Interview With Hospital Administrator

## Board's Proposal To Help Rid Tax Burden

By MARTY EADY  
Managing Editor

The Donley County Hospital District Board is presently attempting to figure out a way to relieve the taxpayers of a tax burden on a hospital which isn't even open.

In an interview with Gerry Knight, hospital administrator, said, "We have been researching various ways we could perhaps open the facility and at the same time maybe end some of the conflict. What the board thought it might do is find a health concern which would have an interest in the facility, come in and take a look at it and then lease the facility. Let them take over the operations of the facility and thereby nobody could say Old Joe out here is a farmer and doesn't know anything about it. It would be run by

professional people who had top management, and there would be no controversy. The idea in mind was to set it up in such a manner to reduce the taxes. Everything went along fine until a supreme court ruling concerning the issuance of bonds for the purpose of financing a private enterprise in Galveston. This left doubt as to rather we could do this with the hospital."

The Board is considering making the hospital wing into a nursing home from an economical standpoint. The present 22 bed nursing home facility at the Medical Center cannot create enough cash flow to pay for itself. The board will discuss the issue further at its next meeting on Tuesday, August 12. What the board is trying to do now is find out if it is feasible to

do this.

The board is concerned as to rather such a move would require a vote of the people. Attorneys for the district are checking rather or not this will be necessary.

"We are in debt from the 1974 operations," continued Knight. "This means after the taxes are collected for this year that the bond and interest payment must come out of the taxes, then warrants which were taken out for last year. After all of this is paid there are no taxes left for this year. So this eliminates all our sources of revenue. This means that this facility at the very minimum must break even. If it stays as is, then the district cannot operate. Then something must be done to generate more revenue. So this is our thought to be able to convert this side into a nursing home. Studies show that to do so we would not only be able to break even, but to make some money. Cover our operation and come out of the hole."

"Two years would probably be required to make the proposal work. Instead of losing \$42,000 a year, we could possibly clear \$15,000. If no agreement can be reached then there is no way to continue operating such as has been done. We can help heal our sores while meeting a need."

"What the whole purpose of the whole thing is to create a facility first of all that is economically stable," said Knight. "Second to be able to come back through and create a multi purpose facility that can provide a nursing home, clinic area and hospital, but not cost the taxpayers so confounded much."

"Now the only way we can do this is to be able to go back through and utilize what we have the best possible way we can, as economically as possible and then come back through again and re-establish and add what we need to make it stable. That is the basis, the whole reason behind the whole thing is what can be done. What we do to create a facility that can be an asset to the community, to the district and can eliminate the difficulties which we have had in the past. But again it is something that cannot be done over night."

"Right now if four physicians were to walk in and say they were ready to start practicing medicine, where would I get the funds to be able to open the hospital. This year we are paying off last year's operations and without even taking a look at this year's yet. There will have to be something else to pay for this year's expenses until it comes to the point where we don't have to worry about paying for it, it will come through on its own."

Danny Monroe

## Dan Monroe To Play At Greenbelt Bowl

A SECOND Clarendon youth will display his athletic ability when Danny Monroe plays in the annual Greenbelt Bowl All-Star Football Classic sponsored by the Childress Chamber of Commerce Friday night in Childress.

MONROE AN all-district player in high school for two years, will be one of the 22 players on the east squad which will be coached by Dean Slayton and Harold Mayo of Howard Payne College. Monroe played the tackle position in high school and was all-district offense and defense in 1973 as a junior and was all-district defense last year.

DANNY'S REPRESENTATIVE in the Greenbelt Bowl Queen's Contest will be Cindy Reynolds, daughter of Mr. and Mrs. Steve Reynolds of Clarendon.

PLAYERS ARRIVED in Childress last Sunday and began workouts Monday morning. The game will be played at 8 p.m. Friday at Fair Park Stadium. Introductions of the players and their queen nominees will be by Bill Tell Zortman, news director of KVII TV, Channel 7, Amarillo, who will also do the play-by-play announcing.

MONROE WILL attend Clarendon Junior College in the fall where he plans to major in accounting.

KENNETH KING TO PLAY IN TEXAS-OKLAHOMA GAME CLARENDON'S ALL-state running back, Kenneth King, will make his second appearance in two weeks Saturday night in Wichita Falls when the Texas All-Stars take on the best Oklahoma has to offer.

KING LAST week played in the Texas High School North-South game in Fort Worth. The two time all-stater will leave August 19th bound for Oklahoma University where he will play college football.

## Two Clarendon Women Get Honors

The Board of Advisors for the Outstanding Young Women of America Awards Program has announced that two Clarendon women, Mrs. Mary Katherine Hayes and Mrs. Nelda Joy Nance, have been selected for inclusion in the 1975 edition of "Outstanding Young Women of America."

The Outstanding Young Women of America Program was conceived, and is today guided, by leaders of the nation's major women's clubs and organizations. Two Clarendon women were nominated for the honor by Dean Beryl Clinton of Clarendon Junior College. In every community there are young women working diligently to make their cities and country a better place in which to live. They achieve personal excellence in their chosen professions, homes, clubs and churches. They are the backbone of their communities and they deserve to be recognized for their achievements.

Mrs. Hayes and Mrs. Nance, along with approximately 6,000 fellow Outstanding Young Women throughout the United States, are now being considered for further state and

national awards. This fall, 51 of the young women listed in the awards volume, one from each state and the District of Columbia, will be named as their state's Outstanding Young Woman of the Year. From the state winners, the nation's Ten Outstanding Young Women of America for 1975 will be

Nelda Nance

Kay Hayes

selected by a panel of distinguished judges. The national winners will be presented at an awards ceremony to be held this fall in Washington, D.C.

Kay Hayes and her husband, Jim, have three children, Rick, 12, Spencer, 11, and Mary Katherine, 8. A native of Kerrville, Kay and her family moved to Clarendon 10 years ago from Lubbock where she and Jim met while attending Texas Tech. Jim is a real estate broker for farms, ranches and agriculture property.

She received her bachelor's degree in English from West Texas State University and is presently working on her master's degree from UTSU. Kay has taught developmental reading at Clarendon Junior College and will teach language arts at Clarendon Junior High school in the fall.

Kay is a member of Sigma Tau Alpha, honorary English society, and Alpha Chi, honorary scholastic fraternity. In addition she is a member of the Ladies' Golf Association, Altar Guild of St. John's Baptist Episcopal Church, Les Beau Art Club and teaches Sunday School. She served as a Cub Scout den Mother for five years, was Donley County Republican Chairman, has served on the Board of Directors of the Country Club, Board of Donley County Living History commission and secretary of the Little League Advisory Board.

Nelda Nance and her husband, Jim have three children. She was born in Littlefield and moved to Clarendon where she was in the seventh grade. Nelda graduated from Lockney High school in 1958. She is the daughter of Mr. and Mrs. G. W. Tims of Clarendon.

Nelda entered Clarendon Junior College in 1970 on a partime basis and started fulltime in 1971-72. She finished at CJC with a perfect 4.0 grade average and is a member of Phi Theta Kappa, national honor society. She received her BS degree with a major in speech from WTSU in August of 1974.

She has accumulated all A's with the exception of four B's. Nelda is presently attending Texas Women's University in Denton majoring in library science.

## Football Workouts Start On Monday

The atmosphere chill of a new football season can already be felt as Clarendonites anxiously await September 5th when they will get a chance to see Jerry Wilson and his Bronchos in action.

Wilson will hold the Bronchos' head coaching reins for the first time. Wilson assumed his new duties after Clyde Nonkester resigned earlier this summer.

Assisting Wilson with the coaching duties will be Bill Crockett and Doug Keeney. Crockett comes to Clarendon from Claude where he has been assistant coach for the past three years. He is a graduate of McLean High School and has 10 years of teaching and coaching experience.

In an interview with Wilson Tuesday morning he told The Press that 62 boys have signed up for high school football. Of these 25 players will makeup the varsity squad and the rest will be on the junior varsity.

"All positions are open and anybody has a chance to try for a position he wants to play," said Wilson. After four or five days we will be able to see who can play position the best. We want all the kids to play. We want the Bronchos to be a team, everybody helping each other."

Two-a-days will start at 8:30 Monday morning, August 11th when Coach Wilson will get a look at all of his players for the first time. The players will work out twice a day on Monday, Tuesday, Thursday and Friday, and only once a day on Wednesday and Saturday.

"We don't know what to expect until we start," said Wilson. "We just have to wait and see what the boys are capable of doing."

Thirteen seniors have signed up for football. They are: David Lewis, Larry Shields, Don Hillis, Lynn Floyd, Mark Boothe, Walter Riggs, Daryl Rives, Ricky Morning, Anthony Knowles, Gary Jack, Eddy Eads, Joe Leathers and Ralph McGarity. Juniors from last year's team are expected to be Tony Wallace and Barry Schafer. Coach Wilson considers John Hall, a 6', 165 pound, halfback and linebacker, a great sophomore prospect for the 1975 Bronchos. But Wilson also added that there are several good prospects for the varsity squad and each boy will have an equal opportunity.

GA'S DAY CAMP -- Members of the GA's of the First Baptist spend a day examining plants on the Leroy Leathers property last week. The group were first, second and third graders.

James Gillespie, range conservatist, identified the plants for the groups.

## Commissioners Increase Land Evaluations

Inflation and higher prices forced Donley County Commissioners to raise land evaluations by \$2 per acre thus increasing county taxes on grass and farm land for the first time since 1949 at a called meeting July 28th.

For 26 years the county has operated under the old tax structure which has become obsolete since salaries, living costs, costs of supplies and materials have risen since the post war days.

"We're not a profit making institute," said Donley County Judge Billie Christal. "But we can't do it with the present

funds." For example, a land owner with 640 acres with a assessed value of \$2320 was paying \$35.04 in taxes. Under the new Continued on Page 2

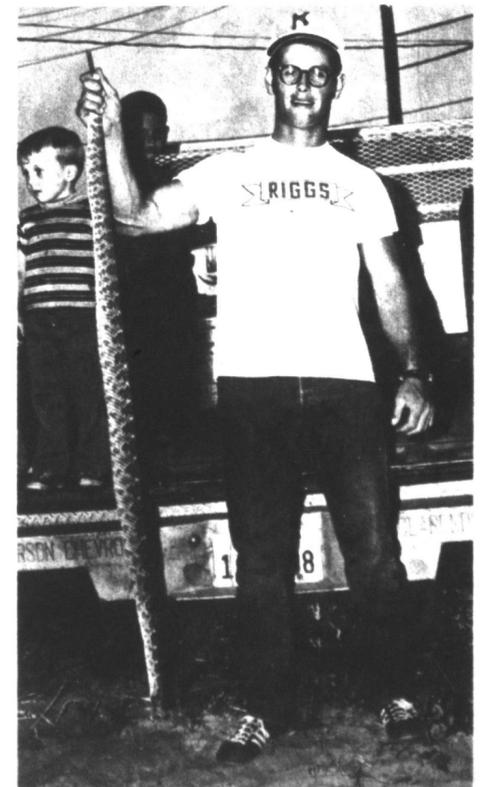

## Assistance Available Under ECM Program

HEAVY RAINS have caused severe damage in Donley County and farms suffering severe damage may be eligible for assistance under the Emergency Conservation Measures Program administered by the County Agricultural Stabilization and Conservation Service (ASCS), according to the August newsletter.

FARMERS ARE entitled to assistance if the damage: (1) is unusual in character and is not the type which would reoccur frequently. (2) materially affects the productive capacity of the farmland. (3) if not treated will impair or endanger the land. (4) will be so costly to correct that the farmer cannot do it without federal assistance and is truly an emergency condition for the farmer. That is, it is so severe that the farmer cannot correct it using his normal labor supply and farm equipment that is normal for the area and his other resources are such that assistance is required to restore the land.

A FARMER qualifying for ECM assistance may receive up to 80 percent of the cost of performing the following types of measures: (1) removing debris from farmland; (2) grading, shaping or releveling severely damaged farmland; (3) restoring permanent fences; (4) restoring conservation structures and other similar installations.

FARMERS WHO feel the damage is sufficiently severe and their capabilities are such that assistance is necessary to correct the problem, should contact the county ASCS office, and request assistance by not later than September 2nd, the deadline for filing requests. Wheat production must be reported within 15 days after harvest for the farm to be eligible for disaster payments. Farmers need to get their production in as soon after harvest as possible. If a crop is abandoned, the farmer must report it and have it appraised before it is plowed up. Failure to do so could cost the farmer his disaster payment. If a farmer has hegar or other feed grains he intends to graze or hay, it too, must be appraised if he thinks the farm might be eligible for feed grain disaster payment.

UGH! -- Johnny Hill holds the tail of a 5' 10", less the head, rattlesnake he killed with a stick about 300 yards from his home in the Sandy Camp area Saturday afternoon. The unwelcome intruder measured approximately four inches around and had 14 rattlers plus the button. Johnny said he was able to kill the snake with a stick because it had curled up in some bushes and was unable to strike at him.

A fellow from a non-windmill part of these United States asked one of my friends, "Why do they have fans on windmill wheels?", and then proceeded to answer his own question, "Is it to keep the flies off of the cattle?"... My friend could scarce keep from laughing....

It is said that life expectancy is increasing, one thing for certain in this day we can expect anything....

I guess we are lucky that people don't fully understand us, likely they couldn't stand up under the load.

by DR. JAMES O. BRANDON

**MARRIAGE AND THE HOME**

The home was the first institution of mankind and was ordained by God Himself. There has always been down through the centuries a vast difference between the Biblical concept of marriage and the home and the various cultures of the nations of the world. This is no less true today. The Biblical concept of the home has ceased to be the concept of our modern American culture. To say the least, the Biblical concept is greatly buried though what we see today. The things the Bible says about marriage and the home sound strange to many people.

The Apostle Paul discussed the Biblical concept of marriage with the Christian church of his day. He pointed out that the Christian concept is distinctive. The Christian home is to be an example of the teachings of Christ. Being this, the Christian home is thereby different from the customs and culture of the times. This was so in the pagan culture of the Greek-Roman world.

The Apostle Paul used Christ's love and concern for his church as an example of the love and concern that the Christian home is to demonstrate. He discusses the roles of wife, husband, and children (Eph. 5:22-33).

The wife is to submit herself to her husband as unto the Lord. Most modern women say, "Now wait just a minute!" The next statement of the Apostle even sounds more preposterous to the modern woman: "For the husband is the head of the wife, even as Christ is the head of the church." He closes his discussion of the wife's role by saying, "And the wife see that she reverence her husband." (v33).

About here the man are saying, "Amen! Amen!", while the women are accusing the Apostle Paul of being an old bachelor who didn't know what he was talking about, and then the Apostle says, "Husbands, love your wives even as Christ also loved the church, and gave himself for it" (Eph 5:25). Now's a lot of love. Christ died for the church. The Apostle is saying that a man ought to love his wife enough to die for her if necessary. This is a little more involved, fellows, than ruling the little lady with a rod of iron. The word Paul used for "love" means to put her before yourself. It means to think of her before you think of yourself. It means to consider her wishes, her desires, her comforts, before you do your own.

And while you are catching your breath, men, the Apostle Paul says, "So ought men to love their wives as their own bodies. He that loveth his wife loveth himself. For no man ever yet hated his own flesh, but nourished and cherished it." Men, if you need any explanation of this, you are too immature to be married. Let me spell it out for you anyway. It means that if you hurt that little lady, you are destroying your own flesh.

Ladies, the Apostle Paul wasn't such an old Blow-hard after all, was he? You need to remember that the same Bible that tells your husband to love you so much also tells you to submit yourself to him in love (considering him first).

This isn't all. The Apostle says that when you leave home to get married that you ought to really leave home. "For this cause shall a man leave his father and mother, and shall be joined unto his wife, and they two shall be one flesh."

Does all of this sound strange to you? This is the Biblical

concept of marriage and the home. This is what the Christian home is to be. This is how it is to operate. This is how Christian husbands and wives are to relate to each other. Those who operate in this fashion seldom have to see a lawyer or a marriage counselor. Things work themselves out in an atmosphere of love and devotion of the husband for his wife and the wife for the husband. Children raised in this atmosphere seldom have any problems either.

valuation increase the same amount of land would increase \$2 per acre, thus making the assessed valuation \$3600 and county taxes on said property would be \$54.31. This increase would make the county taxes approximately \$19.27 more per section. The valuation increase only amounts to approximately 3.18 cents per one hundred dollars on the tax structure.

The commissioners instructed County Clerk P. C. Messer to forward written notices to persons whose property had a proposed increase in valuation to appear before the Board of Equalization at 1 p.m. on Monday, August 11 and show cause why the value of their property should not be increased.

According to Judge Christal, Donley County possibly has the lowest tax structure across the board in the state.

A motion by Commissioner John Hill and seconded by Jess Finley set the tax rate for 1975 the same as before on property such as: regular ad valorem tax rate, 95 cents on \$100 valuation; farm to market road tax, 30 cents per \$100 valuation; and 14 cents on \$100 valuation for the Donley County Road Bond Fund.

Commissioner Gene White made a motion which was seconded by Commissioner Olace Hicks which carried to enter into an agreement with the city of Clarendon and the County Ambulance Authority to purchase through the Panhandle Emergency Medical Service System Inc. one mobile unit for the ambulance and pay share of system fee costs. The cost of the mobile unit will be \$1,379.25. The Ambulance Authority is to pay one-half, \$689.63, and the rest cost divided before the City of Clarendon and Donley County, each paying \$34.81 Hedley

Three hundred and sixty-six West Texas State University students will graduate in Summer Commencement ceremonies August 16 at 4:30 p.m. in the Amarillo Civic Center Coliseum. The rehearsal is scheduled for 10 a.m. that morning in the coliseum. Dr. Lloyd I. Watkins, University president, will present diploma covers to the students. The invocation and benediction addresses will be given by Marcus L. Adair, director of Faith Bible Center.

The graduates from Clarendon are Katherine E. Green of Route 1, masters of arts; and Marcia L. Loggan of Naylor Route, bachelor of science.

Earl Burton has undergone surgery and he is recovering at this time. He moved to Fort Worth to reside with his daughter at 3505 Bilglade Road, Fort Worth, Texas 76133.

Marcia Longan

## Marcia Longan Commissioned By Foreign Mission Board

A Clarendon woman, Marcia Longan, was among the 80 Southern Baptist missionary journeymen commissioned by the Foreign Mission Board last month.

Baker J. Cauthen, the board's executive secretary, speaking before the overflow crowd, said to the journeymen, "Put your trust in God. Take God's word at face value. You can place your weight on God's promises."

He told the young people to trust God to "make himself known as a mighty wonder-working God."

Taking his thoughts from the book of Numbers, Cauthen continued, "Whatever you are going to do, you must do it every day and with full abandon."

Journeymen are college graduates no older than 26 who work for two years alongside career missionaries in specific job assignments overseas.

Job assignments include teaching, preaching, communications, nursing, youth and student work, agricultural work, business administration, bookkeeping and secretarial work.

The daughter of Mr. and Mrs. P.C. Longan, Naylor Route, Marcia was born and raised in Clarendon. She is a member of the First Baptist Church and graduated from West Texas State University this year with a BS degree. Marcia will be employed as a typist at the Baptist Publishing House in Bulawayo, Rhodesia.

Of the new journeymen, 21 were commissioned to Eastern and Southern Africa, 18 to East Asia, 10 to Eastern South America, eight to West Africa, eight to Western South America, seven to Middle America and the Caribbean, five to Europe and the Middle East and three to Southeast Asia.

Prior to their commissioning, the journeymen completed six weeks of special training at Meredith College, Raleigh, N.C.

A reception honoring Miss Longan will follow the Sunday evening worship service at the First Baptist Church.

## Nancy Richie Weds Marvin Hall

A double ring wedding ceremony was held Saturday evening, July 26th, in the First United Methodist Church at Hereford as Nancy Richie and Marvin Hall of Lubbock exchanged vows. Dr. Jordan Grooms preformed the ceremony.

Twin spiral candelabra's flanked the marriage altar, which held a large bouquet of yellow roses and white daisies.

Mrs. Weldon Rives of Clarendon assisted her cousin as matron of honor. Ricky Hall of Austin attended his brother as best man.

Shellie Richie daughter of the bride lighted the wedding tapers at the front of the sanctuary.

Bobby McFarland sang "O Perfect Love" and Miss Cindy Ford vocalized "Calour My World," with accompaniment by Mrs. Jim Cramer, organist.

For her marriage, the bride wore a slipper length gown of pastel yellow knit, complimented by a sweater-length jacket, crystal jewels encrusted around the midriff to accent a high rise bodice design, panel of eridicent beads out lined the front of her jacket, which was fashioned with long sleeves. A crystal tiara held her three tiered veil of candle light illusion which fell to the waistline. Her bouquet was yellow roses and white daisies of silk.

## Clarendon Woman's Granddaughter Weds

Miss Ava Ruth Wardlaw became the bride of Robert Charles Orr Jr., in a double ring wedding ceremony on the evening of July 4. Rev. D.D. Simpson united the couple in marriage at the First Baptist Church in Rockdale.

The bride is the daughter of Mrs. Ruth Wardlow of Rockdale and the groom's parents are Mr. and Mrs. Robert C. Orr Sr., also of Rockdale.

She is the granddaughter of Mrs. Mamie Hall of Clarendon.

Mrs. J. Estell Johnston provided wedding music at the organ and also accompanied Mrs. Kenneth Baxter as she sang "We've Only Just Begun."

The bride was given in marriage by her brother-in-law, Bill Burleson. She wore a gown of white crepe and chiffon which featured an empress neckline, short puffed sleeves, raised waistline and chapel length train. Bands of reembroided Alencon lace adorned the bodice and skirt and scalloped lace encircled the hemline. The gown was designed and made by the groom's sister, Mrs. Will Ferguson. A waist-length veil was caught to a coil of curls adorned with baby's breath.

The bride carried an arm bouquet of blue Dutch iris, lime spider mums, daisies and baby's breath. Her father's wedding band was tied in the streamers of the bouquet for "something old."

Mrs. Lamar Harrison Jr., sister of the bride, of Milano, was the bride's matron of honor. She wore a sleeveless gown of lime dotted swiss designed with a scooped neckline. Lace trimmed the neckline and raised waistline. She carried a small arm bouquet of spring flowers similar to the bride's bouquet.

James Black of Austin was the best man. Ushers were David and Donald Wardlaw.

Mrs. Wardlaw chose a formal gown of green and white knit with sort sleeves for her daughter's wedding. Her corsage was a white cymbidium orchid with pearls and green ribbon trim. The groom's mother chose a formal gown of denim blue felt accented with old-fashioned lace with a scooped neckline, long sleeves and a deep ruffle at the hemline. Her corsage was a white cymbidium orchid with rhinestone and blue ribbon trim.

Following a ceremony, a reception was held in the church fellowship hall. A garden setting was created by an ivy entwined archway, picket fencing, and hurricane lamps set at vantage points throughout the hall. The bride's table was laid with lime dotted swiss over a lace edged white tablecloth. Centering the table were three brady nifters with floating candles which were set at different levels. A double ring wedding cake decorated with white roses and blue forget-me-nots was topped with an anniversary layer with the traditional bride and groom under an arch. Lime punch was served from a crystal punch bowl. The groom's table was laid similar to the bride's table with accents of blue. A boot-shaped German chocolate cake with the wedding date written on it was served with coffee from a silver service.

At the bride's table was Mrs. Rudy Harrison and Mrs. Kenneth Baxter. At the groom's table was Mrs. Will Ferguson, sister of the groom, and Mrs. Sammy Smith, cousin of the groom. Mrs. Kenneth Schlottman Jr. was at the guest book and Mrs. Charles Pevehouse completed the houseparty for the reception.

The bride attended Rockdale High School and was graduated from high school in Houston. She has since been employed in Houston. The groom was graduated from Rockdale High School and now is attending Tarleton State University in Stephenville where he is majoring in agriculture. He is employed with the J.R. Stone Construction Company for the summer. The couple will make their home in Stephenville.

Out of town wedding guests were from Kentucky, Kansas, Louisiana, San Antonio, Smithville, Thorndale, Milano, Waco and Cameron.

### Receives Degree

Fred E. Chamberlain III of Clarendon recently received a degree in Industrial Administration from General Motors Institute after completing graduate requirements and co-oping at Buick Motor Division in Flint, Michigan.

General Motors Institute is an accredited college with an enrollment of 3,000 men and women who have been selected by GM units for appointments to cooperative programs in either mechanical, industrial or electrical engineering or industrial administration.

For the first four and one-half years, students alternate between periods of academic instruction at GMI and coordinated work experience in their GM units. They qualify for a bachelor's degree by successfully completing a project at their GM unit during the last semester of a five-year program and submitting a thesis to GMI.

A bright cheery morning to you who are reading this! First of all: did you know the City Hall Building is being kept open for thirty days trial period for those who would like to have a place to visit and play dominoes while waiting for the mail carrier or for just any reason? Jim Corgill will have the coffee pot on and will be there most of the time. So why not drop by and see what kind of coffee Jim makes? Maybe he will have more to offer later if you request it. Don't forget the building is air conditioned and it will be a good place to get out of the sun. Maybe you can hear some good fish stores. There will be a volunteer firemen's meeting this Thursday at 7:30 p.m. Also this Thursday there will be ice cream and cake at 4 p.m. at the City Hall. All are invited, so bring either ice cream or cake.

There was a called meeting Monday to prepare a general budget for the rest of 1975 and the first half of 1976. The budget will include the Revenue and Expenditures anticipated. If the new budget permits, plans for constructing a new building for the fire trucks will be made.

Mr. and Mrs. Willis Duggan and three daughters of Hereford visited the J. A. Blevins. Yvonne Duggan of Canyon and Randy Alexander of Canyon also were visitors.

Grandchildren of John and Lois McVicker, Cheri, Monte and Misti McVicker with their parents, Tom and Beverly Schiermbach of Las Vegas, Nevada were visiting the McVickers last week.

Mr. and Mrs. Morris Castner had as their guests last week their daughter, Jane and children, Billie and Chuck and Arthur of Lubbock. They came in Thursday and left Monday morning.

Mr. and Mrs. Douthit had a full house over the weekend. Mrs. Douthit's mother, Mrs. Mary Case, sister, Linda Bankston, both of Elk City, Okla., Mrs. Douthit's nephew, David and Rea Burt of Yukon, Arizona, Carl McLoftan of Ft. Worth, Mr. and Mrs. Douthit's daughter, Becky Isbell of Edmond, Okla. Becky spent a week with her family. Also visiting the Douthits were Thurman Scouring and family of Colorado Springs and D. Wittington of Quitaque.

Visiting Mrs. Lena Howard for the past two weeks, were Mr. and Mrs. Don Thormahlen and children, Keller, Karl and Greata of Dallas.

Loyd and Katie Morris and grandchildren, Amy, Trent and Susan were at the lake for the weekend.

Ed and Grace Castner and Mrs. Boone's mother, attended the Milton Beasleys 50th wedding anniversary Sunday evening at Memphis. Milton is Mrs. Boone's son and Grace's brother. Judy Langan and son, Sharon of New Mexico and Mary Castner of Lelia Lake visited Monday afternoon. The Jerold McDonalds of Lubbock spent the weekend with her parents and attended the wedding anniversary and fished. Had a good catch. Grace reports she caught a three pound channel with rod and reel.

Mrs. Murleen Ryder, Elsbeth and Lisa have been fishing with the Sarichs since Wednesday. The Ryders are from Beverly, California and the children are receiving a Texas: education on snakes, caterpillars and fishing and all that Texas sunshine.

I am glad to report a good turn out for the singing last Saturday. Jane Arthur and family, Bill Castner and family, with their mother, Mrs. Eddie Castner sang several members. Mr. and Mrs. Ed Pearce sang a duet. There was also a quartet singing. Mrs. C. F. Moss and Ed Pearce did mot of the accompanying at the piano. Melville Mills was in charge of the evening. The next singing will be the first Saturday in September. Hope to see many of you then.

Mr. and Mrs. Albert Moore went to Hemingford, Neb. July 16th to see their first great grandchild, a baby girl, named Giner DeLois. Their son, Jack from Amarillo went with them. It is his first grandchild. he remained there for a long visit. The Moores toured Colorado Springs and other interesting

places in Colo. then on to Red River, N.Mex. where they spent a couple of nights, resting and sight seeing. They arrived home Thursday, jut in time to have Mrs. Moore's two sisters from Ardmore, Oklahoma, Mrs. Eunice Ervin and Mrs. Viola Buck visit them for a few days. They stayed until Friday with the Moores.

Don't forget the Lions Meeting this Saturday evening. I think Ham is on the menu.

Mr. and Mrs. Jimmy Dunn spent Monday in Amarillo doing business and visiting friends.

I'm sorry I don't have more news this week. Maybe next week?

## questions and answers

[Have you a question about social security? Address it to the Social Security Administration, 317 East Third Street, Amarillo, Texas 79101. You will receive an answer in this column or by mail.]

Q. I fell and broke my leg last week. I will be at least six weeks before I can go back to my job. Would I be eligible for disability benefits?

A. Not unless there are complications. To be considered disabled under social security you must have an impairment that is so severe that it will prevent you from doing any substantial gainful work and is expected to last at least 12 months.

Q. I am not yet old enough to retire. My main concern is the welfare of my daughter who is my only dependent. She is 35 years old and so severely retarded from birth that she will never be able to work. In case of my death, would she be eligible for monthly benefits?

A. Yes, she would be eligible for monthly survivor's insurance benefits. She may also be eligible if you become entitled to disability or retirement insurance benefits. She could possibly qualify now for benefits under the new Supplemental Security Income Program. Contact your nearest social security office for more information.

Q. I am 61 years of age and became totally disabled in October 1974. I have not filed application for disability benefits because a friend tells me there is a big reduction in the amount of the benefit if you apply before age 65. Is this correct?

No, it is not correct. If you meet the disability requirements, your benefit amount will be computed as though you were 65 years old when you became disabled. There is no reduction.

## Fun After 50

Fun After Fifty Club met last Saturday for their regular monthly meeting at the Lions Hall, games of 42 and dominos were played.

On account of the president Mrs. Dale being absent Mrs. Verdie Havington took her place. The report of the sick members were listed. No door prize was given. Recognition of the birthday in July and August were presented. For the program Miss Virginia Browder gave a reading which was very clever. The story goes title "Sister Snippy Plute" went to church she met a preacher they both began talking one of the other of them saying funny things and some singing going on by sister Snippy Plute. "Song Glory" Hallelujah". Miss Browder imperinated both voices of each of the preacher and the old maid as she presumed.

Bro. Oglesby gave the table grace for a very nice meal. There were 40 members and guests present.

NOT A COMPLETE LOST -- The Soil Conservation Service figures indicate as much as \$20 per acre can be saved by minimum tillage as practiced by Clifford Fraser, who farms southwest of Groom. Fraser's wheat was hulled out during the flood which recently hit the Groom area. Instead of plowing it up, he planted Soybean in the same rows. The wheat stubble protects the soil from evaporation of irrigation water. Chemicals are used to control weeds if needed.

### SOIL CONSERVATION SERVICE

By Monty Sowers  
District Conservationist

Senator George McGovern will make the keynote address at the 30th annual meeting of the Soil Conservation Society of America in San Antonio on Monday, August 11. Theme of the meeting, which runs from August 10-13, will be "Land Use: Food and Living."

The senator is a long-time friend of conservation interests and served as a special assistant to President John Kennedy and director of the food for peace program prior to his election to the Senate in 1962.

Other speakers during Monday's opening session include Mrs. Francine I. Neff, Treasurer of the United States; San Antonio Mayor Lila Cockerell; and Ms. Peggy Toben, San Antonio Conservation Society. Program Chairman Edward E. Thomas, state conservationist for the USDA Soil Conservation Service in Temple, will preside.

More than a thousand professional conservationists from the United States, Canada, and Mexico are expected to attend the four-day meeting, which begins Sunday, August 10, with registration and a reception.

The society is a nonprofit scientific and education organization dedicated to advancing the science and art of good land use. It has about 14,000 members throughout the world.

Official hosts for the San Antonio meeting are the members of the society's Texas Council of Chapters.

Speakers at Tuesday's general session include Dr. A. H. Hannah, assistant deputy minister, Department of Agriculture, Ottawa, Canada; Dr. Gerald Thomas, president, New Mexico State University, Las Cruces; and Mel Davis, administrator, Soil Conservation Service, Washington, D.C., at the general session on Wednesday, August 13, speakers will include Dr. Anson Bertrand, Dean of Agricultural Science, Texas Tech University, Lubbock; John White, regional administrator, Environmental Protection Agency, Dallas; and Dr. Keith Arnold, director, Division of Natural Resources and Environment, University of Texas, Austin.

Other speakers at a series of 10 concurrent technical sessions will consider the land use implications of meeting domestic and foreign food demands. They will also discuss the impacts expanded agricultural production will have on the nation's soil, water, and other natural resources.

James Gillespie, Range Conservationist with the SCS at Clarendon will attend the meeting.

## We deal with two types of energy:

### 1. HUMAN

Many businesses and industries are moving into this region from other parts of the country. They've found that we have a willing work force, a sensible tax structure, favorable weather and adequate energy sources.

New industries don't just move into your town by accident. Sometimes years of personal contacts by your Chamber of Commerce industrial team, and the industrial development experts at Lone Star Gas are carried on before the final decision is reached to relocate in your town.

Your Chamber's industrial team, aided by the state, county and utility teams, study the area to make sure the right industry is matched with the right plant site location.

A new business or industry helps your town's economy by providing new jobs and by adding tax dollars for schools and hospitals and other community services.

So when you hear about a new industry moving into your town, call your Chamber of Commerce and thank them for another job well done.

### 2. NATURAL

To our customers, Lone Star is "the gas company." We serve over one million customers in about 400 cities and towns in Texas. That's a lot of customers . . . and a lot of responsibility. People depend on Lone Star Gas to have the available natural gas energy whenever and wherever they need it. And we've provided that energy for over 60 years through investments in pipelines, compressor stations and the purchase of new, more expensive gas supplies.

Natural gas produced in the United States provides over ONE-HALF of this country's industrial energy requirements. And the availability of adequate natural gas energy is one of the primary reasons that more and more businesses and industries are moving into this part of the country.

Lone Star Gas is committed to helping your town attract and keep industries that can provide jobs and help the economy. It's just good business for all of us.
