The Cost of the American Drummer.

H. D. Calhoun, ex president of the Ga. division of the Travelers' Protective Ass'n, is author of the following:

The American drummers draw the largest salaries of any class of hired men in America, except the president of the United States.

Senators and congressmen draw each \$5,000 a year, and there are thousands of drummers who draw much larger salaries than they.

Some few railroad presidents get \$50,000 annually, but then they are stockholders and not hired men.

All the drummers combined draw more money in salaries than all the combined forces of any other class of men on earth.

There are 500,000 drummers in America today and to put their average daily salaries at \$4 a day, which is a very low average, they are paid \$2,000,000 every day, or \$500,000,000 every year.

All the presidents of the United States at \$50,000 annual salaries would only draw \$5,000,000 in 100 years of time—just the little pocket change that the drummers of America draw in two days and a half.

All the congressmen and senators combined at \$5,000 annually, only draw \$2,500,000 a year, or \$250,000,000 every 100 years, just half what the drummers draw in only one year.

If 50,000 bank presidents draw each \$5,000 annually, their combined salaries would only amount to \$250,000,000—only half what the drummers draw in the same length of time.

We draw \$500,000,000 in salaries every year and spend \$500,000,000 more in our expense account; circulate one round billion dollars every year. We pay to hotels \$250,000,000 annually. We pay to railroads \$200,000,000 annually, and spend \$50,000,000 for incidentals, rarely ever itemized.

We talk about a billion dollar congress—that means two sessions—appropriations for two years. We spend a billion every year and never feel it.

Five hundred million dollars is supposed to run the United States government, with all her expenses, ample every year, while we spend that much every six months.

The gross earnings of every railroad in America are put at \$2,000,000,000 annually. The net earnings of 4 per cent amount to \$80,000,000 profit. We sell \$9,000,000,000 every year which represents our gross earnings for our respective firms. At two per cent net profit we would make our net earnings \$180,000,000—\$100,000,000 more at 2 per cent than all the railroads make at 4 per cent.

I can take the salaries of all the drummers of the United States for one year, combine it in one mighty trust and make Morgan look like 30 cents. I could take it and buy all the railroad stock that the Vanderbilts, Goulds and Hills carry to save their combined interests and I could buy Rockefeller and every coal oil can in the world. I believe I could take it and imitate Mrs. Chadwick with a dozen millionaires on her notes.

The assessed wealth of America is estimated at 80 billion dollars, and if we sell nine billion annually, then we sell all the combined wealth of America out, lock, stock and

barrel, every nine years, and so to any one wishing to invest with us in this mighty nine years of the possibilities of the drummers at this ratio, we can guarantee 11 per cent on the investment.

There are 200,000 miles of single railroad track in the United States and if it costs \$25,000 a mile to build it, and \$25,000 a mile to equip it, the value of all the railroads in America equipped would be ten billion dollars. I can take the salaries and expenses of the traveling men of America for one year and buy one-tenth interest in all the railroads and in ten years to own them all at what they are actually worth.

And we draw more salaries in America as drummers annually, than the standing army of the round, round world costs in the same length of time.

We are the highest livers in the world and the biggest money spenders on the globe, because we live on the best going and always buy the best we can find.

We are the world builders and ball rollers and we are always busy.

Watson's New Magazine.

Thomas E. Watson has announced that he would establish a new magazine at Atlanta to be called the Monthly Jeffersonian. The first issue will appear shortly before Christmas and will be the January number. H. Clement, now with the Cotton Journal, has been engaged as circulation manager.

The Weekly Jeffersonian recently started at Augusta will continue publication just as at present, Mr. Watson writing for both. The Monthly will not differ materially from what Watson's Magazine has been for the past year. Mr. Watson offers to transfer the Weekly or Monthly Jeffersonian without expense to any subscribers of Watson's that ask it. The new Monthly will sell for 15 cents a copy, or \$1.50 a year.

Zach Mulhall, well known as a southwest cattleman and wild west showman, who was sentenced to serve two years in the penitentiary for shooting a bystander in a shooting affray on the "Pike" during the World's Fair, was granted a rehearing in the criminal court of St. Louis by the supreme court Tuesday.

Senator Bailey's mother died at Crystal Springs, Miss., Sunday. Senator Bailey went to Mississippi some two weeks ago on being notified of her serious condition, but much of the time since he has spent other places, among others at his Kentucky race horse farm where he bought more land. Saturday night he was at Meridian, Miss., attending an Elk's celebration when notified that his mother was dying, but he managed to reach her home before she breathed her last.

George Washington had just announced that he couldn't tell a lie. "Well," responded his father, thoughtfully, "as long as you are going to marry a widow, it wouldnt do you any good if you could"—Ex.

An inch of snow covered all of the northeastern tier of counties Wednesday morning. Snows are the earliest for years in this state.

Mrs. Hetty Green, who is spending the winter in Boston, was 72 years old Wednesday.

Negro Soldiers Must Go.

Despite the widespread criticisms and appeals for mercy and a formidable movement to obtain modification, the dispatches say, President Roosevelt has positively refused to change or suspend his order dismissing a battalion of negro troops of the 25th Infantry from the service without honor, and subject to civil disabilities.

Meanwhile Secretary of War Taft has been induced to suspend the order, "Pending further advices from President Roosevelt, who has been communicated with on the subject."

This announcement was made in the War Department last Tuesday night. A Panama correspondent, with the presidential party, sent over the following:

"The President's views are clear and unchanged. The disbandment was due to him. In the first place he took the battalion from Brownsville to avoid local reprisals and for a regular military trial in which the negroes to a man refused the information necessary to the apprehension of criminals. Had white troops done the same thing they would have suffered the same penalty.

"Be the offenders black or white the President proposes to combat race antagonism. There can be no amelioration of the penalty until the men concerned show their sense of duty, as citizens and soldiers, by giving up the offenders to justice."

Big Prairie Fire.

One of the most destructive prairie fires which has been witnessed in the Hereford country for years occurred in northern Castro county last Saturday, the origin of which being from a steam plow which was operating about eight miles south of Hereford. A strong north wind was blowing and the dry condition of the grass enabled the flames to spread rapidly so that they were soon uncontrollable. Old timers who have had similar experiences in the past took warning and plowed wide furrows as fire guards around their premises, by which the fire was finally placed under control, but not until much damage had been done. The track of the fire was several miles wide, extending over the entire east O. Y. O. pasture and continued its destructive work all the way to Dimmitt. The territory burned is conservatively estimated at 35,000 to 50,000 acres. J. H. Turnbow's entire feed crop was destroyed.

The Other End Killed Him.

While J. W. Foster, a farmer near Taylor, was hunting Friday his gun was accidentally discharged and the butt of the gun struck him in the stomach with such force as to kill him.

The Federal grand jury at St. Louis has indicted Receiving Teller D. P. Dyer, son of U. S. Attorney D. P. Dyer, as a result of the \$61,200 shortage in the treasury there, the charge being embezzlement. He gave \$10,000 bond.

Sheffield Ingalls, son of former Senator John J. Ingalls, is to be a member of the next Kansas legislature.

The "Danger" of Home.

"Home is the most dangerous place I ever go to," remarked John Muir, the famous geologist and naturalist. He was on the train returning from Arizona to his home in Martinez, Cal., after the earthquake. "As long as I camp out in the mountains, without tent or blankets, I get along very well, but the minute I get into a house and have a warm bed and begin to live on fine food, I get in to a draft, and the first thing I know I am coughing and sneezing and threatened with pneumonia and altogether miserable. Outdoors is the natural place for a man.

"Walk where you please, when you like, and take your time. The mountains won't hurt you, nor the exposure. Why, I can live out for \$50 a year for bread and tea and occasionally a little tobacco. All I need is a sack for the bread and a pot to boil water in and an ax. The rest is easy."—Worlds Work.

It is as good as a \$100 to \$1 shot that the ouster suit against the Waters-Pierce Oil Company will not come to trial in November. The defendant will move for a continuance, and over it will go until late in January or February, 1907. Attorney General Davidson is ready for trial, but the attorneys for the defendant company will be very busy, will fight for postponement and will win their contention. —Dallas Times-Herald.

An absent-minded woman one Sunday morning walked into a Chicago church, took a front seat and joined in the service vigorously. Then the collection basket was passed to her, and putting a coin into it, she looked about. She cast glances in every direction, her mind cleared and an expression of amazement overspread her face. She got up. She hurried down the aisle. She overtook the man with the collection basket. "I'm in the wrong church," she whispered, and taking out the coin she put in, she hurried forth.

Amarillo may now erect some snow sheds and wind breaks and try to raise some chickens—The next Methodist Conference will be held there.

The government bureau report Tuesday showed 8,531,000 bales ginned to Nov. 14. These figures were followed by sharp advances at New York and New Orleans.

It is predicted a score or more of bills will be introduced in the next state legislature looking to the reduction of the maximum passenger fares to 2 or 2½ cents per mile, and one of them at least will pass.

W. D. Foulke, special representative of president Roosevelt, has commenced an investigation into the railroad frauds in connection with the Creek nation town lot sales. The inquiry was demanded by the Creek council.

Senator Bailey says the dispatch sent out from Meridian that he attended the Elk reception is untrue. He was invited during his stop-over there, but declined, preferring to rest at his hotel until his train left for Chrystal Springs.

Several patent medicine men have applied for patent medicine rates this week, but we have no space for sale to that ilk without our regular local rate. So they hiked in quest of cheap john papers that are in the habit of taking such stuff at any old price.

President Roosevelt has done the right thing in standing pat on his ouster order concerning the negro criminals. Eastern papers and politicians who are trying to defend the black shielders of criminals will only increase the race hatred and make fools of themselves.

The report comes from New York that the Rock Island interests have acquired control of the Colorado Southern. The deal would involve the purchase of about \$20,000,000 of the common stock of the road. The obligations of the road are, in common stock, and first and second preferred, a total of about \$47,000,000.

Warrants are out for the arrest of sixtyfour Mexicans of southwest Texas on a charge of murder, robbery and kidnaping in connection with the recent raids of revolutionists of Jimenez, Mexico. The men are supposed to be in practically every border town along the Rio Grande and some interior. Their arrest will be a difficult matter.

The railroad has been cleared of snow between here and Amarillo and trains have been running that far since Thursday night, but a wreck, which occurred beyond there Tuesday was not yet cleared up this (Saturday) morning.

Judge Alton B. Parker, late democratic nominee for the Presidency, has become attorney for one of the leading trusts of the country, and this doubtless accounts for the ease with which he supported the republican candidate for governor in New York recently.—Telegram.

The Santa Fe into Amarillo was tied up for four days, the Pecos Valley four or five, and the Choctaw a week. The Denver is not the only road having trouble.

A company has been organized at Tahoka, Lynn county, for the purpose of purchasing a traction engine to haul freight from Big Springs to the plains country.

Hearst's Defeat.

That Hearst was knifed by his own party there is no dispute. It is the same way with eastern democrats whenever a true reformer is up for office. It was so in both the Bryan campaigns. They will only support somebody of the Cleveland or Parker ilk.

Wm. A. DeFord, secretary of the N. Y. State Independence League, says:

"Hearst was defeated by the 'hate' votes in his own party. If the McCarren votes in Brooklyn, which rightfully belonged to the democratic nominee, had been cast for Hearst, he would have been elected. Hearst went against the worst 'bribe game' ever recorded in politics in this country. Yet, in spite of this, he would have been elected had it not been for the treachery of McCarren and McClellan, and despite his own defeat, he saved the rest of the ticket, which had absolutely no hope of success without him."

In the suit against the Pullman Company in Chicago for taxes a list of the free passes issued by the company was brought to light. The gentlemen who were the recipients of such passes were found to occupy every official position in the country, from seats on the judiciary down to the most unimportant town constable. The list embraces pass takers all over the United States, and will be sure to get in print. Now is the time for judicial officers, at last, to return their valuable patseboard.—Dallas News.

Henry A. Smith, 25 years of age, an employe at the Dallas opera house, met his death in a peculiar manner Thursday. He was subject to epileptic fits and went into a cigar store in Elm street, when he was seized with a fit. He fell into a show case and a piece of broken glass severed his juglar vein. Smith died before medical aid could reach him.

A paper down the road names a number of "petty" jurors in its county.

Another "airline" road has been chartered to run from Yankton, S. D., to Galveston, Texas. Cincinnati parties are said to be behind it.

THE CATHEDRAL MASCOT.

High up in a treetop, with the gray old arch of St. John's cathedral as a background for his brilliant plumage, sat a little scarlet tanager. Along Cathedral Parkway stood crowds of people listening—for the little fellow was singing—scarlet tanagers are all singers, pleasing, persistent, vigorous singers.

"He is singing us a parting song," said one of the listeners, "for tomorrow he and all his tribe are due to go south. Down in the tropics he has many relations. He stays north from May through September."

"You are wrong there, friend. That bird stays right there in a little box back of my house all winter. The rest of his family may go south, but he never." The speaker was the caretaker, who lives in the little frame house at the Cathedral entrance.

"Come here next month, on a clear, bright day, and you'll hear him sing that same song. I call him the Cathedral mascot."—N. Y. Press.

Thos. Arendell had an arm broken and was otherwise bruised up at Stephenville Saturday while trying to adjust some gin machinery.

John Hollander, a F. W. & D. R'y switchman at Ft. Worth, was cut in two by an engine there Monday. He leaves a wife and several children.

The election returns from Zapata county do not show a single democratic vote, and 393 republican votes, from governor to constable are shown.

Campbell Bros.' gin in the north part of Wise county burned Sunday morning, loss \$5,000, insured for \$3,000. A lot of wood and twenty bales of cotton also burned.

John D. McCall, former mayor of and now a resident of Austin, and also former comptroller of Texas, was stricken with paralysis Sunday night. His left side is affected and his condition is serious.

The gin and machinery of the Maxwell Ginning Company was burned at Abilene Wednesday. The fire is supposed to have originated from damp cotton in one of the gin stands. Property loss is estimated at \$6,000. There was no insurance.

Official returns from Uvalde show that Miss Zena Dalrymple was elected county and district clerk of that county. She was the democratic nominee and was opposed by Jake Milligan. Miss Dalrymple will be the only woman ever elected to office in the state by voters at a general election.

Tried, convicted, sentenced and hung, all in due process of law, in less than four hours was the record of the district court of Shelby county Wednesday, in which Dick Garrett, a negro murderer of Dr. M. M. Paul, was meted out the ends of the law. He said he was guilty and wanted it over with as soon as possible.

The jury at Baird Tuesday returned a verdict of guilty against the Mexican, Alberta Vargas, charged with the murder of Miss Emma Blakely, Oct. 19, and assessed his punishment at death. The condemned man killed the girl to prevent her marriage to an American. The sentence will be pronounced Saturday.

At Flatonio, rather than permit a collision between a passenger and a freight train, the operator pulled the patent derailer lever and caused the Kansas City-Mexico train of the San Antonio and Arkansas Pass to leave the track. The air brakes on the Sap had refused to work and the train was plunging ahead at practically full force toward the freight, which stood over the crossing. In order to avert the collision the derailer was thrown and the Sap train ditched. No one was hurt, but traffic was tied up for six hours.

Clarendon badly needs another railroad. The one now running through it is unable to handle the growing traffic. Nearly all the towns along the line are out of coal, stockshippers cannot obtain cars, and it is the general cry all over the country that transportation facilities are utterly inadequate. Then we need avenues to other coal fields, lumber mills and markets. Every encouragement possible should be extended to other roads to build.

College Notes.

Reported for THE CHRONICLE.

The Euterpeans enjoyed a visit last Friday afternoon from Mrs. Gertrude Laney and her mother, Mrs. J. M. Sherman. Mrs. Laney has been visiting her mother during conference.

The Sapphos greatly enjoyed recitations by little Zoe Blair while she was up from Rowe at the society meeting.

Miss Susie Harris is now one of the dormitory girls. She had been with her sister, Mrs. T. E. Williams on the east side, but found the walk too long.

Miss Agnes Brummett's departure Saturday was greatly regretted. She will soon accompany her father and mother to the Coast, where they go for the latter's health. The dormitory girls gave Miss Agnes a beautiful vase as a parting gift.

Bro. Burkhead filled the Methodist pulpit Sunday morning, and Mr. Palmer was to have preached at night, but the inclement weather prevented.

Bro. Mood returned from Conference Tuesday. He reported that the College received most favorable attention from the Conference on several occasions, and that the church seemed fully alive to the great work the school is doing for this country.

The next number of the Lyceum course will be Nov. 30 at the opera house. This will be by Ralph Bingham, who is most pleasantly remembered in Clarendon. We bespeak for him a good audience. Season tickets will be issued. President Works, of the Denton Industrial College will speak on the same evening in connection with the Panhandle Teachers' Association, but his lecture will take place about 7 o'clock and close in time for the Bingham lecture.

The report reaches us that Rev. J. A. Sweeny, an old C.C. student, and Miss Pearl Lide, who taught in the public school here last year, were recently married. Both will be remembered by many here.

The snow has interfered with work this week. The first of the week very few of the town students were brave enough to face the blizzard. The snow is banked up at the campus gates until it is still necessary to go through the fence. An occasional snowball fight has added zest to things.

Of our preacher boys who have gone out from us, J. A. Laney goes to Tulia, T. E. Graham to Plainview mission, V. H. Trammell to Dimmitt mission, Geo. F. Harris to Higgins mission, and D.B. Doak takes the Belton circuit, but will continue his studies at Georgetown.

The Thanksgiving dinner by the College Circle promises to be something to be thankful for. Best dinner for the money. Go, eat and be thankful.

Finest grapes in the world at from \$5 to \$10 per 100 and other stock in like proportion. A fine lot of berry vines also. Call and see his stock.

Rest of Year Free.

All new and old subscribers who pay a full year in advance, may have the CHRONICLE the rest of this year free, the figures being marked up to Jan. 1, 1908. Twice-a-week and only \$1 a year.

The Teachers.

Prof. Cree T. Works, president of Texas School of Industrial Arts, at Denton, will deliver an illustrated (stereopticon) lecture at the courthouse Friday Nov. 30, at 8:30 p. m. His lecture will be illustrated with 115 views from the practical works of the school.

This lecture will be of interest to every citizen of Clarendon, as well as to the visiting teachers. No charge will be made. Many people do not understand the nature of this work undertaken by the great state of Texas. Come out and be enlightened.

MR. and MRS. S. L. ADAMSON.

Dear Parents and Grandparents—Do not weep as those who have no hope, but look forward to the meeting in a better home.

Oh, our hearts are sad and weary
Since our darling went away,
Yet we know the Savior called her
To the realms of endless day.
O, how gladly we will greet her,
Never more to say good-bye,
When we meet our own dear baby
In the home beyond the sky.

Electric Light Out of Fuel.

To the people of Clarendon:
Inasmuch as we have closed down the light plant, I wish to say that we are doing everything in our power to get coal, and as soon as we can possibly get it we will resume operation. Our general manager, Mr. Chase, has gone so far as to send a man to the mines to ascertain the cause of not getting coal, and he stated on his return that the mines are unable to get cars.

However, we have not stopped at this; we are trying other places, and I trust we will not be in the dark long. Yours very truly,
Clarendon Water, L't & Power Co

WOULD NOT BE WALL PAPER.

Two "dusky" belles were heard discussing the various functions on their social calendars for the winter a few days ago in a Gates avenue car. One was advocating a certain dance which promised to be a rousing success.

"No," said the other. "You won't catch me goin' ter any dances. Ah don't care foh dancin' mahself, and I'm not goin' to be the wall-paper!"

This was the same "high bo'n lady," by the way, who had to be severely reprimanded by her mistress several times before she would consent to stop using a patent face wash which announced on its label that it would give anyone a lily-white complexion, says the New York Times. The lily-white powdery patches on the dark background of Liza's swarthy countenance were too much for the composure of the family while she waited at table.

For a live paper try the CHRONICLE

EXECUTIONER IN DEMAND.

A little over a century ago—16th April, 1803—the following advertisement appeared in the Glasgow Courier. It is certain that never again will such a curious "want"—a remnant of mediaeval times—appear in the columns of a paper:

"Wanted, for the City of Glasgow, an executioner. The bad character of the person who last held the office having brought upon it a degree of discredit, which it by no means deserves, the Magistrates are determined to accept of none but a sober, well-behaved man. The emoluments are considerable. Application will be received by the Lord Provost or either of the Town Clerks, Council Chambers, Glasgow, 13th April, 1803."

If you read THE CHRONICLE you are always abreast of the times and know what is doing. You don't have to wait until its contents are too old to be of interest. Twice-a-week and only \$1.00 per year.

SPOILED CAT.

A certain little girl, living in a town in Tennessee, owns a puppy and a family of kittens, and one of the puppy's tricks is to bury a kitten in the sand pile back of the house, and watch it squirm out. One day, however, he played the trick once too often; the kitten failed to come forth, and the little girl found her pet dead. Carrying it to the house in her apron, she held the limp thing out to her mother and exclaimed, in indignation:

"Just look at this, mamma; a perfectly good cat spoiled!"—Magazine of Fun.

Texas Farmers

Located in the Panhandle Country constitute a vast proportion of those who are out of debt, possess an abundance of all that is necessary to comfort and easy hours, and own

BANK ACCOUNTS.

Those who are not so fortunate should profit by past experiences and recognize that these conditions are possible in

THE PANHANDLE

as no where else for the reason that no other section now offers REALLY HIGH-CLASS LANDS AT LOW PRICES and that the Agricultural and Stock-farming possibilities of this section are the equal of, and in some respects better than three to five times higher priced property located elsewhere.

In a word: Many Magnificent Opportunities are still open here to those possessing but little money, but prompt investigation and

QUICK ACTION

are advisable, as speculators have investigated and are fast purchasing with a knowledge of quickly developing opportunities to sell to others at greatly increased prices.
