Shoppers Busy Saturday

Crowds of holiday shoppers took advantage of Saturday after a busy week and thronged Clarendon in holiday buying. Buying seemed to be more brisk than for several years.

In the buying, it was noted that useful gifts were the rule except for the toys for tots.

As usual, clothing stores and drug and variety stores had the largest crowd of holiday buyers. It was also disclosed that one and two dollar items were the most attractive purchases.

Buying is expected to be on the steady increase. Furniture buying came in for more attention, and is expected to increase.

Gifts for the boys in service came in for a big share of interest. Women, many of them young ones, were buying most of the gifts to be sent to soldier boys.

Clarendon is said to be enjoying a large share of the buying of citizens in this trade territory, more than for a number of years. The quality and price is appealing and sales are expected to increase more and more right up to the Christmas period.

F. F. A. MEMBERS INTRODUCE BERKSHIRE AND CHESTER WHITE SWINE BREEDS

The Clarendon F.F.A. boys have caused Donley County to be recognized as the home of the most outstanding Duroc, Poland, and Hampshire Hogs in the entire state, and they have recently purchased a number of outstanding Chester White and Berkshire breeding stock for the establishment of these breeds in this county.

These sows were obtained at Clinton and Temple, Oklahoma, from outstanding Berkshire herds that have produced many top barrows. The Berkshires are noted as a lowest heavy hog that maintains the smoothness not commonly found in other low heavy breeds.

Ralph Morrow, J. F. White, Bobbie Harold Smith, Joe Smith, Colvin Davis, Chester Seaton, Bill Perdue, Douglas Jarrell, and C. G. Kirkland have all recently secured chester white breeding stock of the same bloodlines that produced the champion barrows at the last two Oklahoma and Texas State Fairs and the last two American Royal Barrow Shows. According to the Breeders Chester White Record Association in

a recent communication with J. R. Gillham, local F.F.A. Adviser, the thirteen gilts and sows owned by the above named youths are the only registered Chester White Hogs in Donley County. The local F.F.A. Chapter also recently purchased a son of the World Champion Chester White Boar to be used with these sows in making Donley County a top Chester White producing area.

"Will the Japs of Hawaii and adjacent islands help Japan?" the minister was asked. He smiled and said, "Those Japs in the islands will be more loyal to our nation than many of the people right in the states." He went on to explain that they were natives, very proud of their Stars and Stripes and the better opportunities under the American plan as compared with those of Japan.

"They are Japs in color, but American in principle," Rev. Henshaw stated, "have American ways, speak our language, and we shall hear of their heroic exploits in behalf of our nation as time goes on."

Jap planes and submarines were destroyed near Hawaii within a few hours following the attack. The American garrison was apparently taken by complete surprise.

The attack electrified all America, Canada, England, Australia and eight nations to the south of us declared war on Japan within a few hours. Others are falling in line almost hourly.

AND THIS IS WAR.

Shocked by human treachery Sunday, America suddenly became war-minded. Her citizens in Pacific possessions, were attacked and murdered without cause or warning. American sentiment suddenly became cemented. Those of us who are bitterly opposed to war, suddenly capitulated. We were attacked.

The cruel deeds of a foreign foe has aroused a nation that never lost a war. It is the same nation that has appeased Japan for many years by educating her war-mongers and selling her war materials. May we learn a valuable lesson in this respect. If so, the war will not be in vain.

We shall have learned another valuable lesson in that our nation should be prepared. Be prepared at all times so that we shall not have to depend upon any help

from any source other than our own resources to protect our most sacred rights in the great family of nations.

War brings its horrors. It is a brutal game at best. There is treachery from within as well as without. At the same time, it develops and brings to light the goodness and greatness of individuals such as no other thing can do. It arouses the deepest sense of responsibility and the fellowship of man. It develops personal sacrifices and welds kindred sympathy.

We are now at war with the most merciless type of heathens that have ever existed because they are the most skilled. We face the inhuman treacheries of both German war-monger and Japanese hate. Japan stabbed Germany in the back in the first World War. The German never forgets. They have a deep-seated hatred

toward each other. But today—they are our common enemies. Their greed for power and conquest knows no bounds. Neither regard human life. Neither know human sympathy. This must, therefore, be a brutal war from start to finish. We shall protect our interests. We shall once more bring peace out of chaos. America never lost a war. America will win this one.

MIRROR OF WORLD OPINION

The faiths by which men live do not suffer greatly because of experimentation. The American economic creed and the heritage which teaches American small boys to meet opportunity and disaster with identical courage cannot be destroyed by a few years of economic tinkering nor even by the most persuasive theory designed to influence economic evolutions.

When Alfred Butler of Pekin, Ill., and Ira Denning, his helper, went to Chicago to get some contracts in national defense they demonstrated this fact. When Butler said: "I've got a shop, an electric welder, acetylene equipment and cutters, electric grinders and other machinery" as an explanation of why he believed he should have a defense subcontract he left out the most important thing he had. That thing is enterprise.

Enterprise makes the front pages when it is evidenced in any human effort. For years, it has also made bank accounts and a feeling of accomplishment in the lives of many men. To make it less than free is both an insult and a folly. Al Butler and Ora Denning show why.—Peoria Journal-Transcript.

SOME FORTY YEARS AGO

I've wandered to the village, Tom, I've sat beneath the tree, Upon the school-house playground, That sheltered you and me; But none were left to greet me, Tom, And few were left to know, Who played with me upon the green, Just forty years ago.

The grass was just as green, Tom, Barefooted boys at play Were sporting, just as we did then, With spirits just as gay. But the master sleeps upon the hill, Which, coated o'er with snow, Afforded us a sliding place, Some forty years ago.

The old school-house is altered some: The benches are replaced By new ones very like the same Our jack-knives had defaced. But the same old bricks are in the wall, The bell, swings to and fro; Its music's just the same, dear Tom, 'Twas forty years ago.

The spring that bubbled 'neath the hill, Close by the spreading beech, Is very low; 'twas once so high That we could almost reach; And kneeling down to take a drink, Dear Tom, I started so, To think how very much I've changed Since forty years ago.

Near by that spring, upon an elm, You know, I cut your name, Your sweetheart's just beneath it, Tom; And you did mine the same. Some heartless wretch has peeled the bark; 'Twas dying sure, but slow, Just as that one whose name you cut Died forty years ago.

My lids have long been dry, Tom, But tears came in my eyes: I thought of her I loved so well, Those early broken ties. I visited the old church-yard And took some flowers to strew Upon the graves of those we loved Just forty years ago.

Some are in the church-yard laid, Some sleep beneath the sea; And none are left of our old class Excepting you and me. And when our time shall come, Tom, And we are called to go, I hope we'll meet with those we loved Some forty years ago. —McGuffey's Fifth Reader

WHAT WILL THEY THINK UP NEXT?

A mechanical stone picker that picks up all stones—from as small as an egg to as large as eight inches in diameter—has been put on the market. It's powered by a tractor.

In a test conducted by Pennsylvania State College, the machine picked stones from a field at the rate of 12 tons an hour.

Besides picking up the stones, the teeth of the machine breaks up the clods and spray the soil through the rake so that it settles in a finely pulverized state. Then a roller comes along and firms it down again.

GOOD POINTS.
There is some good in all things if we care to hunt it out, we are told. For instance, a detour is a treat to the average motorist because you don't see so many billboards.

CALAMITY.
It is tough to be so darned hard up that when you try to make both ends meet, that it cracks in the middle.

OUR WEAKLY POME.
This is the time of year When old friends meet, And faces we had not missed, flash by Us on the crowded street. A quick hand-clasp must span the years They've been away. And we inquire about their health and luck— There's nothing much to say. Then we must part again Each taking for their own Some dim memory of joy We both had known In days gone by. And each is glad that time Has caused a rift That saved us buying A Christmas gift.

FITS, BUT NO ANTS.
A subscriber to a nationally known magazine recently became "fed up" with riddles, contests, and like departments being featured by the press nowadays. He presented the following syllogism which he heralded as an enigma to end enigmas. A squirrel is in a cage 3 ft long—There's a hole in each end large enough to stick his head through. He sticks his head through at one end and turns around and runs like hell for the other hole—sticking his head through that. Should he be running at 15 miles per hour the first trip and doubling his speed each trip thereafter, how many trips must he make before his head sticks through both ends at the same time?

GOOD GOSH!
The contented cows of Oregon, where a lot of Japs live, are kicking up and acting awful since Japan attacked Sunday. There will be a great shortage of condensed milk on the Pacific coast as a result.

INSTITUTIONS.

REVENGE.
According to the 1940 census, there were registered 93,217 alien Japs on the Pacific coast states alone. Why not gather them up, stack them on a raft and start them home with two oars to the raft?

And there is the story of the two farmers who fell out over a boundary matter. Brown said, "I'll sue you in county court." Smith answered, "If I lose, I'll appeal to district court."
"I'll be there."
"And if I lose there, I'll fight you in the court of appeals."
"Well, I'll be there."
"And then I'll take the case to the supreme court."
"All right, I'll be there, too."
"Then I'll fight the case plumb into h---."
"My lawyer will be there."

The U. S. Navy has had only four fleet actions, but in every one it captured and destroyed every enemy ship.

Chiropractic
Eliminating Rheumatism With Chiropractic
Many different conditions characterized by pains and aches in different parts of the body are frequently called by the term "Rheumatism." Many of these symptoms can be classified as acute rheumatic fever, rheumatoid arthritis, and osteoarthritis. Other symptoms put in the same category are those of neuritis, neuralgia, backaches, and sciatica, and many joint and muscle strains.
Because of the generally vague and indefinite symptoms, rheumatism is not effectively treated by the usual methods. On the other hand, it is a symptom group for which the Chiropractic method could be considered almost as a specific. The Chiropractor is able to locate and trace the pains and aches to the nerves involved in causing them. By his individual procedure, the Chiropractor successfully removes irritations from the nerve pathway involved, thus effecting a correction of the condition.

Fun for Mary Martin is Headache To Co-Star, Fred MacMurray

Mary Martin, singing star of "Kiss the Boys Goodbye" and a rather fragile looking creature, more noted for her blue notes than for her biceps, proved herself to be a tougher customer than Fred MacMurray.

It was all for a scene in Paramount's "New York Town," opening Wednesday at the Pastime Theatre, involving a hilarious fight. Fred MacMurray, Robert Preston and Eric Blore are all tangled up in a furious battle when Mary ends the bout with bopping Fred over the head with a four-foot vase.

Through six shots, from six different angles, Mary lifted the heavy vase with ease and aimed it with skill. Six times she crashed it on the MacMurray conk. The director called "Cut!", Fred called quits, but Mary was eager for more.

"It was fun," confessed Miss Martin, revealing an unsuspected streak of blood-thirstiness. "Let's do it some more!"

"For goodness sake," moaned MacMurray, "what about my head?"

"Why, Fred. You shouldn't feel that way. After all—it's art."

"I know. Art. I must be the artist guy in Hollywood. I can't think of a single picture in which I haven't been bumped around by somebody. Martin—you're a menace to mankind. As soon as I get my head back in shape, I'll think of something to do about you."

"You say the sweetest things, Fred. But it had better be something good. Because I think I'm going to make scenes like this my life's work."

Three minutes later, the cameras were grinding away at the pair kissing each other for dear life.

LOAN SHARK MENACE

Payments amounting to hundreds, and even to several thousands dollars, on an original loan of a trivial amount have come to the attention of the Better Business Bureau of Dallas, declares William Collier, executive vice president, in discussing the loan shark situation.

Here are a few typical, not extreme, cases: A sporting goods company employe borrowed \$40 because of illness in the family. After he had paid \$238, the loan company tried to get him fired, claiming he still owed the principal.

A taxicab driver borrowed \$25, paid \$169 and the loan shark claimed the borrower owed \$26.40—in other words that he still owed \$1.40 more than when he started. Even worse was the experience of a postal employe who borrowed \$25, paid \$448.50 and yet owed \$28.75, according to the loan company. An elderly garbage wagon driver had to have \$20 because of family illness. He paid and paid till he had been bled for \$672 and the concern claimed he still owed the original amount.

That the evil is widespread and is not confined to the so-called underprivileged groups is shown by the fact that complaints have been received from employes of almost every business and industrial firm in Dallas and, Collier continues, "from many of our professional, educational, governmental (federal, state, county and city) and religious groups."

Art And Nature Is Beautified

"Going to the Sing" on a Navajo Indian reservation in Arizona, a beautiful masterpiece of both color and action, is the scene portrayed by the Santa Fe Railway's 1942 calendar, now in course of distribution.

To perpetuate the story of the Navajo people, this is the second successive year that the Santa Fe has turned to the talented brush of Gerard Curtis Delano of Colorado, for its calendar subject. In 1941, it was Delano's famous painting, "Navajo Shepherdess."

Few artists have so captured on canvas the "feel" of the sun-drenched reaches of the vast Indian country adjacent to the Santa Fe mainline in Arizona and New Mexico. In "Going to the Sing," Delano depicts a group of Navajos, summoned by the mysterious desert "grapevine," riding a dim rocky trail on their way to a distant tribal ceremonial.

The Navajo reservation, comprising 16,000,000 acres, is the largest in the United States. More than a million sheep graze through this great domain, a country of natural wonders, including the famous Rainbow Bridge, Canyon de Chelly, and miles of beautiful desert and mountain scenery.

Government headquarters of the reservation, from which the welfare of more than 50,000 Navajos is directed, is located at Window Rock, 28 miles northwest of Gallup, New Mexico.

\$25 Is Offered For A Name

DALHART, Dec. 9.—The \$25 cash contest to select a new name for the old dust bowl, which this year has fat cattle, the finest ranges in half century and a record row crop, will close Thursday midnight, Dec. 18. Entries must be in The Dalhart Texan office or postmarked by that hour, Editor Albert Law said. A committee of pioneers will be judges.

The new name contest, which has already drawn several hundred entries is a part of the hunt Law started Oct. 5 to find the person who coined "dust bowl". The coiner must have used the term in print, or been quoted in print. Law offers to take him on a tour of the dust bowl, and climax the trip with a big party in his honor.

AMERICA RUSHES NAVAL DEFENSE

To give readers of your Donley County Leader some idea of the comparative naval strength of our nation and Japan, figures obtained from the Senate Naval Affairs committee is given below.

If the modern war vessels of old France be added to the enemy flotilla, the naval war strength would be altered to an almost even basis until the U. S. completes vessels now under in advanced stages of completion.

Marketing Quota Election 13th

The Marketing Quota Referendum election is coming up again Dec. 13 for farmers in Donley County, for farmers to vote on whether they will keep the Quotas again next year or not. Each man who was interested in the production of Cotton in 1941, is eligible to vote. According to Walter J. Flynt, and the County Committee of Donley county, farmers should think very seriously about the coming election. Quotas have been in effect for the past four years, and have worked very efficiently during that time. Along with keeping an accurate record of the harvested crop for each individual farm, Quotas have held down the production of cotton which was not needed since even before the 1941 crop has been harvested, the surplus is 23,000,000 bales, and with the estimated crop of about 11,880,000 bales, will still be a surplus enough to last for three years if no cotton was raised at all.

If Quotas are not in effect, there will be no Cotton loans in 1942. Farmers know what this means, when there is no loans to hold the price of Cotton up. This more than anything else is a good reason to keep Quotas.

Without Quotas the farm program would be an entirely voluntary program, with no way of penalizing the uncooperative minority, holding the production of cotton at an even level, or protecting the farmers who do cooperate. Without Quotas the farm program just doesn't have any teeth.

Farmers should at least come out and vote, and express your opinion on this matter, as a good American, since voting places are placed as conveniently as possible, and voters may vote at any box in the United States they wish.

Voting boxes and places are listed below:
Giles—Schoolhouse.
Hedley—Schoolhouse.
McKnight—Schoolhouse.
Lelia Lake—Lumber yard.
Clarendon—County Agents Office.

Ashtola—Lovell's Store.
Goldston—Gin Office.
