" "What does it cost me to get this handy-sized dandy with the roomiest interiors ever found on a Buick Special?"

"What do I pay for high-compression, high-pressure Fireball power from a big Buick straight-eight engine?"

"What's the tag on that swell Buick ride, with coil springing, extra-wide rims, seats between the axles and all that?"

"And what about Dynaflo Drive—"

understand I can have that at extra cost—how much?"

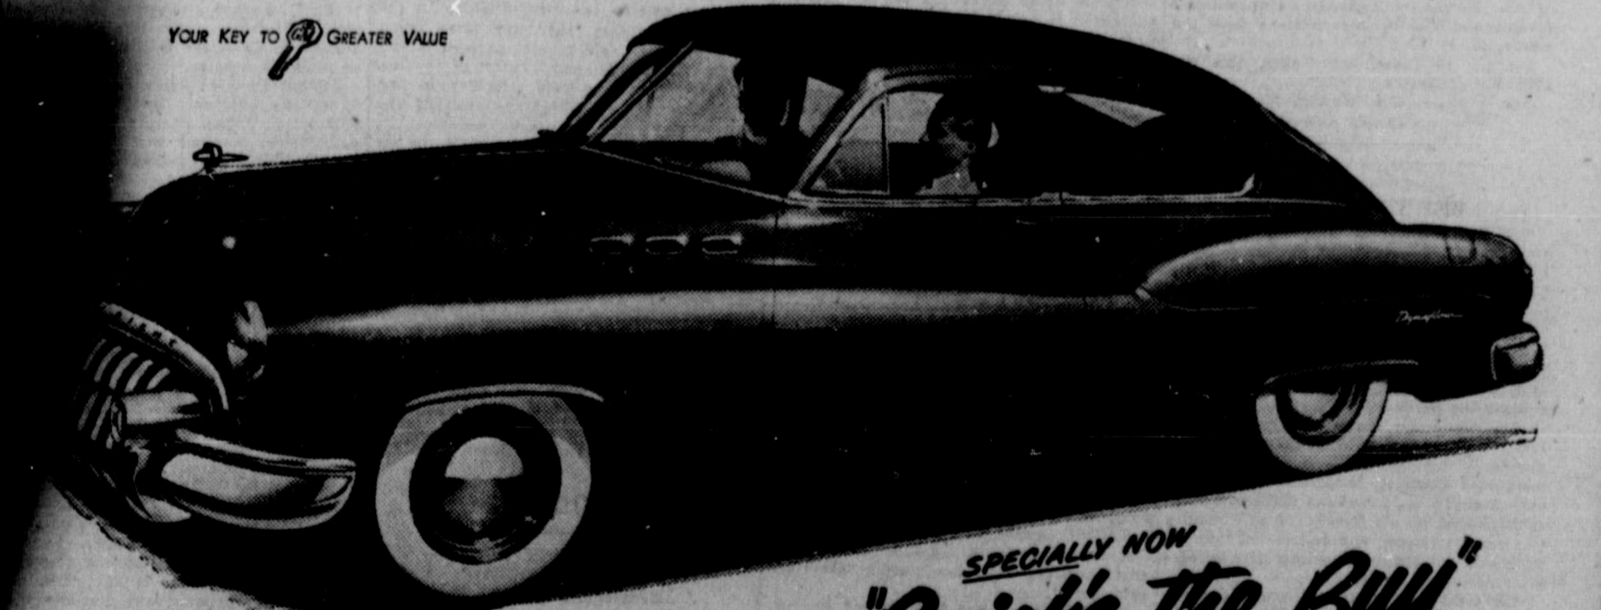

Well, sir, the news is good. Plenty good. Because this honey's priced well under your expectations. It's a straight-eight that's priced under a lot of sixes—over the years your investment will be no more than for any other car.

So better not stop with looking. Better price it too—delivered at your door. Your Buick dealer will give you the figures, even demonstrate.

After which you'll do as others are doing—you'll get a firm order in.
