CLARENDON, DONLEY COUNTY, TEXAS, JANUARY 2, 1941

A Common Paper for Common People

HIGHWAY BOND ISSUE WAS DEFEATED 552 TO 60

The smallest vote on a county-wide issue since 1912 was polled here December 28th when the highway bond issue for \$565,000.00 came up for consideration. Only two voting boxes gave the issue a majority—Skillet and Bray. This probably reflects the opinion of those citizens in their need for highway improvement in those particular sections. While no hope could be found in the issue with reference to an undesignated route, they grasped at the only straw. The northeast part of the county has very poor road facilities, it is said, and due to the peculiar circumstances, coupled with location and sparse population, little hope exists in the near future.

Clarendon situated on the proposed route of a designated highway, polled a protest against a tax increase by more than 15 to 1. The total vote here was 16 for to 252 against.

Other voting box reports are given below. The first figures are "for" the issue. Lelia 2-77, Naylor 0-6, Bray 5-4, Martin 0-12, Smith 0-8, Goldston 2-21, Jericho 0-13, McKnight 8-11, Watkins 0-3, Ashtola 0-32, Giles 0-4, Wilson 0-5, Glenwood 0-7, Hedley 13-73, Skillet 14-6, Rowe 0-18.

Hedley, polling the second biggest vote in the county, also refused to risk the tax increase when they turned down the issue more than 5 to 1.

Bond issues aggregating approximately \$8,000,000 failed to receive the necessary two-thirds majorities in Bailey, Bosque, Dawson, Donley, Floyd, Foard, Hale, Hall, Hamilton, Lee, Farmer, Reeves, Sabine, San Saba, Swisher and Upton counties.

In Seccury county, where a \$600,000 election had been called for Dec. 28, such heated opposition developed that the Commissioners Court rescinded the election call.

Actually, all county road bonds are serviced out of county tax revenues and the phrase "state assumption" simply means that the Legislature has authorized the State, from the proceeds of one-fourth of the gasoline tax, to reimburse the counties for amounts expended for interest and retirement of bonds so designated for state assumption.

Assumption authority voted by one Legislature may be denied by subsequent sessions of the lawmakers, but the county remains obligated, once the bonds are issued and sold, until all have been retired.

Public Shows Appreciation To Sheriff

Before taking leave Wednesday, the public whom he had served for ten years as sheriff, gave evidence of appreciation of Guy S. Pierce. In view of the fact that Mrs. Pierce had served as jailer during the same period, and had done such a good job as to gain recognition over the nation in her quick and efficient work during her only jail break, the two came in for consideration of a gift that will last them a lifetime.

Monday, City Marshal R. T. Brown took the lead in laying plans whereby appreciative citizens could contribute to a fund. More than seventy names were attached to a list given the sheriff. Each name represented a cash contribution of fifty cents.

This fund was used in the purchase of a set of silverware which was presented Mr. and Mrs. Pierce. Tears came to the eyes of the Sheriff and he commented, "I just wish that the folks had waited and sent this silverware after we left. It makes it still harder to leave here."

Completing his ten years of a most excellent record as sheriff of Donley county, the family left Wednesday to make their home at Devine, Texas where Mr. Pierce will be in partnership with his brother, I. B. Pierce, in conducting a lumber business.

OWNS SILVER WATCH MADE IN LONDON

Speaking of family relics, M. M. McCracken of this city has one of the most interesting in the watch line. As you raise the lid on the back, the above faces you in bold script, plainly legible.

Breaking Jinx With Peas

Sheriff Bill Adams of Amarillo is said to have started the idea that black-eyed peas bring good luck if you use them properly. Many have taken his advice since the rage started some two years ago.

Here Wednesday the merchants sold out on this brand of peas. Simply because you must eat and use the black-eyed peas, botanically known as "one-eyes," on January first. The moon has nothing to do with it. Neither are the signs of the Egyptian or other zodiacs involved.

To guard against all danger, and achieve good luck, you may boil them and eat them. No mention is made of the quality of seasoning since old-timers naturally prefer rabbit meat. To further achieve greatness as well as riches, with notoriety thrown in, boil the peas until soft, mash them into a paste and rub them on. Ah! Brother, that is what gets the job done.

F.F.A. OUTLINES PROJECT PROGRAM FOR 1940-41 SCHOOL YEAR

The Clarendon F.F.A. Chapter is noted throughout the United States for its project program as carried on by the various chapter members. This year's program is the most extensive ever undertaken by members of the local chapter. A short feed crop cut down on the number of feeding projects, but the members have increased materially their project work in dairy cattle and crops. Each of the members have underway or have completed an average of over four projects each. The project program of each member gives him actual experience in farm operations, and each is planned with the objective of enabling the member to become established in the farming industry.

Fourteen members are feeding 28 beef calves for show and market, five plan to raise 300 pullets, seven plan to plant 89 acres of cotton, fourteen have 25 cows for milk production, thirteen plan to feed 945 fryers, 32 members have grown 210 acres of grain sorghums, 15 have 478 hens, 12 have 33 lambs, 26 have 33 sows, 31 are feeding 273 pigs, 2 have ewes, 1 has one beef cow, 6 have 6 boars, 5 have six registered Jersey bulls, and 10 have 11 Jersey heifers.

Ninety-six per cent of all projects are owned by chapter members, and each boy carries out a planned program to the extent that 95 per cent of all projects are of a continuous nature. All projects feature improved livestock, poultry, and crops, and all swine projects are derived from registered stock. The chapter members are in the farming business to the extent that 26 of the chapter members have their own bank accounts independent of their parent's accounts.

The project program is climaxed this year with four project livestock and poultry shows. The fall pig show was held in October, and the poultry show will be held in January, the spring fat stock show in March, and the dairy show will be held the first part of May. A large number of the projects are to be exhibited in these shows.

TEMPLE OF TRUTH

By The Apostle

HAPPY NEW YEAR, FOLKS!

While there has been more overprediction than overproduction in 1940, we should be immunized to some extent against a part of the errors of that interesting year. If people really profited by their errors, we all ought to be multi-millionaires. Times make a lot of change. For instance, that rag you are cleaning the windshield with today, may be a part of the dress your wife could not get along without last spring. I don't feel sorry for people who have little, but only for people who are miserably because they want much. A man is rich, not in proportion to what he has, but in proportion to his enjoyment of what he has. The humble writer of this column is grateful for the many acts of kindness shown him the past year. The greatest in the list is your reading this column. Your patience has no bounds. Often the copy was written hundreds of miles from Clarendon and mailed in. You never objected. Did you really read it? Some

times I doubt it because no one calls me names or tells me how dumb I am. Yet I know less about more things than anybody. You have given me gifts all through the year. Most of it food because you knew that I could eat anything that did not bite me first. Good health is wonderful when you have something to go along with it. Speaking of eats, nothing beats corn on the cob. "Uncle Jess" Cornell brought me several bushels of roasting ears during the season. Not a nubbin in the lot. Just good old corn that makes sick folks well and well folks have more pep than if they swallowed all the rotten dope advertised over the radio the whole year. Then hundreds of you visited me when you could catch me in the office. Some came to where I stay nights, a place called home by many. Except for the very fine class of folks in this section, I would not have lived in northwest Texas 57 years. I like to get ideas from folks—folks of all ages. The fellow who sits on a rock thinking is just a loafer. If he can't get an idea out of the rock, he ought to sit on something else not so hard. In the deep minds of the wise and kind there must be an answer, and that would be a pillow. The sinner might then think of birds or chickens or

ducks. In this period, children whose environment is soiled by poverty, and men, women and nations are sickened by frustration. Frustration seeks appeasement in anger, anger leads to disagreement and conflict, and now armies are on the march again. Right in our own country don't you think it would be a good idea to get the administration, capital and labor to pray together—that they shall not prey separately? The cheapest form of propaganda we have today is the "blood and thunder" creeping into all our "funnies" gotten out to amuse mere children. Look them over next Sunday. Many of them appear every day in the dailies. Fads, styles, irresponsible habits and so-called breakfast foods are excellent examples of false values forced upon us from another direction by ambitious man, a showman or organized bunch of penny snatchers. After all, eat and be merry for tomorrow the installment collectors may take the dining table, cocktail shaker and the radio. Life is like that in 1941 - and was before.

SMALL WORLD.
As a young man the writer was employed with a crew of the Smithsonian Institute of Washington in exploring mounds of the prehistoric peoples of the Ohio valley. Of all the mounds, Serpentine mound near Jeromeville, Ohio was the only one of the kind. While relating this incident a few days ago to my good friend, W. C. Slater, he smiled and said: "Jeromeville was my home town, and I was reared within two miles of Serpentine mound." After that we had a great visit talking about the many interesting things in his home section. He was back there four years ago to see his mother just before her passing.

SOFT THINGS.
Receiving his first banana Christmas, Ozzie Yazzie remarked that "it is a fine thing except that the cob is too soft."

"BELIEVE IT OR NOT."
The writer often gets some very highly appreciated expressions from his readers. The large collection covers a multitude of subjects. The last came from a very fine citizen of old Donley county whose name cannot be printed without his permission which cannot be had this minute. He wrote: "Dear Editor: Your stand on the bond issue has been perfect. I believe if old "Ben Franklin" was

living today, he would say that "Poor Richard" has some keen competition.
Yours for a Happy New Year and may the time come when your paper has the largest circulation in the Panhandle."
Your Donley County Leader already has the largest paid weekly circulation in West Texas. This fact is discussed at every press convention—a marvel of the profession. Proof supplied on application.

POEM WANTED.
We have an urgent request for a certain poem asked for by a very dear old lady. Let's gladden her with this poem right away. One stanza reads:
"The mind has a thousand eyes,
And the heart but one.
Yet the light of the whole world dies,
When love is done."

TURNING OVER NEW LEAF.
Making new resolutions the first of the year is a hobby with a lot of folks who cannot find any other hobby. But it was old Adam who turned over the first new leaf. He needed suits pretty often, and since the fig worms were especially prolific, it took up a great deal of Adam's time spraying the fig leaves. We have this consolation, the worms eat on our suits in the shade where we can fight them with more comfort than did Adam.

EPIZOOTIC! GRIP!! FLU!!
They are all bad and function

about alike. All three have affected this column this week. Good-bye, good luck and a better year through 1941.

HOW TO BE YOUR OWN DECORATOR

By Helen Koues
Director, Good Housekeeping Studio

Decorating Your Christmas Table

Believe it or not, it costs a dollar or less to make an unusual Christmas table. The one shown below for instance, with a bit of ingenuity, crepe paper, cotton batting, marshmallows, didn't even cost a dollar.

Why not plan a novel decoration for the Christmas table? Something the grownups will like because it's festive and sets the day apart, and something the children will love!

Instead of using your regular table cloth or doilies, follow the suggestion given in the picture for a novel arrangement. A strip of red crepe paper, fluted on the edges, is used as a runner for the center of the table. Make place mats to match with the same fluted edges. Use cellophane or some type of glittering place mat which you can get at the chain stores to cover the crepe paper mats, to give sparkle to the table. A centerpiece is all important. The little snow-laden house is made from a cardboard box held together with transparent glue tape and covered with red brick paper. The windows are outlined in strips of bright red paper and the chimney is another small box inserted into the roof covered in red brick pattern paper, with cotton batting forming its snow covered roof. A bountiful chimney is sprouting Christmas favors. These are little heads of old Santa, suspended with tinsel strands from bits of wire secured to the chimney.

The children will love to find a bit of candy or some tiny toy in each one—a surprise when dinner is over. Not only the children, but any member of the family with a sweet tooth, will eye with interest the place cards made of marshmallows. Four and one half marshmallows make up this enticing snow man; two for his feet, one for his body, one for his head and one cut in half for each arm. Bits of candied cherries form the buttons of his coat, his mouth, while citron makes the other features. Or, red can be the entire color scheme. A red cellophane bow, under his chin, adds a Christmas dash. You will also find in your nearby stores, various types of Christmas candles. Here stars were used in semi circles at each end of the house, placed on little glass coolers. Any glass dish would be satisfactory and any Christmas candle would be as pretty. They may be white or red, or green.

For napkins use squares of the red crepe paper.

Two rolls of red crepe paper at 15c each, one roll of brick paper at 15c, 6 candles at 5c each and a box of marshmallows at about 10c and the favors at five cents each, brings this gay Christmas table decoration to about \$1.10.

There are lots of ways to vary it. Instead of the house, a pile of shiny Christmas tree balls could be used, or fruit could be piled around a tinsel covered basket acting as a grab bag from which tinsel cards attached to favors to be pulled, bring forth a silly rhyme or joke for each member of the family.

Heigh ho for Christmas!

INVENTION AND DEVELOPMENT

WE ARE NOT ONLY INVENTORS — WE'RE DEVELOPERS. FROM SPORTS TO ECONOMICS — WE'VE DEMOCRATIZED.

BASEBALL WE DEVELOPED FROM AN OBSCURE EUROPEAN GAME CALLED 'ROUNDERS.'

FOOTBALL WE MADE FROM RUGBY.

CHECKING ACCOUNTS, ENJOYED BY COMPARATIVELY FEW ABROAD, ARE USED BY MILLIONS IN THE U.S.A. LIFE INSURANCE, STARTED IN ENGLAND, IS ALMOST UNIVERSAL HERE. LOW COST EDUCATION IS THE MOST WIDESPREAD IN THE WORLD.

AND THROUGH DEVELOPMENT, MASS PRODUCTION AND EFFICIENCY, WE'VE BROUGHT OUR GREAT INVENTIONS TO ALL THE PEOPLE — MOTOR CAR — RADIO — TELEPHONE — MOVIES — ELECTRIC LIGHT AND POWER — FOR EXAMPLE.

ALL AMERICANS BENEFIT FROM AMERICAN ACHIEVEMENTS.

A middle aged woman won't tell her age, and a middle aged man won't act his.

Some folks make their joys mere incidents and their sorrows great events.

A local man says that the fondest hope of his life is that he will be as well taken care of some day and as considerably treated as is his wife's cat.

The reason no woman has ever married the man in the moon is because he only makes a quarter a week, gets full once a month, and stays out all night.

MIDWAY

Mrs. John Goldston

Christmas is over and the New Year is here. How many things we have to be thankful for. The family all well and children all home for Christmas dinner. Many many tokens of remembrances from neighbors and friends, who could ask for more?

Again Midway people are grieved over the passing of our much esteemed Jack Bromley. Tho grieved over his passing we have another link in the chain which binds us to our heavenly home.

Word has reached here of the serious illness of Mr. Davis in Los Angeles, Cal. Mr. Davis is a half brother of W. K. Davis of Midway.

Mr. and Mrs. LaVern Goldston and boys visited in the home of his parents Sunday. They also visited with Mr. and Mrs. Jack Pegram of Goldston.

Former Senator Clint Small and Mrs. Small of Amarillo attended the funeral of Jack Bromley here Sunday.

Mr. and Mrs. Davis spent Sunday with her sister Mrs. Milt Allen.

Clarence Davis spent last week with relatives at Silverton and Amarillo.

Mr. and Mrs. Porter Arnold and family of Plainview spent the holidays with his mother and other relatives, remaining over this Friday.

Mr. and Mrs. Porter Arnold and family of Plainview spent the holidays with his mother and other relatives, remaining over this Friday.

Mr. and Mrs. Pyatte of Amarillo and Mr. and Mrs. Francis C. Lively of Pampa, Mr. and Mrs. Dave Waldron of California and Newt Waldron were guests for Christmas day in the home of their sister, Mr. and Mrs. John Naylor.

Miss Virginia Williams from Jane Williams from Canyon school and Joe Williams from Lubbock Tech spent the holidays with their parents and grandparents, Mr. and Mrs. Glen Williams and Mr. and Mrs. J. A. Meaders.

Miss Katie Meaders had as her guest for dinner Sunday evening Misses Betty Jo Caraway, Margaret Jean Leathers and Mary Ella Williams and Messrs. Johnny Leathers and Joe Williams.

Mr. and Mrs. Clifford Davis and son Billy, Kennedy Davis of Amarillo, Mr. and Mrs. Ernest Davis of Silverton spent Christmas day with their parents, Mr. and Mrs. W. K. Davis.

and boys of McLean, Mr. McMahan of Clarendon, Mr. and Mrs. Gene Chamberlain and son of Memphis and Mr. and Mrs. Leslie Pickering of Clarendon were Christmas day guests in the John Goldston home.

Mr. Pelton is in the hospital at Groom. Mrs. Pelton went up Tuesday to stay with him.

Miss Margery Harlen returned to her school at Kellerfield Monday after spending the Holidays with her folks.

Joe Williams returned to Lubbock for school Wednesday after spending the holidays with his parents.

The news has reached here of the death of Mrs. Sallie Davis, wife of Mr. Davis, a half brother of W. K. Davis, and who formerly lived in Clarendon.

She passed away at her home in near Los Angeles, Calif. Mr. and Mrs. Davis visited in the W. K. Davis home here the past summer.

Rayburn Smith Jr. spent Christmas with his parents returning to his camp Thursday.

Rev. Quattlebaum visited in the W. K. Davis home Monday.

Another calamity has befallen Midway. The John Potter family whom we thought a permanent fixture of Midway, having lived here for some 30 years, has sold a half section to Mr. Gamble of the Sunnyview community and bought the Gamble home.

The two families will exchange homes. We regret more than we can express in words the moving of the Potters. The only thing that makes it bearable is, they will not be too far away. Then our loss will be others gain. We welcome the Gamble to our community.

Mr. and Mrs. Leslie Pickering have moved to the Baker apartment in Clarendon and now have

FATHER DID NOT KNOW GASPERGOU!

He is a nice young fellow from the North, working for his father's company in Louisiana. When he goes to Shreveport, there are friends who see that he is properly entertained.

He was through with his last Shreveport business by Friday afternoon. Usually he managed to rest up on some lake over the weekends. This time friends took him to the Dallas-Caddo Club. By Sunday he had decided that father would understand if he took a few days off. So he wired:

"Caught gaspergou Saturday here. If nothing urgent, will stay over until Thursday."

The young man was greatly surprised when the answer came: "Do not take chances. Go to hospital at once. Have doctor keep us advised as to your condition. Father."

Boot Stew and Lizard Keep Lost Hunter Alive

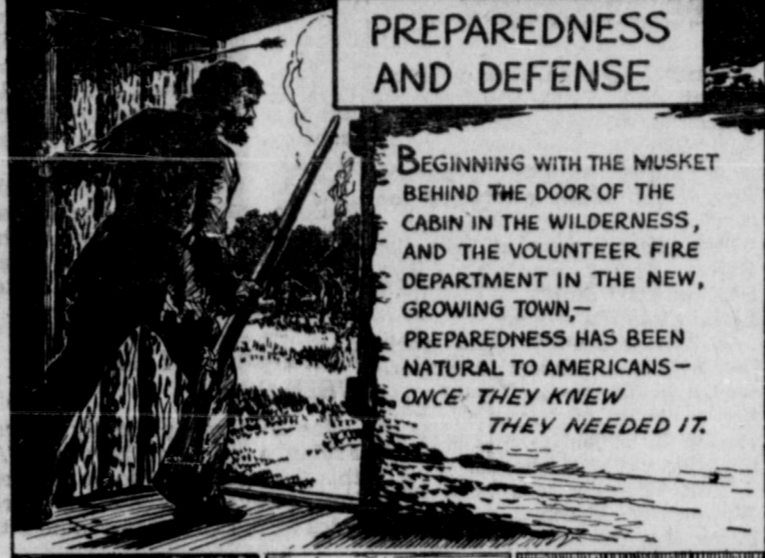

Woodsmanship, cool-headedness and meals of boiled grass, boot stew and a lizard are the reasons why Ross Snyder, 69-year-old California plumbing inspector, is alive today.

Snyder was lost for seven days in the Converse Basin area of California's General Grant National Park while on a hunting trip. Believed dead by many, Snyder had wisely waited for rescuers to find him instead of wandering aimlessly through the ragged Kings river country.

A searching party led by Marion McClurg, expert woodsman, found Snyder in his makeshift camp beside a board flume, part of which he had used for firewood. Suffering no apparent ill effects from his week-long isolation, Snyder told his rescuers how he built his fires and boiled grass, acorns and one lizard in a tin can for food.

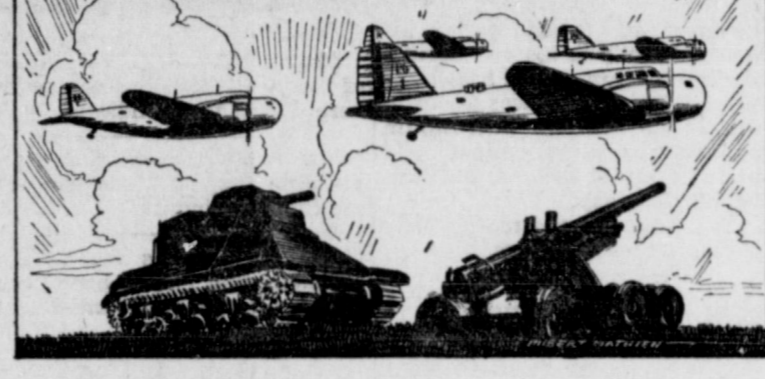

"That lizard wasn't so bad, and I would have eaten more if I could have caught 'em. I made a wov of a stew out of my boot straps and my binocular case," he said.

F.F.A. MEMBERS FIND GOOD SEED PAY

Nineteen members of the local F.F.A. Chapter recently completed the records on their Quadron crop projects for 1940. The chapter members planted certified seed on their projects and found quadron to be well suited to the drought conditions of this area. The yield of the member's projects was far above the average for the county.

The nine members who planted 113 acres of land to certified Qualla cottonseed were well pleased with the record on their projects. A consistently higher yield, longer staple of cotton and better stormproof qualities were found in the varieties grown by their fathers and neighbors with other varieties of cotton. Chapter members each year carry out a number of experiments on various crop varieties and various types of seeds in an effort to determine the kinds of seeds and crops most suitable to our locality.

Mr. and Mrs. J. R. Porter were in Dallas the week end.

Jack Draffin, state University student, spent the Holidays here with home folks.

F.F.A. MEMBERS PRESENT RADIO PROGRAM

The program was opened with the Future Farmer March. Lee Christie, Bailey Estes, and Frank Mahaffey gave a series of short interviews with relation to information concerning the local chapter and its activities which resulted in it being ranked as one of the four top chapters in the United States during the past school year. Billy Thornberry played a piano solo and presented a short discussion of his project program. Claude Hearn, William Sullivan, and Bailey Estes presented a group of harmonica and guitar numbers interspersed with the talks and interviews to complete the program.

Cards from a number of other Panhandle chapters have been received by the local group congratulating them upon their program.

'Lift-All' HOW 'LIFT-ALL' WORKS IN THE NEW 'LIFT-ALL,' we are introducing the first all-purpose hydraulic power lift. Read these interesting quick facts about 'LIFT-ALL.' 'Lift-All' lifts or lowers the entire implement at the flick of a finger on the handy control. But that is not all—'Lift-All' goes way beyond that! It enables you to: 1) Lift or lower front beams of cultivator first. Delayed action automatically actuates rear beams when they reach point where front beams were lifted or lowered. 2) Lift either side of the implement independently of the other side. 3) Lift and hold implement to any desired working depth. See this great new attachment for Farmall-H and Farmall-M. Ask us for a demonstration. And remember, 'Lift-All' is an exclusive Farmall feature! Thompson Bros. Co.
