Charivari to a Finish.

One hour's din, says a dispatch to the Tribune from Sioux City, Ia., for each of the twelve children of a new married pair, Mr. and Mrs. Henry, Brown, was furnished by 200 charivariists, who after keeping a part of the town awake all night were dispersed by the police at daybreak.

The record breaking charivari was given because the man had seven children and his bride, a widow, five. As a result of the twelve hours' serenade the house of the bride's father is almost wrecked, its porch torn off, windows smashed, and screens torn down. The out-buildings were broken up to furnish clubs and tom tom beaters. Piles of cans, pails, scrap iron and clubs were left in the yard, giving the appearance of a cyclone.

Four Drowned.

John Hough, living near Dallas, was drowned in the Trinity river below the city Monday morning.

The day before at Duncanville two boys, aged about 17 years, were drowned in Ten Mile creek while in bathing. Their names are Wiley Looney and George Barker.

Within two miles of where the boys were drowned a lad by the name of Young, 15 years of age, lost his life while in bathing Saturday.

Childress Coming.

The Clarendon people expect to run a special train from Childress to that city on the morning of July 3d. If they do and the rate is low there will be a large crowd from this point.—Index.

A wise lawyer in Florida has figured out that the negro was given the vote illegally. That the constitution required two thirds of the states to ratify an amendment in order that it became a part of it and that this was not done with this amendment. Florida is trying to pass a law cutting out the negro vote without round-about methods is to be tested. If the negro's suffrage should be taken from him the South would materially lose in representation, but it would solve the present race problem. Take the negro's vote from him and nearly all the race troubles will cease at once. The common sense, level headed citizen both north and south would be very willing to have the negroes disfranchised but the politicians in both sections will fight it.—Jacksboro News.

Snow fell in New York Sunday. The flakes swirled about the tops of the skyscrapers and before dissolving added a midwinter touch to the most remarkable June 2 that New Yorkers have ever known.

Among the many signs of progress in China, perhaps the most remarkable is the daily paper edited and published by a woman named Mrs. Chang. The Pekin Woman's News. It has become a power in the land.

At the Methodist Jubilee in India the 300 candidates who were baptized had each "a portion of his hair cut off." The missionaries claimed that this hair cutting "has a meaning of total surrender to Christ as King."

While two yearling calves, belonging to A. J. Carter in Lamar county were yoked together in a pasture, one of them was killed by lightning and the other was not hurt.

Waters-Pierce Convicted—Penalties \$1,623,900.

At Austin Saturday the jury in the Waters-Pierce Oil Company ouster and penalty suit returned a verdict for the plaintiff for penalties aggregating \$1,623,900, and also in favor of the state for cancellation of the permit of the company to do business in Texas. The full text of the jury's verdict follows: "We, the jury, find for the plaintiff against the defendant on each of the issues submitted to us for each of the days between May 31, 1900, and March 31, 1903, being 1,033 days; and for penalties at \$1,549,500.

"And we find for the plaintiff against the defendant on each of the issues submitted for each of the days between April 1, 1903, and April 29, 1907, being 1,488 days, and fix the penalty at \$74,400. We further find that the permit of the defendant to do business in the state of Texas should be cancelled.

"We find for defendant on all issues made by the pleadings and not submitted in the charge of the court."

Impressive Memorial Services.

The Memorial day exercises at the national cemetery at Arlington, Friday was very impressive. The arrangements were under the direction of the Grand Army, Spanish War veterans, Army and Navy Union, Sons of veterans and the various women's auxiliaries, and included a parade of Grand Army of the Republic posts and other patriotic organizations and militia of the District of Columbia, headed by the marine band; decoration of monuments and graves and addresses by men prominent in public life.

At Arlington, overlooking the Potomac, the principal exercises occurred. There patriotic organizations formed in line and at the gates were greeted by a national salute. The 18,000 graves in the cemetery were strewn with flowers and each grave marked by a tiny American flag. A touching feature of the ceremony was the decoration of the graves in that part of the cemetery where lie the Confederate dead. The tomb of the "unknown dead" was decorated by a special committee. There the marine band rendered a dirge, the same programme being followed in the section allotted to the Spanish war dead and a wreath placed on the anchor of the battleship Maine.

Later in amphitheater, with a large crowd present, impressive services for the soldier dead were conducted.

A Big Change.

The Clarendon Stockman has a line in big type extending across the front page which reads: "On July 3rd Joe Bailey will speak to largest crowd ever gathered in Clarendon. I will be there; will you?" There was a time when the answer would have been—unanimously—"yes, sir; you may bet we'll be there!" But there's a mighty big contingent that doesn't care to hear Joe Bailey speak now.—Wheeler Co. Texan.

Biggest Hail Yarn.

A terrific hail storm visited the section of country east of Melissa, Thursday night, destroying all crops in that neighborhood. It is said that a tank on the Sebe Hatler farm was filled with hail, so that cattle could walk across it.

The surveyors are on the ground ready to begin surveying a railroad from Henrietta to Burk Burnett, a distance of forty-five miles along the Red River valley.

A Woman That Raises Pigs.

A woman who, left without means or resource other than her own good sense and industry, relates how she turned to growing pigs and made a success of it. She says: "I am the woman who dared and did; I am the woman who raised pigs and made money by them and saved myself from poverty.

"Of course, everybody says, 'Oh, with a questionable inflection, and looks at me in wonder, and asks me why I did such a thing. Some mention the fact that I am a college graduate, and ask me why I turned to pigs instead of to treasures of my brains for my livelihood in a way that shows me quite plainly that they consider that I have abused my privilege and am a disgrace to my alma mater. But these people who treat me and my pigs with such fine scorn do not know that a college education is not worth a snap of your finger when you are in want and need assistance in a hurry,

"I could stand in a shop for \$5 a week and get white and wan and weak, spend all I earn in paying doctor bills afterwards. I could not get a place in an office, for I should have to learn bookkeeping or type-writing, and I have no time for anything but to work to earn my bread. Reared tenderly in the gentlest of atmospheres, taught only to dance and dine, and talk divinely—result, I kept pigs.

"The chief reason was that I had to be out of doors to keep my health, and then I heard a friend say that she never had pork on her table because it was not sweet and fine and well fed. Then I saw a poor woman taking care of the pigs while the farmer husband was away and it looked interesting at the time, and I remembered it. I thought it all out in the still watches of the night, and I said 'It's pigs or poorhouse.' And pigs it was.

"And now I am prosperous and happy and healthy. I like pigs and they like me. There it is in a nutshell."

The pig likes good, rich slop, something that will stick to his sides long enough to make him contented from one feeding to another, and not require him to be fed more than three times a day. There is no profit in a sloppy mixture that will not check the craving of hunger for at least a few hours.—Live Stock Reporter.

A re-survey of county lines between Roberts and Hutchinson counties gives Roberts a strip two miles wide formerly claimed by Hutchinson. The unsettled condition of county lines in the Panhandle has given considerable trouble and a big mistake was made in not having the work properly done in the beginning.

It has been found that the lady bug is the greatest natural enemy, or parasite, of the green bug, which has been devastating the wheat fields of Kansas and Oklahoma. So the entomologist of the Kansas University has put his students into the fields collecting lady bugs, which are packed and shipped free to any point where they are needed. Thousands have been distributed in the affected districts, and their work is said to have shown wonderful results. Concerns vitally interested raised money voluntarily and forwarded it to Professor Hunter to aid in his efforts. Considering this good work of the lady bug, the children will have to change the old song they sing over the home of this insect so as to make it read: Lady bug, lady bug, fly away home. Take green bugs to your children—We've got 'em to burn!—American Farmer.

Bowie Joint Raided.

A joint in Bowie was raided by Sheriff Watson Friday, and he seized a quantity of whiskey and other liquors, bar fixtures, bottles, jugs, etc. This material was attached under the new search and seizure act of the last legislature which authorizes such measures, and County Attorney Spencer availed himself of the opportunity so afforded, and in company with the sheriff and Constable John Wales of Bowie, raided a joint that was being kept as a drinking club by some citizens of that place. Suit is instituted in the county court to declare this drinking place a nuisance, and when so declared the liquor and fixtures will be destroyed by law.

Beef consumers were required to pay advances Saturday in St. Louis ranging from 2 to 6 cents a pound as a result of the contest between the packers and the livestock dealers on account of the refusal of packers to pay for cows and heifers until the government inspection that follows killing.

God's estimate of us will never be influenced by what we say of ourselves. It is what we are and what we do that makes our record by which we will be judged.

There are things a woman will not eat because they ruin her complexion, but a man never refuses to drink anything for a similar reason.

 Entered February 10, 1903, at Clarendon, Tex., as Second class matter, under Act of Congress March 3, 1879.

CLARENDON, TEX., JUNE 1907.

Remember that you can never rise to eminence upon the foundation which you built by pulling somebody else down.

This is a time that everybody who wants to be, is busy. Occasionally one will hear of a man who has been hunting for work and has failed to find it. The man who has been walking about in seeking work failing to find it must be a sort of a somnambulist, walking about about midnight when all the best toilers are asleep.

On account of the ceremonies at Richmond in honor of the memory of Jefferson Davis, Monday, an order was issued for a five minute suspension of all business from 2 o'clock to 2:05 p. m. on the Southern Railway system. Not only all trains stopped for that time but there was a cessation of business in the telegraph offices, in the shops and on the tracks.

The morals of Austin and vicinity may be pretty well judged by the vote there Saturday on prohibition, Monday, with six boxes yet to be heard from, shows Travis county has gone anti-prohibition by a vote of 3,050 to 2,032, being a majority for anti-prohibition of 1,018 out of a total of 5,082 votes cast. The city went wet by a majority of 907, and this majority was slightly increased by the returns from the country boxes, most of which were carried by the ants. Manor, the largest of the country settlements, went dry by a substantial majority, but Creedmoor, Del Valle and Pflugerville, all good sized towns, gave majorities for anti-prohibition.

Our citizens are still possessed with the spirit of improvement and building goes merrily on.

Chicago had a snow Saturday.

We never could understand why some men are so land greedy. The biggest profit on the investment does not come from the largest farms. We have heard it said that the less a farmer knows, the more land is required upon which he can make a living. Not enough land can be obtained in one body for an ignoramus to make more than a living.

At Richmond, Va., Monday, the following officers were elected by United Confederate Veterans: Grand commander, General Stephen D. Lee, Mississippi; lieutenant general department of Virginia, General C Irvine Walker, of South Carolina; lieutenant general, department of the Tennessee; General Clement A. Evans, Georgia; lieutenant general, department of Transmississippi, General W. L. Cabell, Texas.

Bert Pemberton, aged 24, who was taken to Kerrville seven weeks ago by his parents with the hope that his health would be improved, died at that place Tuesday, May 28, and was buried at Stephenville, their old home, Thursday. The Stephenville Tribune says of him: "Mr. Pemberton was a most estimable young man and formerly a student of McIlhenny Academy, and one of the first students of this institution to die. At one time he held a position in the First National bank." The remaining family, who lived in Clarendon for several years, have the sympathy of a host of friends here.

Jeff Davis Day.

Monday was "Jeff Dayvis Day," made a legal holiday by the last legislature, and observed throughout the state for the first time. The banks and post office here observed it by being closed.
Jefferson Davis was born June 3 1808, in Kentucky, and received his education at West Point. He acquired distinction during the Mexican war, and when Pierce was elected president in 1853 he was made secretary of war. He was president of the Southern Confederacy throughout the war, at the close of which he was imprisoned, and was not set at liberty until Dec. 25, 1868. He first achieved fame as a member of the house of representatives and afterward in the national senate. He died in 1889.

Sheriff Patman and wife returned yesterday from their visit at Sulphur Springs. His grandmother, who is also mother of Mayor Beville, returned with them for a month's visit. Mr. Patman says the farmers down there are all badly discouraged, having planted over their cotton several times and seed is getting so scarce some of them may fail entirely on a cotton crop.

Mail Order Groceries.

The Canadian Record publishes an article from the Gerlach Mercantile Co., of that place, with a list of articles and prices on an order sent to a mail order house by Mrs. L. B. Wilson. The goods were shipped short of articles there was little or no profit in, and a bill of \$95 was sent for the shipment made. Mrs. Wilson refused the goods. The firm then proposed to take \$75 for the shipment. Mrs. Wilson took Mr. Lewis to the depot, who invoiced the goods at a Canadian firms prices and the bill footed up \$56.99.

The article continues thus:
"It is easy to quote goods at less than they can be bought for and then in making delivery hold out these items sold too low and deliver the goods sold at a profit, which is the game they work but which your home merchants cannot afford to do. Few people will take the trouble to weigh and invoice their goods on receipt of the same."

"All classes of merchandise have a cost of production which nobody's cash money can get beneath as long as the merchandise is saleable and in good condition."

"The home merchant puts his money in your town, loses some of it in helping to create a market and bring people to your town and it being your town and your home market, he makes every dollar's worth of stuff you have of more value to you. Give him a fighting chance on this proposition and you will be surprised to see how close he will come both to meeting your catalogue house proposition and to keep you from being robbed and worked by the smooth traveling fellows on the road who have not a dollar invested in your community and every dollar that they get is that much velvet to them."

"To make your town better, your country better and land values increase and on a par with the settled community, it is necessary that every one of us work together. You consider not only our own interests but the interests and welfare of the whole community in which we live."

LOTS OF MEN
IN
BUYING CLOTHES

Are not half particular enough about quality; they'll buy almost anything that looks stylish and fits; especially if the price is low. It's the **WRONG WAY** to buy clothes. We hope you don't buy yours that way. The **RIGHT WAY** is to be sure first of the quality you're getting. Is it all-wool? Is it well-tailored? A price means nothing unless you know what you are getting. In this store we want you to know what you are getting for your money; we're not afraid to tell you, either. Ask, if the goods are all-wool; ask, if they are tailored right; ask, about the style and wear; and try the clothes on.

Each department in this store is filled with dependable merchandise; we propose to give you value received for every dollar you spend here with us. We are headquarters for Men's and Boys' clothing, Shoes, Hats, Trunks and Furnishings; see us before you make your summer purchases.

The Farmer's Wife
Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?
The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood. If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipation or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.
The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.
