Vol. 5. Clarendon, Texas, Friday, February 16, 1883. No. 32

SUFFER

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength, lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1882. BROWN CHEMICAL CO. Gentlemen--For years I have been greatly afflicted with Dyspepsia, and could get no relief having tried everything which was recommended until, acting on the advice of a friend, who had been benefited by Brown's Iron Bitters, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Bitters, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Bitters, all my troubles are at an end. Can eat any time without any disagreeable results. I am, practically another person. Mrs. W. J. Flynn, 30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

Sold by all Druggists. Brown Chemical Co. Baltimore, Md.

See that all Iron Bitters are made by Brown Chemical Co., Baltimore, and have crossed red lines and trademark on wrapper.

BEWARE OF IMITATIONS.

SWAYNE'S OINTMENT. AN UNFAILING REMEDY FOR ALL SKIN DISEASES. ITCHING SORES, PIMPLES, ERYSIPELAS, RING WORM, BLOTCHES.

THE GREAT CURE FOR ITCHING PILES. Symptoms are moisture, stinging, itching, worst at night; seems as if pin-worms were crawling about the rectum; the private parts are often affected. Also pleases, economical and positive cure. Swayne's Ointment is superior to any article in the market. Sold by druggists, or sent direct in 25¢ Stamps. 3 Boxes, 75¢. Address, Dr. Swayne & Son, Philadelphia, Pa.

THE MILLER BROS CUTLERY CO. MERIDEN CONN. U.S.A.

Having attained a national reputation in FINE POCKET CUTLERY, Ladies' Scissors and Ink Erasers, Have added the manufacture of PATENT ADJUSTABLE STEEL PENS.

With a skilled superintendent in that department, supplemented by extended experience in the working of fine steel, we are enabled to offer goods of unequalled quality. To introduce our

Patent Adjustable Quill Action, Reservoir Pen, "THE A.C.M.E."

In advance of regular trade channels, we show out off, and will mail a sample gross to any address on receipt of \$2. Carries as much Ink as any Fountain Pen.

Writes as easy as a quill. Fits into any holder. THIS PEN FITS ANY HOLDER. One whole line of Pens will be sold by the trade. Price Lists furnished to dealers on application.

The Oklahoma troubles are commencing again in earnest, the following from the Price Current states the condition of affairs at present:

Advices from the Indian Territory are to the effect that the Indians are greatly excited and stirred up in regard to the threatened invasion of Oklahoma by Payne and his followers. They fear Payne's persistence will ultimately force the government to a compromise or settlement of that part of the territory. Opinion is divided among the leaders as to whether the explosion of the invaders ought to be left wholly to the government, or whether the Indians ought not to assist in driving them out. Should the latter be decided upon, the probability is that blood will be spilt.

General Pope's troops are guarding the border, but so far no captures are reported, nor does it seem to be known whether any movement has been made on the territory.

The Manufacturers of Massachusetts, it appears from their memorial printed in another column, are appalled at the conduct of Kelley's committee in levying duties increasing the cost of production and in taxing articles now free. Such a protest from such a source would give cause to anybody but the Republican leaders in Congress, who seem bent upon showing that the election of last autumn have taught them nothing.

Much hardship is done witnesses when they are forced to attend court in felony cases, far from home; naturally they try to avoid being put to such inconvenience; thus their repugnance to sacrifice their time helps criminals to escape, especially in cases of a change of venue and continuance. A Senate bill, introduced and referred, for granting fees to such witnesses, appears to be calculated to promote the administration of justice.

A special dispatch to the Fort Worth Gazette is to the effect that the manager of the Dallas Car Works is one of four hundred and fifty heirs to a fortune of \$33,000,000, held for them in escheat by the German government. It also states that one of the heirs is an apprentice in the office of the Dallas Daily Times. The amount that will fall to the lot of each will be between \$73,000 and \$74,000.

If there was a stringently enforced law to hang the architect, owner and lessee of every hotel or public building, in which lives might be lost through the want of proper means to escape from fire; horrors like those at Milwaukee, at Providence, and at the Granite Mill, would become mere memories of criminal negligence which, in their hideous reality, could no more shock the public mind. Fall River Advance.

Our London Letter, giving the particulars of Mr. Gladstone's departure for Cannes, on the shore of the Medeterranean, is too lengthy to admit of publication. It gives in particular a description of this sunny resort to which the Premier goes to recruit his feeble health.

The Central Pacific train robbers have been surrounded and captured in their stronghold near Deseret, Utah Ty.

A fire at Oshkosh, Wis., on the 20th, destroyed the Times office and some other property valued at \$10,000, the insurance amounting to \$7,500.

It is reported that State Treasurer Vincent, of Alabama is deficient \$225,000, in his report to the State Legislature Committee.

Gotham Gossip.

State Prison Horrors--The Steam Heating System in New York and its Terrors.

New York, January 31st, 1883.--Humanity has been done a service by the Legislative Investigation into State Prison Abuses began this week, and Tammany and John Kelly deserve the thanks of the people for getting it a going. We read of the horrors of Siberian and Russian Prisons. The savage Cossack Taskmasters are angels compared with the civilized fiends who tortured the unfortunate criminals with a refinement of cruelty which makes the reader of the testimony shudder. The telegraph has already informed you of the facts elicited, so that I need not give you an extended resume. But when one hears tell of men made raving maniacs by "padding, douches, starvation and beating with clubs, convicts throwing themselves down two or three stories in order to break a leg or an arm that they might get into the hospital; prisoners pleading to be shot rather than be punished, and starving inmates given live rats for food," then we must go back to the Indians or other savages to find punishment severe enough for the fiends cruel enough to inflict such monstrosities.

The people of the city are at length waking up to the constant danger to their lives and safety by the steam heating system. The entire downtown portion of the city is undermined, and two explosions in two days give a foretaste of what might be done. This work gives you an idea of how gigantic schemes are passed through in New York. First come the Board of Aldermen, generally composed of German or Irish liquor dealers, men with a greed for money equalled only by their unblushing affrontery with which they seek it. When the Steam Heating Companies first came to the front with their scheme, and applied for a franchise, the press and everybody denounced it as being sure to turn out a public nuisance and a colossal "Job." Still in spite of that enough of Aldermen could be got together to favor it. The work was done in the cheapest way, and the result is that there are constant leaks and breaks. I understand now that a number of property owners have quietly got together and are gathering evidence with a hope of first taking away its franchise from the American Steam Heating Company and second to have its officers criminally indicted for the injuries which several persons suffered. It is useless to proceed against it in a civil suit, with a view of getting damages. The property is so laid out and mortgaged that it is impossible to recover.

The Temperance Issue Now. Chicago Advance. Those who imagine that the friends of Temperance are either defeated or discouraged by the last election or the adverse decision of the courts in Iowa are mistaken. This is a free country for discussion, but it is not to be a free country for saloons. The agitation against free whisky and no Sabbath is to go on with increased power. After the great gain made by the Temperance cause in the last few years it was not to be expected that temporary checks would not be met. Nor is it claimed that all the measures proposed for the suppression of the Liquor traffic are the best. We learn by experience and we profit by adversity. The intensity of the opposition aroused and the tireless warfare waged by rumsellers, testify to the increased influence of the temperance force. But the good work of agitation goes on, and steady gains for temperance workers are marked year by year. England feels it in Parliament. The Secretary of the Treasury has called the attention of the government

to the fact that the consumption of Liquor had so fallen off as to seriously effect the revenues from that source. Sir Wilfred Lawson has introduced in Parliament a bill similar to the Local Option Law in this country. The Cunard Steamship Company has at last yielded to the temperance pressure and abolished the custom of furnishing grog to its sailors. Let temperance men and women every where keep in line, and continue the good work. There must be no surrender and no compromise. Whenever it is possible enforce prohibition. Whenever it is plainly impossible for the moment, as in some large cities, see that such fines are imposed as will scotch if not kill the viper at once.

Reserved Force.

Youth's Companion. Mrs Bertha Von Hillern, in urging women to walk more, advises them to continue this exercise, even if they are seemingly exhausted, the system soon drawing on its "reserved force," and the weariness will soon pass off. This matter needs somewhat careful treatment. What is reserved force? It is that capacity which every healthy person has for effort beyond present need. Such a person, without feeling it, could, for a time put forth more strength than his daily work requires, and could exert himself intellectually or physically more continuous hours and under a severer pressure. He could endure a heavier burden of care than he is ordinarily enduring, and could get along with less food, less sleep, and less relaxation.

This, we have said, a healthy person might do, for nature does not deal stingily with us--it gives us enough strength, and more than enough, for our ordinary wants. Why? For unexpected demands--for the various emergencies of life. We are normally, like a man whose income is sufficient for the day, yet who has a good bank-account to draw from in times of exceptional need. Now this reserved force--meant for emergencies--should be kept for emergencies. Such emergencies are certain to come. No one knows how soon they may arise, nor what drafts they may make, and yet, spend all their reserved force as they go, and when the emergency comes, prove physically bankrupt.

Nor is this class confined to fast young men, ambitious business men, and overworked housewives. The benevolent career of the most self-sacrificing men and women is often brought to a sudden end for the same reason.

It is this reserved force mainly keeps a healthy person safe amid disease; or if attacked, enables him to survive it without permanent harm, while those who have none, die, or survive with shattered health. Excitement may draw out this reserved force to almost any extent, but one should never use it unnecessarily; and when, as in exercising muscle weakened by long disuse, we thus draw on it, it should be followed by ample rest.

Never choose for a friend one who would urge you to pull out a single thread from the warp of character. Never choose a friend that you feel you have lowered your standard of purity and right one single inch to gain. If you cannot step up in your friendships, you need not step down. Raise your standard, and stand by it. You need not want for companionship only see that the society is kept high and pure. Keep a strict watch at all the doors, and what a blessed thing it will be to live even amid outwardly adverse circumstances. Tie's Almanac.

Dr. Jaques' German Worm Cako stand unrivaled as a worm medicine. Give them a trial. Sold by all Druggists.

TERMS FOR ADVERTISING.

Table with columns: SPACE, 1 w., 2 w., 1 m., 3 m., 6 m., 1 y. and rows for 1 square, 2 squares, 3 squares, 1/2 column, 1/4 column.

One inch in space constitutes a square. Business Cards, five lines or less, \$5 a year. All bills for advertising are collected quarterly.

An Ingenious Comstocker.

Texas Sitings. The man who was appointed watchman at a mine on the Comstock had no watch. He did not wish to buy one, yet was desirous of knowing how the time was passing. He borrowed the watch of a friend for one night. On returning the watch the next day he told his friend that he was all right now, that he had a time-keeper of his own. He then unrolled a strip of paper some four inches in width, from a stick, and exhibited it as his clock. On this strip of paper he had marked down, as they rose above the horizon, all the stars and constellations within a narrow belt. Opposite each star was the time of its making its appearance--hour and minute. The watchman says his watch is a fine time-keeper. He has recently improved it somewhat. The slip of paper now runs on two small rollers that are placed in a small box which has a sliding lid of glass. As the night wears away and the stars pass over, he now turns the crank of his watch and looks at the time marked by the side of each. To wind up his watch he runs the tape back upon the initial roller.

Scientific American.

Late accounts from California notice the great increase in the size of the vineyards there. A plantation of 200 acres used to be considered a large vineyard; now vineyards of 500 and 600 acres are not uncommon, and one of 1,500 acres was recently planted near Los Angeles. It is expected that in three years or so California will possess vineyards of 5,000 or 6,000 acres in extent. The total number of acres at present devoted to vine culture is estimated at about 100,000, all of which will be bearing in about four years time, and producing about forty or fifty million gallons annually. New wines at present fetch from 20 to 25 cents per gallon for dry wines, either red or white. Sweet wine is dearer, ranging from 55 to 75 cents per gallon. Though next years prospects are good, last years prices for grapes are not likely to be maintained, as the cellars of San Francisco are said to be full.

Recent advices from Japan report that the intention of the Japanese Colonization Department is to adopt the American system of railroad building in the extension of the railroad system in the northern part of the Empire. This decision is attributed to the economical and satisfactory working of the railroad from Sapporo to the sea coast in Yesso. This road was built by Col. J. A. Crawford.

LARGE PEARLS.--The Pacific, of Mazatlan (Mexico), has the following: The largest pearl in the world has been found recently in Lower California (Mexico) by one of the fishers (or divers) belonging to the firm of Gonzalez and Ruffo, merchants at La Paz (L. C.). The pearl is of the dimensions of a lemon, weighing 75 carats, and measures one inch in length and three-fourths of an inch in width. It took the fisher who opened the shell several minutes to extricate the pearl. There is no doubt that the coast of Lower California is very rich. The largest pearl known before was also found on that coast, in Loreto (L. C.), in the time of the Jesuits, and adorned the crown of the Queen of Spain.

It is an easy and tempting thing for an editor to write omniscient editorials on tariff, when he hasn't a single intelligent, complete idea on the subject. The suggestion is freely given that the editor who wants to write editorials on tariff first learn what tariff is.--Springfield Sunday News.

A Scientific Discourse.

Alfred Tennyson, who by the way writes poetry by the special grace of Queen Victoria ruling over the family of John Bull Esq., tells us with all the owl-like solemnity of laureated wisdom that "There are birds in last years' nest." His researches on this subject were made wholly in the interest of science and art and he came to this profound and truthful conclusion only after long and arduous labors. His discovery was hailed with delight by the scientific world of England and he was notified by Lord Sticks-in-the-mud, that her Royal Highness, who also regulates the family affairs of all the Indies, would be willing to shake hands with him on the first State occasion.

This discovery would have been invaluable to Mr. Bull's "small boys" if he ever had any. If Mr. Tennyson had gone one step further in the subject and told the world whether the old bird would come back again next spring, and if so, how many eggs she would lay, and if so, what would be their size and color, in a word, would the "true lawfulness" of the nest business, then "Young America" would rise up as the "small boy" and bless him even unto the fifth generation. As it is, however, we may regard Alfred as a wise and good man but it will be conceded by all that his knowledge as to the domestic habits of birds and nests is, to put it mild, limited. And of these things Ino.

To the many friends of Mr. C. Goodnight who is now visiting in the eastern and southern part of the state, the following will be of interest, from the Fort Worth Texas Live Stock Journal:

Charley Goodnight of the Panhandle made a short visit to the city this week. He is the owner of the largest number of fine cattle in the state, and has demonstrated that to raise thoroughbred stock in Texas pays better than common. He is one of the lucky ones, having secured his range before lands became so high. He owns one of the finest bodies of land in Northwest Texas, and has it fenced and well improved. He sold for spring delivery to Bagby & Nelson 6,900 head of steers at \$20 for yearlings, \$25 for twos, and \$30 for threes. He has bred Darbams altogether preferring them to any other, but says the Polled Angus cattle will take the places of all others for Southern ranges, as they are hardier and can live on shorter grass than any other fine stock. He will be at the Austin stock meeting and meet his old friends who he has been in the habit of seeing at Dodge every year. We were glad to welcome the old thoroughbred to our sanctum and learn from him that the stock interest of his section is in fine condition.

Gov. Ireland recommends that our "frontier force" shall be dropped, believing that such an organization is now wholly unnecessary to assist in the keeping of the frontier in a peaceful attitude.

Washington, February 5. - Under the new treaty which it is proposed to make with the Sioux Indians the Government, in addition to giving 20 acres of land to the head of each family and 80 acres to each minor child, stipulates to furnish to each Indian settlement a physician, carpenter, miller, engineer, farmer and blacksmith for a period of ten years. On their part the Sioux surrender between 17,000 and 18,000 square miles of their former reservation and agree not to sell or slaughter for sale the cows and oxen to be furnished them by the Government, unless by permission of the Interior Department. - New York World.

Washington Letter.

From Our Regular Correspondent.)

Washington, February 4 1883. The Senate made such progress with the tariff bill last week that those who have been least hopeful of its passage by this Congress have taken heart again. On the democratic side of the chamber the impression seems to prevail that the Senate may pass the bill by the last of this week, probably not until the very last day of the week. The stubborn contests that have marked the committee of the whole on certain provisions will be renewed in the Senate when the bill shall have been reported back. The amendment placing lumber on the fee list will, perhaps, opposed with even more vigor than it was in committee. The iron schedule and the sundries also contain provisions which will lead to renewed debate, and upon the whole, if the bill gets through the Senate this week, on doubt its friends will be satisfied.

The tariff debate in Congress shows conclusively that local interests, after all, exercise a powerful influence upon the minds and votes of Congressmen. The tariff reformer who in a general way declares himself in favor of reductions, halts when some production of his own state is reached, and when it comes to a vote he is found on the side of protection, as far as that production or industry in which his constituents are interested is concerned.

The ten or fifteen thousand Government clerks are having a hard time of it this winter. First came the civil service bill which proposes an examination to weed out the most illiterate of them; next Secretary Folger's rules which required them to be at their desks by nine o'clock, or to forfeit a part of their pay; and last and worst a bill has been formulated in Congress which enacts that they must get to work by 8.30 A. M. and work until 4.30 P. M. You may be sure there is wailing and objur-

gation in the hearts and on the lips of salaried employees, but no resignations have yet occurred. No resignations will occur. The government work is far behindhand at thousands of desks and it is much better to have it expedited by imposing additional hours on these overpaid, pampered, idle clerks than by employing an additional force as has been the custom of the Republican party. From 8.30 A. M. to 4.30 P. M. would not be considered an onerous days work by several millions more competent but not as well paid clerks in the country. Business is disgracefully neglected especially in the U. S. Patent Office. This Office is not only supported by the fees paid by inventors for Patentes, but it yields a large yearly surplus to the U. S. Treasury. Yet it is not uncommon for an inventor to have to wait from two to six months before his invention can be examined and passed upon. Over one hundred Examiners are appointed for this work and by proper industry and attention to the duties for which they are paid with the inventors money, they could easily keep the work up to date. That this is far from impossible is proved by some few of the Examiners who do it, and have time to spare; but the majority, knowing well that they hold their places by political favor, are, as a rule, idle and neglectful, spending the time during office hours in reading news papers, gossiping, and talking politics. The number of applications for patents last month was greater than was ever made in any previous month, the receipts of the Patent office amounting to over \$93,000. The Commissioner of Patentes has asked for an increase of force and room, but what is the use of increasing his force when he cannot make those employed work more than half their time? The Commissioner himself holds his position not from fitness but by political influence, many of the Examiners under him have stronger political backing than he has, and feeling perfectly secure in their places through the influence of half a dozen Senators and as many Representatives in Congress, they can afford to defy him in his efforts to make them attend to the work for which they are paid by the inventor. This is a plain, unexaggerated statement of the condition of things

in the Patent office. A like condition of affairs exists in many other offices of the Government and it will never be cured until a new party, through a new administration fills the places of these clerical loafers and shirks with fresh, new, and competent men.

"The Old Life Preserver" is what they call Johnson's Anodyne Liniment way up in Maine where it is made. This name is well deserved, for it is the best liniment in the world. It will certainly prevent diphtheria, and will relieve croup and asthma instantly. - Western Paper.

Late reports are to the effect that damaging floods have occurred in the southern part of O. In the vicinity of Cleveland. The country in that vicinity was almost entirely submerged causing heavy damages to property of all kinds.

"Figures are not always facts," but the incontrovertible facts concerning Kidney-Wort are better than most figures. For instance: "It is curing everybody" writes a druggist. "Kidney-Wort is the most popular medicine we sell." It should be by right, for no other medicine has such specific action on the liver, bowels and kidneys. Do not fail to try it.

The "roast beef of England" evidently belies its name. With 12,000 head of live cattle yearly, 2,000 quarters weekly from Chicago, and 1,000 carcasses weekly from one firm in New York going to the London Liverpool markets, it is plain that the roast beef of America is coming to the front on English dinner tables. - Ex.

Mr. A. A. Curtis, druggist, Jewett, Texas, says: "Brown's Iron Bitters is the most saleable of any medicine we keep."

KIDNEY WORT IS A SURE CURE for all diseases of the Kidneys and LIVER. It has specific action on the most important organ, enabling it to throw off impurities and maintain the healthy secretion of the bile, and by keeping the bowels in free condition, affecting its regular discharge. Malaria. If you suffer from malaria, have the chills, are nervous, dyspeptic, constipated, Kidney-Wort will surely relieve and quickly cure. In the Spring to cleanse the system, every one should take a thorough course of it. SOLD BY DRUGGISTS. Price \$1.

NEWMAN'S PURE GOLD BAKING POWDER

Has now been before the public nine years and has been thoroughly tested and pronounced one of the BEST POWDERS in the market. 50,000 families in this country and Canada are now using it.

It is made from Pure Grape Cream Tartar and contains no Alum, no Ammonia, no Tartaric Acid, no Terra Albe or any other unhealthy or injurious article. It is not only made from the BEST and PUREST MATERIALS but is also ALGEBRAICALLY COMPOUNDED upon scientific chemical principles and therefore is always UNIFORM and RELIABLE.

Our Flavoring Extracts are also the very best that can possibly be made—we use the best vanilla beans and the very best essential oils that can be made. Try these goods and be convinced of their SUPERIORITY. You will get a valuable list of recipes and a small tin measure with the Baking Powder and other valuable information. They are for sale by all the reliable merchants and grocers in the country; but in case your merchant does not keep them send your order direct to us, with 50 cents enclosed, and we will send you a pound of the Baking Powder by mail.

PURE GOLD MANUFACTURING CO., Fairport, N. Y. & Toronto, Ont.

No insufferable heat, soot, ashes, or dirt as attached to the old method. Special inducements to Agents in unoccupied territory. Send for illustrated circular and price list.

HULL VAPOR STOVE CO., 2000 St. Ger. Champlain, CLEVELAND, O.

The Galveston people are beginning to doubt the feasibility of procuring deep water by Col. Mansfield sinking appropriations on the bar. It is now proposed that, instead of relying on Uncle Sam, or other rich relations, the Galveston merchants are going to rely on a party in whom they have some confidence. They propose to erect iron piers out in the Gulf of Mexico, where there is any quantity of deep water. All they have to do is to go for it. The plan is said to be practicable. There is a great deal of instruction to be drawn from some of these old fables, and that one about the farmer who depend upon his relatives to mow his hay is particularly applicable. It was not until he took off his coat and went at his mowing himself that the crop was harvested. - Texas Siftings.

An old nurse says: Dr. Acker's Eye Remedy is best for cough, croup or diphtheria. At druggists.

DR. CLARK JOHNSON'S INDIAN BLOOD SYRUP Cures all diseases of the Stomach, Liver, Bowels, Kidneys, Skin and Blood. MILLIONS testify to its efficacy in healing the above named diseases, and pronounce it to be the BEST REMEDY KNOWN TO MAN. GUARANTEED TO CURE DYSPEPSIA. LABORATORY 77 West 3d St New York City. Druggists sell it.

Humphreys' Veterinary Manual (200 pages) free by mail on receipt of price, 30 cents. 27 Pamphlets sent free on application. HUMPHREYS' HOMEOPATHIC MED. CO. 109 Fulton Street, New York.

Consumption Cured. An old physician, retired from practice having had placed in his hands by an East India Missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung affections, also a positive and radical cure for general Debility and all nervous complaints, after having thoroughly tested its wonderful curative powers in thousands of cases feels it his duty to make known to his suffering fellows. The recipe with full particulars, directions for preparation and use, and all necessary advice and instructions for successful treatment at your own home, will be received by you by return mail, free of charge by addressing with stamp or stamped self-addressed envelope to DR. M. E. BELL, 161 N. CALVERT ST. BALTIMORE, MD

Richmond House, Mobetie, : Texas. The only first class Hotel in Mobetie. Parties going from Dodge City to Clarendon, will find it to their comfort and interest to stop at the RICHMOND HOUSE. Terms reasonable. Mark Huselby Proprietor

When horses and cattle are spiritless scraggy and feeble they need treatment with Uncle Sam's Condition Powder. It purifies the blood, improves the appetite, cures colds and distempers, invigorates and system and will keep the animal in a healthy Handsome condition. Sold by all Druggists.

PATENTS We continue to act as Solicitors for Patents, Caveats, Trade Marks, Copyrights, etc. for the United States, Canada, Cuba, England, France, Germany, etc. We have had thirty-five years' experience. Patents obtained through us are noticed in the SCIENTIFIC AMERICAN, which has the largest circulation, and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands. This large and splendidly illustrated newspaper is published WEEKLY at \$3.20 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. Single copies by mail, 10 cents. Sold by all news-dealers. Address, MUNN & CO., publishers of Scientific American, 261 Broadway, New York. Handbook about patents mailed free.

HOME NEWS

If your paper does not reach you regularly notify us at once.

Mr. L. B. Nall is reported to be en route for Clarendon.

John Higgins is again installed as driver of the Mobeetic stage.

Reports from the North are to the effect that the mails are much impeded by snow.

Mrs. E. R. Morse, sister of Mrs. N. D. Freeman arrived on the stage Thursday night.

A surprise at the Court House last night. "Yea, eva the old bach eiors are not forgotten."

Gus Hartman is some what under the weather with a diseased ear, caused from catching cold.

We are indebted to Senator Matlock for papers containing proceedings of the State Legislature.

The shelving for one half of the new store is about completed and the remainder will soon be done.

H. L. Wright and Mr. Roberts pulled in Thursday evening heavily loaded with corn for the company at this place.

The most brilliant shades possible, on all fabrics are made by the Diamond Dyes. Unequaled for brilliancy and durability. 10 cts.

Miss Jessie Brewer, departed for Mobeetic, Monday. She has been visiting for the month past with Mr. and Mrs. E. E. Carhart.

Mrs. Parks is just in receipt of a telegram announcing the death of her mother Mrs. A. G. Wallace of Tuscola, Ill., on the 9th inst.

The Wheeler County school lands have been sold. Plemons & Eustis of Henrietta, are the purchasers. Price paid \$1.41 per acre.

Our streets presented quite a lively appearance on Wednesday. It being a beautiful day there was a good many in from neighboring ranches.

Messrs. Prip & Smith, Marshall, Tex., says: "Brown's Iron Bitters gives excellent satisfaction wherever tried."

A Bartlett started for the Falls on the morning of the 11th on a business trip he expects to bring out another new back to be put on the mail line. He had one passenger to the Falls.

Mr. Wm. Essary, one of our former townsmen, pulled into town from Wichita Fall, on Wednesday, with a four-mule outfit. He was loaded with corn for Richard & Saora's ranch.

Pure blood makes good health. Acker's Blood Elixer, endorsed by eminent physicians. At druggists.

Homer Mills, pulls his freight for the Falls tomorrow morning with H. L. Wright. Good bye, Homer, we will look for you back when the grass rises.

Josh Billings sarcastically remarks that Dr. Tanner and Walcott, the man who was to eat a brace of quails a day for thirty successive days, "ar a brace ov fules."

The southern mail came in last night with only five sacks of back mail. Copies of the Stock Journal, the first in two weeks came through delayed by the irregularity of this line.

The school house was the scene of much enjoyment last Wednesday night.

Several cases of small-pox are reported at Henrietta.

It is reported that the town of Vernon was the scene of a disgraceful affair on the night of the 28th. A desperado in that section, for whom there is a warrant out for arrest, led a party of cowboys into the town and raised a general disturbance, by "shooting up" the dance house and saloon.

Judge Willis left Monday morning for home. The Judge's pleasant and congenial manner wins for him hosts of friends wherever he goes.

We learn that Mr. G. A. Backus of Philadelphia, who visited Clarendon last fall, will come out in the Spring. He will probably be accompanied by a Mr. Hutchinson who will engage in business with him.

Mr. Kowalski has secured the services of Mr. C. Lugton, of Seymore, to assist him at his trade.

We have the honor of an acquaintance with Mr. Lugton who inspected the News sanctum a short time since.

Letters from the North state that in Wisconsin the temperature was -45° during the cold snap. It is quite likely that this condition of things among our northern friends quickens their longing for the comforts of the sunny South at this season of the year.

Latest advices are to the effect that Mr. Seeman Taber, who is now in Montague, Tex., will leave for Clarendon in a few days. We understand that this gentleman is interested in lands in this vicinity and that he will make arrangements for permanent location here.

Samuel Chadwick, more familiarly known as "Distant Moses", drifted in on us last Saturday. He came from Forest and McClelland's outfit on the Canadian River. He reports this outfit as having taken a large and extensive contract of fence building for Jule Gunter. They expect to get through by the first of May.

Mr. Frank Hassar is preparing to go into extensive agricultural operations very soon. He has just made the purchase of three mules, sulky plow and new lumber wagon, and has secured land on McClelland creek that he intends to make doubly productive by irrigation. He is also making arrangements to secure broken land to cultivate near town. Mr. Hassar deserves credit for his enterprise in this direction.

A communication from Mr. A. McKinney, well known here, states that he will start for Clarendon in a few days. He is now in Terrell, Tex., and we have the pleasure of stating, on good authority, that Al has "succeeded and gone over," and will in all probability bring with him to Clarendon one of the fairest daughters of the state.

We join with his many friends in congratulating him on his success and wish him a speedy and safe arrival at Clarendon.

It is reported that outside parties have recently bought of F. J. Miller, Ohio, his valuable section of land out South of town. Price paid \$1000 cash. These parties whoever they are, are very fortunate in buying this survey, especially so cheap, as it is regarded as being the site of our future town, when the Rail Road "boom" strikes us. If Mr. Miller had placed his interest in the hands of some of our local land agents probably "this thing had not come to pass."

Last Wednesday morning we were aroused to the importance and responsibility of our position in this world by the appearance of two apparitions on our table in the shape of two fac simile likenesses of the typographers of the News. We have no fault to find except perhaps they have little better clothes than we can support and that there are is a trifle more intellectual development and less understanding in the likeness than in the original; the apparent industry of both is however correct. We have been too busy to shed any tears over our good fortune, but will do so when we have time. The pictures were mailed to us on the 14th.

Personal.

Mr. Tom Martindale and Mr Gordon looked in on us Wednesday evening.

Charley Wright, of the Spade Ranch, is numbered among the pleasant callers of the week.

Mr. Plink, of the Bar O ranch inquired after the prosperity of the News yesterday.

The Charleston, South Carolina, News says "Texas ought to be the best educated state in the Union by and by, if it makes good use of its public school fund, which now consists of over \$4,000,000 in interest-bearing bonds and money, and 30,000,000 acres of land, worth \$1.50 an acre." The News is correct provided the government throws around this fund the safeguards necessary for its protection.—Statesman.

How the Ancients Spend Their Money.—People may say what they please, but some facts of history are, metaphorically speaking, difficult to swallow. For instance, we are told, that Cleopatra drank a glass of wine, in which was dissolved a pearl worth \$40,000; that Ptolemy's Ptolemy of Egypt had a fortune of \$559,000,000; that Esop, the poet, paid \$400,000 for a single supper, and that Heliogabalus resided in a bedstead of solid gold. All this may be true; but it seems more probable to say, that Swayne's Pills cure dropsy, bilious headache, indigestion, for there is more truth than poetry in it.

BYCICLES.—Every Jonathan in the land either owns or hires a bicycle and it is well to state right here that they have the right of way upon the sidewalks and the ladies should hereafter take to the gutters. But for purifying the Blood, Dispepsia, Loss of Appetite, Liver Complaint, Biliousness, Sick Headache, Jaundice, Dropsy, Fevers, Constipation, Epilepsy, etc., take Swayne's Pills, entirely vegetable and the best in the market. 25 cts. per box.

Mr. A. Gentry informs us that it is the wish of the people of Mobeetic to have the people of Clarendon unite with them in the festivities of the 23d inst., for which grand preparation has been made. Without doubt many will accept the invitation.

EXPOSE THE FRAUD.—Patent medicine venders are now putting up condition powders in packages as large as a nigger's foot for 25 cents, but they are utterly worthless. One small package of Sheridan's Condition Powders is worth a dray-load of them.

A copy of Prof. Tice's Almanac is on our table. It fully meets our expectations. It's calendar is complete, forecasting the possible weather for each day of the year 1883. As to the accuracy of the work, judging from actual test we cannot say, as whenever we thought a test necessary the condition of our woodpile has always been sufficient grounds for close calculation. When unlike the "widows jug" our chip yard refuses to answer the oft repeated demand upon it, then we know that a norther loometh.

Mr. W. N. Wetherly, of Good-night's range, was brought in from the ranch last Tuesday to be treated for a disabled arm. Upon his arrival here his arm was in a very bad condition being terribly swollen and inflamed and the patient suffering greatly from it. The cause of it was that the patient in some manner ran a splinter into his thumb and afterwards caught cold in it, everything possible was done to make him comfortable, and he is now improving.

"Rough on Rats." Clears out rats, mice, roaches, fleas gnats, bed-bugs, skunks, chipmunks gophers. 15c. Druggists.

An appeal in behalf of the starving goats of Michigan may be looked for shortly. A Detroit man has built a furnace in which refuse tinware, such as oyster cans, fruit cans, etc., may be treated in such a manner that the solder is restored to commerce and the sheets of tin, being rerolled, are available for binding the edges of wood trunks. From five hundred pounds of old cans he obtains about thirty-five pounds of lead and solder, and from old boilers, pails and other tin dishes a considerable amount of wire and other iron, all of which can be sold at a fair price.—Ex.

"Skinny Men." "Wells' Health Renewer" restores health and vigor, cures Dyspepsia, Impotence, Sexual Debility. \$1.

PARSONS' PURGATIVE PILLS

MAKE NEW RICH BLOOD. And will completely change the blood in the entire system in three months. Any person who will take 1 Pill each night from 1 to 12 weeks, may be restored to sound health, if such a thing be possible. For curing Female Complaints these Pills have no equal. Physicians use them in their practice. Sold everywhere, or sent by mail for eight letter-stamps. Send for circular. L. S. JOHNSON & CO., BOSTON, MASS.

DIPHTHERIA

JOHNSON'S ANODYNE LINIMENT. (For Internal and External Use.) CURES: Neuralgia, Influenza, Sore Throat, Bleeding at the Lungs, Chronic Hoarseness, Hooping Cough, Whooping Cough, Chronic Rheumatism, Chronic Diarrhoea, Chronic Dysentery, Cholera Morbus, Kidney Troubles, Diseases of the Spine and Lame Back. Sold everywhere. Send for pamphlet to L. S. JOHNSON & CO., BOSTON, MASS.

MAKE HENS LAY

An English Veterinary Surgeon and Chemist, now traveling in this country, says that most of the Hens and Cattle Powders sold here are worthless trash. He says that Sheridan's Condition Powders are absolutely pure and immensely valuable. Nothing on earth will make hens lay like Sheridan's Condition Powders. These 1 tea-spoonful to 1 pint food. Sold everywhere, or sent by mail for 5 letter-stamps. L. S. JOHNSON & CO., BOSTON, MASS.

Dyspepsia, the insidious foe to health, disappears by using Dr. Acker's Dyspepsia Tablets. At druggists.

In regard to the possession of Greer County, which has occupied the attention of every citizen in this section for the last year, the following extract from Governor Ireland's message is received with approval by every citizen:

"Your honorable bodies are in possession of all the facts in the Greer county controversy. I believe that Texas should no longer hesitate and thereby invite an adverse claim to that territory. I believe it to be the duty of the state to take possession and to treat it as a territory to which the state has an undoubted title."

Uncle Sam's Nerve and Bone Liniment is most efficient in Rheumatism Bruises, Burns, Scalds and many other ills incident to man and beast. Sold by all Druggists.

Washington, February 5.—A message from the President was laid before the Senate to-day transmitting a communication from the Secretary of War relative to the subject of invasion of the Indian Territory, in which he calls attention to the importance of amending section 2,148 of the Revised Statutes so as to impose a penalty of imprisonment for unlawful entry upon the Indian lands.

Dyspepsia and Indigestion. Elgia, Bastrop Co. Tex. Dr. Clarke Johnson:— I was afflicted with Dyspepsia for two years and was unable to keep food on my stomach. The use of your reliable INDIAN BLOOD SYRUP cured me.

The story of the cooking pot—California Grapes, Baked Beans, Sour dough and Apricots. "Buchupaiba" Quick, complete cure, all annoying Kidney, Bladder and Urinary Disease \$1. Druggists.

FOR SALE!!

"The Clarendon News" and JOB OFFICE are herein offered for Sale, at a low figure and on reasonable terms. It has now been established about five years and has a good circulation and advertising patronage, circulating in almost every state and territory in the union.

The office of the News will compare favorably with the best country offices anywhere in the state. We have one large Washington Hand Press nearly new, one quarto Gordon Paper Cutter; Thorp, No. 1 Card cutter; two Lead cutters; one imposing stone, three by six feet, with substantial frame; Two smaller imposing stones; a large amount of body type; and an abundance of job type, borders, leads, rule, cuts, racks, galleys, chases, desks, and in short, everything that is needed or that will be needed for some time to come. The parties owning the concern are engaged in other business and hence the desire to sell.

Address CARHART & CO. CLARENDON, TEXAS.

The public don't forget its advantages and always take "The Old Reliable" JOHN B. CARSON, Gen'l Manager, S. K. HOOPER, Gen'l Pass. & Ticket Agt.

NOW IS YOUR CHANCE TO SECURE TWO PAPERS FOR THE PRICE OF ONE. THE "CLARENDON NEWS" PRICE \$2.00

AND THE ARKANSAW TRAVELER PRICE \$2 PER YEAR, Will be mailed to each address one year for \$2.00 for both papers.

After contributing your support to your home paper, your next duty is to secure for your household that publication from which you can gain the most information—a paper which instructs while it entertains, and amuses while it imparts knowledge. No paper in the United States more neatly meets the requirements of a first-class family paper than THE ARKANSAW TRAVELER, a large forty-eight-column weekly, replete with the best literature and the choicest and most original humor.

THE ARKANSAW TRAVELER is under the editorial control of M. O. P. READ (late of the Little Rock Gazette), who has a reputation throughout the whole country as a writer of pure original humor. Texas Siftings says: "We have no doubt THE ARKANSAW TRAVELER will be a success; for as a humorist and satirical writer O. P. Read has no superior."

The Little Rock Gazette says: "To say that THE ARKANSAW TRAVELER meets public expectation, complimentary as is the assertion, is doing scant justice. It has not only met, but exceeded, the anticipations of the most zealous friends of the enterprise, and the initial number went forth to thousands, stamped 'success.'" Send 5 cents for sample copy. Four copies 15 cents. Address READ & BENHAM Little Rock, Ark.

**Stock Notes.**

We invite attention to the colossal proportions that the cattle business has reached within the last few years. An inspection of the report of the financial business of the Prairie Cattle Co., for the past year, gives an idea of its extent. We publish the following, from the Kansas City Price Current:

The number of cattle now owned by the Prairie Cattle Company is claimed to be 140,000. Notwithstanding this vast number and the wonderful stretch of country over which the cattle must roam, the company reports wonderful success and its stockholders much pleased with their venture. The Chicago *Driver's Journal* Liverpool correspondent of last week says:

"The second annual general meeting of the Prairie Cattle Company (Limited) was held in Edinburgh on last week, Sheriff Guthrie Smith, Chairman of the Company, presiding. The chairman, in moving the adoption of the report for the period ending 30th November, 1882, and the declaration of a dividend at the rate of 10 per cent per annum, with a bonus of 17s per share, as set forth in the report published on last week, said that the report sufficiently explained how the Company had reached its present extent and importance. The first year was purely experimental. They now reach the close of their second year, and he was happy to say that the result had been to confirm their feeling of confidence in the soundness of the principles on which this enterprise was based. The total number of cattle which they had acquired by purchase from the commencement of the Company, including this last year's herd of 7,400, and not omitting those which were bought, not for stock purposes, but for the purpose of fattening for sale, had been 104,491. Those had grown on their hands to between 130,000 and 140,000 altogether, while in the meantime they had drawn from them beef, sufficient to pay all their expenses, and £10,000 last year and £50,000 of the profits this year. It was a very remarkable increase, and might give them a notion of the present value of their property, because omitting anything for land and the value of their range rights, which had grown greatly on their hands, this number of cattle if sold at the present market price, namely \$26 a head, would be £722,800. He thought, although he did not wish to appear in the position of a prophet, that the rate of increase was likely to be continued."

**The Foreign Demand.**

The exports of American horned cattle from Boston to Europe markets were one-third less in 1882 than in 1881. The exports of dressed beef fell off fully one-half and all in consequence of the home demand holding up prices so that shipping for profit could no longer be relied on. The English market is a steady one, and a trifling figure less per pound but considerable in the aggregate, would have made the business larger in 1882. In every calculation on the prospects for beef cattle, the English market is a prime factor. Directly the prices are lowered, England taking the surplus readily, while an advance soon cuts them off from the market. In this foreign demand we have safety, and as their call is for prime beefs at good prices, the English market to a great extent will keep our cattle from being a drug on the home markets however large may be the supply—*Texas Live Stock Journal*.

Six years ago a man came to Wyoming from New England, and started in the cattle business on the Laramie plains with one solitary steer and a good serviceable branding iron. He now has over 500 head of stock, the multiplied increase of that one critter. Who says there is no money in the stock business?—*Boomerang*.
