No 86.

The Insane At Terrell.

The report of Supt. Turner of the North Texas insane asylum, shows 1,600 inmates in the institution and Dr. Turner says that just now there is room enough for all purposes, except that about 200 insane negroes are now unprovided for. He recommends the establishment of an asylum exclusively for negroes, thereby removing all negroes from other institutions and locating them at one point. This would provide additional room in all present asylums for white people and would prevent the jails from again being filled up for four years at least. He states that people becoming insane should be treated at once, as uncared for insanity for a period of twelve months becomes incurable. Delay in reporting cases is filling up the county jails.

Big Ranch Deal.

One of the biggest ranch deals to take place in the Panhandle in recent years was that of J. K. Zimmerman, who sold his Hall county ranch to Chicago capitalists last Friday his 180,000-acre ranch and some 12,000 cattle, together with all ranch equipage. The consideration in the deal will be approximately a million dollars. This ranch consists of some of the best agricultural and grazing land in Hall County, and it is the intention of the purchasers to dispose of a portion of the cattle and place the agricultural lands on the market in 160-acre tracts to actual settlers. Thus is the pasture land being given up to settlers.

Mormans Selling Out.

Reports that the Mormon Church as an organization is to retire from commercial business were further verified Thursday when it was officially announced that the Utah National Bank had been sold. In the last four months the Mormon Church has disposed of its big holdings in the Utah Light and Railway Company, which controls the principle public utilities in Salt Lake, its Los Angeles and Salt Lake Railroad and its big retail department store at Ogden.

The Kansas Experiment Station has found that sunflower oil makes most excellent vegetable soap, and oil for table use. The stalks are good roughness for stock of all kinds.

Bailey's rant about the "lese majeste" of criticising democratic nominees is extremely silly. What does he say himself about Hearst, the regular democratic nominee in New York?—Quannah Tribune.

There is nothing so easy in itself but grows difficult when it is performed against one's will.—Terence.

Fort Worth Market.

Prices Tuesday were:
Steers from \$3.50 to \$4.10
Cows from \$1.90 to \$3.10
Calves from \$3.50 to \$4.75
Hogs \$6.20 to \$6.32.

Obscurity furnishes a good pedestal for lasting fame.

If you want fine locust trees, apple trees, peach trees, grape vines or shubbery, see Egerton of the Panhandle Nursery. He now has 100,000 trees in his new nursery. Finest grapes in the world at from \$5 to \$10 per 100 and other stock in like proportion. A fine lot of berry vines also. Call and see his stock.

The Greatness of Agriculture.

Before the meeting of the National Farmers' Congress last week, at Rock Island, Ill., John M. Stahl, the president, made an address, saying: "I congratulate you, as representatives of the farmers of the United States, on material prosperity. To the nation's production the farmers of the United States this year contribute six billion dollars. We hear much of the Standard Oil company and its wealth, but our annual export—not production, but export—of cotton alone has a value four times as great as all the petroleum produced in the United States in a year. From the attention given disturbances in coal mining one might consider that coal is a very important production of this country. But year after year the farm products of the United States have on the farm a value more than thirteen times the value at the mine of all the coal dug in the United States. We have become the greatest pig-iron producing country in the world. Yet each year the grain of one crop—corn—has a value five times greater than all the pig-iron produced in this country. Why, the corn grown each year by the farmers of Illinois alone has a value about equal to our entire production of pig-iron. Every time our miners dig a dollar from our gold mines, we farmers dig seventy dollars from the ground; and every time our miners dig a dollar of silver from our mines, we dig \$165 from the ground. The farm products of the United States have a value more than twelve times that of all the gold and silver mined in all the world. With their products of one year only the farmers of this country could buy at par all the stocks of all the national banks of the entire country, not once, or twice, but eight times over, and they could pay all the wages and salaries of our great iron and steel industry 34 times and have money left. During the past sixteen years our exports of all articles have exceeded our imports by \$5,922,000,000. In the same period our exports of farm products exceeded our imports of farm products by \$5,635,000,000. The farmer is responsible for our enormous favorable balance in international trade. In all the world no other class in any country produces as much wealth as the farmers of the United States."

To Bailey or not to Bailey; that's the question, and there are a whole lot of people who will not. The friends remaining to the senator are in the main those with whom a well known custom can condone an offense; as "they all do that way!" Argument of this nature can cover an inconceivably greater multitude of sins than can charity. And in cases of this kind the Terrell election law is something of a charity itself. It is the sheet-anchor alike of mediocrity and rascality—or at least of duplicity.—Henrietta Review.

In an address last week at Ardmore Gov. Jeff Davis of Arkansas declared that Bailey's usefulness in the Senate was impaired by reason of his services to corporations. There was great confusion following the statement, and after it had quieted down he continued his speech with a discussion of trusts.

Electricity As A Weapon.

At Louisville, Ky., Sunday a pitched battle in which electricity, picks, shovels and fists were used as weapons and in which 400 men participated, was fought by rival track laying gangs of the Louisville & Nashville railroad and the Louisville & Eastern Electric railroad. About two score of the combatants were badly shocked or battered up, but none was seriously wounded.

The fight took place just east of Beards, where a gang of 100 Louisville & Eastern men attempted to lay their track across the Louisville & Nashville line. They had only partially finished their work when 300 Louisville & Nashville men appeared and started tearing the rails up.

A battle followed, during which the Louisville & Eastern men resorted to charging the rails with electricity from a trolley wire. When the Louisville & Nashville men applied their crowbars to the charged rails a score of them were knocked stiff. All soon recovered.

Fair Record Broken.

The Twenty-first annual State Fair of Texas closed at Dallas Sunday. All former records for attendance were broken, the admissions for the sixteen days being stated by the association to be close to 800,000. Sunday and Sunday nights attendance did not reach more than one-half of the Sunday before and is stated to be from 55,000 to 60,000. Many of the best horses that were in the Dallas races were shipped to San Antonio to attend the meeting in connection with the International Fair to be opened today.

Now Gorman is dead and the newspapers have published the inventory of his estate. He went into the senate a poor man; he lived in a very expensive style; he had no visible income besides his salary; yet he died a millionaire. The schedule of his assets reveals the fact that he was financially interested in the the tobacco trust, the national banking trust, the railroad system, the coal trust, the gas trust, the West Virginia branch of the oil trust and in a dozen other corporations. He also had on deposit with the Morton Trust company of New York city the neat sum of \$435,000, besides \$7,500 in a Washington bank. A life devoted to denouncing the republican party, while aiding in the establishment of trusts and corporations, seems to have resulted in financial success. What St. Peter remarked to him, when Gorman knocked at the golden gate has not, as yet, been published—The Investigator.

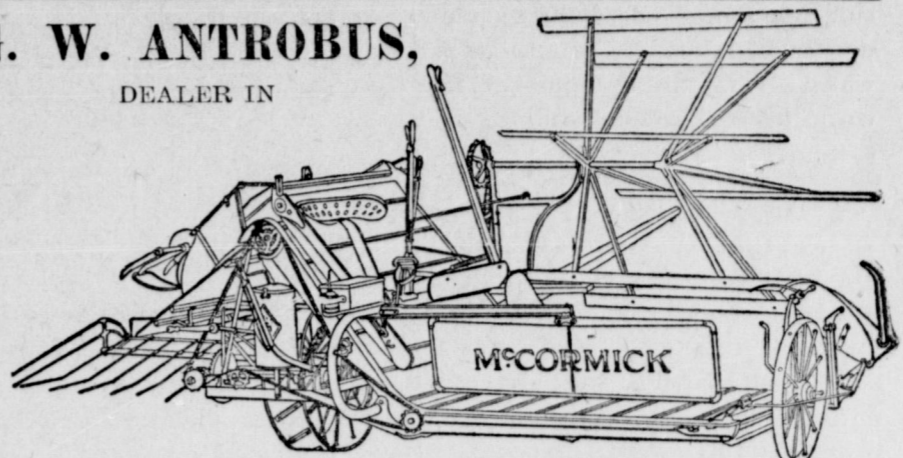

James J. Hill, the great railroad man, is posing as a philosopher. He says that credit is better than money. That may be true; but, in order to have the credit, a man must have the money or be able to show where he is going to get it.—Dallas News.

Mr. Roosevelt has named a Hebrew as a member of his Cabinet. This comes just before an election in New York, and his political enemies will see much political shrewdness in what he has done.—Dallas News.

Mr. Hearst's Good Fight.

The men and interests making up the opposition to William R. Hearst in New York afford ample reason why every loyal democrat should give him enthusiastic support. The men who "preserved the national honor" in 1896, the insurance grafters, the advocates of special interests, the corporation managers, the Wall street financiers and the bond brokers who trafficked in the government's need—all these are massed solidly against Mr. Hearst, and their opposition should solidify the people in support of the man who is making such an open and telling fight against these harmful interests. Mr. Hearst is making a magnificent campaign and is frankly telling the people just where he stands. What he has accomplished for the people in the way of reforms through the instrumentality of his great newspapers is an evidence of what he will do if elected governor of the Empire state. With Mr. Hearst in the governor's chair there will be no more control of New York's executive by interests that are adverse to the people.

Mr. Hearst is specific and plain in his declarations, while his opponents indulge in generalization and vituperation. He has taken the people into his confidence and may be depended upon to carry out his campaign pledges. He is entitled to the support and vote of every democrat who puts public good above private profit, and of every citizen who prefers good government by representatives of the people to bad government by representatives of special privilege.—Bryan's Commoner.

Secretary Bonaparte of the navy says with six months' preparation we can whip the world. Secretary Bonaparte is to be commended for sufficient confidence, but he should not be fool enough to initiate a war with all the balance of the world just to demonstrate his assertion.

Arkansas has won its anti-trust suits against the packing companies and Judge Winfield has ordered the case of the Hammond Packing Company to be stricken from the docket and that the State be permitted to take judgment for \$10,000 because of the failure of the officers of the company to testify before the Commissioner on the recent hearing in Chicago.

Divorce statistics for California show that one out of about every seven marriages ends disastrously. No more significant idea of the effect of the divorce evil can be gained than that conveyed in the fact that in this state during the year a total of 1,536 little children were affected thru the separation of their parents. While the marriages during the year reached a total of 17,932, the divorces numbered 2,133, the percentage of divorces being 13.1. Of the divorce actions 588 were brought by the husbands and 1,545 by the wives. Of these 1,481 were wedded in California, 584 in other portions of the United States and 68 in foreign countries. A total of 484 were married less than five years, 796 from five to ten years, 619 from ten to twenty years and 294 from more than twenty years.

The latest from Cuba is not reassuring as to the speedy withdrawal of the American forces. While this is so, it is not likely that the predictions of a long occupation and the presence of 50,000 American soldiers there will be realized.—San Antonio Light.

The presence of American troops will always be required in Cuba to maintain peace and preserve order. The present forces over there may be withdrawn, but others will soon have to be sent to quell another insurrection. Cuba will cause this country lots of trouble until annexation has been safely accomplished.—Ft. Worth Telegram.

William J. Bryan will conclude his political canvass in his home state, beginning Tuesday next. Mr. Bryan will make a whirlwind campaign throughout Nebraska, visiting a large part of it and making between forty and fifty speeches, the last one to be at Plattsmouth on the night of Nov. 3.

The whites kicked like bay steers because they had to serve on reception committees with negroes for Vice President Fairbank's tour through Oklahoma and the Indian Territory but they had to take their medicine or lose the negro vote. At Muskogee, which town had the distinction (?) of being over half negroes, the white men who were appointed to receive the Vice President, failed to show up and the "gentlemen" on the platform were composed entirely of negroes.—Gainesville Messenger.

So plentiful have apples been in Calhoun county, Illinois, the last season that Henry Baumann, a farmer living near Bachtown in that county, has broken away from the proverbial barrel in which to store cider this fall and has filled a large cistern on his place with apple juice.

STATE NEWS.

WASHINGTON LETTER.

CHRONICLE CORRESPONDENCE.

WASHINGTON, D. C., Oct. 27, 1906.—Secretary Taft, since his return from Cuba, is as good humoredly nonchalant as though he had not been engaged in putting down revolutions, deposing Presidents, reducing generals and establishing a Government in the Island. He is apparently satisfied with his trip there and contented to leave affairs in the hands of Governor Magoon. General Funston accompanied the Secretary's party to Washington and will return at once to St. Louis to take command of the South western division of the Army. Mr. Taft declares that the Brigadier General is not in any way discredited and that his withdrawal from the command there is not a reflection upon his merits but simply in accordance with the original plan that General Bell should be put in charge. The Secretary is of the opinion that the Government may be safely turned over to the Cubans in about eighteen months. The elections will not take place until the Island is in a peaceful condition and until there is reasonable assurance that there can be a fair election of president, vice-president and members of Congress. The sending of troops has been stopped already and the battleships will be withdrawn soon, with the exception of two or three smaller vessels which will be retained for transferring troops to different parts of the Island. General Bell will remain in Cuba until the natives are fairly familiar with the idea that they are under American control and tolerant of it. It is believed that this suggestion will be fully accepted by them in about six weeks or two months. According to Secretary Taft there is practically no manifest objection to it even now and little likelihood of further outbreak.

All political news, no matter from what source it may come finds an echo in Washington and political quid nuncs are just now interested in the reported formation of a new party by Mr. Bryan, Senator La Follette, Governor Folk of Missouri and Governor Cummins of Iowa, with President Roosevelt as a fifth wheel but by no means as useless as the proverbial fifth wheel is said to be. Fifth wheels are almost indispensable on automobiles and in this pentumvirate President Roosevelt would be likely to be the whole thing. The President has been much besought of late by Senator Elkins of West Virginia, Congressman Grosvenor of Ohio, Senator Beveridge and others to reconsider his ill timed abdication of a third term. The President evidently thinks the time for consideration may be deferred and shows his political tact and shrewdness in non committal silence. There are so many things that may happen in eighteen months. The President is patriotic and he will either consent to remain at the helm or name a helmsman competent to guide the craft or some name like that.

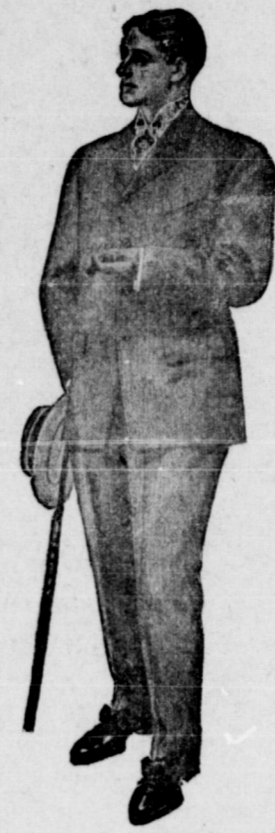

The President has resumed his regular Washington habit of strenuous work and strenuous play. No other President has ever done half so much of either. He sees more people, and says more indignant things to delegations and plebeians, male and female, wise simple and otherwise that come to see him than did any of his predecessors. Then he goes into the back yard of his office and throws himself into all sorts of positions in his efforts to stop tennis balls with Commissioner Garfield or other members of his tennis Cabinet.

How About Your Hens?

It costs from 75 cents to \$1.00 per year to feed a hen. To determine which are the profitable ones all that will be required is to determine how many eggs each hen lays during the year. At 15 cents a dozen as the average price for eggs the year round a hen must lay from five to seven dozen eggs per year in order to pay her board. They must do better than that though else they will not be profitable. One must get more than cost of maintenance in order to make a profit. Study the egg production of your hens as you should the milk production of your cows and get rid of the unprofitable ones.

The winter quarters for your laying hens should be dry, moderately warm, well lighted and ventilated. A dirt floor is preferable to board. Supply them with a variety of foods. Make their winter life as near like their summer life as possible. Make them work for their feed by throwing the grain food such as corn, wheat, oats, etc., among the litter in the scratching pen. A lazy hen will get fat if well fed and a fat hen will lay no eggs. Keep the quarters clean, and if your fowls are of egg-laying strains they will lay well.

One Class Not Benefitted.

An exchange truthfully says. During the last five years the price of everything that has to do with the making of a newspaper has advanced. Type, ink, paper, labor, machinery, all have gone upward in price, and indications are that the price of white paper will further advance, owing to the scarcity of raw material. During all this advance in price for the products, their price of subscription has remained the same, advertising rates have not been advanced, and many of the standard forms of commercial job printing are still done at the same old prices. It is the only trade on record that has not benefited by the advance in prices.—Kingston (N. Y.) Leader.

WHITE SWAN SYRUP

It is just the evaporated juice of the Louisiana Sugar Cane, and you know how difficult it is to buy pure unadulterated syrup these days. Yes, this is the old fashioned kind that the folks on the plantation, who know, use themselves. White Swan Brand stands for purity. Every thing good in cans packed under the White Swan Brand, if your grocer does not keep them, send us his name.

At Coffeyville, Kas., Sunday three persons were killed, one is missing, three were seriously injured and twenty were more or less injured in an explosion of natural gas which completely demolished five two-story brick buildings. The entire block of five buildings was leveled to the ground and only broken bricks, lumber and twisted iron were found.

The board of education at Cache, O. T., has notified Chief Quanah Parker of the Comanches that he must keep his 7-year-old son out of the public school at that place. This order was necessitated by the withdrawal of a third of the white children from the school. The parents demand that the separate school law of Oklahoma shall be construed to apply to Indians as well as negroes. Parker is indignant because of the action of the board, for he entertains fond hopes giving his son a complete English education.

It is said that the most dreary spot in Jefferson City is the convict graveyard, or the "pawpaw patch," as it is called at the prison. This bit of ground dips into a hollow near Lincoln institute. Not a stone marks a grave. A few thorny locusts and several wretched looking trees are nature's bestowal on this uninviting spot. It has been a burying ground for convicts for seventy-five years, and how many of them have been buried in the small lot the Lord only knows. No one can recall that the state ever expended any money to improve the looks of the convicts' burying ground.

Three loaded cars of an electric train jumped the track near Atlantic City, N. J. Sunday evening on a high bridge and plunged into 20 feet of water and drowning 80 people. School Tablets at Stocking's store.

J. L. Crook, a prominent cattleman of Greer county, Ok., was accidentally killed Saturday night by the firing of a Colt's revolver in his pocket. He was butchering a calf, and, after firing the first shot, put the revolver in his pocket, but the weapon continued firing, and five balls took effect in Crook's body. Fresh shipment of Reunion Coffee received at The Powell Trading Co.

Texas Farmers Located in the Panhandle Country constitute a vast proportion of those who are out of debt, possess an abundance of all that is necessary to comfort and easy hours, and own

BANK ACCOUNTS. Those who are not so fortunate should profit by past experiences and recognize that these conditions are possible in

THE PANHANDLE as no where else for the reason that no other section now offers REALLY HIGH-CLASS LANDS AT LOW PRICES and that the Agricultural and Stock-farming possibilities of this section are the equal of, and in some respects better than three to five times higher priced property located elsewhere.

In a word: **Many Magnificent Opportunities** are still open here to those possessing but little money, but prompt investigation and

QUICK ACTION are advisable, as speculators have investigated and are fast purchasing with a knowledge of quickly developing opportunities to sell to others at greatly increased prices.
