Armed Strike-breakers.

A man named James Farley of New York has undertaken the job of breaking labor strikes for firms or corporations who employ him. His first effort is now on in San Francisco.

Several train loads of his men, gathered up at random in the eastern cities have already been sent west. Wednesday 75,000 rounds of ammunition and eleven hundred revolvers were among the stores given out by Farley.

A surgeon was on the train. Union men who enlisted with Farley to get among the strike-breakers were ejected from the train. Farley's headquarters resemble a military camp.

When the first train reached Chicago, slight delays were experienced owing to refusal of union trainmen to handle the train. The strike-breakers were hooted by the crowd.

Stock Shipments to Ft. Worth.

In announcing the local shipments to Fort Worth, the Denver stock train will leave Clarendon early Sunday mornings and arrive at Ft. Worth Monday mornings in ample time to give the cattle a chance to get a good fill before going on the scales. Cooperation of the stockmen is asked in making the train a success.

Orders for cars should be placed far ahead enough to give time to get them to the loading point at least one day before loading, so that bedding may be done and cars placed to the chutes. As much loading as practicable should be done before arrival of train, to save time, which is so important in handling live stock.

The purpose of getting into Fort Worth early Monday is to give those wishing to do so a chance to reach the northern markets Wednesday or Thursday, if the prices at Ft. Worth are not satisfactory.

As soon as the volume of business will justify it another train will be put on to run on Wednesdays arriving at Fort Worth Thursdays.

Five prisoners were poisoned in the Fort Worth jail a few days ago by eating candy containing strychnine sent to Asa Fitzgerald, who died from its effects. Joe Allen has been jailed charged with the murder.

The estimated number of cantaloupes shipped from the famous Rocky Ford district in Colorado last season is 12,600,000. Seven hundred cars were sent out, being an increase of 108 cars over the previous season.

State Officials Knock Out Reorganized Republicans.

Judge Claude Pollard, office assistant attorney general, Wednesday handed down an opinion in which he held that the Cecil Lyon wing of the republican party is the official party. He ruled that the ticket put out at the Houston republican convention and designated as the reorganized republican party cannot be placed on the official ballot because it is not political but merely a faction of the republican party of Texas.

This opinion was handed down at the request of Secretary of State Shannon, who was in doubt as to which was the official party and whether or not he should place the names of the nominees of the Lyon faction or the faction headed by Ed Green on the official ballot. It is now believed that this will result in mandamus proceedings against Secretary of State Shannon, instituted by the reorganized part of the republican party to compel Shannon to place the name of the nominees on the ticket.

A "dog-eat-dog" story from the Higginsville Leader: "A young fellow bought 2,000 extra fine cigars and had them insured for their full value, smoked them up and demanded the insurance, claiming that they had been destroyed by fire. The case was taken to the court and the judge decided in favor of the young man. The insurance company then had the young man arrested for setting fire to his own property, and the same judge ordered that he pay a fine and go to jail for three months."

N. S. Ray and family came in from Wellington, Kas., last night to again make Clarendon their home.

Rev. Pulliam, Mr. Russell and several other gentlemen were in from Bray yesterday and filed complaint against twelve young smart Alexs of that community for disturbance of public worship. Sheriff Patman went out after them.

Thursday a young man named Caldwell, who works for M. T. Howard, filed complaint against Dr. Mc. Gee for forcibly holding him up on the public highway and making him sign a bill of sale to a horse. Justice Woods put the Doctor under \$1000 bond to await the action of the grandjury.

Four Killed by Lightning—Agent too Tough.

Last week near Garden City lightning struck a wagon in which were six men looking at the country. Chas. Stamps, S. J. Peterson, J. E. Ritch and A. W. Ashby were killed. J. B. Anders was knocked unconscious. All from Winters, Runnels county.

Brocton Taline, land agent of Garden City, was not hurt. The team was killed.

Only Old Junk.

Three Spanish ships, captured by Admiral Dewey in Manila bay in May 1898, were sold by the navy department Monday for \$103. These ships were advertised at several Asiatic ports, the cost of advertising being \$28. The ships are the Albay, Manileno and Mindanao. They have been stripped of everything movable, and are simply old hulks.

Newspaper Accuracy.

No newspaper wishes to print an incorrect report of any event or opinion. In almost every case it will be found, when an incorrect or imperfect report is printed, those who could have given correct information have withheld it altogether, or only told part of the truth.—Portland Oregonian.

The difference between a six-shooter and a hoe in Waller county is about \$860. Last fall a man in that county bought forty acres of land near Hempstead at \$10 per acre on credit. He planted thirty-eight acres in watermelons and has sold twelve cars of melons at \$105 per car, paid for his land and is now totting a bank book in his pistol pocket showing a balance of \$860. And he has enough melons left of later growth to start a bunch of hogs on the road to future fatness. The Missouri hen will please pause in her loud, exuberant cackling long enough to note that the rattlesnake watermelon is no slouch of a fulcrum in a mortgage-lifting contest.—Handley Herald.

Victor and Thomas Simpson, brothers, who were driving a four mule team from Roswell, N. M., to their home near Elida a few days ago were struck and killed by lightning. All four mules were killed, and when found, the men were still sitting bolt upright in the wagon, stone dead.

A Wall From The Range.

Oh! the Tenderfoot is coming—
He is holding down his claims;
And this wild and woolly country
Will be civilized and tame.
And we'll all be punkin-rollers
There will be no cattle kings;
Not a cowboy on his bronco,
With his jingling spurs, and—things
On the windy cattle-ranges,
There will be no cattle kings;
Nary round-up, when the railroads
Climb up every gumbo hill.
All the dollars that I counted
For my bank account (and booze)
(With a little game of poker),
It's a cinch, I stand to lose!

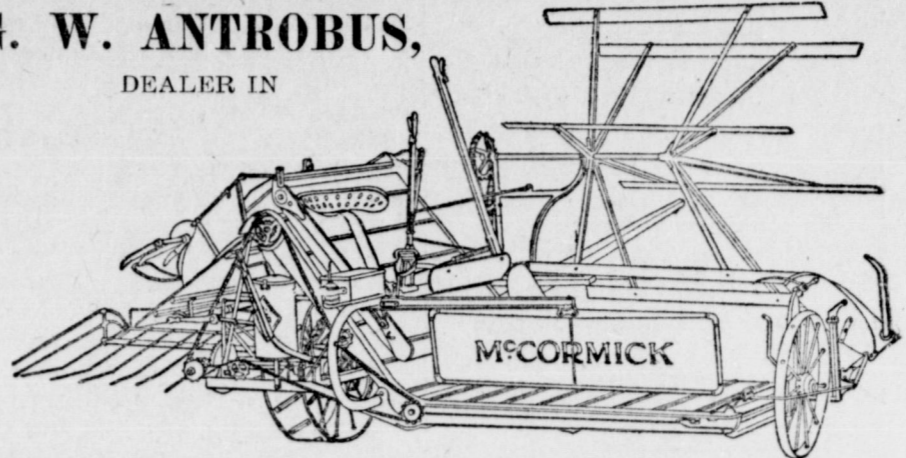

Just you wait! The compensation
Won't have any little lacks!
Wait until the howling blizzard
Gets its work in on the shacks;
Till the red-hot wind of summer
Is a-rolling up the corn,
And the Tenderfoot is wishing
That he never had been born!

He'll go back—to wife's relations—
With a wiser, sad regret;
Have it in for the Locater,
Loading him when it was wet!
What is that? You say it's raining—
Great, black clouds across the sky!
Gee! I'm going to a country
Where it's either wet or dry!
—Margaret Stewart Sibley.

Man a Mystery.

Man is the only creature that knows he will die. Yet he is the only one of the creatures that laughs. He is the only creature that manifests joy in his existence. It is hard to understand. Every rational man knows he has no mortgage on tomorrow. It is not his. He may never see it; he may die before dark. Few let the dark shadow of this unchangeable fact fall athwart their path. They laugh and are gay, even when their heads are grayed for the grave. They hasten to a future of which the wisest have as shadowy knowledge as the fool. This future is forever and is said to be influenced for eternity by our conduct here. Yet this is nearly the only fact man is careless about. It is a mystery.—Brownwood Banner Bulletin.

Clarendon College Opening.

Reported for THE CHRONICLE.

Again the center of interest in our little city has been Clarendon College and its opening. More and more each year our people are realizing what an important place the College fills in the life of the town. At an early hour on Tuesday, Aug. 28, the chapel was filled to overflowing by students, patrons and friends of the institution. Every seat was soon filled and all standing places taken, even to the stairway in the hall. Students had begun to arrive several days before and had kept coming on every train and by private conveyance from every direction. Most of them had already engaged rooms, and were comfortably settled by Tuesday. Many of their parents had accompanied them and were present for the opening exercises. The wide extent of territory from which the students come attest the interest that is being felt in Clarendon College all over this great western country. Every year our territory is increasing. The Methodist people, and people of many other denominations are looking to us for educational advantages for their children.

On the stage were seated the faculty and a good many representative men of the town and country. The chapel exercises were conducted by Bro. Rogers of the Baptist church. He spoke of his pleasure in our great progress and development as the years pass. That grand old hymn, "Coronation," was sung, and a very earnest prayer followed by Rev. Geo. F. Harris or McLean. Dr. Burkhead, as master of ceremonies, then introduced Bro. Dodson of the Methodist church, who very eloquently welcomed the new students. As usual, Bro. Dodson quoted poetry. Little Misses Mary Hardy and Helen Powell favored the audience with a duet on the new piano, and Mr. Peebles was called on for a speech which he gave in his usual inimitable way. Amid many jokes and laughable allusions to his "health seeking" in the past, Rev. Geo. F. Harris of McLean, of our class of 1905, was introduced with the explanation that much was expected of him now, since he was reinforced by a "helpmeet". He responded gallantly, saying many kind things of Clarendon College.

Prof. Quigley, the new teacher of mathematics, was called on for a speech and responded briefly, saying that he was here for business and hoped to be able to do his part well. Miss Nora Talley, who graduated from our music department the past year, gave us a piano solo. Prof. Silvey, of the public school, said many kind things of the college and his interest in our work, telling the new students that he felt that they could find no town in northwest Texas better than Clarendon and no school with a better faculty than Clarendon College. Bro. Hardy, the retiring president, responded to the call for a speech by saying that he felt that the college might not open properly without a speech from himself and some other gentlemen whom he named, since they had always made speeches at the opening. His appearance was heartily cheered by the old students. They, as well as all the friends of the college, felt that the college has never had a truer friend than Bro. Hardy.

Bro. Mood, the new president, followed with a speech that was full of earnest thought and anxiety for the best interests of the school and its people, filled with the hope that Clarendon College might prove more and more a great moral and educational factor in this country. Miss Burkhead and Mrs. Tresise sang a duet that was much enjoyed. The audience was then dismissed with an invitation to the reception in the college parlors at 8:30 that evening. In the afternoon students were enrolled and the classification begun. The attendance is very good; a great many old students are again with us and many new ones. The college grounds are again full of life and activity, eager interest and pleasant anticipations of a good year are shown on all sides.

Both dormitories are rapidly filling; new students have continued to arrive and more are still expected. The reception on Tuesday evening in the college parlors was an occasion of unusual pleasure and

interest. The ladies of the College Circle, as hostesses, made everybody at home at once. The old students were welcomed and the new ones made to feel that they were a part of the school. Punch and wafers were served, music rendered and a general good time prevailed.

The work of classification is completed and work is beginning. The outlook is for the best year in the history of the school. The teachers of the special departments are enrolling large numbers, the primary department is well filled, all things are auspicious.
