PAMPA NEWS IS FAIR.

The Pampa Daily News is the only paper that covered the "Most Typical Family" contest fairly. Proper credit was given all those who had anything to do with the promotion of the D. E. Leathers family here from the time the family was nominated by the Donley County Leader to their return trip from New York.

May we express to Mr. Tex De-weese and his able corps of reporters our fraternal thanks for their kindly consideration.

The men behind the Pampa Daily News have done much to build up good will between Pampa and the citizens of the Panhandle. The time is coming when the trade to the south and southeast of Pampa will all go to Pampa upon the completion of the Highway 88-South. It is that community service rendered the home town by the News that is building the trade territory. The public has learned that the policy of the Pampa Daily News is open and above board. That is why that publication wins in every cause they champion.

FANATICISM RAMPANT.

In two different places in Texas the past ten days, religious fanatics known as 'Jehovah's Witnesses,' have been beaten up and many of them jailed because they distributed literature objecting to war in any form.

On many other occasions, alleged "Fifth Columnists" supposed to sympathize with German interests have been jailed. In other instances, we have been warned to keep a sharp watch in Texas for these "Fifth Columnists" and immediately report them to the "Department of Public Safety" at Austin.

On the other hand, there is Martin Dies and his expensive committee

members up at Washington yelling their heads off about "subversive" movements. Such movements, of course, being detrimental to the idea of Americanism, we are told. All good and well.

Now here is the one big joke. Uncle Sam's postal department has issued a mailing permit to German editorial headquarters in New York City, giving them a special rate on mailing out propaganda in several different forms favorable to the German nation. They want our Nation to understand "their" side of the invasion and other alleged crimes committed.

To be more explicit, in case any one wants to investigate, the address is: Room 1923 17 Battery Place New York, N. Y.

That is the return address on matter being mailed out. The mails are flooded with this propaganda, samples of which may be seen at the Leader office.

Now the average American will want to know why our government is spreading this propaganda on one hand, and looking for guilty parties on the other. This has been going on for several months. In which instance are we being misled? Somebody has been, and is now, lying to the American public.

Frankly, we may have more crooks in official position in America than we have enemies in Germany, and we have thousands of them over there.

A new variety of lima bean which can be quick-frozen more successfully than varieties most generally grown has been developed at agricultural experiment stations in Maryland and Illinois.

FARMER FINDS A FRIEND
 Should armadillos be destroyed? The Game Warden for the Lamesa district reports that a farmer near Gail, in Borden County, is thoroughly opposed to harming a single one of the clumsy creatures.

In fact, the farmer imported over a dozen armadillos from East Texas and released them on his South Plains farm, hoping that they would thrive and multiply and assist him in controlling insects that damaged his crops.

It is a matter of record that the diet of an armadillo is made up of 94 per cent insects, such as cut worms, beetles and ants. Ants especially are heavily devoured. Since ants are one of the greatest enemies to quail and turkeys, because they destroy the young birds at pipping time, the armadillo, in addition to being the farmer's friend, is also the friend of the sportsman because of his service in destroying quail predators.

The armadillo is not native to the plains region of Texas. One of the armadillos the farmer imported to Borden County was killed by a sportsman near Gail and this gave rise to the erroneous impression that these animals belonged to the South Plains as well as to the more eastern portions of Texas.

TURKEY HATCH EXCELLENT
 The best turkey hatch in 15 years is reported in Gillespie County by the Game Warden stationed at Fredericksburg. Elsewhere in the Hill Country and South Texas came additional reports of good hatches. A good season is in prospect if the birds are not harassed by floods or otherwise molested, the Game Department reports.

Every year about two and one-half million farm families in the United States derive from their farm woodlands more than 60 million dollars in cash and 50 million dollars' worth of fuel, building materials, fence posts, and other products.

I cause the demons of Hades to chortle with glee over the refined cruelty I inflict upon those in my power.

I am the king of dictators and a past master in the art of oppression and when my evil days on earth are done and I depart for the depths prepared for me, I shall start a push against his Satanic Majesty and force him to abdicate in favor of a fiend more qualified than he.

I am, Adolph Hitler.

that outfit had some of the toughest bouncers a fellow ever encountered when he tried to slip under the tent. Gone are some of the good old days!"

Headline - "Shamrock Wants to Change to Heaven!" Well, Albert, what are you waitin' on?

MORE GOVERNOR ADDICTS. Col. Ernest Thompson "announces for governor without music," we read in the dailies through Sunday. "A nickel for grandma," will be the slogan, but is rather behind the times when most of Texas has already decided to vote for the largest bull fiddle in the campaign. Dan Moody needs a few more postals to get him into the race. Moody? Moody? Who is Moody anyhow. Was he the yahoo over in Williamson county who, as district attorney, sent an old Baptist preacher to the pen for parading in his pasture with a bedsheet over his head?

HOPELESSLY LOST. There is a lot of talent in the governor's race up to date. If Hitler did not have such a dad-blamed rep. some one would ask "him" to run, too.

LOBBY LIZARDS. It does not make a big difference who your governor is, if you have

the right kind of men and women in the legislative bodies down at Austin. If the average voter could pass through the Austin hostel and see the horde of "lobby lizards" armed with rolls of greenback, stalking the lawmaker, and could see the polecats that go in there to get the pay-off, there would be a big difference in the voting back home.

INDIAN INCREASE. The Navajo Indian population increased about 20% during the past 10 years. The Hopis, numbering 2,600 in 1930, are now able to muster 3,100, according to the Holbrook, Arizona News. No plan has yet been evolved by which any Indians can be successfully plowed under, either.

UNIFIED SPIRIT. Five ministers of four different churches sat on the same rostrum here Sunday night in a union service complimentary to a fellow minister and his family for having served the community faithfully for six years. The service was dedicated to a purely human sense of appreciation. In other lands such a thing has always been impossible. We have our choice. Shall we continue as Americans, or shall we adopt "isms" that will tear down our American customs?

STORY OF THE TRIP. In this issue appears the story of the trip of the D. E. Leathers family. The story was "dashed" off in a hurry to comply with a request, otherwise she would have polished the words and made, perhaps, a better story. This is a good story. We like it and are glad to run the story for our readers. Miss Margaret Jean

Leathers is the author, writing from notes made on the trip.

LEWIS M. GOODRICH of Shamrock

Lewis Goodrich, Shamrock, candidate for Congress from the 18th district, was in Clarendon this week making a house-to-house canvass in the interest of his candidacy.

Goodrich invites the voters to investigate his record as a public official five years as city attorney of Shamrock and six years as district attorney of the 31st district, and also his private life and habits.

Miss Mozelle Billingsly of Estelina is a guest of Mrs. W. A. Land.

Rural work relief in the United States costs about \$350 per family per year, while rehabilitation, counting all losses on loans, the cost of supervision and every other item of expense, costs only about \$72 a year per family.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

On any drive thru town one can see beauty this week. We took particular notice of the tall elder bushes, with their lacy blossoms, on the west side of the Baptist church.

The catalpa tree in Mrs. C. W. Bennett's yard and the one at Crockett Taylor's are exceptionally beautiful with innumerable blossoms.

Do not neglect to glance over the fence at the flaming poppies at the Tom Goldstons.

The Cardinal flower and regal lilies are dominant in the floral beauty offered at the Prewitt home. Poppies have added a bit of golden color with the regal lilies in the Brunley's garden.

Mrs. Geo. Ryan's yard fence is a picture to behold with its climbing roses.

Perhaps the most gorgeous rose blossoms are seen at the Van Kennedy's, Walter Taylor's, Connolly's, and Mrs. W. R. Bourland's.

More and more garden lovers are carrying their "Green Fingers" with them and are making their yards blossom like—and with the rose.

Secretary Wallace has endorsed a bill by Senator Capper of Kansas to create a Division of Cooperatives within the U. S. Department of Agriculture. Last year farmer cooperatives in the country handled products valued at approximately \$2,000,000,000.

TODD WITHDRAWS FROM SUPERINTENDENT'S RACE
"I entered the race for Superintendent's office of my own accord, and I withdraw in the same manner. At this time I believe it to be to my personal interest to pursue my chosen profession of teaching school. I will therefore try to use my time in that preparation. For that reason I shall not be a candidate for the office of county superintendent. I sincerely thank each and everyone for every consideration shown me. The assistance and encouragement given me will always be a grateful remembrance, coming as it did from those who have been neighbors and friends through these years. Please remember that I thank each of you for every act of consideration and kindness shown me; and I will continue to be with you, and will be happy and willing to serve you at any time to the best of my ability."

A. L. Millsap was up from Eli the last of the week. He says they have good crop prospects down that way.

Woman Tells of Brawley Tremor

FORMER CLARENDON LADY GRAPHICALLY RELATES NARROW ESCAPES

In a letter to her brother, Judge R. C. Weatherly, Mrs. F. M. Montgomery goes into detail in describing the terrors of an earth quake. She and her family have been residents of Brawley for a number of years.
In addition to the information given in the Leader last week, this lady tells of damage done to orchards. Rows of grapefruit trees in many instances were slid out of line twelve feet, she wrote.

At other places the large concrete slabs on the highway were ended up-right. Bridges were destroyed, one of the largest being torn up just as several reached the end of the bridge after crossing. Had the tremor occurred a minute sooner, several would have been killed.
A large crevice, the line of the earthquake fault, extended over a hundred miles, and is several feet in width in places, and to a great depth.
Brawley is almost a total wreck, she wrote. Buildings and homes have been destroyed or so badly damaged that they are untenable. Crumbling walls as the slight tremors continue has made guards necessary to avoid deaths from falling walls.

Large numbers of people have left that section, more are leaving and little can be done to repair the damage.

Ladies On Tour Of Hill Country

MAKE FIRST VISIT TO SEE PINES AND MOUNTAINS

Returning home a few days ago, three Clarendon ladies had much of interest to relate of a trip to the "Hill Country", that section woven into song and story in eastern Oklahoma and western Arkansas.

The ladies making up the party were Misses Ethel Harvey, Dollie Lee Cook and Mrs. C. A. Burton.

The first stop was made at Tulsa where the international oil convention was in progress. It was there that Mrs. Burton and Miss Harvey visited their relatives, the Garrisons.

The objects of interest in Tulsa included the Methodist church costing \$1,250,000. Five years was required in constructing this church. Another building of unusual interest to the ladies was that of the Art Museum, a residence of 28 rooms and formerly owned by J. C. Phillips before he gave his home to the city.

Mrs. Burton remained in Tulsa while the young ladies journeyed on through the hills to near Mena where Miss Cook's relatives reside.

The first stop was at Muskogee where the Veterans Hospital is located. From there on the highway wound through hills and low mountains reducing the speed of the auto, with Miss Harvey taking every precaution with her car against going over hairpin turns. Ft. Smith was the next town of note with beautiful flowers and trees. Miss Harvey was seeing her first pine trees through that section.

On to Mena, a stop of several days was made with Miss Cook's relatives near that point. A 35-mile "Sky-Line Drive" made with CC Camp labor follows the backbone of the mountains. Miss Harvey related, and along near the former American home of Queen Wilhelmina of Holland when she chose to rest a bit in America. The walls are constructed of very large stones carved at a much lower level. "I just can't understand how they transported those stones up to the mountain top to build that large castle affair," Miss Harvey stated. The building has a number of fancy chimneys and gables, and several fireplaces. The roof is falling in and the home has been deserted for a long number of years.

The return trip over the southern route was very pleasant. Wet weather and insect pests were the only disagreeable features reported by the ladies.

Frankie Ann Robins who visited two weeks with her sister, Mrs. Ollis Burrisson at Leveland, returned home Sunday.

Bert Herrington of Arkansas is visiting his grandparents, Mr. and Mrs. W. B. Halle.

Yvonne and Joan Putman took supper with Mrs. Harp Sunday night.

Mrs. Alton Jacobs called on Mrs. William Meador Monday morning.

Mr. and Mrs. John L. Fowlkes gave an ice cream supper Saturday night in honor of Richard Perdue of Portales, N. M. now visiting in this community. Those invited were Mr. and Mrs. Alton Jacobs, Mr. and Mrs. William Meador, Mr. and Mrs. N. C. Hudson and family, Mr. and Mrs. Dick Noble, Edna Talley, Essie Roy, Jim Aufil, Alton Webb, Annie Ree Talley, Audrey Perdue and Bud Roy. All report a nice time.

Jiu Aufil spent the week end in this community visiting friends and relatives.

Mrs. John L. Fowlkes and children and Mrs. O. L. Jacobs visited Mrs. Roy McKee of Hedley Tuesday.

S. W. LOWE ANNOUNCES FOR SCHOOL SUPERINTENDENT

Judge Lowe authorizes the Leader to announce his candidacy for the office of county superintendent of schools in this issue. He recently completed his third term as county judge, and is too well known to require any introduction to a people where he has resided over twenty years.

Relative to Judge Lowe's qualification, he received his school training in John Tarleton College of Stephenville, and Simmons University, now Hardin-Simmons University of Abilene. He holds a permanent teacher's certificate and an A. B. degree. He taught six years in our public schools serving as Principal of both Memphis and Clarendon high schools.

Judge Lowe's statement relative to his candidacy is as follows:

To the Editor,
Donley County Leader:

This is your authority to place my name before the voters of Donley County for the office of County School Superintendent. It has been my intention for several months to do this but circumstances have prevented until this date.

I watch with interest every move in connection with our school system. Our best efforts are poor in comparison with the importance of providing training for our sons and daughters in good schools. Yet in the administration of our schools we must be mindful of the taxpayer whose load is often staggering.

So in making this statement to the voters of this county, I do so respectfully asking your consideration in my behalf. As rapidly as I can I will solicit in person, your vote and endeavor to secure from as many as possible their views as regards our school situation.

Respectfully yours,
S. W. Lowe

Most Typical Texas Family

SUMMARY OF OUR TRIP

By Margaret Jean Leathers

Having been nominated by Mr. J. C. Estlack, owner and publisher of The Donley County Leader, we were chosen as the Typical American Family from West Texas. We were very excited over our trip, even if it did seem like a beautiful dream that was too good to be true.

We left Clarendon May 15 for Big Springs, Texas where the West Texas Chamber of Commerce was holding its convention. Mr. H. Mulkey drove us down there in his car.

When we arrived in Big Springs, Mrs. Dorothy Lawrence called on us and extended an invitation to all the programs. Mrs. Lawrence was the director of the "Life in America" revue. That night Miss Gloria Conley, J. L. Wood Jr. called on Johnny and myself. They drove us around town and showed us the things of interest around Big Springs.

On May 16, Jerry Sadler made a dedication of us to the state of Texas. That night we were introduced at the Revue by Mr. Mulkey.

May 17, we were introduced to Amon G. Carter, owner of the Fort Worth Star-Telegram. We went to the W.T.C.C. meeting, where Mr. Carter presented us again. We went to a luncheon at the Crawford Hotel given by the newspaper men and the W.T.C.C. We were presented there also. That afternoon we were in the parade and went to the Municipal Auditorium. We were introduced to Gov. and Mrs. O'Daniel there. We were also presented by Amon Carter, and Gov. O'Daniel addressed our farewell.

We spent our first night in the Texas hotel in Ft. Worth. We got an early start the next morning, and noon time found us in Texarkana. We crossed the state of Arkansas, also the Mississippi river, and spent the night in Memphis, Tenn. When we got in Memphis, they were having their "King Cotton" celebration. The people were dressed in different costumes and seemed to be having a wonderful time.

May 19, we crossed the beautiful state of Tennessee and spent the night in Bristol, Virginia.

May 20, we saw the National Bridge about 10:30. It is really very beautiful. It is about 225 feet high and about 100 feet at the base. Near the bridge we saw marks that were made by Geo. Washington. We traveled in the Blue Ridge mountains all day. We came through the tourist town of Woodrow Wilson. We spent the night in the Brunswick Hotel in Lancaster, Penn. While we were in Lancaster, we saw many Mennonites. They were very interesting to watch.

May 21, we left about 7:00 o'clock, and arrived in New York City at 11:45, reaching the fair grounds about 12:30. That night we ate dinner with the Ford officials in the private suite in which such notables as Mary Pickford, William K. Vanderbilt, Kate Smith and Helen Hayes have dined. After dinner we went to the "American Jubilee," where we met producer, Albert Johnson. The show was grand.

May 22, found us at General Mo-

Fiddling Red Penn appearing with the Tennessee Valley Boys, formerly heard on Radio Station WSM. They will be on the Stage at the Pastime Prevue Only Saturday June 8th.

test to determine the best Chapter in the United States.

The local chapter has many outstanding accomplishments for the year among which are the winning of \$100 for first place in the State F.F.A. swine production contest, first in the state milk judging contest for the second consecutive year, the winning of \$1945 cash premiums at fairs and shows on exhibits of project livestock, the sponsoring of three registered Jersey Bull Circles and six registered boar circles, all animals bought and owned by local chapter, every member owning one or more head of registered livestock, every member exhibited one or more head of livestock in fairs and shows, every member planted certified seed on his crop projects, won sweepstakes premium in district leadership contests and district encampment, and each member completed an average of 4.7 projects for the 1939-1940 school year.

More than 8,000 boys and girls have received 4-H Club training since the work became nation-wide in 1914.

A cotton research congress to be sponsored by the State-Wide Cotton Committee of Texas has been scheduled in Waco for June 27, 28, and 29. Representatives of all phases of the cotton industry will be present for a program which will include discussions of the world cotton situation, production and consumption of foreign-grown cotton, the United States' cotton policy, and the future of the Texas cotton industry.

tors, and the Trylon and Perisphere exhibit. That night we went to see Billy Rose's Aquacade.

May 23, found us in New York City. We went down Broadway and Fifth Avenue, and went through Radio City. Radio City is a city within itself. While we were in Radio City, we went through the Television department. There we were televised. We went on top of R. C. and saw New York. It was a sight never to be forgotten. We then went to the Museum of Natural History. It is wonderful how animals can be fixed to look so natural. We then saw the Public Library, Grand Central Station, also Central Park. That night we had dinner in the Hotel New Yorker, where a grand ice show was given. Larry Clinton's orchestra was playing. We then had the pleasure of meeting Mr. Clinton himself. After dinner we went to Radio City Music Hall, where the picture "Irene" was playing. Anna Neagle was there in person, also the "Rockettes."

May 24—Took a 40 mile trip on Mr. Harvy D. Gibson's \$100,000 yacht. We passed Ellis Island, statue of Liberty, Manhattan Island, all along the Hudson river, Harlem river, and East river, under Geo. Washington bridge, passed by Ft. Slocom, Government Island, passed the Battery. We also went under Brooklyn bridge and Manhattan bridge. We went by the Brooklyn Navy yard and passed under 59th bridge. After our yacht trip, we went to Mr. Gibson's office and met him. He then presented Johnny with a baseball with Babe Ruth's own signature, and presented me with a silver bracelet. We both are very proud of them. That night we went to the amusement part of the fair. We had a swell time there. We then went to see "Streets of Paris," with Gypsy Lu Rose.

May 25—We visited the Brazil building, General Electric, where they make man-made lightning—ten million volts. Also visited Natural gas building, aviation. I was televised again while we were in the General Electric building. That night we went to the "Lagoon of Nations" show. It is indescribable. It is a thrill of fire works, music, water and color.

May 26—We went into New York City, drove through China town, "Little Italy," Wall Street, saw City Hall, Trinity Church, Singer building, had lunch on top of the Empire State building, saw Bacigalloup, Brooklyn bridge, Chrysler building, Waldorf Astora Hotel, Woolworth building, St. Bartholomew Church, Park Ave., J. P. Morgan's home and Vanderbilt's Hotel, famous U. S. Club, New York Central building, Metropolitan Life Insurance building, John Wanamaker's building, Grace Church, and saw the custom house. We went down the famous Jewish and Canal streets, and went down to the Bowery. We also went through Pell street and Port Arthur's restaurant. We went to the aquarium.

May 26—We left New York about 1:15 o'clock. We went through Holland Tunnel. We passed Hyde Park, and crossed the Delaware river by ferry. We saw many beautiful flowers all along the highways, such as wild red roses, and honeysuckles. We got in Washington, D. C. about 8:30 o'clock. Washington is a very beautiful city. It seems to me like a great city that was set down in a lovely park. We saw the Capitol at night, and in the day time.

May 27—We saw the White House, State House, Washington Monument, Capitol, National 4-H camp, Treasury Dept., State Dept. of Agriculture, United Commerce Commission building, Bureau of U. S. Revenue, Federal Trade Commission, Lincoln Memorial, Garfield statue, Public Library, Interior building, and crossed the Potomac river. We crossed the Robert E. Lee bridge over the James river. We got to Charlott, North Carolina about 7:30.

May 28—We left Charlotte about 7:00 o'clock. We went through the Curlee mountains in Georgia. We ate lunch in Atlanta, Ga. We got in Birmingham, Ala. at 5:30.

May 29—We left Birmingham at

7:45. We passed 4,000 army trucks that were going back home from East Texas. We got into Monroe, La about 4:00, and spent the night there.

May 30—We left Monroe about 7:00 and got into Ft. Worth about 2:00. We stayed at the Texas hotel.

June 1—We left Ft. Worth about 7:30, and ate lunch in Childress. We got home about 1:30.

Our trip was wonderful, and it would take weeks to tell all that happened.

GRAND AND GLORIOUS GAITY IN "TOO MANY HUSBANDS"!

"Two's company and three's a crowd"—except at the Pastime Theatre where Columbia's "Too Many Husbands" will be shown Saturday Night Prevue, will prove hysterically and hilariously that "two's company and three's a comedy"! Jean Arthur, Fred MacMurray and Melyn Douglas are starred in the film, one of the merriest, maddest martial mix-ups ever brought to the screen!

Based upon W. Somerset Maugham's sensational stage success, brought to the screen by Wesley Ruggles from Claude Binyon's adaptation, with a supporting cast which includes Harry Davenport, Melville Cooper, Dorothy Peterson, Mary Treen and Tom Dugan, "Too Many Husbands" would inevitably belong among the season's more memorable

films, but the excellent artistry of its cast, the swift sure tempo of its direction and the sly, sparkling character of its writing makes the new film an important contender for "top ten" honors.

Miss Arthur, in brilliant contrast to the dramatic finesse she displayed in "Mr. Smith Goes to Washington" and "Only Angels Have Wings," employs to the full her triumphant gift for light comedy. As the lonely wife suddenly "blessed" with two devoted husbands, Miss Arthur delightedly and delightfully expresses her appreciation of the flattering circumstance, as well as her perplexed and fearful recognition that its outcome might well mean a prison sentence for her. Except for its many comic implications, the latter note is not

too greatly stressed. "Too Many Husbands" is, after all, a comedy and Miss Arthur is one of the deftest comedienne on the screen today.

Dies Wants U. S. Congress to Outlaw Communist Party and German Bund

WASHINGTON, June 1.—Representative Dies, Democrat, Texas, proposed tonight that congress outlaw the Communist party and the German-American bund and fix heavy penalties for membership in those groups "or any organization controlled by them."

Dies, chairman of the house committee investigating un-American activities, said legislation to do this would be introduced next week, based on the committee's conclusion that the Communists were controlled from Moscow and the bund from Berlin.

The legislation, the Texan said, would "outlaw the Communists and Nazis just as they have been outlawed in France and would take away from them the legal standing which gives them a certain amount of protection as political groups."

"It would not," he added prevent any person from advocating the ideology of Communism or Nazism but would prevent them from being members of these organizations

which are known to be foreign-controlled."

Council of Home Defense

With the drive against "Trojan horses" expanding, Dies suggested that President Roosevelt create a council of home defense to coordinate all counter-subversive activities of the FBI, secret service, army and navy intelligence and the Dies committee. He suggested "constructive, sane leadership" of "men who are level-headed and would not become hysterical."

Dies said his committee would begin hearings here Monday on "fifth" column activities in the South." An informed source said the hearings, to be closed to the public, would concern reports that Communists had obtained positions with the Tennessee Valley authority and in the Bir-

ingham, Ala., steel industry.

Airbases Photographed

The committee's widespread investigation had brought forth, Dies asserted, a statement from "a reputable citizen of Dallas, Texas, that he has photographs of airbases along the southern United States border in Mexico and would forward them to the committee."

The committee plans hearings along the Mexican border in Texas, he said, two or three weeks after the adjournment of congress. These hearings, he added, would concern reports that American Communists and Nazis were cooperating in a move to bring on a revolution in Mexico.

During the day, Attorney General Jackson created a "national defense investigation unit," within the federal bureau of investigation, headed by Veteran G-Man Hugh H. Clegg, to deal with "fifth column" and similar activities. About 250 agents of the federal bureau of investigation will be made available for this duty by July 1.

Texas has more oil refineries than the two next largest refining states combined. The Lone Star State has 141 plants with 1,386,705 barrels daily capacity, while California and Pennsylvania together have only 111 with 1,275,000 barrels capacity.

One of the nation's greatest collection of material on the South in the Civil War era is housed at the University of Texas library.

Dr. Gustave Egloff, nationally known petroleum scientist, asserts that the U. S. can produce all the rubber it needs from its own oil wells. Potential supply of synthetic rubber is 200,000,000,000 pounds, he says, or nearly 200 times more than the amount of natural rubber used in this country last year.
